

LOYOLA MARYMOUNT UNIVERSITY BULLETIN 2011-2012

The University Bulletin contains the academic and administrative policies and regulations that govern enrollment of undergraduate, graduate, and postbaccalaureate students at Loyola Marymount University. Students are responsible for knowing academic and administrative policies and regulations affecting their program of study and for abiding by all such policies and regulations during their period of enrollment at the University. Continued enrollment is subject to compliance with the academic and administrative policies and regulations. Failure to understand the policies and regulations does not relieve a student of her or his responsibility for adhering to the policies and regulations.

Students are governed by the applicable University and degree requirements in the University Bulletin of their entry year into the University. Students must normally fulfill the department major or program requirements in effect when they declare the primary major or program of study. If these requirements have been modified since the most recent Bulletin, students may be required to fulfill those with the most recent date. Students are advised to consult the chairperson of the major department or the appropriate program director for the correct information.

The University Bulletin is not an offer to enter into a contract. Loyola Marymount University reserves the right to make changes to degree program requirements, academic and administrative policies and regulations, financial charges, and course offerings published in the University Bulletin at any time without prior notice. The University strives to assure the accuracy of the information in the University Bulletin. However, the University reserves the right to make corrections as necessary to the University Bulletin. For changes that may occur, please log on to <http://registrar.lmu.edu>.

Loyola Marymount University does not discriminate on the basis of race, color, national origin, sex, handicap, or age. Loyola Marymount University seeks compliance with Title VI of the Civil Rights Act of 1964, Title IX of the Education Amendments of 1972, and section 504 of the Rehabilitation Act of 1973, which respectively prohibit discrimination. Inquiries regarding these issues may be directed to the Senior Vice President for Student Affairs. Students desirous of filing a complaint should contact the Senior Vice President for Student Affairs.

Summer 2012

May 14	M	Summer I classes begin
May 18	F	Last day to add or drop Summer I classes without a grade of "W"
May 28	M	No classes—Memorial Day
Jun 22	F	Summer I classes end
Jun 25	M	Summer II classes begin
Jun 27	W	Last day for instructors to submit Summer I final grades
Jun 29	F	Last day to add or drop Summer II classes without a grade of "W"
Jul 4	W	No classes—Independence Day
Aug 3	F	Summer II classes end
Aug 8	W	Last day for instructors to submit Summer II final grades

THE UNIVERSITY

History

The names "Loyola" and "Marymount" have long been associated with Catholic higher education in countries around the globe. Saint Ignatius Loyola, founder of the Society of Jesus, the Jesuits, sanctioned the foundation of his order's first school in 1548. The Religious of the Sacred Heart of Mary have conducted educational institutions since their establishment in France by Father Jean Gailhac. These two traditions of education have come together in Los Angeles as Loyola Marymount University.

The present institution is the successor to the pioneer Catholic college and first institution of higher learning in Southern California. In 1865 the Vincentian Fathers inaugurated St. Vincent's College for Boys in Los Angeles. When this school closed in 1911, members of the Society of Jesus opened the high school division in their newly founded Los Angeles College.

Rapid growth prompted the Jesuits to commence the collegiate department that same year, seek a new campus in 1917, and incorporate as Loyola College of Los Angeles in 1918. Relocating to the present Westchester campus in 1929, the school achieved university status one year later.

Graduate instruction began in 1920 with the foundation of a separate law school. The formation of the Graduate Division occurred in June 1950, though graduate work had formed an integral part of the Teacher Education Program during the preceding two years.

The Religious of the Sacred Heart of Mary began teaching local young women in 1923. Ten years later they opened Marymount Junior College in Westwood which first granted the baccalaureate degree in 1948. The school later transferred classes to a new campus on the Palos Verdes Peninsula in 1960. Eight years later, Marymount College moved again, this time to the Westchester campus of Loyola University as an autonomous college. At this juncture, the Sisters of St. Joseph of Orange joined the Marymount Sisters as partners.

After five years of sharing faculties and facilities, Loyola University and Marymount College merged and formed Loyola Marymount University in July 1973. Through this union, the expanded school maintained the century-old mission of Catholic higher education in Los Angeles.

In articulating a vision for this unique collegiate enterprise, the Board of Trustees turned to the history of the four-century-old Jesuit educational philosophy as well as to the history and traditions of the Marymount and St. Joseph's Sisters. They also recognized the riches of a variety of religious traditions represented among the dedicated faculty and staff that complemented and enhanced the school's heritage of Catholic values.

The University pursues quality in:

- Curricula of All Academic Programs
- Co-curricular Programs and Support Services
- Faculty, Administration and Staff
- Students
- Campus Life, Hospitality and Services

Loyola Marymount University:

- Promotes Academic Excellence

- Lives an Institutional Commitment to Roman Catholicism and the Judeo-Christian Tradition
- Provides a Liberal Education
- Fosters a Student-centered University
- Creates a Sense of Community on Campus
- Participates Actively in the Life of the Larger Community

University Mission Statement

Introduction

Loyola Marymount University offers rigorous undergraduate, graduate, and professional programs to academically ambitious students committed to lives of meaning and purpose. We benefit from our location in Los Angeles, a dynamic city that brings into sharp focus the issues of our time and provides an ideal context for study, research, creative work, and active engagement. By intention and philosophy, we invite men and women diverse in talents, interests, and cultural backgrounds to enrich our educational community and advance our mission:

- The encouragement of learning
- The education of the whole person
 - The service of faith and the promotion of justice

The University is institutionally committed to Roman Catholicism and takes its fundamental inspiration from the combined heritage of the Jesuits, the Marymount Sisters, and the Sisters of St. Joseph of Orange. This Catholic identity and religious heritage distinguish LMU from other universities and provide touchstones for understanding our threefold mission.

The Encouragement of Learning

At LMU, the encouragement of learning takes place in the context of an intellectual tradition that:

- Insists on critical thinking and the development of imagination and artistic expression
- Takes philosophical and theological disciplines seriously
- Engages in ethical discourse and embraces the search for values
 - Respects the integrity of the individual while at the same time pursuing the common good
 - Views the world as sacramental and seeks to find God in all things
- Encourages an integration of knowledge in which "faith and reason bear witness to the unity of all truth" (*Ex Corde Ecclesiae*, 1990, #17)

As a foundation for inquiry and learning, we strive to create an intercultural community and to promote ecumenical and inter-religious dialogue. This means that at LMU the encouragement of learning is a radical commitment to free and honest inquiry—but always with reverence before the mystery of the universe and openness to transcendent reality.

The Education of the Whole Person

With roots in the spiritual humanism of the earliest Jesuit colleges, LMU's pedagogical tradition has an abiding concern for the education of the whole person. Today we understand this as a simultaneous process of information, formation, and transformation. The education of the whole person thus includes these points:

- It encourages personal integration of the student's thinking, feeling, choosing, evolving self. It does this by fostering not only academic and professional development but also physical, social, psychological, moral, cultural, and religious/spiritual growth.
- It promotes formation of character and values, meaning and purpose. As students learn to "read" what is going on in their own lives and in the larger world, they are encouraged to grow in the skills of personal and social literacy needed for responsible citizenship.
- It seeks to develop men and women for others. LMU encourages students, faculty, and staff to identify with those living on the margins of society so that the intellectual inquiry and moral reflection endemic to university life will lead to meaningful work for transformative social change.

The Service of Faith and the Promotion of Justice

We take seriously both parts of this phrase. The service of faith encompasses all those ways in which the University engages its Catholic intellectual, cultural, and religious heritage. These ways include specific courses and academic programs as well as opportunities for worship, faith formation, and spiritual development.

The service of faith also honors the reality of religious pluralism on our campus and embraces inter-faith dialogue in formal and informal contexts. The desired outcome of such encounters moves us beyond tolerance to mutual respect and understanding, deepens appreciation of one's own faith, and creates opportunities for engaging others who share a longing for meaningful lives.

Finally, at LMU we insist that the service of faith is incomplete without the promotion of justice. Together with the University's sponsoring religious orders and the post-Vatican II Church, we believe that participating in the struggle for justice in ways appropriate to our academic community is a requirement—not simply an option—of biblical faith. In this struggle LMU makes common cause with all who share a commitment to local and global justice, whether they are motivated by faith or other noble ideals.

Updated May 2010

Goals

Loyola Marymount University promotes academic excellence by:

- Enrolling an academically ambitious, multicultural, and socio-economically diverse student body
- Recruiting, retaining, and supporting a diverse and multicultural faculty committed to excellence in teaching and active scholarship or artistic productivity
- Sustaining an excellent staff and administration as partners with the faculty in promoting academic excellence
- Engaging students in academic programs that explore the multicultural experience of American ethnic groups
- Maintaining an academic community in which freedom of inquiry and expression enjoy the highest priority
- Emphasizing the skills and knowledge necessary for a lifetime of intellectual growth and providing strong pre-professional and professional preparation in the undergraduate curriculum
- Offering excellent graduate and legal education in a context which promotes the highest standards of personal integrity and professional responsibility
- Developing and maintaining the physical facilities, equipment, and support systems that enable the university to carry out its academic mission
- Providing library facilities and services for excellence in the university's undergraduate, graduate, and professional programs

Lives an institutional commitment to Catholicism and the Judeo-Christian tradition by:

- Ensuring that Catholic faith and tradition continue to inform and inspire the Loyola Marymount educational experience
- Encouraging collaboration between members of the founding religious communities and other members of the University to give a distinctive tone to campus life
- Welcoming students, faculty, and staff from all faith traditions
- Emphasizing the examination of the moral and ethical implications of all human actions

- Fostering a just society through a commitment to social justice and service
- Offering opportunities for religious practice and faith development for the entire Loyola Marymount community

Provides a liberal education by:

- Offering a core curriculum that provides each undergraduate with a broad education in the liberal arts and sciences as the heart of the undergraduate experience
- Emphasizing the study of philosophy and theology in the undergraduate curriculum
- Challenging all students to think critically and reflect on basic values and issues, and free themselves from prejudice
- Supporting a faculty committed to excellent teaching and scholarship in a university based on the liberal arts tradition
- Encouraging students to understand their fields of studies in a broad intellectual, ethical, and social context
- Preparing students, undergraduate and graduate, to play active roles in addressing the problems and challenges of the larger society and world in which they live

Fosters a student-centered university by:

- Maintaining the residential character and medium size of the Westchester campus to assure that each student receives personal attention
- Encouraging staff, administration, and faculty to embrace the ideal of personal care and dedication to the well-being and development of each student
- Offering co-curricular programs that complement the academic programs and produce a coherent educational experience
- Supporting the full involvement of students in campus life by offering a wide variety of activities
- Providing opportunities for students to develop their leadership skills by actively involving them in decision making
- Challenging and encouraging students to lead and serve others

Creates a sense of community on campus by:

- Introducing new members of the community to the shared values and history of the university and reinforcing a sense of belonging for all members
- Assuring that the daily life of the campus reflects a vision of human dignity and fosters mutual understanding and caring
- Celebrating the richness and diversity of a multicultural campus
- Encouraging faculty, staff, administrators, and students to serve others, participate in the life of the University, and act as responsible and generous members of the academic community
- Providing opportunities to participate in making significant decisions through well-defined and fair procedures

Participates actively in the life of the larger community by:

- Using the resources of Los Angeles and Southern California to expand and deepen the student's educational experience
- Developing academic programs that address the dynamics and opportunities of the nations and cultures of Latin America and the Pacific Rim
- Inspiring faculty, staff, students, and alumni to serve their communities and society by applying their skills and knowledge to critical problems
- Contributing to the intellectual and cultural life of society through scholarship and the arts
- Providing leadership in the examination and discussion of the ethical dimensions of social issues
- Recognizing a particular responsibility to serve the global Church, and especially the people of the Archdiocese of Los Angeles and the local dioceses.

Approved by Board of Trustees, December 3, 1990

Interculturalism

Interculturalism is sharing and learning across cultures with the aim of promoting understanding, equity, harmony, and justice in a diverse society. Our actions must be grounded in, and guided by, the following:

- LMU is composed of individuals and groups who continue to grow in knowledge of the historical contexts from which we emerged.
- Knowledge of self and others, inspired by a commitment to human dignity and justice, is the hallmark of interculturalism.
- Promotion of the common good requires the recognition of similarities within a common humanity, the appreciation of differences, and the willingness to share cross-cultural experiences.
- Interculturalism is a dynamic and critical endeavor that involves the acquisition of knowledge, ongoing examination of the way we view the world, and purposeful action to promote a just and harmonious society at LMU and beyond.

Vision

Grounded in the *Catholic intellectual tradition*, Loyola Marymount University affirms human dignity and promotes justice. Different cultures are unique expressions of these common aspirations.

All cultures can contribute to the search for knowledge and the building of communities based on the common humanity of all people. At LMU, interculturalism is an essential source of academic excellence and a defining characteristic of our campus community. We draw upon interculturalism to create a university of excellence, to serve as a model Catholic institution, and to be a catalyst for the creation of a more just society built on respect and a sense of shared destiny.

We embody interculturalism in our policies, practices, and curricula. We promote personal and professional interaction, encouraging intercultural engagement to engender trust, respect, and compassion. Intercultural engagement enables us to share power and responsibility as we grow in self-knowledge, learn to value the unique qualities of diverse cultural groups, and understand the common elements of our shared humanity.

Accreditation

Loyola Marymount's academic programs have been accredited by the following organizations:

American Art Therapy Association
 American Bar Association
 Association of American Law Schools
 Association of Theological Schools
 Association to Advance Collegiate Schools of Business
 California Commission on Teacher Credentialing
 Committee of Bar Examiners of the State Bar of California
 The Engineering Accreditation Commission of the Accreditation Board for Engineering and Technology

Address:

Address:

985 Atlantic Avenue, Suite 100
 Alameda, CA 94501

Telephone: 510.748.9001

Membership

Loyola Marymount University is a member of the following organizations:

American Academy in Rome
 American Association of Colleges for Teacher Education

American Association of Collegiate Registrars and Admissions Officers
 American Chemical Society
 American College Personnel Association
 American College of Physicians
 American Council on Education
 American Counseling Association
 American Mathematical Society
 American Schools of Oriental Research
 American Society for Engineering Education
 American Volleyball Coaches Association
 Association of American Colleges
 Association of College and University Housing Officers—International
 Association of Fraternity Advisors
 Association of Graduate Schools in Catholic Colleges and Universities
 Association of International Educators
 Association of Jesuit Colleges and Universities
 Association of University and College Counseling Center Directors
 Association to Advance Collegiate Schools of Business
 Black Coaches Association
 California Association of Counseling and Development
 California Career Development Association
 California Council on the Education of Teachers
 California Educational Placement Association
 California Women in Higher Education
 College Entrance Examination Board
 Conference of the Registrars in Jesuit Institutions
 Consortium of Liberal Arts Small Independent Colleges
 Council of Graduate Schools in the United States
 Jesuit Association of Student Personnel Administrators
 Los Angeles Chamber of Commerce
 National Association of Advisors for the Health Professions
 National Association of Campus Activities
 National Association of College Directors of Athletics
 National Association of Colleges and Employers
 National Association of Graduate Admissions Professionals
 National Association of Schools of Art and Design
 National Association of Schools of Dance
 National Association of Schools of Music
 National Association of Schools of Theatre
 National Association of Student Employment Administrators
 National Association of Student Personnel Administrators
 National Catholic Education Association
 National Collegiate Athletic Association
 National Collegiate Honors Council
 National Consortium on Academics and Sports
 National Intramural Recreational Sports Association
 National Society of Experiential Education
 North American Association of Summer Sessions
 NSPE—National Society of Professional Engineers
 Organization of Counseling Center Directors in Higher Education
 Pacific Association of Collegiate Registrars and Admissions Officers
 Southern California International Careers Consortium
 Western Association of College and University Housing Officers
 Western Association of Colleges and Employers
 Western Association of Graduate Schools

UNIVERSITY FACILITIES

Academic and Administrative

A complex of five buildings, the Burns Fine Arts Center was opened in 1984. In Hogan Hall and Lemon Hall are housed the primary studios of the Dance Program, studios, and classrooms utilized by the Department of Art and Art History, the Department of Music rehearsal rooms and classrooms, as well as the offices of faculty dedicated to the various Fine Arts disciplines. The three additional buildings located here are the Laband Art Gallery, Murphy Recital Hall, and the Burns Faculty Center, which houses the Thomas P. Kelly Student Art Gallery.

The Harry & Kathleen Daum Hall, on the east side of campus, was erected in 1998. The Academic Resource Center is located on the second floor. *The Los Angeles Loyolan* and *The Tower* have offices in this building. Information Technology Services also has offices here.

Daum Hall Annex houses the ROAR Television Network.

The Jerome and Elvira Doolan Building, built in 1985, houses Computer Science and Engineering faculty, classrooms, and laboratories.

East Hall houses the Human Performance Lab, the Scene Shop, Event Operations, and space for Facilities Management.

The Engineering Design Center is located adjacent to East Hall and is a lab for mechanical engineering students.

Facilities Management, remodeled in 2002, houses Administrative, Building Management, Construction, Grounds Transportation, and Plant Operations Sustainability.

Foley Annex houses classrooms and offices, including Environmental Health and Safety, and Public Safety. Also, this annex accommodates faculty offices for the Frank R. Seaver College of Science and Engineering.

Foley Building, constructed in 1962, houses the Charles H. Strub Memorial Theatre, faculty offices, seminar rooms, and computer labs. It is named after Edward T. Foley, a benefactor of the University.

Located on the bluff between the Jesuit Community and the Leavey Residence Halls, the William H. Hannon Library was designed by AECOM and built by Snyder Langston. It opened in July 2009. Named for long-time LMU benefactor and Distinguished Alumnus William H. Hannon, the library is comprised of 120,928 square feet, with three levels above ground and a two-story basement below ground for high density collections storage. The building has seating for 865.

The Conrad N. Hilton Center for Business opened in the Fall of 1995. It houses classrooms, meeting rooms, lecture halls, faculty offices, Information Services, the Asian Business Center, and a 350-seat auditorium in a spacious, technologically advanced facility.

The Dorothy and Thomas E. Leavey Center, erected in 1968, houses the Ignatian Center for Spirituality, the Collins Faculty & Alumni Center, various athletic coaches' offices, and a chapel.

The LMU Children's Center was established in 2002 and is adjacent to Hannon Apartments.

Malone Memorial Student Center, named in honor of the late Fr. Lorenzo M. Malone, S.J., former Vice President of the University, was completed in August 1958. Renovation and expansion of the Center was completed in August 1996. Located in the Center are the Senior Vice President for Student Affairs, Department of Student Life, Associated Student offices, Campus Ministry Center, student dining, Career Development Services, Ethnic and Intercultural Services, and conference rooms. In addition, the Lion's Den, Living Room, and The Hill are located in this building.

North Hall and South Hall, located on the east side of the campus, house the Del Rey Theatre, the Associate Dean for Undergraduate Studies, the Natural Science department, classrooms, Science and Engineering labs, the Center for Student Success, and faculty offices.

Pereira Annex, located behind Pereira Hall, includes staff from the Santa Monica Bay Restoration Commission and faculty offices for the Frank R. Seaver College of Science and Engineering as its residents.

Pereira Hall, erected in 1955, houses the Frank R. Seaver College of Science and Engineering Dean's offices, classrooms, faculty offices, computer labs, and engineering labs. In 2011, the James E. Foxworthy, Ph.D., Fluid Hydraulics Laboratory was dedicated. This building is named

in honor of Br. John Pereira, S.J., who was responsible for much of the landscaping on the early campus.

Research Annex, erected in 1970, houses faculty offices and labs for the Frank R. Seaver College of Science and Engineering.

The Frank R. Seaver Hall of Science, erected in 1962, houses the departments of Biology, Chemistry and Biochemistry, and Physics and Engineering Physics. In addition to 22 undergraduate and research laboratories, the building contains faculty offices, seminar rooms, classrooms, and a computer lab.

St. Robert's Hall, erected in 1929, houses classrooms, the offices of the Dean of the College of Communication and Fine Arts and the Dean of the School of Film and Television, and in the annex, the Center for Service and Action. St. Robert Bellarmine, S.J., was a theologian and is a doctor of the Church.

University Hall, opened in 2000, houses University Administration, classrooms, faculty administration, an auditorium, dining facilities, Campus Graphics, and the following staff departments: University Relations; Human Resources; LMU Extension; Distribution Center; Controller's Office; Payroll; Graduate Division; Thomas and Dorothy Leavey Center for the Study of Los Angeles; Classroom Management; Marymount Institute for Faith, Culture, and the Arts; the Dean's office for the Bellarmine College of Liberal Arts; University Honors Program; the Dean's office for the School of Education; the Doctoral Program for the School of Education; and the Sponsored Projects Office.

The Charles Von der Ahe Building, named for its principal donor, was constructed in 1959 as the University's library. In 2010 it became a central location for Undergraduate Admission, the Office of the Registrar, Financial Aid, Study Abroad, Global Education, Student Financial Services, OneCard Office, the Bookstore, Student Innovation Center, Alumni Relations, and various Student Affairs offices including Parent Programs, The Learning Community, Off-Campus Student Life, First Year Experience, Transfer Programs, Veteran Programs, and the Office for International Students and Scholars.

Wil and Mary Jane Von der Ahe Communication Arts Building, completed in 1971, houses the Louis B. Mayer Motion Picture Theatre, faculty offices, Animation facilities, film classrooms, conference room, color television studios, and motion picture sound stage.

Xavier Hall, one of the first buildings constructed on this campus in the 1920s, is home to faculty offices for the School of Film and Television and Conferences. St. Francis Xavier, S.J., was an original companion of St. Ignatius.

Athletic Facilities

The Jane Browne Bove Boathouse was completed in 2002. The boathouse is in Marina del Rey.

The Fritz B. Burns Recreation and Aquatics Center, completed in August 2000, holds a fitness center, multipurpose center, concession stand, a pool, two gyms, and the recreation offices, plus the Student Health Center and Student Psychological Services.

The Albert Gersten Athletic Pavilion, dedicated in early 1982, expands the University's existing facilities to accommodate the intercollegiate athletic program, support facilities, Founder's Room, and Weight Room.

Leavey Field is situated on top of Drollinger Parking Plaza. Since 1995, it has provided space for Intramurals and intercollegiate sports.

The Lions Athletic Center opened in 2011. It houses the Chad and Ginni Dreier Family Weight Room, four locker rooms, a laundry room, athletics' ticket center, executive conference rooms, one of which is sponsored by the Alpha Delta Gamma fraternity, and offices.

On Sullivan Field, adjacent to the Pavilion, are located other athletic facilities of the University. These include the Burns Aquatics Center, LMU Tennis Center and the Morris A. Pivaroff and George P. Kading Tournament Court, George C. Page Baseball Stadium, Smith Field ballpark and the Lion's Cage baseball batting facility, Thomas Higgins, S.J., Short Game Center for golf practice, and soccer facilities.

Chapels

The Chapel of the Sacred Heart was completed in 1953. It has a seating capacity of 800. The Regents Memorial Tower and the Regents Tower clock were donated by the classes of 1961 and 1962; the tower has become a landmark of the campus.

Huesman Chapel, dedicated in 1947, is located in Huesman Hall.

Leavey Chapel was dedicated as the Chapel of Our Lady of Good Hope in 1968. This chapel is in the Dorothy and Thomas E. Leavey Center.

Mary Chapel, located inside the Chapel of the Sacred Heart, is used for daily mass and other liturgies.

The Marymount Center for Prayer and Peace hosts a chapel space for interfaith functions. Located in University Hall, the Marymount Institute, endowed by a generous contribution from the Leavey Foundation, established the Marymount Center in 2001.

Xavier Chapel is the worship space for the Jesuit Community. Located in Xavier Hall, the former Jesuit residence, it was built in 1928.

Loyola Law School

Established in 1920, Loyola Law School is one of the oldest law schools in Southern California. The campus is located in the Pico-Union district near downtown Los Angeles. Expansion of facilities began in 1980 under the direction of internationally acclaimed architect, Frank O. Gehry. The completed campus includes the William M. Rains Library, the Fritz B. Burns Academic Center, three lecture buildings, the Chapel of the Advocate, the Rev. Charles S. Casassa Building, the Albert H. Girardi Advocacy Center, and the Student Services Center.

Residence Halls

Del Rey North and Del Rey South Halls, opened in 2005, house approximately 200 students each and includes a dining facility, the Founders Arena.

Desmond Hall, erected in 1958, was named in honor of the Daniel and C.C. Desmond, generous benefactors of the University.

Doheny Hall was completed in 1986 and houses 120 students. The building is named for University benefactor, Carrie Estelle Doheny.

Hannon Apartments, erected in 1978, were named in honor of Eugenie B. Hannon, mother of William H. Hannon, alumnus, benefactor, and honorary trustee. They house 282 upperclass students and include The Loft.

Huesman Hall, erected in 1947, houses men and has a chapel and movie theater. It is named for Ralph R. Huesman, uncle of alumnus, Fred B. Huesman, and former trustee, John Huesman, S.J.

The Jesuit Community Residence, Ignatius Commons, built in 1999, accommodates the members of the Society of Jesus.

Leavey 4, 5, and 6 are apartment buildings. Leavey 4 was built in 2002, Leavey 5 in 2003, and Leavey 6 in 2005. The latter also includes Student Housing and a convenience store.

McCarthy Hall, erected in 1996, was the first residence hall built on the Leavey Campus. It accommodates 247 students. It is named in honor of J. Thomas McCarthy, philanthropist and generous benefactor of the University.

McKay Hall, erected in 1968, contains a diner-style restaurant. It is named for Sr. M. Raymunde McKay, R.S.H.M., former President of Marymount College.

O'Malley Student Apartments, completed in summer 2000, accommodates 164 students. It is named in honor of former LMU president Fr. Thomas P. O'Malley, S.J.

Rains Hall, on the Leavey Campus, was built in 1997. Named in honor of Lilore Green Rains, a philanthropist and generous benefactor of the University, this building houses 300 students.

Rosecrans Hall, erected in 1962, was named in honor of William S. Rosecrans, for many years Chairman of the Board of Regents and a generous benefactor of the University.

Sullivan, erected in 1947, is named for former Loyola College president, Joseph A. Sullivan, S.J. Located here are Sullivan Lounge and the Sullivan Academic Center.

Tenderich Apartments, completed January 1971, accommodates 143 students in 39 units. Tenderich is named for Ernst and Gertrude Tenderich, parents of former trustee, Mary Kretschmar.

Whelan Hall was completed in the summer of 1965. It is named for Rev. Edward J. Whelan, S.J., President of Loyola University from 1942 to 1949.

Social and Recreation Facilities

The Bird Nest, adjacent to Del Rey North, offers a beautiful view of Marina del Rey, Santa Monica, and the Pacific Ocean. The Bird Nest sponsors and hosts a wide variety of events.

Lawton Plaza was dedicated in 2010 as a multi-purpose amphitheater. Depending on the configuration, the Plaza can seat up to 1,300. It is named after the fourteenth president of LMU, Robert B. Lawton, S.J.

The Loft, located in the heart of the Hannon Apartments, Tenderich Apartments, and McKay residence hall, provides the southern campus with an informal, comfortable location to host a variety of events. The Loft was built in 1978 and renovated in 1994 and 2007.

Adjacent to St. Robert's Hall is St. Robert's Auditorium, which plays host to hundreds of events and programs from educational conferences and panel discussions to dances, speakers, and concerts. The auditorium can accommodate up to 350 people.

Legal Responsibility of the University

The University endeavors to safeguard students in the use of physical facilities, laboratories, athletic fields, and gymnasium, and to this end regulations concerning the use of such facilities have been established, but it is clearly understood that students who use the same do so entirely at their own risk. The University has no legal responsibility for injuries or other damages suffered by students on or off the campus, or in travel to and from school-related activities, or for any expense in connection therewith.

Use of University Property

No person may use University property in a manner, or for a purpose, or under circumstances forbidden by any applicable public law, ordinance, regulation, or order, or tending to interfere materially with the efficient and orderly conduct of any University business or function.

In line with this directive, any person or persons, whether students or non-students, registered student organization or other student groups, shall be required to obtain a permit from the Office of the Senior Vice President for Student Affairs prior to any proposed march, demonstration, public meeting, etc.

UNIVERSITY SERVICES

Campus Business Services—OneCard Office

The Campus Business Services office provides several key University services to students, faculty, and staff in support of the University's mission. The office provides support for the LMU OneCard, Cable TV, and Telephone Billing, as well as several other services.

The OneCard is a critical and integral part of campus life, especially for those living in University housing, providing card-based services ranging from on-campus dining to key-card access into buildings, admission to campus events and use at participating off-campus merchants.

Online services are available at <http://www.lmu.edu/OneCard> and can be used to add value to the OneCard, check balances, and suspend the card if it has been misplaced or stolen, as well as view current off-campus merchants who accept the OneCard as a debit card.

The office is located in the lower level of the Charles Von der Ahe Building, and can be reached at 310.338.2735 or onecard@lmu.edu.

Campus Ministry

Campus Ministry seeks to illuminate the world through transformative expressions of faith. To achieve this vision, we center our ministry on three main goals:

- To create a place where all are welcome and revered as sacred;
- To remember and celebrate all that gives life meaning, purpose, and passion;
- To accompany and empower all on the journey toward becoming more fully alive.

Rooted in the University's Roman Catholic identity and Jesuit and Marymount heritage, our outreach embraces people of all faith traditions. Through worship, retreats, spiritual direction, social justice opportunities, faith sharing groups, and a wide variety of other programming, Campus Ministry is a community of diverse and passionate people committed to creating a safe and friendly environment. We are dedicated to sharing in the discovery and experience of wonder and awe in the world. In times of distress, we comfort, console, and encourage healing and reconciliation.

Campus Ministry is a place to belong, believe, and become.

For more information about specific programming and the many ways we work to live out the mission of Loyola Marymount University, contact us at <http://ministry.lmu.edu>, 310.338.2860, or in the Sr. Peg Malone, R.S.H.M., Campus Ministry Center in Malone 210.

Center for Ignatian Spirituality

The Center for Ignatian Spirituality exists to promote the integration of Ignatian spirituality with the life of the University. It serves as a resource for those seeking to develop a personal spirituality, one rooted in an ever-deepening commitment to the service of faith and the promotion of justice. For more than four-and-a-half centuries, Ignatian spirituality has stood radically open to the diverse ways in which God enters the history of individuals and groups.

The Center has four main goals:

- To develop programs that enable the faculty and staff to grow in knowledge and experience of Ignatian education and spirituality;
- To provide ongoing spiritual-growth support for those faculty and staff who have made the Ignatian Spiritual Exercises and for those who have engaged in Ignatian Spirituality practices.
- To encourage and support faculty and staff members to assume leadership roles in these spiritual endeavors within their college, department, and division; and
- To serve as a resource for all members of the University community interested in Ignatian values.

The Center can be reached at 310.338.1806 and is on the web at <http://www.lmu.edu/CIS>.

Conference, Event, and Classroom Management

The department consists of three offices: Conference Services, Event Services, and Classroom Management.

Conference Services manages reservations by outside groups and organizations seeking to rent space at LMU for their day or overnight conference, including summer programs. This office can be reached at 310.338.2975.

Event Services is comprised of Event Scheduling and Event Operations. Event Scheduling manages the space allocation of LMU facilities and handles the confirmation of space, equipment, and other event-related resources for the LMU community. They are your one-stop shop for your event needs. Event Operations is responsible for the delivery and set-up of equipment and well as the maintenance of campus resources that are used in support of LMU events.

Event Scheduling can be reached online at <http://www.lmu.edu/events> and via phone at 310.338.2878.

Classroom Management is responsible for maintaining, updating, and supporting classroom spaces across campus. They can be reached at 310.338.1735.

Marymount Institute for Faith, Culture, and the Arts

The Marymount Institute for Faith, Culture, and the Arts preserves the transformative educational tradition of the Religious of the Sacred Heart of Mary and promotes a dialogue between faith and culture as expressed in fine, performing, literary, and communication arts.

The Institute strengthens the contributions of the Marymount tradition and legacy to the Loyola Marymount University community and the larger society. It does this by encouraging interdisciplinary and intercultural scholarly and artistic activity in the form of research and publication, exhibits, performances, conferences, seminars, and lectures.

The Marymount Center is located on the third floor of University Hall, 3002, and may be reached at 310.338.4570.

Food Services

Sodexho, the restaurant service of the LMU community, provides a program that strives to meet and exceed the dining needs of its student population. There are several locations on campus that offer flexible hours, in settings that complement and enhance the community experience, including the Lair Marketplace, the University Hall Roski Café, Jamba Juice, the Lion's Den, the Lion's Corner Café, Jazzman's Café, the C-Lion convenience store, Crimson Lion, Iggy's Diner, and Pizza del Rey.

Call 310.338.2977 for more information, or visit online at <http://dining.lmu.edu>.

Information Technology Services

LMU Information Technology Services (ITS) provides management and services in support of the University's information technology resources. These resources include the campus network and telecommunications systems, computer labs, computer centers, administrative information systems, and web and instructional technology services. ITS provides these services in an effort to enhance the intellectual life and experience of students and the University community and to provide for efficient technology operations.

The ITS department's services include the support of the technical infrastructure of campus networks and computer workstations, computer labs, data centers, registration systems, technical training and instructional technology, classroom management, and other academic and administrative systems.

ITS has two primary locations on campus as well as several distributed offices and functions throughout the campus. The main administrative

offices are located in Daum Hall. The Student Information and Support Center is located in the lower level of the Charles Von der Ahe Building. The ITS website is <http://its.lmu.edu>. The Student Information and Support Center is open Monday-Thursday, 9:00 a.m.-8:00 p.m.; Friday, 9:00 a.m.-5:00 p.m.; and Saturday, 9:00 a.m.-5:00 p.m. Phone: 310.338.7777 option 3 (on-campus extension 87777); e-mail: studenthelp@lmu.edu.

Student E-Mail and Network Access

The campus-wide network is available to all LMU students. Upon enrollment and registration, an LMU student is automatically assigned an e-mail address and a network account. The network allows students to access services like PROWL (the online registration system), library databases, the Internet, and other services. There are no fees associated with using the campus network, and all accounts are password protected. Most systems, such as e-mail, are web-based and available from off-campus also.

Student Telecommunications

In residence halls, ITS provides basic analog telephone lines and voice mail for students. Students need to use their own analog phone handsets. Students are required to enter a 7-digit Personal Billing Number (PBN) in order to call to a non-university number.

Computer Labs and Villages

The University provides technology access to students throughout the campus with its two general-purpose computer labs and 31 area-specific and speciality labs. Students may contact the Student Lab Coordinator at 310.338.4489 for more information.

Maintained by ITS, the general purpose labs have either Windows- or Mac-based workstations, offer extended hours, contain at least 20 workstations, and provide access to a variety of popular software programs.

In addition to the general purpose labs, many academic departments provide discipline-specific computer resources and training labs. These labs vary in size and function and often use specialty software for e-learning, research, and training. The computer village areas are located within academic departments in University Hall. In addition to spacious working areas, these villages provide a social dimension to workstation computing where students and faculty can interact and integrate technology into the educational experience.

Other ITS Services for Students

MyLMU Portal

MyLMU is a "one-stop" web community that provides students, faculty, and staff with access to various campus systems, online groups, e-mail, calendar, registration, forms, news, communications, and more. MyLMU is the online gateway for students to access student services and information. MyLMU is available from on and off campus at <http://my.lmu.edu>.

MyLMU Connect

ITS supports the use of MyLMU Connect, an environment for online teaching, learning, and collaboration. MyLMU Connect is utilized by many LMU faculty and is available online through MyLMU at <http://my.lmu.edu>.

PROWL

The Personal Records Online Web Link (PROWL) provides faculty and students with secure web-based access to class registration, grades, and other information maintained by the Office of the Registrar. PROWL is accessed through MyLMU at <http://my.lmu.edu>.

Loyola Marymount University Children's Center

The Loyola Marymount University Children's Center was established to address the child care needs of the University community. The LMUCC is an on-site, employer-sponsored organization dedicated to quality care for children of all those who make up the LMU and greater Westchester communities. Care is made available for children of the faculty, staff,

and students, with a limited number of spaces available to alumni, qualified on-campus employees of University service contractors, and neighborhood residents. In keeping with the Jesuit and Marymount traditions, we strive to meet the needs of the community of which we are a part by incorporating diversity into a values-centered curriculum.

The Center's early childhood professionals are committed to educating the whole child—socially, emotionally, physically, and intellectually—to set the stage for life-long learning. Based on developmentally appropriate practice, the curriculum focuses on play, creativity, and hands-on discovery learning for children 6 weeks to 5 years of age. Our intention is to be a model of quality Early Childhood Education programs for the communities we serve.

Contact 310.258.8900 for more information.

Public Safety

The Public Safety Office is located in Foley Annex and is open seven days a week, 24 hours a day. Lost and found is located here.

Public Safety may be contacted by phone at 310.338.2893. In case of emergency, dial 222 from any on-campus phone.

All motor vehicles used on campus must be registered through Public Safety. The registered owner is responsible for displaying the University parking decal, affixed at the time of vehicle registration.

For more information about Public Safety's services, please go to <http://www.lmu.edu/publicsafety>.

University Bookstore

Books, sundry items, school spirit clothing, and gifts are available through the University Bookstore. The operating hours during the academic year are: Monday-Thursday, 7:45 a.m.-7:00 p.m.; Friday, 7:45 a.m.-5:00 p.m.; Saturday, 9:00 a.m.-3:00 p.m.; and closed on Sundays.

The main campus store is located on the lower level of the Charles Von der Ahe Building. There is also an annex, selling snacks and gift items, located on the first floor of University Hall.

Shop 24 hours a day at <http://www.efollett.com>.

University Media

LMU Annual Report

This annual report highlights activities and accomplishments of the past year.

LMU Magazine

LMU Magazine is the University and alumni magazine for Loyola Marymount University. It is one of the many ways LMU keeps its alumni, faculty, staff, parents, and friends informed about what's happening on this vibrant campus. The *LMU Magazine* mission is also to help the LMU community learn more about students, faculty, staff, and alumni; explore contemporary issues in society; find service and networking opportunities; and stay in touch with our Jesuit and Marymount traditions. For more information, go to <http://magazine.lmu.edu>.

University Organizations

Alumni Association

The Loyola Marymount Alumni Association is composed of approximately 50,000 former students of Loyola University, Marymount College, and LMU. The Association's vision is to build and maintain lifelong relationships that add value to alumni and to the University. Through the Association, alumni and students help ensure the continued excellence of LMU and are challenged to live LMU's mission in their social, spiritual, professional, and intellectual experiences. Programs and events that promote this mission include: Alumni for Others—LMU's signature alumni service program, President's Day—when LMU's president hosts alumni as they return and learn, Alumni Grand Reunion, Alumni BBQ, and regional events in cities across the country. Guiding the Alumni Association's programs are dedicated volunteers including the Alumni Association Board of Directors, regional event planners and hosts, and student leaders. To access the Association's calendar of events, benefits, and services, or ways to become involved, visit <http://www.lmu.edu/alumni>.

Loyola Marymount University Parents Association

The LMU Parents Association is an informal organization of all LMU parents. Under the leadership of the Parent Ambassador Council, the Association seeks to broaden the understanding of the educational philosophy and goals of the University, act as a liaison between the administration and parents to ensure the exchange of ideas and mutual concerns, and respond to the needs of the University. For additional information or to become a Parent Ambassador, please contact the Office of Parent Relations at 310.338.7037.

STUDENT AFFAIRS

The Division of Student Affairs is committed to providing co-curricular experiences which enhance the educational mission and foster the total development of the student. The Office of the Senior Vice President for Student Affairs is the administrative center and leader of the Division and its departments and programs. Similarly, the Student Affairs Dean of Students Office serves as a liaison between the Division and University academic departments to enhance overall student welfare.

The Division of Student Affairs holds students as central to the mission and values of the University.

The goals of the Division of Student Affairs are:

- To promote innovative programs and events which develop an enlivened and engaged campus community
- To instill in students the value of service and the promotion of justice
- To guide students through a process of reflection, self-discovery, and character development
- To promote the balanced development of body, mind, and spirit
- To foster students' respect for each other in an intercultural community
- To advance the University's recruitment and retention efforts.

These goals are implemented through services and programs which are provided by the following areas:

- Office of the Senior Vice President
- Dean of Students Office
- Athletics
- Campus Recreation
- Career Development Services
- Center for Service and Action
- Ethnic and Intercultural Services
- First Year Experience
- Judicial Affairs
- LGBT Student Services
- Off Campus Student Life
- Office for International Students and Scholars
- Parent Programs
- Student Health Services
- Student Housing
- Student Leadership and Development
- Student Media
- Student Psychological Services
- Transfer Programs
- Veteran Programs

Learning Outcomes

Graduates of Loyola Marymount University will:

- Develop a well-defined sense of self and confidence in their abilities and gifts
- Adopt lifestyles that reflect a balance of spiritual, physical, emotional, and intellectual health
- Integrate knowledge and experience in the process of discernment to make life-giving decisions
- Take initiative to make meaningful contributions as citizens within and beyond their communities
- Demonstrate an understanding of a diversity of the human experience and embody the ideals of interculturalism
- Educate themselves about contemporary social justice issues and strive to create a more just society.

Athletics

Loyola Marymount University participates in nine intercollegiate sports for men: basketball, baseball, crew, cross country, golf, soccer, tennis, track, and water polo; ten intercollegiate sports for women: basketball, crew, cross country, soccer, softball, swimming, tennis, track, water polo,

and volleyball; and one coed sport: cheerleading. LMU is a member of the National Collegiate Athletic Association Division I and competes in the West Coast Conference, the Western Water Polo Association, the Mountain Pacific Sports Federation, and the Pacific Coast Softball Conference. For more information, please visit our website at <http://www.lmutions.com>.

Medical Examination for Intercollegiate Student Athletes

New and returning students planning to participate in intercollegiate sports are required to submit a completed LMU Athletics Department Medical Clearance Packet, signed by their private physician, to the Athletics Compliance Office prior to their participation in conditioning, practice, and/or competition.

Campus Recreation

Campus Recreation at LMU supervises the facilities, services, and programs dedicated to student recreation. The recreation facilities consist of the Fritz B. Burns Recreation Center including the FitWell Center, and student hangouts such as the Lion's Den Coffee Shop, Huesman Movie Theater, The Living Room, The Commons, and the Loft Sports Lounge.

Campus Recreation also offers a number of services and programs such as Club Sports, Fitness & Wellness programs, Intramural Sports, as well as events by Mane Entertainment for the entire LMU community. Finally, Campus Recreation provides student transportation through services such as Lion Express Shuttle Service and Zipcar auto sharing service.

The Fritz B. Burns Recreation Center provides the opportunity for physical recreation, including group exercise classes, Intramural and Club Sports, lap swimming, and a state-of-the-art workout facility. (Please see Tuition and Fees for current rates.)

The FitWell Center, located on the first floor of the Recreation Center, is committed to providing health and wellness programming and education for the entire LMU campus. Offerings include a variety of group exercise classes, personal training packages, fitness assessments, and specialized wellness presentations.

Student Hangouts

The Department of Campus Recreation student hangouts allow the LMU community to study, meet up with friends, watch TV, play games, use a computer, enjoy food/beverages and more across campus. These locations include the Lion's Den, Huesman Movie Theater, The Living Room, The Commons, and The Loft.

The Lion's Den is a student-run coffee shop with a friendly energetic staff serving only 100% fair trade, shade grown, organic coffees, hot chocolate, and delicious pastries. For more information, visit the website at <http://www.lmu.edu/studentlife/campusrec/lionsden.htm>.

The Huesman Movie Theater provides a high quality theatre experience at a low cost for students on campus. The Huesman Theater shows a mix of recently released movies as well as long standing classics, providing options for every student. Schedules are set monthly, generally with showings on the weekends.

The Commons is a comfortable student-oriented lounge on the first floor of the Malone Student Center that serves multiple functions, including a location to study, meet, watch TV, and use a computer throughout the day. It features computers, tables, and couches devoted to student use.

The Living Room is a performance venue featuring events almost every night of the week, from live concerts and stand-up comedians, to poetry readings and Open Mic Nights. During the day and evenings at the end of the semester, the space is used as a location for study groups.

The Loft is a casual, standalone student-run facility with two levels. The first floor feature a living room-type setting with a fireplace and pool table. The large open area upstairs contains big flat screen TVs, allowing students to be able to enjoy a beverage and snack while watching their favorite sports team play. The Loft hosts special events like Senior Nights and private parties.

Entertainment

Mane Entertainment is responsible for all social programming for Campus Recreation. Weekly, students can enjoy bands, comedians, hypnotists, spoken word, and other forms of entertainment in the Malone Student Center Living Room. Mane Entertainment also coordinates the Men's Basketball Tailgates, Convo events, and cultural celebrations. Additionally, it nurtures the growth of student performers with a weekly Open Mic night as well as student competitions like Battle of the Bands and Last Student Standing events.

Student Transportation

The **Lion Express** provides shuttle service to local attractions including shopping malls, restaurants, and of course, the beach. There is no charge to ride the shuttles, but a valid LMU OneCard is required, and reservations should be made in advance.

Zipcar is the world's largest car sharing service and provides students with a convenient, economical, and environmentally-friendly alternative to the hassles of having a car on campus. Zipcar arrived at LMU in the fall of 2010 and provides students with the opportunity to use its vehicles 24/7. For more information, go to: <http://www.zipcar.com/lmu>.

Career Development Services

Career Development Services, in support of the mission of Loyola Marymount University and the Division of Student Affairs, is dedicated to the development process of the education of the whole person. Career Development Services is comprised of three areas: Student Employee Services, Career Counseling, and Internship and Employer Services. All students, both undergraduate and graduate level, and alumni may participate in a wide variety of services. Students and alumni may contact Career Development Services by calling 310.338.2871. For more information on these services and upcoming events, students can also visit the [website](http://www.lmu.edu/studentlife/Career_Development_Services.htm) at http://www.lmu.edu/studentlife/Career_Development_Services.htm.

Office hours are 8:00 a.m.-5:00 p.m. Monday-Friday with extended hours on Wednesdays and Thursdays from 5:00 p.m.-7:00 p.m. when classes are in session. Students and alumni of the MBA program are encouraged to visit the Office of MBA Career Services located in the Hilton Center for Business or by calling 310.338.7558.

Student Employment Services

Student Employment Services provides part-time employment assistance to all LMU students. It offers skill development and contributes to the overall campus experience.

All part-time employment opportunities may be found at <http://lionjobs.lmu.edu>.

Undergraduate and Graduate Student Employment

Federal Work Study and LMU Work

Federal Work Study and LMU Work is the largest source of employment for undergraduate students. Work Study is awarded to students based upon financial need and is jointly funded by the Federal Government and the University. Opportunities for employment are either on campus or off campus at designated non-profit organizations. Work Study must be requested as part of a student's FAFSA submitted to Financial Aid. To apply for Work Study jobs, please visit LionJobs at <https://lmu-csm.symplicity.com/students>, and search for positions under the Work Study tab.

Transfer Work (T-Work)

Various University departments fund on-campus part-time positions through Transfer Work funding and do not require financial need as a qualification for eligibility. T-Work is the largest source of funding for graduate students including Graduate Assistantships. Applications for Graduate Assistantships can be found at <http://graduate.lmu.edu/resources/assistantships.htm>. Other T-Work positions can be found under the part-time position tab on LionJobs at <https://lmu-csm.symplicity.com/students>.

Part-Time Employment Off Campus

Student Employment Services works with employers off campus to provide employment opportunities for students in a variety of fields. These positions can be found under the part-time position tab on LionJobs at <https://lmu-csm.symplicity.com/students>.

Additional Employment Opportunities

Student Worker Program

The Student Worker Program gives undergraduate students the opportunity to live and work on campus on a year-round basis while at the same time earning money toward their tuition. The Student Worker Program consists of 12 men and 12 women, working in various University departments. To apply, students should contact the Student Worker office at 310.338.5013.

Career Counseling

Career Development Services is committed to encouraging students to discover their own strengths, interests, and values; engaging employers who present opportunities for students and alumni to use their professional work to make a positive difference; and providing meaningful services to our constituent communities. The staff of trained professional counselors is here to help by providing the following services:

- Career Counseling
- Mock Interviews
- Resume Critiques and Preparation Assistance
- Career Development Strategies Course (LIBA 250/251)
- Graduate and Professional School Preparation
- Career Interest Assessment
- Career Resource Library

Internship and Employer Services

CDS encourages all students to gain practical experience in their field of study prior to graduation. CDS helps students develop strategies to obtain an internship and gain a better understanding of their chosen career. Also, to better assist those students who are gearing up for "Life After LMU," the department offers a series of programs and services intended to connect them with employers and representatives from graduate schools and programs. The online database, LionJobs, allows students to sign up for part-time on- and off-campus jobs, and to meet with employers coming to campus to interview students. The staff offers the following:

- Annual Career School Fairs
- Employer Information Sessions
- On-campus Recruiting
- Internships and Job Search Advising
- Mentoring and Networking Programs
- Online Job and Internship Listings on LionJobs
- Annual Graduate School Fair
- Etiquette Dinner

Center for Service and Action

The Center for Service and Action (CSA) seeks to educate and form men and women for others, especially with and for the disadvantaged and the oppressed. Through direct personal contact between students and the marginalized in community-based learning experiences, CSA fosters a solidarity with the poor that will lead to intellectual inquiry, moral reflection, and social action.

CSA is directly responsible for Community-Based Learning Courses, the Service and Action House, the Service Organization Program, Post-Graduate Volunteer Service Advisement, Underwings Praxis, El Espejo, and the Alternative Breaks Program. For more information, please call 310.338.2959 or visit the [website](http://www.lmu.edu/studentlife/csa.htm) at <http://www.lmu.edu/studentlife/csa.htm>.

Ethnic & Intercultural Services

Ethnic & Intercultural Services (EIS) is a student-centered department guided by Loyola Marymount University's mission to encourage learning, educate the whole person, and foster the service of faith and the promotion of justice. Grounded by LMU's intercultural values, EIS serves as a resource for all students as they prepare for the challenges and rewards of living in a diverse society. EIS Offices work in concert to empower all students to participate fully in campus life and achieve personal success, with a special focus on helping first-year students of color transition to university life. Ethnic & Intercultural Services consists of five linked offices—Asian Pacific Student Services, Chicano Latino Student Services, Intercultural Affairs, Jewish Student Services, the Office of Black Student Services, and one Peer Mentor Program—that reflect the rich diversity of Loyola Marymount University. Office hours are Monday-

Friday from 8:00 a.m. to 5:00 p.m., with extended hours from 5:00 p.m. to 7:00 p.m. on Wednesdays when classes are in session. For more information, please call 310.338.5808 or visit the website at <http://www.lmu.edu/studentlife/eis.htm>.

Peer Mentor Program

The EIS Peer Mentor Program is designed to provide services and activities to first-year students of culture to aid in the transition from high school to college and engage them academically and socially in all aspects of the University. The Peer Mentors are committed to helping students excel in their first year of college by providing guidance, friendship, encouragement, information about University resources and college life, and opportunities for interaction within LMU's intercultural community. Assigned to mentor groups according to major, freshmen are immediately immersed within a group of students with whom they can socialize, study, and learn. Some of our key programs are: First Year Getaway Weekend, First Year Social, Prowl 101, and Finals Week Care Packages.

Asian Pacific Student Services

Asian Pacific Student Services (APSS) engages the intercultural community at Loyola Marymount University in the issues, culture, and experiences of Asian Pacific Americans through advocacy, community building, education, resources, programming, and the development of leaders. APSS aims to raise consciousness by developing a community of like-minded individuals who will continue throughout their lives to support the mission of Loyola Marymount University with an open and developing understanding of Asian Pacific Americans and the larger intercultural global community.

APSS programs include THIRD TUESDAY (a monthly opportunity to hang out in the casual setting of the Living Room while enjoying various Asian Pacific American performers—spoken word, theatre, live music, etc.); POWER TRIPS (empowering field trips out into Asian Pacific American Los Angeles); the APA ROUNDTABLE (a monthly gathering of APA student organizational leaders); and various other regular opportunities throughout the year to engage in—dialogue, learn, share, enjoy, empower, and celebrate—Asian Pacific America. APSS works closely with the Asian Pacific American community both on and off campus as well the greater LMU community.

Chicano Latino Student Services

Chicano Latino Student Services (CLSS) provides culturally sensitive programs that foster and promote the academic and personal success of Latino/a students. In addition, it strives to educate the campus about Latino/a issues and the ethnic diversity represented within the community (i.e., Central and South America, Caribbean, and Mexico).

In collaboration with Student Leadership and Development, the CLSS Office provides advisement to over 14 student clubs and organizations reflecting academic, cultural, professional, service, athletic, and social diversity.

Jewish Student Services

The Office of Jewish Student Services oversees and works very closely with the student group, Hillel. It seeks to create an open environment for discussing aspects of the Jewish faith among peers, and to build an environment excited to engage together in learning, social and cultural activities, social justice projects, and prayer. Students who engage with the Jewish community at LMU have an opportunity to celebrate Judaism as an integral part of life at LMU. Hillel is a student-led group on campus focused on the exploration of and engagement in Jewish life on campus. It is open to students of all faiths who are interested in exploring and participating in Jewish activities, holidays, and celebrations. Some of the signature programs are: Campus-wide Shabbat Dinner, Sustainable Seder: A *Tu B'Shvat* experience, Purim Extravaganza, and Free At Last? Passover and Civil Rights Past and Present.

Intercultural Affairs

The Office of Intercultural Affairs is dedicated to developing an environment that encourages intercultural awareness, understanding, and interaction. Intercultural Affairs is committed to developing socially responsible men and women who understand that as we learn to value the qualities of diverse cultures, we begin to appreciate the shared element of our common humanity. The office provides human relations trainings, meditations, advocacy, open forums, retreats, and classes all focused

toward developing students committed to the Loyola Marymount legacy of cultural consciousness and progressive social action. Some of the signature events include: The Intercultural Summit, The Intercultural Roundtable, Unity Fest, Empowerment Sessions, and Men and Women For and With Others sessions.

Office of Black Student Services

The Office of Black Student Services (OBSS) enhances and engages the intercultural campus environment through programs and services focuses on the African American community. OBSS signature co-curricular programs and services include The Annual Student Retreat, Kente Graduation, Black History Month events, and Frosh Conversations.

First Year Experience

First Year Experience aspires to build relationships with students in order to ensure the successful transition of every first year student into the collegiate culture of Loyola Marymount University. This is accomplished through involvement in campus activities, learning, and development opportunities. Upon completion of their first year, it is our hope to have freshmen involved in campus organizations, clubs, and student groups in order to cultivate a positive sense of self, confidence, and to acquire the tools necessary to educate the whole person. For more information on First Year Experience, call 310.338.5252.

Judicial Affairs

Mission

Operating within the context of the University's mission, the Department of Judicial Affairs seeks to maintain the University's academic environment by educating and upholding community standards. The Department of Judicial Affairs supports the educational mission of the University by administering the Student Conduct Code in a manner that educates and holds students accountable for Student Conduct Code violations and helps students develop into more responsible and community-minded persons.

About Judicial Affairs

The Department of Judicial Affairs is committed to fostering an environment conducive to the pursuit of knowledge. Such an environment is based upon respect, trust, and integrity among all members of the LMU community: students, faculty, and staff. As members of this community, students are entitled to certain rights and privileges. In order to protect rights and privileges for all students, there are guidelines for student conduct which facilitate the educational goals of the University. It is necessary that students become familiar with their rights and responsibilities as members of the LMU community. The LMU Community Standards Publication outlines standards of behavior which are appropriate for students in the community.

Policies have been established to assist in building a learning community where the respect, consideration, and dignity of every member of the LMU community are priorities. Of course, no single policy or group of policies can anticipate every eventuality. Accordingly, LMU expressly reserves the right to revise, supplement, or withdraw any policy or portion of a policy from time to time as it deems necessary.

The Student Conduct Code is published in the *Community Standards*. All students are responsible for the contents within the *Community Standards*. Physical copies of this booklet are available in the Department of Judicial Affairs, Malone 355. The electronic version can be found on the Judicial Affairs website at http://www.lmu.edu/studentlife/Judicial_Affairs.htm.

The Department of Judicial Affairs is open Monday, Tuesday, Thursday, Friday from 8:00 a.m.-6:00 p.m., on Wednesday from 8:00 a.m.-7:00 p.m., and may be contacted via telephone at 310.338.1821.

LGBT Student Services

The Loyola Marymount University Office of LGBT Student Services is committed to serving the needs of gay, lesbian, bisexual, transgender, and questioning students. In keeping with the University's belief in the dignity and worth of all members of our campus community, the Office supports and affirms all students regardless of sexual orientation or gender identity. In addition, the Office works to educate and enhance understanding, acceptance, and awareness regarding LGBT issues and concerns. The Office provides programming, resources, support, and

networking opportunities for gay, lesbian, bisexual, transgender, and questioning students and the general student population. For additional information about LGBT Student Services, call 310.338.5482.

Off-Campus Student Life

Working within the University's mission to educate the whole person, Off-Campus Student Life provides programs and services for those LMU students living outside the University resident community, with efforts directed towards building positive community relations, encouraging personal responsibility, and developing life-long citizenship. For additional information on Off-Campus Student Life services, call 310.LMU.6262.

Office for International Students and Scholars

The Office for International Students and Scholars (OISS) promotes international education, mutual understanding, and cultural exchange through the administration of international programs and services designed to promote greater collaboration among LMU's international and local communities.

The OISS provides vital immigration assistance to international students, staff, and faculty, both at the Westchester Campus and Loyola Law School. OISS provides assistance in matters related to maintaining non-immigrant status under LMU's international programs and complying with the regulations of the Department of Homeland Security (DHS), U.S. Citizenship and Immigrations Service (USCIS), and the U.S. Department of State (DOS). Moreover, the OISS acts as a resource for the international concerns of the University community.

In addition to these services, the OISS provides a multitude of programs designed to celebrate and enhance the international community at LMU. For more information, visit <http://www.lmu.edu/oiss>, or call 310.338.2937.

Parent Programs

The mission of the Parent Program is to develop a relationship with parents in order to foster and support the growth, development, and ultimately the success of their student at LMU. For additional information on Parent Programs, call 310.338.1798.

Student Health Services

Student Health Service (SHS) strives to create a safe and healthy campus community for all by providing those services, opportunities, and experiences which support academic pursuits and personal development.

The Health Center is a full-service medical office and is accredited by the Accreditation Association for Ambulatory Health Care (AAAHC). SHS offers a wide range of primary healthcare services including treatment for common acute illnesses and injuries, women's healthcare, skin care problems, X-rays, allergy injections and immunizations.

Occasionally, a student may need to be seen by a specialist for a more serious or complex medical problem. In this case, the student may be referred by the SHS clinician to a network of nearby specialists or they may select his/her own specialist. The student is responsible for transportation and medical costs related to the specialty care.

The healthcare team includes physicians, nurse practitioners, registered nurses and other highly trained healthcare support staff.

Immunizations

The University requires immunizations for all incoming students. These immunizations include proof of two measles, mumps, and rubella (MMR) vaccinations and a TB test within the past 12 months. Students are notified of these immunization requirements by mail. Failure to fulfill the immunization requirements may result in a "health hold" and they will not be able to register for the upcoming semester classes.

Eligibility

Full-time undergraduate students are eligible to be seen in the SHS; Full-time graduate and law students are also eligible, but are charged a fee once per semester at the time they access the health center.

Costs

Students may incur expenses for medical procedures, laboratory tests, medicines and supplies. SHS does not submit insurance claims or bill insurance plans directly, but can provide documentation listing the charges and proper codes which can then be submitted by the student to their insurance plan for reimbursement.

Student Health Insurance Plan

The University requires all full-time undergraduate and graduate students to have health insurance. Students who do not have coverage under a family plan or personal health insurance plan are required to purchase the LMU endorsed health insurance plan which is underwritten and administered by Aetna Student Health Insurance.

The Aetna Insurance Plan has two components: Accident Only and the Combined Accident Only/Sickness component. The Accident Only plan provides coverage for an injury or illness related to an accident that may occur on or off campus. This plan is mandatory for all full-time students even if they have coverage with a family or personal health insurance plan.

The combined Accident Only/Sickness plan is designed for those students who do not have family or other personal health insurance coverage. This plan is optional, however all full-time students are automatically enrolled in this plan at the same time they enroll for their coursework. If the student has other health insurance coverage, they may go on-line to the Aetna web site and follow the link to waive out of the sickness component of the plan. The waiver must be submitted each academic year by the enrollment deadline.

Contact Information

The Student Health Center is located on the north side of the Burns Recreation Center, first floor. Office hours are 8:00 a.m.-5:00 p.m., with extended hours on Wednesdays until 7:00 p.m. during the academic year.

Students are seen on an "appointment only" basis unless it is an urgent or an emergent problem. During office hours, appointments may be made by calling 310.338.2881. For after hours urgent problems or emergencies, please call Public Safety at 310.338.2893.

For further information, please call 310.338.2881 or visit the web page at <http://www.lmu.edu/studentlife/healthservices.htm>.

Student Psychological Services

Student Psychological Services (SPS) provides psychological and emotional assistance to currently enrolled LMU students; there is no charge for services. A student's contact with SPS is protected by laws of confidentiality with a few rare legal exceptions, and therapy records are separate from academic records. SPS is a safe, welcoming environment for all students regardless of their gender, ethnicity, race, culture, religious beliefs, sexual orientation, national origin, age, physical or mental abilities, and/or socioeconomic status. SPS strives to cultivate students' ability to develop to their full personal, social, and academic potential.

SPS staff are highly trained, user-friendly, and committed to student well-being. Students seek SPS services for a variety of mild to more significant concerns, including adjustment to college, conflict resolution, anxiety, depression, academic and/or life stress, disordered eating, trauma, substance abuse, relationship concerns, and other life issues. SPS offers individual, couple, and group counseling. Consultation is available to students, parents, and staff, as are referrals for extended treatment. Outreach programs throughout the year include Wellness Wednesday and online screenings. A relaxation room with biofeedback is available to all students during regular office hours.

SPS is located on the north side of the Burns Recreation Center, 2nd floor. Office hours are 8:00 a.m.-5:00 p.m. with extended hours on Wednesday until 7:00 p.m. during the academic year. Appointments may be scheduled by coming to the office or calling 310.338.2868. Appointments must be cancelled at 24 hours prior to your appointment, otherwise a fee of \$25.00 will be charged for a missed appointment.

A therapist is available during the day in case of personal emergency or crisis. After hours, please call Public Safety at 310.338.2893. For more information, visit the web page at <http://www.lmu.edu/counseling>.

Student Housing and Residence Life

LMU Student Housing, comprised of Residence Life, Resident Ministry, and Resident Services, provides a unique opportunity for participation in community living and learning. Knowing that the physical and social environment affects the intellectual and social development of students, every effort is made to create communities which reflect the University's educational mission.

A Resident Director (RD) and Resident Advisors (RAs), under the supervision of an Assistant Director for Residence Life (AD), are responsible for overseeing the living environment and developing programs in each housing facility. The staff is responsible for creating an atmosphere conducive to building community and promoting scholarship. They provide opportunities for students to become acquainted with one another and involved in campus activities. They also encourage students to take full advantage of cultural and intellectual opportunities within the University and in Los Angeles.

LMU is proud of its Resident Ministry program. Resident Ministers (RMs) are priests, sisters, and lay ministers who live in each of the residence facilities and provide spiritual guidance, individual support for life challenges, and programming related to the University's mission and religious identity.

On-campus housing is available to all levels of undergraduate students. There is also a limited number of graduate housing available which is on a first-come, first-served basis.

For more information about Student Housing, please go to <http://www.lmu.edu/housing>.

Student Leadership & Development

Student Leadership & Development strives to enrich the learning environment for students seeking growth outside the classroom. The staff works with ASLMU, all co-curricular clubs and organizations, the Greek Community, and the Leadership Institute. Student Leadership & Development offers assistance with programming and planning of events and special projects, as well as assistance and support in the formation of new organizations. The department also provides advocacy and support to students throughout their academic career.

Associated Students of Loyola Marymount University

The Associated Students of Loyola Marymount University (ASLMU) includes all undergraduate students that are currently enrolled. ASLMU, through the Cabinet and Student Senate, is the voice of the entire student body representing students on all issues impacting student life. ASLMU has a delegate on each of the University-wide committees that encompass the full spectrum of University life from Social Justice and the Status of Women to Intercultural Advisory and Technology committees. In addition to planning University-wide campus activities and traditions from dances, concerts, speakers, ASLMU hosts a variety of programs focused on campus community, environmental responsibility, intercultural affairs, and social justice. ASLMU supports student clubs and organizations through the allocation of funds from the Student Reserve Board to enhance the LMU community experience. Services offered by ASLMU are supported by the student activity fee.

Leadership Institute

The LMU Leadership Institute hosts a variety of opportunities for students to learn and grow as leaders. The Institute focuses on the development of students as leaders of themselves, their groups, and their community. It's all about how students can make change in society happen and truly live as men and women with and for others. Students can take part in one-semester-hour leadership seminars, participate in a leadership workshop series, and more. From leadership lunches to leadership resources online, the Leadership Institute supports students as they continue to develop their leadership style and philosophy. Ultimately, what students choose to lead and how they choose to lead is critical and will shape our world tomorrow. The LMU Leadership Institute is online at <http://www.lmu.edu/leadership>.

Student Organizations

As a student-centered, Catholic university, Loyola Marymount University recognizes the importance of clubs, programs, and services in fostering the educational mission of the University and offers a wide variety of each appealing to the needs of the student body. There is a plethora of clubs and organizations which include such areas of interest as academic, cultural, arts and entertainment, fraternity/sorority, service, governance/advisory, political, social justice, spiritual, religious, and intramural sports. A current list of registered academic/co-curricular student clubs and organizations on campus is available online at the Student Leadership and Development website at <http://www.lmu.edu/sld>. The views and positions of a registered club or organization does not necessarily reflect the position of Loyola Marymount University.

Greek Life

With a strong sense of service and philanthropic endeavors, LMU Greeks give over 18,000 hours of service and over \$120,000 to local and national charities—each year. Academics also remain a top priority, with the all-Greek GPA being at or above the all-LMU GPA for the past 20 semesters in a row. LMU Greeks are approximately 25% of the campus population. Anyone interested in joining a fraternity or sorority must have at least a 2.5 cumulative GPA and 12 semester hours completed; some chapters may have higher grade requirements. For more information on LMU's largest population of students, go to the Greek Life Suite in Malone 120; office hours are 8:00 a.m.-5:00 p.m. Monday through Friday, and 8:00 a.m.-7:00 p.m. on Wednesdays, call 310.338.7814, visit the website at <http://www.lmu.edu/greeklife>, or go on Facebook and search for LMU Greek Life.

Student Media

The Los Angeles Loyolan

The *Los Angeles Loyolan* newspaper is available on campus in print on Mondays and Thursdays and online 24/7 at <http://www.theloyolan.com>. The award-winning *Los Angeles Loyolan* is produced by students for students in order to provide a free flow of news and information to the LMU community. Students are responsible for creating, printing, and distributing the newspaper as well as operating the website.

KXLU/KLMU

As one of the only opportunities in the Los Angeles market for students to experience all aspects of radio broadcasting, KXLU 88.9 FM Los Angeles provides a supportive learning environment and training ground. The radio station offers an environment conducive to the creative expression of artistic freedom via musical exploration, experimentation, and interpretation. Students can also gain practical experience in all areas of station operations, including broadcasting, programming, technical engineering, production, public affairs, promotions, marketing, and management. Additionally, KXLU fosters an education in music industry knowledge and savvy regarding current musical trends, practices, and standards, as well as providing an opportunity to work with bands, record

labels, venues, promoters, booking agents, and other industry professionals.

KXLU's mission is to give underrepresented artists and musical genres that do not have a voice on the traditional mainstream circuit an alternative and supportive forum in which to showcase their talent. The station offers over 25 different types of musical genres for its listeners, including progressive and independent rock, punk, classical, opera, world, country, hip hop, metal, lounge, jazz, blues, and theater and film, as well as being home to one of the most successful and longest running Latin radio programs in the country, Alma del Barrio. KXLU broadcasts 24 hours a day all year round.

KLMU Online Radio operates as an Internet-based radio station serving the LMU community, operates from 8:00 a.m. until 12:00 a.m. during the academic year.

Interested students are encouraged to stop by the radio station for a tour, learn more, and apply for a DJ position.

ROAR Network

ROAR Network television can be seen on campus (including residence hall rooms) on LMU Cable Channel 6 and on the web at <http://www.roarnetwork.com>. ROAR Network is a nationally recognized student-run television station whose mission is to:

- Produce and distribute dynamic student-focused content.
- Provide students with practical hands-on experience in the field of broadcasting.
- Support the University by providing high-quality video services.

The Tower

The award-winning *Tower* yearbook chronicles campus life and captures the essence of the people who make the University come alive. The student-run yearbook is published and distributed to full-time undergraduate students each spring. The *Tower* yearbook is free for all full-time undergraduate students (its cost is included in tuition).

Transfer Programs

Transfer Programs is a student support office within Student Affairs. The program was begun in recognition of the fact that transfer students frequently have special circumstances that place unusual demands on their time and call for specialized assistance. The primary role of Transfer Programs is to help transfer students quickly locate appropriate sources of advice and other services relevant to their educational and student life needs.

For additional information on Transfer Programs, call 310.LMU.6262.

Veteran Programs

LMU Veteran Programs aims to assist veterans and dependants of veterans in their success at LMU by providing support, resources, and information that meet their unique needs. LMU Veterans Programs works to connect transfer and continuing LMU student-veterans to the campus-wide network of advocates and specialists. The office assists in leveraging student-veterans' experiences by fortifying their educational and career goals through maximizing benefits and funding, creating community among student-veterans, and providing additional links with the many community service-based organizations.

Most student-veterans will come to LMU as transfer students. To apply for benefits, they need eligibility documents (DD214; discharge papers/separation document) from their military branch of service. Once eligibility has been established, LMU Veteran Programs can begin with "initial entry" of student-veterans by providing eligible students with additional support through counseling, tutoring, peer advising, workshops, guidance for those seeking admission to graduate/professional programs, and other services. The goal of LMU Veteran Programs is to increase student-veteran engagement, retention, and attainment of degrees.

LMU Veteran Programs proudly recognize veterans' military service and will do its best to assist as needed. To learn more about Veteran Programs, contact 424.LMU.VETS (424.568.8487) or e-mail veteranprograms@lmu.edu.

ADMISSION TO THE UNIVERSITY

Undergraduate Admission

Loyola Marymount University welcomes applications from students who subscribe to the goals of the University and who are qualified to undertake its programs. The University makes selective and individual decisions, and the academic record is the primary consideration. Writing ability; accomplishments in academic, artistic, athletic, co-curricular, or work- or service-related endeavors; recommendations; national test scores; and relationship to the University are also given significant consideration. Each application is individually evaluated.

Candidates are considered for admission to either the Fall or Spring semester, provided ALL required documents have been received before the priority dates. The Fall priority date for freshman applicants is January 15; transfer applications are due March 15; the Spring priority date for all applicants is October 15. An Early Action program is also offered to freshman applicants for the Fall semester. The Early Action application deadline is November 1. Full consideration cannot be assured to applicants failing to meet these priority dates. A personal interview is not required, but individual Admission counseling appointments are encouraged. Personal appointments and campus tours can be arranged through the Office of Admission. Please visit <http://admission.lmu.edu> or call 310.338.2750. The fax number is 310.338.2797, and the e-mail address is admissions@lmu.edu.

High School Subjects Recommended for Admission

The following high school course of study is recommended for admission into the University.

English	4 years
Foreign Language	3 years
Mathematics	3 years
Laboratory Science	2 years
Social Sciences	3 years
Academic Electives	1 year

Business students must complete a unit in each of the following: elementary algebra, geometry, intermediate algebra/trigonometry, and precalculus. Engineering, computer science, mathematics, and science majors should complete four units of mathematics and one unit each of biology, chemistry, and physics.

Admission Procedure

Loyola Marymount University is an exclusive user of the Common Application. All applicants should file the Common Application by the appropriate deadline and submit a \$60 nonrefundable application fee.

The following procedures apply to all candidates. Transfer and international applicants should be sure to note specific additional requirements as stated below. Candidates seeking admission to Loyola Marymount University should:

1. File the Common Application and the LMU Supplement by the appropriate deadline and submit a \$60 nonrefundable application fee or an appropriate fee waiver. The Common Application form is available online at <http://www.lmu.edu>.
2. Request official transcripts to be sent from the last high school attended and from each college attended. Advanced Placement students must submit official AP test score results in order to receive college credit.
3. Arrange for SAT I or ACT scores to be sent to the Director of Admission. Information about SAT I may be obtained from the College Board: P.O. Box 6200, Princeton, NJ 08541-6200. Information about ACT may be obtained from the American College Testing Program: ACT Records, P.O. Box 451, Iowa City, IA 52243.
4. Before school begins, all entering students are required to submit an official final high school transcript certifying the completion of secondary requirements and showing the high school graduation date. Transfer students are also required to submit official transcripts for any courses completed since the application for admission was filed. Students failing to submit required transcripts will be prevented from

registering for subsequent semesters until this requirement is satisfied.

Notification of Acceptance

Candidates will be evaluated for admission as soon as all of the required steps in the application process have been completed, according to the following calendar:

- **Fall freshman applicants (Early Notification):** Decisions for candidates applying under the Early Action program whose applications are complete by November 1 will be announced before December 20. Early Action applications may be accepted, denied, or deferred for further consideration during the regular decision process. Loyola Marymount's Early Action program is non-binding.
- **Fall freshman applicants (Regular Decision):** Decisions for candidates considered under the Regular Decision program (applications submitted after November 1 and before January 15) will be sent on a rolling basis, and no later than April 1.
- **Fall semester transfer applicants and all Spring semester candidates:** Notification of acceptance will be sent on a rolling basis.

A final transcript is required as verification that all work in progress has been completed with a GPA equal to or greater than the student's overall grade point average at the time of acceptance. In the event that the final semester of work does not meet required criteria, acceptance may be rescinded.

Academic Scholarships

Each year the Loyola Marymount Scholarship Committee offers academic scholarships to the most accomplished candidates for freshman admission. These scholarships are renewable for four years and are not based on financial need.

The Arrupe Scholarship, named for Fr. Pedro Arrupe, S.J., the former Superior General of the Society of Jesus (the Jesuits), carries a minimum value of \$12,500 per year. Selection is based on outstanding GPA and SAT I/ACT scores, with supplemental consideration to leadership potential and school or community service and involvement.

From among the Arrupe Scholars, the Scholarship Committee further selects a very limited number of students for additional scholarship consideration. These students—no more than 10% of all Arrupe Scholars—will be invited to participate in Presidential Preview Weekend in late February, which offers a special opportunity to see the campus and to interview for the Presidential and Trustee Scholarships (see the Financial Aid section of the Bulletin for more information on these scholarships).

While there are no absolute criteria for Arrupe Scholarships, to be considered, students selected must generally present a GPA of at least 3.5 (unweighted) and an SAT I score of 1300 (Critical Reading and Math) or an ACT of 29 or better. All students meeting the January 15 Regular Decision deadline will be eligible for selection as an Arrupe Scholar. Superior students are encouraged to apply under the Early Action program to ensure full consideration for Presidential and Trustee Scholarships.

In addition to the Arrupe, Presidential, and Trustee Scholarships, qualified applicants may be selected to receive the LMU Scholarship or LMU Achievement Awards. Further information may be found at <http://financialaid.lmu.edu/prospective/scholarships>.

Commitment Deposit

Accepted students intending to enroll are required to submit a nonrefundable \$250 commitment deposit to secure their seat in the class.

The commitment deposit is held by the University and is non-refundable. The commitment deposit may be applied at the discretion of the University against any delinquent and unpaid debts. This deposit is payable from the student's own resources. It will neither be deducted from any financial aid awards nor billed as part of tuition and fees.

If the commitment deposit is not received within the stated time, the acceptance for admission may be canceled.

Housing

First-time freshmen entering in the Fall term are guaranteed University housing, provided their commitment deposit and housing request are received electronically or postmarked no later than May 1 for Fall admission.

Fall term transfer students and any student entering in the Spring term are not guaranteed housing. Instead, they are offered accommodations on a space-available basis. Their housing requests will be processed on a first-come, first-served basis as they make their commitment deposits and return all requested Housing information.

Admission of Transfer Students

Each semester the University considers students for transfer, provided they are in good standing and not under academic or disciplinary probation or suspension from the last school attended. Please see the paragraph on Admission Procedure above for general admission requirements. The priority date for transfer applications is March 15 for Fall semester and October 15 for Spring semester. Transfer students are considered for admission as follows:

Students who would have been acceptable for admission as freshmen to Loyola Marymount University at the time of their graduation from high school will be considered for transfer standing if they have at least a 3.00 cumulative average for all previous college work and at least a 3.00 average for the most recent college work attempted prior to admission.

Students who, for academic reasons, were not acceptable for admission as freshmen at the time of their graduation from high school will be considered for transfer standing if they have completed at least the equivalent of 30 semester hours of transferable college work with at least a 3.00 cumulative average and at least a 3.00 average for the most recent college work attempted prior to admission.

Admission of transfer students is selective and subject to available space and enrollment limitations. The minimum transfer GPA of 3.00 may not always be sufficient to secure admission. Likewise, certain majors require that some prerequisites be completed prior to transferring.

The College of Business Administration explains its transfer policy in its section of the Bulletin.

Transfer admission to Film and Television Production and Recording Arts in the School of Film and Television is limited and restricted to students with freshman or sophomore standing. Students with more than 30 transferable units are not eligible for admission to these programs.

Credit for work completed at institutions accredited by one of the six regional associations of the Accrediting Commission for Senior Colleges and Universities, other than course work identified by such institutions as remedial or in other ways as being nontransferable, will be accepted toward the satisfaction of baccalaureate degree and credential requirements at the University within limitations of residence requirements. Courses with grades below C (2.0) do not transfer. A maximum of 60 semester hours from two-year colleges are transferable to the degree program of the University.

Policies regarding transfer credit for a particular degree may vary slightly among the individual colleges, depending upon degree requirements. In general, courses having comparable content and class level with those in the LMU curriculum will transfer.

Admission of International Students

International students should follow the same admission procedures and priority dates outlined above. International students are admitted as degree-seeking students only.

Further, international students are cautioned to comply with the following additional guidelines to ensure compliance with immigration authorities and avoid delay in the processing of the applications:

1. Take the Test of English as a Foreign Language (TOEFL) given by the Educational Testing Service and arrange for scores to be sent to the Director of Admission. Information about this test may be obtained from: Test of English as a Foreign Language, P.O. Box 6151, Princeton, NJ 08541-6151. The University's minimum standard for undergraduate admission is 550 (paper-based TOEFL), 213 (computer-based TOEFL), or 80 (Internet-based TOEFL). As an alternative to taking the TOEFL, non-native English speakers may also take the International English Language Testing System (IELTS) which is jointly managed by British Council, IDP: IELTS Australia and the University of

Cambridge ESOL Examinations (Cambridge ESOL). Information about this test may be obtained from: <http://www.ielts.org>. The University's minimum standard for undergraduate admission is 6.5.

2. Submit a statement of financial responsibility for all obligations covering the full period of time for which the student is making application.
3. Submit official transcripts of previous academic training. Documents must be sent from the originating sources directly to the Admission Office and must cover all secondary schools attended and, if college study was attempted, all colleges and universities attended. Documents should include results of standard examinations administered by government or certifying agencies.
4. Transcripts from non-U.S. institutions must be submitted to an LMU-approved credentials evaluating agency for evaluation of U.S. equivalent course work and corresponding grade.

Contact the following agencies for further information:

Educational Credential Evaluators, Inc.

<http://www.aacrao.org/international/ForeignEdCred.cfm>

oies@aacrao.org

International transcripts submitted without appropriate evaluations will not be considered for eligible transfer work to LMU.

Photostatic copies are acceptable only if they are notarized as true copies and bear the original seal of the notarizing authority. All documents submitted for admission become property of the University and will not be returned.

5. The United States Department of Justice Immigration and Naturalization Form (I-20) will be sent after the \$250 non-refundable Commitment Deposit has been received by the Office of Admission.

Non-Degree Students

Students wishing to take courses at the University on a non-degree basis must file an application with the Office of Admission in accordance with regularly stated deadlines. Proof of eligibility to study at the University will be required, including transcripts or other appropriate documents.

Non-degree students will be allowed to study for a period of no more than three semesters or a total of 18 semester hours, whichever occurs first.

Advanced Placement

LMU participates in the Advanced Placement Program of the College Board. Students may be granted credit at the time of entrance into the University for subjects in which they have completed the AP examinations with scores of 5 or 4. When official scores have been received from the College Board, applicants will be notified of the advanced placement and course credit in accordance with the following table. Note that an essay is required for all examinations offering optional essays.

AP Exam	Minimum AP Score Required	Number of Semester Hours Awarded	Equivalent LMU Course(s)
Art: History of Art	4	6	ARHS 200 and 201
Art: Studio Art—Drawing, General*	4	6	no specific course
Art: Studio Art—2D Design*	4	3	no specific course
Art: Studio Art—3D Design*	4	3	no specific course
Biology	4	6	no specific course
Chemistry	4	4	no specific course
Computer Science A	4	3	CMSI 185
Computer Science AB	4	3	CMSI 281
Economics: Macroeconomics	4	3	ECON 120
Economics: Microeconomics	4	3	ECON 110
English Language and Composition	4	3	ENGL 110
English Literature and Composition	4	3	ENGL 140
Environmental Science	4	3	NTLS 101
European History	4	3	HIST 101
French Language**	4	9	FREN 101, 102, and 203
French Literature**	4	9	no specific course
German Language**	4	9	GRMN 101, 102, and 203
Government and Politics: Comparative	4	3	POLS 155
Government and Politics: United States	4	3	POLS 135
History, U.S.	4	6	HIST 161 and 162
Human Geography	4	3	GEOG 100
Latin: Literature	4	3	LATN 313 or 314
Latin: Virgil	4	3	LATN 312
Mathematics: Calculus AB	4	4	MATH 131
Mathematics: Calculus BC	4	8	MATH 131 and 132
Music Theory***	4	3	MUSC 104
Physics B	4	10	PHYS 253 and 254
Physics C: Mechanics	4	4	PHYS 101
Physics C: Electricity and Magnetism	4	4	PHYS 201
Psychology	4	3	PSYC 100

Spanish Language**	4	9	SPAN 101, 102, and 203
Spanish Literature**	4	9	no specific course
Statistics	4	3	MATH 104

* Credit subject to final review by Art faculty.

** Maximum of 9 semester hours of language credit may be granted, whether for language or literature on both exams.

*** Credit subject to final review by Music faculty.

International Baccalaureate

LMU may award up to 6 semester hours (up to 8 for lab-based science courses) for higher level passes for which a student scores a 5 or above. Not all higher level examinations will yield advanced-standing credit. The IB chart that follows shows IB examinations that have been approved for transfer.

IB Exam	Minimum Score Required	Number of Semesters Awarded	Equivalent LMU Course(s)
Biology Higher Level	5	6	BIOL 101 and 102
Business and Management Higher Level	5	6	no specific course
Chemistry Higher Level	5	6	no specific core; fulfills Science core for most majors; if minimum score of 6 is attained, 8 semester hours awarded for CHEM 110, 111, 112, and 113 (satisfies CHEM 111 and 114 requirement for engineering majors)
Computer Science Higher Level	5		pending
Economics Higher Level	5	6	ECON 110 and 120; fulfills Social Science core, except for College of Business Administration and elementary teacher preparation majors (Liberal Studies)
English A1 Higher Level	5	6	no specific course; fulfills Literature core for most majors
Foreign Language A1 (non-English) Higher Level	5	6	no specific course
Foreign Language A2 Higher Level	5	6	no specific course
Foreign Language B Higher Level	5	6	no specific course
Geography Higher Level	5	3	GEOG 100; fulfills half Social Science core, except for College of Business Administration and elementary teacher preparation majors (Liberal Studies) and some secondary teacher preparation majors
History 2003 exam Higher Level	5	6	no specific course
History 2003 exam: Islamic Higher Level	5	6	no specific course
History 2010 exam (Rt.1) Higher Level	5	6	no specific course; fulfills Western Civilizations core for most majors
History 2010 exam (Rt. 2) Africa Higher Level	5	6	no specific course; fulfills Contemporary Societies core for most majors
History 2010 exam (Rt. 2) Asia and Oceania Higher Level	5	6	no specific course; fulfills Contemporary Societies core for most majors
History 2010 exam (Rt. 2) Americas Higher Level	5	6	no specific course; fulfills Contemporary Societies core for most majors
History 2010 exam (Rt. 2) Europe and the Middle East Higher Level	5	6	no specific course

Mathematics Higher Level	5	6	MATH 120 and 122; fulfills Math core except for College of Business Administration and elementary teacher preparation majors (Liberal Studies) and some secondary teacher preparation majors
Modern Classical Language Higher Level	5	6	no specific course
Philosophy Higher Level	5	6	no specific course
Physics 2001 exam Higher Level	5	6	no specific course; fulfills Science/Technology core except for elementary teacher preparation majors (Liberal Studies)
Physics 2007 exam Higher Level	5 (6-7 for engineering majors)	8*	Score of 5: No specific course; fulfills Science/Technology core except for elementary teacher preparation majors (Liberal Studies) Score of 6-7: PHYS 253 and 254 Engineering students with IB HL scores of 6-7 need to meet with the Chairperson of Physics to determine if they will receive credit for PHYS 101 and/or 201 courses.
Psychology Higher Level	5	3	PSYC 100; fulfills half Social Science core for most majors
Social and Cultural Anthropology Higher Level	5	6	no specific course; fulfills half Social Science core, except for College of Business Administration and elementary teacher preparation majors (Liberal Studies) and some secondary teacher preparation majors
Theatre Higher Level	5	3	THEA 110; fulfills Creative Arts core requirement for all except Theatre Arts majors and elementary teacher preparation majors (Liberal Studies)
Visual Arts: Option A Higher Level	5	6	no specific course; fulfills the Creative Arts core requirement for all majors except elementary teacher preparation majors (Liberal Studies) and Studio Arts majors
Visual Arts: Option B Higher Level	5	6	no specific course

Note: Students studying for the Bachelor of Arts in Liberal Studies do not follow the regular University Core pattern.

* IB credit does not count for most graduate Health Professions and Dental schools. Students intending to pursue pre-medical studies should fulfill major requirements at LMU.

Graduate Admission

Master's Degree and Credential

Loyola Marymount University welcomes applications from students without regard to race, color, gender, creed, national origin, disability, marital status, or religion. All prospective graduate students are expected to provide evidence of suitable preparation for graduate-level work. U.S. applicants should have received a bachelor's degree from a college or university that has been accredited as a degree granting institution by one of the accrediting bodies recognized by the Commission on Recognition of Postsecondary Accreditation (CORPA). The bachelor's degree must have been awarded by the institution where final coursework was completed. For School of Education applicants, the bachelor's degree must be awarded from a **regionally** accredited college or university.

All applicants for a Master's degree and for a California Credential must supply the following admission materials:

1) application for admission plus the application fee (\$50.00) and 2) two official transcripts of all schools attended since high school. Most programs require additional materials, including standardized test scores, a personal statement, and letters of recommendation. Further details on the admission procedure, application deadlines, and departmental prerequisites are given in the section dealing with the respective programs.

A student who wishes to apply for admission to a program after the closing date for applications should contact the program director for permission to file an application.

Additional Admission Requirements for International Students

1. International applicants who have completed their postsecondary education from a college or university outside of the U.S. must hold a degree from a university recognized by the Ministry of Education as a degree granting institution in the country where the institution is located. All international applicants must have their transcripts translated and evaluated by a U.S. transcript evaluation service before the application is considered for admission. For applicants to the Frank R. Seaver College of Science and Engineering, School of Education, School of Film and Television, and Marital and Family Therapy program, a **detailed** transcript evaluation identifying GPA must be submitted with the application.
2. All applicants (including those who received their bachelor's degree from a U.S. college or university) must take the Test of English as a Foreign Language (TOEFL) unless they received a high school diploma in the United States.

Exceptions to this rule may be made on a case by case basis for students from countries where English is one of several official languages, as well as at the discretion of the program director. The minimum score for admission into most graduate programs is 100 Internet-based, except for the Frank R. Seaver College of Science and Engineering, which requires a minimum score of 79. For information regarding the TOEFL, please write to: Test of English as a Foreign Language, Box 899, Princeton, New Jersey, U.S.A., 08540. If after admission to a graduate program the applicant's proficiency in English should prove inadequate, the University reserves the right to require additional proficiency in English and failure to comply will result in disqualification from the graduate program.

3. The applicant must also file with the University a certified statement showing financial ability to cover all obligations for the full period of time for which the student is making application. This statement should be from either a United States bank or agency or an international bank. The United States Department of Immigration and Naturalization Form I-20 Certificate of Eligibility will not be issued by the University until such documentation is on file in the Graduate Studies Office.

Tuition, books, etc., plus living expenses amount to between \$25,000 and \$40,000 a year or more depending on the program selected.

4. The applicant must comply with passport and visa requirements as set down by the United States Immigration Service.

International students must be continuously enrolled during the academic year to meet visa requirements.

5. All admission requirements should be received ninety days prior to the term for which application is being made.
6. An international student cannot be issued an I-20 Certificate of Eligibility as a non-degree graduate student.

Non-Degree Status

Students who are not pursuing a formal graduate program but who are eligible to take graduate-level courses at LMU may apply for non-degree status. In addition to filing the Application for Non-Degree Graduate Status plus the application fee (\$10.00), students should attach official copies of transcripts to verify receipt of a degree and that all prerequisites have been met. The Graduate Division reserves the right to request additional transcripts when necessary.

Reapplication Procedures for a Second Degree

A student who has completed one Master's or credential program and wishes to enter another must file a formal application form with the Graduate Studies Office. A student who has completed a credential program at LMU and wishes to apply for a Master's program must file a formal application form with the Graduate Studies Office. If the application is submitted within one year of completion of the master's or credential, the normal application fee is waived.

Readmission

A student wishing to return to the University after two years in which he or she was not enrolled must reapply for admission through the Graduate Studies Office and will be evaluated on the same conditions as all other new students.

Admission Status

Students may be admitted to the Graduate Division under the following categories:

1. Formal Admission—Formally admitted students are those who have completed the entire application process and have been reviewed and accepted by a particular program with no conditions and provisions.
2. Provisional Admission—Provisionally admitted students are those who are missing one or more items or prerequisite courses.
3. Controlled Admission—Students on Controlled Admission are required to achieve some specific needs of their particular program.
4. Non-Degree Admission—Students admitted under non-degree status are not pursuing a formal graduate program but are eligible (as determined by the director of the graduate program) to take graduate-level courses at LMU.

Immunization Record for Graduate Students

New graduate students entering the University who were born after 1956 are required to return a completed Immunization Record to the Student Health Center. All new students entering the University must show results of a Tuberculin Skin Test given within the last year. ALL immunizations must be current and physician-verified. Students with incomplete forms will have their registration withheld for the following semester until the completed Immunization Record has been received by the Student Health Center.

In addition, all international students must submit their immunization records to the Student Health Center. Students with incomplete forms will have their registration withheld for the following semester until the completed form has been received by the Student Health Center.

FINANCIAL AID

Undergraduate Financial Aid

The mission of Loyola Marymount University's Financial Aid Office is to provide students access to financial resources to assist them in achieving their educational goals. The Financial Aid Office administers federal, state, institutional, and private financial aid programs to help students meet the educational costs to attend Loyola Marymount University.

Application Procedures

Entering Freshmen and Transfer students:

Students can apply for financial aid by completing the required forms prior to being formally admitted:

1. The Free Application for Federal Student Aid (FAFSA), available at <http://www.fafsa.ed.gov>.
2. **California residents only:** applications for the Cal Grant must complete the FAFSA and complete Cal Grant GPA Verification Form by the deadline established by the California Student Aid Commission.

Visit the financial aid website at <http://www.lmu.edu/financialaid> for current year application and program deadlines.

Continuing Undergraduates:

LMU requires all continuing undergraduates who have received aid in a prior year at LMU to complete the following:

1. The Free Application for Federal Student Aid (FAFSA) at <http://www.fafsa.ed.gov>.
2. The LMU Undergraduate, which is posted as a missing requirement on a student's MyLMU PROWL account after the FAFSA has been completed.

Visit the financial aid website at <http://www.lmu.edu/financialaid> for current year application and program deadlines.

Maintaining Eligibility for Financial Aid

Note: Due to a change in federal regulations, LMU's policy regarding maintaining satisfactory academic progress for financial aid has been revised. Please review this information carefully and contact the financial aid office at finaid@lmu.edu if you have any questions.

Satisfactory Academic Progress (SAP)

To be eligible for federal, state, and University financial aid programs, students are required to make satisfactory academic progress. These standards are separate and distinct from the University's Academic Degree Requirements and Policies as stated in the University Bulletin.

These guidelines are in accordance with those required by federal regulations for recipients of federal grant, work, and loan programs, including the Federal Direct Parent (PLUS) Loan. These standards also apply to state aid or state-funded financial aid programs in accordance with the State of California.

Recipients of LMU tuition benefits who are not receiving any other federal, state, or University funds are not bound by these guidelines. Undergraduate students must:

- maintain a minimum semester and cumulative grade point average of 2.00
- if enrolled full-time, complete a minimum of 10 semester hours per semester. **Note:** Recipients of Merit scholarships are required to maintain the minimum grade point average stated in their academic scholarship award letter.
- not exceed the maximum timeframe to complete an undergraduate degree, 150% of the required semester hours (120) = 180 semester hours.

Grades

Grades of F, NC, AU, and W do not count in calculating the minimum grade point average. Grades of I (Incomplete) or IP temporarily will not be counted until the final grade is posted. Students must comply with the

General Eligibility

To receive financial aid:

Students must be enrolled in a degree program at Loyola Marymount University. Students working towards a second Bachelor's degree are only eligible for the Federal Subsidized and Unsubsidized Stafford loan programs.

Students must have received a high school diploma or a General Education Development (GED) certificate, or must have passed an independently administered test approved by the U.S. Department of Education, or meet other state standards approved by the U.S. Department of Education.

Students must be enrolled full-time to be eligible for most University-funded financial aid programs. Eligibility for federal and California state grant programs require at least half-time enrollment. Students who enroll less than half-time are generally only eligible for the Federal Pell Grant.

Students must be U.S. citizens, permanent residents, or other eligible non-citizens to be eligible for federal, state, and institutionally-funded financial aid programs and meet other eligibility requirements. Limited scholarships and assistantships are available for international students.

Students must not owe a refund from any federal grant or loan or be in default on any federal loan.

Financial Aid Communications

The Financial Aid Office primarily communicates with students electronically. Students are notified of information regarding their aid application via e-mail and MyLMU, LMU's online portal which provides access to various campus systems.

requirements to convert an incomplete to a permanent grade according to the requirements as stated in the University Bulletin.

Withdrawals

Students who withdraw from all coursework or take a leave of absence and later enroll in a subsequent term retain the SAP status held during their last term of enrollment.

Transfer Student Course Evaluation

Transfer students are evaluated based on the number of units accepted at admission to determine their maximum time frame to receive financial aid.

Repeat Coursework

Classes for failed courses that are repeated because they are required for graduation are eligible for financial aid. Repeated courses are included in the calculation of attempted and earned hours.

Maximum Time Frame to Complete Degree

Students must complete their degree within 150% of the published credit hours required to graduate. For example, an undergraduate student in a program requiring 120 semester hours to complete must meet all graduation requirements by 180 semester hours.

Important: The maximum time-frame to complete degree requirements does not override institutional, federal or state financial aid programs that have a maximum period of eligibility. For example, LMU funded aid programs as well as the Cal Grant are available for a maximum of eight semesters.

Students should refer to the Academic Degree Requirements and Policies section of the University Bulletin for information on the recommended course load required to complete their degree requirements in eight semesters (4 years).

Satisfactory Academic Progress Review Process

All students receiving financial aid are reviewed for satisfactory academic progress at the end of each term of enrollment.

SAP Warning

Students enrolled for the summer are reviewed after the end of the second summer session. Students failing to meet these requirements for the first time receive a "SAP Warning" Notice. Students are eligible for financial aid for their next term of enrollment while on Warning status.

Financial Aid Probation

If the student does not meet the minimum requirements after their next term of enrollment they are not eligible to receive financial aid. Students may submit a **Satisfactory Academic Progress Appeal** to the Financial Aid Office. This appeal must detail why the student was unable to meet minimum satisfactory academic progress requirements and the steps being taken to meet the minimum requirements and regain eligibility. If the appeal is approved the student is placed on **Financial Aid Probation** for one term. Students who cannot meet the minimum requirements within one term are encouraged to meet with an academic advisor to prepare an academic contract which outlines the terms and period that will allow the student to meet the minimum requirements.

Withdrawals—Impact on Financial Aid

Students who withdraw from all coursework will have their tuition charges adjusted based on their date of withdrawal. Current information on University tuition refund policies is available at <http://www.lmu.edu>.

Housing and University meal plans will be adjusted according to the terms set by the housing office and meal plan contracts. Students should contact the Student Housing Office and Student Accounts for specific refund information.

Students receiving financial aid who decide to withdraw from all coursework during a term are required to notify the Office of the Registrar and the Financial Aid Office. Federal financial aid will be adjusted according to federal regulations.

University- and state-funded programs will be adjusted according to University and state policies.

For detailed information on how financial aid is adjusted based on withdrawal, visit <http://www.lmu.edu/financialaid>.

Fraud

Any fraudulent use of financial aid funds is cause for immediate suspension or dismissal, as well as discontinuance of future financial aid. This includes, but is not limited to, fraudulent statements on Financial Aid forms, inaccurate tax returns, and student time cards for both hours worked and signatures obtained.

Programs of Assistance for Undergraduates

Academic Scholarships for First Time Freshmen

Loyola Marymount University offers a wide range of academic scholarship programs to recognize and reward the scholastic accomplishments of our most distinguished entering freshmen. Scholarship selection is coordinated by the Office of Undergraduate Admission, in consultation with LMU's faculty and administration. Detailed information on these programs is available on the Financial Aid Office website at <http://www.lmu.edu/financialaid>.

Receipt of an Academic Scholarship does not preclude consideration from financial aid awarded by the Financial Aid Office but must be coordinated according to federal, state, and University policies.

Grants

LMU Grants are merit/need-based grants awarded to students who meet all federal and University eligibility requirements. Students must complete the FAFSA to apply, meet LMU's priority funding deadlines, and comply with all requests for additional documentation to be considered.

The **Federal Pell Grant** program is a federal aid program designed to provide financial assistance to eligible students for postsecondary stud-

ies. The amount of the Pell Grant is determined based on the financial resources of the student and parents.

Federal Supplemental Educational Opportunity Grant (FSEOG) program is designed to assist those students who would not otherwise be financially able to pursue an undergraduate course of study. The amount of the grant is determined by reviewing the student's financial resources and also the resources of the parents. The amount of the award varies based on the student's Pell Grant and, like other grants, does not have to be repaid.

Cal Grants are administered by the California Student Aid Commission. All undergraduates who are residents of California are encouraged to apply. Cal Grants cover tuition and fees. For detailed information on Cal Grants, visit <http://www.calgrants.org>.

Scholarships

There are additional scholarships available to LMU students. Most scholarships are awarded by the Financial Aid Office and do not require that students complete a special application. Scholarships that require a separate application are provided at <http://www.lmu.edu/financialaid>.

Student Employment

The **Federal Work Study** program is another source of employment for students who qualify based on financial need. This program is funded jointly by the Federal Government and the University. It is designed to create jobs for students at the University, such as library researchers, teaching assistants, laboratory technicians, intramural referees, team managers, etc. Under the Work Study Program, most students will be awarded funds to average 12-15 hours per week during the term. Students are hired for part-time positions for the entire academic year, and they may earn up to the amount listed on their current financial aid award letter.

Loyola Work is a University-funded non-need work program. Funding for this program is limited and may not be awarded to those students who do not meet LMU priority funding deadlines.

The **Student Worker** program is an employment program designed to give students the opportunity to earn a majority of their education expenses by working on campus. The Student Worker Organization is an autonomous group that is primarily student-directed and operated. Selected students must live on campus. Jobs include maintenance, recycling, and clerical and miscellaneous tasks for departments on campus. More information on this program is available at <http://www.lmu.edu>.

The Career Services Office provides employment assistance to the students of Loyola Marymount University including part-time jobs ranging from 10 to 20 hours a week, part-time/full-time seasonal work during the Christmas and summer vacations, temporary jobs on an hourly basis, and tutoring positions within the student's major field of study. These services are for all students regardless of their financial need. They are primarily off-campus positions.

Loans

All federal loans require that the student complete the Free Application for Federal Student Aid (FAFSA) and comply with any requests for additional information.

Federal Perkins Loan is a low-interest loan for students based on need. Repayment begins nine months after the student has ceased to be enrolled at least half-time.

Federal Subsidized and Unsubsidized Direct Stafford Loans are a low-interest federal loan for students.

The **Federal Direct Parent (PLUS) Loan** is a low-interest federal loan made to creditworthy parents.

For information on loan terms and the application process for these loan programs, visit <http://www.lmu.edu/financialaid>.

Graduate Financial Aid

The mission of Loyola Marymount University's Financial Aid Office is to provide students access to financial resources to assist them in achieving their educational goals. The Financial Aid Office administers federal, state, and private awards as well as institutional awards that are selected in conjunction with the Graduate Studies Office.

General Eligibility

Students must be U.S. Citizens, permanent residents, or other eligible non-citizens to be eligible for federal, state, and institutionally-funded financial aid programs and meet other eligibility requirements. Limited scholarships and assistantships are available for international students.

Students must be enrolled in a Doctoral, Master's, Credential, or eligible Certificate Program as degree-seeking students at Loyola Marymount University to receive financial aid administered by the Financial Aid Office.

Provisional and Controlled admitted students must submit the necessary requirements of their particular program as specified by the Graduate Studies Office to receive federal or state financial aid.

A graduate student is eligible to receive federal and/or state financial aid if enrolled at least half-time in graduate level coursework as determined by his/her program level. Only courses numbered in the 500s, 6000s, and 7000s are considered graduate level.

Master's Degree and Doctoral Students not Completing Dissertation

Fall Semester, Spring Semester, and Summer Sessions (combined):

Full-Time: 6+ semester hours

Half-Time: 5-3 semester hours

Less Than Half-Time: 2-0 semester hours

Non-Degree Credential (Credential Only)

Fall Semester and Spring Semester:

Full-Time: 12+ semester hours

Half-Time: 6-11 semester hours

Less Than Half-Time: 5-0 semester hours

Pre-Medical Post-Baccalaureate Program

Fall Semester and Spring Semester:

Full-Time: 12+ semester hours

Half-Time: 6-11 semester hours

Less Than Half-Time: 5-0 semester hours

Summer Sessions (combined):

Full-Time: 6+ semester hours

Half-Time: 5-3 semester hours

Less Than Half-Time: 2-0 semester hours

Doctoral Students Completing Dissertation

Fall Semester, Spring Semester, and Summer Sessions (combined):

Full-Time: 2 semester hours

Students must not owe a refund from any federal grant or loan or be in default on any federal loan.

Application Procedures

Grants and Scholarships

All students, including International students, interested in Loyola Marymount University grants, scholarships, or assistantships offered through the Graduate Studies Office, are encouraged to apply by submitting the appropriate application. For additional information pertaining to grants, scholarships, or assistantships, please contact your department.

Federal and State Aid

U.S. Citizens, permanent residents, and eligible non-citizens who are interested in participating in federal and/or state aid programs offered through the Financial Aid Office should visit us online at <http://financialaid.lmu.edu> for application information, office hours, contact information, and to review the Frequently Asked Questions.

Financial Aid Communications

Communications from the Financial Aid Office will be primarily electronic in form. The LMU student Lion e-mail account, PROWL, and MyLMU messaging are our primary means of communicating important financial aid information.

- MyLMU (<https://my.lmu.edu>)
MyLMU provides students with access to various campus systems, e-mail, registration, billing, forms, and communications. MyLMU is accessed by a user name and a password that are automatically generated upon acceptance to LMU. For assis-

tance logging into MyLMU, contact the ITS Help Desk at 310.338.7777.

- PROWL (<http://www.lmu.edu/prowl>)
PROWL is our online student financial aid resource. Using PROWL, students can view their application status, requests for additional information/documentation from the Financial Aid Office, important messages, and their Financial Aid Award.

Satisfactory Academic Progress (SAP) and Financial Aid Probation

To be eligible for federal, state, and University financial aid programs, students are required to make satisfactory academic progress. These standards are separate and distinct from the University's Academic Degree Requirements and Policies as stated in the University Bulletin.

These guidelines are in accordance with those required by federal regulations for recipients of federal grant, work, and loan programs. These standards also apply to state aid or state-funded financial aid programs in accordance with the State of California.

Recipients of LMU tuition benefits who are not receiving any other federal, state, or University funds are not bound by these guidelines.

Graduate students must:

- maintain a minimum semester and cumulative grade point average of 3.00
- if enrolled full-time, complete a minimum of six (6) semester hours per semester
- not exceed the five (5) year maximum timeframe to complete a graduate degree.

Grades

Grades of F, NC, AU, and W do not count in calculating the minimum grade point average. Grades of I (Incomplete) or IP temporarily will not be counted until the final grade is posted. Students must comply with the requirements to convert an incomplete to a permanent grade according to the requirements as stated in the University Bulletin.

Withdrawals

Students who withdraw from all coursework or take a leave of absence and later enroll in a subsequent term retain the SAP status held during their last term of enrollment.

Repeat Coursework

Classes for failed courses that are repeated because they are required for graduation are eligible for financial aid. Repeated courses are included in the calculation of attempted and earned hours.

Maximum Timeframe to Complete Program

The normal time allowed for the completion of graduate degree programs is five (5) years. A student who has not completed the degree within five (5) years must request an extension of time. If the extension is granted by the Program Director or Dean of the student's college or school, the student may be required to undertake additional coursework. Some departments have a shorter limit for the completion of the program. A minimum of 30 graduate semester hours (500 and 600 level) and a minimum of 3.0 ("B") cumulative grade point average are necessary to qualify for completion of a program. See individual program descriptions for specific and additional graduation requirements.

Important: The maximum timeframe to complete degree requirements does not override institutional, federal or state financial aid programs that have a maximum period of eligibility. For example, Cal Grant TCP is available for a maximum of one (1) year.

Students should refer to the Academic Degree Requirements and Policies section of the University Bulletin for information on the recommended course load required to complete their degree requirements in five (5) years.

Satisfactory Academic Progress Review Process

All students receiving financial aid are reviewed for satisfactory academic progress at the end of each term of enrollment.

SAP Warning

Students enrolled for the summer are reviewed after the end of the second summer session. Students failing to meet these requirements for the first time receive a "SAP Warning" notice. Students are eligible for financial aid for their next term of enrollment while on Warning status.

Financial Aid Probation

If the student does not meet the minimum requirements after their next term of enrollment they are not eligible to receive financial aid. Students may submit a **Satisfactory Academic Progress Appeal** to the Financial Aid Office. This appeal must detail why the student was unable to meet minimum satisfactory academic progress requirements and the steps being taken to meet the minimum requirements and regain eligibility. If the appeal is approved the student is placed on **Financial Aid Probation** for one term. Students who cannot meet the minimum requirements within one (1) term are encouraged to meet with an academic advisor to prepare an academic contract which outlines the terms and period that will allow the student to meet the minimum requirements.

Withdrawal Calculations

When students receiving financial aid are eligible for a refund or a cancellation of LMU charges, their financial aid funding will also be adjusted. A refund is calculated when a student withdraws from the University, drops out, takes an unapproved leave of absence that will exceed 60 days, is expelled or otherwise does not complete the period of enrollment for which he or she was charged. The financial aid award will be recalculated based on federal refund requirements, and the Controller's Office will be notified. Any resulting charge will be added to the student's account. Any resulting refund, due to a federal financial aid program will be made by LMU for the student.

Fraud

Any fraudulent use of financial aid funds is cause for immediate suspension or dismissal and criminal prosecution, as well as discontinuance of future financial aid. This includes, but is not limited to, fraudulent statements on financial aid forms or submitted documentation, inaccurate tax returns, and student time cards for both hours worked and signatures obtained.

Programs of Assistance for Graduate Students

LMU Graduate Studies Office

Please visit us on the web at <http://www.lmu.edu/gradfinancialaid> to explore the various scholarship, employment and loan opportunities available for graduate students at LMU through the Graduate Studies Office.

Scholarships

Departmental Graduate Scholarships

Each graduate program at LMU awards its own departmental scholarships based on financial need and merit. Applications are available online at <http://financialaid.lmu.edu>.

Some departments may require that students complete the Free Application for Federal Student Aid (FAFSA) and LMU Application, in addition to the department's Graduate Scholarship Application, in order to be considered. Information on how to complete the FAFSA and the LMU Application can be found online at <http://financialaid.lmu.edu>.

Inquiries about the application and/or selection process should be directed to a program's Graduate Director.

Catholic Teacher/Ministry Fund

Students who work full-time as Catholic school teachers, administrators, or parish administrators are eligible to apply. Students must submit their department's Graduate Scholarship Application with proof of employment attached (e.g., last pay stub, letter from your supervisor on official letterhead) in order to be considered. Additional instructions can be found online at <http://financialaid.lmu.edu>.

Contact the Director of your program if you have questions about the application and/or selection process.

Endowed and Donated Scholarships

Some programs have additional scholarships available. Consult the Director of your program for information about additional scholarships and the application process.

Developing Countries Scholarships

Catholic clergy or members of Catholic religious communities from developing countries may apply for full tuition assistance in order to obtain one (1) master's or doctoral degree in any field of study at LMU. Interested applicants should submit a copy of their R-1 visa to the Graduate Studies Office, along with a one (1) page statement of intent. Please contact the Graduate Studies Office at 310.338.2721 or graduatescholarship@lmu.edu for more information on how to apply for this scholarship.

Religious Scholarships

Catholic Clergy or members of Catholic religious communities are eligible to receive a scholarship equal to 25% of their total tuition costs. Please contact the Graduate Studies Office at 310.338.2721 or graduatescholarship@lmu.edu for more information on how to apply for a Religious Scholarship.

Student Employment

Program assistantships are available through individual programs on a competitive basis. Consult the Director of your program for information about available assistantships.

There are also jobs on campus for which graduate students may apply. Visit us on the web at <http://financialaid.lmu.edu> for application information, or contact the Graduate Studies Office at 310.338.2721 directly for more information.

LMU Financial Aid Office

The Financial Aid Office at LMU administers federal, state, and private financial aid programs. Additional information can be found online at <http://financialaid.lmu.edu>.

State Grants

Cal Grant TCP

Students who received a Cal Grant A or B as an undergraduate and begin an Elementary or Secondary teaching program within 15 months of their last Cal Grant payment, may apply to renew their Cal Grant for one (1) additional year. School of Education students participating in a specialized cohort program who receive a Cal Grant A or B extension will be awarded Cal Grant first, not to exceed their specialized cohort's total scholarship commitment. Complete a G-44 renewal form available at <http://www.calgrants.org>.

Federal Student Employment

Federal Work-Study

LMU employs students each year to work on campus in a variety of jobs. To receive Federal Work-Study, you must complete the FAFSA and meet financial need and eligibility requirements. Funding to hire students is limited, and eligible students are awarded upon request as funding permits.

Federal Direct Loan Programs

Federal Direct Stafford Loan (Subsidized or Unsubsidized)

All students who complete the FAFSA and meet federal eligibility requirements will be offered a Federal Direct Stafford loan. There are two types of Federal Direct Stafford Loans—the Subsidized Stafford Loan and Unsubsidized Stafford Loan.

The **Subsidized Stafford Loan** is awarded on the basis of financial need as determined by the FAFSA, and the federal government will pay the interest on Subsidized Loan while the student is enrolled at least half-time.

The **Unsubsidized Stafford Loan** is awarded to those with no demonstrated need. The student is responsible for interest payments, although all payments can be deferred until after graduation or when the student ceases to be enrolled at least half-time.

Reminder: A graduate student must be enrolled at least half-time, as determined by his/her program level, in order to receive federal financial aid.

Students may not borrow in excess of the annual Federal Direct Stafford Loan borrowing limits as determined by the federal government.

For detailed information regarding current interest rates, repayment terms, or the annual Federal Direct Stafford Loan borrowing limit, please visit us the Financial Aid Office online at <http://financialaid.lmu.edu>.

Federal Direct Graduate and Professional Student PLUS Loan

The Federal Direct Grad PLUS Loan is designed to help bridge the gap between the financial aid a student is awarded and the cost of attendance. In order to apply for the Grad PLUS Loan, borrowers must complete the FAFSA and be creditworthy. Students may borrow up to the LMU standard cost of attendance, minus all other financial aid you received.

For more details on all federal loan programs visit the Federal Student Aid Web site at <http://www.studentaid.ed.gov>.

Private (Alternative) Loan Programs

Private loans are educational loans available from the private sector. The interest rate on these loans varies by lender, and eligibility is based on creditworthiness of the student or student's co-borrower. Eligible students are encouraged to apply for all federal and institutional financial aid programs including the Federal Direct Graduate PLUS Loan, **before** considering a private educational loan. The maximum a student may borrow in a private loan is LMU's standard cost of attendance, minus all other financial aid you have received.

All students interested in borrowing a private loan must meet with a financial aid counselor to complete a Private Education Loan Applicant Self-Certification Form.

For more information regarding the loans available to graduate students at LMU, please visit the Financial Aid Office online at <http://financialaid.lmu.edu>.

Federal and State Teacher Loan Forgiveness Programs

Assumption Program Loans for Education (APLE)

APLE is a state-sponsored, loan forgiveness program that assists qualified teachers in repayment of their undergraduate and graduate Federal Direct Stafford Loan(s), up to \$19,000, over the course of four years. For more information, visit <http://financialaid.lmu.edu>.

Federal Perkins Loan Cancellation

Borrowers may qualify for cancellation (discharge) of up to 100% of a Federal Perkins Loan if they have served full time in a public or nonprofit elementary or secondary school system as a

- teacher in a school serving students from low-income families; or
- special-education teacher, including teachers of infants, toddlers, children, or youth with disabilities; or
- teacher in the fields of mathematics, science, foreign languages, or bilingual education, or in any other field of expertise determined by a state education agency to have a shortage of qualified teachers in that state.

For more information or to obtain an application, contact the office that administers the Federal Perkins Loan program at the school that holds your loan.

Teacher Loan Forgiveness (TLF)

TLF is a federal program to assist teachers in repayment of Federal Stafford and Direct Loans. Eligible loan borrowers must have been employed as teachers for five years in a qualified teaching service area. For more information, visit <http://www.edfund.org>.

AmeriCorps Education Award

Students who participate in the AmeriCorps service program must request their Americorps Education Award payment online at <http://my.americorps.gov>. The Education Award will be electronically transferred to their student account at LMU, 7-10 business days from the date payment is requested.

TUITION AND FEES

The tuition charge supports the instructional program and general operating and administration of the University, such as ordinary health services, various counseling services, lectures, intercollegiate athletic events, and the library.

Other fees may exist that are not listed within each heading. Fees are subject to change without notice. Generally, fees are indicated based on enrolled status. The University reserves the right to change, delete, or add to this pricing schedule as deemed appropriate.

For further information, please contact the Controller's Office at 310.338.2711 or at studacct@lmu.edu.

The following is information for the 2011-2012 academic year.

Regular Tuition

Undergraduate Full-Time Students (programs of 12 or more semester hours):	
per academic year	\$36,912
per semester	\$18,456
Graduate Tuition per Semester Hour	
Engineering	\$985
Engineering Production Management and Systems Engineering	
Leadership (SELP)	\$1,144
Marital and Family Therapy	\$985
MBA/MBA Certificate Program	\$1,144
MBA Alumni Certificate Program	\$1,029
Doctorate School of Education	\$1,228
School of Education	\$975
School of Film and Television	\$985
All Other Graduate Programs	\$942

Special Tuition

Part-Time Undergraduate Students (Semester hour rate for 11 semester hours or less):	
Undergraduate Students	
per semester hour	\$1,520
Auditors, per semester hour	\$387

Residence Hall Fees

Housing Processing Fee/Deposit	\$400
This mandatory deposit is applied to the room charge but is forfeited by those who fail to register and complete their Housing Arrangements.	
Desmond, Doheny, Huesman, Rosecrans, Sullivan, and Whelan Halls per academic year	\$8,625
McKay Hall double rooms with adjoining baths, per academic year	\$9,240
McCarthy and Rains Halls double rooms with adjoining baths, per academic year	\$9,800
Del Rey North/South Halls per academic year	\$9,190

Housing cost applies to the academic year only. Additional costs may be associated with non-standard living accommodations. Students who live on campus during recess periods will be charged a daily rate as indicated in their lease agreement. Summer Session Housing fees are additional.

Apartment Fees

The University has beds in completely furnished apartment-style residence halls on campus. Each apartment accommodates four students in

two bedrooms with adjoining bath and a living room with a pullman-style kitchen.

Hannon and Tenderich Apartments	
Fall semester	\$5,813
Spring semester	\$5,162
O'Malley/Leavey IV, V, and VI Apartments	
Fall semester	\$6,189
Spring semester	\$5,496

Apartments are open during recess and semester breaks.

Board Programs

The various plans are referred to as LION Dollar Plans. All students living in non-apartment residences are required to purchase a plan. Special dietary food may be obtained by arrangement. Four plans are offered by Sodexo Food Services. Both the Malone Center and University Hall dining facilities feature restaurant-style food selections on a declining balance, à la carte basis. Meal plans are managed by the Student Housing Office.

LION Dollar Plans are not refundable.

Plan L, per academic year	\$4,400
Plan I, per academic year	\$3,200
Plan O, per academic year	\$2,800
Plan N, per academic year	\$2,400

Normally, L, I, O, and N plans can be changed only during the third and fourth week of classes.

Commuter students and apartment residents may purchase any of the plans listed above or may open a Plan S account with a minimum value of \$100 or multiples thereof.

(These rates are subject to change.)

Other Fees

Accident Insurance Year (mandatory for 7 or more semester hours)	\$176
Admission Application Fee (undergraduate)	\$60 mandatory
Admission Application Fee (graduate)	\$50 mandatory
Commitment Deposit	\$250 mandatory
The commitment deposit is a one-time <u>non-refundable fee</u> required by all new freshmen and transfer students admitted.	
Commitment Fees, Graduate (non-refundable)	varies per department
Health Service use per semester, graduate students (optional)	\$50
MBA Student Associate Fee (including SELP), per semester	\$65 mandatory
Orientation Fee (non-refundable mandatory for entering freshmen and transfers)	
Fall entry	\$220
Spring entry	\$110
Registration Fee, per semester (mandatory) assessed each term to all students	\$63
School of Education Comprehensive Exam Fee	\$300
School of Education ePortfolio (one-time fee)	\$102
School of Education TPA Fee	\$100
Sickness Insurance (mandatory for 7 or more semester hours, unless proof of coverage provided)	\$601

Student Activity Fee
(mandatory for full-time undergraduates)

per academic year	\$182
Student Recreation Facility Fee (mandatory for all full-time undergraduate students, voluntary for all part-time and graduate students)	
per academic year	\$134
per semester	\$67
guests of students	\$5 per visit
Media Fee (mandatory for full-time undergraduates)	\$75
International Student Fee (per semester)	\$50

Miscellaneous Fees

Generally all miscellaneous fees are non-refundable unless stated otherwise and due when charged to your Student Account.

Collection Cost	\$100
minimum to a maximum of 40% of the outstanding balance charged to your Student Account.	
Credit by Examination	\$75
Deferred Payment Fee	
5-Month Check Mailing Plan Fee	
per semester	\$150
5-Month Auto-Deduct Payment Plan	\$0
Semester/Company Reimbursement Plan	\$150
Degree Application Fee	\$145
Directed Teaching Fee, per semester hour:	
Elementary	\$25
Secondary	\$25
Equipment Insurance Fee	\$5
Late Payment Plan Enrollment Fee	\$100
Late Payment Fee (monthly)	\$75
Replacement Charge for OneCards	\$15
Returned Check Charge	\$35
Rush Transcript	\$10
Teacher Placement Fee	\$30
Thesis or Project Binding Fee, Graduate	\$26 mandatory

Certain courses may also require *mandatory laboratory fees*. Check with departments.

Any unpaid fines or charges (such as parking, library, delinquent telephone charges, property damage) or any miscellaneous charges incurred by a student while in attendance at the University will be charged to the student's account. Certain fees deemed optional are required to obtain that good or service.

The tuition, fees, and other charges described above are good faith projections for the academic year. They are, however, subject to change from one academic term to the next as deemed necessary by the University in order to meet its financial commitments and to fulfill its role and mission.

There are other fees and charges unique to certain programs that are dependent upon a student's matriculation at the University. These fees or charges may be determined by contacting the University offices that administer those programs or activities in which the student intends to enroll or engage.

Estimate of Charges

Since each student may elect various services with associated charges, it is not possible to determine precisely all student charges before registration. However, the following schedule estimates the charges for one academic year for a typical freshman undergraduate resident exclusive of entertainment, transportation, injury insurance, or other personal costs. Your actual cost may vary.

Estimated	Res. Hall	Apt.
Tuition (12-18 s.h.)	\$36,912	\$36,912
Residence/Apt.	\$9,240	\$11,000

Meals	\$3,200	\$1,200
Books/Supplies/ Misc. Expenses	\$4,780	\$4,780
Total Est.	\$54,132	\$53,892

Estimate assumptions for illustration:

Assumes Lion Dollars Plan I or Lion Dollars S Plan for apartments. (Average apartment rate used for apartment residents.) Actual Financial Aid Budget may vary due to individual economic circumstances.

Payment of Student Charges

To make a payment or enroll in a payment plan, please visit the Student Accounts Center accessible via PROWL or through the Student Accounts website: <http://www.lmu.edu/StudentAccounts>. Tuition, fees, and board charges are payable by the semester. **Financial clearance is necessary and subject to Late Financial Fee after the deadline.** Clearance may be obtained from the Controller's Office Student Accounts Department at the time of payment or by making arrangements for the payment plan described below.

Registration for classes may be canceled for any student whose payment check for tuition or fees is returned unpaid from the bank or who has defaulted on payment arrangements.

Financial clearance cannot be granted, and pre-registration will not be permitted, if a student's account is delinquent.

Failure to pay tuition and other outstanding debts will result in the withholding of the academic transcript. The student diploma will not be released until all debts are satisfied in full. Students are prohibited from future registrations due to delinquent accounts.

Sickness Insurance

The annual Sickness Insurance fee of \$601 (estimated) is mandatory for students who are taking 7 or more semester hours. Domestic students may waive coverage by completing the online waiver at <http://www.aetnastudenthealth.com>, beginning July through September. Please visit the Student Accounts website at: <http://www.lmu.edu/StudentAccounts> for specific dates. Students entering for the first time or returning to the University during the Spring 2012 semester and taking 7 or more semester hours will be charged a prorated amount for the Spring semester unless a waiver form is submitted to the Controller's Office by the deadline listed on our website.

International (Visa) students, regardless of the number of semester hours in which they are enrolled, must purchase the Mandatory International Student Sickness Insurance. **The International Sickness Insurance may not be waived**, and the cost is \$601 (estimated) for single coverage. Higher premiums may be charged depending upon marital status and number of dependents.

Please refer to the Aetna Student Health brochure for additional major medical, dependant and spousal coverage.

(Accident Insurance is mandatory for all students registered for 7 or more semester hours and may not be waived.)

Payment Plan Options

Full Payment by Year

This payment plan is only available to undergraduate students and only those undergraduate students who would like to make one payment, in full, for the entire academic year including the Fall and Spring semesters. Payment in full must be received by the published payment deadlines.

Full Payment by Semester

This payment plan is a semester plan open to all students, undergraduate and graduate, who would like to make one payment, in full, for the entire semester minus any incoming financial aid. Students enrolling in this plan will need to pay in full prior to the start of each term by the published payment deadlines.

5 Month—Automatic Checking Deduction

This payment plan is a semester plan open to all students, undergraduate and graduate, who would like to make five monthly payments via automatic deduction from a checking/savings account. Automatic de-

ductions are required for this payment plan. There is no enrollment fee associated with this plan.

5 Month—Check Mailing

This payment plan is a semester plan option to all students, undergraduate and graduate, who would like make five monthly payments by mail, in-person at the Student Accounts Office, or online through the Student Account Center. This payment plan is subject to a setup up fee of \$150.00 per semester, which will be charged once you enroll in the plan.

Company Reimbursement

This plan is a semester payment plan for students whose company will reimburse them for partial or full cost of tuition and mandatory fees. A current company reimbursement authorization letter is required to be submitted in order to enroll in this plan and an enrollment fee of \$150.00 will be charged for deferring payment until the end of the semester. The tuition and fee portion your company does not reimburse is due upon the submission of your authorization letter. The remaining balance is due and payable 30 days from the date semester grades are posted. If you leave employment of the sponsoring company, the balance is due and payable immediately. Sole Proprietor owner students are ineligible for this plan.

Third Party Billing

This payment plan is a semester plan for students whose company pays for partial or full cost of tuition and mandatory fees. LMU bills the company directly for the portion of tuition and fees they will cover after the semester begins. A current voucher/authorization letter is required to be submitted in order to enroll in this plan. For monthly payment options for the uncovered portion of your tuition and fees, please contact the student accounts office.

CAST, TFA, and PLACE students have mandatory payment plan options in which they must enroll. Students should see their advisor or the Student Accounts Office for more information.

Certificate of Eligibility for Veterans

All expenses incurred by a veteran that have not been properly authorized by the Veterans Administration must be paid by the veteran. Therefore, it is the responsibility of every veteran to see that papers are in proper order at the time of the first and each subsequent registration. Also, all veterans who are receiving benefits for educational expenses are required to contact the Financial Aid Office.

The University is required by the Veterans Administration to report failure on the part of the student to complete 75% of the semester hours attempted in any given term. Benefits to a veteran who fails to complete 75% of the semester hours originally enrolled in may be suspended. Counseling by the Veterans Administration will be required before the student enrolls for another term with benefits. The Veterans Administration's Advisement and Counseling Service is a free service provided under Federal Law. Failures, withdrawals, and NCs are not recognized as making satisfactory progress.

Refunds/Cancellation

Refunds for tuition and/or housing are made only after a complete withdrawal or leave of absence from the University (dropping all courses) has been processed by the Office of the Registrar and, in the case of a resident student, also by the Housing Office. For resident students, if the official withdrawal dates from the Office of the Registrar and the Housing Office are different, the respective dates will be used for tuition or housing refunding purposes. See the accompanying table for the allowable refund percentage.

Meal plans are non-refundable. A student should complete the Withdrawal/Leave of Absence form in the Office of the Registrar and, if a resident student, the withdrawal form in the Housing Office.

The University strives to meet the expectations of its students and tries to act compassionately in a time of crisis that interrupts a student's semester studies so that she/he cannot or should not finish the semester. In an attempt to ease the cost of tuition, the refund policy is in place to allow for a sliding refund for those who withdraw from all courses in a given semester according to the following schedule. This policy applies to, but is not limited to, the following leave or withdrawal reasons: hospitalization, illness, moving out of the area, employment changes/relocation, and family-related emergencies.

No refund may be given for registered courses which a student did not attend and did not withdraw from within the full refund period. No refund or cancellation is granted to a student who withdraws from a portion of his/her program after the end of the 100% Drop/Add period. Consult the following refund schedule for the academic category corresponding to your enrollment and type of program.

Students, whether undergraduate, graduate, or non-degree, who have paid tuition by the semester hour are eligible for tuition refunds per semester hour, based on the published sliding scale. Full refunds for all other students are contingent upon withdrawal from all classes or from the University. The published sliding scale still applies to this type of refund.

Fall 2011

Withdrawal %	All Students
100% through	Sep. 2, 2011
90% through	Sep. 8, 2011
70% through	Sep. 15, 2011
50% through	Sep. 23, 2011
25% through	Oct. 21, 2011
0% on or after	Oct. 22, 2011

Spring 2012

Withdrawal %	All Students
100% through	Jan. 13, 2012
90% through	Jan. 19, 2012
70% through	Jan. 26, 2012
50% through	Feb. 6, 2012
25% through	Mar. 6, 2012
0% on or after	Mar. 7, 2012

The University's Federal Aid refund policy complies with the Higher Education Amendments Act.

Refund Payments

Refund credits are applied to the student's account. Refunds of credit balances will be made in accordance with Federal guidelines. Refunding of credit balances is subject to a holding period until verification that funds received have cleared the University's bank. Refund payments are issued in the name of the student unless written authorization from the student is received to the contrary.

Security Interest in Student Records

A student may not receive a diploma, certificate, or transcript until all accounts, current or otherwise, have been settled in accordance with University and Agency requirements. Students with delinquent accounts will be prohibited from future registration until all balances are resolved to the University's satisfaction. Such documents and services will be retained by Loyola Marymount University as security for such obligations until they are satisfied.

If a student defaults on payment of a Federal Perkins Student Loan, a Federal Family Educational Loan, or an Institutional Loan, or if a student fails to satisfy exit interview requirements, a security interest in records and services will remain in effect until debts and requirements are satisfied. Unpaid accounts are reported to the three major credit reporting agencies. Exit interviews are administered through the Student Loan Office and the Financial Aid Office.

UNIVERSITY CORE CURRICULUM

Goals and Objectives of the Core Curriculum

Consistent with the goals of the University and with the desire to provide undergraduate students with an education founded strongly in human values, Loyola Marymount University has adopted the following goals and objectives.

Goals:

- To provide a strong undergraduate humanistic education within the traditions of the Society of Jesus and the Religious of the Sacred Heart of Mary.
- To foster the desire for knowledge and to provide the skills necessary for a lifetime of intellectual growth in a global society.
- To prepare students to play active roles in addressing the problems and challenges they will face in attempting to create a just world.

Objectives:

- To develop an understanding of religious experience and beliefs, with particular attention to theological questions as addressed by Catholic Christianity.
- To develop a habit of philosophical reflection.
- To develop an understanding and appreciation of the history of humankind in the arts, literature, and philosophy.
- To develop a knowledge of the structures, values, and practices of contemporary societies.
- To develop the arts of precise and elegant expression in speaking and writing.
- To develop the skills of critical thinking.
- To develop quantitative skills and an understanding of the history and principles of mathematics and science and technology.
- To cultivate and engage the creative imagination.
- To explore ways to live more fully and to act more responsibly within a culturally diverse world.

The following core curriculum encourages intellectual breadth. No matter the student's major, all students should be acquainted with the nature of discourse and practice in the major areas of knowledge that will prepare students for life after Loyola Marymount University.

Students should consult the College or School sections of this Bulletin for core curriculum requirements specific to each College or School.

Core Curriculum Requirements

American Cultures
College Writing
Communication or Critical Thinking
Critical and Creative Arts
History
Literature
Mathematics, Science and Technology
Philosophy
Social Sciences
Theological Studies

American Cultures

American Cultures courses will examine and compare the American experience of at least three of the following groups: African American, American Indian, Asian American, Chicana/o-Latino/a, and European American. The objective of these courses is to explore the contributions of these groups to human knowledge and development. Classes will also explore the varieties of cultural expression, behavior, and interaction.

First- and second-year students choose from any lower division course listed or cross-listed as AMCS. Third- and fourth-year students choose from any upper division course listed or cross-listed as AMCS.

A single course will generally not fulfill two core requirements. The only exception is a course that satisfies another core requirement which is also cross-listed as AMCS.

College Writing

Proficiency in Writing

All entering first-year students will demonstrate writing proficiency by completing an essay administered in all ENGL 110 sections during the first week of classes. Based on performance in this essay, students will remain in ENGL 110 or be placed in ENGL 100 (English as a Second Language) and ENGL 101 (Required Writing Lab—ESL). Some students will be recommended to enroll in ENGL 111 (Elective Writing Lab).

College Writing Courses

The required course in college writing teaches students how to produce clear and logical, thoughtful and persuasive expository prose suitable to a variety of academic disciplines. To do this effectively, students must learn to be critical readers and thinkers. A critical analysis of both reading and writing enables students to create more meaningful and effective prose. ENGL 110 will fulfill the college writing requirement. ENGL 100 will not fulfill the college writing requirement but is required of certain students based on their performance in the essay administered in all ENGL 110 sections during the first week of classes. A minimum grade of C (2.0) is required in ENGL 110. All students who receive a grade of C- (1.7) or lower must retake ENGL 110 at LMU and receive a grade of C (2.0) or higher.

English 100: English as a Second Language

Students enroll in English 100 based on their performance in an essay administered in all ENGL 110 sections during the first week of classes. This course is designed to give students essential skills in writing and reading English. Students must earn a grade of C (2.0) or better in order to pass this course.

English 110: College Writing

The art of clear and effective college writing. This course will teach students how to generate clear and persuasive expository prose suitable to a variety of academic disciplines. Students must earn a grade of C (2.0) or better in order to fulfill the college writing requirement. Students who receive a C- (1.7) or lower in ENGL 110 must enroll in ENGL 110 the next semester.

Communication or Critical Thinking

Communication

The communication offerings develop students' abilities to analyze issues and problems more logically. Students will prepare arguments, presentations, and speeches. They will also learn to listen more critically and speak more effectively in a variety of settings.

Critical Thinking

The course in critical thinking helps students to improve their reasoning skills through a study of logic and its application to several types of argumentation, both oral and written. The students are taught both the technical skills of argument evaluation and the other skills needed to construct sound arguments and debates.

Critical and Creative Arts

Critical Arts

Critical Arts courses are those courses in the history and theory of the arts which analyze artistic works in their social contexts as well as the aesthetic expectations and conventions which inform them.

Creative Arts

The objective of courses in the Creative Arts is to develop individual expression through exploration, analysis, and creation of artistic works.

History

This category of courses analyzes the major concepts, ideologies, and movements that have dominated the course of civilization in order to develop in students the historical perspective necessary to better understand the global society in which they live.

Literature

Prerequisite: Successful completion of college writing requirement.

Core literature courses enhance students' understanding and appreciation of literary works. A study of fiction, poetry, or drama familiarizes the students with both the strategies available to the fiction writer, poet, or playwright in creating the literary work and the variety of critical approaches for analyzing and evaluating literature.

Mathematics, Science and Technology

Proficiency in Mathematics

All students must demonstrate proficiency in mathematics. The mathematics course(s) required for a student to demonstrate mathematics proficiency teaches the student the quantitative and analytic skills needed to function as an informed citizen in an increasingly technological world.

Any student with a grade of 4 or 5 on at least one of the Calculus A/B, Calculus B/C, or the Statistics Advanced Placement Examinations has already demonstrated proficiency in mathematics.

Students in the **College of Communication and Fine Arts** and **students in the Bellarmine College of Liberal Arts** who are **NOT** required to take a mathematics course as part of their major requirements normally demonstrate proficiency in mathematics by receiving credit in Quantitative Skills for the Modern World (MATH 102). The Mathematics Placement Examination is not necessary for enrollment in this course.

Students in the **College of Business Administration**, the **Frank R. Seaver College of Science and Engineering**, and the **Bellarmino College of Liberal Arts** majoring in economics or liberal studies demonstrate mathematics proficiency by receiving credit in the mathematics courses required by their particular majors. These students must take the Mathematics Placement Examination to determine placement in appropriate classes. If the results of this placement examination indicate, students are required to enroll in and pass Algebra (MATH 101) before they qualify to enter the mathematics course required by their major. In all cases, mathematics proficiency is met only after receiving credit in the mathematics coursework required by the major.

Psychology majors demonstrate mathematics proficiency by passing Elementary Statistics (MATH 104) with a grade of C (2.0) or better. These students do not take the Mathematics Placement Examination but enroll directly into Elementary Statistics (MATH 104).

Special Circumstances

- Students desiring to take MATH 106, 111, 112, 120, 122, or 131 in order to fulfill the mathematics proficiency requirement should see their advisor for appropriate action. The Mathematics Placement Examination is required before taking any of these courses.
- Transfer students should see the Dean of their College or School for specific information.

All students should see their individual College or School section in the Bulletin and their major requirements described in the Bulletin for further specific information.

Mathematics, Science and Technology Courses

Prerequisite: Credit in MATH 101 or higher, or placement into MATH 106 or higher.

These courses introduce the student to the methodology and mathematics used in a field of mathematics, science, or engineering as well as provide a more in-depth study in a specific area. These courses include laboratories and/or demonstrations providing the student with hands-on experience.

Philosophy

The lower division core course is designed to introduce students to the nature of philosophy as a discipline and to address selected central metaphysical and epistemological issues surrounding the question of human nature.

Upper division courses examine questions that a person asks in order to form an intelligent philosophy of moral choice, with particular attention to those moral concepts that have been most important in shaping Christian culture. The approach may emphasize either the major moral theories or selected contemporary moral problems.

Social Sciences

These courses will introduce students to systematic, empirically grounded investigations of individuals and the structures, values, and practices of contemporary societies. Students develop conceptual and analytical skills necessary to understand the economic, political, psychological, cultural, and/or social conditions that influence our lives.

Theological Studies

A general objective of Theological Studies courses is for students to face the issues of religious beliefs and their consequences in their lives.

The objectives of the lower division core courses are to examine the nature of religion, the nature of Christian faith, and the methods for understanding scripture.

The objectives of the upper division core courses are to deepen the students' knowledge of at least one of the three areas covered in the lower division course under one of the following categories: biblical theology, historical theology, systematic theology, moral and practical theology, and world religions.

GRADUATE DIVISION

The mission of the Graduate Division is to promote transformative graduate education at Loyola Marymount University, to celebrate the accomplishments of graduate students and the faculty who educate them, and to provide leadership in the establishment and communication of policies, standards, and processes related to graduate education and to the quality of life for graduate students.

Since its creation in 1950, the Graduate Division has worked closely with the University's colleges and schools to create innovative programs that meet the personal, academic, and professional needs of its students. As life-long learning becomes even more integral to individual success and social welfare, the Graduate Division remains committed to providing an array of forward-looking programs of great distinction and to creating an environment that enables students to realize their full potential.

The University's graduate programs are characterized by outstanding faculty, academic excellence, small class size, and attention to individual students. Though the graduate programs span a diverse array of academic disciplines and professions, they are uniform in their attention to education of the whole person, to conscious exploration of ethical issues, and to developing leaders in service to society.

Across its various schools and colleges, the University offers curricula leading to the degrees of Doctorate in Education (Ed.D.), Education Specialist (Ed.S.), Master of Arts (M.A.), Master of Business Administration (M.B.A.), Master of Fine Arts (M.F.A.), Master of Science (M.S.), and Master of Science in Engineering (M.S.E.), as well as to a variety of graduate certificates and credentials.

Graduate Division Directory

The Graduate Studies Office is located in University Hall, Suite 1840. Telephone: 310.338.2721 or 888.946.5681; fax: 310.338.6086.

Degrees Offered

1. The **Master of Arts** degree is offered in the following:

Administration
 Bilingual Elementary Education
 Bilingual Secondary Education
 Bioethics
 Catholic Inclusive Education
 Catholic School Administration
 Counseling
 Educational Psychology
 Educational Studies
 Elementary Education
 English—Areas of Emphasis:
 Creative Writing
 Literature
 Rhetoric and Composition
 Guidance and Counseling
 Literacy and Language Arts
 Marital and Family Therapy
 Pastoral Theology—Areas of Emphasis:
 Pastoral Leadership
 Spiritual Direction
 Philosophy
 Reading Instruction
 School Psychology
 Secondary Education
 Special Education
 Teaching English as a Second Language
 Theology—Area of Emphasis:
 Comparative Theology
 Urban Education—Areas of Emphasis:
 Curriculum, Teaching, and Learning
 Digital Learning
 Educational Policy and Administration
 Language and Culture
 Literacy

2. The **Master of Arts in Teaching** degree is offered in the following:

Mathematics

3. The **Master of Business Administration** degree

Areas of Emphasis:

Accounting Decision Systems
 Entrepreneurial Organizations
 Executive MBA
 Financial Decision Systems
 Human Resource Management
 Information and Decision Sciences
 International Business Systems
 Management and Organizational Behavior
 Marketing Management

4. The **Master of Fine Arts** degree is offered in the following:

Feature Film Screenwriting
 Film and Television Production
 Writing and Producing for Television

5. The **Master of Science** degree is offered in the following:

Computer Science
 Environmental Science

6. The **Master of Science in Engineering** degree is offered in the following:

Civil Engineering
 Electrical Engineering
 Mechanical Engineering
 Systems Engineering—Areas of Emphasis:
 Computer Science

Electrical Engineering

Systems Engineering

7. The **Education Specialist** degree is offered in the following:

School Psychology

8. **Dual Master's degrees/Joint Programs** are offered in the following:

MS/MBA – Systems Engineering Leadership

JD/MBA

9. The **Doctorate in Education** is offered in the following:

Educational Leadership for Social Justice

ACADEMIC DEGREES AND PROGRAMS

Degrees and Major Programs with Areas of Concentration

Loyola Marymount University offers courses leading to the following degrees:

Bellarmino College of Liberal Arts

B.A.	African American Studies
B.A.	Asian and Pacific Studies
M.A.	Bioethics
B.A.	Chicana/o Studies
B.A.	Classical Civilization
B.A.	Classics
B.A.	Economics
	- International
B.S.	Economics
B.A.	English
	- Literature
	- Writing
M.A.	English
	- Creative Writing
	- Literature
	- Rhetoric and Composition
B.A.	European Studies
B.A.	French/Francophone Studies
B.A.	Greek
B.A.	History
B.A.	Humanities
B.A.	Individualized Studies
B.A.	Latin
B.A.	Liberal Studies
	- See program director for available concentrations.
B.A.	Modern Languages
M.A.	Pastoral Theology
	- Pastoral Leadership
	- Spiritual Direction
B.A.	Philosophy
M.A.	Philosophy
B.A.	Political Science
B.A.	Psychology
B.A.	Sociology
B.A.	Spanish
B.A.	Theology
M.A.	Theology
	- Comparative Theology
B.A.	Urban Studies
B.A.	Women's Studies

College of Business Administration

B.S. in Acc.	Accounting
B.S.	Applied Information Management Systems
M.B.A.	Business Administration
	- Accounting Decision Systems
	- Entrepreneurial Organizations
	- Executive MBA
	- Financial Decision Systems
	- Human Resource Management
	- Information and Decision Sciences
	- International Business Systems
	- Management and Organizational Behavior
	- Marketing Management

Credential Programs

Under the jurisdiction of the State of California and the approval of the Commission on Teacher Credentialing, Loyola Marymount's School of Education offers courses leading to several state-granted credentials. Programs that may be completed concurrently with an undergraduate degree program are:

Bilingual Education (BCLAD Spanish—Multiple and Single Subject)

Elementary Education (Multiple Subject)

Preliminary Administrative Services

Professional Administrative Services

Pupil Personnel Services—School Counseling

Pupil Personnel Services—School Psychology

Secondary Education (Single Subject)

Special Education Level II Mild/Moderate Specialist

2042 Professional Clear

Credential and certificate programs are also offered at the graduate level. Please see the School of Education section of this Bulletin for further details.

Certificate Programs

Loyola Marymount University offers courses leading to the following certificate programs:

Bellarmino College of Liberal Arts

Bioethics (Graduate)

College of Business Administration

Business Administration (Graduate)

- International M.B.A.

Frank R. Seaver College of Science and Engineering

Mechanical Engineering (Graduate)

- Finite Element Methods

- Manufacturing

- Materials Engineering

- Mechanical Design

- Structural Dynamics
- Systems Engineering
- Thermal Engineering

School of Education

Education (Graduate)

- Catholic Inclusive Education
- Catholic School Administration
- Charter School/Small Learning Communities Leadership
- Reading

Additional certificate programs are available through LMU Extension.

ACADEMIC DEGREE REQUIREMENTS AND POLICIES

All regulations and rules or procedures contained in this official Bulletin apply to undergraduate and graduate programs. *Requirements and policies that refer solely to graduate students are indicated in italics.* Questions in individual cases should be presented through written petition to the appropriate dean.

For non-academic matters, all students are governed by the Loyola Marymount University Student Conduct Code found in the Community Standards booklet. The booklet can be found on MyLMU (<http://my.lmu.edu>).

Students are held individually responsible for information contained in these pages. Failure to read and understand these regulations will not excuse a student from their observance.

A student is held responsible for academic regulations in effect at the time of entrance, provided the student maintains continuous enrollment. Similarly, a student who changes programs or majors after being admitted to the University is held responsible for the academic regulations in effect at the time the program or major is changed. A student who interrupts academic enrollment is subject to the academic regulations in effect in the Bulletin at the time enrollment is resumed.

Academic Advising

Students are assigned academic advisors within their college or school. As part of the registration process, students consult their advisors in preparation of their academic programs and prior to registering for classes. Advisors are not authorized to change established policy of the University. The student is solely responsible for assuring that his/her academic program complies with the policy of the University. Any advice at variance with established policy, i.e., a degree audit exception (Petition for CAPP Adjustment form), must be confirmed in writing by the chairperson of the department or director of the program and then by the Dean's Office.

Academic Calendar

The University offers two fifteen-week semesters plus a week of final examinations for each semester and two six-week summer sessions that include final examinations.

Academic Disqualification

Disqualification terminates a student's relationship with the University. A disqualified student may not register in any division or session of the University and is denied all privileges of the University and of all organizations or activities in any way connected with it.

The following classes of students will be subject to disqualification:

1. An undergraduate student who while on probation fails to earn a C (2.0) average or B (3.0) average for a graduate student during the next semester, or who has not attained an accumulated grade point average of C (2.0) for an undergraduate or B (3.0) for a graduate within two semesters after having been placed on probation;
2. A student who does not make satisfactory progress in the course of study;
3. A student who has had special academic requirements imposed by the dean or the Committee on Academic Standing and Degrees and does not meet the requirements within the time prescribed.

Readmission after Disqualification

Disqualified students are not eligible for readmission until one calendar year has elapsed.

1. A disqualified undergraduate or graduate student who wishes to be considered for readmission to the University must file a formal application with the Admission Office or Graduate Admissions Office respectively.
2. A formal interview must take place with the Dean's Office prior to formal readmission.
3. A disqualified student who is readmitted will be on strict probation which requires that the student must satisfactorily complete all requirements set by the Dean in the initial semester after readmission.

4. A student who has been disqualified a second time may not apply for readmission.

The following exception to the academic probation policy applies to the Executive MBA (EMBA) Program. Because the EMBA is a twenty-one month program in which students take a prescribed course of study, students receiving a failing grade in a course will be subject to disqualification from the program.

A graduate student who wishes to appeal a disqualification must submit a written request to the Chair, Program Director, or Dean of the student's college or school. If the appeal process cannot be resolved, an impartial three-person faculty panel will be assigned by the Chair of the Graduate Council to review the request. The panel will individually interview the faculty person and the student. After the interviews, review, and discussion, the panel will submit a formal decision to the Chair of the Graduate Council, whose decision will be final.

School of Education appeals should be directed to the Program Coordinator. If the appeal cannot be resolved, the issue will then be submitted to the Associate Dean, and if necessary, the Dean.

Academic Probation

Academic probation carries a serious warning to the student that the scholastic record is unsatisfactory and continued failure to improve this record may result in being declared ineligible to attend the University. Students on probation may also have restrictions imposed by the dean regarding their program of studies and their participation in extracurricular activities. The following classes of students will be placed on probation:

1. An undergraduate student who in any term fails to earn a C (2.0) average or a graduate student who in any term fails to earn a B (3.0) average,
2. An undergraduate student whose cumulative grade point average falls below a C (2.0) or a graduate student whose cumulative grade point average falls below a B (3.0),
3. An undergraduate upper division student who in any one term fails to earn a C (2.0) average in the major requirements, or a graduate student who in any one term fails to earn a B (3.0) average in the major or program requirements, or
4. An undergraduate student whose cumulative grade point average in the major requirements is below a C (2.0) or a graduate student whose cumulative grade point average in the major or program requirements is below a B (3.0).
5. A student who does not make satisfactory progress in the course of study.

Academic Standing

Calculation of academic standing for undergraduates bases the student's standing on coursework completed in the Fall and Spring terms only. *Academic standing for graduate students includes Summer enrollment as well as Fall and Spring.*

Attendance

The policy on class attendance of enrolled students is within the discretion of the individual faculty member and shall be announced by the faculty member at the first class meeting of the semester or summer session or listed on the class syllabus. Students may not attend a class without being officially enrolled in that class.

Auditing a Course

Enrolled LMU students may not enroll as auditors in a regularly scheduled LMU course through LMU Extension.

Space permitting, students will be permitted to register as auditors only for exceptional reasons and with the authorization of the Dean of the college or school in which the course is offered. Not all courses are open to auditors, and not all departments or programs allow auditors in their courses. Auditors are not held responsible for the work expected of regu-

lar students and receive no grade or credit for the course. Regular attendance at class is expected.

A student who has previously enrolled as an auditor may not take the course for credit in the subsequent term except by special permission of the Dean of the college or school in which the course is offered.

Individuals may not be formally admitted to the University only to audit courses.

Refer to the tuition and fees section of this Bulletin for information on costs associated with auditing.

Baccalaureate Degree Requirements

All candidates for the baccalaureate degree at LMU must fulfill the following requirements:

1. All candidates in the undergraduate colleges must complete a minimum of 120 semester hours, including core and program requirements and 45 semester hours of upper-division course work. Certain programs require more than 120 semester hours. These are noted under the appropriate department listings.
2. All work done at LMU must have a cumulative grade point average of C (2.0). All courses taken in the major, minor, or area of concentration must have a cumulative grade point average of C (2.0).
3. At least 30 of the last 36 semester hours for the bachelor's degree must be taken in residence at LMU. At least two-thirds of the upper division semester hours of the major must be taken in residence at LMU unless, for programmatic purposes, the dean and the director of the major deem an exception appropriate.
4. A student is held responsible for academic regulations in effect at the time of entrance or for those in effect in the senior year provided the student maintains continuous enrollment. Similarly, a student who declares or changes a major after being admitted to the University is held responsible for the academic regulations in effect at the time the major is declared or changed. A student who interrupts LMU enrollment is subject to the academic regulations in effect in the University Bulletin at the time enrollment is resumed.
5. Degrees are awarded at the end of the Spring term, August 31, and December 31. The date of the degree posted on a student's diploma is the one by which all graduation requirements are completed or documents are submitted. These include:
 - a. A submission of transcripts from other institutions prior to the degree date. The transfer course(s) must be completed prior to degree date, and an official transcript must be received in the Office of the Registrar no later than 30 working days after the end of the term.
 - b. The completion of all incomplete work prior to the degree date;
 - c. File application for degree by the deadline date for the term in which all of the above conditions will be met. If a student has been canceled for graduation in a given term, it is the responsibility of the student to again file for graduation for a later term;
 - d. All course requirements for a degree must be completed or be in progress before or during the term of degree conferral.

Second Baccalaureate Degree

A student who possesses an earned bachelor's degree from an institution accredited by one of the six regional associations of the Accrediting Commission for Senior Colleges and Universities may earn a second undergraduate degree with a different major field of study by meeting all of the following requirements:

1. Completion of at least 30 semester hours at LMU beyond those required for the first degree; these must include at least 24 semester hours of upper division work and at least 20 semester hours of upper division work in the major field of study;
2. Fulfillment of the core requirements of the College or School in which the major is offered;
3. Satisfaction of all the requirements for the major;
4. Completion of the application for degree process (c.f., #5 above).

Change of Address

All students must notify the Office of the Registrar immediately of any change in their addresses or those of their parents or guardians. Students may change their permanent, mailing, and billing addresses through PROWL. The University assumes no responsibility for materials

sent through the mail or e-mail not received. In addition, students must submit through PROWL emergency contact information to the Office of the Registrar.

Classification of Matriculated Undergraduates

Undergraduate students are classified according to the following norms:

Freshman:	Satisfaction of entrance requirements
Sophomore:	Completion of 30 semester hours
Junior:	Completion of 60 semester hours
Senior:	Completion of 90 semester hours

Completion of Graduate Programs

The normal time allowed for the completion of graduate degree programs is **five years**. A student who has not completed the degree within five years must request an extension of time. If the extension is granted by the Dean of the student's college or school, the student may be required to undertake additional coursework. Some departments have a shorter limit for the completion of the program.

A minimum of 30 graduate semester hours (500 and 600 level) and a minimum 3.0 ("B") cumulative grade point average are necessary to qualify for completion of a program. See individual program descriptions for specific and additional graduation requirements.

Comprehensive Examinations

In those graduate programs requiring comprehensive examinations, the candidate must register under the appropriate number in his/her program's course listings. If the comprehensive examination(s) carry course credit in semester hours, tuition per semester hour will be charged on the same basis as for a regular course. If the comprehensive examination(s) do not carry course credit in semester hours, no tuition will be charged. In every case, the candidate must, however, register for the comprehensive examination in the term in which he or she plans or is scheduled to take it.

Concurrent Enrollment

Enrollment by degree-seeking undergraduate students at another institution at the same time they are enrolled at LMU is not permitted.

Course Explanations

Classification of Courses

This section contains a list of symbols for all courses offered at the University, excluding the courses offered at Loyola Law School.

000-099	Courses offered in this number range do not carry degree-granting credit.
100-299	Lower division undergraduate courses—degree-granting credit
300-499	Upper division undergraduate courses—degree-granting credit
500-599	Upper division undergraduate courses in which graduate students may enroll and receive graduate credit. Undergraduate students may not enroll in 500-level courses offered by the School of Education.
600-699	Graduate courses—degree-granting credit
800-999	LMU Extension courses. Courses offered in this number range do not carry degree-granting credit.
1000-2999	College of Business Administration lower division undergraduate courses—degree-granting credit
3000-4999	College of Business Administration upper division undergraduate courses—degree-granting credit
5000-6999	School of Education graduate courses—degree-granting credit
7000-7999	School of Education Doctor of Education courses—degree-granting credit
8000	School of Education required course

In exceptional circumstances, seniors may take courses in the 600 series with the written permission of the Chairperson of their major department and the appropriate College or School and with the approval of the Director of the graduate program offering the 600-level course. In

such cases, they register for "599—Independent Studies." In this instance, the course is calculated in the undergraduate career. No undergraduate student may register for a course in the 600 series. *Only students accepted into the Graduate Division may register for 600-, 5000-, 6000-, and 7000-numbered courses.*

Special Studies (98)

Courses whose numbers have as the last two digits "98" are Special Studies. These courses have a special syllabus and description not listed in the Bulletin. They can be held in a lecture, discussion, or seminar format at a specified or arranged time and place for a group of students. Each department sponsoring Special Studies courses maintains these course descriptions.

Independent Studies (99)

Courses whose numbers have as the last two digits "99" are Independent Studies. This is an individualized study arranged by a student with a full-time faculty member and approved by the Chairperson of the Department and the Dean.

These courses are for the educational enrichment of the student particularly qualified for the kind of experiences that are beyond the scope of a regular course. Under the supervision of a faculty member, the work will be of research or similarly creative nature and will normally culminate in a project or examination. Freshmen, first-semester transfer students, and part-time undergraduates are not eligible.

An Independent Studies course is considered part of the student's semester program. Registration for such courses takes place only during the regular registration periods.

Most graduate programs will allow graduate students to take no more than two classes as independent study. Consult the individual Program Director for future information and limitations.

Course Load

In Fall or Spring semesters, the normal load for full-time, degree-seeking undergraduate students in good standing from the previous semester is 15-18 semester hours. In order for an undergraduate student to enroll in 19 or more semester hours, the following criteria must be met:

1. 3.50 overall GPA
2. a minimum of 15 semester hours completed during the prior full semester
3. petition signed by the Associate Dean's office turned in to the Office of the Registrar to adjust hours.

For Summer, undergraduate students in good standing may register for 6 semester hours per session.

The maximum load for graduate students during Fall or Spring is 15 semester hours.

Credit by Challenge Examination

A student may obtain credit by examination for selected courses as approved by the course Chairperson and student's Dean.

To challenge an LMU undergraduate course by examination, a student must be regularly enrolled and a full-time student. A course may be challenged only once. Students may not challenge a course that is at a level more elementary than one in which they are currently enrolled or for which they have already received credit. Nor may students challenge a course for which they have previously registered until a period of one year has elapsed from the time of their original registration in the course. A challenge examination once failed may not be repeated. 100- and 200-level courses in the Department of Modern Languages and Literatures may not be challenged.

A petition for receiving course credit by examination must be obtained from the Office of the Registrar. The examination carries a fee of \$75, payable in advance and non-refundable.

MBA students may challenge MBA core courses only during the first semester of enrollment. A course may be challenged only once. If the student passes the challenge exam, that is equivalent to waiving the course.

Cross-Listed Courses

A cross-listed course is one that carries credit in more than one department or program. Students may not enroll in more than one section of a cross-listed course and may receive credit in one department only.

Diploma

Diplomas are granted and mailed to students who have completed all academic degree requirements and who have no outstanding financial obligations to the University. Diplomas left unclaimed are destroyed after three years. Students must re-order destroyed diplomas.

Double Credit

A student may not count the same course to meet the requirements for both an undergraduate and a graduate degree.

Courses may not count as fulfilling both a major and minor program, unless a specific course is required by both programs.

A graduate student who wishes to enroll for a second Master's degree in the School of Education may apply up to three core courses towards a second Master's degree. For other graduate programs, no more than two courses may be counted toward a second degree upon prior approval from the respective Deans' offices.

Electives

Elective courses do not fulfill requirements in the student's University Core, major(s) or minor(s) programs, but they do fulfill overall semester hours requirements.

Final Examinations

Students are required to take all scheduled examinations. Final examinations are to be held at the time published by the Office of the Registrar. No student is allowed to take a final examination before the scheduled time.

Full-Time Standing

Any undergraduate student carrying 12 or more semester hours in the Fall or Spring term is considered a full-time student. Students carrying fewer than 12 semester hours are classified as part-time students. This applies to the academic standing. For Summer, an undergraduate enrolled in 6 or more semester hours is considered a full-time student and fewer than 6 semester hours a part-time student.

A graduate student is considered full-time when carrying 6 or more semester hours in the Fall, Spring, or Summer term. A load of five or fewer semester hours constitutes part-time status. Doctoral students completing the dissertation are full-time with at least two semester hours per term.

Please refer to the Financial Aid full-time/part-time standing for an explanation of how that department defines full-time standing and the impact on financial aid awards.

Grades

Final grades are submitted by the student's instructors and are issued to the student by the Office of the Registrar via PROWL at the end of each term.

Credit/No Credit Grading

Students may not be graded on a Credit/No Credit basis in courses which are part of a major, minor, or core curriculum program. Credit courses count toward the fulfillment of graduation requirements. Neither Credit (CR) nor No Credit (NC) grades affect the student's grade point average. Once the petition for either grade or Credit/No Credit basis has been filed in the Office of the Registrar, it may not be rescinded or changed after the last day of registration.

Students may be graded on this basis for not more than 20% of their total semester hours at LMU. Students wishing to be graded on this basis must file the appropriate petition in the Office of the Registrar by the published date in the Academic Calendar.

In the case of courses that are graded on a Credit/No Credit basis, the student may petition the instructor for a letter grade with the approval of the Dean, before the end of the third week of the semester.

In order for a student to receive a grade of Credit, the work must be of C (2.0) or better for undergraduates and B (3.0) or better for graduates.

Grade Appeals

It is understood that, except in rare instances, only the Instructor may change the final grade using the Correction of Grade form through the Office of the Registrar and then only with the approval of Department Chairperson's, Program Director's, or equivalent (hereafter called Department Chairperson), and the approval of the Dean of the Instructor's college or school. The Dean may, however, change the grade if all of the following processes of appeal have been followed. The Dean must notify the Instructor, in writing, of the change in final grade.

1. No later than three weeks into the semester following the issuance of a disputed grade, the student must meet face-to-face with the Instructor to review the reasons for the grade.
2. No later than the following week, if the Instructor is not available for discussion or if discussion fails to resolve the problem, the student may ask the appropriate Department Chairperson (see above) to meet with both the Instructor and the student within five class days. If the Chairperson and the Instructor are in agreement about the validity of the grade, the student may appeal to the appropriate Dean. If the Chairperson cannot agree with the Instructor, the Chairperson will refer the student to file a written appeal to the Dean.
3. The student who appeals beyond the department level must file a written appeal to the appropriate Dean within five class days of the meeting with the Instructor and Chairperson, and no later than the end of the sixth week of classes. The Dean, upon receipt of the written appeal, will work with all parties in an attempt to resolve the matter by mutual agreement. If agreement cannot be reached, the Dean may appoint a committee of three impartial persons to investigate the matter and make a recommendation to the Dean. The Dean will normally follow the recommendation of the committee; however, the decision of the Dean is final.

Grading System

The work of all students at LMU is reported in terms of grades. Instructors are required to assign a final grade for each student registered in a course.

Undergraduate Grades

The following grades are used to report the quality of undergraduate student work at LMU:

A	Superior
B	Good
C	Satisfactory
D	Poor
F	Failure
CR	Credit—Equivalent to grade of C or higher
NC	No Credit—Equivalent to grade of C- or lower
NR	Not reported by instructor
AU	Audit
I	Work incomplete
IP	Work in progress (for courses requiring more than one semester to complete)
W	Official withdrawal from course

A grade of A may be modified by a minus (-) suffix, and grades B and C may be modified by a plus (+) or minus (-) suffix. Grades A, B, C, and CR denote satisfactory progress toward the degree, but a D grade must be offset by higher grades in the same term for students to remain in good academic standing. Note that a "C-" grade is not a passing grade in courses requiring a minimum grade of "C." An F or NC grade yields no semester hour or course credit.

Failure to withdraw officially from a course will result in a grade of F (see Withdrawal).

Graduate Grades

The following grades are used to report the quality of graduate student work at LMU:

A	Superior
B	Satisfactorily demonstrated potential for professional

	achievement in field of study
C	Passed the course but did not do work indicative of potential for professional achievement in field of study
F	Failure
CR	Credit—Equivalent to grade of B or higher
NC	No Credit—Equivalent to grade of B- or lower
NR	Not reported by instructor
AU	Audit
I	Work incomplete
IP	Work in progress (for courses requiring more than one semester to complete)
W	Official withdrawal from course

A grade of A may be modified by a minus (-) suffix, and grades B and C may be modified by a plus (+) or minus (-) suffix. Grades A, B, and CR denote satisfactory progress toward the degree, but a B- grade must be offset by higher grades in the same term for students to remain in good academic standing. Courses may be taken CR/NC only with approval from the Dean. Courses in which a grade of B- through C- is received may be applied toward graduate degrees unless otherwise prohibited by the program requirements. A student must maintain a 3.0 GPA in order to remain in good academic standing. An F or NC grade yields no semester hour or course credit.

Failure to withdraw officially from a course will result in a grade of F (see Withdrawal).

Grade Point Average

Grade points are a measure of the quality of the academic work completed, just as semester hours are a measure of the quantity of this work. The University uses a letter grade to indicate the level of individual student achievement. Each letter grade has a point value assigned for the grade achieved. The point value assigned to each letter grade is as follows:

A	4.0 grade points	C+	2.3 grade points
A-	3.7 grade points	C	2.0 grade points
B+	3.3 grade points	C-	1.7 grade points
B	3.0 grade points	D	1.0 grade points
B-	2.7 grade points	F	0.0 grade points

The grades of AU, CR, NC, I, IP, and W have no point value and are not used in calculating the grade point average.

The LMU grade point average is determined by dividing the total number of LMU grade points by the number of LMU semester hours completed with a letter grade.

Change of Grades

Grades, once submitted to the Office of the Registrar, will be changed only in case of error. An instructor desiring a change of grade must present a written explanation to the Chairperson and the Dean with a Correction of Grade form from the Office of the Registrar. No grade changes will be made after the fourth week of instruction of the next full term.

A student's permanent record reflects the coursework upon which the University awarded the degree or recommended a credential. Therefore, no grade or other changes are permitted either after awarding the degree or recommending the credential.

Mid-Term Deficiencies

The Office of the Registrar e-mails and posts to PROWL mid-term deficiency notices to students informing them of unsatisfactory work as submitted by instructors. The notices, advisory in nature and issued prior to the last day to withdraw in a term, are not part of the student's permanent academic record.

Graduate Degree Requirements and Policies

Degrees are formally awarded at the end of May, December, and August. The date of the degree posted on a student's diploma is the one by which all graduation requirements are completed or documents are submitted. These include:

- a submission of official transcripts from other institutions prior to the degree date;
- the completion of all incomplete work required for the degree prior to the degree date;

- c. *all academic requirements including a 3.0 cumulative GPA must be met prior to the degree date;*
- d. *File application for degree with the Office of the Registrar by the deadline date for the term in which all of the above conditions will be met.*

Failure to comply with these regulations will delay the granting of the degree until the next commencement. Those who have filed for graduate clearance and do not complete the requirements before the projected date of completion for which they filed are required to refile for the next commencement. It is the student's responsibility to make certain he/she has completed all the requirements for the degree and has filed the appropriate paperwork for graduation.

Graduation Rate

The completion or graduation rate by August 2010 for undergraduate students who entered Loyola Marymount University in Fall 2004 on a full-time basis was 79.7%.

Incomplete Course Work

An incomplete grade may be assigned by the professor only if a student has completed at least 80% of the coursework.

The student must speak to the professor prior to final exam week to determine if the completed course work meets the minimum requirement for a grade of Incomplete and to discuss what further work is required to complete the course. The professor may or may not agree to the assignment of a grade if Incomplete.

If the professor agrees to assign the grade of Incomplete, s/he will enter a grade of "I" on the Final Grade Roster.

The student's deadline for submitting all outstanding coursework for undergraduate level courses is three weeks after the first scheduled class day of the next full semester. *Graduate students who received a grade of Incomplete in graduate level courses have one academic year to complete and submit all outstanding coursework, unless an earlier deadline is set by the professor.*

An incomplete grade not removed by the deadline will default to an "F" or to the default grade as submitted by the instructor on the Final Grade Roster.

If a student requires an extension to the deadline, the student must petition to obtain an extension to the deadline for removal of the grade of Incomplete. The petition, approved by the instructor, must be submitted to the Office of the Registrar.

A degree will not be granted while a grade of Incomplete remains on an undergraduate student's record.

Graduate students carrying any grades of Incomplete are not permitted to take a comprehensive examination until all "I" grades have been removed.

Graduate students enrolled in undergraduate level courses and who have received a grade of Incomplete in the undergraduate level course must submit outstanding coursework no later than three weeks after the first scheduled class day of the next full semester.

Incomplete Course Work for Graduate Work in Progress

A grade of "In Progress" (IP) may be assigned in graduate level courses that extend beyond a single semester (e.g., internship work, field work, thesis project, the MBA Integrative Project, the Teacher Orientation and Practicum in Philosophy, and directed student teaching).

Leave of Absence

A leave of absence may be granted to a student upon written request to the Office of the Registrar. A leave of absence may be granted for no more than two years. The leave of absence date will be the date that the Leave of Absence/Withdrawal form is received in the Office of the Registrar.

For a student enrolled in a current term, application for the leave must be made before the stated deadline for withdrawal from classes. This date may be found in the academic calendar in the University Bulletin or online for the given term. A leave of absence may be granted only if the

student withdraws from all courses in the term. If completed by the deadline, a student will receive grades of W for all courses in that given semester. A student may not take a leave of absence from the term if application is made after the stated deadline for withdrawal from classes. Any student who stops attendance after the deadline to withdraw from classes will receive a grade of F for each course in progress.

A student who is accepted to the University but not yet enrolled may defer admission through the Admission Office. A student with prior enrollment may apply for a leave through the Office of the Registrar. A leave of absence is canceled if the student registers in another college or university without prior written permission of the student's Dean. In this case, the student has de facto withdrawn (see Withdrawal) from LMU and must reapply through the Admission Office. The student may enroll again at LMU if accepted through the Admission Office. Similarly, a student is considered to have withdrawn from LMU if the leave of absence is extended unofficially beyond two years.

LMU Honor Code and Process

Loyola Marymount University is a community dedicated to academic excellence, student-centered education, and the Jesuit and Marymount traditions. As such, the University expects all members of its community to act with honesty and integrity at all times, especially in their academic work. Academic honesty respects the intellectual and creative work of others, flows from dedication to and pride in performing one's own best work, and is essential if true learning is to take place.

Examples of academic dishonesty include, but are not limited to, the following: all acts of cheating on assignments or examinations, or facilitating other students' cheating; plagiarism; fabrication of data, including the use of false citations; improper use of non-print media; unauthorized access to computer accounts or files or other privileged information; and improper use of Internet sites and resources.

Definitions of Academic Dishonesty

The following are examples of academic dishonesty which may be interpreted as intentional or unintentional. This list is not meant to be exhaustive. It is the student's responsibility to make sure that his/her work meets the standards of academic honesty set forth in the Honor Code. If the student is unclear about how these definitions and standards apply to his/her work, it is the student's responsibility to contact the instructor to clarify the ambiguity.

A. Cheating and Facilitating Cheating

1. Possession, distribution, and/or use of unauthorized materials or technology before or during an examination or during the process of preparing a class assignment.
2. Collaboration on class assignments, including in-class and take home examinations, without the permission of the instructor.
3. Provision of assistance to another student attempting to use unauthorized resources or collaboration on class assignments or examinations.

B. Plagiarism

1. Presentation of someone else's ideas or work, either in written form or non-print media, as one's own.
2. Omission or improper use of citations in written work.
3. Omission or improper use of credits and attributions in non-print media.

C. Falsification of Data

1. Presentation of altered or fabricated data, such as lab reports, with the intention of misleading the reader.
2. Presentation of forged signatures as authentic.
3. Use of false citations, either incorrect or fabricated, including sources found on the Internet.

D. Unauthorized Access to Computers or Privileged Information

1. Use of University network and/or computer hardware to gain unauthorized access to files, and alteration or other use of those files.

E. Improper Use of Internet Sites and Resources

1. Inappropriate use of an Internet source, including, but not limited to, submission of a paper, in part or in its entirety, purchased or otherwise obtained via the Internet, and failure to provide proper citation for sources found on the Internet.

F. Improper Use of Non-Print Media

1. All above standards apply to non-print media.
- G. Group Work—Group and team work are an integral part of the Executive MBA and some other graduate programs. Classmates are encouraged to work with and support each other, as much of the learning results from mutually shared experiences and expertise of classmates. There is a point, however, where students must make their own use of materials and present their own ideas, thoughts, and solutions. Examples where work must be clearly individual include individual papers, exams, and projects. There is a fine line between shared learning and cheating. If the student is unclear between what constitutes group work and what constitutes individual work, it is the student's responsibility to contact the instructor to clarify the ambiguity.
- H. Other Academic Dishonesty
1. Any other means of violating the standards of academic honesty set out above.

Honor Code Process

This section sets out the process to be followed when an Instructor suspects a violation of the Honor Code. The recommended sanctions are not mandatory, but are intended to guide the Instructor's discretion. Instructors are encouraged to consult with their colleagues and chairs in making these decisions. This section also outlines the student appeal process for Honor Code violations.

I. Intentional and Unintentional Academic Dishonesty

- a. Notification: Instructors will notify the Student of the suspected act of academic dishonesty. The Student will be given the opportunity to admit, deny, or explain the situation. If the suspected violation of the Honor Code occurs with respect to an assignment that the Instructor has not reviewed until after the class has stopped meeting, the Instructor will send a letter to the permanent address of the Student and keep a copy of the letter. Failure to notify will result in a reasonable extension of the Student's time to appeal, but is not in and of itself a defense to the violation of the Honor Code.
- b. Determination: If the Instructor determines that a violation has occurred, he/she will next determine whether or not the violation was intentional or unintentional. The distinction between intentional and unintentional violations of academic honesty is not based upon the purely subjective intentions of the Student. The question is whether a Student who has carefully read the Honor Code should have understood that his/her action violated the Honor Code and standards of academic honesty.
- c. Unintentional Violation: If the Instructor believes the violation was unintentional, he/she may take any of the following actions:
 1. Warn Student
 2. Require assignment or exam to be resubmitted
 3. Reduce the grade on the assignment, project, or exam The Instructor shall inform the Student of his/her decision and also inform the Student of the right to appeal the Instructor's decision.
- d. Intentional Violation: If the Instructor believes the violation is intentional, he/she may take any of the following actions:
 1. Fail the Student on the assignment or exam
 2. Fail the Student in the course

The Instructor shall inform the Student of his/her decision in writing and also inform the Student of the right to appeal the Instructor's decision.

The Instructor may consult with the Chairperson, Program Director, or equivalent and refer the matter directly to the Dean of the Instructor's college or school with a recommendation that the Student be suspended or expelled. Upon such a referral, the Dean shall appoint an Academic Honesty Panel consisting of one Student from the ASLMU Judiciary and two Faculty members for undergraduate students and *three faculty members for graduate students*.

II. Departmental Appeal

- a. The Student may appeal the Instructor's decision under section I(C) or (D) to the Department Chairperson, Program Director, or

equivalent. In accordance with the grade appeal policy in the University Bulletin, the Student will be required to make his/her appeal in writing no later than three weeks into the semester following the decision.

- b. If either the Student or Instructor wishes, he/she may appeal the decision of the Department Chairperson, Program Director, or equivalent to the Dean of the Instructor's college or school, who will refer the matter to the Academic Honesty Panel. Appeals must be made within 30 days of receipt of the Chairperson's decision.

III. Academic Honesty Panel Appeal

- a. The Academic Honesty Panel is an ad hoc recommending body of the Instructor's college/school. The Panel consists of two Faculty members for undergraduate students and three Faculty members for graduate students. The Dean will appoint one of the Faculty members as Chair of the Academic Honesty Panel.
- b. Responsibilities of the Panel
 1. The Panel will hear appeals by the Student or Instructor of the Chair's decision for any penalty short of expulsion or suspension.
 2. The Panel will make the initial recommendation as to whether the Student should be suspended or expelled.
- c. In fulfilling these responsibilities, the Panel will make two determinations:
 1. It will determine whether there is clear and convincing evidence that the Student has violated the Honor Code. The Student is entitled to the presumption of innocence and the right to review and respond to all evidence and information relevant to the Panel's decision.
 2. Upon the finding of clear and convincing evidence of a violation, the Panel is to determine the appropriate penalty. With regard to the appropriateness of serious recommendations such as suspension and expulsion, the Panel shall take into account the following factors:
 - a. the severity of the violation;
 - b. whether the violation is an isolated instance, or part of a pattern of two or more violations; and
 - c. other mitigating or extenuating circumstances.
- d. The recommendation of the Academic Honesty Panel, along with an explanation of the reason for the recommendation, will be reported in writing to the Dean of the Instructor's college or school. The Dean will normally follow the recommendation of the Panel. However, the Dean's decision is final.
- e. The Dean will inform the Student and Instructor, in writing, of his/her decision. The Dean will also report his/her decision to the Senior Vice President/Chief Academic Officer. The Office of the Senior Vice President/Chief Academic Officer will keep a permanent, confidential record of all proceedings of the Academic Honesty Panel.

Major

A major indicates a particular curriculum within a degree program offered by one of the four Colleges and two Schools. The major is usually declared by the student at the time of acceptance to the University. If a student is unsure about a particular program of study within a degree program, some Colleges will allow for an undeclared major within that college. This option is at the discretion of the College or School. An undergraduate student must, under normal circumstances, declare a major within a degree program prior to earning sixty semester hours of credit.

An undergraduate student must have a cumulative grade point average of C (2.0) and a *graduate student must have a cumulative grade point average of B (3.0) in all courses required by the major*. Please note that certain majors have more stringent requirements. The particular requirements are listed under the department listings in this Bulletin.

Change of Major or Emphasis

Undergraduate students interested in changing majors should refer to <http://registrar.lmu.edu> for complete details.

A graduate student who wishes to change a program before completing a degree or credential must submit a new application form to the Graduate Admissions Office. A graduate student who wishes to change from one emphasis to another before completing a degree must request approval from the Program Director.

Double Major

An undergraduate student may earn a Bachelor's degree with a double (secondary) major by successfully completing the following requirements for the second major prior to, or in the same term as, the first (primary) major:

1. Completion of the requirements of the primary major; and
2. Completion of the requirements of the secondary major; and
3. Completion of requirements for the primary Bachelor's degree.

No more than eight semester hours of upper division work in the primary major can be used to satisfy the requirements of the secondary major. The two majors will be printed on the student's transcript of record and University diploma.

Courses may not count as fulfilling both a major and minor program, unless a specific course is required by both programs.

Minor

Undergraduate students who choose to complete a minor must meet the following general requirements:

1. A minor program consists of 18 or more semester hours. At least half of the upper division semester hours of the minor program must be completed in residence at Loyola Marymount.
2. Specific semester hour requirements are listed by each department offering a minor program. A student who declares a minor is held responsible for the academic regulations in effect at the time the minor is declared.
3. A student must have a cumulative grade point average of C (2.0) for courses taken in the minor program.
4. The minor may not be in the same program as the student's major.
5. Courses may not count as fulfilling both a major and minor program, unless a specific course is required by both programs.
6. A minor may be earned only while the student is concurrently completing the requirements for a baccalaureate degree. The minor must be cleared by the Dean's office at the same time that the baccalaureate degree is cleared.
7. Students are advised to consult department regulations in the Bulletin for further information.

Non-Degree Graduate Students

Non-degree students are those who are not pursuing a formal graduate program but who are eligible to take courses at LMU. If such a student is taking 500- or 600-level courses, he or she will be a non-degree graduate student. If the student is taking strictly undergraduate courses (400 or lower), he or she will be a non-degree undergraduate student and must be enrolled through Undergraduate Admission. Students may take more than two courses while in the non-degree status; however, only two courses taken in the non-degree status may apply toward a degree or credential. Normally, non-degree students are not allowed to take MBA, graduate School of Film and Television or Marital and Family Therapy courses. Admission to the non-degree status does not guarantee admission to degree candidacy or credential recommendation.

Privacy Rights of Students in Education Records (FERPA)

Loyola Marymount University Policy on Confidentiality of Education Records (FERPA Policy)

The Family Educational Rights and Privacy Act of 1974, as amended ("FERPA"), is a Federal law which governs student privacy and confidentiality of student education records. Loyola Marymount University ("LMU") recognizes, abides by and enforces the confidentiality of student records under FERPA.

Definitions

For the purposes of this policy, the following definitions apply:

Student – any person who attends or has attended LMU.

Education records – any record (in handwriting, print, tapes, film, electronic, or other medium) maintained by LMU or any agent of LMU which is directly related to a student, except:

A personal record kept by a staff member if it is kept in the sole possession of the maker of the record and is not accessible or revealed to any other person except a temporary substitute for the maker of the record.

An employee record of an individual whose employment is not contingent on the fact that he or she is a student, provided the record is used only in relation to the individual's employment.

LMU Department of Public Safety records created and maintained by LMU's Department of Public Safety for Department of Public Safety purposes.

Counseling records which are created or maintained by a physician, psychiatrist, psychologist, or other recognized professional or paraprofessional, acting in his or her professional capacity or assisting in a paraprofessional capacity, used solely in connection with the provision of treatment to the student and not disclosed to anyone other than individuals providing such treatment, so long as the records can be personally reviewed by a physician or other appropriate professional of the student's choice. "Treatment" in this context does not include remedial educational activities or activities which are part of the program of instruction at the institution.

Health records maintained by the Student Health Center, if the records are used only for treatment of a student and made available only to those persons providing the treatment.

Alumni records which contain information about a student after he or she is no longer in attendance at the University and which do not relate to the person as a student.

Annual Notification

Current students are notified annually of their rights under the Family Educational Rights and Privacy Act (FERPA) by publication in the University Bulletin and by posts on the LMU website.

Procedure to Inspect Education Records

Students may inspect and review their official academic or other education records (with certain limited exceptions) within 45 days of the day LMU receives the student's written request for access. A student should submit any such request in writing, identifying the record(s) the student wishes to inspect, to the appropriate LMU official or department. LMU will make arrangements for access and notify the student of the time and place where the records may be inspected.

Right of University to Refuse Access

LMU reserves the right to refuse to permit a student to inspect the following records:

The financial statements of third parties.

Letters and statements of recommendation for which the student has waived his or her right of access, or which were created before January 1, 1975.

Records connected with an application to attend LMU, or any LMU program, after acceptance but prior to enrollment, or if that application was denied.

Those records which are excluded from the FERPA definition of education records.

Refusal to Provide Copies

Unless required by FERPA or other law, LMU reserves the right to deny a student's access to academic transcripts or copies of records in any of the following situations:

The student has any unpaid financial obligations to LMU.

There is an unresolved disciplinary action against the student. Copies of disciplinary records will only be made available when a student is unable to come to the office to inspect the record.

Disclosure of Education Records

LMU will disclose information from a student's education record only with the written consent of the student, except:

To school officials who have a legitimate educational interest in the records.

A "school official" is any person employed by LMU in any administrative, supervisory, academic or research, or support staff position (including public safety and health services staff); any person or company with whom LMU has contracted to provide a service to or on behalf of LMU (such as attorneys, auditors or collection agents); any person serving on LMU's Board of Trustees; or any student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks.

A school official has a "legitimate educational interest" if the official needs to review an education record in order to fulfill the official's professional responsibilities.

To officials of another school, upon request, in which a student seeks or intends to enroll. A reasonable attempt will be made to notify the student prior to the release of such records.

To certain officials of the U.S. Department of Education, the Controller General, Attorney General, and the state and local educational authorities, in connection with certain state or federally supported education programs.

In connection with a student's request for or receipt of financial aid, as necessary to determine the eligibility, amount or conditions of the financial aid, or to enforce the terms and conditions of the aid. Parents' financial information, including statements submitted in connection with financial aid applications, is excluded from inspection.

If required by a state law requiring disclosure that was adopted before November 19, 1974.

To organizations conducting certain studies for or on behalf of the university.

To accrediting organizations to carry out their functions.

To parents of a dependent student, as defined in the Internal Revenue Code. The parents must provide a copy of their most recent federal income tax return establishing the student's dependency. Full rights under the act shall be given to either parent, unless LMU has been provided with evidence that there is a court order, state statute or legally binding document relating to such matters as divorce, separation or custody that specifically revokes those rights. LMU does not have an obligation to disclose any financial information about one parent to another. If a parent claims a student as a dependent and does not want his/her financial information disclosed to his/her spouse or former spouse, the parent may make that request to the institution.

To comply with a judicial order or a lawfully issued subpoena.

To appropriate parties in a health or safety emergency.

To an alleged victim of a sexual assault of the final results of any institutional disciplinary proceeding against the alleged perpetrator of that crime with respect to that crime or offense.

To courts for a legal proceeding brought by a parent or student against the university or by the university against a parent or student.

To parents and legal guardians of students under age 21 if the student violated LMU policies, state or federal laws relating to the use or possession of alcohol or a controlled substance.

To the public the final results of a disciplinary proceeding only if it has been determined that:

the student is an alleged perpetrator of a crime of violence or non-forcible sex offense; and

the student has committed a violation of the university's rules with respect to the allegation.

To state and local juvenile justice systems or their officials.

If designated as "Directory Information."

Directory Information

LMU is permitted under provisions of FERPA to release "Directory Information" upon request to anyone within the LMU community and to the general public without a student's consent. Students who wish to have their directory information withheld must notify the Office of the Registrar in writing each semester by the close of official registration. (Please note that such withhold notification will prevent LMU from providing your directory information to friends, prospective employers, organizations and others with whom a student may wish to share such information, so a student should make any withhold notification carefully.)

Directory Information consists of a student's:

Name

Address(es)

E-mail address(es)

Telephone numbers

Date and place of birth

Major field of study

Enrollment status

Dates of attendance

Anticipated degree and degree date

Degrees, honors and awards received

Participation in officially recognized activities

Weight and height of members of athletic teams

A student's personal identifier used by the student for purposes of accessing or communicating in electronic systems

Most recent educational institution attended

Photograph

Correction of Education Records

Students have the right to ask to have records corrected that they believe are inaccurate, misleading, or in violation of their privacy rights. A student should submit any such request to LMU in writing, clearly identifying the records that the student believes are inaccurate and specifying the reasons the student believes them to be inaccurate. LMU will notify the student of its decision, and if the decision is negative, of the student's right to a hearing regarding his or her request for amendment. Additional information regarding the hearing procedures will be provided at that time.

Notice of Student Rights with Respect to Education Records (FERPA)

The Family Educational Rights and Privacy Act of 1974 (20 U.S.C. 1232g) ("FERPA") affords students certain rights with respect to their education records. These rights include:

(1) The right to inspect and review the student's education records (with certain limited exceptions) within 45 days of the day LMU receives the student's written request for access. A student should submit any such request in writing, identifying the record(s) the student wishes to inspect, to the appropriate LMU official or department. LMU will make arrangements for access and notify the student of the time and place where the records may be inspected.

(2) The right to request the amendment of the student's education records that the student believes to be inaccurate. A student should submit any such request to LMU in writing, clearly identifying the records that the student believes are inaccurate and specifying the reasons the student believes them to be inaccurate. LMU will notify the student of its decision, and if the decision is negative, of the student's right to a hearing regarding his or her request for amendment. Additional information regarding the hearing procedures will be provided at that time.

(3) The right to consent to disclosures of personally identifiable information contained in the student's education records, except to the extent that FERPA authorizes disclosure without consent. One such exception permits disclosure to "school officials" with "legitimate educational interests" without a student's consent. A "school official" is any person employed by LMU in any administrative, supervisory, academic or research, or support staff position (including public safety and health services staff); any person or company with whom LMU has contracted to provide a service to or on behalf of LMU (such as attorneys, auditors, or collection agents); any person serving on LMU's Board of Trustees; or any student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks. A school official has a "legitimate educational interest" if the official needs to review an education record in order to fulfill the official's professional responsibilities.

Another such exception permits LMU to disclose a student's "directory information," consisting of a student's name, address(es), e-mail address(es), telephone numbers, major field of study, enrollment status, dates of attendance, anticipated degree and degree date, degrees, honors and awards received, participation in officially recognized activities; a student's personal identifier used by the student for purposes of accessing or communicating in electronic systems; most recent educational institution attended; and photograph, to anyone within the LMU commu-

nity and to the general public. Students who wish to have their directory information withheld must notify the Office of the Registrar in writing each semester by the close of official registration. (Please note that such withhold notification will prevent LMU from providing your directory information to friends, prospective employers, organizations and others with whom a student may wish to share such information, so a student should make any withhold notification carefully.)

Upon request, LMU also discloses education records without consent to officials of another school in which a student seeks or intends to enroll or where the student is already enrolled so long as the disclosure is for purposes related to the student's enrollment or transfer.

Information on other exceptions to FERPA's requirements is available through the Office of the Registrar.

(4) The right to file a complaint with the U.S. Department of Education concerning LMU's compliance with the requirements of FERPA. The name and address of the Office that administers FERPA is: Family Policy Compliance Office, U.S. Department of Education, 400 Maryland Avenue, SW, Washington, DC 20202.

Registration

The days of registration are listed in the University Calendar. All students must follow the registration procedures as established by the Office of the Registrar. A student is not considered registered until official clearance has been obtained from the Controller's Office and successful registration has been processed by the Office of the Registrar. The official academic program consists of the courses in which the student is enrolled at the close of official registration. Students may not attend a course for which they are not registered. Enrollment in a closed class must be authorized by the Department Chairperson or her/his designate. In the College of Business Administration, this authorization is from the Associate Dean.

Undergraduate students are limited to enrolling in a maximum of 17 semester hours during advance registration. If the requirements for a primary major require additional registration, contact the Associate Dean's office for written permission. Once the approval for more than 17 semester hours has been received in the Office of the Registrar, the necessary adjustments will be made to allow for the additional registration. Two weeks prior to the first day of classes, students are eligible to enroll in 18 or more semester hours.

Repeating Courses

Students may repeat a course previously taken at LMU in a subsequent term at LMU once, including any withdrawals. For undergraduate students, the third time a course is taken requires approval from the Dean. The prior occurrence is excluded from the cumulative grade point average but remains on the transcript. All graded semester hours attempted are used to determine the student's grade point average and graduation eligibility. The grade of the latest occurrence of the repeated course will be the one calculated into the cumulative average. Please note that although the term GPA will change accordingly, the academic status of the term will not change.

Courses taken on a Credit/No Credit basis may not be used as a repeat course to exclude from the cumulative average a grade of a prior occurrence taken on a letter grade basis.

Courses taken on a Credit/No Credit basis may not be repeated for a letter grade.

Undergraduate students may not register for any course in the College of Business Administration for a third time without the written permission of the Department Chairperson of the course and the Dean. Questions concerning this policy should be directed to the Office of the Registrar.

Undergraduate students may not repeat an elementary or intermediate foreign language course after successful completion of a more advanced course in the same language.

Courses taken at LMU after a degree has been granted will not change the graduation GPA.

Transcripts

Official transcripts of courses taken at the University are issued only with the written permission of the student concerned. Partial transcripts are not issued.

Transcripts show all Loyola Marymount University work completed as of the date of application for the transcript. Work in progress accompanies the transcript. Requests for transcripts to show end of current semester's work are held until all grades are recorded.

Transcript requests are processed in accordance with the date of filing. Transcripts will not be issued when a student has outstanding financial obligations to the University. In this case, the student will be notified by the Controller's Office.

Transcripts from other institutions which have been presented for admission or evaluation become a part of the student's permanent academic file and are not returned to the student. Students desiring transcripts covering work attempted elsewhere should request them from the appropriate institutions.

Transfer Credit

Credit for work completed at institutions accredited by one of the six regional associations of the Accrediting Commission for Senior Colleges and Universities may generally be accepted toward the satisfaction of degree and credential requirements at Loyola Marymount University.

Credit will not be accepted for courses that:

- Have been identified as being remedial or in other ways as being non-transferable,
- Are identified as duplicates to course work already completed (excludes courses that may be taken multiple times for degree credit),
- Exceed the limitations of resident requirements,
- Exceed the 60 semester hour maximum allowed for undergraduate course work from community colleges,
- Exceed the 90 semester hour maximum allowed for undergraduate course work from four-year institutions, or
- Exceed the 6 semester hour total allowed for graduate level course work.

Any student regularly enrolled as a degree candidate who elects to take courses at a college or university other than Loyola Marymount University must obtain a Transfer Course Approval form signed by the Associate Dean of the student's major prior to enrollment in such courses. **Courses taken without this approval may not be counted toward the degree.** Approved undergraduate courses must be passed with a grade of C (2.0) or higher, or approved graduate courses must be passed with a grade of B (3.0) or higher, in order to transfer. Semester hour value is granted to transfer courses; grades or GPA information on transfer work is neither listed on nor calculated in LMU work printed on the academic record.

An official transcript from the transfer institution must be submitted to the Office of the Registrar before any transfer courses may become a part of the continuing student's LMU degree program.

In order to receive credit toward a graduate degree for post-baccalaureate work taken at other colleges and universities, the student must obtain a general petition to transfer credit from the Office of the Registrar. Two official transcripts recording the transfer courses must be sent directly by the institution to the Graduate Admissions Office or the Office of the Registrar. If approved by his/her Department, Program Director, and/or Dean of the student's college or school, a student may transfer a maximum of two applicable courses of approved graduate credit from an accredited institution for work completed no more than five years ago. No course credit may be transferred unless the grade received was at least a "B" (3.0). If a course was used to satisfy a degree requirement, it usually cannot be used for transfer credit, with the exception of core or prerequisite requirements. Transfer credits are not used to calculate GPA.

Course work completed at non-U.S. institutions must be documented on an official academic record from an international institution recognized by the Ministry or Department of Education of that country.

A foreign credentials evaluation may be required upon request by the Office of the Registrar.

The following evaluation services are recommended:

Educational Credential Evaluators, Inc.
PO Box 514070
Milwaukee, WI 53203-3470
414.289-3400 / 414.289.3411 (fax)
<http://www.ece.org>
eval@ece.org

International Education Research Foundation

PO Box 3665
 Culver City, CA 90231
 310.258.9451 / 310.342.7086 (fax)
 info@ierf.org

International transcripts submitted without appropriate evaluations may not be considered for eligible transfer work to LMU.

Articulation

The articulation services at LMU help students to identify courses completed at other academic institutions that are transferable to LMU baccalaureate degree programs. Courses taken at other academic institutions may fulfill University core requirements, Program (major/minor) requirements or transfer in as electives. LMU has established articulation agreements with its major feeder community colleges. To view these transfer agreements, see <http://registrar.lmu.edu/articulation>, and click on "Transfer Agreements."

Tutorials

Only regularly offered courses described in this Bulletin may be taken as tutorial courses. Students may individually arrange with a faculty member to take the course as a tutorial. A tutorial course is considered part of a student's semester program. Registration for it takes place during the regular registration periods. Only full-time students are eligible, and approval will be given for only one tutorial course per semester. Freshmen and first-semester transfer students are not eligible.

Veterans

Students must apply for educational benefits through the Department of Veterans Affairs. Qualified students will receive from the VA a Certificate of Eligibility indicating the educational benefits to which they are entitled. Once committed to LMU and registered in classes, students must submit their Certificate of Eligibility to the Office of the Registrar for enrollment certification processing. Enrollment certification will be performed prior to each semester of enrollment until the University is notified that benefits have been exhausted or the student is no longer enrolled at LMU. The Office of the Registrar is located in the Charles Von der Ahe Building, Suite 150. Office hours are 8:00 a.m. to 5:00 p.m. Monday–Friday, or by telephone at 310.338.2740, or by fax at 310.338.4466, or via e-mail at registrar@lmu.edu. For more information, please visit our website: <http://www.lmu.edu/about/services/registrar/services/VA.htm>.

Withdrawal

Withdrawal from Courses

A student may withdraw from any or all courses by the last day to withdraw in a term as published in the University Bulletin and online Academic Calendar. A currently enrolled student may withdraw from a course(s) by using the drop function in the computer registration system (PROWL).

Prior to the deadline, a student may drop all courses using PROWL. In order to completely withdraw from a term or the University, the student should contact the Office of the Registrar. The student will receive grades of W in each of the courses and will be considered to be on a leave of absence for up to two years unless the student gives written notice to the Office of the Registrar that he/she is withdrawing from the University.

After the deadline, and before the final day of classes, students may withdraw from courses only for medical or psychological reasons. A written petition with accompanying documentation from a licensed professional should be submitted to the Office of the Registrar. The documentation from the licensed professional must certify that the student is not able to complete the semester for medical or psychological reasons. If approved, the student will be withdrawn from all courses and not a portion of the course schedule. Students are eligible for tuition and fee refunds according to the University's published policy. Additional documentation from a licensed professional is required indicating that the student is able to resume study at the University.

Withdrawal from the University

A withdrawal from the University is the termination of the academic program and course of study and the rights and privileges offered to currently enrolled students. (See above.) The withdrawal date will be the

date that the Leave of Absence/Withdrawal form is received in the Office of the Registrar.

ACADEMIC PROGRAMS AND SERVICES

Programs

The University Honors Program

Created in 1958, the University Honors Program at Loyola Marymount University seeks to offer an intellectually creative and rigorous academic community for outstanding students. Not housed inside of any given college or school, the University Honors Program is an interdisciplinary set of courses and activities designed to create life-long love of learning and the intellectual habits required to serve others. Although academic excellence is the hallmark of the program, the University Honors Program is equally committed to the education of the whole person, the service of faith, and the promotion of justice.

Students in the University Honors Program do not take the regular University Core courses. Instead, they participate in a series of interdisciplinary seminars that challenge as well as inform, ask hard questions as well as examine tested solutions, and create new solutions as well as ponder the implications of such solutions. Drawing from faculty from across the University, the University Honors Program provides a creative, demanding, and integrated curriculum for academically excellent students who are seeking a rigorous, multidisciplinary course of study to accompany their major(s) and minor(s).

The University Honors Program also offers co-curricular and extra-curricular activities and events, including "The University Honors Program Presents," a multidisciplinary, campus-wide lecture series featuring speakers and performers from Southern California and the nation. The Honors Summit is a retreat held at the beginning of the academic year that allows Honors students to get to know each other and learn about the program.

The University Honors Program is open to students from any school or college of Loyola Marymount University, regardless of major. The Program is administered by the Honors Director, the Honors Associate Director, and the Honors Program Supervisor with the assistance of the Honors Advisory Council. Faculty members of all disciplines are encouraged to be involved with the University Honors Program.

Students in the University Honors Program must maintain a 3.50 cumulative GPA in order to continue in the program. Successful completion of the University Honors Program is announced at the annual Commencement ceremonies and noted on the student's permanent transcript. Graduating students receive an Honors medallion to be worn with their academic regalia. University Honors at Commencement is of lasting personal, professional, and academic value.

Admission to the University Honors Program is open to all incoming and current first year students. The program is interested in students who display a sense of academic adventure, high motivation, academic rigor, personal responsibility, social awareness, and the constant pursuit of excellence. Incoming first year students must complete a special University Honors Program application (in addition to their application for admission to Loyola Marymount). Current first year students must schedule an interview with the Honors Director, presenting a writing sample from a class taken at Loyola Marymount and a letter of recommendation from a faculty member. Only a limited number of students who apply will be invited to join the University Honors Program. Application materials are available at <http://www.lmu.edu/honors>.

Further details on requirements are continued under "University Honors Program" in the Bulletin.

Air Force ROTC

Air Force ROTC at Loyola Marymount University provides the opportunity for students to become commissioned officers in the United States Air Force. The program is very flexible and normally requires two to four years to complete. The program seeks to better develop students in the areas of character, leadership, physical fitness, and academic performance. In addition, AFROTC provides a significant opportunity for scholarships and other financial aid. More information can be found under the "Aerospace Studies" section of this Bulletin.

Individualized Study Program

The Individualized Study Program involves a select number of creative and highly motivated students within all colleges and schools of the University whose educational needs and goals cannot fully be met by individual departments or majors. The program is thus designed to offer each participant greater responsibility in determining the content of his or her major program, based upon the goals to which that major is directed. Students may wish to construct their programs or areas of concentration from interdisciplinary, independent study, field work alternatives, or a combination thereof.

The program is open to freshmen and sophomores who have completed at least one semester in the participating colleges or school. Once accepted into the program by the Dean of the student's college or school, the student selects a counselor who assists in designing the specific content of the major in line with the student's objectives.

The student's program is then formalized into a contract signed by the student, advisor, and Dean. Upon completion of the contracted course of studies, the student is issued a degree in Individualized Studies.

Naval ROTC

Eligible Loyola Marymount University students who wish to participate in the Naval Reserve Officers Training Corps may do so through a program established with the UCLA University Extension. The program, in conjunction with an LMU baccalaureate degree, leads to a commission in the United States Navy or Marine Corps. Appropriate academic credit for courses accredited by the University of California is given in accordance with the policies governing LMU's Aerospace Studies program. Further information may be obtained from the Chairperson of the Department of Naval Science, University of California, Los Angeles.

Postbaccalaureate Premedical Program

The Loyola Marymount University Post-Baccalaureate Premedical Program is open to both women and men who have received a bachelor's degree from an accredited four-year institution in a field other than science, and have completed less than three of the prerequisite courses for admission to medical school. A minimum undergraduate GPA of 3.0 is required, and additional evidence of high achievement, such as appropriate standardized test scores (SAT, ACT, or GRE), is required. The ideal candidate will be strongly motivated and will have had sufficient experience in the medical field, either through volunteer work or previous employment, to serve as a basis for an informed, mature, and committed decision to enter the field of medicine.

Over a 12-month period of intensive, full-time study in the classroom and in the community, our students are thoroughly prepared for the challenges of medical school. Program enrollment is capped at 15 students—small enough to give you individual attention and support. As a result, members of our faculty work closely with you in an academic environment that emphasizes learning by mentoring, collaboration and hands-on experience. Also, our Health Professions Advisory Committee gets to know you as an individual and provides the support, counsel and resources that meet all your unique interests and needs, from selecting courses to choosing the medical school that is right for you.

LMU offers a structured and comprehensive curriculum that fulfills in one year all the requirements you will need to apply to medical school. Over a 12-month period, you will carry a full-time load of courses in biology, general chemistry, organic chemistry, and physics. This typically involves three laboratory sciences per semester during the academic year and a two-semester laboratory science course during the Summer session.

Individuals interested in applying to this program should submit their applications, including supporting materials, no later than March 1 of the year to be considered for admission to the program beginning in the middle of May. Early submission of materials is encouraged to improve enrollment potential. Once an application is complete, the Health Professions Advisory Committee will review the application to determine whether an applicant will be invited for an interview.

Preparation for a Career in Law

The University offers several curricula that are appropriate for students who plan to enter law school upon the completion of their undergraduate degree. The prelaw student should select a course of study that insures the development of the skills essential to the successful study of law: 1) the ability to use language and communicate effectively and 2) the ability to think critically and creatively. In addition, the prelaw curriculum must provide a broad understanding of basic human institutions and values.

To insure they follow an appropriate course of study, prelaw students are advised to select their classes in consultation with the University Prewal Advisor. The Prewal Advisor also serves as a resource person for students during the law school application process.

Preparation for the Health Professions

The Health Professions Information Program provides the student with regular informational meetings. The Director of the Program serves as a resource person and is available for individual consultation. The Director's Office distributes relevant materials to prospective applicants and maintains their files for the Health Professions Advisory Committee. The Committee assists students in completing the application process to health professional schools.

The University offers pre-health professional curricula for those students who plan to apply for admission to the following programs: Medicine, Dentistry, Optometry, Pediatric Medicine, Veterinary Medicine, Pharmacy, Medical Technology, Occupational Therapy, Physical Therapy, and Public Health. These curricula are not degree programs, and students who wish to complete the requirements for a Bachelor's degree before admission to a professional school should select a major within the University. Students usually select a biology, biochemistry, or other science major. Students in other majors should consult with the director early in their college career about blending pre-health profession courses with their chosen major. In addition to fulfilling the requirements of the chosen major, specific requirements of the professional programs should be satisfied. The following lower division courses are usually required: BIOL 101, 102, 111, 112, 201, 202; CHEM 110, 111, 112, 113, 220, 221, 222, 223; English (6 semester hours); MATH 122, 123; PHYS 253, 254, 255; and PSYC 100. In addition, other specified upper division biology, biochemistry, and statistics courses and electives from Liberal Arts, Fine Arts, and the Sciences may be required.

Students should be aware that many health professional schools do not recognize some AP credits and that alternative coursework may need to be completed to meet admission requirements. Please discuss with the Director.

Services

LMU Extension

Center for Religion and Spirituality

Established in 1989, the Center for Religion and Spirituality is one of Loyola Marymount's two interdisciplinary centers, and an embodiment of the University's commitment to serve the Archdiocese of Los Angeles, neighboring dioceses, and religious communities throughout Southern California. The purpose of the Center is to provide educational opportunities for adult learners, which strengthen their religious and spiritual formation as ministers, educators, and leaders who are committed to the pursuit of service and justice in their own communities. In collaboration with University faculty, the local Church, and religious leaders, the Center carries out this purpose in three ways: Continuing education in theology, religion, and spirituality with an emphasis on pastoral leadership; theological research that is interdisciplinary, intercultural, and interreligious; and outreach to individual parishes, religious institutions, and faith-based organizations. The Center for Religion and Spirituality is located in University Hall, Suite 1840e and can be found on the web at <http://extension.lmu.edu/crs>.

Continuing Education

LMU Extension offers certificates, courses, programs, institutes, conferences, and lectures which provide a variety of educational experiences to members of the community. There are three types of classifications of such offerings.

The first of these is Professional Development courses in a certificate or professional development program with identifiable subject areas or in particular disciplines, e.g., teacher education. These are offered under a departmental rubric and carry University semester hours of continuing education/professional development credit. The second type are those courses with academic content falling outside the normal undergraduate or graduate offerings. Such courses and programs are offered under the rubric CNTX. Credit is recorded in semester hours; 1.0 semester hour represents 10 continuing education contact hours. The third type is personal enrichment programs covering a variety of activities that might include dance, martial arts, or yoga, to name but a few.

Regular Loyola Marymount undergraduate students may enroll in "For Credit" LMU Extension courses with permission of their College or School Dean, at the fees quoted for such courses, above and beyond regular full-time tuition. Enrollment in other LMU Extension offerings is unrestricted unless otherwise specified, also at the fees quoted.

Los Angeles Center for International Studies

The Los Angeles Center for International Studies (LACIS) prepares and encourages teachers and students to relate constructively to people of other traditions with dignity, respect, and understanding.

LACIS organized seminars and workshops for World History teachers in Los Angeles middle and high schools. Programs and services for teachers are supported by foundation grants and through fees for services. Support includes grants from the Freeman Foundation through the National Consortium for Teaching about Asia and from the Los Angeles Educational Partnership.

LACIS also administers the Southern California Consortium for International Studies (SOCCIS), a network of university faculty that encourages institutional and faculty commitment to an "internationalized" curriculum and sponsors seminars on area studies. These include African, East Asian, South Asian, Latin American, European and Russian, and Near Eastern Studies. SOCCIS also facilitates communication regarding Study Abroad at area campuses.

Study Abroad

LMU sponsors several study abroad programs for summer, semester, and full-year.

The Study Abroad Office is located in the Charles Von der Ahe Building, or you can call and make an appointment to speak with a Study Abroad counselor at 310.338.1973 or 800.638.7426. Study Abroad is online at <http://www.lmu.edu/studyabroad>.

LMU Semester Programs

LMU currently offers semester programs in:

- London, England—London Study and Internship Program
- Bonn, Germany—The New Europe Program/Film and Television European Program/Theatre Arts Bonn-Moscow Program
- Seoul, South Korea—Sogang University
- Madrid, Spain—Madrid Program

Semester Study Abroad programs offer an array of unique academic and professional opportunities. Students study with LMU classmates and learn from LMU faculty and local instructors. Semester Study Abroad programs offer a range of core and specialized courses, for which students receive LMU credit.

Participants in an LMU Semester Study Abroad program pay LMU tuition and keep their financial aid package, including any grants and scholarships already awarded.

LMU Exchange Programs

LMU collaborates with schools in:

- Melbourne, Australia—Swinburne University of Technology
- Hong Kong, China—The Chinese University of Hong Kong
- Osaka, Japan—Kansai Gaidai University
- Tokyo, Japan—Sofia University
- Mexico City, Mexico—Universidad Iberoamericana
- Manila, Philippines—Ateneo University
- San Sebastián, Spain—University of Deusto

Exchange programs allow LMU students to spend a semester studying at carefully selected institutions of higher learning in a variety of locations around the world. Reciprocally, students from those institutions may

attend LMU for a semester. LMU students live and study with students from the host country and international students.

While on the LMU Exchange program, students continue to pay LMU tuition and keep their financial aid package, including any grants and scholarships already awarded. Housing costs can vary.

AJCU Programs

LMU collaborates with Jesuit universities in:

- Beijing, China—The Beijing Center
- San Salvador, El Salvador—Case de la Solidaridad Program
- Florence, Italy—Gonzaga in Florence
- Rome, Italy—The Rome Center

Loyola Marymount University is a member of the Association of Jesuit Colleges and Universities, which represents the 28 Jesuit colleges and universities in the United States. Studying abroad through an AJCU program provides students with an opportunity to continue academic endeavors while developing on a personal level. Course offerings needed to complete core requirements are often offered through AJCU study abroad programs. AJCU programs may also allow students to explore service-learning opportunities.

LMU Summer Programs

LMU offers Summer Programs in:

- Melbourne, Australia
- Oxford, England
- Paris, France
- Bonn, Germany
- Spetses, Greece
- Roatán, Honduras
- Dublin, Ireland
- Rome, Italy

Special Programs

Special Programs are study abroad and domestic programs that provide quality educational opportunities that have been approved by LMU:

- Washington, D.C.—The Washington Center for Internships and Academic Seminars

LMU Summer Study Abroad programs provide a rich academic experience complemented by cultural excursions over a short period of time, typically three to five weeks.

Summer Study Abroad programs offer core and specialized courses, for which students receive LMU credit and grades. Each program is led by LMU faculty members whose expertise in both country and subject matter will allow students to excel academically and get a true glimpse of the country.

Credit Transfer

All Study Abroad work completed through a sponsoring institution must be documented on an official transcript from a U.S. institution accredited by one of the six regional associations of the Accrediting Commission for Senior Colleges and Universities. Study Abroad work completed at an international institution must be documented on an official academic record from an institution recognized by the Ministry or Department of Education of that country.

Other University Services

Academic Resource Center

The Academic Resource Center, located on the second floor of Daum Hall, is LMU's tutoring and writing center. Students, faculty, and staff can enlist the help of tutors and specialists to enhance the learning process. Peer tutors work with students one-on-one or in small groups discussing course concepts, reviewing class notes, and preparing for exams. Writing tutors provide assistance with papers across the curriculum. The professional staff also work with faculty and academic departments to enhance student success for requested courses. For additional information on ARC services, please call 310.338.2847 or visit http://www.lmu.edu/academics/Academic_Support_Services/arc.htm.

Basil P. Caloyeras Center for Modern Greek Studies

The Caloyeras Center for Modern Greek Studies provides students with an opportunity to study the culture of contemporary Greece. By means of courses in the language, literature, and the arts of the Greece of today, a doorway is opened to the past, which is thus given a fresh and compelling reality.

The Center has the following goals:

- To offer courses in modern Greek language, post-classical and modern literature and history, the Greek Orthodox tradition, theatre, cinema, dance, music, and the fine arts
- To encourage students to pursue a minor in Modern Greek Studies
- To sponsor lectures on subjects pertaining to Greece which are of interest to the academic community and to the public at large
- To encourage students and faculty to pursue studies and research projects in Greece.

The Center supports the courses that lead to a minor in Modern Greek. (See "Classics and Archaeology" in this Bulletin.)

Thomas and Dorothy Leavey Center for the Study of Los Angeles

Overview

The Thomas and Dorothy Leavey Center for the Study of Los Angeles was established in 1994 to assist students, the University, and the community at large to become agents for change that leads to social justice. Using Los Angeles as a laboratory for understanding the urban experience, the center has become a university leader in developing multidisciplinary courses, producing highly regarded applied research, and promoting civic involvement.

Programs

Southern Californians and Their Leaders is one of the only systematic analyses of how our leaders view contemporary Los Angeles, the opportunities and constraints they face, and the conditions that facilitate leadership. Current activities include leadership roundtables, public opinion polls and leadership surveys, leadership internships, and a leadership lecture series. These activities enable students to apply their classroom knowledge in a real-world setting and aim to empower them to serve their community with skill and compassion.

The **Community Studies Program** gives students the opportunity to examine patterns and trends reshaping Los Angeles from the perspective of individual neighborhoods. Through in-depth neighborhood analyses, this program gives residents a voice on issues facing their communities. Community studies have focused on communities with a strong Jesuit presence: Hollywood, Pico Union, East Los Angeles, Watts, Lennox, Westchester, and Playa Vista.

In a short span of time, the center has established one of the best undergraduate archives in the nation, the **Research Collection**. The research collection promotes preservation and analysis of historical documents of public officials, post-World War II developers, late twentieth-century Los Angeles reformers and reform movements, and prominent Catholic families. Holdings include a decade's worth of the original program tapes of KCRW 89.9 FM's Which Way, L.A.? as well as the papers of Rebuild L.A., Los Angeles Educational Alliance for Restructuring Now (LEARN), Los Angeles Annenberg Metropolitan Project (LAAMP), Fritz B. Burns, and Mike Roos, to name just a few. A complete index to the research collection and the contents of individual collections is available online at <http://lib.lmu.edu/special/csla/csla.htm>.

Disability Support Services

The Disability Support Services (DSS) Office provides specialized assistance and resources that enable students with documented physical, learning, and/or psychological disabilities to achieve maximum independence while pursuing their educational goals. Services are offered to students who have established documented disabilities under federal and state law. Staff specialists constantly interact with all areas of the University to eliminate physical and attitudinal barriers. Please visit our website for more details: <http://www.lmu.edu/dss/> or contact us at 310.338.4535. Please note that all information is confidential.

Orientation

The Freshman Orientation Program welcomes new students to the Loyola Marymount community. During Orientation, students are introduced to the academic and co-curricular programs of the University, meet with faculty for individual academic advisement, and are assisted in registering for courses. Students also become familiar with all of the services, activities, and resources available to them. Throughout the Orientation Program, students interact in small groups, led by current LMU students. Since Orientation provides a useful introduction to the people, programs, and opportunities LMU offers, all new students are required to participate in the program. For additional information, please contact the Orientation office at 310.338.7429 or orientation@lmu.edu.

The Transfer Orientation Program is the best way to acclimate to life at LMU. Orientation helps students become familiar with their new campus, learn about student life, and introduce them to current and other new students as well as helpful and friendly faculty and staff. Some of the activities that take place at orientation include: opportunities to meet faculty and discuss questions about the University; introductions to LMU's wide-ranging events, clubs, and organizations; discussions with current students about various involvement opportunities on campus; and a chance to speak with representatives from all administration areas (Registrar, One-Card, Financial Aid, etc.) For additional information regarding Transfer Orientation, please contact the Transfer Programs office at transferprograms@lmu.edu or 310.338.5252.

University Library

Located on the bluff between the Jesuit Community and the Leavey Residence Halls, the William H. Hannon Library was designed and built by AECOM. It opened in July 2009. Named for long-time LMU benefactor and Distinguished Alumnus William H. Hannon, the library is comprised of 120,928 square feet, with three levels above ground and a two-story basement below ground for high density collections storage. The building increases seating to 865, with a variety of seating for students, faculty, and staff. The upper-level stacks hold 250,000 volumes and the basement can store an additional one million volumes.

A highlight of the building is the Information Commons where students can learn, work, and collaborate on class projects using state-of-the-art information technology. A media lounge and café provides comfortable seating and a casual learning environment.

The William H. Hannon Library contains the collections of the University's Westchester campus, which totals approximately 478,500 print books, 106,500 bound periodicals, 27,000 media resources including CDs and DVDs, 1,388 current print periodical subscriptions, and access to 163,000 e-books and 39,000 electronic periodicals. In addition to the Library's online catalog, LINUS, network access is also available to online index databases such as LexisNexis Academic and PROQuest Research Library. For a complete listing of available databases, please go to the Library home page: <http://www.lmu.edu/library>. In addition, the Library is a member of the LINK+ Consortium, an interlibrary lending organization of member libraries with over 4.5 million books. The Library's Instruction Program offers classroom instruction in information literacy and database searching.

The Department of Archives and Special Collections houses collections of art, rare books, manuscripts, and the University Archives. Notable holdings include the St. Thomas More, Oliver Goldsmith, and the Helena and John Weadock Collection of rare English and American first editions.

Other important collections are the papers of the motion picture producer Arthur P. Jacobs, best known for the Planet of the Apes series, and the Werner Von Boltensern postcard collection, which contains over a million cards. The department also houses the Research Collection of the Thomas and Dorothy Leavey Center for the Study of Los Angeles which collects research materials relating to local public officials, post-World War II developers, late twentieth-century reformers, and prominent Catholic families.

The Library's Media & Reserve Services Department provides reserve materials for student class work, as well as equipment and materials in various multi-media formats.

ACADEMIC AWARDS AND COMMENCEMENT HONORS

Honors at Commencement

To be eligible for scholastic honors at commencement, an undergraduate student must have completed at least 60 semester hours toward the baccalaureate degree on a graded basis (Credit/No Credit grades do not apply) at Loyola Marymount. Eligible students for honors at May commencement either received a degree on the previous August or December degree-granting dates or be a degree candidate for May. Honors at commencement are determined by the cumulative grade point average at the time the degree is granted, based on LMU work only. The following grade point averages are required for the honors indicated:

- 3.9 Summa Cum Laude
- 3.7 Magna Cum Laude
- 3.5 Cum Laude

These honors are entered on the transcript and are inscribed on the diploma.

Dean's List

A Dean's List, comprised of full-time matriculated undergraduate students, is published at the end of the Fall and Spring semesters. To be eligible for the Dean's list, students must have completed 15 semester hours at LMU and received letter grades in at least 12 semester hours with a cumulative term grade point average of 3.50 or better. To qualify for the Dean's List, one must have completed all courses and not received a grade of F in any course.

University Honor Societies

Loyola Marymount University sponsors numerous honor societies to recognize significant academic achievement of its students.

Alpha Kappa Delta Sociology Society

Established at LMU in 1997, Alpha Kappa Delta is an academic organization dedicated to the study of sociology, the research of social problems, and other social and intellectual activities. It promotes the development of scholastic and leadership skills within the framework of a national honor society and the Department of Sociology. It was founded in 1920 at the University of Southern California.

Alpha Sigma Nu Jesuit Honor Society

Alpha Sigma Nu is a national honor society for men and women founded in 1915 at Marquette University. The society was organized to honor students from Jesuit colleges and universities who have distinguished themselves in scholarship, loyalty, and service to the University. A limited number of juniors and seniors are selected for membership each year. The society offers its services to the University, particularly in an effort to stimulate intellectual interest and accomplishment. It was established at LMU in 1939.

Beta Beta Beta Biology Society

Since its inception at Oklahoma City University in 1922, Beta Beta Beta has been a society for students dedicated to improving the understanding and appreciation of biological study and extending boundaries of human knowledge through scientific research. The society has been at LMU since 1999.

Beta Gamma Sigma Business Society

The establishment of the first national honor society for business students was the result of the 1913 merger of three separate societies from the University of Wisconsin, University of Illinois, and University of California. Beta Gamma Sigma is an international honor society recognizing the outstanding academic achievements of students enrolled in collegiate business and management programs. LMU's chapter started in 1982.

Gamma Kappa Alpha National Italian Honor Society

Gamma Kappa Alpha acknowledges superior scholastic performance in the field of Italian language, literature, and culture, and is open to membership at institutions of higher learning in the United States and Canada. The Society encourages college students to acquire a greater interest in, and a deeper understanding of, Italian culture, art, and history. It was founded at Nazareth College in Rochester, NY, in 1983 and established at LMU in 1998.

Kappa Delta Pi International Honor Society in Education

The Kappa Delta Pi International Honor Society in Education was founded in 1911 at the University of Illinois and established at LMU in 1996. It is dedicated to recognizing scholarship and excellence in education, promoting development and dissemination of worthy educational ideas and practices, and enhancing the continuous growth and leadership of its diverse membership.

Lambda Pi Eta Communication Studies Society

Founded at the University of Arkansas in 1985, this society later became the official honor society of the National Communication Association. Taking its name from the three elements of persuasion as described in Aristotle's Rhetoric, it functions to foster development among students and professionals in the field.

Phi Alpha Theta History Society

Established at the University of Arkansas in 1921, Phi Alpha Theta is a professional society whose mission is to promote the study of history through the encouragement of research, teaching, publication, and the exchange of learning and ideas among historians. The LMU chapter started in 1968.

Phi Sigma Tau Philosophy Society

The purpose of Phi Sigma Tau is to serve as a means of awarding distinction to students having high scholarship and personal interest in philosophy and to promote student interest in research and advanced study in this field. It was founded at Muhlenberg College in 1930, incorporated in 1955, and became active at LMU in 1987.

Pi Delta Phi French Honor Society

This society was established in 1906 at the University of California at Berkeley, with the goals of recognizing outstanding scholarship in French language and literature and increasing knowledge of the contribution of French-speaking countries to world culture. LMU's chapter began in 1969.

Pi Mu Epsilon Mathematics Society

Pi Mu Epsilon is an honorary national mathematics society founded at Syracuse University in 1914, with the purpose of promoting scholarly activity in mathematics among the students in academic institutions. The society was established at LMU in 1975.

Pi Sigma Alpha National Political Science Honor Society

Pi Sigma Alpha was founded in 1920 at the University of Texas at Austin. Its goal is to stimulate scholarship and intelligent interest in the field of political science. LMU's chapter was established in 1998.

Psi Chi Psychology Society

Psi Chi Psychology Society was established in 1929 at Yale for the purposes of encouraging, stimulating, and maintaining excellence in scholarship and advancing the science of psychology. LMU started a chapter of the society in 1979.

Sigma Delta Pi Spanish Society

Sigma Delta Pi, the National Collegiate Hispanic Honor Society, was established in 1919 at the University of California at Berkeley. Its goals include honoring those who attain excellence in the study of the Spanish

language and encouraging university students to acquire a greater interest in and a deeper understanding of Hispanic culture. LMU's chapter became active in 1972.

Sigma Pi Sigma National Physics Honor Society

Founded at Davidson College, North Carolina, in 1921, Sigma Pi Sigma exists to honor outstanding scholarship in physics, to encourage interest in physics among students at all levels, to promote an attitude of service of its members towards their fellow students and colleagues and to the public, and to provide a fellowship of persons who have excelled in physics. The society was established at LMU in 1979.

Sigma Tau Delta English Society

Founded at Dakota Wesleyan College in 1924 and established at LMU in 1994, Sigma Tau Delta members are expected to have superior creative talent and to have an interest in literature and language beyond the classroom. They are dedicated to providing cultural and intellectual enlightenment in a community of others who have similar talents and interests.

Sigma Xi Scientific Research Society

At LMU since 1967, Sigma Xi endeavors to encourage support of academic achievement and original work in science and technology and to promote an appreciation within society at large for the role research has played in human progress. Founded at Cornell University in 1886, it is among the oldest such societies in the nation.

Tau Beta Pi Engineering Society

This national engineering honor society was founded at Lehigh University in 1885 to honor students displaying excellence in scholarship and exemplary character as undergraduates in engineering and to foster a spirit of liberal culture in engineering colleges. The LMU chapter was established in 1974.

Theta Alpha Kappa Theology Society

Founded in 1976 at Manhattan College, Theta Alpha Kappa is the only national honor society recognizing excellence of students involved in the study of religion and theology. The society was established at LMU in 1981.

University Academic Awards

For undergraduate students to be eligible for academic awards presented at the May Commencement ceremony, they must have either graduated in the previous Summer or Fall term or be a candidate for graduation for May.

The University Scholar of the Year Award

Presented to the student who, in the four-year undergraduate program at LMU, is determined to have achieved the best overall academic record in the graduating class.

The Ignatian Award

Awarded to the graduating senior man who has achieved well academically and who has distinguished himself in leadership and service to the student body and the University.

The Marian Award

Awarded to the graduating senior woman who has achieved well academically and who has distinguished herself in leadership and service to the student body and the University.

The Valedictorian Award

Presented to the student who, in the four-year undergraduate program, is chosen after a presentation to the Valedictorian Committee to give the Valedictorian Address at the Undergraduate Commencement Exercises.

Presidential Citations

Presented to outstanding graduating seniors who have combined excellence in the classroom with effective service and leadership in the University community.

College, School, Departmental, and Program Awards

The College or School Scholar Awards

Presented to the top graduating senior who has achieved the highest academic record in each of the four undergraduate colleges and the School of Film and Television.

The Clinton J. Albertson, S.J., University Honors Program Award

Presented to an outstanding graduating student in the University Honors Program.

The American Chemical Society Analytical Division Award

Given to the third-year student who has demonstrated excellence in analytical chemistry and displays an aptitude for a career in the field.

The American Chemical Society Organic Division Award

Given to the outstanding student of two semesters of organic chemistry.

The American Institute of Chemists Award

The gift of the Western Chapter of the American Institute of Chemists presented to the graduating senior who, in the opinion of the faculty of the Department of Chemistry, is deserving of special recognition for leadership, character, and excellence in scholarship.

The Samuel Z. Arkoff Awards

The gift of Samuel Z. Arkoff, awarded annually in two categories of achievement: best film and best full-length film script by an undergraduate student.

The Virginia Barnelle Theatre Arts Award

Given to a continuing senior who has demonstrated superior academic achievement, outstanding service to the program and University at large, and in recognition of excellence in the field of Theatre Arts.

The Leonard Simon Blenkiron English Award

The gift of Mrs. Mae Emma Blenkiron, in memory of her husband, Leonard Simon Blenkiron, awarded to a senior English major for excellence in English.

The Sister Regina Buchholz, S.C.R.H., Award

Presented in honor of Sister Regina Buchholz, S.C.R.H., former Professor of Art, by the Department of Art and Art History, to a senior Studio Arts major in recognition of excellence in the field of art and of service to the University.

The Caloyeras Center Summer Scholarship

This all-expenses-paid summer scholarship to study in Greece is awarded to a student in the Modern Greek Studies Program who has demonstrated superior academic achievement.

The Peter B. Caloyeras Scholarships

The Basil P. Caloyeras Center offers five annual scholarships for the Odyssey Summer Study in Greece Program. The scholarships are a gift to LMU by Basil P. Caloyeras in memory of his father, Peter, and are awarded based on academic excellence and financial need.

The Stanley Chan Award

Given to the outstanding graduate of the Political Science Department who demonstrates superior academic achievement, outstanding service to the University, and commitment to Judeo-Christian values.

The CRC Press First-Year Chemistry Award

Given to the outstanding student of two semesters of first-year general chemistry.

The Delta Sigma Pi Professional Fraternity Award

The gift of the local chapter of Delta Sigma Pi to a business student for academic excellence and leadership potential.

The Dockweiler Gold Medal

The gift of Mrs. Henry I. Dockweiler awarded annually to the graduating senior who has achieved general excellence in the field of history and in service to the University.

The Jerome K. Doolan Endowed Engineering Award

The gift of Mr. and Mrs. Jerome K. Doolan, awarded to the graduating senior engineer, who, by reasons of his or her scholarship, participation in student activities, and promise of future success in his chosen profession, shall have been judged deserving of special recognition.

The Financial Executives Medallion Awards

Presented by the Financial Executives Institute, recognizing the top student in the field of finance for the four years of study.

The Finnegan-Reiland Education Award

Named in honor of two former professors of the School of Education, the award recognizes distinction in student teaching, superior scholastic achievement, and service to others.

The St. Genisius Theatre Arts Performance Award

Given to a graduating senior who has demonstrated outstanding achievement in theatre arts performance exemplifying the University ideals of faith, action, and the education of the whole person.

The Barbara and Hugh Gray Award for Greek Studies

Presented by the Basil P. Caloyeras Center for Modern Greek Studies to the author of the best paper on Modern Greek Studies.

The Jack Haley, Jr., Film Award

Originally created by Jack Haley, Sr., and now supported by a grant from Jack Haley, Jr. Designed to foster and encourage excellence in student film production.

The Carl G. Kadner Award

Presented to the graduating senior who has achieved academic excellence, exhibited strong leadership, and provided dedicated service to the Biology Department.

The Jerome J. Korth Award

Presented to the graduating senior in the Frank R. Seaver College of Science and Engineering with the highest grade point average in the University's core curriculum.

The Marketing Student Award

Presented by the Loyola Marymount Collegiate Chapter of the American Marketing Association to the senior with outstanding participation, academic achievement, and career potential in marketing.

Dr. Thomas D. Pitts Award

A gift of the alumni, honoring Dr. Thomas D. Pitts, Professor of Biology from 1948-1974, to a graduating senior in the Department of Biology who has shown a growth to academic excellence and provided service to the University.

The Alan Seydoux Memorial Award

Given to a graduating senior who has achieved excellence in the area of field or marine biology and who has provided service to the University.

The Richard Trame, S.J., Music Award

Presented to the outstanding senior woman and man graduating from the Department of Music for outstanding musical, academic, and professional development and contribution.

The Mary Tsassis Award in European History

Presented by the Basil P. Caloyeras Center for Modern Greek Studies to the graduating senior who has demonstrated excellence in European history.

The Wall Street Journal Student Achievement Awards

The gift of Dow Jones & Company, publishers of the *Wall Street Journal*, to be given to the senior who ranks highest in finance and in economics.

Special Awards

The AFROTC Award

The gift of the President of Loyola Marymount University to the graduating senior in the Air Force ROTC who exemplifies the high ideals of the University through leadership and service to AFROTC, the school, and the community.

Eugene Escallier Foreign Study Scholarship Award

An endowed gift of Lucien Escallier to a full-time junior or senior student for educational enrichment through travel and foreign study within the area where western culture was born.

Rev. James N. Loughran, S.J., Award for Community Service

Presented to the outstanding graduating senior in good academic standing who, through his/her leadership, activities, and involvement with the community beyond the campus and throughout his or her years at Loyola Marymount University, has improved relations between the community and the University and has created a positive view of Loyola Marymount University. The recipient has exemplified Jesuit and Marymount ideals of hard work and generosity, has had a significant impact in off-campus service, and has given promise of selfless and effective leadership in the years ahead.

Sr. Raymunde McKay, R.S.H.M., Service and Leadership Award for Seniors

Presented to graduating seniors in good academic standing who, during their years at Loyola Marymount, have excelled as leaders and servants. The recipients of the McKay Award have: been instrumental in initiating change; taken on leadership roles that have motivated their peers to challenge themselves and others; enriched the quality of University life by building school spirit and by creating a positive and respectful community; and given selflessly of their time and energy in an attempt to make the world—that of the University, local community, and nation—a better place.

UNIVERSITY HONORS PROGRAM

All University Colleges

Director

Brad Elliott Stone

Associate Director

John David N. Dionisio

Supervisor

Beatrice Henson-O'Neal

Objectives

The University Honors Program at Loyola Marymount University seeks to offer academically outstanding students with intellectually creative and rigorous courses designed to create a life-long love of learning and the intellectual habits required to serve others. The sequence of courses culminates in a Senior Thesis project (either HNRS 497 or a Senior Thesis/Project course in their major) prepared under the guidance of professorial mentors. Honors students are strongly encouraged to present their work at the LMU Undergraduate Research Symposium as well as national conferences in their discipline. Selected students will have the opportunity to attend and present work at the National Collegiate Honors Council and the Western Regional Honors Council conferences.

For more on the program, including how to apply, please consult the description of the University Honors Program in the Academic Programs and Services section of the Bulletin, or look at the program's website at <http://www.lmu.edu/honors>.

Program Requirements

Students in the University Honors Program replace the University Core with the following courses:

Lower Division Honors Core

HNRS 100, 101, 105, 115, 120, 130, 140, 215, 220, 230, and 240

A Critical or Creative Arts course

Upper Division Honors Core

HNRS 330, 398 (or 399)

An Upper Division Theology course

Thesis

Either HNRS 497 or a thesis/capstone project course in the student's major

Foreign Language Requirement

Demonstrated proficiency, by coursework or by examination, to the 203 (intermediate) level of any foreign language

AP and IB Equivalencies

The University Honors Program offers HNRS credit for AP scores of 5 in the following areas: AP Social Sciences (HNRS 105), AP Laboratory Sciences or AP Calculus (HNRS 140), AP European or World History (HNRS 220 or 230), AP Foreign Languages (Language Requirement).

Please contact the Honors Director concerning IB equivalencies.

Science and Engineering Students

Students in the Frank R. Seaver College of Science and Engineering are exempt from HNRS 140 and choose only one of HNRS 220 or 230.

Business Students

Students in the College of Business Administration are exempt from HNRS 105.

Liberal Studies Students

Students who are working toward elementary education credentials need to meet with the Honors Director to determine the best coursework path. Decisions about courses will be made in consultation with the Center for Undergraduate Teacher Preparation.

BELLARMINE COLLEGE OF LIBERAL ARTS

Administration

Dean: Paul Tiyambe Zeleza

Associate Deans: Cheryl Grills, Curtiss Takada Rooks, Jeffrey Wilson

Mission of the Bellarmine College of Liberal Arts (BCLA)

The Bellarmine College of Liberal Arts (BCLA) embodies the wider University goals of liberal education and commitment to Roman Catholicism and the Judaeo-Christian tradition. The curriculum in the College liberates the mind, nourishes the spirit, and cultivates creativity for the challenges of today and tomorrow. Its courses, therefore, are at the heart of the University's core curriculum for all undergraduates.

BCLA Student Learning Outcomes

By virtue of their liberal arts courses, LMU students should understand:

- The various ways in which knowledge is established and integrated
- The broad outlines of human history and the interconnectedness of the world
- The philosophical and theological dimensions of our intellectual traditions.

By virtue of their liberal arts courses, LMU students should be able to:

- Demonstrate written and oral competencies
- Synthesize and apply knowledge to solve problems, personal and social
- Interact cross-culturally and pursue justice, locally and globally.

By virtue of their liberal arts courses, LMU students should value:

- The life of the mind, enhanced self-awareness and social awareness
- Critical reflection that leads to thoughtful action
- Diversity, responsibility, justice, and globally sound human practice.

Similarly, BCLA students attain the learning outcomes of their majors and minors, found in the following program descriptions.

Organization of the College

The College offers undergraduate majors and/or minors in the following fields of learning:

African American Studies	AFAM
Archaeology	ARCH
Asian Pacific American Studies	APAM
Asian and Pacific Studies	ASPA
Catholic Studies	CATH
Chicano/a Studies	CHST
Classical Civilizations	CLCV
Classics	CLAS
Economics	ECON
English	ENGL
Environmental Studies	EVST
Ethics	ETHC
European Studies	EURO
French/Francophone Studies	FREN
German	GRMN
Greek	GREK
History	HIST
Humanities	HMNT
Individualized Studies	ISLA
Italian	ITAL
Irish Studies	IRST
Jewish Studies	JWST
Latin	LATN
Liberal Studies (Elementary Education)	LBST

Modern Greek Studies	MDGK
Modern Languages	MDLL
Peace Studies	PCST
Philosophy	PHIL
Political Science	POLS
Psychology	PSYC
Sociology	SOCL
Spanish	SPAN
Theological Studies	THST
Urban Studies	URBN
Women's Studies	WNST

Master's level graduate programs are offered in the following fields:

Bioethics	BIOE
-----------	------

M.A. in Bioethics

Graduate Certificate in Bioethics

General Concentration in Bioethics

or

Concentration in Catholic Bioethics

English	ENGL
---------	------

With emphasis in:

Literature,

Creative Writing,

or

Rhetoric and Composition

Philosophy	PHIL
------------	------

Theological Studies	THST
---------------------	------

M.A. in Theology

Concentration in Comparative Theology option

M.A. in Pastoral Theology

Concentration in Pastoral Leadership option

or

Concentration in Spiritual Direction option

Application of General University Requirements

The University requirements for admission, graduation, and all general rules and regulations of the University as set forth in this Bulletin are applicable to and binding upon all students enrolled in the Bellarmine College of Liberal Arts.

Degree Requirements for a Baccalaureate Degree in the Bellarmine College of Liberal Arts

The degree program has three components: core, major, and electives. The core curriculum, which is taken throughout the four-year program, provides educational breadth and embodies Loyola Marymount's educational mission and vision. The major provides a field of concentration that develops a depth of understanding in the humanities or social sciences. Finally, up to one-third of the program is made up of electives. This provides the opportunity for exploring fields of study complementary to the major or for developing expertise in a second major or minor.

All BCLA students should be aware of the following policies:

120 semester hours are required for graduation with the following distribution: a) at least 45 semester hours of upper division, and b) a **maximum of 30 upper division semester hours in any one department** will be accepted toward graduation requirements.

No more than 9 semester hours in any of the following programs will be accepted toward degree requirements: ART, DANC (studio technique/performance), MUSC (applied music, studio, or performance), THEA (technical or performance).

Liberal Arts students with a double major or minor in one of the above departments are allowed to exceed the 9 semester hour limit in order to complete their programs. Only those units that are applicable to the double major or minor will be accepted toward graduation requirements.

Enrollment by degree-seeking students at another institution at the same time they are enrolled at LMU is not permitted. Courses taken concurrently elsewhere will not be accepted toward degree requirements in BCLA. See Financial Aid policies for additional restrictions.

The Bellarmine College of Liberal Arts accepts a maximum of two semester hours of physical education only upon entrance for a new transfer student. Other physical education hours do not count toward degree requirements.

A maximum of 10 semester hours of Aerospace credit will be accepted. This credit is limited to:

- AERO 100: 1 semester hour
- AERO 101: 1 semester hour
- AERO 200: 1 semester hour
- AERO 201: 1 semester hour
- AERO 300/400: 3 semester hours
- AERO 301/401: 3 semester hours

Students should consult the Dean's Office for specific policies applicable to the Bellarmine College of Liberal Arts.

Core Curriculum for the Baccalaureate Degree in the Bellarmine College of Liberal Arts

(Majors in Liberal Studies [LBST], see Liberal Studies section in this Bulletin.)

American Cultures

3 Semester Hours

Course Selection:

First- and second-year students choose from any lower division course listed or cross-listed as AMCS. Third- and fourth-year students choose from any upper division course listed or cross-listed as AMCS. A single course will generally not fulfill two core requirements. The only exception is a course that satisfies another core requirement which is also cross-listed as AMCS.

College Writing

3 Semester Hours

Course Selection:

ENGL 110 will fulfill the college writing requirement. ENGL 100 will not fulfill the college writing requirement but is required of certain students based on their performance in the essay written in all ENGL 110 sections during the first week of classes. A minimum grade of C (2.0) is required in ENGL 110. All students who receive a grade of C- (1.7) or lower must retake ENGL 110 as soon as possible.

Choose: ENGL 110.

Communication or Critical Thinking

3 Semester Hours

Course Selection:

Communication: Choose from CMST 100, 110, 130, or 140.

or

Critical Thinking: Choose from CMST 206 or PHIL 220.

Critical and Creative Arts

6 Semester Hours

Course Selection:

This requirement is satisfied by taking one course from Critical Arts and one course from Creative Arts.

Critical Arts: Choose from ANIM 100; ARHS 200, 201, 202, 321, 340, 345; DANC 281, 381; FTVS 210, 314, 315; MUSC 102, 104, 303, 365; THEA 240, 245, 331, 336, 341, 346, 347, 348, 349, 430.

Creative Arts: Choose from ANIM 120; ART 150, 151, 153, 278, 280, 350; DANC 163; ENGL 205, 311 (Prerequisite 202), 312 (Prerequisite 201); MUSC 105, 106, 107; PROD 200; SCWR 220; THEA 110, 400.

History

6 Semester Hours

Course Selection:

This requirement is satisfied by taking one course from Western Civilization and one course from Contemporary Societies.

Western Civilization: Choose from HIST 100 or 101.

Contemporary Societies: Choose from HIST 152, 162, 172, 182, or 192.

Literature

3 Semester Hours

Course Selection:

Prerequisite: Successful completion of college writing requirement.

Choose from CLCV 200, 210, 220, 230; ENGL 130, 140, 150, 170; FNLT 180; THEA 240, 245, 331, 336, 341, 346, 347, 348, 349, or 430. Or choose any upper division literature course in a modern or classical language, e.g., CHIN, FLPN, FREN, GREK, GRMN, ITAL, JAPN, LATN, MDGK, or SPAN.

Mathematics

3 Semester Hours

Course Selection:

Choose MATH 102 or higher. Some majors require a specific mathematics course, which also fulfills this requirement.

Science and Technology

3 Semester Hours

Course Selection:

Choose one lower division course from a department other than Mathematics. Courses numbered 260-279 in each department of the Frank R. Seaver College of Science and Engineering are specifically designed for non-science majors. Choose from BIOL, CHEM, CMSI, ELEC, MECH, NTLS, or PHYS.

Philosophy

6 Semester Hours

Course Selection:

Lower Division:

Choose PHIL 160. Transfer students who enter LMU with a minimum of sixty (60) accepted transfer hours are exempted from the lower division requirement.

Upper Division:

Choose one PHIL course numbered 320 through 330.

Social Sciences

6 Semester Hours

Course Selection:

1. Select two courses from ECON 100, 105, 110, 120; GEOG 100; POLS 135, 155; PSYC 100; SOCL 100 or 105. Courses must be from different departments.
2. Select one course from: AFAM 115, APAM 117, CHST 116, or WNST 100, and one course from ECON 100, 105, 110, 120; GEOG 100; POLS 135, 155; PSYC 100; SOCL 100 or 105.
3. Select two courses from the same department. The first is selected from ECON 100, 105, 110, 120; GEOG 100; POLS 135, 155; PSYC 100; SOCL 100 or 105. The second course in the same department is selected from upper division courses that the student is qualified to take.

Theological Studies

6 Semester Hours

Course Selection:

Lower Division:

Choose from the 100-level series of THST courses. Transfer students who enter LMU with a minimum of sixty (60) accepted transfer hours are exempted from the lower division requirement.

Upper Division:

Choose from the 300-level series of THST courses only.

Major Requirements

Students must have a major. Please see the following for the requirements for specific programs. Students ordinarily enter the University with a major but may enter undeclared. Undeclared students must declare a major prior to enrolling in classes for their junior year.

Minor Requirements

Students may, if they so desire, dedicate some of their electives in pursuit of a minor. Please see the following for the requirements for specific programs.

Recommendations

Students are encouraged to enrich their program of study with courses from the following areas.

Foreign Language

Students are encouraged to study foreign languages to the intermediate level. LMU offers Chinese, Filipino, French, German, Greek (Modern and Classical), Italian, Japanese, Latin, and Spanish on a regular basis.

International/Global Studies

Students are encouraged to select courses that deal with international and/or global issues. Such courses are offered throughout the University and are available as electives or as options within the core or major. Consult the Bulletin listings.

Internships

Students are encouraged to link academics and career exploration through internships. Internships may be arranged through the Career Development Office. Also, internship courses are offered through various academic departments.

Study Abroad

A semester of international study abroad is also recommended for the junior year. Consult the Study Abroad Office.

Students Interested in Teaching in California Public Schools

Students wishing to teach grades K-5 in California public schools are required to obtain a Multiple Subjects Subject Matter Teaching Credential and demonstrate "subject matter competence" to teach the many subjects commonly taught in elementary school. Subject matter competence must be demonstrated by passing the California Subject Examination for Teachers (CSET). To prepare for this examination, students complete the requirements of the Liberal Studies Bachelor's of Arts degree in the Bellarmine College of Liberal Arts. Students interested in the Liberal Studies degree program should consult a Liberal Studies advisor.

Students wishing to teach in grades 6-12 in California public schools are required to obtain a Single Subject Credential and demonstrate "subject matter competence" to teach a particular subject (e.g., English, Social Studies, Foreign Language, Mathematics, or Science). Subject matter competence can be demonstrated by either passing a national exam or by successfully completing an approved subject matter preparation program in English. Students interested in teaching English at the 6-12 grades levels should consult the English Subject Matter advisor in the English Department. The Frank R. Seaver College of Science and Engineering offers an approved single subject preparation program in mathematics. Students interested in teaching mathematics should consult an advisor in the Mathematics Department. Subject matter preparation programs in science and French are pending, whereas Spanish and the social sciences have been approved.

A Multiple Subjects Subject Matter or Single Subject Matter teaching credential can be earned concurrently with a Bachelor's degree. Except for Liberal Studies majors, students may declare a minor in Education and begin taking Education courses after completion of 30 semester hours (first semester Sophomore standing). In order to maximize the full potential of taking Education courses with the undergraduate program, students are strongly encouraged to declare the Education minor early in their career. Credential programs are also available in Special Education (K-12) and Bilingual Education (Spanish, K-12). For more information on Education programs, see the School of Education section in this Bulletin.

Secondary Teacher Preparation Programs

For information on these programs, see the Secondary Teacher Preparation Program section in this Bulletin.

African American Studies

Faculty

Chairperson: Adilifu Nama

Associate Professors: Angela James, Joseph Jewell, Adilifu Nama

Assistant Professor: Dionne Bennett

Objectives

African American Studies is an interdisciplinary department with a worldview grounded in the perspective of Africa and the Diaspora. This worldview forms the basis of our intellectual, theoretical, and methodological approaches. The objective of African American Studies is to understand the forces that impact the lives of people of African descent in America as well as the influences of African descent on America and beyond. The Department's curriculum challenges students to integrate knowledge and analytical skills from disciplines such as sociology, history, literature, political science, philosophy, and economics so that a more holistic understanding emerges.

By examining the lived experiences of Africans in America and throughout the Diaspora from the perspective of various disciplines, students develop a deeper understanding of themselves and their interactions within a diverse society. Thus, African American Studies provides students with an excellent preparation for graduate study, professional schools, social advocacy and activism to promote social justice, and numerous employment opportunities (e.g., law, education, counseling, entertainment, social work, public relations, business, etc.) that require a Bachelor of Arts degree.

African American Studies Student Learning Outcomes

By virtue of exposure to African American Studies courses, African American Studies students should know:

- The general history of African American people in the U.S. and the Diaspora
- The significance of the concept of an African worldview and its significance to African American-centered scholarship
- How to conduct social science research and to interpret scientific data
- The basic research questions posed by the various disciplines contributing to a better understanding of the African American experience
- The value of embracing the concept of diversity in the modern and complex world in which we live
- The pathways to graduate schools and professional careers provided to a major or minor in African American Studies
- The scope and content of African-centered knowledge systems;

African American Studies students should be able to:

- Effectively employ social science methodologies in the analysis of issues related to African Americans
- Demonstrate written and oral competencies in the analysis of theories and practices
- Identify and utilize appropriate primary data, including census and demographic data
- Apply their understanding of social issues to the development and critical analysis of programs and policies that impact residents in rural and urban areas
- Develop a basic knowledge and appreciation of the Black Aesthetic
- Develop an understanding of the forces that negatively impact the Black family and other institutions in the Black community;

African American Studies students should value:

- The contributions of Black people to America and to world civilization
- The importance of diversity in a complex world
- Critical thinking as an important problem solving skill

- Community service and service learning as meaningful activities
- The dignity of all human cultures.

Major Requirements

Lower Division:

- AFAM 115
- AFAM 150
- AFAM 155
- One course in research methods chosen from the following:
- AFAM 208
- POLS 210
- SOCL 109

Upper Division:

24 semester hours in upper division courses must include AFAM 335 (SOCL 335) and AFAM 497. AFAM 335 should be taken in the first semester of the junior or senior year. AFAM 497 should be taken in the senior year. The remaining 18 hours are to be chosen from the five focus areas in which the upper division courses in African American Studies are grouped: I) Sociology, II) History, III) Literature/English, IV) Economics and Urban Studies, V) Senior Seminar. An average grade of C (2.0) must be obtained in courses included in the major.

I. Sociology

- AFAM 301 Black Family Life
- AFAM 334 Race and Ethnic Relations*
- AFAM 335 Sociology of the Black Community
- AFAM 435 Sex, Race, and Violence
- AFAM 485 African American Social Thought*

II. History

- AFAM 390 African Kingdom*
- AFAM 392 Colonial Africa 1860-1960*
- AFAM 490 The Nile Quest*
- AFAM 491 South Africa*
- AFAM 590 Seminar in African History*

III. Literature/English

- AFAM 337 Black Arts Movements
- AFAM 395 Black Drama
- AFAM 396 Survey of African Amer. Literature

IV. Economics and Urban Studies

- AFAM 326 Econ. Dev. Minority Communities*
- AFAM 365 Metropolitan L.A.*

V. Senior Seminar

- AFAM 497 Senior Seminar

* cross-listed courses

Minor Requirements

18 semester hours, including AFAM 115, 150 or 155, and 335 and nine (9) semester hours in upper division courses. An average grade of C (2.0) must be obtained in the courses included in the minor.

African American Studies Model Four-Year Plan

The normal course load is 15 semester hours (5 classes). By following the model below, a student will complete all lower division core requirements by the end of the sophomore year as well as AFAM major prerequisites. Note that core areas are suggested to provide a distribution of various disciplines every semester. Please be flexible implementing these suggestions, given your own interests and course availability. In four years, this plan meets all common graduation requirements.

Freshman Year

Students may take no more than **ten upper division courses** in any one department, except for Philosophy, in which the maximum is thirteen.

American Cultures Studies

Coordinator

Edward Park

Mission of American Cultures Studies

Courses in American Cultures Studies will enhance students' familiarity with and appreciation of several of the diverse cultural groups that comprise the multi-ethnic society of the United States. The in-depth, comparative, and interdisciplinary study of the cultures, behaviors, experiences, and inter-group relations of the following groups—African American, Asian/Pacific Islander American, Chicano/Latino American, Euro-American, and Native American—will provide students with competencies and sensibilities that will enable them to contribute to and thrive in a culturally diverse world. (It is understood that the above categories do not include the entirety of peoples comprising the United States of America. Moreover, it is recognized that a rich variety of cultures is also represented within these broad groups.)

Students will strengthen their knowledge and awareness of various ethnic or cultural groups. They will also develop analytical responses to various forms of cultural expression. This approach asks students to challenge the boundaries of ethnicity, culture, and academic discipline. In so doing, students improve their intergroup communication skills and become better able to see, appreciate, and respect the perspectives of others—factors that are essential to the creation of a more understanding and just society.

Goals of American Cultures Studies

Courses in American Cultures Studies are designed to:

- Provide strategies and competencies necessary to thrive in and contribute to a multiethnic and inter-cultural environment.
- Link theory and practice in the Jesuit-Marymount tradition.

American Cultures Studies Student Learning Outcomes

Students who have completed an AMCS course will:

- Know the histories, cultures, and politics of major ethno-racial groups in American society
- Know the role of race and ethnicity in shaping the American experience.

Students who have completed an AMCS course will be able to:

- Become more informed and effective participants in a culturally diverse world
- Evaluate the multiracial and multiethnic dimension of American life.

Students who have completed an AMCS course will value:

- Historical and contemporary efforts to build a more just and inclusive America
- Commitment to social justice and inter-culturalism.

All courses in this curriculum satisfy the AMCS component of the student's core requirement. Some of the courses are also cross-listed in other disciplines.

Asian and Pacific Studies

Director

Robin Wang

Faculty

Professor: Robin Wang

Assistant Professor: Yanjie Wang

Objectives

Asian and Pacific Studies, an interdisciplinary area studies program, provides a general background to the traditions and cultures of Asia and the Pacific as well as an understanding of contemporary issues relating to that region. Furthermore, given the present shift of interest to the Pacific region, it aims to deepen the student's knowledge of Asia and the Pacific or of a country/area through a concentrated study in one academic discipline. This academic program, therefore, is intended to develop the student's personal interest in Asian and Pacific affairs and to prepare her or him for Asia-related career opportunities. All students are encouraged to spend some time in Asia through the various programs available to them.

Asian and Pacific Studies Student Learning Outcomes

- Students will come to understand the culture of the Asia Pacific region and its contributions to human civilization, with special attention to distinctively Asian culture and spiritual traditions that originated in this region
- Students will enhance their competencies by doing original research on topics of concern in the Asia Pacific region, and communicate their findings in both written and oral presentations. Students will also acquire a basic knowledge and skill in an Asian language
- Students will have the opportunity to develop self-awareness by exploring interactively the relationships between their own cultures and those of the Asian Pacific region.

Major Requirements

Lower Division Requirements (18 semester hours) including:

ASPA 201 Asian Civilizations

HIST 182 Modern Asia

Language Requirement:

Study of an Asian language (competence expected is the equivalent of a two-year study, i.e., 12 semester hours). Native speakers of an Asian language may be exempted from the language requirement but will be strongly encouraged to study another language. At LMU, course credit may be obtained for ARCH 205, 305 (Sanskrit); CHIN 101, 102, 203, 204; FLPN 101, 102, 203, 204; JAPN 101, 102, 203, 204. At UCLA, credit may be obtained through the SOCCIS program for Arabic, Korean, and Mongolian.

Upper Division Requirements (24 semester hours):

ASPA 301, 305, 500.

Choose the additional fifteen upper-division semester hours from ASPA courses or, in consultation with the Director, from courses with substantial content focused on Asia and the Pacific region in other disciplines, including art, business, economics, history, philosophy, political science, and theological studies.

Minor Requirements

18 semester hours

HIST 182, one semester of Asian language, plus 12 upper-division semester hours in ASPA including ASPA 500. In consultation with the Director, the student may choose one course in another college or school, provided it has substantial content focused on Asia and the Pacific region.

Asian and Pacific Studies Model Four-Year Plan

The normal course load is 15 semester hours (5 classes). By following the model below, a student will complete all lower division core requirements by the end of the sophomore year as well as ASPA major prerequisites. Note that core areas are suggested to provide a distribution of various disciplines every semester. Please be flexible implementing these suggestions, given your own interests and course availability. In four years, this plan meets all common graduation requirements.

Students may take no more than ten upper division courses in any one department, except for Philosophy, in which the maximum is thirteen.

Upper Division Electives**Bellarmine College of Liberal Arts:**

APAM 371	Asian American Literature
APAM 417	Contemporary Issues of Asian Pacific Americans
APAM 427	Asian American Psychology
HIST 482	Imperial China
HIST 483	Modern China
HIST 485	Modern Japan
HIST 580	Seminar in Asian History
PHIL 365	Chinese Philosophy
PHIL 429	Topics in Chinese Philosophy
POLS 355	Politics of Asia
THST 382	Religions of India
THST 384	Religions of East Asia
THST 385	Buddhism
THST 480	Topics in Comparative Theology

College of Communication and Fine Arts:

ARHS 320	The Arts of Islam
ARHS 321	Arts of Asia: Zen
ARHS 420	Arts of Early India
ARHS 421	Arts of Later India
ARHS 425	Arts of China
ARHS 428	Arts of Japan
DANC 371	Martial Arts (2 semester hours)
DANC 372	Martial Arts in China (2 semester hours)
DANC 374	Yoga (2 semester hours)
MUSC 403	Music of Indonesia
MUSC 404	Music of India
MUSC 454	World Music: Small Ensemble
MUSC 455	World Music: Large Ensemble
THEA 348	Asian Spirit in Drama

College of Business Administration:

FNCE 4470	Multinationals and the Third World
INBA 3810	International Business
MRKT 3550	Marketing and Selling Travel and Tourism

Credit is contingent upon substantial work on Asia and/or the Pacific. Check for course prerequisites or requirements.

Additionally, courses in BLAW, ECON, FNCE, MGMT, MRKT, and POLS with an international focus and courses in DANC, ENGL, and MUSC with a world focus and that have substantial work on Asia and/or the Pacific may fulfill upper division hours in the major or minor. Please consult with the Director.

In all cases, check for course prerequisites or requirements.

Assistant Professor: Curtiss Takada Rooks

Objectives

Asian Pacific American Studies (APAM) is a program that supports Loyola Marymount's commitment to multicultural education. APAM grew out of

the Asian Pacific Studies Program (ASPA) in 1992. While ASPA focuses on the traditions and cultures of Asia and the Pacific, APAM is designed to enhance student understanding of the history and contemporary issues that impact the lives of Asian Pacific Americans in the United States. A minor in APAM is available at LMU.

People of all races and ethnicities are encouraged to enroll in APAM courses. Only through a critical understanding of our multicultural society can we begin to "live together, learn together, work together, and forge new ties that bind together."

Asian Pacific American Studies Student Learning Outcomes

- A greater understanding of the historical contributions of Asian Pacific Americans
- A more critical understanding of contemporary issues facing the Asian Pacific American communities
- A deeper appreciation of the ethnic, class, gender, and generation diversity of Asian Pacific Americans
- A greater appreciation of Asian Pacific American cultural, literary, and artistic expressions

APAM Minor Requirements

18 semester hours

APAM 117
APAM 500
APAM Upper Division (12 semester hours required)

Note: Other courses may be approved with the consent of the Director.

The Bioethics Institute

Faculty

Acting Chairperson: Juan Mah y Busch

Mission Statement

The graduate program in bioethics at Loyola Marymount University is a distinctive program of studies leading to the Master of Arts degree. It seeks to provide graduate educational opportunities that will enable students to reflect systematically on contemporary issues in bioethics and healthcare principally through the prism of the intellectual heritage of the Roman Catholic philosophical and theological tradition. It also seeks to promote an awareness of social justice in the delivery of healthcare. The Master's program is multidisciplinary and encourages learning and thinking from an interdisciplinary perspective, and it fosters the critical analysis of bioethical topics through the interplay between moral theory and medical practice. For those interested in pursuing a Ph.D. in bioethics, it will prepare them well to enter into a doctoral program at another institution. No applicants currently are being accepted to this Master of Arts program as it undergoes revisions.

Contact Information

Acting Chairperson: Juan Mah y Busch

E-mail: jmahybus@lmu.edu

Telephone: 310.338.4453

Office Location: University Hall 3865

Website: www.lmu.edu/bioethics

Administrative Assistant: Elizabeth M. Faulkner

Telephone: 310.338.5728

E-mail: Elizabeth.Faulkner@lmu.edu

Admission Requirements

No applicants currently are being accepted to this Master of Arts program as it undergoes revisions.

Students may take graduate courses in non-degree status with permission of the Graduate Director and the Professor.

Financial Assistance

Graduate Research Assistantships are available and are awarded normally for a two-year period to full-time graduate students. Some scholarship funds are available to part-time students. A number of on-campus jobs are available by application, as well.

Degree Requirements

Required Core Courses in Bioethics: 15 semester hours

BIOE 600	Methodological Issues in Bioethics
BIOE 610	Theological Issues in Bioethics
BIOE 620	Jurisprudence & Healthcare Law
BIOE 630	Topics in Bioethics
BIOE 640	Clinical Bioethics and Religious Traditions

Required General Ethics Courses: 6 semester hours

BIOE 660	Ethical Theories in Bioethics
	or
PHIL 678	Ethics
BIOE 670	Foundations of Theological Ethics
	or
THST 660	Foundations of Christian Moral Life

Elective Courses: 9 semester hours

These courses may be taken in any allied graduate department at LMU, e.g., Theological Studies or Philosophy, or up to six credits at another university with the approval of the Graduate Director.

BIOE 650 Introduction to Clinical Medicine
(Students who do not have a sufficient background in clinical medicine/nursing must take this course as one of their electives.)

Learning Outcomes of the M.A. Program in Bioethics

Upon successful completion of the MA in bioethics, students:

- Will be able to understand the basic problems, methods, and approaches to the field of bioethics
- Will familiarize with the main ethical theories of bioethics and identify the philosophical components of the public discussion on bioethical issues
- Will be able to engage in the critical analysis of bioethical questions and articulate their theoretical and practical dimensions
- Will be able to recognize and interpret the theological presuppositions of bioethical questions and appreciate the contribution of religious traditions to the field of bioethics
- Will appreciate the importance of ethical dialogue across different philosophical and religious traditions
- Will become familiar with the clinical context of medicine and recognize the ethical challenges facing health care professionals and their patients today
- Will become familiar with the research context of medicine, especially in the area of genetics, and recognize the ethical challenges facing scientists and society at large
- Will understand the legal and public policy implications of bioethics and become able to understand the interplay of morality and law both at a general level and in relation to specific bioethical issues

Graduate Certificate in Bioethics

The Graduate Certificate in Bioethics offers distinctive program to prepare health care professionals (e.g., physicians, nurses, clinical social workers, pastoral care personnel, hospital administrators, etc.) to serve on a medical center bioethics committee. The program also prepares individuals to deal with the complexities of bioethical issues arising in clinical practice and to become leaders in decision-making about bioethical problems in their respective institutions. No applicants currently are being accepted to this Graduate Certificate program as it undergoes revisions.

Admission Requirements

No applicants currently are being accepted to this Graduate Certificate program as it undergoes revisions.

Program Requirements

General Concentration in Bioethics

Required Courses (3)

BIOE 595	Survey Course in Bioethics
BIOE 620	Jurisprudence and Health Care Law
BIOE 600	Methodological Issues in Bioethics
	or
BIOE 660	Ethical Theories in Bioethics

Elective Course (1)

One of the following courses:

BIOE 604	Medical Anthropology and Bioethics
BIOE 610	Theological Issues in Bioethics
BIOE 633	Social Justice and Bioethics
BIOE 635	Organizational Ethics and Health Care

Concentration in Catholic Bioethics

Required Courses (3)

BIOE 595	Survey Course in Bioethics
BIOE 620	Jurisprudence and Health Care Law
BIOE 670	Foundations of Theological Ethics

Elective Course (1)

One of the following courses:

BIOE 600	Methodological Issues in Bioethics
BIOE 604	Medical Anthropology and Bioethics
BIOE 610	Theological Issues in Bioethics
BIOE 633	Social Justice and Bioethics
BIOE 635	Organizational Ethics and Health Care
BIOE 660	Ethical Theories in Bioethics

Catholic Studies

Director

Dorian Llywelyn, S.J.

Objectives

Catholic Studies is an academic interdisciplinary minor program designed to expose students to the study of the intellectual, social, cultural, and spiritual expressions of Catholicism. It is grounded in Vatican II's discussion of the Church in the modern world, with its focus on human culture, dignity, and justice. On the one hand, Catholic Studies' interdisciplinary nature mirrors the complex diversity that is Catholicism, as it intersects and interacts with history and culture. On the other hand, its intellectual and academic focus gives it purpose and direction as a program intent on studying, exploring, critiquing, and understanding the relationship between faith and culture. Therefore, it welcomes students and professors from any religious background and/or faith commitment and viewpoints.

Catholic Studies' students pursue such issues as the influence of Catholicism upon the development of philosophy and the arts; the relationship between Catholicism and the history of world civilizations; the intellectual and ethical issues raised by the interactions of theology, science, and modern culture; Catholic social thought and practice; and the theological foundations of Catholicism. In addition, it offers students opportunities to explore the Ignatian tradition that grounds LMU's founding orders, the Society of Jesus and the Religious of the Sacred Heart of Mary. Moreover, it also makes available opportunities for community service and spiritual activities, expressions of the University's commitment to a faith that does justice. Catholic Studies celebrates Catholicism as a living heritage.

Faculty from a number of LMU's departments, schools, and colleges teach courses cross-listed with Catholic Studies.

Catholic Studies Student Learning Outcomes

1. Students minoring in Catholic Studies will be given opportunities to learn about Catholicism as an intellectual, social, spiritual, and cultural tradition within the history of ideas.
2. Students minoring in Catholic Studies will be given opportunities to develop
 - a. their ability to do scholarly work on various topics having to do with Catholicism, ranging from theology and philosophy to the creative and critical arts, the humanities, business, and the social and natural sciences
 - b. their ability to appreciate and evaluate Catholic contributions to and expressions in all fields of learning
 - c. their ability to make connections among the many disciplines focusing on Catholicism
3. Students minoring in Catholic Studies will be encouraged to examine and value the distinctive contribution of Catholicism to world civilization.
4. Students minoring in Catholic Studies will be able to draw on their own experience and insights to further their self-reflection.

CATH Minor Requirements

The Catholic Studies minor program consists of 18 semester hours, with at least 12 being upper division, structured as follows:

- A. Foundational course: CATH/THST 122: Theological Foundations of Catholicism (3 semester hours).
- B. Faith and Culture (3 semester hours upper division): One course that explores Catholicism as an intellectual, social, spiritual, and/or cultural tradition within the history of ideas.
- C. Critical/Creative Arts (3 semester hours upper division): One course that critically explores the interplay between Catholicism and the arts or one course that allows students to explore and express Catholic faith creatively.
- D. Additional CATH (6 semester hours, at least 3 being upper division).
- E. Capstone: CATH 490 Seminar in Catholic Studies (3 semester hours).

A service-learning course with a Catholic focus would replace any one course from the Faith and Culture and Creative/Critical Arts categories.

Chicana/o Studies

Faculty

Chairperson: KarenMary Davalos

Professors: Deena J. González, Fernando J. Guerra

Associate Professor: KarenMary Davalos

Assistant Professor: Eliza Rodriguez y Gibson

Objectives

The interdisciplinary Chicana/o Studies curriculum is designed to enhance student understanding of the unique influence of the Chicano/Latino community in the United States. It is the belief of the Department that a liberal arts education should expose students to as many cultures and perspectives as possible. This exposure emphasizes the following aspects of the goals of the University: the encouragement of learning, the education of the whole person, the service of faith, and the promotion of justice. The goals of Chicana/o Studies have a special meaning given the significant historical and contemporary presence of Mexican and Chicana/o peoples in Los Angeles. Chicana/o Studies courses attempt to prepare all students to live in and contribute to a society which is increasingly diverse.

Chicana/o Studies Student Learning Outcomes

At the end of a course of study, in the major or minor in Chicana/o Studies, students will be able to:

- Interpret, define, and evaluate historical and contemporary information about Mexican-origin people living in the U.S.;
- Use and apply humanistic, scientific, and/or social science methods to arrive at understandings about Chicana/os;
- Compare and contrast recent theories, methodologies, ideas, and developments central to the discipline of Chicana/o Studies.

Major Requirements

Lower Division Requirements:

9 semester hours
 CHST 116
 CHST 126
 CHST 206

Upper Division Requirements:

24 semester hours: 12 semester hours in upper division requirements (CHST 302 or 404, 332, 360, and 500) and 12 semester hours in Chicana/o Studies upper division electives.

Minor Requirements

18 semester hours: CHST 116, 206, 302 or 404, 360, 500, and one additional Chicana/o Studies upper division course.

Chicana/o Studies Model Four-Year Plan

The normal course load is 15 semester hours (5 classes). Note that core areas are suggested to provide a distribution of various disciplines every semester. Please be flexible implementing these suggestions, given your own interests and course availability. In four years, this plan meets all common graduation requirements.

15

Students may take no more than **ten upper division** courses in any one department, except for Philosophy, in which the maximum is thirteen.

Recommended Electives

For the purpose of providing our majors and minors with an interdisciplinary perspective, the Department recommends courses in American Cultures Studies that include a Latino component, as well as the following courses:

GEOG 361	Geography of Mexico and Central America
POLS 354	Politics of Latin America
PSYC 320	Psychology of Race, Culture, and Ethnicity
SOCL 334	Race and Ethnic Relations
SOCL 336	Social Stratification
SPAN 441	Latin American Novel
SPAN 442	Latin American Poetry
SPAN 443	Latin American Women Writers
SPAN 444	Latin American Drama
THST 346	The Latino Experience in the U.S. Church

Classics and Archaeology**Faculty**

Chairperson: Matthew Dillon

Professors: Matthew Dillon, William J. Fulco, S.J. (National Endowment for the Humanities Professor of Ancient Mediterranean Studies)

Associate Professor: Katerina Zacharia

Objectives

The Department of Classics and Archaeology seeks to provide the student with a deeper understanding of the literary and cultural foundations of western societies by exploring their roots in the Greek and Roman classical traditions. Our archaeological offerings extend these investigations of early European cultures into their Near Eastern background and include the hands-on study of ancient artifacts. The combined study of the languages, literature, religion, and material cultures of ancient Greece, Rome, and the Near East offers the student a wide-ranging and well-rounded preparation in critical thinking, analytic skills, and writing and prepares the student to contextualize the immense achievements of the past in the modern world. Because of the broad humanistic nature of the programs in Classics and Archaeology, there emerge fundamental questions about what it means to be a human being, and thus the courses in the department offer many interdisciplinary connections with philosophy, theological studies, history, theater, and other academic fields.

Classics and Archaeology Student Learning Outcomes

As a Classics major, the student will:

- Master the grammar and syntax of ancient Greek and Latin, and be able to read ancient literary works at an advanced level
- Be able to critically analyze Greek and Roman literature and to place them in social and historical contexts both ancient and modern
- Develop writing, research, and communication skills, which are articulate, thoughtful, and effective.

As a Classical Civilizations major, the student will:

- Demonstrate a broad knowledge about ancient Mediterranean cultures, including areas such as history, literature in the original or in translation), language (optional, but recommended), art, and archaeology
- Be able to critically analyze the cultures of Greece, Rome, or the ancient Near East and to place them in social and historical contexts both ancient and modern

15

- Develop writing, research, and communication skills, which are articulate, thoughtful, and effective.

As a Greek major, the student will:

- Master the grammar and syntax of ancient Greek, and be able to read ancient literary works at an advanced level
- Be able to critically analyze Greek literature and to place it in social and historical contexts both ancient and modern
- Develop writing, research, and communication skills, which are articulate, thoughtful, and effective.

As a Latin major, the student will:

- Master the grammar and syntax of classical Latin, and be able to read ancient literary works at an advanced level
- Be able to critically analyze Latin literature and to place it in social and historical contexts both ancient and modern
- Develop writing, research, and communication skills, which are articulate, thoughtful, and effective.

Major Programs

The Department of Classics and Archaeology offers a variety of majors: Classics, Greek, Latin, and Classical Civilizations. The Classics major offers a traditional training in both Greek and Latin language and literature (in the original), although students may opt to major exclusively in Greek or Latin. The Classical Civilizations major allows the student to study the cultures of Greece, Rome, and the Near East from various cultural perspectives in conjunction with other departments; in this major, language study is encouraged but not required.

At entry to the University, students declare the major/minor through the Office of Admission. LMU students wishing to declare the major/minor must meet with the chair/program director. The chair/director would ordinarily sign the student's Change of Program form, provided the student meets certain academic standards that include having a minimum LMU GPA of 2.0 (C) and not otherwise being on academic probation.

Classics Major: Requirements

Lower Division (18 semester hours):

LATN 101, 102, and 201.

GREK 101, 102, and 201.

These requirements may be waived if the student has received prior language sufficient for entry into upper division courses.

Note: It is recommended that Classics majors take HIST 100 as part of the University Core.

Upper Division Requirements (24 semester hours):

GREK 311

LATN 312

LATN 321

and one additional upper division course in GREK or LATN and one additional upper division course in CLCV or ARCH.

Any 3 courses in GREK, LATN, CLCV, or ARCH.

Graduation with Honors: an additional 3 semester hours

CLCV 500: Senior Thesis

Classics Minor: Requirements

18 semester hours, at least 9 in upper division. All courses must be in Greek and/or Latin Language and Literature. Students who test out of lower division language courses will fulfill 18 semester hours in the upper division.

Upper Division Requirements:

GREK 311 or LATN 313 or 314

Classical Civilizations Major: Requirements

The Classical Civilizations major is an interdisciplinary program focusing on the classical civilizations of Greece, Rome, and the Near East through the study of literature, history, archaeology, art history, philosophy, theatre, and theology. Greek and/or Latin language study is encouraged but not required.

The Classical Civilizations major consists of 33 semester hours, at least 24 of which must be in upper division courses emphasizing Greek, Roman, or Near Eastern civilization. The study of the Greek and/or Latin language is highly recommended.

Lower Division Requirements (9 semester hours):

CLCV 200

CLCV 210 or CLCV 220

CLCV 230

Note: It is recommended that HIST 100 be taken as the core class in Western Civilization.

Upper Division Requirements (24 semester hours):

CLCV 301 or 302

CLCV 451

ARCH 3xx or ARCH 4xx

The remaining 15 semester hours may be elected from any upper division CLCV, LATN, GREK, and ARCH offerings. In addition, the following courses may be taken as part of the Classical Civilizations major, with the approval of the Director of the major:

HIST 405, 406, 407, 408, 410, 411

PHIL 381, 382

THEA 331

THST 320

Graduation with Honors: an additional 3 semester hours

CLCV 500: Senior Thesis

Classical Civilizations Minor: Requirements

18 semester hours, at least 9 in the upper division.

Lower Division Requirement:

CLCV 200 or CLCV 210

Upper Division Requirement:

CLCV 451

Archaeology Minor: Requirements

The minor in Archaeology consists of ARCH 401 and 15 additional semester hours, of which 6 may be in courses in an appropriate Mediterranean language (e.g., ancient or modern Greek, Latin, Hebrew, or Arabic, or a Romance language if it is relevant to a particular archaeological emphasis).

Greek Major: Requirements

Lower Division:

GREK 101, 102, 201;

Note: These requirements may be waived if the student has received prior language sufficient for entry into upper division courses.

Upper Division (24 semester hours):

GREK 311

GREK 312

GREK 322, 325, or 327

and an additional 15 semester hours of upper division GREK

Graduation with Honors: an additional 3 semester hours

CLCV 500: Senior Thesis

Greek Minor: Requirements

18 semester hours, at least 9 in the upper division.

Lower Division Requirements:

GREK 101, 102, 201

Note: Students who test out of lower division language courses will fulfill 18 semester hours of upper division work in Greek language and literature.

Upper Division Requirements:

GREK 311 or 312

GREK 322 or 325 or 327

Latin Major: Requirements

Lower Division Requirements:

LATN 101, 102, 201

Note: These requirements may be waived if the student has received prior language sufficient for entry into upper division courses.

Upper Division Requirements (24 semester hours):

LATN 312

LATN 313 or 314

LATN 321

and an additional 15 semester hours of upper division LATN

Graduation with Honors: an additional 3 semester hours

CLCV 500: Senior Thesis

Latin Minor: Requirements

18 semester hours, at least 9 in the upper division.

Lower Division Requirements:

LATN 101, 102, 201

Note: Students who test out of lower division language courses will fulfill 18 semester hours of upper division work in Latin language and literature.

Upper Division Requirements:

LATN 312

LATN 321

Graduation with Honors: an additional 3 semester hours

CLCV 500: Senior Thesis

For Graduation with Honors in Classics, Classical Civilizations, Latin, or Greek, the student must have a minimum GPA of 3.3 within the major, enroll in CLCV 500: Senior Thesis, and receive at least a grade of B+ (3.3) on that project. A thesis prospectus must be approved in the previous semester by the faculty member who will oversee the project.

For the minor in Modern Greek Studies, see below.

Classics Model Four-Year Plan

The normal course load is 15 semester hours (5 classes). By following the model below, a student will complete all lower division core requirements by the end of the sophomore year as well as most major prerequisites. Note that core areas are suggested to provide a distribution of various disciplines every semester. Please be flexible implementing these suggestions, given your own interests and course availability. In four years, this plan meets all common graduation requirements.

Students may take no more than ten upper division courses in any one department, except for Philosophy, in which the maximum is thirteen.

Latin Model Four-Year Plan

The normal course load is 15 semester hours (5 classes). By following the model below, a student will complete all lower division core requirements by the end of the sophomore year as well as most major prerequisites. Note that core areas are suggested to provide a distribution of various disciplines every semester. Please be flexible implementing

these suggestions, given your own interests and course availability. In four years, this plan meets all common graduation requirements.

Students may take no more than ten upper division courses in any one department, except for Philosophy, in which the maximum is thirteen.

Modern Greek

Objectives

The Modern Greek Studies Program offers students the opportunity to study Modern Greece—its language, literature, history (from the Byzantine Empire to the present), its Christian Orthodox tradition, and its arts. Modern Greek Studies on the LMU campus may be supplemented by the Summer Study Abroad courses of The Odyssey Program.

Minor Program

The minor in Modern Greek Studies consists of 18 semester hours, of which at least 6 hours must be at the 300 or 400 level. The following distribution is recommended, with the approval of the Director of the minor:

9 semester hours of Modern Greek language instruction;

3-6 semester hours from upper division MDGK courses;

3-6 semester hours from the following: CLCV 230, 301, 451; HIST 410, 450; THST 322, 352.

Other Courses

Note: The Basil P. Caloyeras Center also sponsors the following courses with other departments:

CLCV 304	Art and Architecture of Ancient Greece
DANC 390	Dances of Greece
HIST 410	History of the Byzantine Empire

Economics

Faculty

Acting Chairperson: Joseph E. Earley

Professors: James Devine, James Konow, Seid Zekavat

Associate Professors: Joseph E. Earley, Zaki Eusufzai, Robert Singleton, Renate Thimester

Assistant Professors: Sean D'Evelyn, Andrew J. Healy, Dorothea K. Herreiner, Jennifer Pate

Objectives

The study of economics illuminates both the limitations and successes of different systems of the production, distribution, and consumption of material wealth. Because of the economy's importance to the human condition, economic knowledge is useful to many other fields, such as political science, sociology, anthropology, law, and history. It, thus, is as central to a liberal arts education as it is to the business program.

The study of economics involves (1) the development of theories of economic behavior and their application to new problems; (2) the use of statistics and other evidence to test or add content to existing theories; (3) the development of perspective on economic institutions, economic history, and the development of economic philosophy. Students are encouraged to engage in independent research on all of these levels.

The goal of the program is to provide the student with the best preparation for employment in business, government, or secondary education, or for continuation to graduate studies in business, law, or economics, leading to careers in management, banking, finance, law, government, or academia.

Economics Student Learning Outcomes

- Students should demonstrate a solid understanding of modern microeconomics, macroeconomics, and statistics, includ-

ing the dominant theories of decision-making, markets, and the macro-economy;

- Students should be able to think analytically using both the verbal and quantitative tools commonly employed in economics and to apply those tools to solve both theoretical as well as practical real world problems;
- Students should appreciate the importance of economics in human endeavors and the value of rigorous economic training for evaluating social phenomena; they should understand the ethical concerns that underlie economic policy, including efficiency and equity.

Major Requirements

Students may pursue either a Bachelor of Arts (B.A.) or Bachelor of Science (B.S.) degree. The specific requirements of these degrees are explained below.

Bachelor of Arts (B.A. Economics)

This degree is suitable for pre-law students or those interested in careers in education; urban planning; and federal, state, and local government.

Lower Division Requirements:

Economics requirements (6-9 semester hours): ECON 110 and 120, or 105, and ECON 230 or 235. A grade of at least B- (2.7) is required in each of these courses.

Mathematics requirements (6 to 8 semester hours): The mathematics requirement for economics may be satisfied with one of two plans, Plan A or Plan B:

Plan A: Two courses from MATH 120, 131, 132, and 234. A grade of at least C (2.0) is required in each of these two courses.

Plan B: MATH 111 and 112. A grade of at least B- (2.7) is required in each of these courses.

Students are strongly encouraged to follow Plan A and to take additional mathematics courses beyond these basic requirements in consultation with their economics advisor.

Upper Division Requirements (24 semester hours):

Eight upper division economics courses. A grade of at least C- must be obtained in every upper division course in the major, and the average grade in upper division economics courses must be at least C (2.0). Three theory courses are required: ECON 310, 320, and 410. These courses should be taken by the junior year, although well-prepared students can take them in their sophomore year. Five additional upper division economics courses are required, of which at least two (6 semester hours) must be at the 400 level. No more than 30 semester hours of upper division economics may count toward the degree requirement of 120 hours. Upper division economics courses must be taken in the LMU Economics Department, except by prior permission of the Chairperson.

Bachelor of Science (B.S. Economics)

The Bachelor of Science degree is suitable for students who 1) wish to continue to graduate school in economics or business (especially finance), 2) are particularly interested in statistics or forecasting, or 3) are interested in any of the careers mentioned for the B.A. degree but who desire a more quantitative preparation. The B.S. degree has the same requirements as the B.A. degree, except for two upper division economics course requirements. Specifically, the B.S. degree additionally requires Mathematics for Economics (ECON 530) and Econometrics (ECON 532).

Students who intend to earn the B.S. degree must submit a Change of Program form to the Office of the Registrar.

Lower Division Requirements:

These requirements are the same as for the B.A. Economics degree. Students pursuing the B.S. Economics degree, however, are strongly advised to follow Plan A for the mathematics requirements and to take additional mathematics courses beyond this sequence in consultation with their economics advisor.

Upper Division Requirements (24 semester hours):

Eight upper division economics courses. A grade of at least C- must be obtained in every upper division course in the major, and the average grade in upper division economics courses must be at least C (2.0). In addition to ECON 310, 320, and 410, students are required to take ECON 530 and 532. Three additional upper division econom-

ics courses are required, of which at least two (6 semester hours) must be at the 400 level. No more than 30 semester hours of upper division economics may count toward the degree requirement of 120 hours. Upper division economics courses must be taken in the LMU Economics Department, except by prior permission of the Chairperson.

Bachelor of Arts (B.A. Economics) with an International Emphasis

At least eight upper division economics courses are needed for the B.A. degree in Economics with an International emphasis, although students can take up to ten. A grade of at least C- must be obtained in every upper division course in the major, and the average grade in upper division economics courses must be at least C (2.0). Six of these courses are required: ECON 310, 320, 370, 372, 410, and 474. ECON 310 and 320 should be taken in the sophomore or junior year, and ECON 370, 372, 410, and 474 should be taken in the junior or senior year. Two additional upper division economics courses are required, of which at least one (3 semester hours) must be at the 400 level. Upper division economics courses must be taken in the LMU Economics Department, except by prior permission of the Chairperson. The B.A. degree with an International emphasis is suitable for students who intend to pursue careers in international agencies of government, NGO, and private corporations doing business in the international arena.

Business and Economics Double Major Requirements

Students with majors in business may also pursue a major in economics by fulfilling the requirements of the B.A. or B.S. track described above. With prior permission of the Department, double majors in Business and Economics may select two upper division Business Administration courses as part of their economics electives.

Minor Requirements

18 semester hours consisting of ECON 110, 120, and four upper division ECON courses, or ECON 105 and five upper division ECON courses. The upper division courses should be chosen in consultation with an economics advisor. A grade of at least B- (2.7) is required in ECON 110 and 120, or 105.

Assessment Tests

All Economics majors are required to take two tests of learning, one at the end of their freshman year, and another at the end of their senior year. These tests do not determine any grade, but they are required for graduation. In addition, students with the highest scores receive an award and cash prizes, which are bestowed at the Department's annual year-end banquet.

Test of Introductory Economics

During the Spring semester, all Economics majors who have taken ECON 105, 110, or 120 during that academic year are required to take a test of learning of introductory economics.

Comprehensive Test of Economics

All Economics majors who will have completed 100 hours or more by the end of the Spring semester are required to enroll in ECON 490. This is a zero semester hour course, required for graduation, which includes a comprehensive test of economics, a senior exit interview, and possible additional Department evaluation.

Entry into the Major or Minor

At entry to the University, students declare the major or minor through the Office of Admission. Currently enrolled LMU students wishing to declare the major or minor in Economics must meet with an advisor of the Economics Department. The advisor will sign the student's Change of Program form, provided the student meets certain academic standards that include having a minimum LMU GPA of 2.0 (C), not otherwise being on academic probation, and having passed any economics or mathematics courses that he/she might have already taken with grades that satisfy the minimum requirements for those courses in the major or minor as outlined in the University Bulletin.

Economics Model Four-Year Plan

The normal course load is 15 semester hours (5 classes). By following the model below, a student will complete all lower division core requirements by the end of the sophomore year as well as most major prerequisites. Note that core areas are suggested to provide a distribution of

various disciplines every semester. Please be flexible implementing these suggestions, given your own interests and course availability. In four years, this plan meets all common graduation requirements.

English Graduate Program

Mission Statement

The Department of English at Loyola Marymount University offers a Master of Arts degree in English with a Literature Emphasis, a Master of Arts degree in English with a Creative Writing Emphasis, and a Master of Arts degree in English with a Rhetoric and Composition Emphasis. We are committed to the interdependence between literature and writing. We believe that the act of engaging the literary and rhetorical fields involves the production of literary, critical, or theoretical texts, and that broad-based reading in the tradition of literature provides the necessary foundation for more focused study and analysis. Therefore, we offer Literature Emphasis, Creative Writing Emphasis, and Rhetoric and Composition Emphasis students an introduction to graduate scholarship within a range of possible critical, rhetorical, and creative modes, while offering the intellectual background and literary study which makes their course of study both theoretically and historically self-conscious.

All emphases within the M.A. program address the needs of a diverse student population; those going on to doctoral programs in literature, literary theory, rhetoric, or creative writing; those pursuing literary or commercial writing careers; those teaching in high schools and community colleges.

Admission Requirements

1. The applicant for the degree of Master of Arts in English should have completed with a 3.0 ("B") average a minimum of seven upper division undergraduate English courses. For applicants to the Literature Emphasis, at least six of these courses should be in literature, including one in Shakespeare. For applicants to the Creative Writing Emphasis, at least two of these courses should be in creative writing and at least four in literature, including one in Shakespeare. Applicants to the Rhetoric/Composition Emphasis should have undergraduate preparation in literature and theory, and/or creative, and/or professional writing courses. Any undergraduate preparation in Rhetoric or Composition, linguistics or peer tutoring/writing lab experience is welcomed though not required.
Any deficiency in grades or course work in undergraduate preparation will require that prerequisite courses at the undergraduate level be taken before work on the ten courses for the Master's degree may be begun. No course at the 600 level may be taken before the prerequisites are completed. A 600-level course taken before the completion of the prerequisite may be counted toward neither the prerequisites nor the requirements for the Master's degree.
2. Applicants must submit an application, \$50 application fee, and two letters of recommendation. Recommendations should be obtained from individuals who are in a position to comment on the applicant's academic and personal suitability for pursuing graduate work in English.
3. Applicants should write an ambition statement (1½–2 pages) in which they indicate which emphasis (Literature, Creative Writing, Rhetoric/Composition) they wish to enter. Applicants should also discuss relevant prior experiences (i.e., academic, research work, creative writing, or other life experiences) and their career goals. This statement should be included with the basic application.
4. A 10–15 page writing sample is required of all applicants. Applicants to the Literature or Rhetoric/Composition Emphasis should submit a sample of their critical writing; applicants to the Creative Writing Emphasis should submit samples of their creative writing and critical writing.
5. The General Test of the Graduate Record Examination (GRE) is a prerequisite requirement for all applicants. A score of 600 or higher on the Verbal component of the test is highly recommended.
6. The deadline for the receipt of all materials is April 1.

Teaching Fellowships

Students applying for Teaching Fellowships are asked to include, along with their application materials, the following: a resume or c.v.; a letter of application for the Teaching Fellowship; and two letters of recommendation which specifically address their potential abilities as teachers of College Writing. These letters are in addition to letters submitted for admission to the M.A. program.

Rains Research Assistantships

Rains Research Assistantships are available to qualified graduate students by invitation of individual faculty members. These assistantships are paid at \$12 per hour for a maximum of 120 hours per academic year. Teaching Fellows are not eligible for Rains Research Assistantships due to federal government financial aid restrictions.

Graduate Assistantships

Graduate Assistantships are also available. Students who qualify would work an average of 20 hours per week during the regular semesters. The rate of pay is about \$18.00 per hour.

Degree Requirements

Work for the degree of Master of Arts in English includes a minimum of 10 courses (30 semester hours) plus the Comprehensive Examination (0 semester hours). Courses selected must be approved by the Director of the Graduate English program. For the completion of the Master of Arts in English, all students are required to take Critical Methodology (in the first semester), Contemporary Critical Theory (in the first year) and a Major Writer Seminar. In addition, we strongly suggest that students take courses in as many of the following areas as possible: 1) Old English, Middle English, or Renaissance literature; 2) Restoration or 18th Century literature; 3) 19th Century or modern English literature; 4) American literature; and 5) a literary genre. Creative Writing students must take a Creative Thesis course after completing the prerequisite Creative Writing Seminars. All students must take at least four courses at the 600 level. Courses in the 500 group which receive a grade of "B-" or less will not count toward the degree.

LITERATURE EMPHASIS (Ten Courses)

Critical Methodology (1)
Contemporary Critical Theory (1)
Major Writer (1)
Literature and Theory Electives (5-7)
Creative Writing Seminar (0-2)

CREATIVE WRITING EMPHASIS (Ten Courses)

Critical Methodology (1)
Contemporary Critical Theory (1)
Major Writer (1)
Creative Writing Seminar (3-4)
Literature and Theory Electives (2-3)
Creative Thesis (1)
(At least 2-3 of the elective courses should be in literature or cross-listed as literature.)

RHETORIC AND COMPOSITION EMPHASIS (Ten Courses)

Critical Methodology (1)
Contemporary Critical Theory (1)
Major Writer (1)
Literature and Theory Electives (3)
Rhetoric and Composition Theory and Practice (3)
Linguistics or Reading Theory (1)
(At least 2 of the elective courses should be literature or cross-listed as literature.)

ENGL 691 Comprehensive Examination (0 sem. hrs.)

The Comprehensive Examination will be based on a reading list including major works in English and American literature, literary theory, and/or rhetorical theory.

The Comprehensive Examination will consist of a three-hour written examination, followed within two weeks by an oral examination.

Students are urged to familiarize themselves with the details of procedures that are described in the Graduate Handbook available from the Department website.

Foreign Language Requirement

Applicants for the degree of Master of Arts in English who wish a recommendation for doctoral work are encouraged to pass an examination designed to test their ability to translate materials pertaining to their field in either French, German, Spanish, or Latin.

Student Learning Outcomes

Students who complete the Master's Degree in English will:

- Master the terms and issues specific to the discipline and profession of literary studies.
- Understand the history and nature of the discipline and prepare for a future in academia or teaching.
- Master professional writing skills for tasks including book reviews, abstracts, short critical essays, and research projects.
- Have experience giving presentations and making submissions for professional publications and/or conferences.
- Engage critically and deeply with a range of literatures and literary theories.

English Undergraduate Program

English Department Mission

Believing that literature is a profound expression of human experience, the English Department uses a range of critical methods to introduce students to literatures in English from a variety of cultural traditions. The course work reveals the art form's creative beauty, strategies for representing the human experience, and its power to shape the reader.

The English Department encourages an understanding of the critical and creative union of reading and writing as fundamental to the processes of developing the self. Through their imaginations, students who major or minor in English interact with language and literature, thereby encountering another equally open and attentive mind: that of the writer they are reading or of the reader who comes to the work they have created. As students of the literary arts, English majors and minors prepare for a lifetime of reading and writing, enlightenment and fulfillment, learning to do what Toni Morrison describes as a dance of two minds.

A Note on the Core: English majors and minors must take a course to satisfy the University's core literature requirement, and this course is separate from and in addition to the courses taken to fulfill the English major and minor requirements.

English Student Learning Outcomes

English majors know:

- The history of literatures in the English language
- A variety of critical theories
- The range of creative choices made by the literary artist.

English majors are able to:

- Read literary texts closely and carefully
- Interpret analytically and innovatively using a variety of critical and theoretical approaches
- Write creatively and effectively
- Perceive and express the artistry, ideas, and social significance of language.

English majors value:

- The ways in which literature represents human experience
- The affect of literature on the artist and reader
- The artistry of precise and elegant expression.

Major Requirements

Please note that English majors may take no more than ten upper division English courses and have them count toward graduation.

A student wishing to declare the English major must be in good academic standing with a minimum GPA of C (2.0).

Lower Division Requirements for all emphases (12 semester hours):

ENGL 201 and either ENGL 200 or 202; ENGL 203 and 204.

A grade of C (2.0) is required in each premajor course before qualifying for upper division status as an English major. Students transferring into the Department after their sophomore year may enroll in upper division courses in the major concurrently with the premajor courses. Students must complete all upper division courses in the major with a minimum grade of C (2.0) in order to maintain status as English majors. Failure to maintain this standard or failure to make sufficient progress toward completion of the major will result in probation or disqualification from the Department.

Upper Division Requirements:

There are three programs for the major in English.

English majors should officially declare an emphasis no later than the first semester of their junior year.

I. The English Major: Literature Emphasis

27 semester hours in upper division courses. Up to six of these semester hours may be taken in writing classes.

Upper Division Requirements:

ENGL 321 or 322.

ENGL 371 or 372.

One course in English or American Literature prior to 1800 (excluding Shakespeare).

Two courses in English or American Literature after 1800.

One course in Theory (consult with your advisor).

One course in Comparative/Cultural Literatures or Writing (includes any course in multi-ethnic literature, gender-based literature, world literature, or foreign language literature in translation. Check with your advisor to determine which courses may be used to fulfill this requirement.)

6 additional upper division semester hours (excluding ENGL 402).

Total lower division and upper division: 39 semester hours

A minimum grade of C (2.0) must be obtained in each course in the major.

II. The English Major: Writing Emphasis

27 semester hours in upper division courses.

Upper Division Requirements:

ENGL 321 or 322.

ENGL 371 or 372.

One course in English or American Literature before or after 1800 (excluding Shakespeare).

Three upper division writing courses (excluding ENGL 402 and 569).

One course in Theory (consult with your advisor).

One course in Comparative/Cultural Literatures or Writing (includes any multi-ethnic writing or literature course, gender-based writing or literature course, world writing or literature course, or any foreign language literature course in translation. Check with your advisor to determine which courses may be used to fulfill this requirement.)

3 additional upper division semester hours (excluding ENGL 402).

Total lower division and upper division: 39 semester hours.

A minimum grade of C (2.0) must be obtained in each course in the major.

III. The English Major: Secondary Teacher Preparation Program for English

For information on this program, see the Secondary Teacher Preparation Program section in this Bulletin.

Minor Requirements

A student wishing to declare the English minor must be in good academic standing with a minimum GPA of C (2.0).

18 semester hours beyond 100-level courses, including:

ENGL 200, 201, or 202.

One survey course: ENGL 203, 204, 371, or 372.

One pre-1800 course [including Shakespeare] (if a student takes 203 or 371 to fulfill this requirement, then the student must take a second "survey" course from 203, 204, 371, or 372).

Nine upper division semester hours in English (excluding ENGL 402).

A minimum grade of C (2.0) must be obtained in each course in the minor.

Minor in Screenwriting for English Majors

The School of Film and Television offers a minor as an option to students majoring in the writing emphasis in the English Department. The minor consists of 18 semester hours. Check for the full description of the minor under the Screenwriting section of this Bulletin.

Pre-Journalism Curriculum

Although LMU doesn't offer a Journalism major or minor, a large number of LMU graduates have gone on to successful careers or graduate work in Journalism. These students, who have usually majored or minored in English or majored in Communication Studies, have taken advantage of a number of exciting LMU courses. (Note: Some of the courses you take for the Certificate may also be counted toward your major or minor in English, or your core.) These courses make up the LMU "Journalism Curriculum" and "Journalism Certificate" and are particularly recommended for students who intend pursuing a Masters or Ph.D. in Journalism, or who plan to work as a Freelance journalist, PR or Advertising professional, in corporate communications or for a newspaper or magazine. No students need complete all of the courses listed below, but a healthy sampling will stand a future journalist in good stead and will assist in admission to most graduate programs in journalism across the country. **The "certificate" appears as a line on the student's final transcript, and may be referenced in a student's resumé. (You will not receive a frameable certificate from the Office of the Registrar.)**

It is important to note that a working journalist often develops a specialization in a particular area, such as sports, entertainment, or politics. Elective courses in these areas would, of course, be useful. The Journalism Curriculum includes Political Science courses specifically since local, state, and national politics have an impact on most news, and politics is considered an important working knowledge base for any journalist. Ethics coursework from the Philosophy Department is also included, as ethics are a concern at the forefront of a career in Journalism. Interdisciplinary Applied Programs contributes a selection of PR coursework. **Students may elect one course from PHIL, or one course from POLS, or one course from IDAP courses listed. Five (5) Journalism Certificate courses must be selected from the English courses listed. Consult Dr. Linda Bannister to make sure your program fulfills the certificate requirements.**

Eligible Courses: Journalism Certificate

English Department Courses

ENGL 301	Writing for Journalism I: Workshop
ENGL 302	Writing the Article: Workshop
ENGL 304	Writing for Advertising
ENGL 381	Journalism and New Media
ENGL 401	Writing for Journalism II: Workshop
ENGL 402	Writing Internship in Media
ENGL 403	Non-Fiction Workshop
ENGL 405	Literary Non-Fiction Workshop
ENGL 406	Journalism: The Interview: Workshop
ENGL 407	Reviewing the Arts
ENGL 408	Journalism: Editing Workshop
ENGL 460	Hard News to Blogs: Post-1800 Journalism
ENGL 463	The Art of the Essay
ENGL 469	Practicum in Journalism I
ENGL 470	Practicum in Journalism II
ENGL 498	Writing the Feature
ENGL 498	Publishing a Journal
ENGL 498	Journalism and Society
ENGL 498	Writing the Moment: New Media
ENGL 498	Journalism: Telling L.A.'s Story
ENGL 498	Journalism: The Age of Content
ENGL 562	Contemporary Rhetorical Theory
ENGL 567	Style in Writing
ENGL 574	Rhetoric and Media
ENGL 575	The Art of Rhetoric

Interdisciplinary Applied Programs Courses

IDAP 300	Principles of Public Relations
IDAP 320	Broadcast Writing
IDAP 340	Video Production for Public Relations
IDAP 498	Writing for Public Relations
IDAP 498	Product PR: Classroom as an Agency

Philosophy Department Courses

PHIL 328	Media Ethics
PHIL 330	Contemporary Moral Problems

Political Science Department Courses

POLS 135	Contemporary American Politics
POLS 332	Campaigns and Elections
POLS 339	Media and Politics
POLS 385	Political Films and Media
POLS 423	Political Rhetoric
POLS 435	The Politics of California
POLS 436	Politics of Los Angeles

Selecting Courses

Students interested in assembling a Pre-Journalism Curriculum should review each semester's course offerings across the colleges, paying particular attention to special studies courses focusing on journalistic issues, media topics, or related fields. Students may consult with **Dr. Linda Bannister, Journalism Certificate Advisor**, (lbannist@lmu.edu, 310.338.2854, UH 3875), to determine which special or new courses may be appropriate. The Journalism Certificate eligible courses offered by the College of Communication and Fine Arts (IDAP courses) require the permission of Dr. Dean Scheibel, Director, Interdisciplinary Applied Programs (dscheibel@lmu.edu).

Note: Although there is no set sequence for taking Pre-Journalism courses, some of the above listed courses may carry prerequisite courses that must be completed first. Students interested in journalism are also strongly advised to participate in LMU's award-winning student newspaper The Los Angeles Loyolan, The Tower Yearbook, The ROAR Network, and/or The Marymount Institute Press.

Obtaining the Journalism Certificate

A Journalism Certificate can be issued to the students who successfully completes 18 semester hours of approved Journalism coursework (earning a C [2.0] or better in each course). The bulk of the student's curriculum, at least 5 of 6 courses selected, should consist of writing courses from the Journalism coursework offered by the English Department. **Students should bring a transcript showing 18 semester hours of accepted, completed coursework to Dr. Linda Bannister in University Hall 3875 at least one month prior to intended graduation with appropriate courses highlighted.** Notice of Certificate approval will be forwarded by e-mail to the Office of the Registrar and the student by Dr. Bannister. Students who seek a certificate can be advised on how to create a program that focuses on their area of interest; for example, political reporting, sports reporting, electronic media, etc.

Note: This certificate program is not a major or a minor. No application or Change of Program paperwork from the Office of the Registrar is required. You need only e-mail your interest to Dr. Bannister to sign up.

Get on our mailing list ASAP to learn of Journalism events on campus. E-mail your contact information (e-mail, cell, mailing address) to Dr. Bannister at lbannist@lmu.edu.

English Model Four-Year Plan

The normal course load is 15 semester hours (5 classes). By following the model below, a student will complete all lower division core requirements by the end of the sophomore year as well as most major prerequisites. Note that core areas are suggested to provide a distribution of various disciplines every semester. Please be flexible implementing these suggestions, given your own interests and course availability. In four years, this plan meets all common graduation requirements.

Freshman Year

Students may take no more than **ten upper division** courses in any one department, except for Philosophy, in which the maximum is thirteen.

Upper division courses are open to juniors and seniors only. With the permission of the Chairperson, ENGL 321, 322, 371, and 372 may be open to sophomores who have taken or are concurrently enrolled in the required lower division, pre-major English courses.

Environmental Studies**Director**

Brian Treanor

Objectives

The Environmental Studies Program offers an interdisciplinary minor designed to help students acquire an understanding of the complex issues and concerns associated with the environment. Building on courses in a variety of departments in the humanities, social sciences, and natural sciences, the Environmental Studies Program minor offers a coherent curriculum addressing some of the most pressing ecological, political, economic, social, and ethical programs of the contemporary world.

Students who minor in Environmental Studies will study issues such as: global climate change; resource management, including excessive consumption and the just distribution of resources; genetically modified crops and organisms; biodiversity; wilderness preservation; pollution pressures on the land, air, and sea; sustainable development; the rights or value of non-human animals and nature; energy production; population and consumption; the role of the environment in local, national, and international politics; international agencies and treaties addressing environmental issues; and environmental justice.

The Environmental Studies Program and its curriculum is dedicated to fostering a genuine spirit of interdisciplinary exchange, across both traditional disciplinary as well as college definitions. Faculty from a variety of departments, schools, and colleges may teach courses cross-listed in Environmental Studies, and students from across the University community will find an appropriate niche in the program through its intentionally interdisciplinary nature.

Environmental Studies Minor Student Learning Outcomes

Environmental Studies minor students will know:

- The primary environmental issues confronting humans in the 21st century (e.g., anthropogenic climate change, loss of biodiversity, resource consumption, peak oil, etc.).
- The fundamental science that frames and makes comprehensible current debates about environmental issues (e.g., the carbon cycle)
- How to assess and grasp the moral and ethical significance of environmental crises and the possible responses to those crises using multiple approaches or frames (e.g., utilitarian, deontological, intrinsic value, virtue theory, pragmatic, etc.)
- The practical challenges (e.g., political, economic, etc.) associated with various possible responses to environmental crises.

Environmental Studies minor students will be able to:

- Apply diverse perspectives and methodologies (ways) of addressing environmental questions (e.g., philosophical, economic, scientific, political, theological, etc.), transcending traditional disciplinary boundaries in favor of a more holistic perspective
- Apply the knowledge and analytic skills they have acquired in the course of their studies to real-world issues, bridging the supposed gap between theory and practice
- Demonstrate the ability to write, speak, and think clearly and critically about the issues studied in the minor.

Environmental Studies minor students will value:

- The diverse perspectives and values (e.g., political, cultural, religious, etc.) amongst the various stakeholders in environmental challenges
- The importance of good science in framing environmental questions
- The role of both a) personal transformation (e.g., lifestyle choices, consumptive dispositions, etc.) and b) social transformation (e.g., community involvement, political action, addressing environmental justice and environmental racism, etc.) in any response to environmental challenges.

Minor Requirements

The Environmental Studies minor consists of 21 semester hours. Both foundation courses are lower division, and the Capstone seminar is an upper division course. The four distribution courses may include one lower division course. Thus, the program allows for up to 9 semester hours of lower division work; the remaining 12 semester hours must come from upper division course offerings.

1. Foundations Courses: EVST 100: Introduction to Environmental Studies (3 semester hours) and NTLS 101: Introduction to Natural Science (3 semester hours)
2. Distribution Courses:
3. Capstone Course: EVST 401: Environmental Studies Capstone Seminar (3 semester hours)
4. Alternative courses can be substituted at the discretion of the Director.

Course Offerings

All courses are 3 semester hours.

I. Foundations Courses

EVST 100	Introduction to Environmental Studies
NTLS 101	Introduction to Natural Science

II. Humanities Distribution

PHIL 325	Environmental Ethics
PHIL 343	Environmental Philosophy
THST 387	World Religions and Ecology
THST 398	Special Studies [only if taught as Sacred Place]

III. Social Science Distribution

ECON 416	Environmental Economics
GEOG 100	Human Geography
SOCL 371	Social Ecology
URBN 345	Urban Planning

IV. Natural Science Distribution

BIOL 318	Principles of Ecology
ENVS 300	Engineering Geology
ENVS 320	Introduction to Environmental Engineering
NTLS 250	Earth Science
NTLS 272	Technology and the Environment
NTLS 298	Special Studies [only when taught as Principles of Sustainability]
NTLS 301	Environmental Science
NTLS 310	Oceanography
NTLS 320	Science, Theology, and the Future

V. Capstone Course

EVST 401	Environmental Studies Capstone Seminar
----------	--

Ethics

Director

W S K (Scott) Cameron

Objectives

In response to the need to address ethical issues in the various professions, the Philosophy Department, in conjunction with other departments in the different Colleges and Schools of the University, offers a minor in Ethics. Its main focus is to deepen and broaden the student's grasp of the theoretical foundations and practical applications of ethical thought. The Ethics minor will complement and support the student's studies by encouraging reflection on the ethical issues that arise in his or her major field of study.

The objectives of this program are: 1) to heighten the student's awareness of the pervasive moral dimensions of human experience; 2) to broaden and deepen the student's understanding of ethical theories and their foundations; and 3) to promote moral deliberation, evaluation, decision-making, and conduct that alone can renew and sustain healthy economic, social, political, and professional institutions in concrete human communities.

Ethics Minor Student Learning Outcomes

Ethics minor students will understand:

- The historical context, the import, and the strengths and weaknesses of various paradigms of ethical reflection
- The ways in which ethical theories have been applied to concrete human concerns
- The relevance of ethical reflection to critical issues arising in their chosen major field of study.

Ethics minor students will be able to:

- Demonstrate written competency in the analysis and application of ethical theories to vexed practical problems
- Draw on their own experience and on insights gleaned from their major field of study to further the evaluation and refinement of ethical theories.

Ethics minor students will value:

- The importance of ethical reflection in creating and sustaining healthy human communities
- The productive relation between ethical reflection and other practical and theoretical pursuits
- The power of reflection and self-criticism to transform one's self-conception as well as one's relationships to others.

Minor Requirements

The minor in Ethics consists of 18 semester hours divided as follows:

FOUR Foundations Courses, including:

PHIL 160 and PHIL 320, which also satisfy the University's core requirements in Philosophy.

Two further classes chosen in consultation with the Ethics minor advisor, at least one of which must be in Philosophy, though the second may be offered by departments in any of the Colleges or Schools in the University. These courses should deepen the student's awareness of the context, presuppositions, and implications of various approaches to ethical reflection.

TWO Applications Courses including:

One course in Applied Ethics related to the student's College or School of origin chosen from PHIL 321-330.

One elective course in Applied Ethics selected from the PHIL 321-330 options without regard for the student's College or School of origin.

ONE Assessment Course:

PHIL 494 is a 0 credit hour Ethics Minor assessment class, to be taken once all other Ethics minor credit hours are completed or during the semester the student is completing his or her final classes for the minor.

Note: Philosophy majors or minors cannot also have an Ethics minor.

European Studies

Director

Petra Liedke Konow

Faculty

The faculty of the European Studies major are those professors in various departments of the University who regularly offer courses that are directly concerned with issues relating to Europe, or to specific countries or traditions of Europe, past and present.

Description

The European Studies major is an integrated, interdisciplinary area-studies program. Students choose from a range of courses taught in different departments, selecting a focus that reflects their individual interests (e.g., German or Irish Studies).

The program requires competence in a European language, background to grasp the complexity of European history and civilization as a whole, as well as a specialization in one field of study. As such, it provides students with a solid preparation for graduate school or a career in government or private enterprise. One semester of study in Europe is strongly recommended, but is not mandatory.

Objectives

- Intermediate proficiency in one European language (equivalent to level 2/3 on the scale of five levels developed by the American Council on the Teaching of Foreign Language). LMU offers French, German, Italian, and Spanish in the Department of Modern Languages and Literatures as well as Greek, Latin, and Modern Greek in the Department of Classics and Archaeology. EURO language courses are also available in the LMU Study Abroad Programs in Europe. Once per year in the Spring, the Department of Modern Languages and Literatures offers a general proficiency test in German (ZD), which is internationally recognized and certifies the language skills of the student to prospective employers in the public and private sector. It is administered free of charge for graduating European Studies students with a concentration in German within their major.
- Knowledge of the historical, intellectual, political, and religious contexts of Europe, past and present.
- Knowledge of the art and literary works of Europeans, past and present.

European Studies Student Learning Outcomes

European Studies students are expected to demonstrate:

- Linguistic proficiency in one European language (French, German, Italian, Spanish, Greek, Latin, and/or Modern Greek)
- Knowledge and understanding of:
 - the history of Europe (History)
 - the history of ideas in Europe (Philosophy)
 - the politics of Europe (Political Science)
 - the religious contexts of Europe (Theological Studies)
- Familiarity with cultural expressions of Europeans such as:
 - European literature (Classics, English, European Studies, Foreign Literature in Translation, French, German, Italian, Spanish)
 - European art history and creative arts (Art History, Film, Theatre Arts)
- Reflection on/assessment of:
 - reasons why the major in European Studies was chosen
 - cultural competency (what they have learned)
 - content of the courses selected for the European Studies major
 - development and evolution in the European Studies major
 - extracurricular activities connected with the European Studies major (study abroad experiences, program-related activities, work experience/internships).

Student Learning Outcomes will be assessed through a Senior Capstone Project (EURO 500), which consists of a portfolio during the second semester of the senior year. The portfolio is a collection of multiple samples, usually compiled over the course of studies, accompanied by a personal reflection essay, which shows that the student has met the objectives of the European Studies Program.

Major Requirements

LMU students wishing to declare the European Studies major must meet with the program director. The director will sign the student's Change of Program form provided the student is in good academic standing, which includes having a minimum cumulative LMU GPA of 2.0 (C).

Lower Division Requirements (18 semester hours):

HIST 100 and 101

Elementary I and II and Intermediate I and II, or the equivalent, of one European language: FREN, GRMN, ITAL, SPAN, GREK, LATN, or MDGK (i.e., 12 semester hours). EURO 181, 182, 283, 284 language courses are available in the LMU Study Abroad Programs in Europe; Study Abroad students might have to take the LMU Placement Exam upon return to fulfill lower division requirements.

Upper Division Requirements (25 semester hours):

Group A: 9 semester hours chosen from the courses below, which examine the historical, intellectual, political, and/or religious contexts of Europe, past and present.

CLCV: 353, 451, 452

EURO: 336, 339, 340, 381, 398, 399, 432, 451, 498, 499

GREK: 322, 325, 327

HIST: Area I: Europe, Seminars Area 1: Europe

IRST: 310, 312, 317, 319, 345

LATN: 321, 322

PHIL: Area V: History of Philosophy, 422, 423, 424, 426, 428, 430, 451

POLS: 324, 325, 326, 351, 352, 357

THST: 320, 321, 322, 323, 328, 420, 425, 427

Group B: 9 semester hours chosen from the courses below, which examine the art and literary works of Europeans, past and present.

ARCH: 403

ARHS: 303, 304, 306, 410, 411, 413, 419

CLCV: 304, 306, 454, 455

ENGL: 321, 322, 342, 502, 503, 504, 511, 512, 513, 521, 522, 530, 532, 533, 534, 541, 542, 543, 544, 545, 546, 547, 559, 561

EURO: 312, 324, 325, 371, 373, 398, 399, 498, 499

FNLT: 341, 480

FTVS: with a European focus: 314, 413, 514

FREN: 333, 334, 431, 432, 443

GREK: 311, 312, 313, 314, 329, 415

GRMN: 321, 340, 352, 431, 432, 433

IRST: 300, 303, 304, 305, 309, 330, 350, 435

ITAL: 332, 333, 334, 350, 380, 451

LATN: 312, 313, 314, 315, 317, 319, 323, 324, 415

MDGK: 341, 342, 343, 344, 354, 450

SPAN: 331, 451, 452, 453, 455, 457, 460

THEA: with a European focus: 331, 336, 341, 346, 349

Group C: 6 semester hours of electives chosen from:

- Additional Group A and Group B courses above
- Additional European languages courses (lower division eligible for credit)

One hour: **EURO** 500

European Studies majors are encouraged to select core classes with a European focus.

European Studies Model Four-Year Plan

The normal course load is 15 semester hours (5 classes). By following the model below, a student will complete all lower division core requirements by the end of the sophomore year as well as most major prerequisites. Note that core areas are suggested to provide a distribution of various disciplines every semester. Please be flexible implementing these suggestions, given your own interests and course availability. In four years, this plan meets all common graduation requirements.

Students may take no more than ten upper division courses in any one department, except for Philosophy, in which the maximum is thirteen.

Geography**Director**

Peter Hoffman

Objectives

Geography is one of the fundamental disciplines in the social sciences and an essential component in a liberal arts education. The critical importance of geography and the topics addressed by the discipline are recognized by its inclusion in the core curricula of the Bellarmine College of Liberal Arts, the College of Communication and Fine Arts, and the School of Film and Television.

Geography examines the relationships between people and their environment—its focus is sometimes simply referred to as "human ecology." With a distinctly spatial perspective, geography examines the wide range of places that humans have come to occupy on the Earth. Critical to that examination are an analysis of the ways in which people have modified the environment, for both better and worse, and the long term consequences of such modifications. Geography has also traditionally been the discipline that engages in the systematic study of the world's diverse countries and regions. With the dramatic political and economic transformations occurring throughout the world as a result of contemporary globalization, regional geographic analysis represents a continuing challenge to the discipline and gains greater importance every day.

Geography Student Learning Outcomes

By virtue of their Geography courses, students should know:

- The general global patterns of major geographic elements and processes
- The regional structures and expressions of human environmental relationships associated with the modern and post-modern realm
- The structures and expressions of human settlement associated with the developed realms/core and those associated with the less developed realm/periphery
- The basic research questions and agendas associated with human and regional geography
- The common theories, practices, and methodologies employed in contemporary human geography
- The global patterns of contemporary societies differentiated by their social and economic structures, values, and practices;

By virtue of their Geography courses, students should be able to:

- Effectively employ contemporary social science methodology in the analysis of environmental and geographic issues
- Demonstrate written and oral competencies in the analysis of environmental and geographic issues and policy
- Identify and utilize appropriate primary data for the analysis of environmental and geographic issues
- Apply their understanding of environmental and geographic issues to the development and critical analysis of programs and policies appropriate to addressing contemporary social and economic problems;

By virtue of their Geography courses, students should value:

- Diverse perspectives in the analysis and assessment of human environmental issues and global policies
- Thoughtful analysis of the implications of human population growth and evolving technologies in the context of social justice and sound environmental practices
- Rigorous, scientific research that enlightens human ecology and contributes to the resolution of social and environmental problems
- Community-based participation in the development of programs and policies that contribute to social, economic, political, and environmental improvement.

History**Faculty**

Chairperson: Cara Anzilotti

Professors: Jok Madut Jok, Lawrence A. Tritle, Paul Tiyambe Zeleza (Presidential Professor)

Associate Professors: Najwa Al-Qattan, Cara Anzilotti, Carla J. Bittel, Constance J.S. Chen, Anthony M. Perron, Amy Woodson-Boulton

Assistant Professors: Dexter L. Blackman, Elizabeth Drummond, Margarieta Ochoa, Nigel A. Raab, Nicolas Rosenthal, Sun-Hee Yoon

Objectives

The study of history is a cornerstone of liberal arts education. It contributes to the encouragement of learning by offering a wide variety of courses that cultivate an understanding of both familiar and unfamiliar pasts and cultures. It forms a foundation for the education of the whole person, fostering essential analytical skills: careful observation and reading of primary and secondary texts, argumentation based on evidence, articulate expression, and moral reflection. History courses ground discussions of the service of faith and the promotion of justice by emphasizing the role of change over time, showing how today's world evolved out of the interactions between individuals and groups of people. History courses embody two additional goals of liberal arts education at Loyola Marymount University. First, history courses are intercultural in focus, examining a variety of cultures and emphasizing interconnections among peoples and societies. Second, they are interdisciplinary both in content and in methodology, drawing source material and analytical techniques from literature, philosophy, theology, art, anthropology, ethnography, and archaeology. By touching on so many different disciplines, history performs an integrative function for undergraduate education and beyond. It enables students to situate their study of philosophy, religion, literature, the arts, and the sciences in specific social and historical contexts and impels students to understand the questions posed in each of these academic disciplines in new and different ways.

Prerequisites for Declaring a Major or Minor in History

At entry to the University, students declare the major/minor through the Office of Admission. LMU students wishing to declare the major/minor must first meet with the department chair, who will ordinarily sign the student's Change of Program form. The history department requires a minimum LMU GPA of 2.0 (C) and the students should not be on academic probation. It also requires an average grade of C (2.0) in all history courses taken before declaring a major or minor, including courses at other institutions. The history department accepts Advanced Placement courses in European and American history to fulfill lower division history requirements, provided the scores of the AP examinations are 5 or 4.

History Student Learning Outcomes

- History students develop an understanding of events, processes, and patterns in the human experience. History students should gain an understanding of how their lives relate to a larger historical process.
- Students should be able to analyze historical texts and to gain an understanding of the methods used in interpreting the past, such as criticism of sources, the definition of historical questions, comparative analysis, and the diverse perspectives of participants in history. They will employ evidence to craft arguments about historical change and analyze the factors that cause change on local, national, and global scales.
- Students should value the vast range of ways in which individuals and societies have responded to the problems confronting them. The insights they have gained through historical analysis will enrich their lives as citizens of an interconnected world.

Major Requirements

Lower Division Requirements:

15 semester hours distributed as follows: HIST 100, 101, 161, 162, and one course selected from HIST 152, 172, 182, and 192. A student must accumulate a C (2.0) average in the prerequisite courses. In addition, the Department recommends the study of geography and foreign languages.

Upper Division Requirements:

24 semester hours in upper division courses.

All major programs must include a course in historical method (HIST 310 or 330) and at least one 500-level seminar. The remaining courses are to be chosen with the approval of the student's advisor, and not more than half of the total 24 semester hours may be taken from one of the following areas: 1) Europe, 2) United States, or 3) Africa, Asia, Latin America and modern Middle East. An average grade of C (2.0) must be obtained in the courses included in the major.

Secondary Teacher Preparation Program in Social Science (History)

For information on this program, see the Secondary Teacher Preparation Program section in this Bulletin.

Minor Requirements

21 semester hours. One course must be selected from HIST 100 or 101; one course from 161 or 162. At least 9 semester hours must be from upper division course offerings.

The history minor is a flexible program. Aside from the two lower division course requirements, students can select any history course as long as at least three of the remaining five courses are upper division history courses. However, students might want to consider selecting courses that relate to their major and belong to geographical or thematic units.

History Model Four-Year Plan

The normal course load is 15 semester hours (5 classes). By following the model below, a student will complete all lower division core requirements by the end of the sophomore year as well as HIST major prerequisites. Note that core areas are suggested to provide a distribution of various disciplines every semester. Please be flexible implementing these suggestions, given your own interests and course availability. In four years, this plan meets all common graduation requirements.

Students may take no more than **ten upper division** courses in any one department, except for Philosophy, in which the maximum is thirteen. No more than 12 of the 24 upper division HIST semester hours (including seminars, but excluding HIST 310 or 330) may be taken from one of the following areas:

1) Europe, 2) United States, or 3) Africa, Asia, Latin America, and modern Middle East.

Humanities

Director

Áine O'Healy

Faculty

Assistant Professor: Alexandra Neel

Objectives

The Humanities major is designed to meet the needs of a student who has a broad interest in liberal arts but whose interest would not be served by a major program within a single department. The Humanities major is an interdisciplinary program. In the first two years the student acquires a broad background in the arts, history, and literature. Language study through the advanced level is also required. In the second two years, the student concentrates in a particular area of interest. The concentration consists of five (5) upper division courses taken from departmental offerings in Archaeology, Art History, Classics, English, French, German, Greek, History, Italian, Latin, Philosophy, Spanish, or Theological Studies. The concentration is then supported by two (2) upper division history or philosophy courses and two (2) upper division courses in either an ancient or a modern literature selected in consulta-

tion with the Humanities advisor. All Humanities majors are required to complete, in their final semester, a final project which marks the culmination of the student's interdisciplinary course of study. There are two options: the student may complete a Capstone Project (HMNT 497), which consists of a portfolio that encapsulates the student's course of study; alternately, the student may elect to write a Senior Thesis (HMNT 490), which is a substantial research project based on the student's concentration. The student who elects to write a senior thesis will choose a topic and a thesis advisor in consultation with the Director. Working closely with the thesis advisor, the student will produce a thesis which integrates the student's interests in language, literature, history, art history, or philosophy. The senior thesis is reviewed and graded by the thesis advisor and the Director.

The program is a fine preparation for students interested in professional courses in law, business, or education. Also, the program is designed to allow students to complete a major in a departmental area which would qualify them for graduate studies.

Humanities Student Learning Outcomes

By virtue of pursuing a major in Humanities,

Students should know:

- How knowledge has been pursued, established, and critically evaluated in the three different disciplines representing their concentration, their literature support, and their historical or philosophical support
- The various ways in which artists have developed the fine arts to convey their sense of the world's surface and its depth
- A foreign language
- The content as well as analytical and communicative skills that the study of their concentration demands;

Students should be able to:

- Communicate insights clearly, effectively, and with nuance in both oral and written form
- Synthesize insights from a variety of disciplines
- Develop insights from one discipline for the enrichment of others;

Students should value:

- The variety of ways in which cognitive, moral, and aesthetic disciplines have enriched our sense of the human condition
- The further pursuit of those disciplines, as required by their deeper sense of the complexity of the human condition
- Their responsibility to serve the world as whole persons, with head, heart, and hand.

Major Requirements

Lower Division Requirements:

15 semester hours distributed as follows:

6 semester hours from: ARHS 200, 201, 202.

3 semester hours in Studio or Performance Arts.

6 semester hours from one of the following language sequences:

CHIN 203, 204;

FREN 203, 204;

GREK 201, any upper division Greek;

GRMN 203, 204;

ITAL 203, 204;

JAPN 203, 204;

LATN 201, any upper division Latin;

MDGK 203, 204;

SPAN 203, 204.

An average grade of C (2.0) must be obtained in courses included in the major.

Upper Division Requirements:

At least 30 semester hours in upper division courses distributed as follows:

15 semester hours in concentration in a departmental major.

6 semester hours in either an ancient or a modern literature which supports the concentration.

6 semester hours in either art history, history, or philosophy which supports the concentration.

And, in the final semester, either

3 semester hours for the Senior Thesis (HMNT 490), or 1 semester

hour for the Capstone Project (HMNT 497) plus 3 semester hours in an ancient or modern literature, art history, history, or philosophy.

An average grade of C (2.0) must be obtained in courses included in the major.

The choice of a concentration and of support courses must be formally approved by the Director.

Humanities Model Four-Year Plan

The normal course load is 15 semester hours (5 classes). By following the model below, a student will complete all lower division core requirements by the end of the sophomore year as well as most major prerequisites. Note that core areas are suggested to provide a distribution of various disciplines every semester. Please be flexible implementing these suggestions, given your own interests and course availability. In four years, this plan meets all common graduation requirements.

Students may take no more than **ten upper division** courses in any one department, except for Philosophy, in which the maximum is thirteen.

Irish Studies

Director

John Menaghan

Objectives

Irish Studies is an interdisciplinary minor designed to complement a wide variety of majors by providing students with an understanding of the historical and cultural development of the Irish people and the significance of their intellectual, artistic, spiritual, and economic contribution to world civilization, including their experiences as both a post-colonial nation and an emigrant diaspora. Taken together, Ireland's historical evolution; its long experience of colonization and cultural oppression; its rich contribution to world literature, art, and music; the creative tension in contemporary Ireland between its ancient Celtic heritage and its modern Anglo-Irish/Hiberno-English identity; and its remarkable though often unacknowledged influence upon the countries—chiefly the United States,

Great Britain, Canada, Australia, New Zealand and South Africa—that make up the far-flung Irish diaspora constitute a fertile field for intellectual inquiry.

Focused simultaneously on a small nation on the edge of Europe and a far-flung diaspora and offered within the context of the most culturally diverse city in the world, the minor in Irish Studies is designed to be not merely interdisciplinary but intercultural. At a time when the nearly simultaneous phenomena of a European drive toward unification and an American emphasis on diversity both complicate and enrich our very notions of what constitutes a nation, culture, or people, students minoring in Irish Studies will have the flexibility to explore the richness of the Irish experience from a broad range of perspectives and the opportunity to assess its influence not only in Europe and America but on struggles against cultural and political oppression around the globe.

Irish Studies Student Learning Outcomes

Students minoring in Irish Studies are given opportunities to learn about:

- The general history of Ireland and the Irish diaspora
- The distinctive literary achievements of the Irish
- Irish achievements in cinema and dance
- Historical, religious, and moral issues in contemporary Irish politics
- The intersection/intermingling of Celtic and Christian worldviews
- The connection of Irish struggles for freedom and self-determination to similar struggles in the United States and around the world

Students minoring in Irish Studies will be given opportunities to develop:

- Their ability to perform research into several distinct aspects of the Irish experience
- Their ability to compose well-written and thoughtful essays on Irish history, politics, religion, and culture
- Their ability to evaluate and appreciate Irish achievements in the arts
- Their ability to make connections across disciplines, countries, and cultures

Students minoring in Irish Studies will be encouraged to value:

- The Irish struggle against cultural and political oppression and its relation and continuing relevance to similar struggles around the world
- The distinctive contributions of the Irish to European, American, and world civilization.

Study Abroad

Students can earn up to six semester hours toward the minor in Irish Studies in the LMU Summer in Ireland Program at Trinity College Dublin, one of the oldest and most renowned universities in the world. Students can also arrange to spend a semester or year abroad at an Irish university.

Minor Requirements

LMU students wishing to declare the Irish Studies minor must meet with the program director. The director will sign the student's Change of Program form provided the student meets certain academic standards that include having a minimum LMU GPA of 2.0 (C) and not otherwise being on academic probation.

18 semester hours, including at least one course in Irish literature and one in Irish history. At least 12 semester hours must be in upper division courses. An average grade of C (2.0) must be maintained in Irish Studies courses.

Note:

Courses offered in other departments and programs may be used as semester hours to fulfill the minor requirements in IRST, provided the student receives the approval of the Director in advance of taking the course. Students seeking such approval must arrange with the relevant instructor to complete a substantial paper/project on Ireland and/or the Irish diaspora and must submit a copy of same to the Director at the end of the course. No more than nine semester hours (3 such courses) may be applied toward the 18 total semester hours required to complete the Irish Studies minor. Such courses may also have departmental prerequisites; consult course descriptions for further details.

Jewish Studies

Director

Holli G. Levitsky

Objectives

Jewish Studies provides an academic, interdisciplinary minor for students within any major who would like to examine Jewish history, culture, faith, and practice in its unity and diversity across geographic, political, historical, religious, and aesthetic boundaries and dimensions.

The Program is unique in that its mission is twofold: 1) To provide the foundation for the academic minor program; and 2) To offer regular programs and special events to the University and to the community. For example, each year the Jewish Studies Program partners with the "1939" Club, a Holocaust survivor organization, to host a community-wide Kristallnacht commemoration at LMU. In the past, the Program has hosted or co-hosted events with the Los Angeles Polish Consulate, the Los Angeles Israeli Consulate, American Jewish University, UCLA, Chapman University, California State University Northridge and Long Beach, and the Western Jewish Studies Association.

Through education and community outreach, the Program provides an opportunity to engage others directly and constructively in order to promote greater understanding and appreciation of Judaism and its relation to other faith traditions and commitments, and to act together upon such respect and understanding. In this way, the mission of the Jewish Studies Program relates to the mission and identity of LMU as a Jesuit/Marymount Catholic University in Los Angeles.

Faculty from a range of departments, schools, and colleges teach courses in Jewish Studies, many of which are cross-listed.

Jewish Studies Student Learning Outcomes

Students will know:

- The nature of the Jewish religious experience
- Significant aspects of Jewish history, culture, and literature/art
- Significant developments in and implications of Jewish/Christian relations.

Students will be able to:

- Demonstrate critical reflection on significant aspects of Jewish history, culture, religion, and literature/art
- Conduct critical research and write intelligently and persuasively on issues within Judaism
- Synthesize and apply this knowledge to pursue justice locally and globally.

Students will value:

- The rich contribution of the Jewish people to history, culture, religion, and literature/art
- The importance of inter-religious dialogue
- The living vitality of Jewish faith and culture through the promotion of justice.

Jewish Studies Minor Requirements

18 semester hours, with at least 12 semester hours upper-division including JWST 300, 381 and 490.

One course must be in Jewish Literature/Culture/Art; one course must be in Jewish History. The remaining elective must be chosen in consultation with the program director.

Liberal Arts

Liberal Arts courses (LIBA), offered by the Bellarmine College of Liberal Arts, are designed to enrich the academic, career-related, and life skills of our students.

Liberal Studies

Director

Bernadette Musetti

Objectives

The Liberal Studies program enables the student to meet the teacher preparation standards mandated by the California Commission on Teacher Credentialing. The Liberal Studies program curriculum likewise serves the Loyola Marymount University mission.

Liberal Studies Student Learning Outcomes

The Liberal Studies program student will master the content required of professional educators in the State of California, to include:

- Key concepts in the following academic fields: the social sciences and history, the arts and humanities, language studies, mathematics and science, health, physical education, human development, and in an approved academic concentration of the candidate's choice
- Candidates will demonstrate their mastery of the subject matter by successfully passing the CSET (California Subject Examination for Teachers) at the completion of their coursework;

The Liberal Studies program student will master the skills required of professional educators in the State of California:

- To synthesize subject content in the liberal arts, professional content related to classroom teaching, and educational policies
- To apply reading, writing, and research skills appropriate to the work of the academic disciplines being studied
- To apply academic concepts to practical teaching contexts
- To analyze, reflect on, and evaluate the relationships among academic theories, the practical and applied contexts of teaching, and the multiple and complex needs of students comprising a rich and diverse globe
- Candidates will demonstrate the ability to synthesize and the other skills listed above in an exit interview conducted by the Director of Liberal Studies at the completion of required coursework;

The Liberal Studies program student will value:

- Intellectual inquiry across a range of subjects
- A world view comprising faith, social justice, and a respect for diversity
- The individual's role as a future educator who will shape the lives of children, local communities, and larger national and global societies.

There are five components to the Liberal Studies major:

I. University Core Curriculum

50 Semester Hours

Because the subject-matter requirements set by the Commission on Teacher Credentialing are very specific, many of the core requirements for Liberal Studies majors are specified and may differ from those of other majors within the Bellarmine College of Liberal Arts. These core requirements are as follows:

- College Writing (3 semester hours): ENGL 110;
- Communication or Critical Thinking (3 semester hours): choice of one of the following: CMST 100, 110, 140, or 206;
- History (6 semester hours): HIST 300 and 301;
- Social Sciences (6 semester hours): PSYC 100 and choice of one of the following: AFAM 115, APAM 117, or CHST 116;
- American Cultures (3 semester hours): HIST 161 (fulfills the U.S. Constitution requirement for credential candidates);
- Literature (3 semester hours): choice of one of the following drama-based courses: CLCV 210, 220; ENGL 150, 170; THEA 240, 245;
- Mathematics (see major requirements)
- Science and Technology (8 semester hours): NTLS 270 and 271 (4 semester hours each);
- Fine Arts Critical (3 semester hours): MUSC 104;
- Fine Arts Creative (3 semester hours): ART 250;
- Philosophy (6 semester hours): PHIL 160 and one course from PHIL 320-330;
- Theological Studies (6 semester hours): one course from the THST 100-level series and one course from the 300-level series.

II. Liberal Studies Major Requirements

24 Semester Hours

DANC 384: Creative Dance for Children (3 semester hours)
 DANC 385: Movement Arts for Children (3 semester hours)
 ENGL 305: Advanced Composition for Credential Candidates (3 semester hours)
 ENGL 346: Children's Literature (3 semester hours)
 HIST 366: History of California (3 semester hours)
 MATH 106, 107: Mathematics for Elementary Teachers I, II (6 semester hours) Liberal Studies majors must either pass out of or take MATH 101 as a prerequisite to MATH 106, 107.
 PSYC 352: Developmental Psychology (3 semester hours)

III. Education Program Requirements

21 Semester Hours

EDLC 400: Sociocultural Analysis of Education (3 semester hours)
 EDES 401: Educational Psychology for the Childhood and Adolescent Years (3 semester hours)
 EDES 409: Reading and Language Arts in the Elementary Curriculum (3 semester hours)*
 EDLC 414: Theories of Second Language Acquisition (3 semester hours)
 EDLC 425: Methods in English Language Development/Specially Designed Academic Instruction in English (3 semester hours)*
 EDES 434: Elementary Curriculum and Methods (3 semester hours)*
 EDSS 440: Introduction to the Culturally and Linguistically Diverse Student with Exceptional Needs (3 semester hours)
 EDES 8000: Health Education in the Schools (0 semester hours)

* Starred courses require a separate application to and acceptance into the Elementary Education program or the Mild/Moderate Specialist Credential program. Acceptance into either of these programs requires an LMU cumulative GPA of 2.8. See the Director of Liberal Studies for other application requirements.

IV. Concentration

12-18 Semester Hours

In addition to the above requirements, all Liberal Studies majors complete coursework in a chosen area of concentration which represents a subject area generally taught in elementary schools or a closely related area of study. With careful planning the concentration can constitute most, if not all, of an LMU minor. See the Director of Liberal Studies for qualifying concentrations and their specific requirements.

V. Electives

Students complete elective coursework in order to fulfill the remaining course hours required for the degree in Liberal Studies. Liberal Studies majors who are also pursuing the multiple subjects teaching credential complete 9 semester hours of EDCE 410 (Directed Teaching), which are applied toward both the semester hour requirement for the baccalaureate degree and the requirements for California state credentialing. Liberal Studies majors who decide not to pursue a teaching credential may satisfy the remaining course hours with any elective coursework.

Liberal Studies Model Four-Year Plan

The typical course load for an undergraduate student is 15-16 semester hours per semester. The following model represents a student who is completing a 15-semester-hour concentration, does not need to complete any prerequisites for required coursework, and is pursuing the 2042 Multiple Subject teaching credential. Students with larger concentrations, those required to take MATH 101 (or other prerequisite coursework), and/or those seeking credentials in Bilingual or Special Education may need to "overload" during some semesters and/or complete summer coursework. **Please note that the model is provided as a guideline rather than a prescriptive course of study. Students will need to be flexible implementing the model plan, given variability of course availability and other potential scheduling issues in any given semester.**

Note: This model does not include some School of Education requirements which are not required for the Liberal Studies degree but are required for the teaching credential (i.e., TPAs—Teaching Performance Assessments; Health course requirement). As such requirements relate to the teaching credential and are independent of the Liberal Studies degree, students are advised to consult with the Academic Advisor in the School of Education regarding the coordination and sequencing of specific School of Education requirements.

		12

Note: Coursework completed during this semester must be coordinated such that it does not conflict with the student teaching assignment.

This four-year plan serves only as a general model. Please meet with your advisor at least once a semester to discuss your progress in the program and plans for future semesters.

Students may take no more than **ten upper division** courses in any one department, except for Philosophy, in which the maximum is thirteen.

Modern Languages and Literatures

Faculty

Chairperson: Véronique Flambard-Weisbart

Professors: Jennifer L. Eich, Véronique Flambard-Weisbart, Áine O'Healy
Associate Professors: Rebeca Acevedo, José Ignacio Badenes, S.J., Petra Liedke Konow, Marc Lony, Alicia Partnoy, Antonia Petro

Assistant Professors: Mónica Cabrera, Chan Lü

Objectives

Our Department equips students with language proficiency as it introduces them to the multicultural nature and historical evolution of literary and other texts in the target languages. Our courses provide opportunities to comprehend, interpret, and practice linguistic skills through oral and written exercises and assignments. Through a judicious selection of required courses and electives that include literature, history, and the arts, students acquire an increasing commitment to the mission of the University. We thrive to provide tools to foster transcultural understanding as the basis for mutual respect, global harmony and social justice.

Major and Minor Requirements

Students can declare a major in French/Francophone Studies, Modern Languages, or Spanish, or a minor in French/Francophone Studies, German, Italian, or Spanish, at entry to the University, through the Office of Admission. Students wishing to declare a major/minor in the Department of Modern Languages and Literatures after admission to LMU must meet with a professor from that particular program. A Change of Program form will be signed by the chairperson, provided that the student has a minimum LMU GPA of 2.0 (C).

Lower division language courses (100-200) may not be challenged by exam. Students may be exempt from these courses by placing above that level through the LMU online Placement Exam for Chinese, French, German, or Spanish, and by professor evaluation for Italian and Japanese. A minimum grade of C (2.0) is required in all lower division language courses to major or minor in those languages.

Students with significant course credit in a language from high school or college will not be allowed to enroll in the 101 course of that language.

The department offers lower division language courses (100-200) in Chinese, Japanese, and Filipino which satisfy the language requirements for the Asian and Pacific Studies major and minor.

Language Placement Exam

The online WebCAPE Placement Examination measures your language skills in Chinese, French, German, or Spanish so that you may be placed in the appropriate level of coursework in the Department of Modern Languages and Literatures.

Your score is used for language placement advising purposes and does not become part of your permanent record.

FAQ

When do I need to take a foreign language exam?

You need to take this exam ONLY...

1. If you have taken Chinese, French, German, or Spanish language courses in any educational setting (for example, at a high school or community school or at another university if you are a transfer student) AND you wish to continue taking classes in these languages during the first three semesters at LMU.
2. If you have taken AP language and/or literature courses in the above languages.
3. If you are interested in a minor or major in the above languages so that you can begin at the appropriate level of coursework immediately.
4. If you plan to take language or literature courses in a study abroad program in a country where Chinese, French, German, or Spanish are the language of instruction: Summer, semester, and year-long study abroad programs sometimes require previous foreign language study.
5. If you are a heritage speaker who has learned the language at home and wishes to take language or literature courses in Chinese, French, German, or Spanish.

PLEASE NOTE: If you have NEVER studied Chinese, French, German, or Spanish and wish to do so, you would sign up for the 101 level course in that language. If you plan to study or travel abroad in the summer before entering LMU, please wait until you return to take the language placement exam.

Where do I take the exam?

You take the exam online. Go to the link: <http://webcape/byuhtrsc.org/?acct=lmu>.

How long does the exam take?

The text takes approximately 20 minutes.

Can I use books such as a dictionary? Should I guess at the answers?

It is TO YOUR BENEFIT that you answer the questions honestly and without the support of notes, textbooks, parents, or friends: doing otherwise will be considered cheating. In addition, the score will likely place you at a level of coursework above the appropriate one based on your experiences and academic studies.

How do I get my score? Does my advisor get it?

Your score will be displayed at the end of the exam. Your score and placement will be provided to your advisor. You are strongly encouraged to print or write it down and e-mail it to your assigned advisor.

What if I have problems taking the exam?

Please contact the ITS helpdesk at 310.338.7777.

Chinese

The objective of the first and second year Chinese courses emphasizes language and literacy skills in Mandarin Chinese, with a focus on the spoken style. The third and fourth year courses aim to help students develop advanced language and literacy skills in both the spoken and the written styles. Selected courses and topics are introduced to enable students to develop a critical understanding of the Chinese literature, culture, and society.

Students with significant course credit in Chinese from high school or college will not be allowed to enroll in CHIN 101. Students with more advanced knowledge must take the language placement exam. To know when and how a student should take a language placement exam in Chinese, please refer to the guidelines provided under Modern Languages and Literatures.

Filipino

The courses are designed to develop student competency in Filipino/Tagalog focusing first on the sounds and rhythm of the language, vocabulary building, and sentence patterns. A functional-situational approach to language learning is utilized to develop an understanding and appreciation of Filipino culture and customs associated with the use of various linguistic forms. All levels will enhance and work toward increased proficiency in speaking, listening, reading, and writing through language games and exercises.

Foreign Literature in English Translation

No knowledge of the foreign language is required for courses offered in foreign literature.

French/Francophone Studies

Objectives

The French/Francophone Studies curriculum is designed to enhance students' understanding of the French/Francophone world by exposing them to French/Francophone cultures and perspectives. It also responds to the increasing demand for a more practical emphasis in language learning after the lower division level and allows students to tackle the professional world immediately beyond graduation. It may complement LMU's Summer Study Abroad Program in Paris, France.

French/Francophone Studies Student Learning Outcomes

Student Learning Outcomes will be assessed through a Senior Capstone Project (FREN 500) which consists of a portfolio during the last semester of the senior year. The portfolio is a collection of multiple samples usually compiled over time accompanied by a personal reflection essay, which would show that the student has met the objectives of the French/Francophone Studies program.

Majors in French/Francophone Studies will know:

- The variety and nature of linguistic practices of French-speaking populations
- The variety and nature of cultural texts of French-speaking populations
- The variety and nature of cultural perspectives in the Francophone world at large
- The representative literary works and cultural texts of Francophone cultures and civilizations, and other diasporic French-speaking populations
- The principal aspects of cultural expressions such as literature, art, social practices, gender, and media of the Francophone world at large
- Theoretical terminology and concepts essential to analyze literary and cultural products.

Majors in French/Francophone Studies will be able to:

- Understand spoken French at the appropriate level
- Speak French at the appropriate level
- Read French at the appropriate level
- Write French at the appropriate level
- Use acquired theoretical and critical skills to textual analysis and scholarly research
- Demonstrate an informed knowledge of literary works developed by French-speaking populations
- Demonstrate an informed knowledge of cultural works developed by French-speaking populations
- Demonstrate an informed knowledge of linguistic varieties developed by French-speaking populations.

Majors in French/Francophone Studies will demonstrate an appreciation for:

- The evolution and variety of perspectives in French-speaking cultures
- The mission of our University
- Transcultural similarities and differences.

Major Requirements

Lower Division Requirements:

FREN 101, 102, 203, 204.

These requirements may be waived or modified based upon proficiency demonstrated on the LMU French Placement Examination. For majors, a minimum grade of C (2.0) is required in all pre-major courses.

Upper Division Requirements:

25 semester hours in upper division courses: FREN 301, 314, 321, 333, 334, three courses in the 400-level series, and 500.

A minimum grade of C (2.0) must be maintained in all upper division courses.

Minor Requirements

18 semester hours taken beyond FREN 203: FREN 204, 301, 314, 321, 333 or 334, and one (1) course in the 400-level series.

The FREN 101, 102, 203, and 204 series is recommended for those who seek basic proficiency in the language. This series requires attendance of a one hour weekly language lab.

French Placement Exam

Any student who has knowledge of or has had prior instruction in French in high school or at a college or university other than LMU must take the French Placement Exam.

This requirement includes students who have taken the AP French Exam in high school. Generally, a student who receives a score of 5 or 4 on the AP French Exam (Language or Literature) places in FREN 204. Final placement is conditional upon the instructor's consent. Course credit will be given for FREN 101, 102, and 203 once the student's official scores have been received from the College Board. It is the responsibility of each student to ensure that the official AP scores have been sent to Loyola Marymount University.

To know when and how a students should take a language placement exam in French, please refer to the guidelines provided under Modern Languages and Literatures.

French/Francophone Studies Model Four-Year Plan

The normal course load is 15 semester hours (5 classes). By following the model below, a student will complete all lower division core requirements by the end of the sophomore year as well as most major prerequisites. Note that core areas are suggested to provide a distribution of various disciplines every semester. Please be flexible implementing these suggestions, given your own interests and course availability. In four years, this plan meets all common graduation requirements.

Students may take no more than **ten upper division** courses in any one department, except for Philosophy, in which the maximum is thirteen.

German

Objectives

During the phase of early language acquisition, our German courses build students' language skills and intercultural awareness. While still perfecting their language skills, students in GRMN 203 and above are introduced to short German prose from a variety of literary traditions. Literature courses range from a general survey of German literature over the centuries to the study of specific genres, such as drama, the novella, and the German fairy tale. In addition to literary studies, the German section also offers a course on German film and a course on German culture and civilization that provides an introduction to German history, society, politics, and the arts, while developing students' general intercultural awareness. For students interested in the language of business, the German section offers two business-related courses.

German Student Learning Outcomes

Students minoring in German will know:

- The principal aspects of the German language
- The principal aspects of the history of German literature and film

- The principal aspects of the history and culture of German-speaking countries;

Students minoring in German will be able to:

- Speak, understand, read, and write German in meaningful contexts
- Use the latest relevant applications in educational technology
- Read literary texts in German and discuss their content, techniques, and social significance;

Students minoring in German will value:

- German language, literature, and culture
- Expressing independent critical opinions
- Increasing intercultural awareness.

German courses at LMU foster communication and understanding others as essential aspects of the education of the whole person. Students thus embark on a road of lifelong learning that will take them into a richer future.

Minor Requirements

The German minor consists of 18 semester hours above the 100 level: GRMN 203, 204, 301, and three courses from upper division offerings (300-400 level). Within this minor a professional German emphasis is possible, with GRMN 302 and 437 as upper division course options for the business-oriented student.

The GRMN 101, 102, 203 series is recommended for those who seek a basic speaking, writing, and reading knowledge of the language.

Students of German may wish to take advantage of LMU's semester or full year New Europe Program in Bonn, Germany, to improve their language skills. Lower division elementary and intermediate German language courses in Bonn are listed as EURO 181 and 283 each semester. GRMN 301 (Mastery of German) is also available on a regular basis.

German Placement and Proficiency Testing

To know when and how a student should take a language placement exam in German, please refer to the guidelines provided under Modern Languages and Literatures.

Once per year in the Spring, the German section offers a general proficiency test in German (ZD) for its graduating minors. The test is internationally recognized and certifies the language skills of the student to prospective employers in the public and private sector.

Italian

Objectives

The Italian minor introduces students to the rich, complex culture of Italy, first by providing them with basic linguistic skills in the Italian language, and subsequently by familiarizing them with important literary works produced in Italy over the centuries as well as with historically significant films.

Italian Minor Learning Outcomes

Italian minors will know:

- The principal elements of Italian syntax and morphology
- Representative works of Italian literature, cinema, and other forms of cultural production
- Theoretical concepts essential for the analysis of these texts.

Italian minors will be able to:

- Communicate effectively in written and oral forms in Italian
- Understand spoken Italian
- Read modern Italian literature
- Apply acquired critical skills to textual analysis and scholarly research.

Italian minors will be encouraged to value:

- The distinctive contributions of Italian culture to world civilization
- The interconnectedness of all cultures in the global era
- The complex ways in which issues of social justice find expression in cultural production.

Minor Requirements

The minor consists of 18 semester hours taken above the 100 level: ITAL 203, 204, and four courses taken from upper division offerings.

Students who have not previously studied Italian and who wish to declare a minor in Italian are advised to begin their study of the language in their freshman year.

The ITAL 101, 102, 203 series is recommended for those who seek a basic speaking, writing, and reading knowledge of the language. This series requires one hour of independent study in the language lab each week.

Students with previous knowledge of the language or with course credit in Italian are requested to contact the department to schedule a placement exam.

Japanese

The courses develop listening, speaking, reading, and writing skills using the direct method. Grammar points are explained in English. The student is provided an opportunity to practice conversation with native speakers to further improve oral skills. Selected topics are presented to enhance awareness and understanding of Japanese culture.

Students with significant course credit in Japanese from high school or college will not be allowed to enroll in JAPN 101. Students with more advanced knowledge must consult with the departmental chair or with a professor in Japanese for evaluation before enrolling in a Japanese language class.

Modern Languages

Modern Languages Major

Objectives

The aim of the Modern Languages Major is twofold: to enable students to develop proficiency in the four language skills—aural, oral, speaking, and writing—in two modern languages, and to develop cultural literacy.

Through a structured and carefully planned group of course offerings and a strong recommendation to participate for a semester or a summer in study abroad programs, the Modern Languages Major will prepare students for a world in which intercultural understanding provides the basis for mutual respect, global harmony, and social justice.

The program will encourage and advise students to embark in study abroad experiences, research opportunities, extracurricular activities, and community-based learning opportunities that will prepare them to speak, understand, and write two foreign languages as well as linguistically analyze them, to know the principal aspects of some of the cultures where those languages are spoken, and to exercise intercultural awareness.

The major is highly desirable for those interested in international communications and access to immigrant populations, in areas including but not limited to business, teaching, social work, theology, law, theatre, and the visual arts. Competence in more than one foreign language, a keen awareness of cultures, and an understanding of the structure of language itself is a compelling combination of skills that will prepare the student for employment in a globalized economy.

Modern Languages Student Learning Outcomes

Modern Languages majors will know:

- The principal aspects of two foreign languages and cultures
- The tools to analyze languages and cultures
- The principal aspects of two cultures and civilizations through the study of their cultural productions such as literature, art, social practices, and media.

Modern Languages majors will be able to:

- Speak, understand, and write two foreign languages as well as linguistically analyze them
- Read a variety of texts in two languages and discuss their content, technique, and cultural significance.

Modern Languages majors will be able to demonstrate that they value:

- Two distinct cultures and civilizations and their cultural productions
- Increasing intercultural awareness
- Multilingualism and the world it opens up for them.

Major Requirements

Two languages combined: Chinese/French; Chinese/German; Chinese/Italian; Chinese/Spanish; French/German; French/Italian; French/Spanish; German/Italian; German/Spanish; Italian/Spanish.

Lower Division Requirements:

24 semester hours consisting of a selection of courses in two languages from CHIN/FREN/GRMN/ITAL/SPAN 101, 102, and CHIN/FREN/GRMN/ITAL/SPAN 203, 204 or SPAN 205.

Upper Division Requirements:

31 semester hours in upper division courses:

12 semester hours in one language and 12 semester hours in a second language

Chinese: CHIN 305 and 306 required, and any other upper division Chinese courses

French: FREN 301, 314, 321 required, and FREN 333 or 334

German: GRMN 301 required, and any other upper division German courses; GRMN 302 and 340 recommended when offered

Italian: Any four upper division ITAL courses; ITAL 321 and 350 recommended when offered

Spanish: SPAN 321, 322, 333 required, and SPAN 331 or 332 or 334

6 semester hours

MDLL 300, and a choice of MDLL 400 or FNLT 480

1 semester hour

MDLL 500—Senior Capstone Project

Also, these courses are recommended in other departments:

SOCL 105	Cultural Anthropology
POLS 155	Comparative Foreign Governments
CMST 336	Intercultural Communication

Modern Languages Model Four-Year Plan

Spanish

Spanish Major

Objectives

This major equips students with language proficiency in Spanish as it introduces them to the multicultural nature and historical evolution of literary and cultural expressions in the target language. It provides students with opportunities to comprehend, interpret, and practice advanced linguistic skills in Spanish through oral and written exercises and assignments. Survey and seminar classes familiarize them with representative literary works and cultural texts from Spain, Latin America, the U.S., and other diasporic Spanish-speaking populations. Our students become familiar with theoretical terminology and concepts essential to analyze these and other cultural products. The major also includes the study of Spanish phonology, morphology, syntax, and dialectal varieties. Students consistently participate in intercultural events and service

learning activities in academic and culturally significant contexts. They acquire an increasing commitment to the mission of the University.

Spanish Student Learning Outcomes

Spanish majors will know:

- The variety and nature of linguistic practices of Spanish-speaking populations
- The variety and nature of cultural texts of Spanish-speaking populations
- The variety and nature of cultural perspectives of Spanish-speaking populations
- Representative literary works and cultural texts from Spain, Latin America, the U.S., and other Spanish-speaking populations
- Theoretical terminology and concepts essential to analyze literary and cultural texts.

Spanish majors will be able to:

- Understand spoken Spanish at the appropriate level
- Speak Spanish at the appropriate level
- Read Spanish at the appropriate level
- Write Spanish at the appropriate level
- Use acquired theoretical and critical skills to textual analyses and scholarly research
- Demonstrate an informed knowledge of literary works developed by Spanish-speaking populations
- Demonstrate an informed knowledge of cultural products developed by Spanish-speaking populations
- Demonstrate an informed knowledge of linguistic varieties developed by Spanish-speaking populations.

Spanish majors will also demonstrate an appreciation for:

- The evolution and variety of perspectives in Spanish-speaking cultures
- The mission of our University
- Transcultural similarities and differences.

Major Requirements

Lower Division Requirements:

SPAN 101, 102, 203, and 204 or 205.

Any of these courses may be satisfied by placing above that level through the LMU Spanish Placement Exam. A minimum grade of C (2.0) is required in all lower division Spanish courses.

Upper Division Requirements:

Spanish Major: The major in Spanish requires 25 semester hours in upper division courses: SPAN 321, 322, 333; 6 semester hours in SPAN 331, 332, or 334; 9 semester hours in 400-level Spanish electives; and SPAN 500, a senior capstone project (1 semester hour). Students are permitted to take up to 31 upper division hours in Spanish. Students must complete all upper division courses with a minimum grade of C (2.0).

Senior Capstone Project: Portfolio Requirements:

Spanish majors are required to register for a one-credit course (SPAN 500, Senior Capstone Project) during, or after, their last semester in the Spanish major program. Each graduating student constructs a portfolio that includes a collection of previous works, a brief description of extracurricular activities connected with the Spanish major, and a reflective essay in Spanish demonstrating how the goals of the program were met. These goals are language proficiency, cultural competency, mastery of literary and linguistic studies, development of a sense of social justice, and transcultural understanding. An oral presentation of the portfolio to a faculty panel is required.

Guidelines for the elaboration of the portfolio and the oral presentation are available in the Modern Languages and Literatures Department. This course is graded Credit/No Credit.

Secondary Teacher Preparation in Spanish

For information on this program, see the Secondary Teacher Preparation Program section in this Bulletin.

Spanish Minor

Lower Division Requirements:

SPAN 101, 102, 203, and 204 or 205.

Any of these course may be satisfied by placing above that level through the LMU Spanish Placement Exam. A minimum grade of C (2.0) is required in all lower division Spanish courses.

Upper Division Requirements:

Spanish Minor: The minor consists of 18 semester hours in upper division courses: SPAN 321, 322, and 333; 6 semester hours in SPAN 331, 332, or 334; and one upper division 400-level Spanish elective. Students must complete all upper division courses with a minimum grade of C (2.0) to maintain status.

LMU Spanish Placement Exam

Any student who has knowledge of or has had prior instruction in Spanish in high school or at a college or university other than LMU must take the LMU Spanish Placement Exam.

This requirement includes students who have taken an AP Spanish Exam in high school. A student who receives a score of 5 or 4 on the AP Spanish Exam (Language and/or Literature) might place in SPAN 321 (Stylistics and Composition), SPAN 204 (Intermediate Spanish II), or SPAN 205 (Intermediate Spanish II for Latino Students). Final placement is conditional upon the instructor's consent. The student's CAPP report will reflect credit for SPAN 101, 102, and 203 after official scores have been received from the College Board. It is the responsibility of each student to ensure that the official AP scores have been sent to Loyola Marymount University.

To know when and how a student should take a language placement exam in Spanish, please refer to the guidelines provided under Modern Languages and Literatures.

Study Abroad

Students are strongly encouraged to take language courses abroad for a semester either during their sophomore year (Spring semester) or junior year (Fall or Spring semester). Prior to departure, students must obtain transfer credit approval for any courses that they plan to take. No more than two Spanish courses will transfer for the major. Consult the Study Abroad Office or the Spanish language professors for information about semester, year-long, or summer study abroad programs offered by other universities other than those that the Spanish program endorses.

Spanish Model Four-Year Plan

The normal course load is 15 semester hours per semester (5 classes). By following the model below, a student who places at the second semester level of Spanish (SPAN 102) at the time of admission into our program will complete most major prerequisites and all lower division core requirements by the end of the sophomore year. Students with no previous knowledge of Spanish will be able to complete the program in four years if they are willing to take a Spanish course approved by our department, either abroad or at another institution during the summer. Note that core areas are suggested to provide a distribution of various disciplines every semester. Please be flexible implementing these suggestions, given your own interests and course availability. In four years, this plan meets all common graduation requirements.

Spanish Model Four-Year Plan

For students starting at an advanced level of proficiency

The normal course load is 15 semester hours per semester (5 classes). By following the model below, a student will complete all lower division core requirements by the end of the sophomore year as well as most major prerequisites. Note that core areas are suggested to provide a distribution of various disciplines every semester. Please be flexible implementing these suggestions, given your own interests and course availability. In four years, this plan meets all common graduation requirements.

Students may take no more than **ten upper division** courses in any one department, except for Philosophy, in which the maximum is thirteen.

Peace Studies

Director

Daniel L. Smith-Christopher

Objectives

In order to accommodate the significant diversity in approaches to peace and justice, Loyola Marymount University's Peace Studies program is a contract-based minor that is arranged on an individual basis, working with the particular interests and study areas of each student. Students may choose from a variety of courses that relate to chosen fields of

interest and emphasis, drawing from programs such as Political Science, History, Ethnic Studies, Theological Studies, Philosophy, Classics, English, Sociology, and any number of other departments. The proposed contract, with the suggested list of courses, must be accepted in writing by both the Director of the Program and the Dean of the Bellarmine College of Liberal Arts before the minor is officially entered in the academic record of each student who wishes to enter the program.

Minor Requirements

18 semester hours (6 courses) are required for the minor. There are no required courses, but it is strongly suggested that students take THST 304, War and Peace in the Bible, as a foundation course for the program. There is a limit of 2 courses (6 semester hours) in lower division courses, and a single 400-level course is strongly encouraged. A Thesis/Independent Study option is available to fulfill this recommended course, to be arranged with the Director.

Peace Studies Student Learning Outcomes

Peace Studies minors will know:

- The approaches to war and peace of various religious traditions
- Nonviolence and Nonviolent Strategy as exemplified by Gandhi or Dr. King
- The significance of personal values arising from a commitment to peacemaking that may be applicable to one's personal as well as social life.

Peace Studies minors will be able to:

- Suggest skills and activities that may contribute to minimizing the potential for conflict and contribute to peacemaking in a given conflict situation
- Present a coherent defense of the values of peace within selected traditions, both religious and political.

Peace Studies minors will value:

- The diversity of approaches relevant to peacemaking skills
- The historical contributions made by peacemakers in the past, and assess their contributions to continued thought in Peace Studies
- The unique legacy of nonviolence in world history
- The varied Christian traditions of peacemaking and nonviolence as a theological as well as social value
- Contributions to peacemaking that are unique to their own tradition, if non-Christian (e.g., Jewish, Islamic, Buddhist).

To demonstrate the attainment of these learning outcomes, students submit a portfolio of class papers, tests, and other assignments from the six courses approved by the Director for their minor. Please direct all questions to the Director of Peace Studies.

Philosophy Graduate Program

Mission Statement

The M.A. program at Loyola Marymount University is marked by three emphases: the history of Philosophy, including recent and contemporary continental philosophy; ethical studies; and philosophy informing and informed by the Catholic and Jesuit tradition. Our students are invited to acquire a solid grasp of the history of Philosophy, both Western and Eastern, and to pursue specialized studies of a range of philosophical issues and figures. The program is designed for students who seek the comprehensive background and training required for admission to and success in a Ph.D. program in Philosophy, as well as for those who wish to complement their studies in related disciplines with the Master of Arts in Philosophy. A special feature of our M.A. Program is our commitment to imparting to students the skills associated with effective teaching as they broaden and deepen their philosophical understanding.

The Department

The Loyola Marymount University Department of Philosophy has a long-standing commitment to excellent teaching, careful advising, and productive scholarship, and is dedicated to providing a collegial and friendly environment conducive to ongoing intellectual development. We encourage both students and faculty to engage in collaborative inquiry and discussion. While the department as a whole values a strong foundation in the history of philosophy, it is pluralistic in its orientation. The Department is distinguished by its desire to familiarize students with the full range of philosophical traditions and issues: western and eastern, continental and analytic. The special interests of our faculty cover a broad range of systematic topics and historical periods, providing resources for a wide variety of specialized studies.

Admission Requirement

1. The General Test of the Graduate Record Examination (GRE) (waived for some foreign applicants).
2. Demonstration of undergraduate competence in Philosophy, as evidenced by the completion of an undergraduate major or minor in Philosophy, or strong undergraduate preparation in a closely related field. The competency of students with non-traditional backgrounds will be determined in interviews with the Program Director.
3. An undergraduate GPA of 3.0.
4. An application, an application fee, and two letters of recommendation testifying to the student's aptitude for graduate studies in Philosophy, from professors familiar with the student's undergraduate work in Philosophy.
5. A personal statement, of no more than four typed pages, on why the applicant wishes to pursue philosophical studies at the graduate level. Applicants should indicate in their statements their intention to pursue either a terminal M.A. or to seek admission to a Ph.D. program after earning the M.A.
6. A writing sample of approximately 10 typed pages, preferably of philosophical writing.
7. The deadline for the receipt of all materials is March 15 for the Fall semester and November 1 for the Spring semester.

Financial Assistance

Every student admitted into the program is considered for tuition assistance. The amounts of the grants vary and are awarded on the basis of both merit and need. One Research Assistantship is awarded each year. Teaching Fellowships may be awarded to students who participate in the Teacher Orientation Program (TOP). Students may also apply for a number of on-campus jobs reserved for graduate students. Rains Research Assistantships (60 hours per semester, 120 hours per year) may be obtained by arrangement with individual professors.

Degree Requirements

The two-year program requires 30 credit hours of course work (10 – 600 level courses), successful completion of a reading proficiency examination in French, German, Latin, or Greek, and successful completion of an oral examination. Students are expected to take six courses in their first year, and four in their second. Students may complete their credit requirement with their own choice of graduate courses. A portion of the course requirement may be fulfilled by graduate course work in the Departments of English or Theological Studies, or in the Bioethics Institute,

with the approval of the Program Director. Students must maintain a 3.0 GPA to remain in good standing.

Teacher Orientation and Practicum (TOP)

Students may elect to participate in the TOP Program. Students who wish to be considered for a Teaching Fellowship in their third semester must participate in the TOP Program. The aim of TOP is to introduce students to the practical and pedagogical tasks involved in teaching at the undergraduate level, and to provide basic instruction in the effective performance of those tasks. TOP is administered by members of the Department of Philosophy. It includes both instructional sessions and practical applications. The instructional sessions provide guidelines for the preparation of course descriptions and syllabi, assignments and examinations, and for the grading of assignments and examinations. In addition, they offer guidelines for the preparation and delivery of lectures and the conduct of classroom discussions. The practical applications include: interviews with faculty members about their approaches to teaching and their methods, their successes and their failures; preparation of sample course descriptions and syllabi; preparation and delivery of a lecture, with optional videotaping, and a final review of the student's performance. Students participate in TOP in the second and third semesters of the M.A. Program and receive a Certificate of Participation upon completion of the program.

Oral Examination

The Oral Examination is a one-hour oral, conducted by three faculty members. Its aim is to probe, assess, and evaluate a student's own developing epistemological, metaphysical, and ethical positions.

Language Requirement

Before completion of the program students must demonstrate reading proficiency in French, German, Latin, or Greek. Language examinations are offered every semester and may be retaken.

Learning Outcomes of the M.A. Program in Philosophy

Upon successful completion of the M.A. Program in Philosophy, the student

will be familiar with the major figures, movements, positions, and issues characterizing the ancient, medieval, modern, late modern, and contemporary periods in the history of Western Philosophy;

will be able to make intelligent and critical use of the resources and tools required for thorough philosophical research and writing;

will be able to interpret philosophical texts intelligently, critically, and charitably;

will be able to analyze and evaluate philosophical arguments;

will be capable of clear, coherent, and rigorous argumentation and expression in their own philosophical writing;

will be able to communicate their interpretations of philosophical texts and their own critical views confidently in both informal and professional settings;

will be able to engage in fruitful philosophical dialogue and discussion;

will be able to formulate precisely and communicate clearly their own developing positions on the basic epistemological, metaphysical, and ethical questions;

will have a clearer understanding and firmer grasp of the philosophical questions with which they themselves are most deeply concerned;

will be familiar with the range of responsibilities associated with the professional side of the philosophical life.

Philosophy Undergraduate Program

Objectives

Philosophy is a reflective and critical discipline whose aim is to explore fundamental ideas which underlie and penetrate human existence and constitute the deep background of all human endeavors: ideas such as Meaning and Truth, Knowledge and Being, Objectivity and Bias, Good and Evil, Value and Disvalue. Philosophic inquiry into these and related notions is governed by the complementary ideals of analytic precision and comprehensive synthesis, and so it aims to raise these basic notions from their everyday obscurity, to articulate them with logical precision and rigor, and to bind them together into an overarching vision of the nature and purpose of human life.

Accordingly, the Department of Philosophy offers basic courses in Critical Thinking, Human Nature, Ethics, and Contemporary Moral Problems in the core curriculum and a wide variety of courses complementary to studies in a broad range of fields. For convenience, courses are grouped into eight content areas:

- I. Morality, Law, and Politics (320 through 334)
- II. Natural and Social Sciences (341, 342, 343)
- III. Arts and Literature (254, 351, 352, 353, 354)
- IV. Religion and Theology (361 through 368)
- V. History of Philosophy (381, 382, 383, 385, 387)
- VI. Contemporary Movements (421 through 426)
- VII. Major Thinkers (451)
- VIII. Mind and Reality (461 through 464)

Philosophy Student Learning Outcomes

Philosophy students will understand:

- The history of philosophy from the pre-Socratics to modern European thinkers
- Contemporary philosophical movements, issues, and techniques
- Central themes in the primary texts of important philosophers

Philosophy students will be able to:

- Demonstrate written competency in the analysis of philosophical issues
- Apply the tools of logic in the analysis and critical evaluation of philosophical texts
- Synthesize philosophical insights in relation to their own lived experience

Philosophy students will value:

- The contributions of philosophers to civilization
- An understanding of the relationship of philosophy to a variety of areas of human experience such as faith, morality, and culture
- Rigorous philosophical inquiry and reflection in relation to their own self-development, their interactions with others, and the quest for a better world.

Major Requirements

At entry to the University, students may declare the major or minor through the Office of Admission. LMU students wishing thereafter to declare the major or minor must meet with the chair. The chair will ordinarily sign the student's Change of Program petition, provided the student meets certain academic standards that include having a minimum GPA of 2.0 (C), not otherwise being on academic probation, and (for majors) upon completion of an entrance questionnaire.

Required:

The Logic sequence: PHIL 220, 221.

The History of Philosophy sequence—PHIL 381, 383, 385, 387. Students are encouraged to take the History of Philosophy sequence in chronological order.

Five Philosophy electives, at least three of which must be upper division courses taken at LMU.

PHIL 495: Senior Assessment.

Students are strongly encouraged to study a foreign language to enhance their philosophical studies. Programs should be planned in consultation with their faculty advisor.

An average grade of C+ (2.3) must be maintained in Philosophy courses by majors.

Majors may take up to 13 upper division courses in Philosophy.

Honors in Philosophy

To graduate with honors in Philosophy, a Philosophy major must have a minimum GPA in Philosophy of 3.3, enroll in the PHIL 500 Senior Project in place of one of the upper division electives, and receive at least a grade of B+ (3.3) on the project.

Minor Requirements

18 semester hours in Philosophy, of which at least 12 are in upper division courses. Core requirements PHIL 160, 220, and 320 through 330

may be counted towards the minor. An average of C (2.0) must be attained in courses in the minor.

The Department of Philosophy also offers a minor in Ethics for students who wish to explore further the foundations of ethics and ethical issues as they arise in a range of theoretical and applied domains. Philosophy majors and minors may not minor in Ethics.

Philosophy Model Four-Year Plan

The normal course load is 15 semester hours (5 classes). By following the model below, a student will complete all lower division core requirements by the end of the sophomore year as well as PHIL major prerequisites. Note that core areas are suggested to provide a distribution of various disciplines every semester. Please be flexible implementing these suggestions, given your own interests and course availability. In four years, this plan meets all common graduation requirements.

Political Science

Faculty

Chairperson: Evan Gerstmann

Professors: Michael A. Genovese, Evan Gerstmann, Fernando J. Guerra, Seth B. Thompson

Associate Professors: Lance H. Blakesley, Jodi Susan Finkel, Richard Fox, John Parrish, Janie S. Steckenrider, Cassandra Veney

Assistant Professors: Fariel Cherif, Andrew Dilts, Gene Park, Jennifer Ramos

Objectives

The Department challenges and encourages students to:

- be perceptive observers of political life in all its variety and richness;
- seek a systematic understanding of the causes and consequences of political institutions, policies, and behavior;
- develop a moral and ethical perspective that allows them to critically evaluate actions, institutions, and policies; and
- prepare themselves for a life of active citizenship and involvement in creating a more just and humane world.

The Department challenges and encourages its faculty to:

- master the art of teaching,
- contribute to their profession as active scholars and researchers, and
- promote an atmosphere of care and concern for each student inside and outside the classroom.

Both faculty and students share a responsibility for creating a lively and diverse community of scholars marked by civility, mutual respect, and support.

Political Science Student Learning Outcomes

The Political Science Department strives to help all majors:

1. Broaden and deepen their knowledge of political institutions and of the forces that drive political movements, public policy, and public law.
2. Be able to use the major analytic and theoretical frameworks in several subfields of political science in order to effectively describe, explain, and predict political phenomena.
3. Be able to structure and evaluate normative political arguments.
4. Be able to effectively use evidence to analyze empirical political statements.
5. Develop a greater appreciation of the values and factual assumptions that underlie one's own political ideology.
6. Value active and engaged citizenship.

Changes in the Political Science Curriculum

The Political Science curriculum underwent dramatic changes prior to the Fall 2010 entering class. Effective immediately, in our new curriculum, all lower division courses are 3 semester hour classes, and most upper division courses are 4 semester hour classes. In addition, Political Science's new curriculum has consolidated its subfields into four categories. While upper division requirements in the major and minor have changed, the total number of required semester hours to complete the major and minor has remained the same.

For upper division requirements, students now take a total of six upper division courses for the major and three upper division courses for the minor.

Students entering Loyola Marymount University prior to Fall 2010 will also be included in the new curriculum. If current political science students have questions about how this change affects their program of study, contact an advisor in the Political Science Department.

Major Requirements

36 semester hours

- A. Lower Division Requirements: 4 courses (12 semester hours)
 1. Students must take two of the following three courses: POLS 135, 155, and 165. In addition, students must take POLS 210 and 220.
 2. An average grade of C (2.0) must be obtained in these courses.
- B. Upper Division Requirements: 6 courses (24 semester hours), including:
 1. At least one 500-level seminar; and
 2. An average grade of C (2.0) must be obtained in courses included in the major.
- C. Additional Requirements
 1. Students must take at least one course in each of the four subfields in Political Science: Political Thought, American Politics, Comparative Politics, and International and World Politics. These courses can be completed at the upper or lower division level.
 2. Students must take at least four 4 semester hour courses to complete the major.

Minor Requirements

18 semester hours

- A. Lower Division Requirements: 2 courses (6 semester hours)
Students can take any two of the following lower division courses: POLS 135, 155, 165, 210, and 220.
- B. Upper Division Requirements: 12 semester hours
At least two 4 semester hour upper division courses must be taken to complete the upper division minor requirements. The remaining four semester hours may be completed by taking any of the offered upper division courses.
- C. Of the 12 upper division semester hours, at least two courses must fall within two of the four subfields in Political Science: Political Thought, American Politics, Comparative Politics, and International and World Politics.

An average grade of C (2.0) must be obtained in the courses included in the minor.

Specific programs should be planned individually with the advice of a faculty advisor.

Honors in Political Science

Students who attain a GPA of 3.6 or higher, both overall and in the major, are automatically eligible to enroll in the Honors Seminar (POLS 581) in the Fall of their senior year and write an Honors Thesis (POLS 591) in the Spring of the senior year. Other students may be invited to pursue Honors by the faculty. The Honors Seminar is a prerequisite for the Honors Thesis. Students who attain a grade of A- or higher for the Honors Thesis will graduate with Honors in Political Science. Both the Honors Seminar and Honors Thesis count toward the 24 semester hours of upper division course work required of majors.

Secondary Teacher Preparation Program in Social Science (Political Science)

For information on this program, see the Secondary Teacher Preparation Program section in this Bulletin.

Political Science Model Four-Year Plan

The normal course load is 14-16 semester hours (4-5 classes). By following the model below, a student interested in completing the major will complete all lower division core requirements by the end of the sophomore year, as well as most major prerequisites. Note that core areas are suggested to provide a distribution of various disciplines every semester. Please be flexible implementing these suggestions, given your own interests and course availability. In four years, this plan meets all common graduation requirements.

Once a student has enrolled at LMU and declared a Political Science major or minor, only LMU course work or courses from an LMU-approved study abroad program will be accepted for the major or minor.

Students may take no more than 30 upper division semester hours in any one department, except for Political Science, where the maximum is 32, and Philosophy, where the maximum is 39.

Psychology

Faculty

Chairperson: Ronald K. Barrett

Professors: Ronald K. Barrett, Larry C. Bernard, Judith G. Foy, Michael R. Foy, Richard L. Gilbert, Cheryl N. Grills, Joseph Hellige, Ricardo A. Machón, Michael J. O'Sullivan

Associate Professors: Jennifer S. Abe, David J. Hardy, Joseph W. LaBrie, S.J., Michael E. Mills, Vandana Thadani

Assistant Professors: Adam Fingerhut, Máire Ford, Margaret Kasimatis, Nora Murphy

Mission

The Psychology program shares the University's commitment to develop ethical leaders for a culturally diverse world, and contributes to the liberal education of students. Through a comprehensive education in the science of psychology, the Psychology Department seeks to educate the

whole person, pursue academic excellence, advance scholarship, promote service and justice, and encourage life-long learning.

Description

The Psychology Department provides a high quality curriculum emphasizing excellence in teaching and learning. Students majoring in psychology examine in depth many aspects of human and animal behavior, along with the biological, psychological, and sociocultural aspects of behavior. Students are provided the opportunity to apply these perspectives to a variety of individual, family, and community contexts. As students progress through the curriculum, they have opportunities to assist faculty with research and engage in their own research with faculty supervision. The program prepares students for graduate study in psychology and related fields or careers in other professions.

Goals and Objectives

The goals of the Psychology curriculum focus on educating students in the methodology, content, and application of psychological science.

Goal 1: Theory and Methodology in Psychology

Students should:

- Understand the role of psychology as a discipline that uses an empirical approach to knowledge; and
- Use, respect, and value skeptical inquiry, critical thinking, and the scientific approach to understanding behavior.

Knowledge areas students will study/learn:

- Basic research methods and ethics
- History and systems and philosophy of science
- Data analysis and interpretation
- Scientific and critical thinking
- Scientific writing and communication.

Goal 2: Mastery of Content (Discipline Specific Knowledge)

Students should be familiar with:

- Core theoretical approaches and research findings that reflect a biopsychosocial understanding of behavior; and
- More in-depth theoretical approaches and research findings within at least one subject area in psychology.

Core knowledge areas students will study/learn:

- Biological foundations of behavior
- Psychological foundations of behavior
- Social and cultural foundations of behavior
- Biopsychosocial development across the lifespan.

Goal 3: Application of Knowledge and Scientific Method

Students should demonstrate the application of psychological theory, methodology, and findings to:

- An understanding of the whole person, as an individual and as a member of a larger community, society, and culture; and
- The promotion of social justice in these contexts.

Psychology Student Learning Outcomes

Upon completion of the Psychology curriculum, students will demonstrate knowledge of the history, foundations, content, and analytical skills of psychology in their ability to:

1. Demonstrate knowledge of the history, foundations, content, and methods used in Psychology, specifically in the following areas:
 - a. Learning and Cognition
 - b. Biological Psychology (including Neuropsychology, Sensation and Perception, Comparative, and Ethological Psychology)
 - c. Clinical, Abnormal, and Personality Psychology
2. Demonstrate an increased appreciation and understanding of the importance of a scientific approach to understanding human behavior
3. Demonstrate an ability to analyze and critically evaluate the biopsychosocial components of behavior
4. Demonstrate an ability to apply critical thinking in order to
5. understand psychological principles
6. evaluate scientific research, including research presented in the media
7. Demonstrate written communication skills on psychological topics
8. Demonstrate oral communication skills on psychological topics

9. Demonstrate an ability to apply psychological principles, including the consideration of ethics and social justice, to contemporary problems/issues
10. Demonstrate an ability to identify ethical issues and apply ethical principles to research in the following situations:
 - a. when conducting research
 - b. when evaluating research
11. Demonstrate competency in the following aspects of research methods:
 - a. locate and understand past research
 - b. formulate a hypothesis based on past research
 - c. design research to test a hypothesis
 - d. use statistical software to analyze research data
 - e. write complete manuscripts in APA style

Major Requirements

A minimum grade of C (2.0) is required in all courses for the major.

Students may not register for any Psychology course for a third time without the written permission of the Psychology Department Chairperson and the Dean of the Bellarmine College of Liberal Arts.

Pre-major Requirements (12 semester hours):

A minimum grade of C (2.0) is required in the Pre-major Requirements in order to declare or remain a Psychology major. Students must repeat any course in which a grade below C (2.0) is earned.

Introduction to Psychology (PSYC 101)

Critical Thinking (PHIL 220)

Human Anatomy & Physiology (NTLS 150)

Elementary Statistics (MATH 104)

- a. The substitution of a higher level math course is allowed for students who previously completed a math course numbered 112 or higher with a minimum grade of C (2.0).
- b. BIOL 101 or a similar course covering anatomy, physiology, or human biology, may be substituted for NTLS 150 for students who previously completed such a course with a grade of C (2.0) or better.

Lower Division Major Requirements (13 semester hours):

1. Statistical Methods for Psychology (PSYC 241) and Lab (PSYC 243). Prerequisites: Grade of C (2.0) or higher in each: MATH 104, PSYC 100 or 101, 243 or concurrent enrollment.
2. Brain and Behavior (PSYC 251). Prerequisites: Grade of C (2.0) or higher in each: NTLS 150, PSYC 100 or 101, or consent of instructor.
3. Experimental Methods (PSYC 261). Prerequisites: Grade of C (2.0) or higher in each: PHIL 220, PSYC 100 or 101, 241, 243.
4. Nonexperimental Methods (PSYC 265). Prerequisites: Grade of C (2.0) or higher in each: PHIL 220, PSYC 100 or 101, 241, 243.

Upper Division Major Requirements (24 semester hours):

1. Cognition (PSYC 401). Prerequisites: PSYC 251, 261, and 265 (grade of C [2.0] or higher in each).
2. Social (PSYC 410). Prerequisites: PSYC 251, 261, and 265 (grade of C [2.0] or higher in each).
3. Lifespan Development (PSYC 415). Prerequisites: PSYC 251, 261, and 265 (grade of C [2.0] or higher in each).
NOTE: Students must earn a grade of C (2.0) or higher in each of the above three courses before taking other 400- or 500-level PSYC courses.
4. Four additional upper division PSYC courses (12 semester hours). A maximum of 6 of these 12 semester hours may be at the 300 level.
5. Capstone Course: PSYC 510 or 515. Prerequisites: All required courses completed or currently in progress.
6. Senior Assessment: PSYC 595. Prerequisite: Concurrent enrollment in PSYC 510 or 515, or completed with a grade of C (2.0) or higher.

Students may take no more than 30 semester hours of upper division psychology courses.

Honors in Psychology

To qualify for the Honors in Psychology program, a Psychology major must have senior status (completed 90 semester hours or more), a minimum cumulative GPA of 3.5, and a Psychology GPA ranking in the top 10% of senior psychology majors. Eligible students enroll in the Honors Seminar (PSYC 540) in the Fall of their senior year and complete the Honors Research Thesis (PSYC 545) in the Spring of their senior year. The Honors Seminar fulfills the capstone requirement and is a prerequisite for the Honors Research Thesis. PSYC 545 is in addition to the required 24 semester hours of upper division in the majors.

Minor Requirements

MATH 104; NTLS 150; PHIL 220; PSYC 100 or 101, 241, 243, 251, 261, 265; and at least two of the following upper division courses: PSYC 401, 410, 415, or any 300-level PSYC course. Courses are selected in consultation with the Psychology Department Chairperson. A grade of C (2.0) or higher must be obtained in minor courses. All courses fulfilling minor requirements must be taken at Loyola Marymount University. Transfer students are exempt from this requirement only for those courses they have completed prior to admission to Loyola Marymount University.

Psychology Model Four-Year Plan

The normal course load is 15 semester hours (5 classes). By following the model below, a student will complete all lower division core requirements by the end of the sophomore year as well as most major prerequisites. Note that core areas are suggested to provide a distribution of various disciplines every semester. Please be flexible implementing these suggestions, given your own interests and course availability. In four years, this plan meets all common graduation requirements.

Sociology

Faculty

Chairperson: Stacy Lee Burns

Professor: James Faught

Associate Professors: Stacy Lee Burns, Peter Hoffman, Eric Magnuson

Assistant Professors: Nadia Kim, Stephanie Limoncelli, David Marple, Anna Muraco, Rebecca Sager, Rachel Washburn

Objectives

As a department, our objectives are to foster the intellectual development of students and to promote lifetime learning experiences. We do this through teaching and applying the insights of sociological perspectives to achieve a critical understanding of social reality and the human condition.

Our curriculum is designed to explore relationships within society, the social and cultural influences on human behavior, dynamics of interaction, and social institutions and social change in a global context.

Sociology Student Learning Outcomes

Students majoring in Sociology should know:

- The processes and structures that establish the underlying regularities of social life
- How social life is continually reconstructed through opposition and deviance
- The significance of cultural differences in traditional and modern societies
- The origin and development of principal theoretical ideas that inform contemporary sociological inquiries
- The basic methodological and statistical strategies used in contemporary sociology;

Students majoring in Sociology should be able to:

- Recognize how social life is structured in ways that influence choices, opportunities, and action
- Demonstrate an ability to write and speak effectively about contemporary social issues
- Read, assess, and interpret the results of sociological research
- Successfully complete an independent research project that competently draws from current theoretical, methodological, and empirical research;

Students majoring in Sociology should value:

- A knowledge of the range of interests and goals expressed by groups and organizations in society
- The ways in which sociological research may be effectively employed by organizations and institutions
- The application of sociological knowledge in order to enhance the quality of life
- A reasoned participation in community life that is informed by grounded sociological knowledge.

Major Requirements

Lower Division Requirements (12 semester hours):

SOCL 100, 105, 109, 210. A grade of at least C (2.0) will be required in all lower division courses.

Upper Division Requirements:

27 semester hours in upper division courses in sociology which must include SOCL 301, 401, and 495. An average grade of C (2.0) must be obtained in courses included in the major.

SOCL 495 should be taken in the senior year. The remaining 18 semester hours are to be chosen from the six theme areas into which upper division sociology courses are grouped: I. Deviance and Control; II. Social Inequality; III. Urban, Population, and Demographic Processes; IV. Social Structure, Culture, and Process; V. Family and Life Cycle; and VI. Globalization. Students must take at least one course from four of the theme areas. The remaining courses may be taken from any of the upper division offerings.

At least two 300- or 400-level sociology courses must be taken in the senior year.

Minor Requirements

18 semester hours, including SOCL 100 or 105, 109, 301 or 401, and 9 semester hours in upper division courses. An average grade of C (2.0) must be obtained in courses included in the minor. At least one 300- or 400-level sociology course must be taken in the senior year.

Sociology Model Four-Year Plan

The normal course load is 15 semester hours (5 classes). By following the model below, a student will complete all lower division core requirements by the end of the sophomore year as well as most major prerequisites. Note that core areas are suggested to provide a distribution of various disciplines every semester. Please be flexible implementing these suggestions, given your own interests and course availability. In four years, this plan meets all common graduation requirements.

Theological Studies Graduate Program

Mission Statement

The Master of Arts in Theology provides students with a critical understanding of the Christian theological tradition, especially from a Roman Catholic perspective. The program engages students in serious reflection on the broad range of theological studies and methods (biblical, comparative, historical, liturgical, and systematic theology, as well as ethics, spirituality, faith and culture, ecumenical and inter-religious dialogue). The goal of the program is to provide a general and integrated exploration of these areas for students seeking to teach on a secondary level, for students preparing for graduate education, and for students with a strong interest in theology beyond the undergraduate level.

The Master of Arts in Pastoral Theology engages the student in critical theological reflection on ministerial practice as preparation for active ministry in a pluralistic society. The program provides theological foundations in pastoral theology, especially in the Roman Catholic tradition, and integrates the formation of persons preparing for pastoral ministry with their study of the Christian theological tradition (spirituality, liturgy, faith and culture, ethics, as well as biblical, historical, and systematic theology, and ecumenical and inter-religious dialogue). Throughout the program there is a stress on the holistic relationships between pastoral theology, faith seeking critical understanding, and faith that does justice.

Admission Requirements

- **Baccalaureate degree from an accredited institution**
- **Sufficient background in theology or religious studies**
- **Demonstrated ability to do graduate studies**

This last requirement can be fulfilled by providing a range of information including: graduate work completed or advanced degree obtained; evidence of undergraduate work, including GPA and submission of written academic work (e.g., a term paper); scores received on the GRE, the Miller Analogies, or other standardized tests (recommended but not required); a personal interview.

Applicants need to indicate the particular Master of Arts program to which they are applying, either M.A. in Theology (THEO) or Pastoral Theology (PATH).

All applicants for admission to the master's degree programs are required to submit a Graduate Division application and \$50.00 fee; two copies of all post-secondary transcripts; a personal statement; and two letters of recommendation from persons acquainted with the applicant's professional and academic background. All materials should be sent to the Graduate Admissions Office. Applicants who have applied for admission may be formally admitted or may be required to fulfill prerequisites before being formally admitted.

All materials for admission must be received in the Graduate Admission Office by the date listed below. Applications received after this deadline will be reviewed on an individual basis.

March 1 for the Fall semester

Students may take graduate courses in non-degree status with permission of the Graduate Director.

Degree Requirements

MASTER OF ARTS IN THEOLOGY (42 sem. hrs.)

CORE COURSES (7 courses—21 sem. hrs.) in categories A through G:

A) THST 600	Foundations of New Testament Theology
	or
THST 603	Foundations of Old Testament Theology
B) THST 620	Foundations of Historical Theology
	or
	any one course from the 620s
C) THST 630	Introduction to Systematic Theology
D) THST 660	Foundations of Christian Moral Life
E) THST 692	Graduate Pro-Seminar (3 sem. hrs.) (usually taken during the first semester)
F) THST 695	Comprehensive Exam Seminar (3 sem. hrs.) (taken after completing 36 semester hours minimum)
G) THST 696	Directed Research Seminar (3 sem. hrs.) (taken after completing 36 semester hours minimum)

THEOLOGY ELECTIVES (21 sem. hrs.)

Theology students are to complete an additional 21 semester hours for a total of 42 semester hours.

COMPARATIVE THEOLOGY CONCENTRATION

An option for Students in the M.A. in Theology

M.A. in Theology students may choose to take elective courses that develop a concentration in Comparative Theology. The concentration in Comparative Theology serves students who wish to focus their program more specifically around questions of religious diversity, inter-religious dialogue, world religions, and comparative theology.

The concentration is comprised of four courses (12 semester hours), one (1) required course (THST 680: Comparative Theology), and three (3) other approved courses, which the student chooses in conjunction with the academic advisor. Students must also fulfill core requirements as listed above, items A through G.

COMPARATIVE THEOLOGY CONCENTRATION—COURSE OFFERINGS

Students who choose to do this Concentration are required to take:

THST 680	Comparative Theology
----------	----------------------

In addition, students are required to take three (3) of the following (or other courses approved by the academic advisor in concert with the graduate director):

THST 610	World Religions
THST 611	Islam
THST 612	Indic Religious Traditions: Hinduism
THST 613	Buddhism and Jainism
THST 614	Judaism
THST 615	Classics of Chinese Philosophy (see PHIL 606)

THST 616	Interreligious Dialogue
THST 619	Readings in Religious Literature
THST 643	Feminist Theology: World Perspectives
THST 681	Comparative Religious Ethics
THST 682	Comparative Mysticism

MASTER OF ARTS IN PASTORAL THEOLOGY

CORE COURSES (8 courses—24 sem. hrs.) in categories A through H:

A) THST 600	Foundations of New Testament Theology <i>or</i> Foundations of Old Testament Theology
THST 603	Foundations of Old Testament Theology
B) THST 630	Introduction to Systematic Theology
C) THST 660	Foundations of Christian Moral Life <i>or</i> one course from the Historical area (620s)
D) THST 670	Foundations of Pastoral Theology
E) THST 675	Spiritual Formation for Pastoral Ministry
F) THST 692	Graduate Pro-Seminar (3 sem. hrs.) (usually taken during the first semester)
G) THST 689	Supervised Pastoral Field Education (3 sem. hrs.) (student must have completed at least 27 semester hours in order to take this course)
H) THST 691	Pastoral Synthesis Seminar (3 sem. hrs.) (student must have completed at least 36 semester hours in order to take this capstone course)

PASTORAL THEOLOGY ELECTIVES

(18 sem. hrs.)

Pastoral Theology students are required to take one three-semester-hour course in either Liturgy, Religious Education, or Spirituality and select other elective courses offered by the Department of Theological Studies after consultation with their advisor.

The program is designed to allow a student to pursue general interests or a particular concentration. Concentrations are offered in two areas: 1) Pastoral Leadership and 2) Spiritual Direction. Under special circumstances, students may take up to two courses (six semester hours) outside the department.

SPIRITUAL DIRECTION CONCENTRATION

An option for Students in the M.A. in Pastoral Theology

This concentration is designed for anyone enrolled in the Master of Arts in Pastoral Theology who would like to acquire the art of spiritual direction, a ministry of accompanying others in their spiritual journey. The purpose of the concentration is twofold: 1) to provide a course of studies that integrates theology, Scripture, psychology, spirituality, skills acquisition and supervision in the art of spiritual direction and 2) to assist participants to discern whether they are being called to the ministry of spiritual direction.

Upon successful completion of the four required courses listed below, participants will be able to designate that their Master of Arts in Pastoral Theology included a concentration in spiritual direction training.

Students who wish to concentrate their electives in spiritual direction would take the following courses. NOTE: THST 685, Theory and Practice, needs to be taken first; THST 688, Practicum and Supervision, needs to be taken last. The other two courses can be taken whenever opportune, after completing the first course.

THST 685	The Theory and Practice of Spiritual Direction
THST 686	Ignatian Spirituality (prerequisite: THST 685)
THST 687	Psychological Foundations of Spiritual Direction (prerequisite: THST 685)
THST 688	Practicum and Supervision in Spiritual Direction (taken after completion of the three courses listed above)

PASTORAL LEADERSHIP CONCENTRATION

An option for Students in the M.A. in Pastoral Theology

Description:

The concentration is made up of four courses (12 semester hours) that the student chooses from the set of approved courses listed in the Bulletin for this Concentration.

The concentration is designed to educate those who will serve (or who currently serve) as leaders in pastoral settings, either as leaders in specialized ministries or as leaders in general ministry positions. Examples of leaders in specialized ministry: Directors of Religious Education, Direc-

tors of Youth Ministry of Campus Ministry, Directors of Catechumenate/RCIA. Leaders in generalist ministries include pastors and Pastoral Associates who are assigned a variety of general duties according to need.

The concentration is deliberately open to the students to design under the guidance of the academic advisor. In this way, students who find themselves actively engaged in, or aspiring to, leadership ministries within schools or parishes will choose courses for the concentration that fit their current or aspired ministry commitments.

Pastoral Leadership Concentration Course Offerings

THST 670	Foundations of Pastoral Theology (graduate core course)
----------	---

Students are required to take:

THST 674	Pastoral Leadership
----------	---------------------

Students are required to take any two (2) of the following:

THST 650	Liturgical Theology: History and Interpretation
THST 652	The Rites
THST 671	Pastoral Approaches to Religious Education
THST 673	Faith and Culture: Catechesis in Southern California
THST 677	Pastoral Liturgy
THST 678	The Theology of the Parish
THST 679	Special Topics in Pastoral Theology
THST 687	Psychological Foundations of Pastoral Ministry

Pastoral Synthesis Project (PT capstone)

The Pastoral Synthesis Project is the required capstone experience for all Pastoral Theology students. The project is designed to elicit familiarity with scholarly sources and pastoral analysis of issues that impact the contemporary practice of ministry. The project is not solely a research paper nor a reflection paper, but a synthesis of both. The project is typically done in the last semester of the Pastoral Theology program.

Learning Outcomes

M.A. in Theology

Students will know the basic contours of:

- Biblical Theology
- Systematic Theology
- Theological Ethics
- Historical Theology
- Comparative Theology
- Theological Method

Students will be able to:

- Perform biblical exegesis with attention to historical contexts, the history of interpretation, and contemporary theological developments
- Engage in critical theological reflection on major systematic themes
- Demonstrate a clear grasp of significant developments in the history of the church
- Describe the work of seminal thinkers in the history of Christian ethics and analyze contemporary moral problems
- Demonstrate familiarity with other (non-Christian) religious traditions
- Recognize and employ various theological methods

Students will value:

- Critical fidelity within the Roman Catholic tradition
- Ecumenical and inter-faith dialogue
- Creative tension between theological unity and diversity

M.A. in Pastoral Theology

Students will know the basic contours of:

- Pastoral Theology
- Critical approaches to Biblical Theology and Systematic Theology
- Either Theological Ethics or Historical Theology
- Theological Method

Students will be able to:

- Assess pastoral situations from a critical stance
- Reflect on ministerial practice in a pluralistic society

- Engage in biblical exegesis with attention both to historical contexts and contemporary pastoral contexts
- Reflect critically on the praxis of faith, particularly within the Roman Catholic context
- Discuss the main contours of either church history or of theological ethics, especially as they relate to ministerial practice
- Integrate theological vision, critical understanding, and a faith attentive to justice

Students will value:

- The significance of ecclesial community for pastoral practice
- An integrated formation of the person for pastoral ministry
- A pluralistic approach to pastoral ministry

Theological Studies Undergraduate Program

Mission Statement

The Department of Theological Studies engages the LMU student community in thoughtful, critical reflection on faith and religious praxis with a special concern for the Roman Catholic tradition. It offers courses in three areas: A. Sacred Scriptures, Religious Sources, and Traditions; B. Theology, Ethics, and Spirituality; and C. Faith, Culture, and Ministry. We educate the whole person and serve faith by an academic exploration of its possibilities, challenges, and ambiguities while also engaging in ecumenical and interreligious dialogue. We strive to promote justice by the structure of our curriculum and by encouraging students and faculty to engage their theological understanding in a world both graced and broken.

Vision Statement

Loyola Marymount University is the largest Catholic university on the West Coast, in a city that is at once the large Roman Catholic archdiocese in the United States as well as one of the most religiously diverse cities in the world. The Department of Theological Studies has the unique role and responsibility of promoting the study of theology and religion within the University and the broader Los Angeles community. The Department also has a special role to play in helping the University to live out its Mission in the service of faith and the promotion of justice. The urgency of these endeavors is reinforced by the importance of religion in the 21st century in our globalized world.

Program Goals

1. To maintain a challenging and current curriculum for our Majors to provide them with a foundation for pursuing careers as teachers, ministers, or for graduate work in Theological Studies;
2. To maintain a challenging and current curriculum for our Minors to provide them with a solid understanding of theology and religious studies, ethical values, social justice, and spirituality;
3. To maintain a current and challenging set of core curriculum courses that contribute to fulfilling the mission of Loyola Marymount as a Catholic liberal arts University.

Student Learning Outcomes

By virtue of their Theological Studies courses, students should know:

- The beliefs and practices of Christianity, with emphasis on the Catholic Tradition.
- Some of the beliefs and practices of the world's religions.
- Some aspects of how culture, race, gender, class, and ethnicity affect theological reflection.

By virtue of their Theological Studies courses, students should be able to:

- Interpret critically theological and/or religious texts and phenomena through research and writing.
- Express orally and in writing the significance of theological and religious values for church, society, and/or self.
- Integrate religious meaning and lived practice.

By virtue of their Theological Studies courses, students should value:

- The Catholic theological tradition.
- Ecumenical and interreligious dialogue.
- The promotion of justice and the service of faith.

Major Requirements

The undergraduate major consists of 36 semester hours total (12 courses).

Lower Division Requirements (6 semester hours):

- THST 100: Introduction to the Old Testament (3 semester hours)
- THST 110: Introduction to the New Testament (3 semester hours) (Normally, THST 100 and 110 are taken at the beginning of the program of study.)

Upper Division Requirements (30 semester hours):

Required Upper Division Courses (9 semester hours)

THST 320: History of Christianity I (3 semester hours)

THST 321: History of Christianity II (3 semester hours)

(Students are encouraged to take this sequence in their Sophomore or Junior year.)

THST 496: Senior Integrating Seminar (3 semester hours) (for graduating seniors)

Distribution Requirements (18 semester hours, at least 12 of which must be 400-level)

Area A: Sacred Scriptures, Religious Sources, and Traditions—two courses (6 semester hours)

Area B: Theology, Ethics, and Spirituality—three courses (9 semester hours)

Area C: Faith, Culture, and Ministry—one course (3 semester hours)

One additional upper division THST course of the student's choice (3 semester hours)

An average grade of C (2.0) must be obtained in the courses included in the major.

We highly recommend that students wishing to pursue graduate study in Theology have a reading knowledge of two languages, either classical or modern.

We further recommend that additional philosophy courses be taken as early as possible. The specific courses are to be determined in conjunction with the student's Theological Studies advisor.

Theology Minor Requirements

18 semester hours with at least 12 semester hours from upper division courses, including six semester hours at the 400 level. The courses for the minor must be selected in conjunction with the Theological Studies advisor for minors.

Lay Ministry Minor Requirements

18 semester hours with at least 15 semester hours from upper division courses, including six semester hours at the 400 level. The courses for the minor must be selected under the direction of the faculty advisor for the Lay Ministry Minor. The student must select no more than two courses from each of areas A, B, and C (see above).

In addition, the student will be required to participate in 90 hours of active service in related fields of lay ministry. This will be under the direction of the faculty advisor and contracted through the Career Development office.

An average grade of C (2.0) must be obtained in the courses included in the minors.

Catholic Studies Minor

Students with particular interest in Catholic Studies are encouraged to consider the Catholic Studies Minor described in this Bulletin.

Jewish Studies Minor

Students with particular interest in Jewish Studies are encouraged to consider the Jewish Studies Minor described in this Bulletin.

Theology Society

The Theology Society is a co-curricular student group open to all Theological Studies undergraduate majors and minors, as well as non-majors/minors who are interested in theological issues and topics. The group convenes monthly, typically sharing lunch and discussion, often with a guest speaker. The group also organizes various outings as opportunities for students to socialize with one another and with Theological Studies faculty. The Theology Society hosts annual visits from admissions representatives from graduate theological programs around the country for interested students. The Theology Society's members also participate in an annual paper competition sponsored by the Depart-

ment of Theological Studies, in which the winning paper is presented to faculty and students each Spring.

Theta Alpha Kappa

LMU's Department of Theological Studies is an institutional member of Theta Alpha Kappa, the only national honor society serving the needs of those involved in the study of religion and/or theology. The membership of Theta Alpha Kappa is composed of students and professors who have been elected to membership upon the basis of excellence in Theology and Religious Studies. Each Spring the department inducts eligible students into this honor society.

Undergraduate Admission Qualifications:

1. Completion of at least three semesters at LMU
2. Successful completion of 12 semester hours of THST course work
3. Cumulative GPA of at least 3.0
4. GPA of at least 3.5 in THST course work

Core Curriculum in Theological Studies

One course from THST 100-199;

One course from THST 300-399 (Junior standing required).

Only courses in the 100 series and 300 series will fulfill the core curriculum requirements. All 400-level courses have a prerequisite of one 300-level course. The 400-level courses fulfill major or minor requirements. Except for those entering LMU as a transfer student, no student may take a 300-level course without successful prior completion of a 100-level course.

For students interested in the study of Catholicism in the core curriculum, the Theological Studies Department offers three courses, THST 120, 326, and 345, which are designed to study the Catholic tradition. For the non-majors who wish a core sequence in Catholic Theology, we recommend THST 120 and either 326 or 345.

Theological Studies Model Four-Year Plan

The normal course load is 15 semester hours (5 classes). By following the model below, a student will complete all lower division core requirements by the end of the sophomore year as well as most major prerequisites. Note that core areas are suggested to provide a distribution of various disciplines every semester. Please be flexible implementing these suggestions, given your own interests and course availability. In four years, this plan meets all common graduation requirements.

Urban Studies

Director

Peter R. Hoffman

Faculty

Associate Professor: Peter R. Hoffman

Assistant Professor: Mona Seymour

Objectives

As an interdisciplinary program, Urban Studies encourages students to examine urbanization and the multitude of issues inherent in urban life from the perspectives of a wide range of disciplines and methodological traditions. The critical analysis of urban issues helps students evaluate the various political, sociocultural, and economic strategies available to urban planners, local governments, law enforcement agencies, and others seeking to remedy the problems of contemporary cities.

The curriculum of the Urban Studies program, including its internship program, allows students to take advantage of one of LMU's greatest assets: the many linkages that connect LMU to the extraordinarily dynamic, multicultural metropolitan area surrounding the University. Los Angeles is both an educational resource and a laboratory for Urban Studies students.

Career options for Urban Studies majors may be found in local government, law enforcement, real estate development, and urban social ser-

VICES. The major is also appropriate preparation for students seeking careers or graduate education in urban planning, public administration, social welfare, policy analysis, or the law.

Urban Studies Student Learning Outcomes

By virtue of their Urban Studies Program courses, students should know:

- The general history of urbanization and its associated economic and demographic processes
- The structures and expressions of urbanization and urban life associated with modern and postmodern cities
- The structures and expressions of urbanization and urban life associated with cities of the developed realms/core and those associated with cities of the less developed realm/periphery
- The basic research questions and agendas associated with the various disciplines contributing to our understanding of urban issues
- The general expressions of urbanization and urban life associated with contemporary Los Angeles
- The common theories, practices, and methodologies employed in contemporary urban planning and policy analysis;

By virtue of their Urban Studies Program courses, students should be able to:

- Effectively employ contemporary social science methodology in the analysis of urban issues
- Demonstrate written and oral competencies in the analysis of urban issues and policy
- Identify and utilize appropriate primary data, including census materials, for the analysis of urban issues
- Apply their understanding of urban issues to the development and critical analysis of programs and policies appropriate to addressing contemporary social and economic problems
- Successfully pursue graduate education in such areas as urban planning, public administration, policy analysis, social welfare, and the law upon completion of their major;

By virtue of their Urban Studies Program courses, students should value:

- Diverse perspectives in the analysis and assessment of urban issues and policies
- Thoughtful analysis of the implications of urbanization and urban policy in the context of social justice and sound environmental practices
- Rigorous, scientific research that enlightens the experience of urban populations and contributes to the resolution of the social and environmental problems associated with urbanization
- Community-based participation in the development of programs and policies that contribute to the social, economic, political, and environmental improvement of their communities and cities.

Major Requirements

Lower Division Requirements:

15 semester hours:

URBN 125 and 135;

AFAM 115 or APAM 117 or CHST 116;

SOCL 109 and 210.

A grade of C (2.0) will be required in all lower division major courses. It is recommended that students majoring in Urban Studies complete ECON 100, 105, 110, or 120 in partial fulfillment of the University Core Curriculum requirement in social science.

Upper Division Requirements:

24 semester hours in upper division courses, including:

URBN 345, 347, 455, and 456;

and 12 semester hours in one or more of the following areas:

1. Law and Justice:

POLS 336	The Judiciary
POLS 471	U.S. Constitutional Law: Case Method I
POLS 472	U.S. Constitutional Law: Case Method II
SOCL 322	Deviant Behavior
SOCL 356	Sociology of Law
SOCL 422	Criminal Justice
SOCL 423	Criminal Law
SOCL 424	Crime and Delinquency

2. Urban Politics, Public Administration, and Policy Analysis:

CHST 337	Racial and Ethnic Politics
CHST 437	Chicana/o Politics
ECON 356	Urban Economics
POLS 340	Public Administration
POLS 341	Race, Class, Culture, and Public Policy
POLS 345	Urban Politics
POLS 436	Politics of Los Angeles
POLS 440	Public Policy Analysis
SOCL 354	Social Organization

3. Urban Culture:

HIST 367	History of Los Angeles
SOCL 340	Urban Sociology
SOCL 341	Community
SOCL 348	Urban Anthropology
SOCL 349	Research in Urban Society
URBN 365	Metropolitan Los Angeles

4. Urban-Ethnic Communities:

APAM 427	Asian American Psychology
CHST 308	Contemporary Urban Chicana/o and Other Latina/o Issues
ECON 374	Economic Development of Minority Communities
SOCL 334	Race and Ethnic Relations
SOCL 335	Sociology of the Black Community

5. Urban Planning:

ECON 330	Regression Analysis
ECON 334	Business Forecasting
ECON 532	Econometrics
SOCL 342	Demography and Population Analysis
SOCL 371	Social Ecology

An average grade of C (2.0) must be obtained in the upper division courses included in the major.

Minor Requirements

18 semester hours, including URBN 125, 135, 345, 347, 455, and 3 semester hours in upper division courses selected from one or more of the areas of specialization.

An average grade of C (2.0) must be obtained in the courses included in the minor.

Urban Studies Model Four-Year Plan

The normal course load is 15 semester hours (5 classes). By following the model below, a student will complete all lower division core requirements by the end of the sophomore year as well as most major prerequisites. Note that core areas are suggested to provide a distribution of various disciplines every semester. Please be flexible implementing these suggestions, given your own interests and course availability. In four years, this plan meets all common graduation requirements.

Women's Studies

Faculty

Chairperson: Nancy W. Jabbra
 Professor: Nancy W. Jabbra
 Assistant Professor: Stella Oh

Objectives

The mission of Women's Studies at Loyola Marymount University is to engage students in a critical understanding of the complex ways gender shapes the world around them, particularly in relation to race, sexuality, class, and other social factors. Women's Studies invites all students to participate in a vibrant interdisciplinary program of study that places women at the center of traditional disciplines in which they have been historically marginalized. It encourages the critical examination of academic fields such as the humanities, social sciences, natural sciences, and the arts, together with the gendered assumptions that underwrite them. Further, Women's Studies proposes not only that we ask different questions of academic disciplines from the perspective of women, but also that we transform those fields and ways of knowing through the innovative theoretical tools and new methodologies that have been developed by feminist scholars and activists over the past thirty years. As a department committed to transformation through education, the mission of Women's Studies is to call attention to the androcentric nature of society, propose alternatives and strategies that honor women's human rights, and promote a vision of society where gender hierarchy, as well as other forms of social injustice, are eliminated. Grounded in feminist pedagogy, Women's Studies courses provide students with a broad understanding of the asymmetry of gender relations within diverse historical and cultural contexts. Our mission is to foster a vigorous intellectual environment where students can develop their analytical thinking skills and conceptual tools for social change.

Women's Studies Student Learning Outcomes

After completing their program in Women's Studies, students will have:

- Acquired a critical understanding of the complex ways gender shapes the world, particularly in relation to race, sexuality, class, and other social factors
- Acquired a strong commitment to social justice for women of all ethnicities
- Learned new methodologies and theoretical tools
- Learned to express themselves well both orally and in writing.

Major Requirements

Lower Division Requirements: 12 semester hours

WNST 100, 101, and 200, plus one of the following for the Lower Division Health and Sexualities Requirement: WNST 220 or 222.

Upper Division Requirements: 24 semester hours

WNST 301, 302, 351, and 497.

Upper Division Options: 12 semester hours

Choose 9 semester hours (3 classes) from one of the following clusters, plus 3 semester hours (1 class) from one of the others. Please note that some classes are listed in more than one cluster. Students may take such classes for credit in only one cluster. At times a special studies class may be taken in lieu of one of the electives listed below. Please consult the Department for advice.

Note: One of the upper division options must include WNST 303 or another History of Women class. If History of Women is chosen as a cluster, then the student must choose one course from another cluster.

History of Women: WNST 303, 361, 362, 363, 364, 365, 366, or 461.

Transnationalism and Women in the Third World: WNST 346, 347, 431, 452, or 454.

Gender at the Intersection of Race, Ethnicity, Class, and Sexuality: WNST 341, 342, 343, 344, 345, 348, 349, 440, 445, 453, or 461.

Feminist Aesthetics, Literature, and Cultural Studies: WNST 311, 331, 332, 334, 335, 336, 337, 343, 411, 430, or 431.

Social Movements, Social Justice, and Public Policy: WNST 347, 451, 454, or 490.

Feminist Theology and Philosophy: WNST 361, 370, 371, 372, or 373.

Total: 36 semester hours. Women's Studies majors should have a minimum of a C (2.0) in all Women's Studies classes.

Please note that cross-listed courses may have departmental prerequisites; consult departments for details.

Minor Requirements

18 semester hours, including WNST 100 or 101, 301, and 497. At least 12 semester hours must be in upper division courses. A minimum grade of C (2.0) must be earned in both WNST 100 and 497. An average grade of C (2.0) must be earned in the Women's Studies minor courses.

Please note that cross-listed courses may have departmental prerequisites; consult departments for details.

Women's Studies Model Four-Year Plan

The normal course load is 15 semester hours (5 classes). By following the model below, a student will complete all lower division core requirements by the end of the sophomore year as well as most major prerequisites. Note that core areas are suggested to provide a distribution of various disciplines every semester. COLLEGE OF BUSINESS ADMINISTRATION

Administration

Dean: Dennis W. Draper

Associate Deans: Mahmoud M. Nourayi (Undergraduate), Rachelle Katz (Graduate), William Lindsey (Center for Executive Learning)

Directors: John Daly, S.J. (Center for Asian Business); Lawrence P. Kalbers (Center for Accounting Ethics, Governance, and the Public Interest); Fred Keisner (Fred Keisner Center for Entrepreneurship); Thomas White (Center for Ethics and Business)

Organization

The College has four Departments, four Centers, and one Program, an MBA Program, and an Executive MBA Program, each led by a Chairperson or Associate Dean:

Department of Accounting

Department of Finance and Computer Information Systems

Department of Management

Department of Marketing and Business Law

Center for Accounting Ethics, Governance, and the Public Interest

Center for Asian Business

Center for Ethics and Business (courses and activities are offered through the Departments)

Fred Keisner Center for Entrepreneurship (courses are offered through the Departments)

Graduate Degree Program

The College offers the Master of Business Administration in different formats. The traditional MBA addresses the educational demands of persons who recognize the need to continue to build their careers. The Executive MBA (EMBA) is for the experienced business leader who aspires to executive-level responsibility.

Baccalaureate Degree Program

The College offers three Baccalaureate Degrees: Bachelor of Business Administration (B.B.A.) with majors in Entrepreneurship, Finance, Marketing, and Management; the Bachelor of Science (B.S.) with a major in Applied Information Management Systems; and the Bachelor of Science in Accounting (B.S.A.).

The Vision and Mission of the College of Business Administration

The vision of the College is to be recognized as a leading College of Business Administration within a Catholic university through our commitment to learning, values, and research. The underlying theme is the development of ethical leaders for a diverse, technologically-driven, global economy. These statements confirm our commitment to the principles of continuous improvement. The primary focus is on excellence in instruction and learning.

The mission of the College is to continuously develop an environment in which all stakeholders learn and grow together and contribute to an understanding of:

The global economy,

The business theories and practices which explain its operations,

The decision models and analytical frameworks for meeting ethical challenges,

The importance and interdependence of people in the work environment,

The technologies that stimulate change, and

The skills and management tools needed to manage an enterprise successfully.

The mission of the **undergraduate programs** is to:

Assist students of high potential experience personal growth in the acquisition of knowledge in a broad range of subjects based on the

University core curriculum and an integrated business curriculum;

Assist students to develop technical, analytical, and interpersonal skills and personal qualities and values to realize their potential as future leaders in a global economy; and

Graduate students who are able to demonstrate a depth of understanding in their primary field of interest.

University Core Curriculum for the Baccalaureate Degree in the College of Business Administration

American Cultures

3 Semester Hours

Course Selection

First- and second-year students choose from any lower division course (100s or 200s) listed. Third- and fourth-year students choose from any upper division course (300s or 400s) listed. A single course will generally not fulfill two core requirements. The only exception is a course that satisfies another core requirement, which is also cross-listed as AMCS (please see the Associate Dean's Office for details).

College Writing

3 Semester Hours

Course Selection

ENGL 110 will fulfill the college writing requirement. ENGL 100 will not fulfill the college writing requirement but is required of certain students based on their performance in the essay written in all ENGL 110 sections during the first week of classes. A minimum grade of C (2.0) is required in ENGL 110. All students who receive a grade of C- or lower must retake ENGL 110 as soon as possible.

Choose: ENGL 110.

Communication

3 Semester Hours

Course Selection

Choose: CMST 140.

Critical and Creative Arts

6 Semester Hours

Course Selection

This requirement is satisfied by taking one course from Critical Arts and one course from Creative Arts.

Critical Arts:

Choose from ANIM 100; ARHS 200, 201, 202, 321, 340, 345; DANC 281, 381; FTVS 210, 314, 315; MUSC 102, 104, 303, 365; THEA 240, 245, 331, 336, 341, 346, 347, 348, 349, 430.

Creative Arts:

Choose from ANIM 120, 220; ART 150, 151, 153, 278, 280, 350; DANC 163; ENGL 205, 311 (Prerequisite 202), 312 (Prerequisite 201); MUSC 105, 106, 107; PROD 200; SCWR 220; THEA 110, 400.

History

6 Semester Hours

Course Selection

This requirement is satisfied by taking one course from Western Civilization and one course from Contemporary Societies.

Western Civilization:

Choose from HIST 100 or 101.

Contemporary Societies:

Choose from HIST 152, 162, 172, 182, 192.

Literature

3 Semester Hours

Course Selection

Prerequisite: Successful completion of college writing requirement.

Choose from CLCV 200, 210, 220, 230; ENGL 130, 140, 150, 170; FNLT 180; THEA 240, 245, 331, 336, 341, 346, 347, 348, 349, 430.

Mathematics, Science and Technology

6 Semester Hours

Course Selection

Prerequisite: Success on the Mathematics Placement Examination or successful completion of MATH 101.

Students must complete MATH 112. MATH 101 and 111 are normally required as prerequisites but may be waived if the student has a high enough score on the Mathematics Placement Examination. All incoming College of Business Administration students must take the Mathematics Placement Examination unless they have already completed MATH 112 or its equivalent. If MATH 111 is waived, the student must complete a 3 semester hour non-business course for MATH 111.

Students must complete one 3 semester hour science and technology course. Courses ordinarily recommended to students majoring outside the Frank R. Seaver College of Science and Engineering are those numbered 260-279 in each department within the College (with the exception of computer [CMSI] and Mathematics [MATH] courses). Courses in this series are specifically designed for the non-major.

Choose from BIOL 260, 263, 264, 271, 272, 275; CHEM 261, 262; ELEC 260; MECH 260, 270, 277; NTLS 270; PHYS 271. Other Physical Science courses from the Frank R. Seaver College of Science and Engineering may be used to satisfy this requirement with the approval of the Associate Dean's office of the College of Business Administration.

Philosophy

6 Semester Hours

Course Selection

Lower Division:

Choose PHIL 160. Transfer students who enter LMU with a minimum of sixty (60) accepted transfer hours are exempt from the lower division requirement. The College of Business Administration requires that PHIL 160 be replaced with a 3-semester-hour non-business course.

Upper Division:

Choose one course from PHIL 320 through 330.

Social Sciences

6 Semester Hours

Course Selection

Choose ECON 120 and PSYC 100.

Theological Studies

6 Semester Hours

Course Selection

Lower Division:

Choose from the 100-level series of THST courses. Transfer students who enter LMU with a minimum of sixty (60) accepted transfer hours are exempt from the lower division requirement. The College of Business Administration requires 100-level series of THST courses be replaced with a 3-semester-hour non-business course.

Upper Division:

Choose from the 300-level series of THST courses only.

Note: International/Global Studies

The current core curriculum includes many courses dealing with international and global studies. All students are required to complete HIST 100 or 101, which deal with European culture. In addition, it is recommended that students take additional core courses that include the study of European cultures such as: ARHS 200, 201, 202; CLCV 200, CLCV 210, CLCV 220; DANC 281; FNLT 180; FTVS 314; MUSC 102; THEA 240, 245, 331, 336, 341; THST 320, 322, 331.

To further augment the understanding of world cultures, it is recommended that students also choose at least one core course that includes the study of Africa, Asia, the Pacific, or Latin/Indigenous America. These core courses include: ARHS 321; DANC 381; HIST 172, 182; MUSC 303, 365; THEA 348; THST 180, 361, 382, 383, 384, 385.

All College of Business Administration students should be alert to the following policies:

- Students on academic probation can enroll in a maximum of 15.0 semester hours and will need to have their Advisor Hold removed prior to registration by their Academic Advisors.
- Certain courses must be taken in residence at LMU.
- Upper division business courses may only be transferred from AACSB accredited institutions.
- Transfer course approvals must be obtained from the Associate Dean's office prior to enrollment.
- A minimum of 50% of the business-related coursework must be completed at LMU.
- All senior students of the College are required to take the Senior Exam, which is offered each semester.

Recommendations

Students are encouraged to enrich their program of study with selected electives from the following areas. Consult the Bulletin for specific offerings.

Computer Skills

Students are expected to become proficient in computer skills. Courses or workshops may be taken to help students develop existing skills.

Foreign Language

Students are encouraged to study foreign languages to the intermediate level. LMU offers Chinese, Filipino, French, German, Greek (Modern and Classical), Italian, Japanese, Latin, and Spanish on a regular basis.

International/Global Studies

Students are encouraged to select elective courses that deal with international and/or global issues. Consult the Bulletin listings.

Study Abroad

A semester of international study abroad is also recommended. Consult the Study Abroad Office.

Total Program

The B.B.A. and B.S. (AIMS major) degree programs require a minimum of 120 semester hours, and the B.S. in Accounting degree program requires a minimum of 126 hours, including the prescribed business administration core courses and those listed above. A minimum of 45 semester hours must be from upper division course offerings.

Students should consult the Associate Dean's office for specific policies applicable to the College of Business Administration.

College of Business Administration Curriculum

The courses within the three degree programs (Bachelor of Business Administration, Bachelor of Science [AIMS major], and Bachelor of Science in Accounting) are categorized in six groups:

B.B.A.		Semester Hours (S.H.)
A.	University Core Curriculum	48
B.	Business/Econ. Core Requirement	43
C.	Accounting Major Specific Core	-
D.	Math Requirement	3
E.	Major Requirement	15
F.	Electives	11
		—
Total		120
B.S. (AIMS Major)		S.H.
A.	University Core Curriculum	48
B.	Business/Econ. Core Requirement	43
C.	Accounting Major Specific Core	-
D.	Math Requirement	3
E.	Major Requirement	15
F.	Electives	11
		—
Total		120

B.S. in Accounting

A.	University Core Curriculum	S.H.	
B.	Business/Econ. Core Requirement		48
C.	Accounting Major Specific Core		37
D.	Math Requirement		9
E.	Major Requirement		3
F.	Electives		24
			5
			—
Total			126

The specific courses in the three curricula are as follows:

A. University Core Curriculum:

- American Cultures Studies (3 s.h.)
- College Writing (ENGL 110, 3 s.h.)
- Communication (CMST 140, 3 s.h.)
- Critical and Creative Arts (6 s.h.)
- History (Western Civilization and Contemporary Societies, 6 s.h.)
- Literature (3 s.h.)
- Mathematics, Science and Technology (6 s.h.)
- Philosophy (PHIL 160, PHIL 320-330, 6 s.h.)
- Social Sciences (PSYC 100 and ECON 120, 6 s.h.)
- Theological Studies (6 s.h.)

B. Business/Economics Core Requirements:

In addition to Macroeconomics (ECON 120) that is a required social studies core class, Business students are required to complete the following economics and statistics classes:

- | | |
|----------|-------------------------|
| ECON 110 | Intro. Microeconomics |
| ECON 230 | Introductory Statistics |

Business students are required to complete a series of one-semester-hour "Business Perspective" courses:

- | | |
|-----------|---|
| BADM 1010 | Business Institutions |
| BADM 1020 | Intro to Ethical Decision Models |
| BADM 1030 | Information Technology in Organizations |
| BADM 1040 | Globalization |

All Business students are required to complete a series of 3-semester-hour "Core Concept" business courses as part of their degree requirements:

- | | |
|-----------|---|
| ACCT 2110 | Financial Accounting |
| ACCT 2120 | Accounting Information for Decision Making |
| AIMS 2710 | Management Information Systems (must be completed in residence at LMU; B.S. [AIMS majors], see below) |
| AIMS 3770 | Production Operations Analysis |
| BADM 4950 | Business and Social Responsibility in the Global Economy (must be completed in residence at LMU; B.S. [AIMS majors], see below) |
| BADM 4970 | Strategic Management (must be completed in residence at LMU) |
| BLAW 2210 | Legal and Regulatory Environment |
| FNCE 3410 | Fundamentals of Finance |
| INBA 3810 | International Business Environments and Practices |
| MGMT 3610 | Managing People and Organizations |
| MRKT 3510 | Principles of Marketing |

C. Accounting Major Specific Core Courses: The Accounting major requires the following courses in lieu of or in addition to the BBA required core:

- | | |
|-----------|--|
| ACCT 3140 | Accounting Information Systems (Accounting majors only ; must be completed in residence at LMU) |
| ACCT 4150 | Accounting Ethics, Professionalism, and Public Interest (Accounting majors only ; must be completed in residence at LMU) |
| BLAW 3210 | Business Law Applications and Cases (Accounting majors only ; must be completed in residence at LMU) |

D. Math Requirement: All Business students must complete Mathematical Analysis for Business II (MATH 112) with a grade of C (2.0) or higher.

E. Major Requirement: Business students will develop an Academic Plan to identify the degree sought and the major(s) and minors in their degree track program of study. Prior to the first semester of junior year, students must choose a major, Accounting, Applied Information Management Systems, or one of the following majors, if they plan to earn a Bachelor of Business Administration (B.B.A.) degree:

- Entrepreneurship
- Finance
- Management
- Marketing

For each major, the student will complete 15 semester hours of course work as required by the student's major department. Students will also select minors and/or other majors as well as elective courses which may be taken as part of their degree program. This program will be developed and implemented in consultation with the student's Academic Advisor.

Students working toward a Bachelor of Science in Accounting (B.S.A.) degree will complete 24 semester hours of upper division accounting courses in addition to accounting major-specific business core courses (ACCT 3140, 4150, and BLAW 3210) to be taken in residence at LMU.

F. Electives: Students in the B.B.A. and B.S. (AIMS major) programs have 11 semester hours of electives that may be taken from any College of School within the University, including Business Administration. Agreements are in place with a number of the departments within the University under which students may take all or most of their electives in a single area. By using a planned sequence of recommended courses and in some cases, by taking extra courses, it is possible for a student to complete a minor area of study and possibly even a second major. It is recommended that each student consider this possibility in terms of career and personal objectives. Business students may also use their elective semester hours to take additional courses in their major or complete a minor in an area other than their majors. This requires advance planning and consultation with the student's Academic Advisor.

G. Area of Emphasis: Students interested in an emphasis in **Business Law** or **International Business** may choose three upper division courses in their area of emphasis.

Special Note:

The purpose of the above listing is simply to indicate the overall structure of the three programs in business. The order in which the courses must be taken is governed in all cases by the contribution of each course to the overall system. The suggested sequence of courses is shown in the following curriculum sections.

Subject to the student's qualification, College of Business Administration students may be permitted to take ECON 105 (SATM 620 or higher required) in lieu of economics core requirements, Microeconomics (ECON 110), and Macroeconomics (ECON 120). Students must fulfill the 3 semester hour requirement by taking an intermediate economics class, e.g., Financial Economics (ECON 360) or Managerial Economics (ECON 362), etc., or a non-business elective course.

All Business students must earn a grade of C (2.0) or higher in the following courses: ACCT 2110, 2120; ECON 105 (or 110 and 120); MATH 111, 112, as these are prerequisites for other required business classes.

Transfer Credit

The College can accept only those business and economics courses which are reasonably equivalent and at the same level of instruction as courses offered by Loyola Marymount. Lower division courses in business and economics that may be accepted in transfer include the equivalents of the following Loyola Marymount courses:

- | | |
|-----------|--|
| ACCT 2110 | Financial Accounting |
| ACCT 2120 | Accounting Information for Decision Making |
| BLAW 2210 | Legal and Regulatory Environment |
| ECON 110 | Introductory Microeconomics |
| ECON 120 | Introductory Macroeconomics |

The following policies apply to all work transferred to the College of Business Administration at Loyola Marymount, whether from a two-year or a four-year school.

- Upper division business courses may only be transferred from a four-year, AACSB-accredited institution.
- Students must obtain Transfer Course Approval prior to registration in classes at other institutions.
- Students may not enroll in classes offered at other institutions while enrolled at LMU.
- A course that Loyola Marymount offers at the junior level, whether Business or non-business, courses numbered 3000

(300) and above, but was taken by a transfer student at the sophomore level at her/his previous school cannot be accepted for credit. Such courses can be recognized only if the student takes the appropriate examinations after admission to the College (see Credit by Examination).

- All transfer courses must be taken for a letter grade, and the student must receive a grade of C (2.0) or higher.

Current LMU Students Interested in Transferring to the College of Business Administration

Students who are currently enrolled in another major at LMU, but are interested in changing their major to Business Administration are encouraged to apply during their first year at LMU but no later than their third semester. Students are asked to state their interest in Business Administration by completing MATH 112 or an equivalent course in calculus with a minimum grade of B (3.0) and ECON 110 and 120 with a minimum grade of B- (2.7) all in residence at LMU. In addition, students must have a minimum cumulative GPA of 3.0. Once requirements have been met, students will be eligible to complete an application which will be evaluated by the Associate Dean's Office. Attainment of minimum requirements may not always be sufficient to secure approval of transfer request. Applications will be accepted through the end of the seventh week of Fall and Spring semesters. The evaluation process will take place during the Fall and Spring semesters with students being informed once the evaluation process has been completed.

External Transfer Student Policy

Students interested in transferring to the LMU College of Business Administration from another college or university must complete a course in calculus with a minimum grade of B (3.0) and have a cumulative GPA of B (3.0).

Bachelor of Business Administration and Bachelor of Science (AIMS Major) Curriculum

The following curriculum represents the order or sequence in which it is expected that students will take the various courses required for the B.B.A. and the B.S. (AIMS major) degrees.

Freshman Year

Fall Semester

BADM 1010	Business Institutions
ECON 110	Introductory Microeconomics
ENGL 110	College Writing
HIST 10_	Western Traditions 100 or 101
MATH 111	Math Analysis for Business I
THST 1XX	Lower Division THST

Spring Semester

BADM 1020	Intro Ethical Decision Models
ECON 120	Introductory Macroeconomics
ENGL ___	Literature (See Core Curriculum)
HIST ___	HIST 152, 162, 172, 182, or 192
MATH 112	Math Analysis for Business II
PHIL 160	Philosophy of Human Nature

Sophomore Year

Fall Semester

ACCT 2110	Financial Accounting
BADM 1030	Technology for Business
BLAW 2210	Legal & Regulatory Environment
ECON 230	Introductory Statistics
PSYC 100	General Psychology
SCTC ___	Science (See Core Curriculum)

Spring Semester

ACCT 2120	Accounting Info for Decision Making
AIMS 2710	Management Info Systems
BADM 1040	Globalization
CMST 140	Business Communications
___	Critical Arts (See Core Curriculum)
___	Creative Arts (See Core Curriculum)

Junior Year

Fall Semester

FNCE 3410	Fundamentals of Finance
INBA 3810	Intl Business Env & Practices
MGMT 3610	Managing People & Orgs
MRKT 3510	Principles of Marketing
THST 3XX	Upper Division Theology

Spring Semester

AIMS 3770	Prod Operations Analysis
AMCS ___	American Cultures (3 s.h.)
PHIL 320-330	Ethics-related Course
___	Major Requirement
___	Major Requirement

Senior Year

Fall Semester

BADM 4950	Business & Social Resp in the Global Economy
___	Major Requirement
___	Major Requirement
___	Elective (3 s.h.)
___	Elective (2 s.h.)

Spring Semester

BADM 4970	Strategic Management
___	Major Requirement
___	Elective (3 s.h.)
___	Elective (3 s.h.)

Bachelor of Science in Accounting Curriculum

The first year of the program is identical to the Bachelor of Business Administration and Bachelor of Science (AIMS Major) Curriculum. The following curriculum represents the order or sequence in which it is expected that students will take the various courses required for the B.S.A. degree. All 3000- and 4000-level accounting courses must be taken in residence at Loyola Marymount University.

Sophomore Year

Fall Semester

ACCT 2110	Financial Accounting
BADM 1030	Technology for Business
BLAW 2210	Legal & Regulatory Environment
ECON 230	Introductory Statistics
PSYC 100	General Psychology
SCTC ___	Science (See Core Curriculum)

Spring Semester

ACCT 2120	Accounting Info for Decision Making
AMCS ___	American Cultures (3 s.h.)
BADM 1040	Globalization
CMST 140	Business Communications
___	Critical Arts (See Core Curriculum)
___	Creative Arts (See Core Curriculum)

Junior Year

Fall Semester

ACCT 3110	Intermediate Accounting I
ACCT 3130	Cost Accounting
FNCE 3410	Fundamentals of Finance
MGMT 3610	Managing People & Orgs
MRKT 3510	Principles of Marketing

Spring Semester

ACCT 3120	Intermediate Accounting II
ACCT 3130	Cost Accounting
AIMS 3770	Prod. Operations Systems
INBA 3810	Intl Business Env & Practices
THST 3XX	Upper Division Theology

Senior Year

Fall Semester

ACCT 4150	Accounting Ethics, Professionalism, and the Public Interest
ACCT 4110	Advanced Accounting
ACCT 4160	Auditing

PHIL 320-330	Ethics-related Course
Spring Semester	
ACCT 4120	Income Tax Accounting
BADM 4970	Strategic Management
BLAW 3210	Business Law Apps. and Cases
_____	Elective (3 s.h.)
_____	Elective (2 s.h.)

Business Administration Minor

Objectives: The Business Administration Minor is designed for and offered to non-business students only. Course content will provide adequate coverage and include the necessary breadth to provide a general understanding of the business discipline. The program has no prerequisites but assumes the students have a sufficient understanding of economics and basic mathematics skills in order to understand fundamental analytical business concepts.

Structure: The Business Administration Minor is designed as a cohort structure, where students take four required foundational courses, two during the Fall semester and two during the Spring semester of their sophomore or junior year. Two additional business electives will be taken during the following semesters and chosen in consultation with the minor advisor. All courses **must be taken in residence** to ensure coherence and completeness of the cohort learning experience. An assessment test will be given after all four foundational courses have been completed, to ensure students have mastered the information covered in these courses. A **minimum cumulative GPA of 2.5 is required** in the minor.

Students are asked to apply for the minor during the Spring semester of their freshman or sophomore year and will be notified of the decision in time for Fall semester registration. Enrollment in the foundational courses will begin during the Fall semester of the sophomore/junior year. In some exceptional cases, the Associate Dean may allow students to apply during the Spring semester of their freshman year and enroll in courses the Fall semester of their sophomore year.

Minor Requirements: All business minor students are required to complete four foundational courses (12 semester hours) and two (6 semester hours) upper division business elective classes, **all with a grade of C (2.0) or higher**.

- BADM 3010** Analytical Concepts and Methods for Business
- BADM 3020** Economic Environment, Marketing, and Business Law Concepts
- BADM 3030** Key Concepts of Accounting and Finance
- BADM 3040** Management and Society: Issues in Strategic and Ethical Management

Students will also complete two upper division business classes (6 semester hours) based upon their understanding of foundational courses as well as personal interest and career plan. Upper division and elective courses appropriate for those in the business minor program will be designated by the faculty of each CBA department and in consultation with a business faculty advisor. **All minor required courses must be completed in residence.**

Accounting Minor Requirements

ACCT 2110, 2120, and at least three of the following courses: ACCT 3110, 3120, 3130, and 4120. All upper division Accounting courses must be taken in residence. A minimum cumulative GPA of 2.5 must be earned in the minor area. All minor required courses must be completed in residence. Open to **Business Administration majors only**.

Beta Gamma Sigma Honor Society

Beta Gamma Sigma is the honor society for students enrolled in business and management programs accredited by AACSB International—the Association to Advance Collegiate Schools of Business. Election to lifetime membership in Beta Gamma Sigma is the highest honor a business student can achieve. Juniors and seniors in the top 10% and MBA students in the top 20% of their class may be invited to membership. Beta Gamma Sigma membership provides recognition for a lifetime. With alumni chapters in major metropolitan areas across the United States, the BGS Career Central job board and the BetaLink on-line membership community, those recognized for their academic achievements at Loyola Marymount University can continue an active relationship with Beta Gamma Sigma long after graduation. This lifelong commitment to its members' academic and professional success is defined in the Society's mission: to encourage and honor academic achievement in the study of

business and personal and professional excellence in the practice of business.

Accounting

Faculty

Chairperson: Mahmoud M. Nourayi

Professors: J. Ross Bengel, Alan Cherry, Frank Daroca, George Dasaro, Alan Falcon, Lawrence Kalbers (R. Chad Dreier Chair in Accounting), Mahmoud M. Nourayi

Assistant Professors: Amy Alward, Laurel Franzen, Meghna Singhvi

Clinical Assistant Professors: Nancy Coster, Scott Delanty

Objectives

The Bachelor of Science in Accounting degree program is designed to prepare students for a career in public, corporate, or governmental accounting. Students will learn the basic definitions, concepts, and techniques of accounting, as well as the role accounting plays in society.

Learning Outcomes

Students majoring in Accounting are expected to be prepared for a career in the accounting profession. Therefore, students are expected to be able to describe, apply, and evaluate financial accounting concepts and standards at a professional level.

- Students will be able to use managerial accounting methods and techniques to solve both structured and unstructured, real-world business problems
- Students will be able to explain, apply, and evaluate the key provisions and exceptions in the federal tax code
- Students will be able to explain and apply an ethical conceptual framework to solve real-world ethical problems
- At least 80 percent of our graduates will be able to start graduate studies or careers in accounting at entry-level professional positions

Major Requirements

Lower Division Requirements:

ACCT 2110, 2120; BADM 1010, 1020, 1030, 1040; BLAW 2210; ECON 105 OR ECON 110 and 120, ECON 230; MATH 111, 112.

Upper Division Requirements:

ACCT 3110, 3120, 3130, 3140, 4110, 4120, 4150, 4160; AIMS 3770; BADM 4970; BLAW 3210; FNCE 3410; INBA 3810; MGMT 3610; MRKT 3510. All upper division accounting courses must be taken in residence at LMU. A cumulative GPA of C (2.0) must be achieved in the major requirements (all business, economics, and math courses).

Core, Major, and Elective Accounting Courses:

ACCT 2110	Financial Accounting
ACCT 2120	Accounting Information for Decision Making
ACCT 3110	Intermediate Acct I
ACCT 3120	Intermediate Acct II
ACCT 3130	Cost Management
ACCT 3140	Acct Information Systems
ACCT 4110	Advanced Accounting
ACCT 4120	Income Tax Accounting I
ACCT 4150	Accounting Ethics, Professionalism, & the Public Interest
ACCT 4160	Auditing
ACCT 4180	Fraud Examination
ACCT 4198	Special Studies
ACCT 4199	Independent Studies

For purposes of meeting the requirements for the B.S.A. degree and determination of academic probation, an overall cumulative grade point average of at least a C (2.0) must be obtained in the following required Accounting major courses: 3110, 3120, 3130, 3140, 4110, 4120, 4150, and 4160.

Accounting Model Four-Year Plan

The following curriculum represents the order or sequence in which it is expected that students will take the various courses required for the B.S.A. degree. All 3000- and 4000-level accounting courses must be taken in residence at Loyola Marymount University.

Freshman Year

Fall Semester

BADM 1010	Business Institutions
ECON 110	Introductory Microeconomics

____ ____	Elective (3 s.h.)
____ ____	Elective (2 s.h.)

Academic Plan

Accounting majors are encouraged, but not required, to include 150 semester hours of study in their academic planning process. The 150 semester hours of study are now required to practice public accounting in most states and for Pathway Two in the State of California. Their plan might include undertaking minors and/or an additional major/degree or pursuing graduate studies. Students are encouraged to discuss with the Associate Dean and/or their academic advisor various possible tracks to earn the 150 semester hours.

Business Administration

These courses are designated as BADM in the course descriptions.

Finance, Computer Information Systems and Operations Management

Faculty

Chairperson: Richard J. Perle

Professors: Benjamin Bobo, Dennis T. Draper, Kweku Ewusi-Mensah, Rachelle Katz, Chun I. Lee, Christopher A. Manning, Richard J. Perle, Kala Chand Seal, Zbigniew H. Przasnyski

Associate Professors: Susan Elkinawy, Allen Gray, Charles J. Higgins, Linda A. Leon, Robbie Nakatsu, Micah Officer

Assistant Professors: David Offenber, Ying Sai, Joshua D. Spizman

Clinical Professor: Donald M. DePamphilis

Finance

Objectives

The Bachelor of Business Administration degree—Finance (FNCE) major is to provide students with 1) the necessary skills to perform rigorous financial analysis; 2) an adequate understanding of financial markets, institutions, and current issues, in order 3) to contribute more to firms in their chosen specialty within finance upon graduation from LMU. Students will develop analytical skills in the application of theory and tools essential to financial planning, investments, financial markets, institutions, and corporate planning while acquiring the vocabulary and critical financial perspectives needed to enhance their careers and personal financial goals.

Learning Outcomes

Learning outcomes for Finance majors are as follows:

Students should be able to understand:

- Fundamental finance concepts, techniques, and practices essential for financial management and business decision-making
- How to apply finance concepts and techniques in the assessment of firm performance
- How to use a financial calculator
- How to value a stream of cash flows
- The relationship between risk and return and the benefits of diversification
- How to estimate a cost of capital for budgeting decisions
- How to identify the importance of a firm's capital structure
- The factors that determine a firm's dividend policy
- How to analyze methods of working capital management

Major Requirements

Lower Division Requirements:

ACCT 2110, 2120; AIMS 2710; BADM 1010, 1020, 1030, 1040; BLAW 2210; ECON 105 or 110 and 120, 230; MATH 111, 112.

Upper Division Requirements:

AIMS 3770; BADM 4950, 4970; FNCE 3410; INBA 3810; MGMT 3610; MRKT 3510. A cumulative GPA of C (2.0) must be achieved in the major requirements (all business, economics, and math courses).

For purposes of meeting the requirements for the B.B.A., Finance major, degree and determination of academic probation, an overall cumulative grade point average of at least a C (2.0) must be obtained in FNCE 3410 and the Finance major courses.

Core, Major, and Elective Finance Courses:

FNCE 3410	Fundamentals of Finance
FNCE 3420	Investments
FNCE 3430	Financial Policy
FNCE 3440	Mergers and Acquisitions
FNCE 3460	Tax Law and Planning for Small Business (ENTR 3360)
FNCE 3497	Internship
FNCE 4410	Entrepreneurial Finance (ENTR 4310)
FNCE 4420	Real Estate Finance, Investment, and Entrepreneurship
FNCE 4430	Capital Markets
FNCE 4470	Multinationals and the Third World (INBA 4870)
FNCE 4480	International Finance (INBA 4870)

FNCE 4491	Student Investment Fund: Security Analysis
FNCE 4492	Student Investment Fund: Portfolio Management
FNCE 4493	Student Investment Fund: Investment Research Lab
FNCE 4498	Special Studies
FNCE 4499	Independent Studies

The Finance major is designed to prepare students for careers in the private and public sectors. Students develop skills in the application of concepts and techniques essential to financial planning and control, investments, and corporate planning.

Students with a major in Finance are required to complete five courses in the finance area including three required classes, Investments (FNCE 3420), Financial Policy (FNCE 3430), and Multinationals and the Third World (FNCE 4470) or International Finance (FNCE 4480). Two additional courses are to be chosen from the following classes:

- Multinationals and the Third World (FNCE 4470) or International Finance (FNCE 4480)
- Mergers and Acquisitions (FNCE 3440)
- Entrepreneurial Finance (FNCE 4410)
- Real Estate Finance, Investment, and Entrepreneurship (FNCE 4420)
- Capital Markets (FNCE 4430)
- Special Studies (FNCE 4498)

Student Investment Fund (SIF): Students enrolled in the SIF are permitted to take FNCE 4491 and 4492 (required for the SIF specialty) in lieu of FNCE 3420 and 3430. *SIF students may take FNCE 3430 in addition to the courses listed below as one of their two remaining electives in fulfillment of the major requirements.*

Students are encouraged to speak with Finance faculty and/or their CBA advisor for guidance on selection of specific electives for individual career goals.

Model 4-Year Plan—Bachelor of Business Administration—Finance Major Curriculum

The following curriculum represents the order or sequence in which it is expected that students will take the various courses required for the B.B.A. (Finance major) degree.

Freshman Year

Fall Semester

BADM 1010	Business Institutions
ECON 110	Introductory Microeconomics
ENGL 110	College Writing
HIST 10_	Western Traditions 100 or 101
MATH 111	Math Analysis for Business I
THST 1XX	Lower Division THST

Spring Semester

BADM 1020	Intro Ethical Decision Models
ECON 120	Introductory Macroeconomics
ENGL ___	Literature (See Core Curriculum)
HIST ___	HIST 152, 162, 172, 182, or 192
MATH 112	Math Analysis for Business II
PHIL 160	Philosophy of Human Nature

Sophomore Year

Fall Semester

ACCT 2110	Financial Accounting
BADM 1030	Information Technology in Orgs.
BLAW 2210	Legal & Regulatory Environment
ECON 230	Introductory Statistics
PSYC 100	General Psychology
SCTC ___	Science (See Core Curriculum)

Spring Semester

ACCT 2120	Accounting Info for Decision Making
AIMS 2710	Management Info Systems
BADM 1040	Globalization
CMST 140	Business Communications
___ ___	Critical Arts (See Core Curriculum)
___ ___	Creative Arts (See Core Curriculum)

Junior Year

Fall Semester

FNCE 3410	Fund. of Finance
INBA 3810	Intl Business Env & Practices
MGMT 3610	Managing People & Orgs
MRKT 3510	Principles of Marketing
THST 3XX	Upper Division Theology

Spring Semester

AIMS 3770	Production Operations Analysis
AMCS ___	American Cultures (3 s.h.)
FNCE 3420	Investment*
FNCE 3430	Financial Policy*
PHIL 320-330	Ethics-related Course

Senior Year

Fall Semester

BADM 4950	Business & Social Resp in the Global Economy
FNCE ___	Elective
FNCE ___	Elective
___ ___	Elective (3 s.h.)
___ ___	Elective (2 s.h.)

Spring Semester

BADM 4970	Strategic Management
FNCE 4470	Multinational and Third World
	or
FNCE 4480	International Finance
___ ___	Elective (3 s.h.)
___ ___	Elective (3 s.h.)

* Students enrolled in the Student Investment Fund (SIF) are permitted to take FNCE 4491 and 4492 (required for the SIF specialty) in lieu of FNCE 3420 and 3430.

Applied Information Management Systems

Objectives

The Bachelor of Science degree—Applied Information Management Systems (AIMS) major is designed to 1) prepare students for careers in the IT (information technology) field; 2) provide analytical and quantitative skills for careers in such areas as supply chains, business analytics, and consulting; 3) provide hands-on experience with cutting edge information technologies; and 4) teach critical skills to help students continuously adapt to the ever-changing field of information technology and their applications in business.

Learning Outcomes

The applied information systems and operations management major involves the application of computers to meet the information needs of organizations. It prepares students to use modern information technology to solve business problems at the operational, technical, and strategic levels.

Learning outcomes for AIMS majors are as follows:

Students should be able to understand:

- The role of technology in the workplace
- Core technologies that affect the operation and management of a business
- Key hardware and software terminology
- How the Internet works
- How a computer could be attacked and what safeguards are available for protection
- Ethical issues concerning the use of computers and networks
- How to construct usable spreadsheets, databases, and presentations for business functions
- How information systems are planned, developed, implemented, and managed in organizations
- How to use information for problem-solving
- Emerging trends in information technology
- How organizations use information technology to become more competitive
- The relationship between business strategy and information technology

Major Requirements

Lower Division Requirements:

ACCT 2110, 2120; AIMS 2710; BADM 1010, 1020, 1030, 1040;

BLAW 2210; ECON 105 or 110 and 120, 230; MATH 111, 112.

Upper Division Requirements:

AIMS 3770; BADM 4950, 4970; FNCE 3410; INBA 3810; MGMT 3610; MRKT 3510.

A cumulative GPA of C (2.0) must be achieved in the major requirements (all business, economics, and math courses).

For purposes of meeting the requirements for the B.S., Applied Information Management Systems major, degree and determination of academic probation, an overall cumulative grade point average of at least a C (2.0) must be obtained in all courses required in the major.

Core, Major, and Elective Applied Information Management Systems Courses:

AIMS 2710	Management Information Systems
AIMS 3710	Database Management Systems
AIMS 3720	Object-Oriented Design and Analysis
AIMS 3770	Production Operations Analysis
AIMS 3780	IT and Supply Chain Management (INBA 3880)
AIMS 3797	Internship
AIMS 4720	Object-Oriented Programming
AIMS 4730	Business Data Communications
AIMS 4740	Financial Modeling for Decision Support
AIMS 4750	Web-based Development
AIMS 4760	Business Intelligence and Data Mining
AIMS 4770	Information Technology Security
AIMS 4790	Capstone Project
AIMS 4798	Special Studies
AIMS 4799	Independent Studies

Applied Information Management Systems Major Tracks

Students pursuing the Applied Information Management Systems (AIMS) major will earn a Bachelor of Science degree in Applied Information Management Systems. All majors in AIMS must complete the AIMS 2710, AIMS 3770, and BADM 1030 business core before they can start taking the upper division courses. There are two possible tracks in this major, Application Development and Applied E-Business. Each track required three upper division courses specific to the track, one being a programming course, an upper division elective in the AIMS area, and the Capstone Project. The specific courses needed for each track are shown below:

- Application Development:** Data-base Management Systems (AIMS 3710), Object-Oriented Design and Analysis (AIMS 3720), and Capstone Project (AIMS 4790), in addition to one of the following to satisfy the programming requirement:
 - AIMS 4720 Object-Oriented Programming
 - AIMS 4740 Financial Modeling for Decision Support
 - AIMS 4750 Web-based Development
 and one AIMS elective.
- Applied E-Business:** Database Management Systems (AIMS 3710), IT and Supply Chains Management (AIMS 3780), and Capstone Project (AIMS 4790), in addition to one of the following to satisfy the programming requirement:
 - AIMS 4720 Object-Oriented Programming
 - AIMS 4740 Financial Modeling for Decision Support
 - AIMS 4750 Web-based Development
 and one AIMS elective.

Model 4-Year Plan—Bachelor of Science—Applied Information Management Systems Major Curriculum

The following curriculum represents the order or sequence in which it is expected that students will take the various courses required for the B.S. (Applied Information Management Systems major) degree. All requirements for Applied Information Management Systems majors with different tracks through the first semester of junior year are identical regardless of their chosen track. Applied Information Management Systems majors with different tracks will be expected to follow the track requirements when selecting classes for their major.

Freshman Year

Fall Semester	
BADM 1010	Business Institutions

ECON 110	Introductory Microeconomics

Management Department and Entrepreneurship Program

Faculty

Chairperson: Jeffrey Gale

Professors: Ellen Ensher, Jeffrey Gale, Edmund Gray, George Hess, Fred Kiesner, David Mathison, Yongsun Paik, Peter Ring, Charles Vance, Thomas White, John T. Wholihan, Anatoly Zhuplev

Associate Professors: Dong Chen, David Choi, Cathleen McGrath

Assistant Professors: Li Dai, Elissa Grossman, Patricia Garcia Martinez, Ivan Montiel, Maria Alejandra Quijada

Management

Objectives

Management is planning, organizing, leading, and controlling the activities necessary to successfully run an organization. In studying management, the student will focus on the practical skills, ethical issues, and management theory necessary to succeed in our diverse global economy. The Department offers, essentially, two types of courses: general knowledge courses and specialized courses. General knowledge courses are required of all business majors. Elective courses are chosen by majors who wish to gain specialized instruction in specific areas of management.

Learning Outcomes

The Bachelor of Business Administration—Management Major at LMU will provide undergraduate students with the fundamental theories, problem-solving tools, and current real-world information and actual learning experience necessary to support their entry and ongoing career success as ethical and socially responsible leaders, managers, and supervisors in various organizations, and in particular in their future roles as either HR professionals or everyday practitioners in managing people in the workplace (i.e., administrators, managers, and supervisors). All Management Major students will demonstrate acceptable understanding and skills in:

1. Interpersonal/team effectiveness
2. Communications
3. Key processes of planning/goal setting, decision making, problem solving
4. Critical HR functional areas
5. Career management

Upon completion of requirements for this major,

- students should understand and be able to explain and evaluate the critical role and functions of management in organizations and apply principal concepts and models in the field of management within an organization;
- students should understand and be able to describe and explain how the human resource function in an organization contributes to overall productivity through its component activities;
- students should understand be able to apply concepts of career planning and management both generally and to their own career.

Major Requirements

Lower Division Requirements:

ACCT 2110, 2120; AIMS 2710; BADM 1010, 1020, 1030, 1040; BLAW 2210; ECON 105 or 110 and 120, 230; MATH 111, 112.

Upper Division Requirements:

AIMS 3770; BADM 4950, 4970; FNCE 3410; INBA 3810; MGMT 3610; MRKT 3510. A cumulative GPA of C (2.0) must be achieved in the major requirements (all business, economics, and math courses).

For purposes of meeting the requirements for the B.B.A., Management major, degree and determination of academic probation, an overall cumulative grade point average of at least a C (2.0) must be obtained in all courses required in the major.

Core, Major, and Elective Management Courses:

MGMT 3610	Managing People and Organizations
MGMT 3620	Management Skills
MGMT 3630	Social Network Analysis for Managers
MGMT 3640	Managing Diversity
MGMT 3651	Building Global Career Competence (INBA 3851)
MGMT 3670	Training and Development
MGMT 3680	Mentoring & Management
MGMT 3697	Internship
MGMT 4610	Leadership
MGMT 4620	Employment Law
MGMT 4630	International Management (INBA 4830)
MGMT 4640	Cross-Cultural Leadership
MGMT 4650	Managing Compensation and Rewards
MGMT 4661	Effective Organizational Governance
MGMT 4670	Human Resource Management Practicum
MGMT 4671	Managing Career Success
MGMT 4672	Managing a Global Workforce (INBA 4872)
MGMT 4680	Employee Relations and Retention
MGMT 4690	Strategic Human Resource Management
MGMT 4698	Special Studies
MGMT 4699	Independent Studies

Management Major Tracks

This major will have two advanced tracks beyond the business core courses to allow the students a choice in more general courses in organizational behavior (OB) to build general management and leadership competencies, or more advanced human resource management (HRM) courses in preparation for careers as human resource (HR) professionals.

To complete the Management Major, students will complete all LMU and CBA core requirements, plus the required Management Skill (MGMT 3620) course, one international management elective, and 3 advanced courses in either the OB or HR Professional track (5 courses overall).

- **Organization Behavior (OB):** Management Skills (MGMT 3620)*, three OB Electives (9 semester hours, see below), International Management Studies—select one: International Management (MGMT 4630), Cross-Cultural Leadership (MGMT 4640), Managing a Global Workforce (MGMT 4672), or a 3-semester-hour internationally-oriented management course taken as part of study abroad.

OB Track electives include the following:

- Social Network Analysis for Managers (MGMT 3630)
- Managing Diversity (MGMT 3640)
- Building Global Career Competence (MGMT 3651)
- Training and Development (MGMT 3670)
- Mentoring and Management (MGMT 3680)
- Leadership (MGMT 4610)
- Effective Organizational Governance (MGMT 4661)
- Managing Career Success (MGMT 4671)
- Employee Relations and Retention (MGMT 4680)
- Special Studies (MGMT 4698)
- **Human Resource Management (HRM):** Management Skills (MGMT 3620), two HRM Electives (6 semester hours, see below), HRM Practicum (MGMT 4670), International Management Studies—select one: International Management (MGMT 4630), Cross-Cultural Leadership (MGMT 4640), Managing a Global Workforce (MGMT 4672), or a 3-semester-hour internationally-oriented management course taken as part of study abroad.

HRM Track electives include the following:

- Building Global Career Competence (MGMT 3651)
- Training and Development (MGMT 3670)
- Mentoring and Management (MGMT 3680)
- Employment Law (MGMT 4620)
- Managing Compensation and Rewards (MGMT 4650)
- Managing Career Success (MGMT 4671)
- Employee Relations and Retention (MGMT 4680)
- Strategic Human Resource Management (MGMT 4690)*
- Special Studies (MGMT 4698)

* Subject to the CBA Curriculum Committee Approval

Model 4-Year Plan—Bachelor of Business Administration—Management Major Curriculum

The following curriculum represents the order or sequence in which it is expected that students will take the various courses required for the B.B.A. (Management major) degree. All requirements for Management majors with different tracks through the first semester of junior year are identical regardless of student's chosen track. Management majors with different tracks will be expected to follow the track requirements when selecting classes for their major.

Freshman Year

Entrepreneurship

Objectives

The Bachelor of Business Administration—Entrepreneurship major at LMU will provide undergraduate students with the fundamental theories, critical thinking skills, and real-world awareness necessary to support their launch into careers as entrepreneurs (i.e., founders and leaders of new ventures) or intrapreneurs (i.e., change agents and managers within established, more traditional organizations).

Learning Outcomes

- Students should understand and appreciate the economic and societal importance of entrepreneurship.
- Students should be able to analyze and understand all aspects of a business, integrating concepts across multiple functional areas.
- Students should know how to generate business ideas, evaluate business feasibility, and assemble a comprehensive business plan.
- Students should be able to adopt the perspective and action orientation of a CEO/Founder.

Major Requirements

Lower Division Requirements:

ACCT 2110, 2120; AIMS 2710; BADM 1010, 1020, 1030, 1040; BLAW 2210; ECON 105 or 110 and 120, 230; MATH 111, 112.

Upper Division Requirements:

AIMS 3770; BADM 4950, 4970; FNCE 3410; INBA 3810; MGMT 3610; MRKT 3510. A cumulative GPA of C (2.0) must be achieved in the major requirements (all business, economics, and math courses).

For purposes of meeting the requirements for the B.B.A., Entrepreneurship major, degree and determination of academic probation, an overall cumulative grade point average of at least a C (2.0) must be obtained in all courses required in the major.

Core, Major, and Elective Entrepreneurship Courses:

ENTR 3310	Introduction to Entrepreneurship
ENTR 3330	Social Entrepreneurship
ENTR 3350	New Venture Creation
ENTR 3360	Tax Law and Planning for Small Business (FNCE 3460)
ENTR 3380	Small Business Management
ENTR 3397	Internship
ENTR 4310	Entrepreneurial Finance (FNCE 4410)
ENTR 4320	Real Estate Finance and Investment and Entrepreneurship (FNCE 4420) Programming
ENTR 4340	International Entrepreneurship (INBA 4840)
ENTR 4350	Entrepreneurial and Small Business Marketing
ENTR 4370	Product Design and Development
ENTR 4380	Technology Ventures
ENTR 4381	Managing New Ventures
ENTR 4390	Entrepreneurial Marketing
ENTR 4398	Special Studies
ENTR 4399	Independent Studies

All Entrepreneurship majors must complete the following required courses: Introduction to Entrepreneurship (ENTR 3310), New Venture Creation (ENTR 3330), Entrepreneurial Finance (ENTR 4310), Managing New and Growing Ventures (ENTR 4381), International Management/Entrepreneurship studies, select one: International Entrepreneurship (ENTR 4340), International Management (MGMT 4630), or Managing Global Workforce (MGMT 4672), and an Entrepreneurship Elective. A student who chooses ENTR 4310 as a required course can choose ENTR 4381 as his or her Entrepreneurship Elective; similarly, a student can choose ENTR 4381 as a required course and ENTR 4310 as an Entrepreneurship Elective.

Model 4-Year Plan—Bachelor of Business Administration—Entrepreneurship Major Curriculum

The following curriculum represents the order or sequence in which it is expected that students will take the various courses required for the B.B.A. (Entrepreneurship major) degree.

Freshman Year

Marketing and Business Law

Faculty

Chairperson: Arthur Gross-Schaefer

Professors: Arthur Gross-Schaefer, Mark Leach, Gary P. Sibeck, Robert D. Winsor

Associate Professors: Mark Bandsuch, S.J., Alan K. Hogenauer, Ralph L. Quiñones, Andrew Rohm, Sijun Wang

Assistant Professors: Myla Bui-Nguyen, Velitchka D. Kaltcheva, Anthony D. Patino

Marketing

Objectives

The Bachelor of Business Administration—Marketing major focuses on activities that facilitate exchange between individuals and organizations. It prepares students for careers in marketing research, sales and sales management, marketing management, retailing, and advertising—all of which can serve as good career paths leading to top-level positions in general management in all types of organizations and industries.

Learning Outcomes

- Students should know the core concepts of customer value and marketing mix development within the broader frameworks of business and society.
- Students should understand the environmental, psychological, sociological, and cultural factors impacting businesses and consumers in making buying decisions and marketing mix development.
- Students should understand the impact that ethical and legal forces have on customers' (both business customers and consumers) decision making and marketing mix development.
- Students should acquire analytical skills, both qualitative and quantitative, for solving programs and optimizing the decision processes for businesses and consumers.
- Students should acquire oral and written communication skills.
- Students should learn to work effectively in teams.

Major Requirements

Lower Division Requirements:

ACCT 2110, 2120; AIMS 2710; BADM 1010, 1020, 1030, 1040; BLAW 2210; ECON 105 or 110 and 120, 230; MATH 111, 112.

Upper Division Requirements:

AIMS 3770; BADM 4950, 4970; FNCE 3410; INBA 3810; MGMT 3610; MRKT 3510. A cumulative GPA of C (2.0) must be achieved in the major requirements (all business, economics, and math courses).

For purposes of meeting the requirements for the B.B.A., Marketing major, degree and determination of academic probation, an overall cumulative grade point average of at least a C (2.0) must be obtained in all courses required in the major.

Core, Major, and Elective Marketing Courses:

MRKT 3520	Marketing Analysis
MRKT 3530	Buyer Behavior
MRKT 3570	Marketing Law (BLAW 3270)
MRKT 3580	Marketing Planning
MRKT 3597	Internship
MRKT 4510	Advertising and Promotion Management
MRKT 4515	Managing Retail & Service Businesses
MRKT 4525	Competitive Strategy
MRKT 4530	Sports Marketing
MRKT 4540	Professional Selling
MRKT 4545	New Product Development
MRKT 4550	Brand Management
MRKT 4555	Marketing to Companies
MRKT 4560	Supply Chain Management & Logistics
MRKT 4570	Pricing Goods & Services
MRKT 4575	Pricing Goods and Services
MRKT 4580	Marketing and Consumption in Contemporary Society
MRKT 4585	Consumer Research and Analysis
MRKT 4597	Marketing Strategy in the Global Environment
MRKT 4598	Special Studies
MRKT 4599	Independent Studies

The Marketing Major Program offers a single "Track." Students begin by completing the foundational marketing course, Principles of Marketing (MRKT 3510), which is a required core business class for all business and accounting majors. Students must then complete two further foundational courses, consisting of Marketing Analysis (MRKT 3520) and Buyer Behavior (MRKT 3530). After this point, students will be required to complete two advanced marketing elective courses of their choice. Students will be permitted to enroll in the elective marketing courses after completing the foundational courses (MRKT 3510, 3520, 3530). Students complete the requirements for the Marketing Major by taking a "capstone" course, Marketing Strategy in the Global Environment (MRKT 4597), which is a course that will integrate their prior coursework in marketing and business and provide a setting under which their prior learning of marketing theory can be considered in an applied context.

Model 4-Year Plan—Bachelor of Business Administration—Marketing Major Curriculum

The following curriculum represents the order or sequence in which it is expected that students will take the various courses required for the B.B.A. (Marketing major) degree.

Freshman Year

Fall Semester

BADM 1010	Business Institutions
ECON 110	Introductory Microeconomics
ENGL 110	College Writing
HIST 10_	Western Traditions 100 or 101
MATH 111	Math Analysis for Business I
THST 1XX	Lower Division THST

Spring Semester

BADM 1020	Intro Ethical Decision Models
ECON 120	Introductory Macroeconomics
ENGL ____	Literature (See Core Curriculum)
HIST ____	HIST 152, 162, 172, 182, or 192
MATH 112	Math Analysis for Business II
PHIL 160	Philosophy of Human Nature

Sophomore Year

Fall Semester

ACCT 2110	Financial Accounting
BADM 1030	Information Technology in Orgs
BLAW 2210	Legal & Regulatory Environment
ECON 230	Introductory Statistics

PSYC 100
SCTC ____

General Psychology
Science (See Core Curriculum)

Spring Semester

ACCT 2120	Accounting Info for Decision Making
AIMS 2710	Management Info Systems
BADM 1040	Globalization
CMST 140	Business Communications
____	Critical Arts (See Core Curriculum)
____	Creative Arts (See Core Curriculum)

Junior Year

Fall Semester

FNCE 3410	Fund. of Finance
INBA 3810	Intl Business Env & Practices
MGMT 3610	Managing People & Orgs
MRKT 3510	Principles of Marketing
THST 3XX	Upper Division Theology

Spring Semester

AIMS 3770	Prod Operations Analysis
AMCS ____	American Cultures (3 s.h.)
MRKT 3520	Marketing Analysis
MRKT 3530	Buyer Behavior
PHIL 320-330	Ethics-related Course

Senior Year

Fall Semester

BADM 4950	Business & Social Resp in the Global Economy
MRKT ____	Marketing Elective
MRKT ____	Marketing Elective
____	Elective (3 s.h.)
____	Elective (2 s.h.)

Spring Semester

BADM 4970	Strategic Management
MRKT 4597	Marketing Strategy in Global Environment
____	Elective (3 s.h.)
____	Elective (3 s.h.)

Master of Business Administration

Associate Dean and Director of the MBA Program: Rachelle Katz

Faculty

Adjunct Professor: Darryl Graver
Clinical Professor: Steven M. Mintz
Executive-in-Residence: Richard Stafford

Contact Information

Office Location: Conrad N. Hilton Center for Business; Room 233
Telephone: 310.338.1848
Fax: 310.338.2899

Introduction

The College of Business Administration offers the MBA degree with an option to earn a Graduate Certificate in International Business. In addition, two dual degree programs are available. Students may apply for separate admission to the Loyola Law School and earn the JD/MBA degree or apply to the Systems Engineering Leadership Program and earn an MBA and an MS in Systems Engineering. There are eight areas of emphasis in the MBA Program. The purpose, admission requirements, program requirements, and options are described in the pages that follow. The traditional MBA Program (MBA) addresses the educational demands of fully-employed persons who recognize the need to continue to build their careers, although full-time enrollment is an option. The Executive MBA (EMBA) is for the experienced business leader who aspires to executive level responsibility.

Mission Statement

The mission of the Loyola Marymount University MBA Program is to provide high quality graduate business education consistent with the Jesuit and Marymount traditions. The MBA Program fosters development of each student's potential to create value, handle risk, and manage change to serve both business and society. The result is the develop-

ment of ethical leaders possessing the knowledge and skills to effectively manage organizations in a diverse and global economy.

To accomplish its mission, the MBA Program utilizes faculty who regularly extend the boundaries of their discipline and simultaneously demonstrate in the classroom their ability to translate theory into practice. Although teaching styles and techniques vary, all focus on the current issues and technologies that are forming and shaping the many environments of business (political, social, legal, and ethical). Classes range from those that emphasize computer applications to those that delve into ethical concepts and humanistic management. The MBA curriculum is one of breadth first and specialization second. To that end, the basis of the Program is broad and integrating. Areas of specialization are built on this base. By specializing, students are able to focus some of their studies in a single area of emphasis. Additionally, numerous opportunities exist to explore various aspects of global business. These include a full-fledged International MBA Program of studies and a unique overseas integrative experience. The high quality of the MBA Program is confirmed through its accreditation by the Association to Advance Collegiate Schools of Business.

Admission Requirements

1. Eligibility for Admission: Applicants for admission to the Program leading to the degree of Master of Business Administration must have a Bachelor's degree and an acceptable level of scholarship from an accredited institution of higher learning. The degree may be in any academic discipline.
2. Application: Applicants should apply and pay the application fee online at <http://apply.embark.com/grad/lmu>.
3. Transcripts: Two copies of official transcripts must be sent from each institution of collegiate rank attended by the applicant. Transcripts should be sent to the Graduate Admissions Office directly by the other collegiate institution(s). All such transcripts become the property of Loyola Marymount University.
4. Graduate Management Admissions Test: All applicants must take the Graduate Management Admission Test (GMAT).
5. International Students: All international students (including those who have received their Bachelor's degrees in the U.S.) from countries where English is not the primary language must demonstrate proficiency in the English language by obtaining a minimum score of 600 (250 computer-based) on the Test of English as a Foreign Language (TOEFL). International students who received their high school diploma from a U.S. secondary school do not have to take the TOEFL. Admitted students who pass the TOEFL requirement but are subsequently judged by the faculty to be deficient in English may be directed by the Associate Dean to obtain greater language proficiency by taking appropriate remedial courses in English composition or speech communications. Failure to do so will result in dismissal from the Program. Each international student must also provide the Graduate Admissions Office with a certified statement of financial ability. GMAT scores must accompany applications from all students (U.S. or international) whose undergraduate degrees were earned outside the United States. A GMAT score of at least 550 is required for international students with Bachelor's degrees from outside the U.S. Finally, all applicants with degrees earned outside the United States must have transcripts evaluated for equivalencies to U.S. degrees.
6. Official Evaluations: The MBA Office evaluates the potential candidacy of each applicant.
Applications are evaluated only after the following data is received by the Graduate Admissions Office:
 1. application form and personal statement (plus appropriate fees)
 2. official transcripts for all previous collegiate work
 3. GMAT results
 4. TOEFL results (when applicable)
 5. two letters of recommendation and
 6. a current resume.
7. Entrance: Students may enter the program in the Fall, Spring, or Summer.
8. Attendance: Attendance in MBA classes are limited to individuals who have been admitted to the MBA Program and who are registered for the class. Auditing of classes by current students is prohibited.

Proficiency Prerequisites

All students admitted to the MBA Program must be proficient in English composition, business mathematics, and computer applications. Successful completion of a college-level course in business math or intermediate algebra is required.

Waivers

Only core courses may be considered for waivers. Waivers are granted by the MBA Director after an evaluation of the student's academic transcripts. Waivers will only be granted during a student's first semester of enrollment. Previously-taken courses that are used to waive core courses must cover equivalent material and have been taken in academic programs that concluded less than 5 years prior to MBA Program enrollment. The accreditation level of the school at which equivalent courses were taken determines the necessary grade for waiver acceptability. For example, an LMU core course may be waived for a student who has taken an equivalent course at an AACSB International accredited school if the student achieved a grade of A or B, or at a regionally accredited U.S. school if the grade earned was an A. Courses equivalent to the LMU core that were taken at schools outside the United States or at non-accredited schools or non-traditional schools are not acceptable for waiver.

Challenge Exams

Challenge Exams are only available for the core courses, MBAA 601-609. Students who feel that they are sufficiently grounded in the content of a core course by virtue of their work experience or academic study may consider taking the Challenge Exam. Challenge Exams must be taken during the first semester of the student's enrollment in the MBA Program. Students must fill out a waiver examination request form (available in the MBA Office) and pay the exam fee. Further instructions will be given at that time.

Attendance and Residence

Students are expected to be continuously enrolled in the MBA Program. A leave of absence may be granted for up to one year, at the discretion of the MBA Program Director and Registrar. If a student needs to request a leave of absence, the student must contact the MBA Coordinator to initiate the process. Individuals who remain on leave for more than two years must formally reapply for admission. Readmission is based on the admission criteria and the curriculum that are in effect at the time of the resumption of classes.

Between 10 and 20 classes are required for the MBA degree, depending on waivers and choice of integrative option.

Student Registration and Counseling

Registration must be completed each semester during the dates specified in the University Calendar.

Newly-admitted students meet with the MBA Coordinator prior to their first formal registration. The student's previous academic experience is evaluated and core course waivers may be granted. All students receive a formal Program outline and a list of waived classes during that meeting.

In subsequent semesters, students are required to obtain course approval for registration by the MBA Coordinator or her designee. Each student takes responsibility for following the individual curriculum plan initially outlined by the MBA Coordinator. Enrolling in other courses may result in those credits not applying toward the degree.

Students are encouraged to meet informally with faculty in their areas of interest for general and career guidance.

MBA Program Policies

Academic Advising

The MBA Coordinator will serve as Academic Advisor for all MBA students and will meet with students periodically to assist in navigating through the Program curriculum.

Students must be advised by the MBA Coordinator who will assist in selecting classes each semester. Advisor Holds are placed on student records and will not be removed until the student has been advised.

Registration takes place exclusively online by accessing the PROWL system. Click on the Student Resources tab to get to the Registration menu.

Academic Probation and Disqualification

Please review the LMU Honor Code for definitions of academic dishonesty and detailed information on the Honor Code process.

Conditions for Academic Probation

Any MBA student who, in any semester, fails to earn a "B" (3.0) average or whose cumulative grade point average in the MBA Program falls below a "B" (3.0) will be placed on academic probation.

Conditions for Disqualification

A student already on probation who has less than a "B" (3.0) grade point average for the semester and who has not achieved a "B" (3.0) grade point average in the MBA Program is subject to disqualification from the Program. This decision will be made after review of the student's academic coursework by the Program Director.

Please also note that a student can receive no more than two grades below B- throughout their Program. Should the student earn a third grade below B-, the student will be given one opportunity to retake that class the following semester (assuming the student does not also have two semesters on probation). The student may not enroll in other classes concurrently with the repeated course. If the student does not earn at least a B- when retaking the class, the student will be disqualified.

Disqualification terminates a student's relationship with the University. A disqualified student may not register in any division or session of the University, and is denied all privileges of the University, including all organizations or activities in any way connected with it.

Change of Program or Emphasis

A student who wishes to change a program before completing a degree must submit a new application form to the Graduate Admission Office. A student who wishes to transfer from one emphasis to another before completing a degree must request an approval by the MBA Coordinator.

Course Loads

Fully-employed MBA students should take no more than six semester hours in the Fall or Spring semester unless they have permission from their advisor. All other students may take a maximum of 12 semester hours unless they receive permission from their advisor. During the Summer session, fully-employed students should take no more than three semester hours each term.

Repeating Courses

Students may repeat a course previously taken at LMU in a subsequent term one time only, including any withdrawals; the prior occurrence is excluded from the cumulative grade point average but remains on the transcript. Please note that although the GPA for that term will change accordingly, the academic status of the previous term will not change.

A student who earns an F in a class or receives a third grade below a B-minus will be required to repeat that course. The student will only be allowed to enroll in the repeated course and will not be allowed to take additional classes in that semester.

A student who receives an F in any course must repeat that course before being able to take additional classes.

Grade Appeals

A student who wishes to appeal a grade should first contact his or her faculty member. If a student wishes to appeal the faculty member's decision after the grade posting, he or she must submit a written request within three weeks to the Chair, Program Director, or Dean of the student's college. If the appeal process cannot be resolved, an impartial three-person faculty panel will be assigned by the Dean of the respective College to review the request. The panel will individually interview the faculty person and the student. After the interviews, review, and discussion, the panel will submit a formal decision to the Dean of the College, whose decision will be final.

Incomplete Grades

"I" (Incomplete) indicates that the student's work is incomplete. The student must remove the "I" within one year of receiving it. For students in the MBA Program who elect to do the Integrative Project, the time limit is one year. In those cases, the IP (Work in Progress) code is used. If an incomplete has not been removed after the specified period of time, the Incomplete grade will automatically change to a "W" (Withdrawal). Stu-

dents who wish to retake the course must pay regular tuition for the repeated course.

When a professor has granted an "I," it is the student's responsibility to arrange a deferred grade. The professor submits a "Deferred Grade Form" with the final grade to the Office of the Registrar. Incompletes which are not removed within the time limit given are computed as "I." A student with two Incompletes will be blocked from registration.

Any graduate student who in a given term receives a grade of I (Incomplete) for a course and who subsequently completes the course will receive a grade that is retroactive to the term when the student first registered for the course with all the impact it entails on the student's academic standing.

Independent Study

Independent Studies classes must be sponsored by a full-time faculty member and approved by the MBA Program Director. Independent Studies can only be invoked twice during a student's MBA program.

There are time constraints associated with an Independent Studies course. The approval process for Independent Studies must be completed during the semester prior to the one during which the student expects to enroll in the course.

All questions about Independent Studies should be directed to the MBA Coordinator. The MBA Coordinator is the arbiter of the process facilitating Independent Studies.

Jesuit Network

Jesuit Transfer Network

Students from schools that are parties to the Multilateral Agreement may complete their degree requirements at another Agreement School, subject to the admission standards of the receiving school.

LMU MBA students who have completed more than half of their degree requirements may take courses that apply towards their LMU degree requirements at another Jesuit-affiliated school and still receive their degree from LMU, assuming that they take the courses approved by the LMU MBA Coordinator and earn at least a B in each course.

Those students who have completed less than half of their degree requirements at LMU may transfer to another Jesuit-affiliated school, assuming they meet the receiving school's admission standards, and receive credit for some or all LMU coursework to apply towards the degree requirement at the receiving school. The receiving school determines the transfer credits they will accept.

LMU will only accept courses towards the degree with grades of B or better.

Students who transfer to LMU from other Jesuit MBA programs are required to maintain the standards of graduate students at LMU and are governed by the guidelines established within the University Bulletin. For more information, visit <http://mba.lmu.edu/about/jesuittransfer.htm>.

Students who transfer in from other Jesuit MBA Programs but will be receiving their degree from their original school are considered Visiting Students (non-degree). The MBA Program admits these students on a space available basis.

International Study Classes

Students may take no more than one (1) MBA international study class offered by another Jesuit institution.

MBA Degree Program

To qualify for the Master of Business Administration degree, the admitted student must satisfy the requirements of at least 18 courses. As many as 9 of the initial or core curriculum courses may be waived for students who demonstrate that they have mastered the body of knowledge contained in them. Nonetheless, a minimum of 10 graduate MBA courses must be taken at LMU to satisfy the University's residence requirement.

All courses are 3 semester hours. Course syllabi are on file in the MBA office.

MBA Course Categories

Two broad divisions of courses exist in the MBA Program: the core and the advanced curriculum.

Core Curriculum

The core curriculum consists of 9 specific courses that comprise the common body of knowledge of business administration as defined by the Association to Advance Collegiate Schools of Business (AACSB International). Core courses are prefixed MBAA and numbered in the 60X series (MBAA 601-609).

Core courses are described in the next section. They include the following:

MBAA 601	The Legal and Ethical Environment of Business
MBAA 602	Financial & Managerial Accounting
MBAA 603	Business Statistics
MBAA 604	Business Economics
MBAA 605	Management and Organizational Behavior
MBAA 606	Marketing Management
MBAA 607	Operations Analysis and Decision Support Systems
MBAA 608	Financial Management
MBAA 609	Management Information Systems

Several topics which are vital to the common body of knowledge in business are not directly referenced in the titles of the nine core courses. These topics include the following: business ethics, social influences, political influences, computer applications, organizational theory, interpersonal communications, integrating analysis, and the international dimension of business.

Because of their critical nature for emerging business leaders, many of these topics are included as major elements within each core course. For example, MBAA 605, Management and Organizational Behavior, includes modules on organizational theory, interpersonal communication, business ethics and the international dimension of business. Similar matrixed break-downs occur in the other core courses. Viewed from a topical standpoint, the international dimension of business is addressed in MBAA 604, 605, 606, 608, and 609.

The Advanced Curriculum

The advanced curriculum consists of 9 additional courses. All courses in the advanced curriculum are elective, but certain constraints exist to ensure that each graduate has an acceptable and intelligently constructed program of studies. Within the advanced curriculum, the student is given an opportunity to obtain both specialized knowledge in an Area of Emphasis and generalized knowledge in supporting areas. The curriculum also provides ample opportunity to integrate the knowledge obtained through the above specialization and generalization studies.

Specialization

Depth in a specialized field of knowledge is obtained by the selection of three courses within one of eight designated Areas of Emphasis. These areas and their course designator prefixes are listed below:

MBAB:	Management and Organizational Behavior
MBAC:	Marketing Management
MBAD:	Information and Decision Sciences
MBAE:	Human Resource Management
MBAF:	Financial Decision Systems
MBAG:	International Business Systems
MBAH:	Entrepreneurial Organizations
MBAJ:	Accounting Decision Systems

Generalization

By nature, MBA programs that are similar to LMU's follow the classic AACSB International model mandate that candidates for graduation have a broad academic background rather than one of extensive specialization.

Generalization in the Advanced Curriculum is obtained in the following way:

Students must take 5 advanced electives from at least 3 fields in addition to the specialized Area of Emphasis. An additional requirement is that no more than 2 such breadth courses may be taken within a single area. For example, a student whose specialized Area of Emphasis is MBAB, Management and Organizational Behavior, would take 3 MBAB electives for the Specialization requirement and for the Generalization requirement take 2 MBAC, 2 MBAD and 1 MBAE elective. Another student having the same specialization, may prefer to obtain even greater generalization by taking 1 MBAC, 1 MBAD, 1 MBAE, 1 MBAF and 1 MBAG elective.

Students may earn a second emphasis by taking one additional course in the MBA Program. That course must be an elective from the second area and assumes that the student has already completed two breadth electives from that second area.

Integration

The integrating experience is designed to draw together the knowledge gained in the Program into a combined focus. Because of this, such courses are taken toward the end of the student's Program. Three integrative options are available:

Option One, MBAI 692, the Integrative Project, is an intensive original analysis and solution of a significant business problem. The student's project proposal is reviewed by the Associate Dean. When his/her proposal is approved, the student is assigned to work on a one-to-one basis with a faculty member until the project is satisfactorily completed. The faculty member provides general guidance and ensures that the completed project is of high quality. Students who choose to take the integrative project option must take either MBAI 610, Management Strategy, or MBAI 690, International Regional Strategies: Cultural and Industrial, in their advanced curriculum.

Option Two, MBAI 691, Comparative Management Systems (CMS), is an Integrative course that involves three weeks travel outside the United States. Prior to departure, students participate in a prerequisite advanced elective course, MBAI 690, International Regional Strategies: Cultural and Industrial, during which they perform area studies of the nations to be visited and participate in seminars conducted by area and industry specialists. The industries visited are held constant for each annual CMS Program. Students are grouped by business functional areas and meet with executives from those areas in each firm visited. Group and individual papers comprise final outputs for the course.

Option Three allows the student to take 3 designated Strategy electives. Strategy electives are designated by 6X0 or have the word "strategy" in the title. All students who elect this option must take MBAI 610, Management Strategy, or MBAI 690, International Regional Strategies: Cultural and Industrial, plus 2 additional strategy courses. Each designated Strategy elective provides the student with a general management or functional area perspective on the development and implementation of high level corporate strategy. Taken together, the 3 selected electives give the student an integrative view of the total strategic planning and implementing processes. Students who have waived all core courses and who choose this option must take a minimum of 11 courses (rather than 10) to satisfy the residence requirement.

Students who follow this option observe how firms determine and implement corporate strategy from the standpoint of several functional areas. The strategy courses provide an overall integrative focus as a capstone to the student's MBA studies.

International MBA Certificate

The International MBA Certificate emphasizes a strong business curriculum intermeshed with intensive studies of global business practices, environments, and cultures. The Comparative Management Systems sequence provides a unique capstone to the program.

Students who fulfill the requirements below receive the degree Master of Business Administration plus a Certificate in International Business.

To qualify for the Certificate in International Business, MBA students must complete at least nine advanced courses in addition to the core, and comply with the following:

Depth or Specialization—through the selection of one of six areas of emphasis

Breadth or Generalization—through international electives

Integration—through the Comparative Management Systems courses

An area of emphasis is selected from one of the five following fields:

MBAB	Management and Organizational Behavior
MBAC	Marketing Management
MBAE	Human Resource Management
MBAF	Financial Decision Systems
MBAH	Entrepreneurial Organizations

Three elective courses comprise an area of emphasis. One of the electives must be the international study of the field, such as International Finance or International Marketing.

International electives comprise the breadth of the advanced curriculum. At least 5 courses must be taken in this category. At least 1 course must be taken from each group of international electives.

- Functional—outside of area of emphasis
- Regional
- Practicum
- Free International Elective
- Strategic—MBAI 690

The integrative experience requirement is satisfied by participating in the Comparative Management Systems class MBAI 691.

MBA Advantage Certificate Program for Alumni

Program Description

MBA Advantage, a certificate program for alumni of LMU and other AACSB International-accredited MBA programs, can provide MBA alumni with the opportunity to complete 3 courses and earn a certificate in an additional area of emphasis.

Tuition rates will vary. Please contact the MBA Office and the Office of Student Accounts for more information.

Areas of Emphasis

- Management and Organizational Behavior
- Marketing Management
- Information and Decision Sciences
- Human Resource Management
- Financial Decision Systems
- International Business Systems
- Entrepreneurial Organizations
- Accounting Decision Systems
- Competitive Strategy

Dual-Degree Programs

JD/MBA Program

The JD/MBA Program is designed for the full-time student who wishes to combine his/her graduate studies in law and business administration. It requires an intensive full-time commitment and superior capability to handle the academic rigors of two equally intensive graduate programs.

Admissions

Applicants to the JD/MBA Program must first apply separately to both the Law School and the MBA Program. Only after a student is admitted to both the Law School and the MBA Program will the application to the JD/MBA Program be considered. Acceptance to both schools does not guarantee admission to the JD/MBA Program.

Applications to the JD/MBA Program are due in the Law School Admissions Office by the first of July at the conclusion of the applicant's first year at the Law School.

Course of Study

Students enrolled in the JD/MBA Program plan a specific course of study with the MBA Program Coordinator. Although no undergraduate business classes are required, students who have taken business courses may qualify to have additional MBA requirements waived (see waiver policy). JD/MBA students must take a minimum of 8 classes in the MBA program.

Specific Course Paradigm for Master of Business Administration

The following course paradigm satisfies the MBA degree requirements for the JD/MBA Program:

I. CORE COURSES

The core curriculum courses, prefixed MBAA, comprise the first level or common body of knowledge studies in business administration. All core courses must be taken or waived before students may proceed to the advanced curriculum.

MBAA 602 Financial and Managerial Accounting

MBAA 603	Business Statistics
MBAA 604	Business Economics
MBAA 605	Management and Organizational Behavior
MBAA 606	Marketing Management
MBAA 607	Operations Analysis and Decision Support Systems
MBAA 608	Financial Management
MBAA 609	Management Information Systems

II. BREADTH COURSES

Students are advised to contact the JD/MBA Coordinator at the Law School for specific degree requirements prior to enrolling in any law courses once they have been admitted to the dual degree program.

III. INTEGRATIVE EXPERIENCE COURSES

Three integrative options are available:

1. Integrative Project (MBAI 692)
2. Comparative Management Systems (MBAI 691)
3. 3 Strategy Courses (MBAI 610 plus any 2 other strategy courses)

All students enrolled in the JD/MBA Program are required to comply with the requirements of both the Law School and MBA Program. Please refer to the Loyola Law School Student Handbook and this University Bulletin for clarification on policies governing graduate students. Students may choose the five required breadth electives from the following functional areas: Management and Organizational Behavior, Marketing Management, Information and Decision Sciences, Human Resource Management, Financial Decision Systems, International Business Systems, Entrepreneurial Organizations, and Accounting Decision Systems. Students may take no more than two courses in any one functional area to satisfy the breadth requirement.

Systems Engineering Leadership Program (SELP)

The mission of the Systems Engineering Leadership Program (SELP) is to educate working engineers and scientists in the engineering and business disciplines that will make them leaders of highly complex technical endeavors within their sponsoring organizations.

The SELP will confer two degrees upon its graduates: an MBA and an MS in Systems Engineering. Students may obtain either an MS in Systems Engineering or an MBA degree as a stand-alone by fulfilling the individual degree requirements. A certificate program in Systems Engineering is also available.

Admissions

Both the MBA program in the College of Business Administration and the Systems Engineering Program in the Frank R. Seaver College of Science and Engineering must accept students applying to the SELP for admission. The admissions process to both Colleges will be coordinated within the University. Prospective students need to submit only one application to the LMU Graduate Division.

Course of Study

Students enrolled in the SELP Program are advised by the SELP Program Coordinator. Although no undergraduate business classes are required, students who have taken business courses may qualify to have some of their MBA core requirements waived (see waiver policy).

The SELP Program requires a total of 22 courses from the Systems Engineering curriculum as well as the MBA Program curriculum. A detailed description of the course requirements for the SELP Program can be found in the section pertaining to the Frank R. Seaver College of Science and Engineering.

The SELP students will be expected to meet all course requirements associated with the MBA Program classes. In addition, SELP students will be expected to adhere to the policies and procedures established for all students in the MBA Program.

The SELP students will be expected to meet the course requirements in both the Systems Engineering and the MBA programs. SELP students will be expected to adhere to the policies and procedures established for all students in the MBA program. The System Engineering portion of the requirements (11 courses) is exactly the same as those listed above under "Systems Engineering Program Requirements."

The MBA requirements include 12 courses listed below. Additional information about the MBA program, including procedures for waiving core MBA courses, may be found in the MBA section of this Bulletin. Students who receive a grade of less than "B" in any 500-level course or a grade

of less than "C" in any 600-level course will not have the course count toward their degree. The overall minimum GPA required for graduation is 3.0.

MBA Courses

Core MBA Courses

MBAA 601	Legal and Ethical Environment of Business
MBAA 602	Financial & Managerial Accounting
MBAA 603	Business Statistics
MBAA 604	Business Economics
MBAA 605	Management and Organizational Behavior
MBAA 607	Operations Analysis & Decision Support Systems
MBAA 606	Marketing Management
MBAA 608	Financial Management
MBAA 609	Management Information Systems

Advanced MBA Courses

MBAI 610	Management Strategy
MBAB 615	Program Management*
MBAG 64X	International Elective, selected from MBAG 640, 641, 642, 649, MBAF 648

* Course counting toward both the M.S. in Systems Engineering and MBA

Introduction

The Executive MBA (EMBA) program is a 21-month program for experienced mid-level executives with a bachelor's degree and at least 6 years of professional, managerial, or entrepreneurial experience. Classes meet all day Friday and Saturday and every other weekend.

Executive MBA students bring a deep understanding of the workplace and managerial experience into the classroom. Their diverse knowledge base becomes an important shared-learning tool for fellow students, creating a broad range of perspectives on wide-ranging business issues and contributing to a challenging and enriching learning environment. You will enter and graduate as a group having experienced a high level of collaborative learning and exposure to real-world business situations taught from an executive management level perspective.

The current program began in August 2010 and ends in May 2012.

Application Process

The Executive MBA program requires a Bachelor's degree with an acceptable level of scholarship from an accredited institution of higher learning and six or more years of increasing responsibility in professional, management, or entrepreneurial positions.

Admission to the Executive MBA program is individualized and based on a candidate's potential to pursue graduate study. Each candidate is evaluated on the cumulative evidence received including, but not limited to, work and management experience, career accomplishments, potential for advancement, letters of recommendation, personal interview, information provided in the application form, undergraduate and graduate (if any) record, and GMAT (if required). Selection is based on academic potential without regard to race, creed, color, gender, sexual orientation, national origin, age, or disability.

How to Apply

Application deadline was July 1, 2010, for the Executive MBA class that started in August 2010. Applications received after the deadline will be considered if spaces are available.

- **Schedule your personal interview**

Candidates for the Executive MBA must have an interview with a member of the admissions committee. If you are considering candidacy, you are encouraged to interview early in the admissions process to assess the fit between the program and your experience, expectations, and personal development needs, and to determine if you are required to take the Graduate Management Admission Test (GMAT).

- **Complete the application for admission**

Please type or print clearly. Give your full legal name.

- **Include a \$100 application fee**

This is non-refundable. Your check should be made out to Loyola Marymount University. If a check is written for you by someone else, please make sure your name appears on its face.

- **Send for official transcripts from all colleges and universities attended**

Official records must be sent directly from the registrar of the issuing institution to EMBA Admissions. Transcripts submitted will not be returned, nor will copies be forwarded by LMU to other institutions.

- **Request two letters of recommendation**

You should request these from persons with whom you have closely worked and who can evaluate your abilities, accomplishments, and potential. Where applicable, at least one letter should come from your supervisor. Recommenders should use one of the postage paid envelopes provided by EMBA Admissions to send their letters directly to EMBA Admissions.

- **Obtain your company's sponsorship**

You must have a support statement from your employer acknowledging that you will be given the necessary time off from work to attend classes and other official program functions. Please have your employer complete the proper form and send it to EMBA Admissions using the postage paid envelope provided.

- **Provide the official score of your Graduate Management Admission Test (GMAT), if required**

The Graduate Management Admission Test (GMAT) is required only if your prior academic work and professional experience does not show clear evidence of strong quantitative and analytical reasoning skills. A determination that the GMAT is required will be made after your personal interview and application screening. If the GMAT is required, your results should be sent to EMBA Admissions (ETS code 4403).

The GMAT is a computer-adaptive test (CAT) that is available year-round at test centers throughout the world. Visit the MBA Explorer® website at <http://www.mbaexplorer.com> for quick answers to most of your questions and the latest GMAT information. If you have additional questions, contact an Educational Testing Service customer service representative at 609.921.9000. Telephone lines are open Monday through Friday, 8:00 a.m. to 8:00 p.m., EST.

- **Review and Notification**

A formal notice will be sent to each candidate after the application and complete records are received, the interview conducted, and the admission committee has made its recommendation. If you are admitted, you will be expected to confirm your commitment with a non-refundable payment of \$1,000. This pre-payment will be applied to tuition charges and will reserve one of the LMU EMBA positions for you.

Summary—The Application Essentials

SCHEDULE INTERVIEW: Early interview suggested

SEND: Application with \$100 fee

HAVE SENT: Transcripts

2 Letters of Recommendation
Company Sponsorship Letter
GMAT Score, if required

SEND TO: EMBA Admissions

The Executive MBA Curriculum

The Executive MBA curriculum employs a modular structure with the focus shifting from analysis and evaluation in Year One to strategic application and execution in Year Two. The 21-month, 58-credit-hour program is presented in four modules and an interim summer session between Years One and Two. The learning process is accomplished through three levels of integration.

Knowledge Content: To enhance relevance of core business concepts to the workplace, knowledge content (finance, accounting, economics, statistics, marketing, leadership, performance management, and strategy) is presented by instructors with significant real-world experience in theme-based modules that closely approximate their application in real-world situations.

Managerial Competencies: Core managerial competencies (problem solving and decision making, communicating and interpersonal relations) are used to integrate and enhance the application of knowledge, experience, and learned concepts into the workplace.

Integrated Learning Environment: Relevance and enhanced retention are enabled through action-based assignments, illustrative real-world cases studies, integrated skill application projects, and on-scene domestic and international field trips.

The major components of the program are the Classroom Experience, Skills Application Projects, and off-campus Learning Experiences.

Classroom Experience

Classroom sessions are comprised of presentations by highly-qualified faculty and business leaders. Learning is facilitated through interaction between participants and faculty, exercises approximating real management issues, case studies, and exploring management concepts found in readings and text materials. Individual skill development is stressed, with the aim of equipping executives with strategies they can use to improve their own decision-making and leadership capabilities.

Skill Application Projects

Skill application projects provide important experiential learning by "forcing" the use of business concepts learned in the classroom to solve real business problems. Each module or major curriculum focus uses a team project to facilitate the transference of knowledge into practical application. Projects are real business issues faced every day, such as a merger or acquisition, ethical decisions, opening new markets, major reorganization, or a functional business problem. Web-based group interaction and e-mail are used to facilitate completion of group assignments.

Learning Experiences

Learning experiences provide unique educational opportunities that augment classroom instruction. These are fully integrated into the curriculum and also provide experiential learning in the actual practice of management.

- **Executive Leadership Retreat**

You begin the Executive MBA program with a four-day residential retreat where we help you set learning goals, form study teams, and engage in a variety of workshops and team-building exercises. We also include a workshop for our students and their spouses/significant others addressing the importance of achieving balance between family, work, and school.

- **Business Research Skills and Field Research Project**

Between the first and second year, you will learn business research skills and conduct an in-depth study of an actual business's sectors and specific companies within it. You will learn how to apply concepts learned in the classroom to actual business situations, and your recommendations and solutions will carry real consequences.

- **Industry/Government Sector Study**

Between the first and second year, we visit a domestic government and/or business center for one week where you gain firsthand exposure to the forces and personalities that shape policies and decisions. You will learn how businesses are currently adapting their operations to successfully compete in today's marketplace. Recent visits have included Sacramento, CA, and the near-by wine industry, and Washington, D.C.

- **International Trip**

In Year Two, you will take a two-week journey to one or more major, non- U.S. business centers that will broaden your understand-

ing of what it takes to manage in today's global business environment. In recent years, we have traveled to South America, China, India, Southeast Asia, and Europe. Our students regularly cite the visit as a highlight of the program.

Expectations for Executive MBA Students

The Executive MBA is a cohort program where students proceed through a fixed curriculum as a group. Learning is facilitated through collaborative assignments where students work closely with each other, with faculty, and within study teams. A significant and critical part of the learning is achieved through open and honest dialog with fellow students and faculty.

Success in the program depends heavily on attitude and how students interact with and work with other classmates. Students are expected to develop an awareness of self that requires a willingness to engage in self discovery, to look at oneself objectively and honestly, and to respect the opinions and perspectives of fellow classmates, faculty, and administrators. Students agree to and accept the following guidelines:

- Actively participate in regular team meetings and activities
- Fulfill commitments made to the team including homework and team projects
- Support other team members
- Actively work to create a high performance team
- Be open to feedback from faculty, team members, and class members
- Provide feedback to team members and class members
- Treat fellow students, faculty, and administrators with dignity, decency, and mutual respect

Failure to adhere to these guidelines may result in dismissal from the program.

The EMBA Curriculum Sequence

The EMBA is built and organized around key business challenges, with courses that integrate core business concepts and tools with real business situations to address these challenges. Credit hours for an individual course may vary from 1 to 4 semester hours, and some courses may not be offered for each class, or in the module indicated; however, total credit hours is 58 semester hours.

The MBA degree is awarded by the College of Business Administration at the successful completion of the program.

Year One—MBA Fundamentals

Module 1: Knowledge Foundation and Language of Business

The emphasis of this module is to assess the impact of the global economy on the economic value of the firm by strengthening your executive ability to acquire and maintain capital resources. Course work aims at improving decision making by laying a solid foundation in quantitative and analytical skills.

The module includes:

MBAP 602	Accounting and Control
MBAP 604	Applied Business Economics
MBAP 608	Managerial Finance
MBAP 626	Executive Communications I

The coursework is applied in a real-world skill application project, MBAP 611, Corporate Expansion Project, which ties the course work together and provides actual practice in using quantitative data to support a major financial decision.

Total: 12-14 semester hours

Module 2: Leadership to Improve Organizational Performance

The focus of this module is to enable executives to maximize human potential for improving organizational performance. You develop an understanding of your own leadership and decision-making styles to greatly improve your leadership ability.

MBAP 603	Decision Support Foundation
MBAP 622	Strategic Human Resources Management
MBAP 623	Leadership in the 21st Century
MBAP 624	The Manager as Decision Maker
MBAP 625	Managing Technology
MBAP 627	Executive Communications II

By the end of the module, you have gained fundamental knowledge and skills to improve organizational performance. Moreover, you will under-

stand how to use your own leadership style more effectively. This is applied in a skill application project, MBAP 612, Leadership Practicum, which includes a capstone business simulation.

Total: 12-14 semester hours

Year Two—Strategic Application

Module 3: Knowledge to Lead in the Global Business Environment

This module expands your horizons beyond functional and internal topics to global approaches, presenting you with a variety of complex and inter-related issues. Each course is led by an experienced faculty member.

The module includes:

MBAP 615	Field Consulting Project
MBAP 631	Strategy Formulation in the Global Environment
MBAP 632	Applied Economics Environment
MBAP 633	Changing Global Economic Environment
MBAP 634	Marketing and Social-Cultural Environment
MBAP 635	Legal Environment of Business

The application of learning is accomplished through a skill application project, MBAP 613, Business Opportunity Assessment, which involves the identification and evaluation of an international business opportunity. A major report and presentation integrate module concepts into a supportable recommendation for board-level decision.

Total: 12-14 semester hours

Module 4: Strategic Leadership to Achieve Long-Term Success

This module, the capstone experience of the program, emphasizes executive leadership required to create and communicate clear direction for the organization's future and for carrying out change to achieve long-term results. The objective is to enhance your ability to apply human and capital resources to achieve a long-term competitive advantage for your organization. Particular emphasis is given to ethical conduct, integrity, and socially responsible action.

The module includes:

MBAP 641	Executing Strategy in the Global Environment
MBAP 642	Deal Making
MBAP 643	Strategic Marketing
MBAP 644	Corporate Governance

The module also includes the conclusion of the following courses, which focus on interaction with others, development of self-awareness, the education of the whole person, and developing a well thought-out plan for professional growth. They span the entire program:

MBAP 661	Team Performance and Group Dynamics (begins in Leadership Retreat)
MBAP 662	Ethics and Spirituality in the Workplace (begins in Module 1)
MBAP 663	Professional Growth Planning (begins in Module 2)

Learning from this and previous modules is integrated into a skills application project, MBAP 614, Strategic Opportunity Implementation. This project is a comprehensive implementation plan for the business opportunity identified and evaluated in the Module 3 skill application project.

Total: 12-14 semester hours

Learning Experiences: Four learning experiences provide educational opportunities that augment classroom instruction.

MBAP 628	Business Research Skills
MBAP 651	Introduction to Executive Leadership (The Leadership Retreat)
MBAP 652	Field Study on Conducting Business Domestically (The Industry/Government Sector Study)
MBAP 653	Business in the International Environment (The International Experience)

Total: 5 semester hours

Program Total: 58 semester hours

COLLEGE OF COMMUNICATION AND FINE ARTS

Administration

Dean: Barbara J. Busse
Associate Dean: Iwona Czarny

Mission of the College

Grounded in and sustained by a significant commitment to an excellent liberal education, the College of Communication and Fine Arts aims to promote the Mission of Loyola Marymount University in the following ways:

foster the encouragement of learning in all of our academic programs and endeavors;

contribute in a distinctive way to the education of the whole person;

create in our own community and in the larger community beyond LMU the individual and collective resources and orientations that will allow us to create a more compassionate and just world.

The College of Communication and Fine Arts creates an environment conducive to understanding the complex phenomena of art and art making as well as human communication in all its diverse forms. Driven by a passionate commitment to study, understand, and experience human creative expression requires that we assist students and our various publics in adopting a critical and discerning orientation to human artistic and communicative expression. We develop both the capacity for human artistic expression and the capacity for other forms of communication as life-enhancing opportunities to promote the common good and contribute to the full development of our students, faculty, staff, alumni, and those we serve beyond LMU.

Our undergraduate programs in Art and Art History, Communication Studies, Dance, Music, and Theatre Arts and our graduate program in Marital and Family Therapy (grounded in clinical art therapy) foster deep inquiry into the processes and artifacts of human expression and their capacity to shape life's experiences, meanings, and expectations. We are intrigued by the ways in which art and communication reveal human interiority in all its mysterious and complex diversity. Ultimately, our shared objective is to create and sustain a learning community composed of individuals, each more fully alive, more capable of experiencing life in all its complexity, in order to assist all to live more meaningful and productive lives. Our educational programs and personal interactions with students motivate them to continue learning throughout their lives. Our courses and programs are embedded in a learning community characterized by close contact between faculty, staff, and students that encourages students and their mentors to realize our individual and collective potential to make meaningful contributions to a world in need of our most discerning intelligence and our most creative and compassionate responses. In order to respond most effectively to a challenging and diverse world, the College develops its curricular and program initiatives to promote specific student learning outcomes, developing in them the capacity to make informed, capable, and compassionate contributions through their professional lives and their personal relationships.

College of Communication and Fine Arts Student Learning Outcomes

By engaging and fully participating in academic programs in the College of Communication and Fine Arts, our students should develop a critical understanding of:

- The history, theories, techniques, approaches, and orientations appropriate to their academic disciplines in the arts, communication studies, and marital and family therapy (clinical art therapy)
- The ways this body of knowledge and its distinctive understandings relate to and inform other ways of knowing and other forms of human expression in all its diversity
- The significant consequences and potentially transformative impact of our individual and collective capacity to create or to communicate something that would not exist were it not for our own expression.

By engaging and fully participating in academic programs in CFA, our students should be able to:

- Integrate and incorporate the knowledge of their disciplines into their own work in a creative and increasingly accomplished way
- Develop the capacity to be receptive to the critiques of others and to be deeply self-reflective about their own work
- Experience their work as central to their own personal development and accept their responsibility to other people and the world we share
- Offer discerning responses to the human expressions and created art works of others
- Collaborate with others in exploring how to create and communicate, bringing the interior world of our private selves into the public sphere in ways that engage and enlighten.

By engaging and fully participating in academic programs in CFA, our students should value:

- Imagination, intuition, and spirituality as an essential part of life
- The power of human creativity and human communication to transform our innermost private lives and our relationships in an increasingly diverse and complex public sphere
- The complexity and diversity of human experience reflected in an openness to respond to other people from varied backgrounds, cultures, and belief systems in a socially just and compassionate way
- The role that the arts and communication play in creating and re-creating cultures, meanings, and expectations that shape our lives in profound ways.

Application of General University Requirements

The University requirements for admission, graduation, and all general rules and regulations of the University as set forth in this Bulletin are applicable to and binding upon all students enrolled in the College of Communication and Fine Arts.

Teacher Preparation Program

The College of Communication and Fine Arts offers a subject matter preparation program in art education specially designed to meet the State of California subject matter requirements for a secondary credential. The Bachelor of Arts degree with an emphasis in Art Education is designed to allow completion of the California Preliminary Single Subject (Secondary) credential in four years. This program is offered in conjunction with the School of Education. All students interested in teaching art at a secondary level should contact Teresa I. Lenihan as soon as possible and should also contact the School of Education to arrange a time to attend an Undergraduate Information Session.

College Curriculum

The curriculum of each department in the College of Communication and Fine Arts incorporates required courses in general education, major sequences, and elective courses which complement and enhance the student's major field of concentration.

Core Curriculum for the Baccalaureate Degree in the College of Communication and Fine Arts

American Cultures

3 Semester Hours

Course Selection

First- and second-year students choose from any lower division course listed or cross-listed as AMCS. Third- and fourth-year students choose from any upper division course listed or cross-listed as AMCS. A single course will generally not fulfill two core requirements. The only exception

is a course that satisfies another core requirement which is also cross-listed as AMCS.

College Writing

3 Semester Hours

Course Selection

ENGL 110 will fulfill the college writing requirement. ENGL 100 will not fulfill the college writing requirement but is required of certain students based on their performance in the essay written in all ENGL 110 sections during the first week of classes. A minimum grade of C (2.0) is required in ENGL 110. All students who receive a grade of C- or lower must retake ENGL 110 as soon as possible.

Choose: ENGL 110.

Communication or Critical Thinking

3 Semester Hours

Course Selection

Communication: Choose from CMST 100, 110, 130, or 140.

OR

Critical Thinking: Choose from CMST 206, PHIL 220.

Communication Studies majors must choose CMST 100 or 206.

Critical and Creative Arts

6 Semester Hours

Course Selection

This requirement is satisfied by taking one course from Critical Arts and one course from Creative Arts.

Critical Arts: Choose from ANIM 100; ARHS 200, 201, 202, 321, 340, 345; DANC 281, 381; FTVS 210, 314, 315; MUSC 102, 104, 303, 365; THEA 240, 245, 331, 336, 341, 346, 347, 348, 349, or 430.

Creative Arts: Choose from ANIM 120; ART 150, 151, 153, 278, 280, 350; DANC 163; ENGL 205, 311 (Prerequisite 202), 312 (Prerequisite 201); MUSC 105, 106, 107; PROD 200; SCWR 220; THEA 110, 400.

Courses must be taken outside of the student's major program of study.

History

6 Semester Hours

Course Selection

This requirement is satisfied by taking one course from Western Civilization and one course from Contemporary Societies.

Western Civilization: Choose from HIST 100 or 101.

Contemporary Societies: Choose from HIST 152, 162, 172, 182, or 192.

Literature

3 Semester Hours

Course Selection

Prerequisite: Successful completion of college writing requirement.

Choose from CLCV 200, 210, 220, 230; ENGL 130, 140, 150, 170; FNLT 180; THEA 240, 245, 331, 336, 341, 346, 347, 348, 349, or 430.

Mathematics

3 Semester Hours

Course Selection

Choose MATH 102 or higher. Some majors require a specific mathematics course, which also fulfills this requirement.

Science and Technology

3 Semester Hours

Course Selection

Choose one lower division course from a department other than Mathematics. Courses numbered 260-279 in each department of the Frank R. Seaver College of Science and Engineering are specifically designed for non-science majors. Choose from BIOL, CHEM, CMSI, ELEC, MECH, NTLS, or PHYS.

Philosophy

6 Semester Hours

Course Selection

Lower Division:

Choose PHIL 160. Transfer students who enter LMU with a minimum of sixty (60) accepted transfer hours are exempted from the lower division requirement.

Upper Division:

Choose one PHIL course from 320 through 330.

Social Sciences

6 Semester Hours

Students must select one of the following options:

1. Two courses from ECON 100, 105, 110, 120; GEOG 100; POLS 135, 155; PSYC 100; SOCL 100 or 105. Courses must be from different departments.
2. One course from: AFAM 115, APAM 117, CHST 116, or WNST 100; and one course from ECON 100, 105, 110, 120; GEOG 100; POLS 135, 155; PSYC 100; SOCL 100 or 105.
3. Two courses from the same department. The first is selected from ECON 100, 105, 110, 120; GEOG 100; POLS 135, 155; PSYC 100; SOCL 100 or 105. The second course in the same department is selected from upper division courses that the student is qualified to take.

Theological Studies

6 Semester Hours

Course Selection

Lower Division:

Choose from the 100-level series of THST courses. Transfer students who enter LMU with a minimum of sixty (60) accepted transfer hours are exempted from the lower division requirement.

Upper Division:

Choose from the 300-level series of THST courses only.

Note: International/Global Studies

The current core curriculum includes many courses dealing with international and global studies. All students are required to complete HIST 100 or 101, which deal with European culture. In addition, it is recommended that students take additional core courses which include the study of European cultures such as: ARHS 200, 201, 202; CLCV 200, 210, 220; DANC 281; FNLT 180; FTVS 314; MUSC 102; THEA 240, 245, 331, 336, 341; THST 320, 322, 331. To further augment the understanding of world cultures, it is recommended that students also choose at least one core course that includes the study of Africa, Asia, the Pacific, or Latin/Indigenous America. These core courses include: ARHS 321; DANC 381; HIST 172, 182; MUSC 303, 365; POLS 155; SOCL 105; THEA 348; THST 180, 381, 382, 383, 384, 385.

Recommendations

Students are encouraged to enrich their program of study with selected electives from the following areas. Consult the Bulletin for specific offerings.

Business

Students are encouraged to take a course in the issues of business. Consult the Bulletin listings.

Computer Skills

Students are expected to become proficient in computer skills. Courses or workshops may be taken to help students develop existing skills.

Foreign Language

Students are encouraged to study foreign languages to the intermediate level. LMU offers Chinese, Filipino, French, German, Greek (Modern and Classical), Italian, Japanese, Latin, and Spanish on a regular basis.

International/Global Studies

Students are encouraged to select elective courses that deal with international and/or global issues. Consult the Bulletin listings.

Study Abroad

A semester of international study abroad is also recommended. Consult the Study Abroad office.

Total Program

120 semester hours are required for graduation with the following distribution:

- a maximum of 36 upper division semester hours in any one department will be accepted toward the 120 semester hours requirement; and
- at least 45 semester hours are required from upper division offerings.

Students should consult the Dean's Office for specific policies applicable to the College of Communication and Fine Arts.

Individualized Study Program

Admission to the Individualized Study Program in Communication and Fine Arts requires:

- a B (3.0) grade point average.
- the submission of an Individualized Study Program form delineating courses and signed by the student's advisor and the chairperson of the advisor's department.
- the submission by the advisor of a complete curriculum from an accredited college or university.
- the signature of the Dean of the College.

All subsequent changes in the Individualized Study Program require points 2, 3, and 4 above.

Students registering for an Individualized Study Program are advised that their diploma and transcript will read "Individualized Study" and not the specific major they elect within that program.

Art and Art History

Faculty

Co-Chairpersons: Katherine Anne Harper, Teresa Muñoz

Professors: Michael Brodsky, Jane Marie Brucker, Rudolf Fleck, Teresa Muñoz, Kirstin J. Noreen, Rev. Michael R. Tang

Associate Professors: Katherine Anne Harper, Garland P. Kirkpatrick, Teresa I. Lenihan, Diane M. Meyer, Damon Willick

Assistant Professors: Han Dai-Yu, Saeri Cho Dobson, Dmitry Kmelnitsky

Mission

Within the framework of the University's mission, the Department of Art and Art History is committed to giving students educational opportunities combining creativity, professional, and scholarly study in the visual arts.

Objectives

The philosophy of the Department rests on the premise that its students should receive a broad education that combines creativity and scholarly study. Two majors are offered, Studio Arts and Art History. The foremost objective is to prepare students intellectually and professionally for a career in Studio Arts and Art History and/or graduate studies. Courses offered to undergraduate majors and non-majors stress the cultural value of the visual arts.

Degrees

Two majors are offered, Studio Arts and Art History.

Students may also complete a minor.

The Department is a fully accredited member of the National Association of Schools of Art and Design.

Semester Hours

For studio classes, a semester hour of credit, one unit, represents three hours of work each week. In lecture and seminar courses, an hour of credit represents one hour each week in class and two hours of work outside of class.

Art History Major (ARHS)

The major in Art History is designed to increase the student's understanding of the meaning and purpose of visual arts. Utilizing an interdisciplinary approach, courses examine the historical development, formal expression, and societal role of visual culture, art, and architecture.

Goals for Art History Majors

Courses expose students to a broad understanding of world history through the visual arts, providing a full awareness of the historical, spiritual, and cultural contexts of the works of art. In addition, classes foster excellent research skills, critical thinking, and advanced writing in preparation for graduate studies or professional careers.

Student Learning Outcomes

Students majoring in Art History should be able to:

- Demonstrate that they comprehend historical contexts for diverse artistic traditions.
- Exhibit knowledge of the impact of diverse cultural contexts on the production and understanding of artistic traditions.

Students majoring in Art History should know:

- Methods for analyzing works of visual culture, art, and architecture within their appropriate historical, social, religious, and philosophical contexts.
- How to think critically and articulate clear ideas about visual culture, art, and architecture and their historical and contemporary significance.
- The necessary research and writing skills to formulate and articulate meaningful statements and documents on visual culture, art, and architecture.

Students majoring in Art History are presented with the opportunity to value:

- The aesthetic, theoretical, and historical properties of works of visual culture, art, and architecture.
- The power of visual culture to communicate deep human ideas and emotions.

Major Requirements

Lower Division Requirements:

12 semester hours of lower division courses: ARHS 200, 201, 202, and any 3 semester hours of one lower division Studio Arts course.

Upper Division Requirements:

30 semester hours of upper division courses, including ARHS 449 and 6 semester hours of a non-Western Art History course (ARHS 316, 318, 320, 321, 420, 421, 425, 428, or any non-Western ARHS 498 course).

Required: A year of college level foreign language (French or German recommended; select from FREN 101, 102, 203, 204 or GRMN 101, 102, 203, 204).

A minimum cumulative GPA of C (2.0) must be obtained in the major requirements.

A minimum cumulative GPA of 2.5 is required for changing a major into the department.

Minor Requirements (ARHS)

18 semester hours: ARHS 200, 201, 202; and 9 semester hours in upper division courses selected under the direction of an advisor in the department. Studio Arts majors who elect an Art History minor are required to take the three upper division requirements and an additional 3 semester hours of upper division work for the total of 21 hours in the minor. (ARHA)

Recommended: ARHS 449 and 6 semester hours of a non-Western Art History course (ARHS 320, 321, 420, 421, 425, 428, or special approved course).

Studio Arts Major (STAR)

Description and Goal

This Studio Arts program of study provides a broad foundation in the techniques, concepts, and professional orientation related to an area of emphasis chosen by the student in either Art Education, Fine Arts, Graphic Design, or Multimedia Arts.

Students are required to declare their chosen emphasis during the first semester Sophomore year. Entering transfer students are required to declare their chosen emphasis at the time of registration for classes.

The goal of all areas is to encourage individual creative exploration and to develop student understanding of artistic and cultural expression.

Student Learning Outcomes

Students majoring in Studio Arts (STAR) should know:

- The basic definitions, concepts, and techniques in visual arts
- How to discover their unique capabilities and personal artistic expression
- How to solve creative and aesthetic problems in the visual arts.

Students majoring in Studio Arts (STAR) should be able to:

- Represent a distinct sensibility
- Make artistic decisions based on an awareness of traditional and current art movements and technological advancements
- Expand their cultural and critical view of the history of art
- Critically analyze and assess artworks and concepts
- Prepare a portfolio needed to enter graduate studies or a professional career.

Students majoring in Studio Arts (STAR) are encouraged to value:

- The on-going learning and development of overall technical knowledge
- The abilities of others
- Expertise in the arts
- The awareness of art history within the larger human context
- The pursuit of new skills and insights for personal growth
- Service to others and the promotion of justice.

General Information

Students in Studio Arts (STAR) are expected to engage in studio work in addition to scheduled class time. Most studios are open to enrolled students outside of class time on a 24-hour basis. For studio classes, students should anticipate approximately three hours of outside of class studio work every week for each semester hour of course credit. In lecture and seminar courses, students should anticipate approximately one hour each week in class and two hours of work outside of class for each semester hour of course credit.

Minor Requirements

18 semester hours: ART 153 or 160, and 15 semester hours of Studio Arts electives with at least 6 semester hours in upper division courses.

Secondary Teacher Preparation in Art

Secondary Teacher Preparation in Art

B.A. Degree in Studio Arts with an Emphasis in Art Education

The Art Education Emphasis is designed to create reflective, informed, caring, and capable artists who are skilled in using interpersonal and creative tools for teaching careers in California schools at the secondary level (grades 6-12). Students interested in earning a State of California Single Subject Teaching Credential in Art must fulfill all the requirements for the major in Studio Arts (STAR) with an Emphasis in Art Education (ARTE) and the requirements for a minor in Secondary Education (SEED). With the help of their advisor, students can carefully design a schedule to complete the program during their four years at LMU. Students who seek graduation with an Art Education Emphasis and a teaching credential should ideally declare the Art Education Emphasis as a freshman.

The LMU Secondary Teacher Preparation Program in Art is approved by the California Commission on Teacher Credentialing. The Department of Art and Art History is a fully accredited member of the National Association of Schools of Art and Design.

Students should consult with the Director/Advisor of Secondary Teacher Preparation Program in Art, Professor Terry Lenihan (tlenihan@lmu.edu

310.338.4409) to sign up for the program and to discuss their course of study.

Please contact the School of Education at soeinfo@lmu.edu for information about all available Secondary Teacher Preparation Programs (STPP). All students interested in teaching Art in middle schools or high schools should meet with their departmental advisors as soon as possible and must also attend a mandatory School of Education Undergraduate Information Session. Please call 310.338.7845 to obtain the next scheduled meeting time and to confirm attendance. The advisor for STPP students regarding the School of Education is Terri Taylor (ttaylor@lmu.edu 310.338.7755).

The Center for Undergraduate Teacher Preparation (CUTP) is also available to assist students interested in teaching careers in both secondary and elementary education. Please contact Dr. Bernadette M. Musetti, Senior Director and Associate Professor of Liberal Studies (bmusetti@lmu.edu 310.338.4402). CUTP has a library of information and advice for teachers and also sponsors several informational programs every year. CUTP is located in UH 3404, 310.338.1748.

Major Requirements for a Major in Studio Arts (STAR) with an Emphasis in Art Education (ARTE)

Core Requirements

Consult with the Director of Secondary Teacher Preparation of Art for Core recommendations. HIST 162 or POLS 135 required for students pursuing a teaching credential and recommended for all Art Education Emphasis students.

Lower Division Requirements (24 semester hours)

24 semester hours of lower division courses: ART 153, 160, 255, 257, 260, 275; ARHS 200 and 201; and ART 154, 278, 280, or 285 as the foundation for the Studio Arts Focus.*

Note: ARHS 200 also satisfies Critical Arts Core, and ART 153 satisfies Creative Arts Core.

Upper Division Requirements (27 semester hours)

27 semester hours of upper division courses: ART 355, 396 or 397, 455, 490 or 497; 9 semester hours of upper division ART electives*, ARHS 419, and a non-Western Art History course (ARHS 316, 318, 320, 321, 420, 421, 425, 428 or any non-Western ARHS 498 course).

*Studio Arts Focus Requirement

Out of the 9 semester hours of upper division ART electives, 6 must be in the same Studio Arts Focus. Select both lower and upper division courses from within the same Studio Arts Focus. Courses must be selected under the advisement of the Director of Secondary Teacher Preparation of Art.

Requirements for State of California Secondary Teaching Credential and a Minor in Secondary Education (SEED)

Art Education Emphasis students interested in earning a State of California Secondary Teaching Credential are encouraged to declare a Minor in Secondary Education.

The following education course requirements apply ONLY to those students who entered LMU after Spring 2003.

EDLC 400	Sociocultural Analysis of Education**
EDES 401	Educational Psychology for the Childhood and Adolescent Years**
EDCE 412	Fieldwork: Secondary Directed Teaching**
EDLC 414	Theories of Second Language Acquisition
EDLC 425	ELD Methods and SDAIE**
EDES 428	Reading/Language Arts for the Single Subject**
EDSS 440	Education of Culturally and Linguistically Diverse Students with Exceptional Needs

** Prerequisite courses along with these additional requirements are necessary for applying to the School of Education to earn the State of California Teaching Credential:

- Cumulative GPA of 2.8 or better
- CBEST original passing score report
- 20 hours of grade-level instruction (letter from ARTsmart Program Director)
- U.S. Constitution Requirement (HIST 162 or POLS 135)
- Fingerprint Clearance

- Tuberculosis (TB) Skin Test
- School of Education Application Form
- Statement of Intent
- Candidate Information Sheet
- Four Letters of Recommendation
- Technology Requirement (self-verification form)

See School of Education listing for additional requirements and information.

<hr/>				
12				

This schedule is typical. The sequence and choices of courses must be decided in consultation with the Director of Secondary Teacher Preparation of Art and advisors from the School of Education.

Additional education courses are required for those students who plan to complete the State of California Secondary Teaching Credential. Additionally, prerequisite courses are required along with these additional requirements and are necessary for applying to the School of Education to earn the State of California Teaching Credential.

All students interested in art education are required to consult closely with the CFA Dean's office, the Director of Secondary Teacher Preparation of Art, and the School of Education for the updated program requirements. Consultation is critical to insure timely completion of the programs. Additionally, students should contact the School of Education to arrange a time to attend an Undergraduate Information Session.

Fine Arts Emphasis

Major Requirements

Fine Arts Emphasis majors choose a concentration in:

- Ceramics (FACR),
- Drawing/Painting (FADP),
- Photography (FAPH),
- or Printmaking (FAPR),

then select both lower and upper division courses from within the same concentration.

In consultation with an advisor, students may select an individualized option in Fine Arts concentrations (FAIS, Fine Arts-Individualized Studies).

Lower Division Requirements:

27 semester hours of lower division courses: ART 153, 160, 260, 275 or 276; ARHS 200, 201, 202; and 6 semester hours from one of the concentrations listed below.

Ceramics: ART 276 and 278.

Drawing/Painting: ART 154 and 257.

Photography: ART 280 and 285.

Printmaking: ART 154 and 285.

Upper Division Requirements:

27 semester hours of upper division courses: 12 semester hours from one of the concentrations listed below; 6 semester hours of ART electives; ART 397, 497; and an upper division non-Western Art History (ARHS 316, 318, 320, 321, 420, 421, 425, 428), or any non-Western ARHS 498 course.

Ceramics: ART 370, 372, 378, and 478.

Drawing/Painting: Choose from ART 356, 358, 359, 378, 398, 453, or 454. (Recommended: ART 385 or 386, 300 or 301 and/or 400 and/or 401.)

Photography: ART 380, 382, and 480; ARHS 340. (Recommended: ART 387, 398 Special Topics in Photography.)

Printmaking: ART 385, 386, 387, and 485. (Recommended: ART 353 or 368, 380 or 382.)

This schedule is typical. The sequence and choices of courses must be decided in consultation with an advisor.

Graphic Design Emphasis (GRPH)

Graphic Designers are the visual communicators who capture our attention and imagination through the innovative uses of typography and imagery. From books to brands, to film titles, motion graphics, posters, and websites, graphic design surrounds us. The graphic design curriculum prepares students to envision the future of this persuasive social medium.

Major Requirements

Lower Division Requirements:

24 semester hours of lower division courses: ART 153, 154 or 257, 160, 260, 275 or 276, 280; ARHS 200 or 201 or 202, 203.

Upper Division Requirements:

33 semester hours of upper division courses: ART 302, 303, 360, 368, 369; 460 or 468, 490, and two courses from either A. Intensive Professional Track or B. Interdisciplinary Track (see below); ARHS 360 and one upper division non-Western Art History (ARHS 316, 318, 320, 321, 420, 421, 425, 428, or any non-Western ARHS 498 course).

- a. Intensive Professional Track
This spectrum of studio electives is designed to broaden the outlook on the design professions. The following courses should be selected in consultation with an advisor: ART 304, 362, 366 or 367, 396, 495.
- b. Interdisciplinary Track
This spectrum of studio electives is designed to broaden the outlook on graphic design as an aesthetic practice. The following courses should be selected in consultation with an advisor: ART 355, 382, 374 or 383, 388, 453, 480.

This represents a typical schedule. Actual course sequence and selection must be planned in consultation with an advisor.

Multimedia Arts Emphasis (MTMD)

Students who elect a Multimedia emphasis are interested in a future of authoring and designing in a world of new media and emerging technologies. This Emphasis provides a strong and flexible foundation in the visual arts and an understanding of critical theory, with the addition of computer science for a solid grasp of underlying technologies. The career outlook for multimedia students is very encouraging. The Multimedia Internship provides real-world experience with galleries, agencies, and production studios. Multimedia students at Loyola Marymount have the flexibility to concentrate in one of the following areas, and to hone in their creative and professional interests: TEXT, IMAGE, SOUND, or MOTION.

Major Requirements

Lower Division Requirements:

21 semester hours of lower division courses: ART 160, 182, 260; ARHS 202, 230.

Students choose a concentration in Text, Image, Sound, or Motion, then choose both lower and upper division courses from within that same concentration. In consultation with an advisor, students may select an individualized option in Multimedia Arts Concentrations.

Text: ARHS 200, 201; ENGL 201, 202; SCWR 220.

Image: ART 153, 154, 257, 280; PROD 180, 200, 250.

Sound: MUSC 102, 104, 105, 106, 107; RECA 250; THEA 110, 210.

Motion: ANIM 120, 220, 230, 250; DANC 160, 163; PROD 180, 200, 250.

Upper Division Requirements:

33 semester hours of upper division courses: ART 303, 363, 366, 367, 374, 382, 383, 494; ARHS 340 or 360 or 419.

Choose two courses from one of the following concentrations: Text, Image, Sound, or Motion below. In consultation with an advisor, students may select an Individualized option in Multimedia Arts concentrations.

Text: ARHS 340, 345, 360; ART 360, 362, 368; ENGL 311, 312; SCWR 320; THEA 400.

Image: ART 356, 360, 362, 368, 380, 453 or 454, 480; PROD 365, 366.

Sound: MUSC 303, 304; RECA 468, 498; THEA 312, 314.

Motion: ANIM 320, 330, 350, 352; DANC 381, 397; PROD 365, 366.

Recommended Courses

It is also recommended that the student take additional courses in Animation, Studio Arts, Art History, Communication Arts, and Computer Science.

Communication Studies

Faculty

Co-chairpersons: Wenshu Lee, Dean Scheibel

Professors: Wenshu Lee, Abhik Roy, Dean Scheibel, Philip C. Wander (President's Professor)

Associate Professors: Barbara J. Busse, Jay B. Busse, Paige Pettyjohn Edley, Michele Hammers, Patricia Oliver, Kyra L. Pearson, Nina Maria Reich

Assistant Professor: Craig O. Rich

Mission

The Communication Studies Department encourages in its faculty and its students an education that fosters the development of the whole person, while promoting a commitment to social justice and cultural diversity. Our curriculum and faculty confront the most pressing contemporary political, social, and moral issues of our time.

To this end, our program prepares students to communicate effectively in the service of human dignity, civic engagement, and global equity. It seeks out and cultivates a faculty committed to generating scholarship and creating a curriculum balancing communication theory and practice. We strive to create an environment that facilitates faculty involvement in scholarship, outreach, and leadership in local, national, and international arenas.

Drawing on the unique cultural, commercial, and civic mix in the Los Angeles area, our program takes critical and creative approaches to personal and professional experience. Our faculty prepares students to distinguish themselves in a variety of professions, including education, law, social advocacy, politics, and non-profit and corporate communication. Our overriding goal, however, transcends professional achievement. It is to offer our students and ourselves the tools to make our global community a more equitable and just place to live and work.

Student Learning Outcomes

Students majoring in Communication Studies should know:

1. Basic communication theories and principles
2. The significance of cultural differences in communication practices
3. Basic methodological strategies used in Communication Studies.

Students majoring in Communication Studies should be able to:

1. Demonstrate an ability to write and speak effectively

- Critically analyze, assess, and interpret scholarly and everyday discourse.

Students majoring in Communication Studies are encouraged to value:

- Critical orientation to the study of communication practices
- Diversity issues in communication
- A broad understanding of the relationships among communication, social justice, and ethics.

Major Requirements: (42 semester hours) (CMST)

Lower Division Requirements:

12 semester hours of lower division: CMST 130, 170, and 203 and 204 (both completed with a grade of C [2.0] or better). CMST 100 or 206 must be taken to fulfill the communication skills requirement in the University core.

Upper Division Requirements:

30 semester hours of upper division: Satisfactory completion of CMST 351, 352, 451, and 452 (all four completed with a grade of C [2.0] or better). Six courses of "communication applications" selected from CMST 330, 335, 336, 375, 376, 385, 386, 387, 393, 490, or 495.

Dance—Department of Theatre Arts and Dance

Faculty

Co-chairperson: Patrick Damon Rago
 Professors: Scott T. Heinzerling, Judith M. Scalin
 Associate Professor: Patrick Damon Rago
 Assistant Professor: Teresa L. Heiland

Mission

Loyola Marymount University's Dance Program is committed to the belief that **all people can dance and that each person can dance many dances.**

Dancing educates and enlivens the body. Movement experience, which is designed to purposefully integrate the physical act of dancing with the working of the mind and the flow of life energy and spirit, has potential to educate the **whole person**. Through studying dance as art and dance as cultural and personal experience, the life of a human being can be lived with integrity and vitality. Students come to know themselves so that they may better communicate with an understand people who not only

travel similar paths but also those who come from widely diverse backgrounds.

The Dance Program at LMU is committed to the application of rigorous and excellent physical training; ongoing authentic personal reflection; and thoughtful, critical analysis of aesthetic, scientific, historic, cultural, and pedagogical issues as they relate to dance and movement studies. The Dance Program is, likewise, committed to the power found in celebration, imagination, joy, and practiced discernment.

Dance majors earn a B.A. degree and are well prepared for advanced study in graduate school as well as careers in performing, teaching, and related work in the fields of business and health care.

The Dance Program is housed in the Department of Theatre Arts and Dance and offers coursework for the Dance major (in a general track or performance track), the Dance minor, and for the student who wishes to pursue dance as an elective or general education. The program is accredited by the National Association of Schools of Dance.

Dance Major (DANC)

Student Learning Outcomes

DOING: *Upon and after graduation, a Dance major will:*

- Dance with an articulate, centered, expressive, and skilled body
- Perform modern dance, ballet, jazz, and world dance—at least two of these at the intermediate-advanced level
- Connect the work and play of the body with the life of the mind and the spirit
- Discern the difference between an uninformed, unconscious reaction and the spark of impulse that can be generated from informed intuition
- Use informed intuition and imagination to address issues in art and life
- Maintain health through a practice of integration of body, mind, and spirit and a balance between activity and stillness, work and rest
- Understand and communicate with people from diverse backgrounds using appropriate listening and observing skills along with appropriate oral, written, and dance-movement skills and sensibilities
- Interactively use knowledge of dance and dancing along with knowledge of the other arts, humanities, business, and the sciences to ask questions and solve life and art problems
- Employ media and technology to learn about dance, make dances, and navigate the world in many other ways
- Write cogently and speak thoughtfully about dance, dancers, and dancing
- Seek, lead, and participate in one's community
- Seek solitary time for reflection and study.

KNOWING: *Upon graduation, a Dance major will:*

- Understand the critical importance of diversity in dance, dancers, and dancing as well as in the life of culture at large
- Recognize similarities and differences between and among diverse peoples and phenomena and acknowledge the potential opportunities and challenges therein
- Understand the workings of the physical and emotional body as described through the study of somatics, the sciences, and psychology
- Analyze the interactive stages of the creative process and employ critical analysis when uncovering questions and building "answers"
- Comprehend the process and craft of dance composition and understand aesthetic valuing in dance
- Know historical and cultural traditions in dance
- Know fundamental principles of teaching dance to others
- Understand and appreciate the role of music, theatre, and media-technology in the making and presentation of dance.

VALUING: *Upon graduation, a Dance major will:*

- Identify personal values as a center from which to depart and return as one is tested through life experience
- Respect life in its diverse expressions

- Acknowledge the power of, and seek continued development of, interactive and integrated physical-spiritual-emotional consciousness
- Appreciate the voices of intuition and imagination
- Tolerate chaos, confusion, and uncertainty long enough to arrive at invention and transformation when making art and live life in all its expression
- Know oneself in order to have the strength, freedom, and will to give to others
- Appreciate that knowledge is cognitive, emotional, and sensory
- Appreciate that knowledge is a critical companion to intuition
- Recognize how being "truthful," "heartful," and "mindful" ultimately leads to transformation and connection to one's life purpose
- Appreciate the importance of working as a community of dancers, colleagues, work associates, friends, and family and understand that this kind of work does not replace the need for solitary reflection and creation
- Appreciate that inviting more people to the "table of dance" could augment physical health of American people and enhance intrapersonal and interpersonal compassion and empathy.

Dance Generalist Track (GENL)

Major Requirements

Lower Division Requirements:

A minimum of 21 semester hours: DANC 100, 101, 160, 161, 183, 260, 262, 281; and taken for at least of 4 semester hours and at the level of proficiency: for 0-2 semester hours Modern Dance and Ballet each semester, and for 0-2 semester hours World Dance one semester.

Upper Division Requirements:

A minimum of 26 semester hours: DANC 377, 378, 380, 381 (counts also as AMCS core), 388, 459, 460 (or PHIL 352), 461 (minimum of C [2.0] grade), 462, 480, 481 (counts also as science core), 484; and taken for at least 4 semester hours and at the level of proficiency: for 0-2 semester hours Modern Dance and Ballet each semester, and for 0-2 semester hours World Dance one semester.

A minimum of a C (2.0) must be maintained in major coursework. A minimum grade of C (2.0) must be earned in each Dance major technique course and DANC 461.

Dance Performance Track (PRFM)

Major Requirements

- Faculty review for acceptance into Track at the end of the first or second year.
- Faculty review for approval for continuation in Track at the end of the second and third years.

Dance Technique and Performance Requirements:

Coursework (minimum): Technique

1. Modern Dance	Six semesters
2. Ballet	Eight semesters
3. Jazz Dance	Two semesters
4. World Dance	Two semesters
5. Pilates and/or Yoga	Two semesters

Coursework (minimum): Performance

Performance in at least two dance concerts (DANC 279) in the lower division and three dance concerts (selected from DANC 379, 479) in the upper division.

Daily Study of Dance Technique: At least one class three days a week and at least two classes two days a week.

Proficiency:

At least two semesters in DANC 402, Modern Dance IV, and two semesters in DANC 423, Ballet V

or

At least four semesters in DANC 402, Modern Dance IV, two semesters in DANC 420, Ballet IV, and two semesters in DANC 446, Jazz Dance VI or equivalent.

Lower Division Requirements:

A minimum of 17 semester hours: DANC 100, 101, 160, 161, 183, 260, 262, 281. See above for Dance Technique and Performance requirements.

Upper Division Requirements:

A minimum of 28 semester hours: DANC 360, 380, 381 (counts as AMCS core), 384, 388, 459, 460 (or PHIL 352), 461 (minimum of C [2.0] grade), 462, 480, 481 (counts as science core), 484. See above for Dance Technique and Performance requirements.

A minimum of a C (2.0) must be maintained in major coursework. A minimum grade of C (2.0) must be earned in each Dance major technique course and DANC 461.

Minor Requirements

Dance minor (DNGL)—20 semester hours:

- one composition course DANC 160
- one pedagogy course selected from DANC 384, 385, 484
- one general theory course selected from DANC 281, 381 or other courses in Dance as directed by advisor
- 3 semester hours of creative theory course(s) selected from DANC 183 (1 semester hour), 260 (3 semester hours), 382 (2 semester hours), 383 (1 semester hour), 386 (1 semester hour), 387 (0-3 semester hours), 487 (3 semester hours)
- at least 6 semester hours of dance technique (ballet, modern, and/or jazz dance)
- at least 2 semester hours of tap or world dance

Interdisciplinary Applied Programs

Director

Dean Scheibel

Objectives

The philosophy of Interdisciplinary Applied Programs (IDAP) rests on the premise that students should receive a broad education that combines creativity and scholarly activity. IDAP deepens students' intellectual and professional preparation for careers.

Music

Faculty

Chairperson: Mary C. Breden

Professors: Mary C. Breden, Rae Linda Brown, Paul W. Humphreys, Mark Saya, Virginia Saya

Assistant Professor: Michael Miranda

Clinical Assistant Professor: Wojciech Kocyan

Objectives

The purpose of the Department of Music is to provide quality music instruction both for students who wish to pursue music as a career and for students who wish to enrich their lives through non-career oriented study and performance. Students and faculty work together to foster aesthetic involvement and creative and scholarly inquiry that support a vital community of music learning. Instruction emphasizes a personal approach. Through the presentation of diverse musical programs, the department also sustains and enriches the cultural vitality of the University and its surrounding communities. The work of the department further supports the goals of Jesuit and Marymount education by strengthening the socializing influence of music both within the University and the world at large.

The Department of Music offers the Bachelor of Arts in Music degree, the requirements of which can serve as an excellent foundation for students undertaking advanced studies in preparation for such careers as musicology, composition, ethnomusicology, music librarianship, and pedagogy-oriented teaching. In addition to meeting all general University

admissions requirements, students who wish either to major or minor in Music must meet specific Department of Music entrance requirements.

Loyola Marymount University and the Department of Music are accredited by the National Association of Schools of Music.

Student Learning Outcomes

Students majoring in Music should be able to:

- Develop physical coordination and technical skills required for specific musical activities (conducting, singing, instrumental performance)
- Apply essential principles of music theory and form to the study and evaluation of musical scores (critical skills)
- Display familiarity with musical notation in performance and original composition (creative skills).

Students majoring in Music should know:

- The historical evolution of Western music as evidenced by style periods, performance practices, and representative composers and their works
- The varieties of music as a cultural phenomenon seen in its interrelationship with belief systems, life-ways, and language.

Students majoring in Music are presented with the opportunity to value:

- The power of music as an expression and reflection of human emotion and responsiveness
- The experience of aesthetic engagement that allows for deep identification with music
- The synthesis of perspectives—physical, technical, analytical, historical—that leads to a cultured musical sensibility and artistic performance.

Admission to the Major and Minor

An audition in the applied emphasis (Instrument or Voice) is required before admission to the major or minor. Audition requirements appropriate to each instrumental and voice emphasis are available from the Secretary of the Department of Music.

A grade of C (2.0) or better is required in:

MUSC 122 (Music Theory & Form II)

A grade of B (3.0) or better is required in:

MUSC 181, 280, 281 (Applied Lessons)

Foreign Language Requirement

Two semesters of foreign language(s) through selection of one of the following options:

ITAL 101, 102 or
GRMN 101, 102 or
FREN 101, 102 or
ITAL 101, GRMN 101 or
ITAL 101, FREN 101 or
GRMN 101, FREN 101

The language options selected may be taken credit/no credit but require the approval of the Chairperson and the applied emphasis instructor.

* must be taken concurrently

** must be taken concurrently

Concentration Requirements

10 Semester Hours/Upper Division

With the approval of the Director of the Concentration, every music major must declare and complete an upper division Concentration. It is possible to complete two Concentrations with the approval of the Advisor and the Department Chairperson. In order to fulfill the double Concentration, the student will take all classes required in each of the selected Concentrations. Music courses fulfilling one Concentration may not be used to satisfy the requirements of the second Concentration.

Applied Music

Individual Instructions

Music Major/Minor

Music majors are required to complete a minimum of four semesters, and Music minors two semesters, of individual instruction in the following emphasis areas:

S.H.	
3	Piano, Guitar, Percussion, Strings, or Voice:
1	MUSC 180, 181, 280, 281 (Major/4 semester hours)
6	MUSC 180, 181 (Minor/2 semester hours)

Each semester hour of earned credit in private applied lessons requires the following:

S.H.	A. One 50-minute private lesson weekly (total 14)
3	B. Enrollment in MUSC 101, Studio Class
1	C. Minimum of one (1) Studio Class performance per semester
6	

Only students who have been officially accepted through audition and declared music majors or minors by the Department of Music may enroll in private applied lessons (180, 181, 280, 281, 380, 381, 480, 481). No applied music fee is required.

Practice room facilities (free of charge) are available to all applied music students enrolled for credit.

Applied music courses are repeatable for credit. Majors who wish to continue credit enrollment beyond minimum requirements may enroll in the subsequent MUSC 380, 381, 480, and 481 offerings.

Music Non-Major/Non-Minor

Individual instruction is available in Piano, Guitar, Drum Set, Strings, and Voice:

S.H.	Permission of professor required.	
	MUSC 182, 282, 382, 482	1 S.H. each
	There is an applied music fee of \$420.00 per semester for fourteen 30-minute weekly lessons. Applied music courses are repeatable for credit.	
	Class instruction is available in Piano, Guitar, and Voice for students at the beginning level:	
	MUSC 175, 176, 177 Piano Class	1 S.H. each
	MUSC 178 Voice Class	1 S.H.
	MUSC 179 Guitar Class	1 S.H.

These classes meet once weekly, have a limited enrollment, and may only be repeated once for credit. There is a \$50 lab fee for the piano classes.

Ensembles**Music Major/Minor**

Music majors are required to complete four semesters, and Music minors two semesters, of active participation in an ensemble appropriate to the area of individual instruction emphasis.

Music Non-Major/Non-Minor

Membership is open to all students and the University community on audition-after-enrollment basis.

The above 4-Year Plan is only a model. Some music course scheduling will vary due to the departmental rotation of classes.

Theatre Arts—Department of Theatre Arts and Dance

Faculty

Co-chairperson: Kevin J. Wetmore, Jr.

Associate Chairperson and Production Coordinator: Katharine M. Noon

Professors: Diane Benedict, Charles E. Erven, Katharine B. Free, Beth Henley (Presidential Professor), Ron Marasco, Judith Royer, C.S.J.

Associate Professors: Katharine M. Noon, Kevin J. Wetmore, Jr.

Objectives

The Theatre Arts curriculum is planned to provide a broad quality education in the humanities and to develop in the student an appreciation of the whole self and the universality of the human experience. The Theatre Arts program promotes an environment that nurtures self-expression within all aspects of the discipline, ranging from acting and design to technical theatre and the history and theories surrounding these practices. Faculty and students collaborate to enhance creative involvement in and promote aesthetic and scholarly inquiry into the art of theatre and performance. Participation on all levels in the performing arts is central to this work. Through the production and study of both Western and world theatrical traditions, the program contributes to the cultural vitality of our students, the university, and the surrounding community. The Theatre Arts program supports the mission and goals of the university with a commitment to educating the whole person and providing students with the tools to be an active participant in the service of faith and the promotion of justice, and is accredited by the National Association of Schools of Theatre. The program offers the Bachelor of Arts in Theatre degree, the requirements of which can serve as an excellent foundation for those students pursuing a career in theatre, film, and television, for those who wish to enrich their lives through non-career oriented study and performance, and for those pursuing MFA and PhD degrees in performance, design, history, and performance theory.

Student Learning Outcomes

Students majoring in Theatre Arts should be able to:

- Strengthen their skills in observation, concentration, and imagination
- Effectively apply learned acting techniques to performance and/or creative works of their own
- Interpret dramatic texts and critique theatrical performance using appropriate critical language and analytical frameworks
- To integrate effective use of body and voice in communication in a theatrical space
- Read technical drawings, and apply a basic understanding of scenery, scenic materials, construction procedures, and standard theatrical lighting practices to theatre production
- Identify the basic elements of stage direction; analyze a play script from the point of view of the director; articulate and defend a production concept; develop actor-coaching skills; and

14

- identify elements of direction that communicate story, theme, and concept
- Positively contribute to the field of theatre performance, history, and production.

Students majoring in Theatre Arts are presented with the opportunity to value:

- Theatre as a live, human, creative, and spiritual experience, which has the power to transform and educate as well as entertain an audience
- Non-Western theatrical styles and genres
- The impact design and production have on the theatrical experience, and the relationships and contributions of all collaborators and theatrical personnel and how they contribute to the creation of theatre production across a broad spectrum of styles and genres
- Individual expression through exploration, analysis, and creation of dramatic writing
- First-hand European theatre tradition; Stanislavski and Epic theatre performance techniques; the history, geography, and culture of Germany and Russia, through our semester study abroad program, Bonn-Moscow-Berlin.

Students majoring in Theatre Arts should know:

- Basic theories, techniques, and process of dramatic writing and structure, and various approaches to translating original dramatic material from the page to the stage/screen
- Basic world theatre history and dramatic literature, including exemplary works and genres
- Basic performance and design genres, styles, and techniques
- Basic strategies of career development and audition/interview methods.

Major Requirements (THEA)

Lower Division Requirements:

24 semester hours: THEA 100, 111, 120, 220, 240, 245, 250, and 6 semester hours of lower division Theatre coursework planned in consultation with departmental advisor.

A grade of C (2.0) or better must be earned in each course: THEA 111, 120, 220, 240, 245, and 250.

Upper Division Requirements:

30 semester hours: 9 hours of Theatre history/literature/criticism courses from the THEA 330s, 340s, 430s of which

3 semester hours must be chosen from THEA 347, 348, 349, 430, or 435; THEA 370, THEA 450, THEA 490, and 12 semester hours of upper division Theatre electives.

A grade of C (2.0) or better must be earned in each course of the 9 hours of Theatre history, literature, and criticism, THEA 370, 450, and 490.

Minor Requirements (THEA)

18 semester hours divided into 6 semester hours of lower division work, 12 semester hours of upper division theatre offerings, and participation in departmentally-sponsored events.

Minor programs must be planned in consultation with a departmental advisor. A minimum grade of C (2.0) must be obtained in each course included in the minor program.

Marital and Family Therapy

Faculty

Chairperson: Debra Linesch

Professor: Debra Linesch

Assistant Professor: Einat Metzli

Assistant Clinical Professor and Director, Helen B. Landgarten Art Therapy Clinic: Paige Asawa

Practicum Coordinator: Kathleen Fogel-Richmond

Lecturers: Anthony Bodlovic, Erica Curtis, Joellen Lapidus, Philip Levin

Contact Information

Office Location: University Hall, Suite 2500

Telephone: 310.338.4562

Fax: 310.338.4518

Mission Statement

The Graduate Department of Marital and Family Therapy offers a graduate program leading to a Master of Arts in Marital and Family Therapy. In addition to State of California required curriculum in traditional marital and family therapy coursework, the program is augmented with art therapy coursework. The department provides its graduates with comprehensive training in both verbal and nonverbal modalities. The structure of the program begins with the foundational marital and family therapy coursework, teaching sound theoretical understandings as well as a variety of clinical strategies, including art therapy as a modality. Additional coursework focuses on the art therapy process providing graduates with training in clinical art therapy and giving them breadth and skill in a nonverbal modality.

The Department trains clinicians to work in facilities providing psychological therapeutic services such as: community mental health centers, family counseling agencies, psychiatric hospitals, general hospitals, therapeutic and public schools, residential treatment facilities, drug, alcohol and rehabilitation centers.

The Department provides two- and three-year programs of rigorous academic work combined with two clinical internships of approximately 840 hours and 420 hours of direct client contact.

Initiated at Immaculate Heart College in 1974, the Department moved to Loyola Marymount in 1980. It encourages well-trained, traditionally grounded marital and family therapists who can expertly utilize art therapy within their clinical work. This philosophy effectively facilitates the comprehensive successes of our graduates within the systems that deliver mental health services in our communities.

The curriculum is designed to meet all the academic requirements established by the State of California's Board of Behavioral Science Examiners for the M.F.T. license. The core curriculum and the additional training in art therapy allow the graduate to apply for registration with the American Art Therapy Association.

Student Learning Outcomes

Graduates of the Department of Marital and Family Therapy should know:

- A broad theoretical basis for the practice of art psychotherapy
- The complex societal culture in which they are engaging
- The legal and professional responsibilities of the licensed practicing psychotherapist.

Graduates of the Department of Marital and Family Therapy should be able to:

- Advance to professional engagement in the mental health community
- Describe individual and family dynamics according to the theory and concepts of the discipline of marriage and family therapy
- Delineate short-term and long-term psychotherapeutic goals and develop treatment plans
- Synthesize the art therapy modality with traditional theoretical approaches and use a variety of techniques and interventions to achieve systemic change
- Present case material in verbal and written form at a professional level
- Work with others from varied and diverse perspectives
- Engage in critical scholarly discourse in the field of art psychotherapy.

Graduates of the Department of Marital and Family Therapy are encouraged to value:

- An increasing commitment to change as part of the psychotherapeutic and artistic process
- The ongoing development of multicultural competencies
- Engagement with the community in the service of social justice.

Admission Requirements

- A Bachelor's degree from an accredited institution with a GPA of 3.0 ("B") average or higher
 - Prerequisites in Psychology and Studio Art
1. A minimum of eighteen (18) semester hour credits (or twenty-seven [27] quarter-hour credits) of study in studio art which demonstrates proficiency and disciplined commitment in art making
 2. A minimum of twelve (12) semester hours credits (or [18] quarter-hour credits) of study in psychology, which must include developmental psychology and abnormal psychology
- Submit an application with a \$50 application fee.
 - Satisfactory score on the Miller Analogies Test (MAT)
 - Autobiography with emphasis on personal life experiences rather than educational or occupational information
 - Portfolio of art work
 - Personal interview
 - A \$250 deposit must accompany your letter of acceptance within 21 days of notification by the University of your admittance into the program. The deposit is applied toward tuition and is non-refundable.
 - Admission is on a rolling basis

Program Requirements

The Master of Arts degree will be granted upon satisfactory completion of a minimum of 60 semester hours. A total of eleven practicum semester hours are applied towards the required total semester hours of credit. The internship fulfills a minimum of 840 hours with 420 direct client contact hours. The internship includes a minimum of two hours a week of supervision. This is provided by licensed psychotherapists who are approved by Loyola Marymount University.

Students enrolled in the full-time day Master of Arts in Marital and Family Therapy program will complete the degree requirements in two years. A three-year day program is also available.

Students are required to maintain a "B" (3.0) grade point average in both classroom and internship tracks.

The Department takes seriously its role in the training of therapists. The personality as well as the intellectual capability of each student is carefully evaluated. In light of this, a student may be disqualified from the program for factors other than grades.

Students are required to receive personal psychotherapy during the first two semesters in the program.

Faculty members are practicing clinicians. The courses they teach are directly related to their work experience and area of expertise.

Summer Study Abroad in Mexico

The Graduate Department of Marital and Family Therapy has established a summer Study Abroad program in San Miguel de Allende, Mexico. While obtaining a master's degree at LMU, students are encouraged to attend the summer program at which they are able to fulfill degree requirements, broaden their appreciation for issues of culture and, specifically, the Mexican culture. Classes available are MFTH 620, 622, and 629.

FRANK R. SEAVER COLLEGE OF SCIENCE AND ENGINEERING

Administration

Dean: Richard G. Plumb

Associate Deans: Gary Kuleck, James M. Landry

Graduate Director: Stephanie E. August

College Mission Statement

The Frank R. Seaver College of Science and Engineering is dedicated to providing outstanding educational opportunities in science, engineering, and mathematics in a mentoring environment to an increasingly diverse student body. The College emphasizes development of the whole person through its focus on ethical behavior and service to society.

The Graduate Programs in the Frank R. Seaver College of Science and Engineering provide opportunities for working professionals to enhance their skills and knowledge through a modern, professionally rigorous and conveniently administered curricula which balance theory and practice in the areas of engineering, engineering management and leadership, computer and environmental science and the teaching of mathematics to advance their careers, serve the needs of society and meet the challenges of an ever-changing, complex world.

College Goals

Particularly applicable to the College are these goals: (1) to develop in the student the understanding that education is a self-discipline, and to place a greater responsibility for learning on the individual, (2) to integrate ethics into the curriculum in order to develop personal and professional integrity, (3) to help the student to become cognizant of the changing needs of humankind while interpreting and implementing the ever-increasing body of knowledge, (4) to encourage the student to recognize the wide applicability of scientific, engineering, and mathematical methods and to become skillful in their use, (5) to prepare the student for a world of accelerating scientific and technological change, (6) to impress upon the student that education must be a continuous process throughout one's professional career, and (7) to enable the Loyola Marymount graduate, through theological and philosophical studies, to make absolute and genuinely intellectual decisions and commitments about truth as it exists in the world and about one's own nature as a human being.

Programs

The College offers degree programs in Applied Mathematics, Athletic Training, Biochemistry, Biology, Chemistry, Civil Engineering, Computer Science, Electrical Engineering, Engineering Physics, Environmental Science, Individualized Studies, Mathematics, Mechanical Engineering, Natural Science, Physics, and Systems Engineering. Frank R. Seaver College of Science and Engineering faculty also teach the math, science and technology component of the University core curriculum.

Courses numbered from 260-279 are designed specifically to meet the University core requirements in math, science and technology for students not majoring within the College. With the exception of MATH 101, other lower-division courses in the College may also satisfy University core requirements. Check with your Dean's office.

Application of General University Requirements

The University requirements for admission and graduation and all general rules and regulations of the University as set forth in this Bulletin are applicable to and binding upon all students enrolled in the Frank R. Seaver College of Science and Engineering.

Degrees Offered

Bachelor of Arts in: Biology and Mathematics

Bachelor of Science in Engineering in: Civil, Electrical, and Mechanical Engineering

Bachelor of Science in: Applied Mathematics, Athletic Training, Biochemistry, Biology, Chemistry, Computer Science, Engineering Physics, Envi-

ronmental Science, Individualized Studies, Mathematics, Natural Science, and Physics

Master of Arts in Teaching in: Mathematics

Master of Science in Engineering in: Civil, Electrical, and Mechanical Engineering

Master of Science in: Computer Science, Environmental Science, and Systems Engineering

In addition, the Frank R. Seaver College of Science and Engineering offers Certificate Programs in Mechanical Engineering and Engineering and Productivity Management.

Teacher Preparation Programs in Biology, Chemistry, and Mathematics

The College offers subject matter preparation programs in mathematics and in science specifically designed to meet State of California subject matter requirements for a secondary teaching credential. Both the Bachelor of Arts degree in Mathematics (see the Mathematics section) and the Bachelor of Science degree in Natural Science following the secondary science emphasis in either Biology or Chemistry (see the Natural Science section) are designed to allow completion of the 2042 California Preliminary Single Subject (Secondary) credential in four years, although this may require some summer coursework. These programs are offered in conjunction with the School of Education. The College also offers courses in mathematics and science to support the multiple subject credential program for teaching elementary school (see the Liberal Studies section in the Liberal Arts part of the Bulletin).

All students interested in teaching mathematics or science at the secondary level should inform their departmental advisors as soon as possible and should also contact the School of Education to arrange a time to attend an Undergraduate Information Session.

The Center for Student Success in Science and Engineering

The Center for Student Success in Science and Engineering is designed to provide a wide range of services and special activities aimed at enhancing students' academic performance and career potential. The services provided include career workshops, counseling on summer jobs and research internships, counseling on graduate and health professional schools, Academic Excellence Workshops, support for science and engineering clubs, and community outreach to local high schools, including a science and engineering summer camp. For more information about the Center for Student Success in Science and Engineering, contact Barbara A. Christie, Ph.D., Director, at 310.258.8647 or bchristie@lmu.edu.

Core Curriculum

Students in the Frank R. Seaver College of Science and Engineering will follow core curriculum A, B, or C below, depending on degree plan.

Note: Engineering and Engineering Physics students should follow Core Curriculum B.

A. Core Curriculum for the Bachelor of Science Degree

American Cultures

3 Semester Hours

Course Selection

First- and second-year students choose from any lower division course listed or cross-listed as AMCS. Third- and fourth-year students choose from any upper division course listed or cross-listed as AMCS. A single course will generally not fulfill two core requirements. The only exception

is a course that satisfies another core requirement which is also cross-listed as AMCS.

College Writing

3 Semester Hours

Course Selection

ENGL 110 will fulfill the college writing requirement. ENGL 100 will not fulfill the college writing requirement but is required of certain students based on their performance in the essay administered in all ENGL 110 sections during the first week of classes. A minimum grade of C (2.0) is required in ENGL 110. All students who receive a grade of C- or lower must retake ENGL 110 as soon as possible.

Choose: ENGL 110.

Communication or Critical Thinking

3 Semester Hours

Course Selection

Communication:

Choose from CMST 100, 110, 130, or 140.

OR Critical Thinking:

Choose from CMST 206 or PHIL 220.

Critical/Creative Arts

3 Semester Hours

Course Selection

Choose from ANIM 120; ART 150, 250, 350; DANC 163; MUSC 105, 106; THEA 110, 400.

History

3 Semester Hours

Course Selection

This requirement is satisfied by taking one course from Western Civilization.

Western Civilization:

Choose from HIST 100 or 101.

Literature

3 Semester Hours

Course Selection

Choose from CLCV 200, 210, 220, 230; ENGL 130, 140, 150, 170; FNLT 180; THEA 240, 245, 331, 336, 341, 346, 347, 348, 349, or 430.

Prerequisite: Successful completion of college writing requirement.

Mathematics, Science and Technology

18 Semester Hours

Course Selection

This requirement is met by the curriculum of the major.

Philosophy

6 Semester Hours

Course Selection

Lower Division:

Choose PHIL 160. Transfer students who enter LMU with a minimum of sixty (60) accepted transfer hours are exempted from the lower division requirement.

Upper Division:

Choose one course from PHIL 320 through 330.

Social Sciences

6 Semester Hours

Student must select one of the following options:

1. Select two courses from ECON 100, 105, 110, 120; GEOG 100; POLS 135, 155; PSYC 100; SOCL 100 or 105.

Courses must be from different departments.

2. Select one course from: AFAM 115, APAM 117, CHST 116, or WNST 100; and one course from ECON 100, 105, 110, 120; GEOG 100; POLS 135, 155; PSYC 100; SOCL 100 or 105.

3. Select two courses from the same department. The first is selected from ECON 100, 105, 110, 120; GEOG 100; POLS 135, 155; PSYC 100; SOCL 100 or 105. The second course in the same department is selected from upper division courses that the student is qualified to take.

Theological Studies

6 Semester Hours

Course Selection

Lower Division:

Choose from the 100-level series of THST courses. Transfer students who enter LMU with a minimum of sixty (60) accepted transfer hours are exempted from the lower division requirement.

Upper Division:

Choose from the 300-level series of THST courses only.

Note: International/Global Studies

The current core curriculum includes many courses dealing with international and global studies. All students are required to complete History 100 or 101, which deal with European culture. In addition, it is recommended that students take additional core courses which include the study of European cultures such as: CLCV 200, 210, 220; FNLT 180; THEA 240, 245, 331, 336, 341; THST 320, 322, 331.

To further augment the understanding of world cultures, it is recommended that students also choose at least one core course that includes the study of Africa, Asia, the Pacific, or Latin/Indigenous America. These core courses include: GEOG 100; POLS 155; SOCL 105; THEA 348; THST 180, 381, 382, 383, 384, 385.

Recommendations

Students are encouraged to enrich their program of study with selected electives from the following areas. Consult the Bulletin for specific offerings.

Business

Students are encouraged to take a course in the issues of business. Consult the Bulletin listings.

Computer Skills

Students are expected to become proficient in computer skills. Courses or workshops may be taken to help students develop existing skills.

Foreign Language

Students are encouraged to study foreign languages to the intermediate level. LMU offers Chinese, Filipino, French, German, Greek (Modern and Classical), Italian, Japanese, Latin, and Spanish on a regular basis.

International/Global Studies

Students are encouraged to select elective courses that deal with international and/or global issues. Consult the Bulletin listings.

Study Abroad

A semester of international study abroad is also recommended. Consult the Study Abroad Office.

B. Core Curriculum for the Bachelor of Science in Engineering or the Bachelor of Science in Engineering Physics Degree

American Cultures

3 Semester Hours

Course Selection

First- and second-year students choose from any lower division course listed or cross-listed as AMCS. Third- and fourth-year students choose from any upper division course listed or cross-listed as AMCS. A single course will generally not fulfill two core requirements. The only exception is a course that satisfies another core requirement which is also cross-listed as AMCS.

College Writing

3 Semester Hours

Course Selection

ENGL 110 will fulfill the college writing requirement. ENGL 100 will not fulfill the college writing requirement but is required of certain students based on their performance in the essay administered in all ENGL 110 sections during the first week of classes. A minimum grade of C (2.0) is required in ENGL 110. All students who receive a grade of C- or lower must retake ENGL 110 as soon as possible.

Choose: ENGL 110.

Communication or Critical Thinking

3 Semester Hours

Course Selection

Communication:

Choose from CMST 100, 110, 130, or 140.

OR Critical Thinking:

Choose from CMST 206 or PHIL 220.

Critical/Creative Arts

3 Semester Hours

Course Selection

Choose from ANIM 120; ART 150, 250, 350; DANC 163; MUSC 105, 106; THEA 110, 400.

History

3 Semester Hours

Course Selection

This requirement is satisfied by taking one course from Western Civilization.

Western Civilization:

Choose from HIST 100 or 101.

Literature

3 Semester Hours

Course Selection

Choose from CLCV 200, 210, 220, 230; ENGL 130, 140, 150, 170; FNL 180; THEA 240, 245, 331, 336, 341, 346, 347, 348, 349, or 430.

Prerequisite: Successful completion of college writing requirement.

Mathematics, Science and Technology

18 Semester Hours

Course Selection

This requirement is met by the curriculum of the major.

Philosophy

6 Semester Hours

Course Selection

Lower Division:

Choose PHIL 160. Transfer students who enter LMU with a minimum of sixty (60) accepted transfer hours are exempted from the lower division requirement.

Upper Division:

Choose one course from PHIL 320 through 330.

Social Sciences

6 Semester Hours

For students pursuing a Bachelor of Science in Engineering or Engineering Physics degree, this requirement is met by the major curricula.

Theological Studies

6 Semester Hours

Course Selection

Lower Division:

Choose from the 100-level series of THST courses. Transfer students who enter LMU with a minimum of sixty (60) accepted transfer hours are exempted from the lower division requirement.

Upper Division:

Choose from the 300-level series of THST courses only.

Note: International/Global Studies

The current core curriculum includes many courses dealing with international and global studies. All students are required to complete HIST 100 or 101, which deal with European culture. In addition, it is recommended that students take additional core courses which include the study of European cultures such as: CLCV 200, 210, 220; FNL 180; THEA 240, 245, 331, 336, 341; THST 320, 322, 331.

To further augment the understanding of world cultures, it is recommended that students also choose at least one core course that includes the study of Africa, Asia, the Pacific, or Latin/Indigenous America. These core courses include: THST 180, 361, 382, 383, 384, 385.

Recommendations

Students are encouraged to enrich their program of study with selected electives from the following areas. Consult the Bulletin for specific offerings.

Business

Students are encouraged to take a course in the issues of business. Consult the Bulletin listings.

Computer Skills

Students are expected to become proficient in computer skills. Courses or workshops may be taken to help students develop existing skills.

Foreign Language

Students are encouraged to study foreign languages to the intermediate level. LMU offers Chinese, Filipino, French, German, Greek (Modern and Classical), Italian, Japanese, Latin, and Spanish on a regular basis.

International/Global Studies

Students are encouraged to select elective courses that deal with international and/or global issues. Consult the Bulletin listings.

Study Abroad

A semester of international study abroad is also recommended. Consult the Study Abroad Office.

C. Core Curriculum for the Bachelor of Arts Degree

American Cultures

3 Semester Hours

Course Selection

First- and second-year students choose from any lower division course listed or cross-listed as AMCS. Third- and fourth-year students choose from any upper division course listed or cross-listed as AMCS. A single course will generally not fulfill two core requirements. The only exception is a course that satisfies another core requirement which is also cross-listed as AMCS.

College Writing**3 Semester Hours**

Course Selection

ENGL 110 will fulfill the college writing requirement. ENGL 100 will not fulfill the college writing requirement but is required of certain students based on their performance in the essay administered in all ENGL 110 sections during the first week of classes. A minimum grade of C (2.0) is required in ENGL 110. All students who receive a grade of C- or lower must retake ENGL 110 as soon as possible.

Choose: ENGL 110.

Communication or Critical Thinking**3 Semester Hours**

Course Selection

Communication:

Choose from CMST 100, 110, 130, or 140.

OR Critical Thinking:

Choose from CMST 206 or PHIL 220.

Critical/Creative Arts**6 Semester Hours**

Course Selection

This requirement is satisfied by taking one course from Critical Arts and one course from Creative Arts.

Critical Arts:

Choose from ANIM 100; ARHS 200, 201, 202, 321, 340, 345; DANC 281, 381; FTVS 210, 314, 315; MUSC 102, 104, 303, 365; THEA 240, 245, 331, 336, 341, 346, 347, 348, 349, or 430.

Creative Arts:

Choose from ANIM 120; ART 150, 151, 153, 278, 280, 350; DANC 163; ENGL 205, 311 (Prerequisite 201), 312 (Prerequisite 202); MUSC 105, 106, 107; PROD 200; SCWR 220; THEA 110, 400.

History**6 Semester Hours**

Course Selection

This requirement is satisfied by taking one course from Western Civilization and one course from Contemporary Societies.

Western Civilization:

Choose from HIST 100 or 101.

Contemporary Societies:

Choose from HIST 152, 162, 172, 182, or 192.

Literature**3 Semester Hours**

Course Selection

Choose from CLCV 200, 210, 220, 230; ENGL 130, 140, 150, 170; FNLT 180; THEA 240, 245, 331, 336, 341, 346, 347, 348, 349, or 430.

Prerequisite: Successful completion of college writing requirement.

Mathematics, Science and Technology**18 Semester Hours**

Course Selection

This requirement is met by the curriculum of the major.

Philosophy**6 Semester Hours**

Course Selection

Lower Division:

Choose PHIL 160. Transfer students who enter LMU with a minimum of sixty (60) accepted transfer hours are exempted from the lower division requirement.

Upper Division:

Choose one course from PHIL 320 through 330.

Social Sciences**6 Semester Hours**

Student must select one of the following options:

1. Select two courses from ECON 100, 105, 110, 120; GEOG 100; POLS 135, 155; PSYC 100; SOCL 100 or 105.

Courses must be from different departments.

2. Select one course from: AFAM 115, APAM 117, CHST 116, or WNST 100; and one course from ECON 100, 105, 110, 120; GEOG 100; POLS 135, 155; PSYC 100; SOCL 100 or 105.

3. Select two courses from the same department. The first is selected from ECON 100, 105, 110, 120; GEOG 100; POLS 135, 155; PSYC 100; SOCL 100 or 105. The second course in the same department is selected from upper division courses that the student is qualified to take.

Theological Studies**6 Semester Hours**

Course Selection

Lower Division:

Choose from the 100-level series of THST courses. Transfer students who enter LMU with a minimum of sixty (60) accepted transfer hours are exempted from the lower division requirement.

Upper Division:

Choose from the 300-level series of THST courses only.

Note: International/Global Studies

The current core curriculum includes many courses dealing with international and global studies. All students are required to complete History 100 or 101, which deal with European culture. In addition, it is recommended that students take additional core courses which include the study of European cultures such as: ARHS 200, 201, 202; CLCV 200, 210, 220; DANC 281; FTVS 314; FNLT 180; MUSC 102; THEA 240, 245, 331, 336, 341; THST 320, 322, 331.

To further augment the understanding of world cultures, it is recommended that students also choose at least one core course that includes the study of Africa, Asia, the Pacific, or Latin/Indigenous America. These core courses include: ARHS 321; DANC 381; GEOG 100; HIST 172, 182; MUSC 303, 365; POLS 155; SOCL 105; THEA 348; THST 180, 381, 382, 383, 384, 385.

Recommendations

Students are encouraged to enrich their program of study with selected electives from the following areas. Consult the Bulletin for specific offerings.

Business

Students are encouraged to take a course in the issues of business. Consult the Bulletin listings.

Computer Skills

Students are expected to become proficient in computer skills. Courses or workshops may be taken to help students develop existing skills.

Foreign Language

Students are encouraged to study foreign languages to the intermediate level. LMU offers Chinese, Filipino, French, German, Greek (Modern and Classical), Italian, Japanese, Latin, and Spanish on a regular basis.

International/Global Studies

Students are encouraged to select elective courses that deal with international and/or global issues. Consult the Bulletin listings.

Study Abroad

A semester of international study abroad is also recommended. Consult the Study Abroad Office.

Biology

Faculty

Chairperson: Philippa M. Drennan

Professors: Philippa M. Drennan, Martin Ramirez, Eric Strauss (Presidential Professor), John P. Waggoner III

Associate Professors: Wendy J. Binder, Kam D. Dahlquist, Gary Kuleck, M. Catharine McElwain, Carl R. Urbinati

Assistant Professors: Victor Carmona, Deepa Dabir, W. Wesley Dowd, Michelle R. Lum, Heather E. Watts

The mission of the Biology Department is to promote an appreciation for and understanding of the science of biology in our students. The particular objectives of the Biology Department are to: (1) provide students with a broad background in the biological sciences; (2) enable students to master the essential concepts of biology; (3) develop students' ability to think critically about scientific information and solve scientific problems; (4) enable students to articulate ideas and present information in both written and oral forms in a clear, organized fashion; (5) encourage students to participate in original research; (6) promote interdisciplinary scholarship; (7) teach students the skills of both field and laboratory biology, and enable them to participate directly in the scientific discovery process; (8) facilitate students' independent exploration of career opportunities; and (9) participate in the University's effort to educate non-science majors in the areas of science and technology.

The B.S. in Biology

The B.S. in Biology degree prepares students for a variety of careers following graduation. Substantial numbers of students go on to health professional schools to study medicine, dentistry, pharmacy, optometry, podiatric medicine, and veterinary medicine. Other students go on to various graduate programs in the basic biological sciences (e.g., physiology, genetics, molecular biology, immunology, microbiology, marine biology, ecology, etc.), college teaching, and positions in industry and in research and development.

The B.S. in Biology program provides for the opportunity to double major in Biology-Chemistry, Biology-Physics, Biology-Mathematics, Biology-Engineering, and Biology- Psychology. A special option is available in Marine Biology.

Major Requirements, Lower Division: for the B.S. in Biology

BIOL 101*, 102*, 111*, 112*, 201*, 202*; CHEM 110*, 111*, 112*, 113*, 220, 221, 222, 223; MATH 122*, 123 (MATH 131, 132 may be substituted for MATH 122, 123); PHYS 253, 254.

* A student must complete with a C (2.0) average the lower division requirements indicated by asterisks, including a C (2.0) average in BIOL 101, 102, 111, 112, 201, and 202, prior to becoming eligible to take any upper division biology course.

The B.A. in Biology

The B.A. in Biology degree is a general liberal arts and sciences program. The core curriculum for the B.A. in Biology is identical to that of the Belarmine College of Liberal Arts except no additional core Mathematics, Science and Technology courses are required. The B.A. will allow for a double major with other liberal arts programs. Pre-professional students should select the program leading to the B.S. degree.

Major Requirements, Lower Division: for the B.A. in Biology

BIOL 101*, 102*, 111*, 112*, 201*, 202*; CHEM 110*, 111*, 112*, 113*, 220, 6 semester hours of mathematics to include MATH 122*, plus 3.0 additional semester hours in science to be approved by the Department Chairperson.

* A student must complete with a C (2.0) average the courses indicated with an asterisk, including a C (2.0) average in BIOL 101, 102, 111, 112, 201, and 202, prior to becoming eligible to take any upper division biology course.

Major Requirements, Upper Division: (both B.S. and B.A.)

in Biology)

27 (B.S.) or 24 (B.A.) upper division semester hours in Biology, to be selected from the groups listed below, and to include at least 4 laboratory courses.

- (a) One course in Cell/Organism Function, to be selected from BIOL 351, 353, 355, 356, 357.
- (b) One course in Molecular Biology, to be selected from BIOL 330, 367, 437, 439, 443, 478, 479.
- (c) One course in Organismal Diversity, to be selected from BIOL 312, 328, 329, 333, 334, 335, 338, 361, 422.
- (d) One course in Populations, to be selected from BIOL 315, 316, 318, 328, 329, 338, 422, 474, 475, 477.

Note: BIOL 328, 329, 338, or 422 can satisfy only (c) or (d).

- (e) One 2 semester hour seminar or research course.
- (f) 3 (B.S.) or 2 (B.A.) additional upper division biology courses.
- (g) The above requirements must also include one plant biology course to be selected from BIOL 311, 312, 315, 353, 437, and one field biology course to be selected from BIOL 312, 318, 328, 329, 333, 338, 380, 381, 422, (BIOL 312 can satisfy only one of these two categories).

In addition to the 27 or 24 required semester hours, upper division biology courses may be taken as electives. Students preparing for specific graduate careers should discuss appropriate courses with their advisors.

To graduate as a biology major, a student must accumulate a C (2.0) average in all major requirements.

Minor Requirements

BIOL 101, 102, 111, 112, 201, and 202; CHEM 110 and 112; plus 7 semester hours in upper division BIOL courses. The upper division courses for the minor must be selected under the direction of the Chairperson of the Department.

An average grade of C (2.0) must be accumulated in all lower division requirements prior to taking upper division courses. An average grade of C (2.0) must also be accumulated in all upper division courses included in the minor.

Chemistry and Biochemistry**Faculty**

Chairperson: S. W. Tina Choe

Professors: S. W. Tina Choe, Rebecca D. Crawford, James M. Landry, James A. Roe

Associate Professors: Lambert A. Doezema, Jeremy E.B. McCallum, David A. Moffet, Thomas J. Reilly

Assistant Professors: Nicole C. Bouvier-Brown, Emily A. Jarvis

The chemistry and biochemistry curricula provide students with a solid foundation necessary for careers in research, health professions, teaching, and industry. The flexibility of the programs gives students the opportunity to explore areas that build upon that foundation. Examples of these areas include forensics, environmental science, and material science. In addition, students acquire skills in critical thinking and problem solving useful in other professions such as law and business.

Chemistry and biochemistry are empirical sciences. In addition to intellectual mastery of the disciplines, the major programs also develop practical experimental skills. The LMU student obtains "hands on" experience, both in traditional synthetic and analytic bench chemistry, as well as in major contemporary methods and techniques, enhanced by the department's collection of modern instrumentation.

Because of the complex and sensitive nature of the equipment and techniques of chemistry and biochemistry, continued participation in the programs is contingent on appropriate development of the ability to work maturely and responsibly in the laboratory.

Chemistry

Objectives

There are two tracks available in the chemistry major, ACS-certified track and General track.

The Bachelor of Science degree program, approved by the Committee on Professional Training of the American Chemical Society (ACS), **ACS-certified track in Chemistry**, is designed to prepare the student not only for immediate entry into the profession of chemistry at the Bachelor's level but also for graduate study toward advanced degrees.

The Bachelor of Science degree program, **General track in Chemistry**, provides the student with a flexible program that builds upon a solid fundamental knowledge in chemistry. Students work with their advisors/chairperson to select upper division elective courses in emphasis areas like health sciences—which include but are not limited to medicine, pharmacy, dentistry, optometry—and areas such as forensics, environmental chemistry, education, etc.

Major Requirements

Lower Division Requirements: ACS-certified track and General track

CHEM 110, 111, 112, 113, 220, 221, 222, and 223. A grade of at least C (2.0) is required in each of the CHEM courses. BIOL 101 and 111; CHEM 190; MATH 122 and 123; PHYS 253 and 254. With approval of the Chairperson, MATH 131 and 132; PHYS 101 and 201 may be substituted, as a complete package, for MATH 122 and 123; PHYS 253 and 254. An average of C (2.0) is required for the BIOL, MATH, and PHYS courses.

Upper Division Requirements: ACS-certified track

33 upper division semester hours of CHEM courses, including CHEM 330, 331, 340, 341, 360, 361, 370, 371, 390, 391, 490, and 491. For UD CHEM electives, a minimum of 2 lecture courses and 1 lab credit must be selected from CHEM 342, 343, 372, 373, 420, 421, 430, and 460. The remaining semester hours may be fulfilled with any UD chemistry elective.

Upper Division Requirements: General track

31 upper division semester hours of CHEM and CHEM/Emphasis courses, including CHEM 340, 341, 360, 361, 370, 371, 390, 391, 490, and 491. CHEM UD electives and Emphasis UD electives can be selected from any 300- and 400-level courses offered in the Chemistry and Biochemistry Department. The Emphasis courses can also be selected from other CSE departments. All UD elective courses must be approved by and developed in conjunction with your academic advisor/chairperson. Example emphasis areas are: Chemical Education, Environmental Chemistry, Health Sciences (Medicine, Pharmacy, Dentistry, Optometry, etc.) and others.

For both ACS-certified and General tracks: except for CHEM 390 and 490, a grade of at least C (2.0) must be obtained in each course included in the upper division requirements of the major. All upper division courses must be completed at LMU. Strongly recommended for those intending graduate study: CHEM 399/499. A maximum of 12 semester

hours of Chemistry/Biochemistry Internship and/or Directed Research (CHEM 393, 399, 493, 499) may be included toward the 124-hour baccalaureate requirement.

To be eligible for the Dean's list, students must have completed 15 semester hours at LMU for that semester.

Minor Requirements: Chemistry

BIOL 101, 111; CHEM 110, 111, 112, 113, 220, 221, 222, 223; plus a minimum of 7 upper division semester hours of CHEM courses including one upper division laboratory course. These must be selected under the direction of the Chairperson of the Department. Upper division chemistry courses used for the minor cannot also count toward the individual's major.

A grade of C (2.0) must be obtained in each course included in the minor.

No chemistry minor is available in conjunction with a biochemistry major. It is suggested that the student interested in in-depth study of both subjects should major in chemistry and minor in biochemistry.

Biochemistry**Objectives**

There are two tracks available in the biochemistry major, ACS-certified track and General track.

The Bachelor of Science degree program, approved by the Committee on Professional Training of the American Chemical Society (ACS), **ACS-certified track in Biochemistry**, is designed to prepare the student not only for immediate entry into the profession of biochemistry at the Bachelor's level but also for graduate study toward advanced degrees.

The Bachelor of Science degree program, **General track in Biochemistry**, provides the student with a flexible program that builds upon a solid fundamental knowledge in chemistry and biochemistry. Students work with their advisors/chairperson to select upper division elective courses in emphasis areas like health sciences—which include but are not limited to medicine, pharmacy, dentistry, optometry—and areas such as forensics, environmental chemistry, education, etc.

Major Requirements

Lower Division Requirements: ACS-certified track and General track

CHEM 110, 111, 112, 113, 220, 221, 222, and 223. A grade of at least C (2.0) is required in each of the CHEM courses. BIOL 101, 111, 201, 202; CHEM 190; MATH 122 and 123; PHYS 253 and 254. With approval of the Chairperson, MATH 131 and 132; PHYS 101 and 201 may be substituted, as a complete package, for MATH 122 and 123; PHYS 253 and 254. An average of C (2.0) is required for the BIOL, MATH, and PHYS courses.

Upper Division Requirements: ACS-certified track

33 upper division semester hours of CHEM and CHEM/BIOL courses, including CHEM 330, 331, 340, 341, 360, 361, 370, 371, 372, 373, 390, 391, 490, and 491. At least one lecture course is required from: CHEM 342, 420, 430, and 460. The remaining semester hours may be fulfilled with any UD chemistry elective or UD biology electives selected from: BIOL 330, 351, 353, 356, 359, 361, 367, 368, 437, 439, 443, 445, 449, 478, 479, or by consent of the Chairperson.

Upper Division Requirements: General track

32 upper division semester hours of CHEM and CHEM/BIOL courses, including CHEM 340, 341, 360, 361, 370, 371, 372, 373, 390, 391, 490, and 491. The remaining semester hours may be fulfilled with any UD chemistry elective or UD biology electives selected from: BIOL 330, 351, 353, 356, 359, 361, 367, 368, 437, 439, 443, 445, 449, 478, 479, or by consent of the Chairperson. UD elective courses must be approved by and developed in conjunction with your academic advisor/chairperson.

For both ACS-certified and General tracks: except for CHEM 390 and 490, a grade of at least C (2.0) must be obtained in each course included in the upper division requirements of the major. All upper division courses must be completed at LMU. Strongly recommended for those intending graduate study: CHEM 399/499. A maximum of 12 semester hours of Chemistry/Biochemistry Internship and/or Directed Research (CHEM 393, 399, 493, 499) may be included toward the total baccalaureate requirement.

To be eligible for the Dean's list, students must have completed 15 semester hours at LMU for that semester.

Minor Requirements: Biochemistry

BIOL 101, 111, 201, and 202; CHEM 110, 111, 112, 113, 220, 221, 222, 223, and 370; and 4 additional upper division semester hours selected from CHEM 371, 372, 373, or 480 or other advanced biochemical elective including one upper division laboratory course. These must be selected under the direction of the Chairperson of the Department. CHEM 370 and other UD courses used for the minor cannot also count toward the individual's major. A grade of C (2.0) must be obtained in each course included in the minor.

Civil Engineering and Environmental Science**Faculty**

Chairperson: Michael E. Manoogian*

Professors: Michael E. Manoogian*, Joseph C. Reichenberger*, William J. Trott*

Associate Professors: Rachel G. Adams, John H. Dorsey, Jeremy S. Pal, Jose A. Saez*

Adjunct Professor: Joseph Haworth*

Lecturers: Dennis Kasper*, Donald Kendall*, Ranajit Sahu

* Registered Professional Civil Engineer

Description

The civil engineer applies scientific and economic principles to plan, design, and oversee a wide variety of public and private projects which improve the quality of life, protect the environment, and facilitate economic growth. These projects include roads and highways, railroads, mass transit systems, airports, bridges, buildings, structures, harbors, flood control and drainage works, water supply, treatment and distribution systems, wastewater treatment and reuse systems, irrigation systems, pipelines, and power plants.

The civil engineering curriculum emphasizes practicality and design, supported by a strong background in scientific and mathematical concepts. The undergraduate program provides a broad background in all aspects of civil engineering, providing our graduates with the flexibility to practice in any of the specialties or to pursue an advanced degree. The program provides an opportunity to get hands-on experience with classes in surveying as well as laboratories in fluid mechanics, hydraulics, soil mechanics, mechanics of materials, structures, steel, and reinforced concrete design. Engineering design experiences are integrated throughout the curriculum beginning with the freshman engineering courses and extending through the last semester of the senior year. Design courses provide working experience with computer software used in the profession. Group and team projects prepare the student for real world engineering experiences.

The civil engineering student can select courses and electives that emphasize environmental engineering as described below.

Accreditation

The Civil Engineering program is accredited by the Engineering Accreditation Commission of the Accreditation Board for Engineering and Technology, 111 Market Place, Suite 1050, Baltimore, MD 21202-4012; telephone: 410.347.7700.

Mission

The mission of the Department of Civil Engineering and Environmental Science is to provide opportunities for students to develop the skills and knowledge necessary to become productive professionals through a rigorous, student-centered curriculum that balances theory and practice, serving the needs of society by emphasizing sustainability and environmental justice and meets the challenges of an ever-changing, complex world through a dynamic engineering program, combined with a comprehensive liberal arts core.

Objectives

The Civil Engineering program has established the following program educational objectives that are consistent with the mission of the Uni-

versity and that describe the expected accomplishments of graduates during the first several years following graduation. Civil Engineering program graduates will:

1. Be productive in the civil engineering profession or other professional fields;
2. Uphold the code of ethics of the profession and be cognizant of social justice issues in the practice of civil engineering;
3. Further develop their professional and technical skills through graduate studies and continuing education;
4. Be involved with civil engineering professional organizations; and
5. Exhibit leadership in the practice of civil engineering.

To accomplish these program educational objectives, analysis and design courses in the fields of environmental, geotechnical, hydraulic, structural, and water resources engineering are offered in addition to preparatory courses in oral and written communications, mathematics, sciences, and basic mechanics. A broad base of theory and design is provided along with discussion of current issues and practices of the profession. Through class assignments, students will become proficient in the use of computers and pertinent software, spreadsheets, presentations, drawing, and geographical information system (GIS) programs. Integrated with these courses is the University core curriculum.

Design in Civil Engineering

The civil engineering student participates in design projects throughout the curriculum both as an individual and as a member of a design team. The design experience varies in complexity as the student progresses through the program ending with the senior capstone design experience. Engineering design is the process of devising a system, component, or process to meet a specified need in an optimal manner. While the resulting design must stay within the appropriate specifications and constraints, consideration must also be given to economic, social, and environmental impacts and constructability. Accomplishing these varied goals requires creativity and involves considerable decision making. Many design projects are performed while part of a project team.

Civil Engineering and Environmental Science Graduate Program

Admission Requirements

All applicants must possess a bachelor of science (B.S.) degree or undergraduate engineering degree, which shall include:

- General Chemistry, 3 semester hours (1 course)
- Mathematics through one year of college calculus
- Total all science—12 semester hours or 4 courses, which could include biology, microbiology, chemistry, or physics.

The Department may require new applicants who lack an adequate background in mathematics, chemistry, or science to take additional courses prior to being admitted to or continuing in the program.

A completed application form and \$50 application fee. Admission into the program is in strict conformity with the requirements for all graduate students. Upon review of the student's undergraduate and professional preparation, additional admission requirements may be set by the Civil Engineering Graduate Studies Committee of the Department.

Program Requirements

The LMU graduate program in civil engineering and environmental science offers three major fields of study: 1) Master of Science (M.S.) in Environmental Science, 2) M.S. in Engineering in Civil Engineering with emphasis in Environmental Engineering, and 3) M.S. in Engineering in Civil Engineering with emphasis in Water Resources Engineering and Hydrology.

The candidate for the Master of Science in Engineering degree in Civil Engineering or Master of Science in Environmental Science must satisfy the following requirements:

I. Complete with a 3.0 ("B") average a minimum of 30 semester hours which include core courses listed in item 1A below and elective courses listed in item 1B below. At least 18 semester hours must be at the 600 level. Students that have taken any of the core or elective courses below as part of his/her undergraduate degree at LMU will be required to take a different course as part of the M.S. program. (Equivalent courses at other institutions will be considered on a case by case basis.)

A. Required core courses for each field of study

M.S. in Environmental Science: CIVL 504, ENVS 631, ENVS 633, and ENVS 644 (12 semester hours), plus the Comprehensive Examination (CIVL 600, zero semester hours);

M.S. in Civil Engineering with emphasis in Environmental Engineering: ENVS 631, ENVS 633, ENVS 644, CIVL 640, and CIVL 641 (15 semester hours), and Comprehensive Examination (CIVL 600, zero semester hours);

M.S. in Civil Engineering with emphasis in Water Resources Engineering: ENVS 631, CIVL 608, CIVL 620, and CIVL 654 (12 semester hours), and Comprehensive Examination (CIVL 600, zero semester hours).

B. Electives courses for each field of study

M.S. in Environmental Science: Choose at least two courses from CIVL 620, CIVL 640, CIVL 641, ENVS 635, and ENVS 645 (minimum 6 semester hours);

M.S. in Civil Engineering with emphasis in Environmental Engineering: Choose at least two courses from ENVS 635, ENVS 645, CIVL 610, and CIVL 620 (minimum 6 semester hours);

M.S. in Civil Engineering with emphasis in Water Resources Engineering: Choose at least two courses from ENVS 633, ENVS 635, CIVL 607, CIVL 609, CIVL 634, CIVL 635, and CIVL 656 (minimum 6 semester hours).

C. Courses in other departments (maximum of 3 semester hours), independent studies (maximum of 3 semester hours), and thesis preparation (maximum of 6 semester hours) may be taken as additional electives with the consent of the Program Director and the other department.

D. The remaining semester hours would be elective courses from the list below, to bring the total semester hours to 30.

Graduate Courses (See sections 1A and 1B above for required core courses and elective courses in each field of study. A description of each course is provided in the Course Description section.)

- CIVL 504 Applied Fluid Mechanics
 - CIVL 602 Membrane Treatment Systems
 - CIVL 603 Sustainable Engineering and LEED
 - CIVL 604 Climate Change, Impacts, and Sustainability
 - CIVL 605 Engineering Communications
 - CIVL 607 Hydraulic Analysis and Design
 - CIVL 608 Groundwater Hydrology
 - CIVL 609 Open Channel Hydraulics
 - CIVL 610 Water and Wastewater Treatment Systems Design
 - CIVL 612 Air Pollution Analysis
 - CIVL 613 Solid Wastes Engineering
 - CIVL 614 Industrial Waste Management
 - CIVL 615 Theory and Design of Waste Outfall Systems
 - CIVL 620 Computer Applications in Water Resources and Environmental Systems
 - CIVL 634 Groundwater Management
 - CIVL 635 Contaminant Transport in Groundwater
 - CIVL 640 Physical and Chemical Treatment Processes
 - CIVL 641 Biological Treatment Processes
 - CIVL 648 Hazardous Substances Management
 - CIVL 649 Contaminated Site Remediation
 - CIVL 650 Fundamentals of Environmental Health Risk Assessment
 - CIVL 654 Surface Water Hydrology
 - CIVL 656 Water Resources Systems Modeling
 - CIVL 665 Economics of Water Resources
 - CIVL 670 Contracts and Specifications
 - CIVL 699 or ENVS 699 Independent studies (maximum of 3 semester hours)
 - CIVL 695 Thesis (see Item 3 below)
 - ENVS 500 Geology
 - ENVS 615 Environmental Impact Reports
 - ENVS 618 Applied Oceanography
 - ENVS 625 Inland Waters
 - ENVS 631 Principles of Water Quality Management
 - ENVS 633 Aquatic Chemistry
 - ENVS 635 Chemical Fate and Transport
 - ENVS 644 Applied Microbiology
 - ENVS 645 Environmental Engineering and Science Laboratory
 - ENVS 650 Watershed Management
- II. Successfully complete the Comprehensive Examination (CIVL 600, zero semester hours).

III. Thesis Option. With the consent of the Department, the student may elect a thesis, which may satisfy up to 6 semester hours of the elective requirements. The student may enroll for a maximum of 3 semester hours of Master's Thesis in any semester or summer session for a maximum of 6 semester hours. Students electing this option must obtain a thesis advisor before Departmental consent will be considered. Formal requirements may be obtained from the Department.

In addition to the above requirements, the candidate of the Master of Science in Engineering degree in Civil Engineering (Environmental Engineering emphasis and Water Resources Engineering emphasis) must possess an undergraduate Engineering degree or pass the Fundamentals of Engineering examination given by the State of California prior to applying for graduation. Students who do not qualify under this condition will receive the Master of Science degree in Environmental Science upon completion of the program.

Sequence of Courses

Students starting the program in the Summer session. ENVS majors should take CIVL 504—Applied Fluid Mechanics during their first Summer session. CIVL majors should limit their course work to electives. Registering for CIVL 620—Computers and Environmental Analysis is not permitted. Students should then follow the program outlined below for "Students starting the program in the Fall semester."

Students starting the program in the Fall semester. Both ENVS and CIVL majors should take ENVS 610—Chemistry for Environmental Engineers and Scientists and ENVS 631—Principles of Water Quality Management. At the student's option, an elective may be taken provided there are no prerequisites. In the subsequent Spring semester, the student should take ENVS 633—Aquatic Chemistry and ENVS 644—Applied Microbiology. Again at the student's option, an elective may be taken provided there are no prerequisites. During the subsequent Summer session, both ENVS and CIVL majors should take ENVS 645—Environmental Engineering and Science Laboratory, and at the student's option, CIVL 620—Computers and Environmental Analysis. ENVS majors who have not previously taken CIVL 504—Fluid Mechanics should take it at this time and defer ENVS 645—Environmental Engineering and Science Laboratory or CIVL 620—Computers and Environmental Analysis at the student's option to a subsequent Summer session. During the subsequent Fall semester, both CIVL and ENVS majors should register for CIVL 605—Engineering Communications, CIVL majors, and ENVS majors intent on taking the Fundamentals of Engineering examination and changing their major to CIVL, should also register for CIVL 640—Physical and Chemical Treatment Processes. An elective may also be taken at the student's option. In the subsequent Spring semester, CIVL majors, and ENVS majors intent on taking the Fundamentals of Engineering examination and changing their major to CIVL, should also register for CIVL 641—Biological Treatment Processes. An elective(s) may be taken at the student's option. At this point, depending on the courses taken during the summer, the student should have completed the "core" or required courses.

Students starting the program in the Spring semester. Both ENVS and CIVL majors and limited to taking electives which do not have prerequisites. The students are not allowed to take ENVS 633—Aquatic Chemistry and ENVS 644—Applied Microbiology (typical Spring offerings because these classes have prerequisites). The subsequent Summer session, the student should follow the program outlined above for "Students starting the program in the Summer session."

Environmental Engineering Emphasis within the Civil Engineering Major

(131 S.H.)

The civil engineering student may choose to take courses and electives emphasizing environmental engineering. Opportunities exist to take classes in aquatic chemistry; microbiology; air pollution control; and solid, hazardous, and industrial waste management.

Major Requirements

Lower Division Requirements:

BIOL 114; CHEM 111, 114; CIVL 200, 210, 230, 250; ELEC 210, 213; ENGR 100, 160, 200; MATH 131, 132, 234, 245; PHYS 101, 201.

Electrical Engineering and Computer Science

Faculty

Chairperson: Nazmul Ula

Director, Computer Science: Raymond J. Toal

Professors: Philip M. Dorin, John A. Page, Richard G. Plumb, Raymond J. Toal, Nazmul Ula

Associate Professors: Stephanie E. August, John David N. Dionisio, Lei Huang, Barbara E. Marino

Assistant Professors: Jie Xu, Gustavo Vejarano

Lecturers: Cliff d'Autremont, David Hammers, Anil Kantak, Kirk Kohonen, Peter Pawlowski, Paul Rude

Graduate Program

Contact Information

Graduate Director: Stephanie E. August

Office Location: Doolan Hall, Room 108

Telephone: 310.338.5973

Fax: 310.338.2782

Mission Statement

The Master of Science program in Electrical Engineering is designed to provide theoretical knowledge as well as practical applications in the areas of communication systems, digital systems and computer engi-

neering. Through these programs, working engineers are given an opportunity to continue their education on a part-time basis.

Admission Requirements

Students seeking admission should have completed an undergraduate program in electrical engineering, computer science, or a closely related field. To be considered for admission, students must submit an application, \$50 application fee, a statement of intent, and transcripts. Letters of recommendation and the Graduate Record Exam (GRE) are optional. However, the GRE Subject Test in Computer Science is strongly recommended for all applicants to the Master of Science in Computer Science who do not hold an undergraduate degree in Computer Science. Additional coursework may be recommended or required as a condition of admission.

Transfer Credit

Students may transfer up to six (6) semester hours for courses completed at another regionally accredited college or university. Credits to be transferred must be taken prior to admission. Course grade must be at least a "B," and course must not have been used to satisfy degree requirements at another college or university.

Program Requirements

During the first semester of attendance, the student should prepare a program of study with a faculty advisor. A degree candidate is required to complete, with an average grade of at least 3.0 ("B"), a program of study that must include thirty or more semester hours of graduate-level coursework and which may include additional prerequisite (undergraduate) courses, as deemed appropriate by the advisor in consultation with the department. Of the graduate-level coursework, at least fifteen semester hours are to be in 600-level courses. Students must achieve a grade of B (3.0) or better in all 500-level courses. Applicable courses generally include both CMSI and ELEC courses offered by this department, as well as appropriate courses from mathematics or other disciplines.

Electrical Engineering

A Master of Science in Engineering (M.S.E.) degree is offered in Electrical Engineering. Programs of study are composed of courses in the areas of VLSI design and communications. The program must include at least fifteen hours at the 600 level, including ELEC 601, plus the following courses:

1. Introduction to Microprocessors II (ELEC 584)
2. Probability and Random Processes (ELEC 532)
3. Introduction to Communication Systems (ELEC 521)

One or more of these required courses may be waived if the student demonstrates satisfactory completion of a similar course, or competence in the subject matter. Waived courses will be replaced by electives at the 500 or 600 level.

Computer Science

Undergraduate Program Description

The computer science curriculum consists of classroom and laboratory experiences related to the following topics: algorithms and data structures, theory and design of computer programming languages and systems, operating systems, compilers, interaction design, computer graphics, distributed systems, database systems, artificial intelligence, networks, and organization and design of microprocessor-based computer systems. The curriculum embraces the values, best practices, and philosophy of the open source culture.

The B.S. degree is awarded upon successful completion of the computer science curriculum. Department criteria for graduation include completion of all courses in the curriculum with a minimum grade point average of C (2.0) in the Upper Division Requirements listed below.

A minor field program in computer science is also offered, which emphasizes traditional topics such as programming and data structures. The course requirements are CMSI 185, 186, 281, 284, and two upper division CMSI electives.

Objectives

The program educational objectives for graduates are: 1) preparation for professional practice; 2) preparation for advanced study; 3) promotion of the ideas of life-long learning; 4) development of self-fulfillment through

professional activity; and 5) development of ethical values and personal responsibility.

The program educational objectives are met by providing a curriculum which follows contemporary guidelines for computer science. Mathematics and digital hardware courses are important components of the curriculum. In addition to these traditional technical courses, and in keeping with the Jesuit tradition of educating the whole person, the curriculum includes core requirements in the humanities, communications, social sciences, and the fine arts.

Opportunities for involvement in professional societies, student design competitions, public open source projects, research with faculty, and University co-curricular activities are plentiful and help to accomplish these objectives.

Computer Science Curriculum (Undergraduate)

(124 S.H.)

Major Requirements

Lower Division Requirements:

CMSI 185, 186, 281, 282, 284; ELEC 281; MATH 131, 132, 248.

Upper Division Requirements:

CMSI 370, 371, 385, 386, 387, 401, 402, 486, 488; ELEC 385; MATH 360, 366.

Electives

The 21 semester hours designated as electives must include one course in laboratory science and one course of upper division computer science.

Students are encouraged to prepare, in consultation with an advisor, a coherent set of electives, so as to:

1. Customize a computer science curriculum to feature a field of emphasis, such as scientific computing, business applications, or games and animation.
2. Achieve a minor or build strength in a field related to computer science, such as psychology, linguistics, engineering, logic, foreign languages, animation, economics, or the technical arts.
3. Achieve breadth in the undergraduate curriculum.

Electrical Engineering

Electrical Engineering Undergraduate Program

Program Description

The electrical engineering curriculum consists of classroom and laboratory experiences related to the following topics: engineering design, electrical and electronic circuits and models, control systems, communication systems, design of analog and digital systems, and organization and design of microprocessor-based computer systems.

The electrical engineering curriculum leads to the B.S.E. degree in Electrical Engineering. Department criteria for graduation include completion of all courses in one of the two emphases, electrical engineering or computer engineering, with a minimum grade point average of C (2.0) in the Upper Division Requirements.

A minor field program in electrical engineering is also supported. Course work includes 18 semester hours to be determined in consultation with the Department Chairperson. All minor field programs require the approval of the student's major field faculty advisor and the Department Chairperson in the student's major field.

Accreditation

The electrical engineering program is accredited by the Engineering Accreditation Commission of the Accreditation Board for Engineering and Technology, 111 Market Place, Suite 1050, Baltimore, MD 21202-4012; telephone: 410.347.7700.

Objectives

The electrical engineering program has established the following program educational objectives that are consistent with the mission of the University and the Frank R. Seaver College of Science and Engineering. The objectives describe the expected accomplishments of graduates during the first several years following graduation. The electrical engineering program graduates will:

1. Perform effectively as practicing engineers and/or successfully undertake graduate study in electrical engineering or related fields;
2. Meet the challenges of the future through continuing professional growth; and
3. Exhibit concern for service and justice through leadership within their profession, as well as the community as a whole.

These program educational objectives are met by providing a curriculum which has both breadth and depth. Engineering science and design, mathematics and basic sciences are significant components of the electrical engineering program. In addition to these traditional technical courses, and in keeping with the Jesuit tradition of educating the whole person, the curriculum includes core requirements in the humanities, communications, and the fine arts.

Opportunities for involvement in professional societies, student design competitions, and University co-curricular activities are plentiful and help to accomplish these objectives.

Design in Electrical Engineering

Design is interwoven throughout the electrical engineering curriculum, culminating in a formal senior design project course. Freshman and sophomore engineering courses provide an introduction to design. The two junior and first semester senior laboratory courses extend this design experience to the integration of material from the upper division electrical engineering courses. Finally, the senior design project experience builds on the analytical and theoretical background developed throughout the curriculum as well as topics covered in the University's core curriculum.

Electrical Engineering Curriculum

(128 S.H.)

Major Requirements

Lower Division Requirements:

BIOL 114; CHEM 111, 114; ELEC 210, 213, 220, 281; ENGR 100, 160, 200; MATH 131, 132, 234, 245, 250; PHYS 101, 201.

Upper Division Requirements:

ELEC 301, 302, 353, 354, 361, 371, 383, 400, 401, 402, 423, 424 and two courses selected from other offerings in Electrical Engineering; MATH 355.

		15

The proper sequence of all courses should be discussed with the student's advisor.

General Engineering

A General Engineering curriculum is offered during the first three semesters in which all requirements are nearly identical regardless of major. This provides maximum flexibility since students can switch to any major at any time during their first three semesters without losing any time or credit. During this period, students can be classified as "Undecided Engineering" or can opt for one of the engineering majors—civil, electrical, or mechanical engineering. The principles and concepts that students learn during the General Engineering curriculum provide the foundation necessary for more advanced study in all engineering disciplines.

The freshman engineering faculty advisors advise all engineering students during the first two semesters. Students must consult each semester with their freshman advisor and register for the appropriate courses listed under the General Engineering curriculum. Any variation from the recommended paradigm must be approved by the freshman advisor.

Unless unusual circumstances suggest otherwise, a commitment to a particular major should be made before the second semester of the sophomore year. Students will then be assigned to a faculty advisor within their major. The Office of the Registrar must be informed whenever a student changes or declares a major.

Mission Statement

The Master of Arts in Teaching Mathematics program provides an opportunity for secondary school teachers to broaden their background in mathematical science and to correlate this knowledge with current education practice.

Admission Requirements

Students seeking admission to the Master of Arts in Teaching Mathematics program should have completed an undergraduate program in mathematics or a closely related field. The applicant must have completed a minimum of six upper division courses in Mathematics with a 3.0 ("B") average. If an upper division course in algebra is not included in the six courses required as prerequisites, a student entering the program will be required to take an upper division algebra course.

To be considered for admission, students must submit a Graduate Division application, \$50 application fee, a statement of intent, and transcripts from all colleges/universities attended. A cumulative GPA of 2.8 as an undergraduate or a 3.0 GPA in at least 9 units of graduate level coursework is required. A letter of recommendation addressing the student's mathematical background and teaching experience, if any, is also required.

Program Requirements

During the first semester of attendance, the student should prepare a program of study with a faculty advisor. A degree candidate is required to complete, with an average grade of at least 3.0 ("B"), a program of study that may include prerequisite undergraduate-level coursework, and that must include thirty or more semester hours of graduate-level coursework, as deemed appropriate by the advisor in consultation with the department. Of the graduate level coursework, at least fifteen semester hours are to be in Mathematics and fifteen in Education. Available courses in Mathematics include topics courses in Real Variables, Complex Variables, Algebraic Structures, Geometry, Topology, Numerical Analysis, Probability and Statistics, Mathematical Modeling, Operations Research, and History of Mathematics. All fifteen hours of work in Education are to be at the graduate level.

In addition, all candidates for the Master of Arts in Teaching Mathematics are required to register for and complete an approved project in mathematics or mathematics education, MATH 695 (MAT Final Project). It is recommended that the student register for MATH 695 in the semester in which she or he intends to complete the project.

Mathematics Undergraduate Program

Objectives

Mathematics, as an intellectual activity, is both an art and a powerful tool for problem solving and for understanding the physical universe. A mathematics major explores the different facets of the discipline through

a broad spectrum of courses in applied, computational, and pure mathematics. In addition to exploring mathematics, a student majoring in mathematics takes classes from other fields (e.g., science and education) that help her/him prepare for her/his chosen career. The Department's programs allow a student to focus on different aspects of the discipline and lead to one of three undergraduate degrees:

- Bachelor of Arts with a major in Mathematics
- Bachelor of Science with a major in Mathematics
- Bachelor of Science with a major in Applied Mathematics

The Department offers minors in Pure Mathematics, Applied Mathematics, and Secondary Education Mathematics. These minors are designed for students majoring in another field (e.g., engineering, physics, business, economics, computer science, or liberal studies) who wish to develop an undergraduate background in mathematics that goes beyond the requirements of their degree program.

In addition to its major and minor degree programs, the Mathematics Department serves every department in LMU's four Colleges, the School of Film and Television, and the School of Education through the core curriculum and by providing students in other majors courses designed to serve the mathematical needs of their fields of study.

Learning Outcomes

1. Content Proficiency. In each of the following subject areas of mathematics:
 - a. calculus and analysis,
 - b. abstract and linear algebra,
 - c. probability, combinatorics and statistics,
 - d. elementary numerical methods; students will be able to:
 1. State and use basic definitions and theorems.
 1. Solve basic problems.
 2. Decide on useful approaches to more complicated problems.
 3. Explain the central concepts of the subject.
2. Communication. Students will be able to communicate mathematics both orally and in writing. They will do so according to accepted standards in mathematics.
3. Tools. Students will employ a variety of tools such as the library, Internet, computers, and calculators to solve problems and do undergraduate research.
4. Independent Learners. Students will be able to independently investigate a mathematical topic.
5. Career and Professional Preparation. LMU mathematics graduates will be prepared to engage in mathematics-related professions or in a graduate school academic environment. This preparation will include significant pre-professional experiences.

Mathematics Placement Examination

The purpose of this examination is to determine the level of preparation of the student and to place her/him in the appropriate mathematics course. Any student with three years of high school mathematics including two years of algebra and one year of geometry should be adequately prepared to take this examination. However, students may wish to review these areas.

All first-year students with majors in the Frank R. Seaver College of Science and Engineering or the College of Business Administration, or who are Economics majors or Liberal Studies majors, must take the mathematics placement examination. Psychology majors are required to take MATH 104. All other majors are required to take MATH 102 or higher (see the section on Proficiency in Mathematics).

All students transferring into the Frank R. Seaver College of Science and Engineering or the College of Business Administration, or who are Economics majors or Liberal Studies majors, must take the mathematics placement examination unless they have transferred a college algebra or higher level college mathematics class approved by the Mathematics Department before entering LMU.

Any student, no matter her/his major, who plans to take MATH 106, 111, 112, 120, 122, or 131 and who has not transferred a college algebra or higher level college mathematics class is required first to take the mathematics placement examination. The mathematics placement examination may only be taken one time.

General Major Requirements

Students must complete the corresponding Bachelor of Arts or Bachelor of Science University Core requirements as defined by the Frank R. Seaver College of Science and Engineering; students will choose the proper sequence of University Core courses in consultation with their advisor.

Mathematics majors and minors are not permitted to enroll in a mathematics course without a minimum grade of C (2.0) in that course's prerequisite. A minimum grade of C (2.0) is required in each course in the lower division major requirements. A minimum cumulative grade point average of C (2.0) is required in the upper division major requirements for graduation.

Lower Division Major Requirements

MATH 131, 132, 190, 191, 234, 245, 248, 250, 282; one science course chosen from BIOL 101, 102; CHEM 110, 112, 114; CMSI 185, 281; PHYS 101, 201. The Bachelor of Science in Mathematics and the Bachelor of Science in Applied Mathematics degrees require an additional science course chosen from the courses listed above; a second CMSI or PHYS course may also be counted towards the Bachelor of Arts degree in Mathematics (please see upper division requirements below).

Bachelor of Arts with a Major in Mathematics

This major is designed for students who are interested in pursuing a career in teaching mathematics at the secondary (i.e., high school) level. With the help of her/his advisor, the student may design a schedule carefully so that s/he can complete the 2042 California Preliminary Single Subject (Secondary) Teaching Credential during her/his four years at LMU. For more details on the additional requirements for a Teaching Credential, and a sample four-year curriculum which includes both the requirement for the Bachelor of Arts in Mathematics and the Teaching Credential, see the Secondary Teacher Preparation Program section in this Bulletin. Furthermore, a program may be designed that allows a student to complete the mathematics degree, credential, and a Master of Arts in Teaching Mathematics at LMU in five years including two summer sessions.

Upper Division Requirements (11 courses):

MATH 321, 331, 357, 360, 490, 493 or 497, 550, and one additional 3 semester hour upper division MATH elective (excluding MATH 301, 302) chosen in consultation with her/his advisor; EDES 488; and two 3 semester hour EDxx courses chosen from the list of requirements for the preliminary single subject secondary credential or one such EDxx course and one course from BIOL 101, 102, 201, 202; CHEM 114, 220; CMSI 185, 281, 282; or PHYS 101, 201.

Bachelor of Science with a Major in Mathematics

This degree program is designed for students who want a broad foundation in mathematics. By choosing appropriate mathematics electives in consultation with her/his faculty advisor, the student can emphasize in pure mathematics, applied and computational mathematics, or a combination of both. The degree can be tailored to meet the needs of students who expect to pursue a graduate degree in pure mathematics, expect to pursue a graduate degree in applied mathematics, or intend to work in a mathematics-related field in industry.

Upper Division Requirements (10 courses):

MATH 321, 331, 357, 360, one of MATH 491, 493, 495, or 497, and five additional 3 semester hour upper division MATH electives (excluding MATH 301 and 302) chosen in consultation with her/his advisor.

Bachelor of Science with a Major in Applied Mathematics

This degree program is designed for students who want an interdisciplinary program that combines the study of applied and computational mathematics with a scientific area of specialization. This program can be tailored to meet the needs of students who expect to pursue a graduate degree in applied mathematics or science, expect to double-major or minor in a scientific field, or intend to work in a mathematics-related interdisciplinary field in industry.

Upper Division Requirements (10 courses):

MATH 321, 357, 331, 360, 495 or 497, and three additional 3 semester hour upper division MATH electives (excluding MATH 301 and 302) chosen in consultation with his/her faculty advisor, and two upper division courses in a scientific area of specialization cho-

sen in consultation with her/his faculty advisor and approved by the chair of the mathematics department. Note: Some areas of specialization require additional sophomore-level classes before upper-division coursework can begin; the faculty advisor will discuss these details with the student.

Biomathematics

Under the direction of an advisor, the student selects courses from the fields of biology, chemistry, computer science, and mathematics and obtains a Bachelor of Science degree through the Individualized Studies Program.

Any deviation from the above programs requires formal approval of the student's advisor and the Department Chairperson.

Secondary Teacher Preparation Program in Mathematics

For information on this program, see the Secondary Teacher Preparation Program section in this Bulletin.

Minor in Applied Mathematics Requirements

At least 24 semester hours including MATH 131, 132, 234, 245; MATH 355, 360 or 366; MATH 321 (MATH 248 is a prerequisite for MATH 321, so the MATH 321 option requires 27 semester hours), 357, 560, or 562; and MATH 250 or one additional 3 semester-hour upper division MATH course chosen in consultation with the applied mathematics minor advisor. A cumulative grade point average of C (2.0) or better is required in the courses included in the minor.

Minor in Pure Mathematics Requirements

At least 24 semester hours including MATH 131, 132, 234, 248; MATH 331, 350, or 366; MATH 321, 357, 471, or 550; and MATH 250 or one additional 3 semester-hour upper division MATH course chosen in consultation with the pure mathematics minor advisor. A minimum cumulative grade point average of C (2.0) is required in the courses included in the minor.

Minor in Secondary Education Mathematics Requirements

At least 24 semester hours including MATH 131, 132, 234, 248, 360, 490, and 550. A cumulative grade point average of C (2.0) or better is required in the courses included in the minor.

Bachelor of Arts in Mathematics Curriculum

(124/126 S.H.)

Freshman Year

Fall Semester		S.H.
MATH 131	Calculus I	4

Mechanical Engineering

Faculty

Chairperson: Nader Saniei

Graduate Program Director: Matthew T. Siniawski

Professors: Omar S. Es-Said, Mel I. Mendelson, Rafiqul I. Noorani, Nader Saniei

Assistant Professors: Todd Otanicar, Matthew T. Siniawski

Lecturers: Herand Bedrossian, Greg V. Meholic, Peter B. Pollack, Brian Sako

Description

Mechanical Engineering is very broad in scope and is pertinent to a variety of engineering activities and products, such as transportation vehicles, energy generation, machine mechanisms, manufacturing systems, structures, and processing plants. The Mechanical Engineering program provides a solid foundation for work in all of these fields. The flexible and modern curriculum covers contemporary technology as well as the fundamentals for future technologies. It is designed to prepare students for graduate school as well as for employment in industry. Engineering design is a major emphasis of the curriculum, and students work on vari-

ous aspects of design projects throughout, culminating in a comprehensive capstone design project. Modern, well-equipped research laboratories support the curriculum. These laboratory facilities include computer-aided design and engineering, manufacturing, the materials science and materials processing, rapid prototyping, renewable energy, robotics, solid mechanics, thermal and fluid systems, and tribology.

Accreditation

The Mechanical Engineering program is accredited by the Engineering Accreditation Commission of the Accreditation Board for Engineering and Technology, 111 Market Place, Suite 1050, Baltimore, MD 21202-4012; telephone: 410.347.7700.

Mission

The mission of the Mechanical Engineering Department is to provide a high quality, practice-oriented, design-focused curriculum that prepares students for both graduate studies and leadership roles in industry.

Educational Objectives

The Mechanical Engineering program has established the following program educational objectives that are consistent with the University's mission and Department's program outcomes. During the first 3-5 years after graduation, Mechanical Engineering graduates will:

1. Advance in their professional careers and pursue graduate studies and continuous learning in areas relevant to their long-term goals;
2. Demonstrate leadership in professional activities such as research, experimental studies, and industrial projects;
3. Be capable of working effectively in cross-functional teams, communicating effectively, and participating in the practice of mechanical engineering design; and
4. Contribute to professional societies and demonstrate ethical conduct.

These program educational objectives are accomplished through the major requirements, the core curriculum, design competition experiences, internships, research opportunities, professional society involvement, and extracurricular activities.

Mechanical Engineering Graduate Program

Contact Information

Graduate Director: Matthew T. Siniawski

Telephone: 310.338.5849

Fax: 310.338.6028

E-mail: msiniawski@lmu.edu

Admission Requirements

Submit a completed application form and \$50 application fee. Students seeking admission into the M.S. program should have completed an undergraduate curriculum in Mechanical Engineering or a related field from an ABET-accredited university. Students seeking admission into the Certificate in Lean and Quality program should have completed an undergraduate curriculum in any engineering discipline from an ABET-accredited university. If, in the judgment of the Program Director, a particular applicant does not have the required background, a series of "catch-up" courses will be suggested. Upon the successful completion of these courses, the applicant would then be admitted into the graduate program. Detailed information about the admission requirements for foreign students is available from the Graduate Admissions Office. The students applying for the combined B.S./M.S. degrees must apply in the Fall semester of their Senior year, indicating the "Combined B.S. and M.S." on their application form. All other application requirements remain the same. If admitted, they will take their first graduate course in the Spring semester of their Senior year.

Program Requirements

All courses listed below are 3 semester hours, unless otherwise noted. Each lecture-type course meets once a week.

Requirements for Master of Science in Engineering Degree, major in Mechanical Engineering

The candidate for the degree of Master of Science in Engineering who majors in Mechanical Engineering is required to complete, with a 3.0 ("B") grade point average, all of the following elements (1 through 5) of the studies:

- The following three core courses:

MECH 500	Quality
MECH 504	Engineering Mathematics
MECH 594	Project Management

Note: The course MECH 500 is also a part of several certificate programs. If this course is already taken for a certificate, then another elective course must be taken to satisfy either the core or the other certificate requirement.

- Either six elective Mechanical Engineering courses selected in disciplinary groupings by a particular student and approved by the Program Director, or two Mechanical Engineering certificate programs selected from the seven certificate programs listed below, (for a total of six courses), or one certificate program plus three courses. The disciplinary grouping may include a maximum of two courses of Independent Studies, MECH 599. The certificate program, if chosen, must be completed prior to the M.S.E. program.
- Either two elective engineering courses or the Thesis course MECH 686. The selection of the elective courses must be approved by the Program Director. Possible courses include Mechanical Engineering courses and non-restricted Electrical, Civil, or Systems Engineering, and Computer Science courses, or courses transferred from other institutions upon the prior approval of the Program Director.
- All 500-level courses must have the grade of at least 3.0 ("B"). The grade for each course transferred from another institution must be at least 3.0 ("B"). The grade for any 600-level course must be at least 2.0 ("C"), provided the overall GPA in the program is at least 3.0 ("B").
- A total of 33 semester hours of coursework (30 semester hours if the Thesis option, MECH 686, is selected).

Requirements for the Combined B.S./M.S. Degrees, major in Mechanical Engineering

Only LMU Seniors in Mechanical Engineering are eligible to apply for the combined degree program. Admission will take place in the Fall semester of the Senior year. The remaining requirements are as follows:

- Complete nine 500- or 600-level courses (approximately half of each, subject to the Program Director's approval).
- One of the courses must be the Independent Studies course MECH 599 of at least three semester hours. It is highly recommended that this course be taken in the first summer session between the Senior and the Fifth year, or in the Fall of the Fifth year.
- The overall GPA of all nine courses must be at least a 3.0 ("B"), the grade in each 500-level course must be at least 3.0 ("B"), and the grade in each 600-level course must be at least 2.0 ("C").

The course load should be as follows:

Spring Semester of Senior Year

Complete one 500- or 600-level course, to be credited towards the M.S. degree, increasing the normal course load from 15 semester hours to 18 semester hours. An undergraduate student who takes only 12 semester hours in the semester can take two 500- or 600-level courses towards the M.S. degree. Upon satisfactory completion of the undergraduate program after the Senior year, the student will be eligible to receive a B.S. degree in Mechanical Engineering, and to participate in the undergraduate commencement ceremony.

Summer after the Senior Year

The student must take one 500- or 600-level course during each Summer session (for a total of two courses). The student is responsible for their housing during the summer. A student can apply for on-campus housing, if available.

Fall Semester of the Fifth Year

The student must take three 500- or 600-level courses.

Spring Semester of the Fifth Year

A student must take three 500- or 600-level courses. A student who has taken two rather than one graduate course in the Senior year will need to take only two courses in the Spring of the Fifth year, for a total of nine courses. A student who has satisfactorily completed the above requirements (1, 2, 3) will be eligible to receive the Master of Science degree, major in Mechanical Engineering, in May of the Fifth year.

A student who must adjust her/his academic progress due to personal reasons may be allowed to follow an adjusted schedule with the approval of the Program Director. The requirements will remain the same.

Requirements for Certificate Programs

The candidate for any certificate program in Mechanical Engineering is required to complete the three courses listed under that certificate program. The grade in any 500-level course must be at least 3.0 ("B"), the grade in a particular 600-level course must be at least 2.0 ("C"), and the grade-point average for all three courses must be at least 2.7 ("B-"). The certificate will be granted upon the completion of the three courses.

A student completing any certificate program is free to apply for admission to another certificate program in the M.S.E. program in Mechanical Engineering, or in any other engineering program at LMU if the requirements have been satisfied.

Certificate in Mechanical Design

MECH 512	Advanced Mechanics of Materials
MECH 611	Advanced Elements of Design
MECH 651	New Product Design and Development

Certificate in Materials Engineering

Three of the following five courses:

MECH 511	Materials Selection in Design
MECH 515	Composites
MECH 517	Fracture Mechanics
MECH 633	Electronic Properties of Materials
MECH 634	Fatigue

A student may elect to replace MECH 515 or MECH 633 with MECH 599, Independent Studies, Research in Materials and Engineering.

Certificate in Structural Dynamics

MECH 518	Shock & Vibration Engineering
MECH 538	Structural Dynamics
MECH 638	Random Vibrations

Certificate in Finite Element Methods

MECH 512	Advanced Mechanics of Materials
MECH 516	Finite Element Methods
MECH 631	Elasticity

Certificate in Systems Engineering

MECH 500	Quality
MECH 552	Systems Engineering
MECH 594	Project Management

Certificate in Thermal Engineering

Three of the following four courses:

MECH 542	Turbomachinery
MECH 543	Propulsion
MECH 623	Advanced Thermodynamics
MECH 643	Convective Heat Transfer

Certificate in Lean and Quality

MECH 500	Quality
MECH 552	Systems Engineering
MECH 660	Lean Methods

Note: The courses listed under the certificate programs are for guidance only. A student enrolled in any certificate program may petition the Program Director to have any listed course replaced by another course to pursue his/her individual educational goals, or if that course is canceled, or already taken.

Mechanical Engineering Undergraduate Program

Mechanical Engineering Curriculum

(131 S.H.)

Major Requirements

Lower Division Requirements:

BIOL 114; CHEM 111, 114; ELEC 210, 213; ENGR 100, 160, 200; MATH 131, 132, 234, 245; MECH 211, 212, 213, 223; PHYS 101, 201.

Upper Division Requirements:

MATH 355; MECH 301, 302, 303, 310, 313, 321, 322, 323, 401, 402, 410; three Mechanical Engineering focus track elective courses (9 semester hours of 400- or 500-level MECH course work)*; one Mechanical Engineering elective (3 semester hours of 400- or 500-level MECH course work)**; one technical elective (3 semester hours of an upper division engineering course)***.

Energy, Fluids and Thermal Systems

MECH 423	Thermal Systems Engineering
MECH 520	Computational Fluid Dynamics
MECH 521	Alternative Energy Systems
MECH 542	Turbomachinery
MECH 543	Propulsion

** Mechanical Engineering Elective

Complete 3 semester hours (1 course) of 400- or 500-level MECH course work.

*** Technical (TECH) Elective

Complete 3 semester hours (1 course) of an upper division engineering course. An upper division course with the Frank R. Seaver College of Science and Engineering may be substituted upon approval by the student's academic advisor.

Natural Science

Bachelor of Science in Natural Science

Pre-Physical/Occupational Therapy Emphasis

Secondary Science Education Emphases

Bachelor of Science in Athletic Training

Bachelor of Science in Environmental Science**Faculty**

Chairperson: David A. Ramirez

Professor: James M. Landry

Associate Professors: Hawley C. Almstedt, Carolyn M. Viviano

Assistant Professor: Sarah L. Strand

Clinical Faculty: David A. Ramirez, Todd C. Shoepe

The Natural Science Department offers programs of study applying basic scientific knowledge to either multidisciplinary fields of study or specialties not easily accommodated through the traditional science disciplines. The Department offers three majors: the Natural Science major, with emphases in Pre-Physical/Occupational Therapy and Secondary Science Education; the Athletic Training major, and the Environmental Science major. All students in the Department of Natural Science are required to complete an Independent Studies course. This can be accomplished by carrying out a research project under the guidance of a faculty member or through an internship in the area of interest.

Bachelor of Science in Natural Science

The Natural Science major provides specialized programs to provide prerequisite training for graduate programs in physical and occupational therapies (and other allied health professions) and content preparation for a high school teaching credential.

General Science Emphasis**Objectives**

The Natural Science major, General Science emphasis, is designed to serve those students interested in a broad education combining general science, engineering science, and liberal arts.

The program prepares students interested in the areas of law, business, elementary education, studio and graphic arts, journalism, and other professions for work where a science background could be an asset.

Major Requirements

66 semester hours are to be taken from course offerings in the Departments of Biology, Chemistry, Mathematics, Natural Science, Physics, and Engineering.

Lower Division Requirements:

NTLS 190 and one additional course must be taken in Natural Science. BIOL 101, 102, 111, 112; CHEM 110, 111, 112, 113; two MATH courses, including MATH 122 or 131; and PHYS 253, 254. In order to be eligible to take an upper division science course, a student must have a C (2.0) average in the lower division science courses.

Upper Division Requirements:

27 semester hours must be taken in upper division offerings in the Departments of Biology, Chemistry, Natural Science, or Physics. This includes an upper division NTLS course with laboratory and two additional upper division laboratory courses. Up to 6 semester hours of internship courses, undergraduate research courses, and natural science teaching courses can be counted toward the upper division science requirement.

This requirement includes completion of 3 semester hours of Independent Studies at the senior level to enhance development of the student's science program.

A student must have a C (2.0) average in upper division science courses.

Minor Requirements

18 semester hours consisting of four courses at the lower division level (excluding NTLS 190) and two courses at the upper division level. In addition, one laboratory course is required.

This minor is not available to students within the Frank R. Seaver College of Science and Engineering.

The proper sequence of the University Core courses should be discussed with the student's advisor. The course sequence in Mathematics depends on the results of the Mathematics Placement Examination.

Pre-Physical/Occupational Therapy Emphasis

Objectives

This emphasis provides the student with the required courses in science, mathematics, psychology, and liberal arts needed to apply to either physical therapy or occupational therapy graduate programs. In addition, students are required to do internship work in a physical therapy or occupational therapy setting. This internship experience helps satisfy the volunteer hours required by the physical therapy or occupational therapy graduate programs.

Major Requirements

Lower Division Requirements:

BIOL 101, 102, 111, 112; CHEM 110, 111, 112, 113; MATH 104, 122; NTLS 151, 152, 153, 154, 190, 255; PHYS 253, 254; PSYC 100.

In order to be eligible to take an upper division science course, a student must have a C (2.0) average in the lower division science courses.

Upper Division Requirements:

27 semester hours must be taken in upper division offerings in the Departments of Biology, Chemistry, Natural Science, or Physics and must include NTLS 495. This includes an upper division NTLS course with laboratory and two additional upper division laboratory courses. Up to 6 semester hours of internship courses, undergraduate research courses, and natural science teaching courses can be counted toward the upper division science requirement.

A student must have a C (2.0) average in upper division science courses.

The following upper division psychology courses are required: PSYC 332 and 352.

B.S. Degree in Natural Science

The proper sequence of the University Core courses should be discussed with the student's advisor. The course sequence in Mathematics depends on the results of the Mathematics Placement Examination.

Secondary Science Education Emphases

Objectives

The Science Education Program is designed to prepare students for careers in teaching high school biology or chemistry. The Secondary education emphases offer classroom experience and internship opportunities in addition to the subject matter content required by the State of California. The programs consist of: a breadth of knowledge requirement specifying courses in Biology, Chemistry, Geosciences, and Physics, a concentration requirement which allows for in-depth study in Biology or Chemistry, and an education requirement. Our program has been accredited by the State of California. Students who have successfully completed either the Single Subject Matter Program in Biology (SSEB) or Chemistry (SSEC) do not have to take the CSET (California Subject Examinations for Teachers) exam; completion of the program demonstrates subject matter competency.

Secondary Teacher Preparation Program in Natural Science (Biology or Chemistry Emphasis)

For information on this program, see the Secondary Teacher Preparation Program section in this Bulletin.

Bachelor of Science in Athletic Training

Director: David A. Ramirez

Clinical Coordinator: Sarah L. Strand

The Athletic Training major is designed for students interested in pursuing a career as a certified athletic trainer. The profession of Athletic Training is recognized by the American Medical Association as an allied health profession. Certified Athletic Trainers (ATC) are members of the National Athletic Trainers' Association (NATA) and are medical experts in preventing, assessing, managing, and rehabilitating injuries that result from physical activity. ATCs function as integral members of the health care team in professional sports organizations, colleges and universities, secondary schools, military branches, sports medicine clinics, industrial settings, and other health care venues.

Accreditation

The Athletic Training major curriculum, referred to as the Athletic Training Education Program (ATEP), is accredited through the Commission on the Accreditation of Athletic Training Education (CAATE). In order for students to sit for the Board of Certification (BOC) examination, they must graduate from a CATE accredited program.

Objectives

The LMU athletic training student who successfully completes the ATEP curriculum earning a Bachelor of Science degree in Athletic Training will qualify to take the National Athletic Trainers' Association—Board of Certification national exam to become a Certified Athletic Trainer. Also, the athletic training program provides the prerequisites needed to apply to graduate programs in a number of allied health careers. These include, but are not limited to, athletic training, physical therapy, occupational therapy, exercise science, and nutrition.

Athletic Training Education Program (ATEP)

The Athletic Training Education Program (ATEP) has a competitive admission process. Entrance into LMU does not guarantee entrance into the Athletic Training Education Program. Application to the ATEP is made during Spring semester of the student's first year. Interested students will receive an application packet during the first week of NTLS 160. Students will be informed of their status in early April.

Transfer students should contact the ATEP Director. If accepted into the formal ATEP, transfer students will have to successfully complete all credits for the major at LMU.

Application requirements for Athletic Training Educational Program include:

- A completed application form
- Verification by an appropriate health care provider that the student is in good health and has had necessary immunizations
- Verification that student can meet technical standards
- Two letters of recommendation
- The completion of observation hours
- A completed clinical proficiencies list
- A transcript showing the successful completion of the following courses taken at LMU with a GPA of 2.50 or better and a 2.70 (B-) in:
 - NTLS 151, 152, 190
 - CHEM 110, 111
 - Good standing in NTLS 160, 162
- Completion of a formal interview with the selection committee.

Notes:

- Deficiencies in one area can be offset by exceptional marks in another.
- Fulfilling these requirements does not guarantee entrance into ATEP since an appropriate student to Certified Athletic Trainer ratio must be maintained to satisfy accreditation requirements.

Major Requirements

Lower Division Requirements:

BIOL 101, 102, 111, 112; CHEM 110, 111, 112, 113; MATH 104 and 122; NTLS 151, 152, 153, 154, 160, 162, 190, 255; PHYS 253, 254; PSYC 100.

In order to be eligible to take an upper division science course, a student must have a C (2.0) average in the lower division science courses.

Upper Division Requirements:

39 semester hours must be taken in upper division natural science courses which include: NTLS 355, 356, 360, 362, 368, 369, 397, 460, 462, 464, 468, 469, 478, 480, 485, 488, and 497.

A student must have a C (2.0) average in upper division science courses.

One upper division psychology course is required: PSYC 332 or 352.

The proper sequence of the University Core courses should be discussed with the student's advisor. The course sequence in Mathematics depends on the results of the Mathematics Placement Examination.

Bachelor of Science in Environmental Science**Objectives**

The objective of the Environmental Science major is to prepare a student for a career in the field of environmental sciences. Students receiving this degree can either pursue graduate studies, or enter the field of environmental science where many jobs are available, for example, with various private businesses, government agencies, and environmental advocacy groups.

The Environmental Science major is a rigorous interdisciplinary program involving course work in biology, chemistry, physics, and environmental science and engineering. Environmental science classes focus on theoretical and technical knowledge of the generation, transport and fate of pollutants, their impacts on natural resources and human health, resource management, and conveying technical information. Laboratory courses are designed to maximize hands-on experience in collecting samples from various media, and using an array of equipment to characterize samples of soils, water, and air. Many of the environmental science courses include field trips to the adjacent Ballona Wetlands and Santa Monica Bay to demonstrate methods for collecting samples, and to study environmental conditions and resident biota. Internships with local environmental organizations and companies are an integral component of the program. The major requires that the student conduct a research project followed by presentation of results upon completion.

Major Requirements

Lower Division Requirements:

BIOL 101, 102, 111, 112, 201, 202; CHEM 110, 111, 112, 113, 220, 222; MATH 104, 122; NTLS 101, 190, 250; PHYS 253 and 254.

In order to be eligible to take an upper division science course, a student must have a C (2.0) average in the lower division science courses.

Upper Division Requirements:

33 upper division hours which will include: BIOL 318, 361, and 362; and NTLS 301, 302, 330, 332, and 401. In addition, an upper division elective course in natural science and 3 upper division science electives are required.

A student must have a C (2.0) average in upper division science courses.

Minor Requirements: Environmental Science

BIOL 101, 102, 111, 112; CHEM 110, 111, 112, 113; NTLS 101, 301, 302, 330. Any substitution must be made with the consent of the Chairperson of the Department. Natural Science majors with an emphasis in General Science must consult with the Chairperson to ensure selection of appropriate courses.

A grade of C (2.0) must be obtained in each course included in the minor.

Physics and Engineering Physics

Faculty

Chairperson: John B. Bulman

Professors: John B. Bulman, Vincent P. Coletta, Jeff Sanny

Associate Professors: Jonas R. Mureika, Jeffrey A. Phillips, Gabriele Varieschi

Adjunct Professor: James McCarthy

Physics

Objectives

The B.S. Physics degree provides a solid foundation in classical and modern physics. This program is well suited for the student who wishes to continue the study of physics at the graduate level, leading to a career in research and/or university teaching. With a proper choice of electives, the physics degree is also suitable for a variety of other careers requiring graduate education. Physics graduates can pursue advanced studies in fields such as optics, biophysics, geophysics and space science, nuclear engineering, business management, or law. Some physics majors choose electives that prepare them for medical school. Physics graduates can also select immediate employment in a number of areas, including high school teaching and various areas of industrial science and technology. Because of the flexibility of the physics major, with its numerous electives, it is possible to double major in physics and some other discipline. Examples of double degrees that can be completed in four years are physics and math, or physics and chemistry. Each of these double majors is very powerful, in that it develops the ability to solve problems that require a knowledge of two separate disciplines.

Major Requirements

Lower Division Requirements:

CHEM 111, 114; ENGR 160; MATH 131, 132, 234, 245, 250; PHYS 101, 195, 201, 206, 212.

Each course in MATH and PHYS listed above must be passed with a grade of C (2.0) or better.

Upper Division Requirements:

MATH 355 and one from MATH 350, 357 or 360; PHYS 301, 302, 321, 322, 411, 451, and three upper division physics electives selected from the following: 351, 361, 371, 421, 441, 461, 471. Seniors must complete the capstone experience, PHYS 480, and senior thesis, PHYS 481. To graduate, a student must have at least a 2.0 average in all upper division physics courses.

Minor Requirements

21 semester hours with at least 6 semester hours in upper division courses. These shall include PHYS 101, 201, or PHYS 253, 254; 206.

A grade of C (2.0) is required for every course included in the minor.

Engineering Physics

Objectives

The B.S. Engineering Physics degree provides extensive education in engineering as well as physics. The curriculum combines the strengths of a physics curriculum (with emphasis on understanding basic principles) and an engineering curriculum (with emphasis on applications). Gradu-

ates are especially well prepared for either graduate work in engineering or applied physics or for immediate employment by companies with an engineering research orientation. With the right electives, the curriculum provides excellent preparation for graduate work in biomedical engineering.

Major Requirements

Lower Division Requirements:

CHEM 111, 114; ELEC 210, 213, 220, 281; ENGR 100, 160; MATH 131, 132, 234, 245, 250; PHYS 101, 195, 201, 206, 212.

Each course in MATH and PHYS listed above must be passed with a grade of C (2.0) or better.

Upper Division Requirements:

ELEC 301, 353, 354; MATH 355; PHYS 301, 302, 321, 322, 411, and two upper division physics electives selected from the following: 351, 361, 371, 421, 441, 461, 471. Seniors must complete the capstone experience, PHYS 480, and senior thesis, PHYS 481. Students must also take a two-course sequence in a technical area. Among the options are: ELEC 302 and ELEC 383; MECH 323 and PHYS 451; ELEC 371 and ELEC 423. To graduate, a student must have at least a 2.0 average in all upper division physics courses.

Engineering Physics Curriculum

(126 S.H.)

Freshman Year

Fall Semester		S.H.
PHYS 195	Waves and Light	3
CHEM 111	General Chemistry I Lab	1
CHEM 114	Gen Chem for Engineers	3
ENGL 110	College Writing	3
ENGR 100	Intro to Engineering	3
MATH 131	Calculus I	4
		17

Spring Semester

ENGR 160	Algorithms & Applications	3
MATH 132	Calculus II	4
PHYS 101	Intro to Mechanics	4
_____	University Core	3
_____	University Core	3
		17

Sophomore Year

Fall Semester		S.H.
PHYS 201	Intro Elec & Mag	4
ELEC 210	Electric Circuit Analysis	3
ELEC 213	Electric Circuit Analysis Lab	0
MATH 234	Calculus III	4
MATH 245	Differential Equations	3
_____	University Core	3
		17

Spring Semester

PHYS 206	Modern Physics	4
PHYS 212	Intermediate Mechanics	3

ELEC 220	Circuits II	3
MATH 250	Linear Algebra	3
— —	University Core	3
		16

Junior Year

Fall Semester		S.H.
PHYS 301	Electromagnetic Fields	3
ELEC 353	Electronics I	3
MATH 355	Methods of Applied Math	3
— —	Elective*	3
— —	University Core	3
		15

Spring Semester		S.H.
PHYS 302	Electromagnetic Waves	3
ELEC 281	Logic Design	3
ELEC 354	Electronics II	3
— —	Elective*	3
— —	University Core	3
		15

Senior Year

Fall Semester		S.H.
PHYS 321	Quantum Physics I	3
PHYS 411	Modern Physics Lab	3
PHYS 480	Capstone Experience	1
PHYS —	UD Physics Elective	3
ELEC 301	Junior Lab I	3
— —	University Core	3
		16

Spring Semester		S.H.
PHYS 322	Quantum Physics II	3
PHYS 481	Senior Thesis	1
PHYS —	UD Physics Elective	3
— —	University Core	3
— —	University Core	3
		13

A two-course sequence in a technical area is required. Some recommended sequences are:

- ELEC 302 Junior Lab II and ELEC 383 Introduction to Microprocessors
- MECH 323 Heat Transfer and PHYS 451 Thermodynamics and Statistical Mechanics
- ELEC 371 Linear Systems and ELEC 423 Communications I

Systems Engineering and Engineering Management

Mission Statement

The mission of the **Systems Engineering MS program** is to provide working engineers and scientists with the skills and modern tools needed to manage complex, interdisciplinary technical endeavors and systems engineering teams to enable the realization of successful systems. The students may select the following study plans:

- The **Systems Engineering MS program**.
- The **Systems Engineering Leadership Program (SELP)** offering a dual-MS/MBA degree to provide integrated engineering and business skills for becoming systems engineering managers and leaders.
- The **Systems Engineering MS program with a Technical Focus or Concentration** in another science, engineering or computer science discipline providing multidisciplinary breadth. The student pursuing this option will take three Electives in another graduate program offered by the Frank R. Seaver College of Science and Engineering at LMU. The student's prior education must provide suitable preparation for such studies. The course plan must be approved by both the Director of Systems Engineering and the Director of the Technical Focus program.
- A post-baccalaureate **Certificate in Systems Engineering** providing the skills required for conducting and managing basic systems engineering activities.

Admission Requirements

Students applying to the SELP must be accepted into both the Systems Engineering Program and the MBA Program. The following requirements must be satisfied for admission into any of the programs listed above:

- Application to Graduate Division (<https://apply.embark.com/Grad/LMU/89>) and \$50 application fee
- Bachelor's degree in engineering or science from an ABET-accredited program with a grade point of 3.0 ("B") or better (original university transcripts required)
- GMAT exam score (only for the MBA program)
- Three or more years of related work experience or permission of the Program Director
- Resume indicating past and current job functions
- Three letters of recommendation—one from a current manager
- Essay discussing how the graduate program fits the applicant's career goals

Promising applicants who do not satisfy these requirements will be considered for provisional admission based upon their performance on the GMAT test, or their classroom performance during their first year in the program.

Schedule

The Systems Engineering MS program and Systems Engineering with Technical Focus MS program are designed to be completed in about two years by a working student taking two courses per semester. The dual degree Systems Engineering Leadership Program is designed to be completed in about three years. The Certificate program can be completed within one year. Students can be admitted anytime during the academic year. The application deadlines for admission are April 15 for the Summer session, July 15 for the Fall semester, and December 15 for the Spring semester.

Systems Engineering (SE)

Program Requirements

The students will be expected to adhere to the LMU policies and procedures stated in this Bulletin and those established by each course instructor. Students who receive a grade of less than "B" in any 500-level course or a grade of less than "C" in any 600-level course will not have the course count toward their degree. The overall minimum GPA required for graduation is 3.0 in the MS programs and 2.7 in the Certificate program.

The MS student must complete the requirements (a-c):

- Core Requirements for the **MS in SE** degree:

SELP 500	Quality*
SELP 530	Systems Architecting
SELP 540	Engineering Ethics

SELP 552	Systems Engineering
SELP 594	Project Management
SELP 650	Advanced Systems Engineering
SELP 660	Lean Methods

b. Three Elective courses:

For MS in Systems Engineering:

SELP 671 Spacecraft Design, SELP 673 New Product Design and Development,* or SELP 675 Introduction to Modeling and Analysis (one of three)

SELP 685 Systems Engineering Case Studies*

SELP 694 Systems Engineering Seminar

For MS in Systems Engineering with Technical Focus in X:

Three graduate courses selected by the student from another graduate science, engineering or computer science program offered by the Frank R. Seaver College of Science and Engineering at LMU, subject to approval of both the Director of Systems Engineering and the Director of the selected program. The courses must be at the 500 or 600 level, and at least one of the three courses must be at the 600 level.

c. SELP 695 Integrative Project/Thesis*

With the approval of the SELP Program Director, other SELP courses may be submitted for the courses listed above.

Course requirements for the **Certificate in Systems Engineering:**

SELP 500 Quality

SELP 552 Systems Engineering

SELP 594 Project Management

With the approval of the SELP Program Director, other SELP courses may be substituted for one of the three above to meet the Certificate requirements.

Systems Engineering Leadership (SELP)

Program Requirements

The SELP students will be expected to meet the course requirements in both the Systems Engineering and the MBA programs. SELP students will be expected to adhere to the policies and procedures established for all students in the MBA program. The System Engineering portion of the requirements (11 courses) is exactly the same as those listed above under "Systems Engineering Program Requirements". The MBA requirements include 12 courses listed below. Additional information about the MBA program, including procedures for waiving core MBA courses, may be found in the MBA section of this Bulletin. Students who receive a grade of less than "B" in any 500-level course or a grade of less than "C" in any 600-level course will not have the course count toward their degree. The overall minimum GPA required for graduation is 3.0.

MBA Courses

Core MBA Courses

MBAA 601	Legal and Ethical Environment of Business
MBAA 602	Financial & Managerial Accounting
MBAA 603	Business Statistics
MBAA 604	Business Economics
MBAA 605	Management and Organizational Behavior
MBAA 607	Operations Analysis & Decision Support Systems
MBAA 606	Marketing Management
MBAA 608	Financial Management
MBAA 609	Management Information Systems

Advanced MBA Courses

MBAI 610	Management Strategy
MBAB 615	Program Management*
MBAG 64X	International Elective, selected from MBAF 648; MBAG 640, 641, 642, 649

*Course counting toward both the M.S. in Systems Engineering and MBA

SCHOOL OF EDUCATION

Administration

Introduction

The School of Education offers graduate programs in the following areas of study: Administration, Bilingual Education, Catholic Inclusive Education, Catholic School Administration, Reading Instruction, Educational Studies, School Psychology, Elementary and Secondary Education, School Counseling, and Special Education. The School of Education also offers a doctorate in Leadership for Social Justice.

The high quality of the education program is confirmed through its accreditation by the California Commission on Teacher Credentialing, the National Association of School Psychologists, the National Council for Accreditation of Teacher Education, and Western Association of Schools and Colleges.

Mission of the School of Education

In accordance with the Mission of Loyola Marymount University, the faculty, staff, and students of the School of Education understand and declare our purpose to be the encouragement of life-long learning and academic excellence, the education of the whole person, and the promotion of service and justice for all. We commit ourselves to serving public and private education by fostering excellence inspired by the Jesuit and Marymount traditions of Catholic education.

Goals of the School of Education

The faculty, staff, and students of the School of Education strive to work collaboratively in a student-centered environment to be professionals who act to:

Value and respect all individuals

We believe in the worth of each individual. We affirm the inherent dignity and value of each person as a child of God. Therefore, we believe that all individuals have the potential to be successful learners with unique characteristics and experiences that bring positive value and meaning to the learning experience.

- *Promote social justice*

We recognize the existence of social inequity, marginalization, and the different faces of oppression, and we commit ourselves to work actively for the establishment of a just and equitable society. While it is important to understand critically the structures, practices, and discourses that cause and perpetuate injustice, we also aim to nurture transformative structures, practices, and discourses that actively promote greater equity. This commitment challenges us to think with a global perspective, to embrace the notion of a preferential option for the poor, and to act with a conviction of equity.

- *Promote cultural responsiveness*

We recognize diversity as a strength, and we commit ourselves personally and professionally to serve culturally and linguistically diverse populations. These populations include those who represent cultural diversity broadly defined, including race, ethnicity, socio-economic status, gender, religion, sexual orientation, ability, and age. Among other valuable theories and approaches, we utilize sociocultural and constructivist perspectives in teaching and learning. We value these and other perspectives that promote active participation in learning as well as meaningful and authentic instruction and assessment and emphasize students' cultural and linguistic background experiences.

- *Integrate theory and practice*

We strive to unite theory and practice in a reciprocal relationship that mutually informs each other. We are a community of reflective practitioners, guided by critical inquiry and social responsibility. We actively engage in educational research, including faculty/student collaboration. We affirm the use of technology in education as authentic, meaningful, and accessible to all learners.

- *Develop moral, intellectual, responsible, and caring leaders*

We are committed to the preparation of educators who will be leaders in the field and who reflect high standards of ethics and values. We seek to be, and to encourage others to be, women and men who have the intellectual skills to critically evaluate educational issues, have the moral conviction to respond as agents of change, and exhibit an ethic of care in the service of others.

- *Collaborate and share leadership across communities*

We believe in the value of working collaboratively with the districts, schools, parents, and students of the communities we serve to successfully educate all learners. We recognize, support, and promote the gifts and talents of community members and encourage their participation in decision-making processes.

Candidate Outcomes and Proficiencies

Unit Outcome 1: Respect and value all individuals and communities

Proficiencies for Teacher Candidates

The candidate knows, values, and integrates the diversity of students and their communities

The candidate promotes a culture of high expectations for all

The candidate engages learners using inclusive teaching strategies and practices

The candidate uses multiple resources to better understand and serve learners and their communities

Proficiencies for Other Professional School Personnel

The candidate knows, values, and integrates the diversity of students and their communities

The candidate promotes a culture of high expectations for all

The candidate engages learners using inclusive professional strategies and practices

The candidate uses multiple resources to better understand and serve learners and their communities

Unit Outcome 2: Educate by integrating theory and practice

Proficiencies for Teacher Candidates

The candidate demonstrates knowledge of historical, philosophical, socio-political, economic, and legal influences on education

The candidate uses a critical lens to evaluate and deliver subject matter

The candidate reflects on personal experience of self and others to inform educational practice

The candidate knows and models exemplary professional practices

The candidate utilizes multiple research methodologies

The candidate integrates content and pedagogical knowledge, academic skills, and technology in professional practice

Proficiencies for Other Professional School Personnel

The candidate demonstrates knowledge of historical, philosophical, socio-political, economic, and legal influences on education

The candidate uses a critical lens to evaluate and support the delivery of content knowledge

The candidate reflects on personal experience of self and others to inform professional practice

The candidate knows and models exemplary professional practices
 The candidate utilizes multiple research methodologies
 The candidate integrates theory, skills, and technology in professional practice

Unit Outcome 3: Advocate for access to a socially just education

Proficiencies for Teacher Candidates School Personnel

The candidate demonstrates effective communication and collaboration
 The candidate promotes academic excellence
 The candidate uses pedagogical skills to implement principles of equity and empowerment
 The candidate understands and responds to issues related to the preferential option for the poor and marginalized groups
 The candidate advocates for and critically uses technology
 The candidate demonstrates a commitment to ongoing professional development including participation in professional organizations

Proficiencies for Other Professional

The candidate demonstrates effective communication and collaboration
 The candidate promotes academic excellence
 The candidate uses pedagogical skills to implement principles of equity and empowerment
 The candidate understands and actively responds to issues related to the preferential option for the poor and marginalized groups
 The candidate advocates for and critically uses technology
 The candidate demonstrates a commitment to ongoing professional development including participation in professional organizations

Unit Outcome 4: Lead in order to facilitate transformation

Proficiencies for Teacher Candidates

The candidate practices effective, ethical, and moral leadership
 The candidate shares and collaboratively constructs an inclusive vision with learning communities
 The candidate seeks, reflects upon, and responds to constructive feedback
 The candidate understands the factors and utilizes the processes that lead to systemic change
 The candidate understands and promotes equitable and effective assessment and evaluation systems

Proficiencies for Other Professional School Personnel

The candidate practices effective, ethical, and moral leadership
 The candidate shares and collaboratively constructs an inclusive vision with learning communities
 The candidate seeks, reflects upon, and responds to constructive feedback
 The candidate understands the factors and utilizes the processes that lead to systemic change
 The candidate understands and promotes equitable and effective assessment and evaluation systems

School of Education Academic Regulations

Graduate Admissions Policies

Applicants for graduate programs are encouraged to contact SOE Admissions for advice and assistance in meeting the admission requirements.

Categories of Admission

Categories of admission for the Credential, Master of Arts degrees, Education Specialist degree, and Doctoral degree programs are as follows:

Formal Admission: Formally admitted students are those who have completed the entire application process and have been accepted by a particular program with no conditions or provisions.

Provisional Admission: Provisionally admitted students are those who are missing one or more items for formal admission.

Controlled Admission: Students who are admitted on Controlled Admission are either missing their official transcripts with degrees posted or who were accepted through the exceptions process. Students on Controlled Admission are admitted under academic probation. Students admitted on Controlled Admission are required to:

- Submit two sets of official transcripts with bachelor's and/or Master of Arts degree posted
- Receive at least a "B" (3.0) or better in each of their first two courses (6 units)
- Remain in good standing in the academic program
- enroll in a maximum of two courses for a maximum of one semester.
- To continue in the program, students must advance to provisional or formal admission status by the end of the first semester or by completion of their first six semester hours.

Non-Degree Status: Students admitted as non-degree students are not guaranteed admission to the School of Education.

Exception Policy

Applicants who have been denied admissions based on GPA may appeal through the exceptions process upon recommendation of the program director or admissions coordinator. A student with a GPA below 2.8 and above 2.5 may submit a written petition for admission. Candidates accepted through exceptions process will be admitted on controlled admission status as described above.

Graduate Transfer Credit

School of Education graduate students must submit transfer credit requests at the time of admission in order to receive credit toward a degree for graduate-level work taken at other regionally accredited colleges and universities. The request must be in writing and accompanied with a course syllabus and Bulletin description for each course they wish to transfer. All transferred course credit requested must have received a grade of at least 3.0 (B). Courses used to satisfy a degree requirement at another college or university cannot be used for transfer credit with the exception of core or prerequisite requirements. Students may request a transfer for up to 6 semester (9 quarter) hours of graduate units. Transfer coursework may not be more than five years old. Transfer credit requests received after admission will not be considered. The Office of the Registrar grants final approval of transfer credit.

Adding a Second LMU Master of Arts Degree

A student who has earned a Master of Arts degree from the School of Education may apply up to three applicable core courses from that degree toward a second Master of Arts degree with the approval of the program director. The student must successfully complete all other requirements for the second degree.

Advising

Orientation

New students are strongly encouraged to attend Student Orientation.

Academic Advising

Upon admission to the School of Education, students are assigned an academic advisor. The advisor will assist students with course sequencing, enrollment, and monitor their progress toward program completion. Students are advised to schedule a meeting with their academic advisor as soon as possible after admission and consult with their academic advisor regularly on program requirements and registration.

Professional Advising

Faculty are available to meet with students to discuss professional, career, academic, and educational issues. Students are encouraged to see their program director for professional advisement.

Technology

The School of Education emphasizes and supports the use of technology throughout its programs. To aid in the integration of technology, the School of Education maintains a computer lab as well as two computer eClassrooms in University Hall. The lab is available for use by School of

Education students and faculty only. Hours are posted at the lab and at the School of Education website (<http://soe.lmu.edu>). The eClassrooms are intended for whole class instruction and are available for reservation by faculty. There are several general use student computer labs in various locations on campus.

Basic Technology Skills

All SOE applicants must verify that they are capable of basic technology skills necessary for success in the School of Education.

E-mail Accounts

The School of Education will utilize students' LMU e-mail accounts to contact students. Students must check this account regularly or forward it to a preferred account. Students should contact the Student Help Desk for information on e-mail and network access accounts.

ePortfolio/LiveText

LiveText is web-based software used by students to complete fieldwork and course assignments. All undergraduate, Masters, Education Specialist, credential, and certificate students enrolled in the School of Education are required to purchase and utilize LiveText. An ePortfolio fee is assessed student at the beginning of their first semester of enrollment. The fee covers a three-year subscription for LiveText. Students taking more than three years to complete their programs will be reassessed the ePortfolio fee.

Grading

Credit/No Credit (CR/NC)

A number of courses in the School of Education are offered on a Credit/No Credit basis. Credit indicates a graduate student has earned at least a "B" or an undergraduate student has earned at least a "C" in the course. Certain State mandated credential courses must be taken for a grade. Instructors should be consulted for clarification.

Incomplete (I)

A grade of Incomplete "I" may be requested by the student to the instructor in extraordinary circumstances and when a candidate has completed a minimum of 80% of the course work. The instructor may not approve the request. Graduate students with more than two Incompletes will be blocked from registration.

In Progress (IP)

In Progress grades are given in fieldwork classes when the academic calendars of the PK-12 school and the university do not align. The In Progress grade indicates that the fieldwork is in progress at the time grades were submitted. An IP grade will be replaced by a grade of CR or NC.

Support for Candidates' Development of Academic and Professional Standards

The School of Education is committed to the development of the qualified educators to work in public, private, and Catholic schools. This commitment is made to the candidates, to the students with whom they will work, and to the general public we serve. The faculty strives to enhance each candidate's ability to work effectively with students and families, and to be highly sought by schools and school districts. During the candidate's course of study in the School of Education, the faculty will provide feedback and support to candidates in both their academic and professional development.

Academic Development

When a candidate is not able to meet the minimum academic expectations in a course, the instructor will conduct one-on-one meeting(s) with the candidate to develop a remediation plan. This plan may include, but is not limited to: referral to the program director; tutorials provided by the faculty; support from peers; or a referral to the University's Learning Resource Center. If the candidate is not able to attain the minimum course grade needed for graduation, he/she may retake the course to attain a higher grade with approval from the program director.

All candidates are required to maintain a minimum semester and cumulative GPA of 3.0 during their course of study. Candidates will be placed

on academic probation if they fail to meet the minimum GPA. The candidate will be required to meet with the program director who will monitor the candidate's progress. Students on academic probation must receive a "B" or better the following semester or be subject to disqualification from the University.

Professional (Non Academic) Development

The School of Education, the California Commission on Teacher Credentialing and National Council for the Accreditation of Teacher Education have determined that non-academic qualities are necessary for educators to be successful. Non-academic factors include behaviors, dispositions, and attitudes that educators must positively develop and demonstrate. If a candidate fails to meet appropriate professional expectations in class or in field placements, the School of Education will assist with the student's professional development.

Assist with professional development will take the following steps:

- The instructor will consult with the student and complete a Concerns Form.
- The instructor and program director will work with the student to develop a remediation plan. Assistance may include: specific tutorials provided by any member of the faculty; a referral to LMU Student Psychological Services; or other referrals.
- The instructor, program director, and student will meet with the associate dean if necessary.
- The program director will monitor the student's progress in accordance with the developed remediation plan.

Students who cannot uphold academic or non-academic standards may be disqualified from their program. Students who are disqualified from one program in the School of Education are not eligible for any other program in the School.

Comprehensive Assessment

All students completing a Master of Arts degree must successfully pass a Comprehensive Examination, a Culminating Experience, or successfully complete a thesis in their subject area.

Statement of Professional Disposition

The National Council for Accreditation of Teacher Education (NCATE) requires the LMU School of Education to assess the professional dispositions of education credential and degree candidates. According to NCATE, professional dispositions are "The values, commitments, and professional ethics that influence behavior toward students, families, colleagues, and communities and affect student learning, motivation, and development as the educator's own professional growth. Dispositions are guided by beliefs and attitudes related to values such as caring, fairness, honesty, responsibility, and social justice." Throughout a candidate's program, the faculty will assess the School of Education Unit and Program Professional Dispositions, and failure to meet professional expectations may result in a remediation process for the candidate. In extreme cases, failure to meet professional expectations could warrant dismissal from an education program. The School of Education holds four Unit Dispositions that shape the professional expectations for all candidates: "We strive to be, and to educate professionals to be, educators who: **Respect** and value all individuals and communities; **Educate** by integrating theory and practice; **Advocate** for access to a socially just education; and **Lead** in order to facilitate transformation."

Comprehensive Examination

Students are required to enroll in and receive credit for 6995, Comprehensive Examination, to complete the Master of Arts degree. There is a fee charged for this zero semester hour course.

The comprehensive examination is not just a quantitative or cumulative extension of the examination content of all required courses. Rather, it examines a candidate's ability to apply acquired knowledge and experiences to a set of practical problems within the candidate's field of specialization. The comprehensive examination can be written and/or oral. The various Master of Arts degrees have specific requirements as to what type of comprehensive examination is required. Students should consult their program director as to the type of comprehensive examination required.

Thesis

Select programs within the School of Education offer a thesis option in place of the comprehensive examination. The course requirement sec-

tion of each program will indicate whether this option available. Students in those programs who are interested in this option must meet the thesis guidelines as specified by their program director. In addition to meeting the thesis criteria and guidelines, students in the thesis option must complete EDLA 6950, Advanced Research Methods; EDLA 6951, Advanced Research Design; and EDCE 6955, Master of Arts Thesis I. Continuing course enrollment in EDCE 6956 and EDCE 6957, Master of Arts Thesis II and III may also be required.

Graduation

A commencement ceremony is held at the end of the Spring term for those candidates who wish to participate. Please consult the Registrar's website for more detailed information.

Application for Degree

Degrees are awarded at the end of the Spring, Fall, and Summer terms. Candidates must submit a formal application for degree to the Office of the Registrar. The deadlines to apply for degree are listed in the University calendar. The degree will not be posted to the candidate's transcript if an application for degree is not submitted. See the Registrar's website for more detailed information.

Requirements for Graduation

1. All requirements for the degree must be met prior to the degree date.
2. The date of the degree posted on the student's transcript and diploma is the one by which all graduation requirements, including the application for degree, have been completed.

Failure to comply with these regulations will preclude the granting of a degree. Those who have applied for a degree and do not complete the requirements before the projected date of completion for which they applied are required to reapply in a later semester.

School of Education Academic Awards

The School of Education will name an Outstanding Student for each graduate and undergraduate program, with the exception of the Doctoral program. The recipient must be a student graduating in the current academic year. The candidates for these awards are nominated and voted upon by faculty in recognition of the graduate's academic, personal, and professional qualities that best exemplify the mission and goals of the School of Education.

Credential Application Process

The California Commission on Teacher Credentialing issues credentials upon the recommendation of the School of Education.

A credential application must be submitted to the School of Education Credential Office at the completion of the candidate's credential program requirements. Final transcripts that reflect completion of program requirements must be requested from the Office of the Registrar and submitted to the Credential Office. See the School of Education credential section of the website at <http://soe.lmu.edu> for detailed information on the credential application process.

Student Records and Materials

All materials submitted to the School of Education are property of the School of Education and will not be returned to the student. Students are advised to make copies of all materials submitted for their records.

Statement of Professional Dispositions

The National Council for Accreditation of Teacher Education (NCATE) requires the LMU School of Education to assess the professional dispositions of education credential and degree candidates. According to NCATE, professional dispositions are "The values, commitments, and professional ethics that influence behavior toward students, families, colleagues, and communities and affect student learning, motivation, and development as the educator's own professional growth. Dispositions are guided by beliefs and attitudes related to values such as caring, fairness, honesty, responsibility, and social justice." Throughout a candidate's program, the faculty will assess the School of Education Unit and Program Professional Dispositions, and failure to meet professional expectations may result in a remediation process for the candidate. In extreme cases, failure to meet professional expectations could warrant dismissal from an education program. The School of Education holds four Unit Dispositions that shape the professional expectations for all

candidates: "We strive to be, and to educate professionals to be, educators who: **Respect** and value all individuals and communities; **Educate** by integrating theory and practice; **Advocate** for access to a socially just education; and **Lead** in order to facilitate transformation."

Introduction

The Department of Educational Leadership in the School of Education offers programs in Leadership and School Administration. Students may choose from credential and certificate programs, Master of Arts programs, and a doctorate in Educational Leadership for Social Justice.

Institute of School Leadership and Administration (ISLA)

Academic Program Director: Franca Dell'Olio

The Institute of School Leadership and Administration (ISLA) offers degrees, credentials, and certificates specializing in empowering moral, ethical leaders who respect differences, value reflective practice, understand change facilitation, build learning communities, and work effectively in diverse settings.

The Institute of School Leadership and Administration (ISLA) offers the following degree, credentials, and specialized certificates in three focused Academies; Public School Leadership Academy, Charter School Leadership Academy, and Catholic School Leadership Academy:

- Master of Arts in Administration
- Master of Arts in Catholic School Administration
- Preliminary Administrative Services Credential / Tier I
- Administrative Services Internship / Tier I
- Professional Administrative Services Credential / Tier II
- Certificate in Catholic School Leadership
- Certificate in Charter School Leadership

NOTE: The State of California requires a minimum of three years of successful service with a base credential prior to applying for the Preliminary Administrative Services credential.

Cohort model is followed in all degree, credential, and certificate areas in all Academies. A grade of B- or higher is required for each course.

The Preliminary Administrative Services Credential

Academic Program Director: Franca Dell'Olio

Learning Outcomes

Candidate will acquire the skills, knowledge, and dispositions to serve as an Educational Leader in California. Candidates will participate in resi-

dency/fieldwork experiences designed to facilitate the application of theoretical concepts in practical setting. There will be a strong emphasis on cultural and linguistic diversity, special education, the successful development of English Language Learners, and the parent-school relationship.

The California Administrative Services Credential is divided into two tiers: a Preliminary Administrative Services Credential (Tier I) and a Professional Administrative Services Credential (Tier II) Program. Both Administrative credential programs are approved by the California Commission on Teacher Credentialing. The Preliminary Administrative Services Credential Program consists of the completion of 19 semester hours including residency field experience, focused on the preparation of candidates for positions in administration in public, private, and charter schools.

The program of study will provide the candidate a purposeful, integrated preparation program for general and special education. It will address the individual needs of ALL children, with a strong emphasis on cultural and linguistic diversity, and the successful development of English Language Learners. Coursework and curriculum for the Leadership Certificate in Special Education is embedded within the Preliminary Administrative Services Credential program. Candidates must successfully participate in culminating presentations as evidence of knowledge and growth. An Administrative Services Internship (Tier I) is also available in collaboration with local districts.

Admission Requirements

The following are required for consideration of acceptance into the Preliminary Administrative Services Credential (Tier I) Program:

1. The Graduate Division application, along with two official copies of transcripts from all colleges/universities attended
2. Writing prompt (see website for content) and Résumé
3. Two completed reference forms from education administrators/personnel (forms available from Admissions Coordinator or on website)
4. Original teaching and/or service credential(s) submitted to the School of Education for verification
5. A minimum of one year verified successful completion of work in schools in a base credential area
 - A completed "Verification of Experience" form (available in the School of Education) which documents three years of experience working in the schools is required for completion of the Administrative Services Credential
6. Verification of CBEST passage
7. Completed Technology Requirements form
8. Interview with the Program Director
9. Cumulative undergraduate GPA of 2.8; or a 2.85 GPA in the last 60 semester hours of coursework taken; or a 3.0 GPA in at least 9 semester hours of graduate level coursework is required

Admission Process: When a candidate file is complete, all admission materials will be reviewed by the Institute of School Leadership and Administration (ISLA) panel for either recommendation for admission, or referral to the Department of Educational Leadership, or Exceptions Committee for admission consideration/recommendation. An appointment with the Academic Program Director is required prior to scheduling courses.

Course Requirements

EDLA 6420	Invitation to Lead and Preparation for Residency/Fieldwork (1 semester hour)
EDLA 6421	Vision of Learning and Residency/Fieldwork Component (4 semester hours)
EDLA 6422	Responding to Diversity and Residency/Fieldwork Component
EDLA 6423	Student Learning and Professional Growth and Residency/Fieldwork Component (4 semester hours)
EDLA 6424	Organizational Management and Residency/Fieldwork Component
EDLA 6425	Transforming Organizations and Residency/Fieldwork Component (4 semester hours)

Administrative Services Internship Leading to the Preliminary Administrative Services Credential and Master of Arts Degree

Academic Program Director: Franca Dell'Olio

Learning Outcomes

Candidate will acquire the skills, knowledge, and dispositions to serve as an Educational Leader in California. Candidates will participate in residency/fieldwork experiences designed to facilitate the application of theoretical concepts in practical setting. There will be a strong emphasis on cultural and linguistic diversity, special education and the Autism Spectrum Disorder, the successful development of English Language Learners, and the parent-school relationship.

The Institute of School Leadership and Administration (ISLA) is approved by the California Commission on Teacher Credentialing (CCTC) to offer an Internship Program in collaboration with a local school district. This will allow interns to enroll in courses while they serve as administrators under the supervision of professionals from the school district and the University. Each intern earns a salary from the employing school district.

Admission Requirements

The admission requirements for the Internship Program are the same as the requirements for the Preliminary Administrative Services Credential with the addition of items 10 and 11:

1. The Graduate Division application, along with two official copies of transcripts from all colleges/universities attended
2. Writing prompt (see website for content) and Résumé
3. Two completed reference forms from education administrators/personnel (forms available from Admissions Coordinator or on website)
4. Original teaching and/or service credential(s) submitted to the School of Education for verification
5. A minimum of one year verified successful completion of work in schools in a base credential area
 - A completed "Verification of Experience" form (available in the School of Education) which documents three years of experience working in the schools is required for completion of the Administrative Services Credential
6. Verification of CBEST passage
7. Completed Technology Requirements form
8. Interview with the Program Director
9. Cumulative undergraduate GPA of 2.8; or a 2.85 GPA in the last 60 semester hours of coursework taken; or a 3.0 GPA in at least 9 semester hours of graduate level coursework is required
10. Approval from district for placement, including a signed Memorandum of Understanding
11. District supervisor information

Course Requirements

EDLA 6420	Invitation to Lead and Preparation for Residency/Fieldwork (1 semester hour)
EDLA 6421	Vision of Learning and Residency/Fieldwork Component (4 semester hours)
EDLA 6422	Responding to Diversity and Residency/Fieldwork Component
EDLA 6423	Student Learning and Professional Growth and Residency/Fieldwork Component (4 semester hours)
EDLA 6424	Organizational Management and Residency/Fieldwork Component
EDLA 6425	Transforming Organizations and Residency/Fieldwork Component (4 semester hours)

Professional Administrative Services Credential Program

Academic Program Director: Franca Dell'Olio

Learning Outcomes

Current Educational Leaders serving as Administrators in California will complete a cycle of inquiry reflecting on their knowledge, skills, and dispositions, and creating a professional development plan for future growth.

The Professional Administrative Services Credential (Tier II) program is designed for students who hold the Preliminary Administrative Services Credential and have secured a position in administration.

The credential option program consists of one course for a total of three semester hours. The course will be primarily taught on-line with three Saturday class meetings required.

All candidates for the Professional Administrative Services Credential must verify completion of a minimum of two years of successful administrative experience in a full-time position in a public or private school of equivalent status while holding the Preliminary Administrative Services Credential prior to obtaining University recommendation for the Professional Administrative Services Credential.

Admission Requirements

1. The Graduate Division application, along with two official copies of transcripts from all colleges/universities attended
2. Writing prompt and a current résumé (refer to website for content for letter)
3. Original Preliminary Administrative Services credential (Tier I) submitted to the School of Education for verification
4. Verification of CBEST passage
5. Verification of employment in an administrative position in a public school or private school of equivalent status. An appropriate form "Verification of Employment as an Administrator" is available in the School of Education.
6. Two completed reference forms from the employing school system (an appropriate reference form is available in the School of Education)
7. Completed Technology Requirements form
8. Secure a mentor administrator in the field and gain approval from the Academic Program Director
9. Interview with the Academic Program Director
10. Verification of computing skills form (self-verification)

Admission Process: When a candidate file is complete, all admission materials will be reviewed by the Institute of School Leadership and Administration (ISLA) panel for either recommendation for admission or referral to the Exceptions Committee for admission consideration/recommendation.

Professional Administrative Services Credential Option

Candidates will be required to complete the course listed below.

Candidates are required to secure a mentor in the local school district.

EDLA 6415	Professional Administrative Induction and Assessment Seminar (3 sem. hrs.)
-----------	--

School Administration and Leadership Certificate Program

Academic Program Director: Franca Dell'Olio

Learning Outcomes

Candidate will acquire the skills, knowledge, and dispositions to serve as an Educational Leader in California. There will be a strong emphasis on cultural and linguistic diversity, special education, the successful development of English Language Learners, and the parent-school relationship.

The Certificate in School Administration and Leadership are designed to recognize those candidates who have completed a 3 course sequence in the designated area of emphasis. Candidates will be prepared to develop and implement programs which will render additional, focused support to students, staff, parents, and school communities.

- Certificate in Charter School Leadership

Course Requirements

Candidates must apply for the certificate program on the graduate application and at the time of program completion.

Certificate in Charter School Leadership

Students may apply for this Certificate after completing the following:

1. Admission requirements listed under Master of Arts in Administration
2. Successful completion of:

EDLA 6423	Student Learning and Professional Growth
EDLA 6424	Organizational Management
EDLA 6429	Specializing in Charter Schools

Master of Arts in Catholic School Administration

Learning Outcomes

Candidate will acquire the skills, knowledge, and dispositions to serve as an Educational Leader in Catholic schools. Candidates will participate in residency/fieldwork experiences designed to facilitate the application of theoretical concepts in practical setting. There will be a strong emphasis on cultural and linguistic diversity, special education, the successful development of English Language Learners, and the parent-school relationship in six of the courses (EDLA 6420, 6421, 6422, 6423, 6424, 6425).

Admission Requirements

1. The Graduate Division application, along with two official copies of transcripts from all colleges/universities attended
2. Writing prompt (see website for content) and Résumé
3. Two completed reference forms (available from the School of Education, Admissions Coordinator or website)
4. Completed Technology Requirements form
5. Completed Catholic Schools Agreement
6. Interview with the Program Director
7. Cumulative undergraduate GPA of 2.8; or a 2.85 GPA in the last 60 semester hours of undergraduate coursework taken; or a 3.0 GPA in at least 9 semester hours of graduate level coursework is required
8. A minimum of one year verified service as a teacher. A completed "Verification of Experience" form, verifying three years of successful full-time experience working in the schools, is required for the Administrative Services Credential.

Additional Requirements for Preliminary Administrative Services Credential

9. Original teaching and/or service credential(s) submitted to the School of Education for verification
10. Verification of CBEST passage

Course Requirements

EDLC 6100	Anthropological Analysis of Cultural Diversity
EDLA 6105	Assessment and Research Methods
EDLA 6420	Invitation to Lead and Preparation for Residency/Fieldwork (1 semester hour)
EDLA 6421	Vision of Learning and Residency/Fieldwork Component (4 semester hours)
EDLA 6422	Responding to Diversity and Residency/Fieldwork Component
EDLA 6423	Student Learning and Professional Growth and Residency/Fieldwork Component (4 semester hours)
EDLA 6424	Organizational Management and Residency/Fieldwork Component
EDLA 6425	Transforming Organizations and Residency/Fieldwork Component (4 semester hours)
EDLA 6430	Mission-Focused Leadership in Catholic Education (3 semester hours)
EDLA 6431	Organizational Leadership in Catholic Education (3 semester hours)
EDLA 6432	Instructional Leadership in Catholic Education (3 semester hours)

Comprehensive Assessment

Doctorate in Education

Ed.D. in Educational Leadership for Social Justice

Director: Shane Martin

Assistant Director: Jill Bickett

The Ed.D. in Educational Leadership for Social Justice is a three year cohort program which prepares leaders for public, Charter, Catholic, and private education. The program will prepare leaders to assume positions of responsibility, transform educational settings, serve as agents of social change, and raise academic achievement levels for all. The focus of the program will be on the promotion of leadership for equity, the study of educational reform, and research in diverse contexts for the purpose of integrating academic excellence with social responsibility. The program has an integrated research core which allows candidates to pursue topics in:

- P-12 Public Education
- P-12 Catholic/Private/Charter Education

Candidates who meet the Professional Administrative Services admission requirements and are enrolled in the doctoral program may earn the Professional Administrative Services Credential by completing the required coursework. This does not apply to the Preliminary Administrative Services Credential. **Deadline to apply is January 25.**

* Candidates who have taken doctoral level coursework at another accredited university may request a transcript audit and admission to an individualized course of study leading to the Ed.D. in Educational Leadership for Social Justice. Candidates must meet the admission requirements. If accepted, candidates must complete the required tutorials, research seminars, and culminating experience.

Learning Outcomes

The goal of the Doctoral Program is to educate and prepare moral, ethical, and competent leaders to take key positions and help transform educational settings to better serve the needs of all students and their families.

This goal is achieved through the following objectives:

- i. To prepare leaders to critically engage complex issues impacting education and student achievement and to demonstrate commitment to social justice.
- ii. To offer a rigorous course of study that connects theory, practice, and advocacy in leadership, equity, and diversity.
- iii. To prepare candidates who are knowledgeable in advanced research methodologies and able to design, implement, and evaluate educational policies, programs, and practices.
- iv. To help meet existing and projected needs for moral ethical leaders throughout the pre K-12 public, charter and private education system.

Admission Requirements

The following are required for consideration of acceptance into the Ed.D. in Educational Leadership for Social Justice:

1. Application for Ed.D. program
2. Admission Test: GRE with minimum score of 1100 (combined verbal and math scores) and writing score of 4.5
3. A two- to three-page Statement of Purpose following the format described in application materials
4. Earned master's degree from an accredited institution verified by official transcripts (2 copies)
5. GPA of 3.75 (4.0 scale) in master's coursework
6. 20 graduate-level semester units in a related field, which includes verified content in research methods and diversity
7. Current résumé
8. Three recommendation forms (at least one from a current employer and one from a professor in a completed master's level program)
9. Interview with Doctoral Admissions Committee
10. Minimum of 2 years full-time experience in public, Catholic, or private schools or other education setting

Course Requirements

Candidates must complete all of the following courses:

EDLA 7000	Sociopolitical Context of Education: Policy and Reform
EDLA 7001	Leadership for Social Justice in Education
EDLA 7002	Moral and Ethical Leadership
EDLA 7004	Organizational Theory and Change
EDLA 7020	Situated Inquiry in Education
EDLA 7021	Quantitative Research in Education

EDLA 7022	Qualitative Research in Education
EDLA 7023	Doctoral Colloquia
EDLA 7042	Management of Fiscal/Human Capital
EDLA 7043	Legal and Policy Issues in Education
EDLA 7045	Transformative Leadership for Student Achievement
EDLA 7049	Research Seminar
EDLA 7940	Preliminary Review Design

Candidates select one of the following content specific courses:

EDLA 7040	Contextualizing Leadership in Public Education
	or
EDLA 7060	Contextualizing Leadership in Private Education

Dissertation

Candidates complete at least 8 semester hours of dissertation coursework, including:

EDLA 7950	Dissertation Proposal Design
EDLA 7951	Dissertation Seminar I
EDLA 7952	Dissertation Seminar II
EDLA 7953	Doctoral Dissertation I
*EDLA 7954	Doctoral Dissertation II

*EDLA 7954 is only required if a candidate does not successfully defend his/her dissertation by the end of Spring semester of his/her third year.

Introduction

The Master of Arts in Counseling (48 credits) program is designed to prepare aspiring counselors for K-12 public, private, and parochial schools; community mental health settings; and/or college and university settings. As part of the Master of Arts degree in Counseling, students may select one or more counseling specializations:

College and University Counseling: For students who desire to work in a community college, four-year college, or university settings. Students will gain experiences offering mental health counseling to clients in a higher education setting presenting with a variety of clinical issues. Additional experiences will include group counseling, assessment, and outreach to the college community.

Community Mental Health Counseling: For students who desire to work in a community mental health settings or outpatient hospital settings. Students will gain experiences offering mental health counseling to clients from a variety of age groups and presenting with a variety of clinical issues. Additional experiences may include group counseling, assessment, and family counseling.

Doctoral Preparatory Counseling: For students who are interested in obtaining a master's degree that will prepare them for a doctoral program. Students will gain experiences (e.g., doctoral application strategies, applied counseling and psychotherapy research, etc.) aimed to facilitate their acceptance to a doctoral program in professional psychology.

Multicultural and Social Justice Counseling: For students who are interested in gaining experiences in counseling settings that offer traditional (e.g., individual mental health counseling) and nontraditional counseling services (e.g., homeless shelter, domestic violence shelter, group home).

Lecturers: Laurie Beyer, Monica Boomgard, Carolyn Brooks, Susan Cabezas, Christine Cain, Maura Ann Captain, Grace Carpenter, Marolyn Freedman, Christopher Haddy, Esther Hugo, Amber Klein, Diana Limón, Richard Lieberman, Marianne Mitchell, Brian Ormsby, Lori Pawinski, Phillip Pannell, Mary Ring, Jan Tibbetts-Van Horn

Educational Support Services Graduate Program

Introduction

The Department of Educational Support Services of the School of Education offers programs in School Counseling, School Psychology, and Special Education. Students may choose from credential certificate and Master of Arts programs.

Learning Outcomes

In the Department of Educational Support Services, candidates are prepared to:

1. Respect and value the diversity of individuals, families, and communities;
2. Promote Educational opportunities to ensure student success;
3. As agents of change, Advocate for universal access to a socially just education; and,
4. Lead and work collaboratively in order to facilitate transformation.

In addition, students in this specialization track are more likely to aspire to work for a nonprofit agency.

School Counseling: For students who desire to work in a K-12 school setting. Students will gain experiences that include individual counseling, group and educational counseling, career and college counseling, teacher consultation, and prevention programming. The completion of this specialization will also result in eligibility to receive a Pupil Personnel Services Credential for the State of California. This program is approved by the State of California Commission on Teacher Credentialing and the National Council for the Accreditation of Teacher Education.

A Master of Arts in Guidance and Counseling (37 semester hours) is offered for students interested in working in higher education settings.

Master of Arts in Counseling and Pupil Personnel Services Credential-School Counseling

A candidate will obtain the Master of Arts in Counseling degree along with the School Counseling Credential through the combined degree/credential program. Candidates who already possess a Master's degree may pursue a PPS credential only.

The program leading to the School Counseling credential is approved by the State of California Commission on Teacher Credentialing and the National Council for the Accreditation of Teacher Education.

Learning Outcomes

Aligned with the School of Education's Conceptual Framework, Mission Statement, and Goals, and the Department of Educational Support Services candidate goals, the School Counseling Program's goals are to prepare candidates that:

- Respond positively to issues of diversity;
- Educate to help insure the success of all pupils;
- Advocate for all pupils to have access to educational services; and,
- Lead and work collaboratively to help transform programs, practices, and institutions.

Admission Requirements

The items listed below should be submitted directly to the School of Education Office of the Dean, unless otherwise noted:

1. Completion of the Graduate Division application form, submitted directly to the Graduate Admissions Office.
2. Two official copies of transcripts from all colleges/universities attended, sent directly to the Graduate Admissions Office.
3. Cumulative undergraduate GPA of 2.8; or a 2.85 GPA in the last 60 semester hours of undergraduate course work taken or a 3.0 GPA in at least 9 semester hours of graduate level coursework is required. An appeal may be made to the Exceptions Committee.
4. A letter of application (intent) to the Academic Program Director in which the following issues are addressed: (a) why the applicant wants to be a counselor; (b) characteristics the applicant possesses that he or she thinks will make him/her an effective counselor; (c) the applicant's commitment towards preparing himself/herself to be an effective counselor (e.g., devote the required time to an internship; become active in related professional organizations); and (d) a summary of experience with culturally diverse individuals.
5. Two letters of recommendation. Forms may be attained in the School of Education and online.
6. Interview and approval by Academic Program Director.
7. After steps 1-6 above have been completed, the candidate's file will be reviewed for provisional or controlled admission. Under these designations, candidates are able to enroll in their first semester of coursework.
8. Completion of the CBEST no later than the end of the first semester of enrollment and before fieldwork assignment. The CBEST is not required for those students pursuing the Master degree without the credential. Intern candidates must pass CBEST prior to beginning the internship program.
9. Fingerprint Clearance: Completion of fingerprint clearance must occur no later than the end of the first semester of enrollment and before fieldwork assignment. Fingerprint applications are available on the School of Education website.
10. Signed Candidate Disposition Forms from two faculty members in the School of Education with whom the candidate has had courses are required before a candidate is granted Formal Admission.
11. All entering candidates should first enroll in EDSS 6362, Counseling Theories and Techniques. Candidates will be reviewed for formal acceptance upon completion of this course and steps 1-10 above.
12. Basic Computer Skills: All applicants must verify that they have basic computer skills that are necessary for success in the School of Education. Applicants may either verify their skills by signing a self-verification form provided by the School of Education or take EDUX 846, Basic Computer Skills of Educators, during their first year.
13. Prior to beginning fieldwork, candidates must verify 100 clock hours in a "practica" experience (e.g., shadowing a counselor, observing classroom instruction, attending school-based meetings, peer counseling, personal or group counseling experiences). Eighty of these hours are accumulated in the required course work.

Course Requirements

The core courses, consisting of 24 semester hours, are:

EDSS 6101	Education of Culturally/Linguistically Diverse Students with Exceptional Needs
EDSS 6104	Evaluation of Instruction, Learning, and Achievement
EDSS 6365	Assessment and Research Methodology
EDSS 6390	Lifespan Development
EDSS 6362	Counseling Theories and Techniques
EDSS 6391	Foundations of Counseling
EDSS 6368	Career Counseling and Educational Planning
EDSS 6382	Ethical and Legal Issues

The specialization courses for the School Counseling Credential, consisting of 15 additional semester hours, are:

EDSS 6372	Consultation and Collaboration in Schools
EDSS 6376	Crisis Counseling, Prevention, and Intervention
EDSS 6377	Multicultural Counseling
EDSS 6378	Group Counseling

EDSS 6379	Social, Emotional and Behavioral Functioning
-----------	--

The advanced specialization courses for the School Counseling Credential, consisting of 9 additional semester hours, are:

EDSS 6386	Practicum in Culturally Responsive Counseling
EDSS 6970	Fieldwork in School Counseling I
EDSS 6980	Fieldwork in School Counseling II
EDSS 6995	Comprehensive Examination: (0 credit with an associated fee, required for degree candidates)

Master of Arts in Counseling

This program leads to a Master of Arts in Counseling (48 semester hours), awarded without a credential, for those candidates who do not plan to implement their training in the school setting. Intended for those entering community services of related services, it offers more elective coursework. All courses will apply to the PPS Services Credential should the candidate wish to pursue it.

Admission Requirements

The items listed below should be submitted directly to the School of Education Office of the Dean, unless otherwise noted:

1. Completion of the Graduate Division application form, submitted directly to the Graduate Admissions Office.
2. Two official copies of transcripts from all colleges/universities attended, sent directly to the Graduate Admissions Office.
3. Cumulative undergraduate GPA of 2.8; or a 2.85 GPA in the last 60 semester units of undergraduate course work taken or a 3.0 GPA in at least 9 semester hours of graduate level coursework is required. An appeal may be made to the Exceptions Committee.
4. A letter of application (intent) to the Academic Program Director in which the following issues are addressed: a) why the applicant wants to be a counselor; b) characteristics the applicant possesses that he or she thinks will make him/her an effective counselor; c) the applicant's commitment towards preparing himself/herself to be an effective counselor (e.g., devote the required time to an internship, become active in related professional organizations); and d) a summary of experienced with culturally diverse individuals.
5. Two Letters of Recommendation: Forms may be attained in the School of Education and online).
6. Interview and approval by Academic Program Director.
7. After steps 1-6 above have been completed, the candidate's file will be reviewed for provisional or controlled admission. Under these designations, candidates are able to enroll in their first semester of coursework.
8. Fingerprints Clearance: Completion of fingerprint clearance must occur no later than the end of the first semester of enrollment and before fieldwork assignment. Fingerprint applications are available on the School of Education website.
9. Signed candidate disposition forms from two faculty members in the School of Education with whom the candidate has had courses is required before candidate is granted Formal Admission.
10. All entering candidates should first enroll in EDSS 6362, Counseling Theories and Techniques. Candidates will be reviewed for formal acceptance upon completion of this course and steps 1-9 above.
11. Basic Computer Skills: All applicants must verify that they have basic computer skills that are necessary for success in the School of Education. Applicants may either verify their skills by signing a self-verification form provided by the School of Education or take EDUX 846, Basic Computer Skills of Educators, during their first year.

Course Requirements

EDSS 6362	Counseling Theories and Techniques
EDSS 6391	Foundations of Counseling
EDSS 6382	Ethical and Legal Issues
EDSS 6390	Lifespan Development
EDSS 6394	Prevention, Intervention, and Consultation in Pupil Personnel Services
EDSS 6365	Research Methodology and Statistics
EDSS 6393	Assessment, Appraisal and Diagnosis
EDSS 6368	Career Counseling and Educational Planning
EDSS 6377	Multicultural Counseling
EDSS 6379	Social, Emotional and Behavioral Functioning

EDSS 6378	Group Counseling
EDSS 6376	Crisis Counseling, Prevention and Intervention
EDSS 69XX	Fieldwork in Specialization I (EDSS 6970, 6940, 6941, 6942 or 6943)
EDSS 69XX	Fieldwork in Specialization II (EDSS 6980, 6945, 6946, 6947 or 6948)
EDSS 6995	Comprehensive Exam and Professional Portfolio Review (0 semester hours, associated fee)
EDSS 6372	Consultation and Collaboration in Schools OR Elective (e.g., Psychopharmacology)

School Psychology

Academic Program Director: Brian P. Leung

Assistant Program Director: Emily Fisher

E-Mail: bleung@lmu.edu

Introduction

The School Psychology program is designed to prepare graduates to work as school psychologists in elementary and secondary schools. All school psychologists employed by the public schools in California are required to hold the Pupil Personnel Services (PPS) credential in school psychology.

The LMU School Psychology program is a rigorous three year cohort program consisting of 63 semester hours with courses during fall, spring, and summer terms. Candidates will receive an M.A. in Educational Psychology after the successful completion of 54 semester hours (after the second year), and the Ed.S. and P.P.S. credential in School Psychology after the successful completion of 63 semester hours (third year).

Master of Arts in School Psychology, Combined with a PPS Credential—School Psychology

The LMU School Psychology is approved by both California (CTCC) and national (NASP) accrediting agencies. Program content is informed by the School of Education Conceptual Framework, and social justice is a strong emphasis of the program. Almost all courses have service learning assignments in which candidates learn and serve in schools and in the greater community. Field placements in the schools are required during year two (practicum) and year three (internship). Passing the Praxis exam in School Psychology at the program cutoff score (160) is required for graduation, and passing the exam at the national cutoff score (165) will result in candidates becoming Nationally Certified School Psychologists (NCSP). After two years in the schools, program graduates will qualify to sit for the Licensed Educational Psychologist (LEP) exam administered by the California Board of Behavioral Sciences.

An undergraduate major or minor in Psychology, or major in a closely related field is required to apply. Applicants whose undergraduate major is other than psychology may apply but are required to have completed 18 selected undergraduate semester hours (6 courses) in psychology which cover the following topics:

Psychology Prerequisites:

Introduction to Psychology
Learning and Motivational Theories
Developmental Psychology
Statistics or Experimental Psychology

Plus two courses from the following areas:

Social Psychology
Abnormal Psychology
Personality Theory

This program admits as a cohort in the fall semester only. The application deadline for admissions is February 15.

For additional information about the School Psychology program and admission information, please visit the SOE website or contact the School of Education at soeinfo@lmu.edu.

Program Learning Goals and Outcomes

- Goal 1: To provide candidates with a high-quality training program consisting of a meaningful and relevant curriculum and structured field experiences informed by research and practice.
Outcome: Program graduates are school psychologists who practice with a scientist-practitioner mindset in all areas of service to students, teachers, and families.
- Goal 2: To equip our candidates with comprehensive knowledge and skills to enable them to provide a full range of direct and indirect services to support student achievement as highly qualified school psychologists.
Outcome: Program graduates are versatile school psychologists able to provide a comprehensive range of services to schools.
- Goal 3: To develop and train candidates to become highly qualified school psychologists who promote social justice, are responsive to the needs of the diverse populations in schools, and advocate for fair and equitable educational practices.
Outcome: Program graduates are school psychologists who practice with culturally relevant and responsive practice to help close the achievement gap among various diverse student groups.
- Goal 4: To provide our candidates with high expectations and a high level of support, which includes attention to the development of all aspects of candidates to promote academic excellence and lifelong learning.
Program graduates are school psychologists who are lifelong learners and are always mindful of service to others.

Admission Requirements

The items below should be submitted in one complete packet to the Graduate Division, unless otherwise noted:

1. A complete Graduate Division application, submitted online using the University's application system.
2. Two copies of official transcripts from all colleges/universities attended. These should be included in your complete application packet to the Graduate Division.
3. Completion of the Graduate Record Examination (GRE). The requirement is waived for those who already possess a Master's degree from an accredited university.
4. Completed and signed Technology Requirement Form.
5. A Statement of Intent, attached to your online application. The prompts to address are included in the School Psychology application packet.
6. Three letters of recommendation. At least one of these should be from a practicing school psychologist, Director of Psychological Services, Director of Pupil Personnel Services, or licensed psychologist familiar with the role of a School Psychologist.

After the complete application has been received, it will be reviewed by the School Psychology Admissions Committee to determine the applicant pool for the next step—a 1-hour group interview that will take place in late February or early March. Participation in this interview is mandatory for admission. Candidates selected for admission will be notified by no later than the end of March.

After being admitted to the School Psychology program, candidates must fulfill several post-admission requirements.

Formal Admissions Requirements

1. Pass all 3 sections of the CBEST no later than the end of the first semester in the program.
2. Receive CTC Certificate of Clearance by the end of the first semester. Instructions on how to complete this process are included in the School Psychology application packet.

The PPS credential in School Psychology is only available to those concurrently enrolled in the School Psychology M.A. and Ed.S. program, and passing the Comprehensive Examination (ETS Praxis II Series, School of Psychology).

Course Requirements

EDSS 6500	Foundation of Ethical, Professional, and Legal Practice in School Psychology
EDSS 6504	Statistics, Assessments, and Research Methods in Education

EDSS 6506	Seminar in Counseling and Interpersonal Relations
EDSS 6508	Serving Diverse Students with Exceptional Needs
EDSS 6510	Seminar in Instruction and Learning
EDSS 6512	Group Counseling and Intervention with Children and Adolescents
EDSS 6514	Diversity in Community and School Psychology
EDSS 6520	Prevention, Intervention, and Consultation in Pupil Personnel Services
EDSS 6526	Social Responsibility, Violence Prevention and Crisis Intervention in the School
EDSS 6524	School Psychology Practicum I

The advanced specialization courses for the School Psychology Credential are:

EDSS 6513	Advanced Counseling Seminar I
EDSS 6515	Advanced Counseling Seminar II
EDSS 6516	Seminar in Motivation and Achievement
EDSS 6518	Traditional and Alternative Assessment of Cognitive Abilities
EDSS 6522	Diagnosis Assessment and Intervention of Learning Problems
EDSS 6525	School Psychology Practicum II
EDSS 6528	Social, Emotional, and Behavioral Assessment
EDSS 6530	Treatment of Emotional and Behavioral Disorder in Children and Adolescents
EDSS 6532	Seminar in School Systems and Psychological Services
EDSS 6534	Advanced Assessment and Positive Behavioral Intervention
EDSS 6536	Special Issues and Best Practices in School Psychological Services
EDSS 6538	Supervised Internship in School Psychology I
EDSS 6540	Supervised Internship in School Psychology II
EDSS 6995	Comprehensive Exam (0 semester hour, fee associated)

Special Education

Academic Program Director: Victoria L. Graf

E-mail: vgraf@lmu.edu

Assistant Director: Marianne Mitchell

E-mail: mmitchell@lmu.edu

Introduction

The Special Education program prepares candidates from a variety of academic backgrounds to work with culturally and linguistically diverse students with exceptional needs. Candidates may pursue graduate work in the following areas:

- Education Specialist Credential: Mild/Moderate Disabilities (Preliminary). The Education Specialist Credential: Mild/Moderate Disabilities authorizes candidates to teach K-12 students with specific learning disabilities, mild to moderate mental retardation, attention deficit/attention deficit hyperactivity disorder, and serious emotional disturbance
- Mild/Moderate Preliminary Credential in combination with a Master of Arts degree in Special Education with Cross-Cultural Emphasis.
- Master of Arts degree in Special Education with Cross-Cultural Emphasis.
- Certificate in Catholic Inclusive Education
- Master of Arts in Catholic Inclusive Education

Master of Arts in Special Education

The Special Education programs allows students from a variety of academic backgrounds to pursue an Education Specialist Credential: Mild/Moderate Disabilities (Preliminary) and/or a Master of Arts degree in Special Education with cross-cultural emphasis, or a Master of Arts in Catholic Inclusive Education or a Certificate in Catholic Inclusive Education.

Application Deadlines:

Fall Semester: June 15

Spring Semester: November 15

Summer Term: March 15

Students may begin their internship at the beginning of the Fall semester only, but may enter the program as traditional students. All candidates being recommended for the preliminary Education Specialist credential on or after July 1, 2007 will receive the English learner authorization.

For additional Special Education admission information please contact the School of Education Director of Student Recruitment and Outreach at 310.568.6229 or visit <http://lmu.soe.edu>.

Learning Outcomes

Candidate Outcome 1: Professional Disposition

The candidate evidences a positive attitude toward learning, demonstrates intellectual and academic curiosity, and is a reflective practitioner embracing life-long learning. In addition, the candidate exhibits knowledge of ethical standards, professional practices and legislation related to the provision of services to individuals with special needs and their families.

Candidate Outcome 2: Positive Behavior Support

The candidate demonstrates an understanding and acceptance of diversity in learners through the use of evidence based practices to establish and maintain an educational environment that is respectful, and proactive through the use of positive behavior support plans and interventions based on functional analysis assessments.

Candidate Outcome 3: Assessment

The candidate demonstrates knowledge of a variety of non-biased evidence based principles of assessment for the purpose of making ongoing program improvements, informing instruction, and evaluating the needs and achievements of general and special education students.

Candidate Outcome 4: Instruction

The candidate applies principles of equity and an understanding of the diverse characteristics of learners by planning engaging and developmentally appropriate instruction that employs higher order thinking skills and a variety of strategies including the use of technology in order to meet the needs of general education and special education students.

Education Specialist Credential: Mild/Moderate Disabilities Program Elementary or Secondary Emphasis

Admission Requirements

Provisional Admission requirements for Master of Arts in Special Education and/or Credential:

1. Attendance at an Information Session (for credential candidates only): Contact the Admissions Coordinator at 310.338.7845 or soeinfo@lmu.edu to attend an information session. Applicants will receive an information packet that includes: Graduate Application; Candidate Information Sheet; three Recommendation Forms; Technology Self-Verification Form; Fingerprint information; program information
2. Submission of Graduate Application and Application Fee: Applicants may either submit the application to the Graduate Division or complete the online application.
3. Candidate Information Sheet: Applicants must submit the Candidate Information Sheet to the Graduate Division.
4. Statement of Intent: Applicants must write a 3- to 5-page essay describing how their experiences, qualities, and goals reflect the School of Education's motto-**REAL** (Respect, Educate, Advocate, Lead). See website for additional information on REAL at <http://soe.lmu.edu>. The Statement of Intent should be submitted to the Graduate Division.
5. Letters of Recommendation: Applicants must submit three letters of recommendation to the Graduate Division. At least one letter must verify the applicant's experience and familiarity with the age group appropriate to the candidate's interest.
6. Grade Point Average (GPA) Requirement: A cumulative undergraduate GPA of 2.8 or higher or a GPA of 2.85 or higher in the last 60 semester hours of the applicant's undergraduate degree or a GPA of 3.0 or higher obtained in 9 semester hours of graduate work. Students who do not meet this requirement may be recommended to the Exceptions Committee by the Program Director.
7. Transcripts: Applicants must submit to the Graduate Division two sets of official transcripts with their bachelor's degree posted. If applicants are in the process of completing the degree, they must submit official transcripts with their degree posted by the start of registration for the following semester. Candidates must submit two sets of official transcripts from each college/university attended.

8. Observation/Volunteer Hours Plan of Action: Candidates must complete at least 20 hours of experience working with culturally diverse youths in the required age level for the program (elementary, 5-12 years of age; secondary, 13-19 years of age).
9. Basic Skills Proficiency Requirements: All Multiple (Elementary) Subjects and Single (Secondary) Subject applicants must meet the California Commission on Teacher Credentialing requirements for basic skills by obtaining a passing score on the CBEST examination.
10. Subject Matter Competency Test (CSET) Plan of Action: Candidates must demonstrate mastery of the required subject matter by passing the appropriate subject matter exam (CSET). Candidates will provide a Plan of Action, written statement, on when the CSET will be taken. Candidates must provide an original passing score report to the School of Education.
11. Fingerprint Clearance: Information about fingerprint clearance (also known as Live Scan) is included in the Admissions information packet. Official results of the Certificate of Clearance must be received by the Credential Office prior to enrolling in education courses. All fees associated with fingerprint clearance are the responsibility of the student.
12. Tuberculin Test: Candidates must submit an official copy of their tuberculin skin test results, given within one year.
13. Technology Requirement: Candidates may satisfy the technology requirement by either completing a self-verification form or verifying the completion of an approved course through another institution. Candidates must register for LiveText during the first education course. The e-Portfolio fee is assessed during the first semester of enrollment.
14. Interview with the Academic Program Director/Assistant Director: Following the submission of all requirements to the Graduate Division, the candidate will be contacted to schedule an admissions interview with the Program Director or Assistant Director.
15. Admission Status: Following the interview, the candidate's application will be reviewed by the Associate Dean. Candidates are admitted on either Controlled or Provisional Admission to the appropriate Master of Arts and/or Credential Program.
16. Advisement: Academic Advising: Immediately upon admission, the student must schedule an appointment with the Academic Advisor. The Academic Advisor advises candidates on appropriate course sequence and program information. All candidates are required to meet with the Academic Advisor once a semester.

Professional Advising: All candidates are required to meet with the Professional Advisor (Program Director or Assistant Director) once a semester. Candidates will discuss academic course progress, career plans and goals, dispositional issues, and other issues related to the teaching profession.

Formal Admission Requirements for Master of Arts in Special Education and/or Credential

Review by Committee (pending approval)

1. U.S. Constitution Requirement: Candidates may satisfy the U.S. Constitution requirement in one of the following ways:
 - Taking one of the following LMU courses: HIST 161, HIST 162, or POLS 135;
 - Completing an equivalent course at another institution. The course must be approved by the School of Education Admissions Coordinator. Candidates must present a course syllabus and course description;
 - Passing an approved examination offered through LMU's History Department.
2. CSET: Candidates must submit official passing score report to the Academic Advisor. Students who have not taken the CSET, must submit their CSET registration as proof of their intent to take the CSET.
3. Disposition Rubric: (approval pending)

Teacher Advisory Review Committee (TARC): After all the steps outlined above have been completed, the candidates' file will be submitted to the Teacher Advisory Review Committee (TARC) for review. It is the candidates' responsibility to ensure that all items have been completed, including the resolution of any incomplete grades received in any courses. Candidates will be notified of the committee's decision in writing.

Field Experiences

Students in the Mild/Moderate Credential program choose one of three routes to the credential/Master of Arts Degree.

Traditional Candidates

Students following this path will complete all coursework before beginning their field experiences as student teachers. LMU will facilitate the candidates' placement as student teachers. All prerequisites requirements apply to the candidate choosing the traditional route.

University Intern Candidates

A candidate following this path is employed full-time at a public school in a district that has a partnership with LMU. The candidate takes courses while teaching full-time. This employment status, along with additional supervision in the classroom provided through LMU, fulfills the field requirements of the credential. Candidates seek out their own employment as Interns unless the candidates are in a cohort program where placement is facilitated through the program (e.g., Teach for America). Interns must be employed to teach at least 60% in the area of the credential, and the contract must state that the teacher is contracted to teach in the area in which the candidate is seeking a credential.

It is necessary that the student holds a University Intern credential and complete the program pre-service requirement in order to be enrolled in the Intern program. University Intern credentials are issued for new placements at the beginning of the fall semester only. Candidates must submit a Verification of Employment form, signed by the School District that holds a partnership agreement with Loyola Marymount University.

Teacher Practitioner Candidates

The teacher practitioner candidate is employed full-time at a non-public school. The candidate takes courses while teaching full-time. This employment status, along with additional supervision in the classroom provided through LMU, fulfills the requirements of the credential. The candidate seeks out his/her own employment as a teacher practitioner. The teacher practitioner must be employed at least 60% in the area of the credential. The teacher practitioner must fulfill all the field requirements listed including the program pre-service requirements.

Culminating Program Requirements

Additional Coursework Required for the Master's Degree

Enroll in and complete EDSS 6995 Comprehensive Exam (0 semester hours)—fee required.

Exit Interview

The candidate must schedule an exit interview with the Special Education Director or Assistant Director. The exit interview must be completed prior to submitting an application for a credential and Master's degree.

Application for Credential

When all requirements have been completed, candidates must complete an application for a preliminary teaching credential (fee required, see SOE website for more information).

Intern/Practitioner Credential Requirements

Eligibility for the Intern Credential is determined by the following guidelines set by the California Commission on Teacher Credential (CCTC).

Reading Instruction Competence Assessment (RICA)

After completing EDES 6201 (Foundations of Elementary Literacy Instruction), or EDES 6250 (Improvement of Literacy in Single Subject Classroom) candidates are required to take, pass and submit an original score report of the RICA to the Special Education program advisor.

Application for Master of Arts Degree

Candidate must complete an application for a Master of Arts degree with the Office of the Registrar the semester prior to the completion of degree requirements.

Course Sequence

Traditional Candidate Course Requirements

Complete the following courses with a grade of "B" (3.0) or better prior to enrolling in student teaching (EDSS 5999):

EDLC 5002	Survey of Second Language Acquisition Theories (2 semester hours)
-----------	--

EDSS 5300	Introduction to Teaching and Learning in General and Special Education Programs (2 semester hours)
EDSS 5301	Managing Learning Environments
EDSS 6320	IEP Development
EDSS 6325	Foundations of Special Education
EDSS 6302	Assessment of Students with Exceptional Needs
EDSS 5998	Fieldwork Seminar and IEP Development
EDES 6201	Teaching Reading for Today's Learners (3 semester hours)
	<i>or</i>
EDES 6203	Reading and Content Learning in Middle and Secondary Schools (3 semester hours) (Secondary Emphasis)
EDSS 6200	Creating Effective Classroom in Diverse Setting (3 semester hours)
	<i>or</i>
EDSS 6301	Creating Collaborative Partnerships (3 semester hours)
EDLC 5200	Methodology in English Language Development and Specially Designed Academic Instruction in English for Elementary Educators
	<i>or</i>
EDLC 5250	Methodology in English Language Development and Specially Designed Academic Instruction in English for Secondary Educators
EDSS 6300	Creating Effective Classrooms in Diverse Settings (3 semester hours)
EDSS 6303	Teaching and Assessing Students with Mild/Moderate Disabilities (3 semester hours)
	Supporting Behavior and Social Skills for Students with Mild/Moderate Disabilities
	Research and Leadership in Special Education
EDCE 5978	Directed Teaching with Students with Mild/Moderate Disabilities
EDSS 6995	Comprehensive Examination (0 semester hours, fee associated)
EDES 8000	Health Education (1 semester hour)

Intern/Practitioners Candidate Course Requirements

Pre-Service Courses: The following courses must be completed with a grade of "B" (3.0) or better:

EDSS 5300	Introduction to Teaching and Learning in General and Special Education Programs (2 semester hours)
EDSS 5301	Managing Learning Environments (2 semester hours)
EDLC 5002	Survey of Second Language Acquisition Theories (2 semester hours)

All students entering the field as University Interns must complete the coursework for EDSS 5002, 5300 and 5301 within one of two options:

- Teach for America (TFA) students complete coursework during Institute.
- Non-cohort students entering as University Interns must complete these two course during an Institute prior to entering the classroom.

Prerequisite Courses: Candidates must complete the following courses with a grade of "B" or better:

EDCE 5981	Fieldwork and Seminar I (2 semester hours)
EDSS 6300	Creating Effective Classroom in Diverse Setting (3 semester hours)
EDSS 6302	Informal Assessment and Individual Education Program (IEP) Development Methods (3 semester hours)
EDCE 5982	Fieldwork and Seminar 2: Special Education (1 semester hour)

Literacy: Elementary Emphasis

EDES 6202	Teaching Reading for Today's Learners (3 semester hours)
-----------	--

Literacy: Secondary Emphasis

EDES 6203	Reading and Content Learning in Middle and Secondary Schools (3 semester hours)
-----------	---

RICA (Reading Instruction Competence Assessment)

Elementary and Secondary Emphasis: After completing EDES 6201 (Elementary Emphasis) or EDES 6250 (Secondary Emphasis), candidates are required to take, pass, and submit an original score report of the RICA to the School of Education prior to application for the preliminary credential.

Method Coursework: Elementary Emphasis

EDES 6200	Elementary and Curriculum and Teaching Methodology (3 semester hours)
-----------	---

Method Coursework Secondary Emphasis

One of the following two academic methods courses based on CSET qualifications:

EDSS 6251	Secondary Curriculum and School Methods for Math and Science (3 Semester hours)
-----------	---

or

EDSS 6252	Secondary Curriculum and School Methods for Language Arts and Social Science (3 semester hours)
-----------	---

Program Requirements

EDSS 6301	Creating Collaborative Partnerships (3 semester hours)
EDCE 5983	Fieldwork and Seminar 3: Special Education (1 semester hour—Practitioner/Interns only)

Culminating Fieldwork Requirements: Elementary and Secondary Emphasis

EDCE 5984	Fieldwork and Seminar 4: Special Education - Practitioner/Interns only (2 semester hours)
EDSS 6303	Teaching and Assessing Students with Mild/Moderate Disabilities (3 semester hours)

Additional Coursework Required for the Master's Degree

EDSS 6995	Comprehensive Exam in Special Education (fee required)
-----------	--

Exit Interview

An exit interview with the Special Education Program Director/Assistant Director must be completed prior to submitting applications for a credential and Master's degree.

Application for Credential

When all requirements have been completed, candidates must complete an application for a preliminary teaching credential. An additional fee required. See website for more information.

Application for Master's Degree

When all requirements have been completed, candidates must complete an application for a Master's degree with the Office of the Registrar.

Professional Level II Mild/Moderate Specialist Credential

Candidates who have completed the Preliminary Level Mild/Moderate Specialist credential program and have a full-time special education teaching position working with students with mild/moderate disabilities must enroll in an approved program for the Professional Level II Education Specialist credential within 120 calendar days of services on the preliminary credential. Teachers in day-to day of long-term substitute positions are not eligible for this program.

In the Professional Level II program, candidates work with a district-assigned support provider and a university advisor to develop a professional induction plan that includes advanced coursework, professional experiences, and a one-year mentorship with the assigned support provider. The program is designed to meet the candidate's individual needs and professional development.

Candidates may complete a Master's degree, a multiple or single subject credential or non-college professional development activities as part of their Professional Specialist program.

A candidate has five years after the preliminary Level I Mild/Moderate Specialist credential to complete the requirements for the Professional Level II Mild/Moderate Specialist credential.

NOTE: The Professional Level II program is a collaborative program with Mount St. Mary's College. Loyola Marymount University candidates will

enroll for courses at LMU but will take selected course at the Doheny campus of Mount St. Mary's College. For more information please contact: Dr. Victoria Graf at vgraf@lmu.edu.

Program Requirements

Thirty semester hours (upper division) beyond the Bachelor's degree must be successfully completed and must include the following courses:

1. Core Special Education Requirements (10 semester hours)

EDSS 6310	Professional induction Planning Seminar (0 semester hours)
EDSS 6311	Advanced Issues in Assessment and Instruction of Students (3 semester hours)
EDSS 6312	Consultation and Collaboration for Students with Special Needs (3 semester hours)
EDSS 6313	Supportive Environments for Students with Behavioral and Emotional Needs (3 semester hours)
EDSS 6314	Professional Educators Evaluation Seminar (1 semester hour)

2. Electives (3 semester hours) or Non-University Option (45 hours)

Depending on individual needs and professional goals, candidates may elect to complete an elective course or complete 45 hours of approved professional development activities.

3. Professional Clear Requirements

Health Education for Educators: Candidates may satisfy the Health Education requirements in one of the following ways:

- Successful completion of EDES 8000
- Successful completion of a 2042 approved course through another institution. It is recommended that the candidates obtain approval from the School of Education Credential Office prior to taking class. Official transcripts must be submitted as evidence of course completion.

Advanced Computer Skills: Candidates must show of knowledge or advanced computer skills in one of the following ways:

- Successful completion of EDUX 843 (Integrating Technology of Elementary Educators) through LMU Extension
- Successful completion of EDUX 844 (Technology in Secondary Education) through LMU Extension
- Successful completing an equivalent course at another institution. If a student fulfills this requirement at another institution, it is strongly recommended that the student obtain approval from the School of Education Credential Office prior to class. Official transcripts must be submitted as evidence of course completion.

CPR (Cardiopulmonary Resuscitation) Certification: Candidates must show current adult, infant, and child CPR certification.

Master of Arts in Special Education with a Cross-Cultural Emphasis

The Master of Arts Degree in Special Education with a Cross-Cultural Emphasis enables candidates to develop a deeper understanding of theory, research, and practice in special education with particular concentration on students with mild/moderate disabilities from diverse cultural and linguistic backgrounds.

Eligible students will also be able to complete courses towards the Education specialist: Mild/Moderate Disabilities Teaching Credential. Upon completion of the program, candidates should be prepared for the public/private school setting or a doctoral program and to make a significant contribution to the field of Special Education.

Program Requirements

Option I: This program is designed for candidates who are also pursuing the Education Specialist Mild/Moderate Disabilities Teaching Credential. This program is a total of 30 semester hours. 5000-level coursework and directed student teaching semester hours are not credited toward an academic degree. Candidates may choose to pursue additional coursework for the SB 2042 Multiple Subjects or Single Subject Teaching Credential. Please contact the Chair of the Department of Elementary and Secondary Education for more information.

Option II: This program is designed for candidates who want an advanced degree preparation for doctoral studies or specialization in the fields of Special Education. This program is a total of 30 semester and includes:

- At least 3 semester hours in statistics and research methods
- A Special Education core of at least 15 semester hours
- Appropriate restricted electives as approved by the Special Education advisor to complete the minimum number of program semester hours
- Comprehensive Assessment

Comprehensive Assessment

EDSS 6995	Comprehensive Exam: Special Education (fee required—0 semester hours)
	or
	Thesis Option: See Program Director for approval.

Thesis Option

EDLA 6950	Advanced Research Methods
EDLA 6951	Advanced Research Design (1 semester hour)
EDSS 6955	Master's Thesis I (1 semester hour)
EDSS 6956	Master's Thesis II (as needed) (1 semester hour)
EDSS 6957	Master's Thesis III (as needed) (1 semester hour)

Master of Arts in Catholic Inclusive Education

The Master of Arts in Catholic Inclusive Education is designed to prepare teachers and administrators in Catholic schools to become leaders in supporting students with exceptional emphasis on inclusion within the Catholic school context. Some courses may be transferred depending upon the needs of the student.

Admission Requirements

The following are required for consideration of admission into the Master of Arts in Catholic Inclusive Education program:

1. The Graduate Division application and letter of intent, submitted directly to the Graduate Division Office
2. Special Education Program application form
3. Transcripts: Two sets of official transcripts from all colleges/universities attended. All transcripts should be sent directly to the Graduate Division Office. A Bachelor's degree and a cumulative undergraduate GPA of 2.8; or a 2.85 GPA in the last 60 semester hours of undergraduate coursework taken; or a 3.0 GPA in at least 9 semester hours of graduate level coursework is required.
4. Letter of recommendation from the candidate's principal or supervisor
5. Interview with the Director/Assistant Director of the Program

Course requirements

EDLC 6100	Anthropological Analysis of Cultural Diversity (3 semester hours)
EDSS 6101	Psychology and Education of Culturally/Linguistically Diverse Students with Exceptional Needs (3 semester hours)
EDES 6103	Curriculum and Instructional Leadership (3 semester hours)
EDLA 6105	Assessment and Research Methodology (3 semester hours)
EDSS 6106	Human Development and Learning (3 semester hours)
EDSS 6300	Creating Effective Classrooms in Diverse Settings (3 semester hours)
EDSS 6304	Policies and Issues in Education for Diverse Learners with Disabilities (3 semester hours)
EDSS 6821	Informal Assessment and Program Development in Schools (3 semester hours)
EDSS 6822	Creating Successful Inclusion Programs (3 semester hours)
EDSS 6823	Advanced Practicum in Inclusive Education (3 semester hours)
EDSS 6995	Comprehensive Examination (0 semester hours, associated fee)
	or

The following thesis option with approval of the Program Director:

EDLA 6950	Advanced Research Methods
EDLA 6951	Advanced Research Design (1 semester hour)
EDSS 6955	Master's Thesis I (1 semester hour)
EDSS 6956	Master's Thesis II (as needed) (1 semester hour)
EDSS 6957	Master's Thesis III (as needed) (1 semester hour)

Certificate in Catholic Inclusive Education

The Certificate in Catholic Inclusive Education is designed to recognize those candidates who have completed a five course sequence in Catholic Inclusive Education. Candidates will be prepared to develop and implement programs which will support students with exceptional needs in parochial schools. Courses are designed with an emphasis on inclusive education in a Catholic school context, and some courses may be transferred on the needs of the students.

Admission Requirements

1. The Graduate Division application and letter of intent, submitted directly to the Graduate Division Office
2. Special Education Program application form
3. Transcripts: Two sets of official transcripts from all colleges/universities attended. All transcripts should be sent directly to the Graduate Division Office. A Bachelor's degree and a cumulative undergraduate GPA of 2.8; or a 2.85 GPA in the last 60 semester hours of undergraduate coursework taken; or a 3.0 GPA in at least 9 semester hours of graduate level coursework is required.
4. Letter of recommendation from the candidate's principal or supervisor
5. Interview with the Director of the Program

Course Requirements

EDSS 6101	Psychology and Education of Culturally/Linguistically Diverse Students with Exceptional Needs (3 semester hours)
EDES 6103	Curriculum and Instructional Leadership (3 semester hours)
EDSS 6300	Creating Effective Classrooms in Diverse Settings (3 semester hours)
EDSS 6821	Informal Assessment and Program Development in Schools (3 semester hours)
EDSS 6822	Creating Successful Inclusion Programs (3 semester hours)

Educational Support Services Undergraduate Program

Special Education

Director: Victoria Graf

Office Location: University Hall 1500

E-mail: vgraf@lmu.edu

The Special Education program allows students from a variety of academic backgrounds to pursue a minor in Special Education or the Education Specialist Credential: Mild/Moderate Disabilities. These programs include preparation in the education of culturally and linguistically diverse students with exceptional needs. The Education Specialist Credential: Mild/Moderate Disabilities authorizes candidates to teach students with specific learning disabilities, mental retardation, emotional disturbance, or other health impairments.

Requirements for Provisional Admission

All of the following requirements must be submitted to the School of Education Dean's Office, University Hall 2100, prior to scheduling an interview with the Academic Program Director.

1. Complete three of the four following prerequisite courses and maintain a GPA of 2.8 or better. Prerequisite courses are only available to students with sophomore standing (30 semester hours earned) or higher. Interested first year students need to contact the Academic Program Director.

EDLC 400	Sociocultural Analysis of Education (3 semester hours)
EDLC 414	Theories of Second Language Acquisition (3 semester hours)

EDSS 440	Introduction to the Culturally and Linguistically Diverse Student with Exceptional Needs (3 semester hours)
EDSS 444	Observation and Participation in General and Special Education Programs (3 semester hours)

2. Plan to complete the fourth prerequisite course prior to Student Teaching.
3. Teacher Education Application Form
4. Statement of Intent
5. Candidate Information Sheet
6. One set of official transcripts from all colleges and universities attended other than LMU
7. Four letters of recommendations. Three of the four must be submitted for an interview. One letter must be from your major advisor
8. Verification of 20 hours of experience working with culturally and linguistically diverse youth groups, ages 4-22, or Plan of Action of Completion of 20 hours prior to Student Teaching
9. California Basic Educational Skills Test (CBEST) original passing score report
10. Subject Matter Plan of Action Completion

Elementary Emphasis: Students must demonstrate mastery of the required subject matter by passing the Multiple Subject California Subject Matter Exam for Teachers (Multiple Subject CSET)

Secondary Emphasis: Students must demonstrate mastery of the required subject matter (mathematics, language arts, or science) by passing the Single Subject California Subject Matter Exam for Teachers (Single Subject CSET in credential content area).

Results of the CSET are only valid for five years.

1. Technology Requirement
2. Interview with the Academic Program Director

Requirements for Formal Admission

All of the following are required once you have been provisionally admitted to the School of Education and must be fulfilled prior to enrolling in Student Teaching. A "B" (3.0) grade point average must be maintained in all education coursework. A "D" (1.0) is not acceptable in any of the coursework in the sequence.

1. Fingerprint Clearance—An original Certificate of Clearance must be received from the CCTC prior to enrolling in student teaching.
2. TB test results—Valid within one year prior to student teaching.
3. U.S. Constitution Requirement—Satisfied by one of the following:
 - Taking one of the following LMU courses: AMCS 162, HIST 161, HIST 162, or POLS 135; or
 - Passing an approved examination through the History Department; or
 - Completing an approved course at another institution.
4. CSET (Original passing score report)
5. Complete the following professional coursework (maintaining a GPA of 3.0 or better)

Elementary Emphasis

EDES 409	Literacy in the Curriculum (3 semester hours)
EDSS 427	Creating Effective Classrooms in Diverse Settings (3 semester hours)
EDES 434	Elementary Curriculum and Teaching Methods (3 semester hours)
EDSS 436	Creating Collaborative Partnerships (2 semester hours)
EDSS 443	Informal Assessment and Individual Education Program (IEP) Development (3 semester hours)
EDSS 475	Teaching and Assessing Students with Mild/Moderate Disabilities (4 semester hours)

Secondary Emphasis

EDSS 427	Creating Effective Classrooms in Diverse Settings (3 semester hours)
EDES 428	Reading/Language Arts for Single Subject Teachers (3 semester hours)
EDSS 436	Creating Collaborative Partnerships (2 semester hours)
EDSS 443	Informal Assessment and Individual Education Program (IEP) Development (3 semester hours)
EDSS 475	Teaching and Assessing Students with

Mild/Moderate Disabilities (4 semester hours)

One of the following courses, depending on the credential content area emphasis:

EDES 486	Methods in Teaching Secondary English (English/Social Studies emphasis)
EDES 487	Methods in Teaching Secondary Science (Science emphasis);
EDES 488	Methods in Teaching Secondary Math (Math emphasis)

Review by the Teacher Admission and Advisory Committee (TAAC): After the requirements for each section outlined above have been completed, the candidate's file will be submitted to the TAAC for review. It is the student's responsibility to ensure that all items have been received. Students will be notified of the committee's decision in writing. All documents become the property of the University and will not be released to any person or institution.

Requirements for Student Teaching

1. Students must clear all grades of Incomplete prior to Student Teaching.
2. Reading Instruction Competence Assessment (RICA). It is recommended that the RICA be taken following completion of EDES 409 (Elementary Emphasis) or EDES 428 (Secondary Emphasis). Students are required to take, pass, and submit an original passing score report to the School of Education before the completion of Student Teaching.
3. Students must complete the fieldwork application (available from the Academic Program Director) and schedule an interview with the Coordinator of Fieldwork.
4. Enroll in EDCE 456: Direct Teaching with Culturally/Linguistically Diverse Students with Mild/Moderate Disabilities (9 semester hours)

Application Process for the Education Specialist Credential, Mild/Moderate Disabilities

1. Successful completion of all of the requirements outlined above.
2. Students must submit an official transcript with the degree posted to the School of Education Credential Office.
3. Submit the SOE Credential Application. Apply for credential to Commission on Teacher Credentialing, State of California (additional fee required; see website for more information).

Combined Program Requirements: Education Specialist Credential: Mild/Moderate Disabilities with the 2042 Multiple Subject/Elementary Emphasis

The 2042 Multiple Subject/Secondary Teaching Credential can be pursued concurrently with the Education Specialist Credential: Mild/Moderate Disabilities. In addition to the previously listed program sequence for the Education Specialist Credential, the following are required.

Professional Coursework

Students in the combined program will have both a general education and special education teaching placement during their student teaching.

Elementary Emphasis

EDES 401	Educational Psychology for the Childhood and Adolescent Years (3 semester hours)
EDCE 410	Elementary Directed Teaching (9 semester hours)
EDLC 425	Methods in English Language Development and Specially Designed Academic Instruction in English (3 semester hours)
EDCE 456	Directed Teaching with Students with Mild/Moderate Disabilities (3 semester hours)

Secondary Emphasis

EDES 401	Educational Psychology for the Childhood and Adolescent Years (3 semester hours)
EDCE 412	Secondary Directed Teaching (9 semester hours)
EDLC 425	Methods in English Language Development and Specially Designed Academic Instruction in English (3 semester hours)
EDCE 456	Directed Teaching with Students with

Mild/Moderate Disabilities (3 semester hours)

Professional Level II Education Specialist Credential: Mild/Moderate Disabilities Credential

Candidates who have completed the Preliminary Level I Mild/Moderate Specialist Credential Program and have a full-time special education teaching position working with students with mild/moderate disabilities must enroll in an approved program for Professional Level II Education Specialist Credential within 120 calendar days of service on the Preliminary Credential.

Minor in Special Education

(20 semester hours)

The recommended course sequence is as follows:

Sophomore Year: EDLC 400 (3 semester hours) and EDSS 440 (3 semester hours)

Junior Year: EDSS 444 (3 semester hours) and EDSS 445 (3 semester hours)

Senior Year: EDSS 427 (3 semester hours), EDSS 436 (2 semester hours), and capstone course (3 semester hours)

Learning Outcomes

In accordance with the Mission and Goals of the School of Education, the Elementary and Secondary Education programs strive to work collaboratively in a student-centered environment to be professionals who act to value and respect all individuals, promote social justice, promote cultural responsiveness, integrate theory and practice, develop moral, intellectual, responsible, and caring leaders and to collaborate and share leadership across communities.

Programs also strive to be, and to educate professionals to be, educators who: Respect and value all individuals and communities; Educate by integrating theory and practice; Advocate for access to a socially just education; and Lead in order to facilitate transformation.

For additional information, please refer to the School of Education Mission and Goal Statements.

Elementary and Secondary Education Graduate Program

Introduction

The Department of Elementary and Secondary Education offers a variety of credential and graduate programs that emphasize the preparation of excellent teachers to educate the culturally and linguistically diverse populations in K-12 public or private schools. Accredited by the National Council for the Education of Teacher Education and the California Com-

mission on Teacher Credentialing, we provide professional preparation in research-based exemplary practices that include the requisite knowledge, skills, and dispositions required to ensure equity and excellence in education. As a result of our Masters and credential program, graduates are highly regarded by their colleagues and leaders in the schools, districts, and communities in which they teach. Teacher preparation and professional development options in the Department promote and respond to the Jesuit and Marymount traditions and correspond to the core tenets of the School of Education's Conceptual Framework.

Academic Programs

Elementary Education
 Secondary Education
 Early Childhood Education
 Literacy Education
 Educational Studies
 Professional 2042 Clear Teaching Credential

Master of Arts Degrees in the School of Education

The Department of Elementary and Secondary Education offers the following programs:

- Combined preliminary credential and Master of Arts in Elementary Education, Secondary Education or Literacy and Language Arts;
- Master of Arts in Elementary Education or Secondary Education, with a credential option;
- Master of Arts in Early Childhood Education
- Specialized Master of Arts programs in Reading Instruction or Educational Studies.

Credential Programs

Preliminary California teaching credentials in:

- Elementary Education (SB 2042 Multiple Subjects)
- Secondary Education (SB 2042 Single Subject)
- Elementary or Secondary Education with a Bilingual Authorization

If students are interested in the following programs, please see the appropriate School of Education Department.

Special Education: *Department of Educational Support Services*
 University Intern Credential programs: *Department of Specialized Programs in Urban Education*

Teaching credential requirements (listed with each program) are governed by the California Commission on Teacher Credentialing (CCTC) and are subject to change.

Students interested in pursuing credentials in Elementary or Secondary Education must attend an information session to begin the application process. Contact the School of Education Admissions Coordinator at 310.338.7845 or soeinfo@lmu.edu for information session dates and times.

Traditional Candidates (Credential Candidates Only)

Candidates following this path will complete all coursework before beginning their culminating experiences as student teachers. LMU will facilitate the candidate's placement as student teachers. Placements must be completed in the subject or grade level that is authorized by the credential.

Priority Application Deadlines for Master of Arts and/or Credential Programs

Fall semester—June 15

Spring semester—November 15

Summer session—March 15

Students applying for admission to the School of Education are highly encouraged to submit their applications for admission and all supporting documents by the priority deadlines outlined above. Qualified applicants meeting this deadline will be given priority consideration for program admission.

Contact the School of Education Admissions Coordinator at soeinfo@lmu.edu for information session dates and times.

Elementary Education

Master of Arts in Elementary Education with a Preliminary 2042 Multiple Subjects Credential

The combined Multiple Subject Preliminary Credential and Master of Arts in Elementary Education program is designed for graduate students who are seeking teaching positions in grades K-5 or any self-contained classrooms in grades 6-8. A student successfully completing either program is eligible to receive a Master of Arts in Elementary Education as well as to apply for a California Preliminary Multiple Subject Credential.

Provisional Admission Requirements for Master of Arts and/or Credential

Elementary Education requires the following for provisional admission:

1. Attendance at an Information Session (for credential candidates only)
Please contact the Director of Student Recruitment at soeinfo@lmu.edu for more information or to RSVP.
2. Submission of Graduate Application and Application Fee
Applicants will receive the complete application packet and instructions at the information session.
3. Candidate Information Sheet
Applicants must submit the Candidate Information Sheet with the complete application packet.
4. Statement of Intent
Applicants must write a 3-5 page essay describing how their experiences, qualities, and goals reflect the School of Education's motto—REAL (Respect, Educate, Advocate, Lead). For additional information on REAL, see <http://soe.lmu.edu>. The Statement of Intent should be included with the application.
5. Letters of Recommendation
Applicants must submit three letters of recommendation to the Graduate Division. At least one letter must verify the applicant's experience and familiarity with the age group appropriate to the candidate's interest.
6. Grade Point Average (GPA) Requirement
A cumulative undergraduate GPA of 2.8 or higher or a GPA of 2.85 or higher in the last 60 units of the applicant's undergraduate degree or a GPA of 3.0 or higher obtained in 9 units of graduate work. Students who do not meet this requirement may be recommended to the Exceptions Committee by the Academic Program Director.
7. Transcripts
Applicants must submit two sets of official transcripts with their bachelor's degree posted. If applicants are in the process of completing the degree at the time of application, they must submit official transcripts with the degree posted by the start of registration for the following semester. Candidates who have attended more than one college or university must submit two sets of official transcripts from each college/university attended.
8. Observation/Volunteer Hours Plan of Action
Candidates must complete at least 20 hours of experience working with culturally diverse youths in the required age level for the program (elementary, 5-12 years of age).
9. Basic Skills Proficiency Requirements
All Multiple (Elementary) Subjects applicants must meet the California Commission on Teacher Credentialing requirements for basic skills. An official passing score on one of following examinations is required to demonstrate proficiency in basic skills:
 - CBEST
 - CSET: Multiple Subjects Plus Writing Skills examination—only multiple subjects candidates
10. Subject Matter Competency Test (CSET) Plan of Action
Candidates must demonstrate mastery of the required subject matter by passing the appropriate subject matter exam (CSET). Candidates will provide a written Plan of Action, on when the CSET will be taken. Candidates must provide an original passing score report to the School of Education.
11. Fingerprint Clearance

The application for fingerprint clearance (also known as Live Scan) should be completed on-line. Official results of the Certificate of Clearance must be received by the Credential Office prior to enrolling in education courses. All fees associated with the fingerprint clearance application must be included with the application to the Credential Office and are the responsibility of the student.

12. Tuberculin Test

Candidates must submit an official copy of their tuberculin skin test results, given within one year.

13. Technology Requirement

Candidates may satisfy the technology requirement by either completing a self-verification form or verifying the completion of an approved 2042 course through another institution. Candidates must register for LiveText during the first prerequisite course. An e-Portfolio fee is assessed during the first semester of enrollment.

14. Interview with the Academic Program Director/Assistant Director

Following the review of the complete application packet, the candidate will be contacted to schedule an admissions interview with the Academic Program Director/Assistant Director.

Upon completing the interview, the candidate's application is submitted to the Associate Dean for review and recommendation. Once a recommendation is made, candidates will receive written correspondence from the School of Education and Graduate Admissions explaining their admission status. Candidates are notified of their admission status approximately two weeks after completing their admission interview with the Academic Program Director/Assistant Director.

15. Admission Status

Candidates are admitted on either Controlled or Provisional status to the appropriate Education Master of Arts and/or Credential Program.

16. Advisement

Immediately upon being either Controlled or Provisionally admitted, the student must schedule an appointment with the Academic Advisor.

Academic Advising: All candidates are required to meet with the Academic Advisor once a semester. Candidates are advised on appropriate course sequence and program information.

Professional Advising: All candidates are expected to meet with the Professional Advisor (Program Director/Assistant Director) once a semester. Candidates will discuss academic course progress, career plans and goals, dispositional issues and other issues related to the teaching profession.

Formal Admission Requirements for Master of Arts and/or Credential

Review by the Teacher Admission and Advisory Committee (TAAC): After the requirements for formal admission, outlined below, have been completed, the candidate will apply to the Teacher Admission and Advisory Committee (TAAC) for Formal Admission review. The Academic Advisor will facilitate the application process. It is the candidate's responsibility to ensure that all items have been completed and submitted, including the resolution of any Incomplete grades received in the prerequisite courses. Candidates will be notified of the Committee's decision in writing. All documents become property of the University and will not be released to any person or institution unless required by law.

1. Advising

a. **Academic Advising:** All candidates are required to meet with the Academic Advisor **once a semester**. Candidates are advised on appropriate course sequence and program information.

b. **Professional Advising:** All candidates are expected to meet with the Professional Advisor (Program Director/Assistant Director) **once a semester**. Candidates will discuss academic course progress, career plans and goals, dispositional issues and other issues related to the teaching profession.

2. U.S. Constitution Requirement:

Candidates may satisfy the U.S. Constitution requirement in one of the following ways:

a. Taking one of the following LMU courses: HIST 161, HIST 162, or POLS 135;

b. Completing an equivalent course at another institution. The course must be approved by the School of Education Admissions

Coordinator. Candidates must present a course syllabus and course description;

c. Passing an approved examination offered through LMU's History Department.

3. Prerequisite Courses:

Candidates must complete the following four courses with a grade of "B" (3.0) or better:

EDLC 5000 Cultural Paradigms of Education
EDES 5001 Applied Educational Psychology for the Childhood and Adolescent Years

EDLC 5003 Theories of Second Language Acquisition
EDSS 6001 Teaching Culturally and Linguistically Diverse Students with Exceptional Needs

4. Disposition Rubric:

Candidates are expected to uphold both academic and non-academic standards embraced by the School of Education. Non-academic factors include behaviors, dispositions, and attitudes that educators must positively develop. The Disposition Rubric will be used to assess the professional dispositions of our candidates.

Requirements for Student Teaching

Review by the Teacher Advisory Review Committee (TARC): After the requirements for student teaching, outlined below, have been completed the candidate will apply to TARC for review. Candidates must complete the application and Violation Affidavit with the Academic Advisor. The application will be submitted to the Teacher Advisory Review Committee (TARC) for review. It is the candidate's responsibility to ensure that all items have been completed and submitted, including the resolution of any incomplete grades received in any courses. Candidates will be notified of the Committee's decision in writing. All eligible candidates will be contacted for an interview with the Coordinator of Clinical Education.

1. Complete the following three courses with a grade of "B" (3.0) or better prior to enrolling in student teaching:

EDLC 5200 Methodology in English Language Development and Specially Designed Academic Instruction in English for Elementary Educators
EDES 6200 Elementary Curriculum and Methods
EDES 6202 Teaching Reading for Today's Learners

2. CSET:

Candidates must submit official passing score report verifying 100% successful completion of all elements of the CSET to the Academic Advisor.

3. Teaching Performance Assessments (TPA) Task 1 and Task 2 (fee based, 0 semester hours)

EDCE 5950 TPA Task 1 Subject Specific Pedagogy
EDCE 5951 TPA Task 2 Designing Instruction

4. Health Education for Educators:

Candidates may satisfy the Health Education requirement in one of the following ways:

a. Successful completion of EDES 8000

b. Successful completion of a 2042 approved course through another institution. It is recommended that the candidate obtain approval from the School of Education Credential Office prior to taking class. Official transcripts must be submitted as evidence of course completion.

5. Professional Advising:

Schedule an appointment with the Program Director/Assistant Director once a semester by calling 310.338.2863.

6. Disposition Rubric Score:

Candidates are expected to uphold both academic and non-academic standards embraced by the School of Education. Non-academic factors include behaviors, dispositions, and attitudes that educators must positively develop. The Disposition Rubric will be used to assess the professional dispositions of our candidates.

Enrolling in Student Teaching

In order to be accepted and successfully complete student teaching, all students must comply with the policies and requirements set forth by the School of Education's Clinical Education Department. All student teacher placements are made by the Clinical Education Department. Students will enroll in:

EDCE 5976 Elementary Directed Teaching (9 semester hours)

EDCE 5952 TPA Task 3 Assessing Learning (0 semester hours, fee required)

EDCE 5953 TPA Task 4 Culminating Teaching Experience (0 semester hours, fee required)

Note: If you are in a Combined Master of Arts and Credential Program,

only six (6) semester hours of graduate student teaching may be applied to the Master of Arts program.

Reading Instruction Competence Assessment (RICA)

After completing EDES 6202 (Teaching Reading for Today's Learners), candidates are eligible to take the RICA. Candidates must pass and submit an original score report of the RICA to the School of Education prior to applying for the credential.

Additional Coursework Required for the Master of Arts Degree

OPTION 1: Elementary Education

- Choose one of the following courses and complete with a 3.0 or better:

EDLC 6100	Anthropological Analysis of Cultural Diversity
EDES 6103	Curriculum and Instructional Leadership
EDLA 6105	Assessment and Research Methodology
EDSS 6106	Human Development and Learning
- Complete EDES 6995, Comprehensive Exam in Elementary Education (0 semester hours, fee required)

OPTION 2: Literacy and Language Arts

The Master of Arts in Literacy and Language Arts combined with the 2042 Preliminary Multiple Subjects or Single Subject Teaching Credential offers the opportunity for a graduate student to receive both a preliminary teaching credential and a Master of Arts degree. Candidates who initially applied for admission to the credential program only must add the Master of Arts degree prior to the pre-fieldwork assessment.

Program Requirements

- All 2042 Preliminary Multiple Subjects Teaching Credential courses
- Additional Required Coursework

EDES 6355	Introduction to Reading Difficulties
EDES 6356	Practicum I: Diagnosis and Intervention in Reading
- Comprehensive Assessment: Candidates meet with the Program Director to discuss their timeline and enrollment in either the comprehensive exam or the thesis project series.

EDES 6995	Comprehensive Exam: Literacy (0 semester hours, fee required)
	or
Thesis Option (See Program Director for detailed course sequence)	

Exit Interview

The candidate must schedule an exit interview with the Program Director or Assistant Director. The exit interview must be completed prior to submitting an application for a credential and/or Master of Arts degree.

Application Process for the Preliminary Multiple Subject Credential

When all requirements have been completed successfully, candidates must complete the Credential Application through the School of Education to the Commission on Teacher Credentialing, State of California (additional fee required; see website for more information).

Application for Master of Arts Degree

Candidates must complete an application for a Master of Arts degree with the Office of the Registrar the semester prior to the completion of degree requirements. Please follow up with the Office of the Registrar for commencement participation.

Professional 2042 Clear Teaching Credential

A student has five years after obtaining the preliminary credential to complete the requirements for the professional clear credential. This Clear Credential is intended for Catholic and private school teachers who do not have access to a district induction program. For more information, see the section on the Professional 2042 Clear Teaching Credential.

Minor in Elementary Education (18 semester hours)

For non-Liberal Studies majors only.

18 semester hours in Education from the following courses:

- 4 prerequisite Education courses: EDLC 400, EDES 401, EDLC 414, and EDSS 440

- 2 courses from the following: EDES 402, EDLC 425, EDES 434

Secondary Education

Master of Arts in Secondary Education with a Preliminary 2042 Single Subject Credential

The combined Single Subject Preliminary Credential and Master of Arts in Secondary Education program is designed for graduate students who are seeking teaching positions in grades 9-12, or in 6-8 school settings that require teachers to teach in departments. A student successfully completing this program will be eligible to receive a Master of Arts in Secondary Education as well as to apply for a California Preliminary Single Subject Credential.

The following Single Subject Preliminary credentials are offered through the School of Education:

Art
Biology
Chemistry
Physical Education (Dance)
Earth Science
English
French
Mathematics
Physics
Social Science
Spanish

Provisional Admission Requirements for Master of Arts and/or Credential

Secondary Education requires the following for provisional admission:

- Attendance at an Information Session (for Credential Candidates Only)

Please contact the Director of Student Recruitment at soein-fo@lmu.edu for more information or to RSVP.
- Submission of Graduate Application and Application Fee

Applicants will receive the complete application packet and instructions at the information session.
- Candidate Information Sheet

Applicants must submit the Candidate Information Sheet with the complete application packet.
- Statement of Intent

Applicants must write a 3-5 page essay describing how their experiences, qualities, and goals reflect the School of Education's motto—REAL (Respect, Educate, Advocate, Lead). For additional information on REAL, see <http://soe.lmu.edu>. The Statement of Intent should be included with the application.
- Letters of Recommendation

Applicants must submit three letters of recommendation. At least one letter must verify the applicant's experience and familiarity with the age group appropriate to the candidate's interest.
- Grade Point Average (GPA) Requirement

A cumulative undergraduate GPA of 2.8 or higher or a GPA of 2.85 or higher in the last 60 units of the applicant's undergraduate degree or a GPA of 3.0 or higher obtained in 9 units of graduate work. Students who do not meet this requirement may be recommended to the Exceptions Committee by the Academic Program Director.
- Transcripts

Applicants must submit two sets of official transcripts with their bachelor's degree posted. If applicants are in the process of completing the degree at the time of application, they must submit official transcripts with the degree posted by the start of registration for the following semester. Candidates who have attended more than one college or university must submit two sets of official transcripts from each college/university attended.
- Observation/Volunteer Hours Plan of Action

Candidates must complete at least 20 hours of experience working with culturally diverse youths in the required age level for the program (secondary, 13-19 years of age).
- Basic Skills Proficiency Requirements

All Single (Secondary) Subjects applicants must meet the California Commission on Teacher Credentialing requirements for basic skills. An official passing score on the CBEST examination is required to demonstrate proficiency in basic skills.

10. Subject Matter Competency Test (CSET) Plan of Action

Candidates must demonstrate mastery of the required subject matter by passing the appropriate subject matter exam (CSET). Candidates will provide a written Plan of Action stating when the CSET will be taken. Candidates must provide an original passing score report to the School of Education.

Candidates may provide a letter verifying 100% completion of the subject matter coursework from a 2042 approved program.

11. Fingerprint Clearance

The application for fingerprint clearance (also known as Live Scan) should be completed online. Official results of the Certificate of Clearance must be received by the Credential Office prior to enrolling in education courses. All fees associated with the fingerprint clearance application must be included with the application to the Credential Office and are the responsibility of the student.

12. Tuberculin Test

Candidates must submit an official copy of their tuberculin skin test results, given within one year.

13. Technology Requirement

Candidates may satisfy the technology requirement by either completing a self-verification form or verifying the completion of an approved 2042 course through another institution. Candidates must register for LiveText during the first prerequisite course. The e-Portfolio fee is assessed during the first semester of enrollment.

14. Interview with the Program Director/Assistant Director

Following the review of your complete application packet, the candidate will be contacted to schedule an admissions interview with the Academic Program Director/Assistant Director.

Upon completing the interview, the candidate's application is submitted to the Associate Dean for review and recommendation. Once a recommendation is made, the candidate will receive written correspondence from the School of Education and Graduate Admissions explaining the admission status. Candidates are notified of their admission status approximately two weeks after completing their admission interview with the Academic Program Director/Assistant Director.

15. Admission Status

Candidates are admitted on either Controlled or Provisional status to the appropriate Education Master of Arts and/or Credential Program.

16. Advisement

Immediately upon being either Controlled or Provisionally admitted, the student must schedule an appointment with the Academic Advisor.

Academic Advising: All candidates are expected to meet with the Academic Advisor once a semester. Candidates are advised on appropriate course sequence and program information.

Professional Advising: All candidates are required to meet with the Professional Advisor (Program Director/Assistant Director) once a semester. Candidates will discuss academic course progress, career plans and goals, dispositional issues and other issues related to the teaching profession.

Formal Admission Requirements for Master of Arts and/or Credential

Review by the Teacher Admission and Advisory Committee (TAAC): After the requirements for formal admission, outlined below, have been completed, the candidate will apply to the Teacher Admission and Advisory Committee (TAAC) for Formal Admission review. The Academic Advisor will facilitate the application process. It is the candidate's responsibility to ensure that all items have been completed and submitted, including the resolution of any Incomplete grades received in the prerequisite courses. Candidates will be notified of the Committee's decision in writing. All documents become property of the University and will not be released to any person or institution unless required by law.

1. Advising

a. **Academic Advising:** All candidates are required to meet with the Academic Advisor **once a semester**. Candidates are advised on appropriate course sequence and program information.

b. **Professional Advising:** All candidates are expected to meet with the Professional Advisor (Program Director/Assistant Director) **once a semester**. Candidates will discuss academic course progress, career plans and goals, dispositional issues and other issues related to the teaching profession.

2. U.S. Constitution Requirement: Candidates may satisfy the U.S. Constitution requirement in one of the following ways:

- Taking one of the following LMU courses: HIST 161, HIST 162, or POLS 135;
- Completing an equivalent course at another institution. The course must be approved by the School of Education Admissions Coordinator. Candidates must present a course syllabus and course description;
- Passing an approved examination offered through LMU's History Department.

3. Prerequisite Courses: Candidates must complete the following four courses with a grade of "B" (3.0) or better:

EDLC 5000	Cultural Paradigms of Education
EDES 5001	Applied Educational Psychology for the Childhood and Adolescent Years
EDLC 5003	Theories of Second Language Acquisition
EDSS 6001	Teaching Culturally and Linguistically Diverse Students with Exceptional Needs

4. Disposition Rubric: Candidates are expected to uphold both academic and non-academic standards embraced by the School of Education. Non-academic factors include behaviors, dispositions, and attitudes that educators must positively develop. The Disposition Rubric will be used to assess the professional dispositions of our candidates.

Requirements for Student Teaching

Review by the Teacher Advisory Review Committee (TARC): After the requirements for student teaching, outlined below, have been completed the candidate will apply to TARC for review. Candidates must complete the application and Violation Affidavit with the Academic Advisor. The application will be submitted to the Teacher Advisory Review Committee (TARC) for review. It is the candidate's responsibility to ensure that all items have been completed and submitted, including the resolution of any incomplete grades received in any courses. Candidates will be notified of the Committee's decision in writing. All eligible candidates will be contacted for an interview with the Coordinator of Clinical Education.

1. Candidates need to complete the following with a grade of "B" (3.0) or better prior to enrolling in student teaching:

EDLC 5250	Methodology in English Language Development and Specially Designed Academic Instruction in English for Secondary Educators
EDES 6203	Reading and Content Learning in Middle and Secondary Schools

One of the following courses, depending upon the subject emphasis of the credential:

EDES 5251	Methods in Teaching Secondary Languages Other than English
EDES 5252	Methods in Teaching Secondary Social Studies
EDES 5253	Methods in Teaching Secondary English
EDES 5254	Methods in Teaching Secondary Science
EDES 5255	Methods in Teaching Secondary Math
EDES 5256	Methods in Teaching Secondary Art

2. CSET Subject Matter Competency: Submit to the Academic Advisor either:

- Original score report verifying 100% successful completion of all elements of the CSET; or
- Letter verifying 100% completion of the subject matter coursework from a 2042 approved program

3. Teaching Performance Assessment (TPA) Task 1 and Task 2 (fee based, 0 semester hours)

EDCE 5950	TPA Task 1 Subject Specific Pedagogy (in content area)
EDCE 5951	TPA Task 2 Designing Instruction

4. Health Education for Educators: Candidates may satisfy the Health Education requirement in one of the following ways:

- Successful completion of EDES 8000; or

- b. Successful completion of a 2042 approved course through another institution. It is recommended that the candidate obtain approval from the School of Education Credential Office prior to taking class. Official transcripts must be submitted as evidence of course completion.
5. **Professional Advising:** Schedule an appointment with the Program Director/Assistant Director **once a semester** by calling 310.338.2863.
6. **Disposition Rubric:** Candidates are expected to uphold both academic and non-academic standards embraced by the School of Education. Non-academic factors include behaviors, dispositions, and attitudes that educators must positively develop. The Disposition Rubric will be used to assess the professional dispositions of our candidates.

Enrolling in Student Teaching

In order to be accepted and successfully complete student teaching, all students must comply with the policies and requirements set forth by the School of Education's Clinical Education Department. All student teacher placements will be made by the Clinical Education Department. Students must enroll in:

EDCE 5977	Secondary Directed Teaching (9 semester hours)
EDCE 5952	TPA Task 3 Assessing Learning (0 semester hours, fee required)
EDCE 5953	TPA Task 4 Culminating Teaching Experience (0 semester hours, fee required)

Note: If you are in a Combined Master of Arts and Credential Program, only six (6) semester hours of graduate student teaching may be applied to the Combined Master of Arts program.

Additional Coursework Required for the Master of Arts Degree

OPTION 1: Secondary Education

- Choose one of the following courses and complete with a 3.0 or better:

EDLC 6100	Anthropological Analysis of Cultural Diversity
EDES 6103	Curriculum and Instructional Leadership
EDLA 6105	Assessment and Research Methodology
EDSS 6106	Human Development and Learning
- Complete EDES 6995, Comprehensive Exam in Secondary Education (0 semester hours, fee required)

OPTION 2: Literacy and Language Arts

The Master of Arts in Literacy and Language Arts combined with the 2042 Preliminary Single Subject Teaching Credential offers the opportunity for a graduate student to receive both a preliminary teaching credential and a Master of Arts degree. Candidates who initially applied for admission to the credential program only must add the Master of Arts degree prior to the pre-fieldwork assessment.

Program Requirements:

- All 2042 Preliminary Single Subject Teaching Credential courses
- Additional Required Coursework

EDES 6355	Introduction to Reading Difficulties
EDES 6356	Practicum I: Diagnosis and Intervention in Reading
- Comprehensive Assessment: Candidates meet with the Program Director to discuss their timeline and enrollment in either the comprehensive exam or the thesis project series.

EDES 6995	Comprehensive Exam: Literacy (0 semester hours, fee required)
	or

Thesis Option (See Program Director for detailed course sequence)

Exit Interview

The candidate must schedule an exit interview with the Program Director or Assistant Director. The exit interview must be completed prior to submitting an application for a credential and/or Master of Arts degree.

Application Process for the Preliminary Single Subject Credential

When all requirements have been completed successfully, candidates must complete a credential application through the School of Education

to the Commission on Teacher Credentialing, State of California (additional fee required; see website for more information).

Application for Master of Arts Degree

Candidates must complete an application for a Master of Arts degree with the Office of the Registrar the semester prior to the completion of degree requirements. Please follow up with the Office of the Registrar for commencement participation.

Professional 2042 Clear Teaching Credential

A student has five years after obtaining the preliminary credential to complete the requirements for the professional clear credential. This Clear Credential is intended for Catholic and private school teachers who do not have access to a district induction program. For more information, see the following section on the Professional 2042 Clear Teaching Credential.

Minor in Secondary Education (18 semester hours)

18 semester hours in Education from the following courses:

- 4 prerequisite Education courses: EDLC 400, EDES 401, EDLC 414, and EDSS 440
- 2 courses from the following: EDLC 425, EDES 434, EDES 403, EDES 484, EDES 485, EDES 486, EDES 487, EDES 488, ART 455

Bilingual Authorization

Students who demonstrate proficiency in Spanish or Mandarin may pursue the Bilingual Authorization in addition to the 2042 multiple subject credential.

Requirements:

- Interview with Director of Bilingual/Bicultural Education
- Successful completion of the following courses:

Bilingual Authorization in Spanish	
EDLC ____	Bilingualism and Bilingualism*

Professional 2042 Clear Teaching Credential

Program Director: Candace Poindexter

Assistant Program Director: Karla Colorado

Office Location: University Hall 2600

The Professional 2042 Clear Credential Program is a one-year cohort program designed for candidates who hold a 2042 Preliminary Credential, are currently teaching full-time, and do not have access to a state approved induction program at their school sites. This program leads toward the Professional Clear 2042 Teaching Credential granted by the State of California Commission on Teacher Credentialing.

The Professional 2042 Clear Credential Program coursework may be combined with graduate coursework to complete the following Master of Arts degrees: Elementary, Secondary, or Literacy Education.

Application Deadline: Applications for the Professional 2042 Clear Credential Program are due June 15. Candidates will only be admitted to begin coursework during the Fall semester of each academic year.

Formal Admission Requirements

Documentation should be submitted to the Graduate Division:

- Grade Point Average:** The GPA requirement may be met in one of the following ways: an undergraduate cumulative GPA of 2.8 or higher; GPA of 2.85 or higher in the last 60 units of the applicant's undergraduate degree; GPA of 3.0 or higher in nine units of graduate coursework.
- Verification of the Unavailability of a State of California Commission on Teacher Credentialing Approved Induction Program:** This pro-

gram is only available to candidates who do not have access to an approved induction program. Eligible applicants must submit a completed form signed by the school/district where they are employed, releasing them to participate in the Professional 2042 Clear Credential Program.

- Valid California 2042 Preliminary Teaching Credential:** Applicants must submit a copy of their valid California 2042 Preliminary Teaching Credential.
- Graduate Division Application and Application Fee:** Applicants must submit an application for admission, two recommendation forms, the Candidate Information Sheet and the application fee. The application fee is waived for LMU Alumni.
- Verification of Employment or Intent to Hire:** Applicants must submit a completed form signed by their principal verifying employment for the duration of advanced coursework in the Professional 2042 Clear Credential Program.
- Transcripts:** If applicants have earned a Master of Arts degree, official transcripts must be submitted with the degree posted. Applicants that have earned units beyond a Bachelor's degree, official transcripts from any and all institutions where courses have been taken must be submitted. For applicants that have recently completed an academic program in the School of Education, this requirement may be waived.
- Statement of Intent:** Applicants must write a 3-5 page essay describing the way in which their experiences, qualities, and goals reflect the School of Education's motto—REAL (Respect, Educate, Advocate, Lead). For a complete explanation of REAL see the School of Education website, <http://soe.lmu.edu>. This requirement is waived for LMU alumni returning after an absence of less than one year.
- Professional 2042 Clear Credential Program Contract:** A contract committing applicants to complete the advanced coursework in one year may be submitted along with the application materials. Applicants signing the Professional 2042 Clear Credential contract are eligible for a grant applied towards tuition.
- Additional Units Plan of Action Form:** Applicants must complete this form to clarify how they will obtain the additional units beyond their Bachelor's degree required to clear their credential. Applicants must have a total of 30 units beyond their Bachelor's degree to clear their credential. (See Master of Arts in Literacy Education section.)
- Interview with the Program Director/Assistant Director:** Following submission of all materials to the Graduate Division, the applicant will be contacted to schedule an interview with the Director of the Professional 2042 Clear Credential Program.

Upon completing the interview, the candidate's application is submitted to the Associate Dean for review and recommendation. Once a recommendation is made, the candidate will receive written correspondence from the School of Education and Graduate Admissions explaining their admission status. The candidate is notified of their admission status approximately two weeks after completing their admission interview with the Academic Program Director/Assistant Director.

Professional 2042 Clear Credential Advanced Coursework

After being formally admitted to the Professional 2042 Clear Credential Program, candidates will complete the following courses:

EDES 6080	Advanced Course 1: Special Populations, English-Language Learners, Health, and Technology (3 semester hours, offered Fall only)
EDCE 6965	Action Research Fieldwork Support Course 1 (1 semester hour, offered Fall only)
EDES 6081	Advanced Course 2: Special Populations, English-Language Learners, Health, and Technology (3 semester hours, offered Spring only)
EDCE 6966	Action Research Fieldwork Support Course 2 (1 semester hour, offered Spring only)

Additional Semester Hours

Once candidates finish the Professional 2042 Clear Credential Program they cannot clear their credential until the additional 22 graduate semester hours have been successfully completed and official transcripts are sent to the Credential Office in the School of Education.

Master of Arts in Literacy Education

In addition to the Professional 2042 Clear Credential coursework above, the following additional coursework will result in a Master of Arts in Literacy Education:

EDES 6340	Educational Linguistics
EDES 6341	Foundations of Literacy Instruction
EDES 6342	Diagnosing and Developing Literacy Skills
EDES 6343	Practicum in Diagnosing and Developing Literacy Skills
EDES 6103	Curriculum and Instructional Leadership
EDES 6344	Seminar in Literacy, Leadership and Professional Development
EDES 6345	Literacy Fieldwork
(1 semester hour)	
EDES 6995	Comprehensive Examination (fee required, 0 semester hours)

One of the following courses:

EDLC 6100	Anthological Analysis of Cultural Diversity
EDLA 6105	Assessment and Research Methodology
EDSS 6106	Human Development and Learning

Application for Clear Credential

When all requirements have been completed, candidates must complete an application for a clear Professional Clear 2042 Teaching Credential (additional fee required, see website for more information).

Early Childhood Education

Program Director: Leslie Ponciano

Office Location: University Hall 2600

Master of Arts in Early Childhood Education

The graduate program in Early Childhood Education is a multi-disciplinary two-year cohort program leading to a Master of Arts degree. Students will comprehensively examine the whole child at an advanced level, prenatal development through age 8. In addition to an in-depth understanding of all developmental domains; cognitive, language, social, emotional, and physical, students will gain knowledge of theory, research and best practices. Coursework will include an emphasis on significant issues found in early childhood education, such as environmental influences, children with special needs, diversity, second language learners, public policy, and social justice. This program will prepare students for careers in early childhood education program delivery, such as teaching and administration; in community college instruction; in policy and advocacy; or to pursue further graduate study.

Learning Outcomes

In accordance with the Mission and Goals of the School of Education, the Early Childhood Education Program strives to work collaboratively with students in a supportive environment to create professionals who value and respect all children and families, advocate for social justice, and demonstrate cultural competence. Graduates of the ECE program will integrate theory and research into practice and policy, contribute to our evolving knowledge of children, and exemplify best practices in teaching and caring for young children.

Upon completion of the program,

- Students will demonstrate mastery of early childhood education terminology as evidenced through exams, written assignments, and oral presentations.
- Students will apply advanced knowledge of developmental theories and milestones within educational settings.
- Students will analyze, design, and conduct research, observations, and assessments.
- Students will demonstrate leadership and advocacy in regards to the relevant issues that families and children face.
- Students will demonstrate sensitivity to cultural, ethical, disability, and economic issues that impact developmental and educational progress.

For additional information, please refer to the School of Education Mission and Goal Statements.

Graduate Admission Requirements

Application to the Early Childhood Education Master of Arts degree program is accomplished by completing and submitting the following to the School of Education (unless otherwise noted).

Education Requirements: Bachelor's degree in child development or related field such as psychology, social work, urban studies, liberal studies, etc. Applicants with an unrelated Bachelor's degree must demonstrate completion at a passing level (C or better) of 12 ECE semester hours, and a minimum of 60 hours of fieldwork (both observation and direct involvement with children will be considered).

GPA Requirement: A cumulative undergraduate GPA of 2.8 or higher or a GPA of 2.85 or higher in the last 60 units of the applicant's undergraduate degree or a GPA of 3.0 or higher obtained in 9 units of graduate work. Students who do not meet this requirement may be recommended to the Exceptions Committee by the Program Director.

Submission of Graduate Application and Application Fee: Applicants may either submit the LMU Graduate application and fee to the Graduate Division or complete the online application.

Candidate Information Sheet: Applicants must submit the Candidate Information Sheet to the Graduate Division.

Statement of Intent: Applicants must write a 3–5 page essay addressing: 1) elements of your educational and/or personal experience that have contributed to your interest in pursuing graduate study in early childhood education; 2) your career objective(s) and the abilities and skills you possess that will enhance your chances of success; 3) how LMU's MA program will assist you in achieving your goals, and if applicable; 4) your research area of interest; and 5) any plans for obtaining a subsequent advanced degree.

Letters of Recommendation: Applicants must submit three letters of recommendation to the Graduate Division. At least one letter must verify the applicant's experience and familiarity with young children. At least one letter must verify the student's academic experience and abilities.

Transcripts: Applicants must submit, to the Graduate Division, two sets of official transcripts with their bachelor's degree posted. If applicants are in the process of completing their degree at the time of application, they must submit official transcripts with their degree posted by the start of registration for the following semester. Candidates who have attended more than one college or university must submit two sets of official transcripts from each college/university attended.

Observation/Volunteer Hours Plan of Action: Candidates must complete at least 60 hours of experience working with culturally diverse children between the ages of 0–5 years. Both observation and direct involvement are valid as well as hours accumulated as part of a course requirement.

Tuberculin Test: Candidates must submit an official copy of their tuberculin skin test results, given within one year.

Technology Requirement: Candidates may satisfy the technology requirement by either completing a self-verification form or verifying the completion of an approved 2042 course through another institution. Candidates must register for LiveText during the first prerequisite course. The ePortfolio fee is assessed during the first semester of enrollment.

Interview with the Program Director: Following the submission of all requirements to the Graduate Division, the candidate will be asked to schedule a personal interview with the Director of the Early Childhood Education Program. The interview will not be scheduled until all letters of recommendation have been received.

Upon completing the interview, the candidate's application is submitted to the Associate Dean for review and recommendation. Once a recommendation is made, the candidate will receive written correspondence from the School of Education and Graduate Admissions explaining their admission status.

Advisement: Immediately upon being either Controlled or Provisionally admitted, the student must schedule an appointment with the Academic Advisor. All candidates are required to meet with the Academic Advisor once a semester. Candidates are advised on appropriate course sequence and program information.

Coursework

Traditional Candidates: Candidates following this path will complete the coursework described below with a grade of "B" (3.0) or better before beginning the culminating experience. Traditional candidates will follow a cohort Fall/Spring/Summer schedule in Years 1 and 2.

Intern/Practitioner Candidates: Candidates following this path are employed full-time at an early childhood education setting that has a partnership with LMU. The candidates take courses and must achieve a grade of "B" (3.0) or better while teaching full-time. Some intern/practitioner candidates will follow a cohort Summer/Fall/Spring schedule in Year 1 and a Fall/Spring/Summer schedule in Year 2.

Year 1

EDES 5400	Developmental Theories (3 semester hours)
EDES 5401	Infancy (3 semester hours)
EDCE 5961	Early Childhood Fieldwork 1 (1 semester hour)—optional*
EDCE 5962	Early Childhood Fieldwork 2 (1 semester hour)—optional*
EDES 5402	Early Childhood (3 semester hours)
EDES 5403	Cognition and Language (3 semester hours)
EDES 5404	Environmental Influences on Development (3 semester hours)
EDES 5405	ECE Programs and Curriculum (3 semester hours)

Year 2

EDES 5406	Social and Emotional Development (3 semester hours)
EDES 5407	Research Methods and Early Childhood Assessment (3 semester hours)
EDCE 5963	Early Childhood Education Fieldwork 3 (1 semester hour)—optional*
EDES 5408	ECE Program Administration (Lecture and Fieldwork) (3 semester hours)
EDES 5964	Leadership and Clinical Practice (2 semester hours)—Spring

Culminating Experience:

EDES 6995	Comprehensive Exam (0 semester hours)
	or
EDES 6955	Thesis(4 semester hours)

* *Intern/practitioner candidates have the option of enrolling in EDCE 5961, 5962, and 5963 for professional development.*

All candidates that do not complete 3 semester hours in EDCE 5961, 5962, and 5963 must enroll in an additional 3-semester-hour graduate-level course approved by the Program Director.

Application for Master of Arts Degree

Candidates must complete an application for a Master of Arts degree with the Office of the Registrar the semester prior to the completion of degree requirements.

Literacy Education

Program Director: Candace Poindexter

Assistant Program Director: Karla Colorado

Academic Advisor: Gloria Davidson

Office Location: University Hall 2600

Learning Outcomes

In accordance with the Mission and Goals of the School of Education, the Literacy Education Programs strive to work collaboratively in a student-centered environment to be professionals who act to value and respect all individuals, promote social justice, promote cultural responsiveness, integrate theory and practice, develop moral, intellectual, responsible, and caring leaders and to collaborate and share leadership across communities.

Programs also strive to be, and to educate professionals to be, educators who: Respect and value all individuals and communities; Educate by integrating theory and practice; Advocate for access to a socially just education; and Lead in order to facilitate transformation.

For additional information, please refer to the School of Education Mission and Goal statements.

Master of Arts in Reading Instruction (online option also available)

This program offers an area of specialization in reading instruction. It is a carefully planned sequence of thirty semester hours designed to prepare

the candidate with professional competencies and skills to more effectively teach and promote literacy skills at the elementary and secondary school levels. This degree is offered as a traditional program or as an online program.

Admission Requirements

Application to the Reading Instruction Master of Arts degree program is accomplished by completing and submitting the following to the School of Education (unless otherwise noted).

1. **Graduate Division Application:** Submitted directly to the Graduate Division Office.
2. **Transcripts:** Two copies of official transcripts from all colleges/universities attended, sent directly to the Graduate Division Office.
3. **GPA Requirement:** Minimum cumulative undergraduate GPA of 2.8; or a 2.85 GPA in the last 60 semester units of undergraduate coursework taken; or a 3.0 GPA in at least 9 units of graduate level coursework is required.
4. **Reading Instruction Program Application:** Form may be obtained in the School of Education
5. **Statement of Intent**
6. **Two Letters of Recommendation:** Forms may be obtained in the School of Education or online at <http://soe.lmu.edu>.
7. **Interview with the Program Director/Assistant Director:** Upon completing the interview, the candidate's application is submitted to the Assistant Dean for review and recommendation. Once a recommendation is made, the candidate will receive written correspondence from the School of Education and Graduate Admissions explaining their admission status. The candidate is notified of their admission status approximately 2 weeks after completing their admission interview with the Academic Program Director/Assistant Director.

Once the above have been completed, the candidate's file will be submitted to the Associate Dean for review. The Associate Dean may accept, defer or deny admission.

Program Requirements

Core courses:

*EDLC 6100	Anthropological Analysis of Cultural Diversity
EDES 6103	Curriculum and Instructional Leadership
EDLA 6105	Assessment and Research Methodology
*EDSS 6106	Human Development and Learning

*Students may choose either EDLC 6100 or EDSS 6106.

Courses in Area of Specialization:

EDES 6350	Educational Linguistics Comprehensive Assessment (see next section)
EDES 6349	Assessment of Reading Performance
EDES 6344	Seminar in Literacy, Leadership and Professional Development
EDES 6354	Foundations of Literacy Instruction
EDES 6355	Diagnosing and Developing Literacy Skills
EDES 6356	Practicum in Diagnosing and Developing Literacy Skills

Comprehensive Assessment

EDES 6995	Comprehensive Examination: Literacy (fee required, 0 semester hours) or
-----------	--

Thesis Option with approval:

EDLA 6950	Advanced Research Methods
EDLA 6951	Advanced Research Design (1 semester hour)
EDES 6955	Master of Arts Thesis I (1 semester hour)
EDES 6956	Master of Arts Thesis II (1 semester hour) as needed
EDES 6957	Master of Arts Thesis III (1 semester hour) as needed

Reading Certificate Program (online option also available)

The Reading Certificate is a state certification which authorizes the holder to assess student reading and provide reading instruction in response to those assessments. Certificate holders are also authorized to develop, implement, and adapt the reading content curriculum and assist classroom teachers in these areas, at one or more school sites. This program

may be taken concurrently with the Master of Arts in Child and Adolescent Literacy. Non-credentialed Catholic and private school teachers will receive an LMU endorsement in Literacy. The Certificate Program is also offered on-line.

Admission Requirements

1. **Graduate Division Application:** Submitted directly to the Graduate Division Office.
2. **Transcripts:** Two copies of official transcripts from all colleges/universities attended. These should be sent directly to the Graduate Division Office.
3. **Reading Certificate Program Application:** Form may be obtained in the School of Education.
4. **Statement of Intent**
5. **Two Letters of Recommendation:** Forms may be obtained in the School of Education.
6. **Interview with the Program Director/Assistant Director:** Upon completing the interview, the candidate's application is submitted to the Associate Dean for review and recommendation. Once a recommendation is made, the candidate will receive written correspondence from the School of Education and Graduate Admissions explaining their admission status. The candidate is notified of their admission status approximately two weeks after completing their admission interview with the Program Director/Assistant Director.
7. **GPA Requirement:** Minimum cumulative undergraduate GPA of 2.8; or a 2.85 GPA in the last 60 semester units of undergraduate coursework taken; or a 3.0 GPA in at least 9 units of graduate level coursework is required.
8. **Teaching Credential:** Copy of current, valid teaching credential.
9. **CBEST:** Verification of CBEST passage.
10. **Teaching Experience Verification:** Verification of three years successful, full-time teaching experience in grades preschool through adult.

Course Requirements

EDES 6103	Curriculum and Instructional Leadership
EDES 6340	Educational Linguistics
EDES 6341	Foundations of Literacy Instructions
EDES 6342	Diagnosing and Developing Literacy Skills
EDES 6343	Practicum: Diagnosing and Developing Literacy Skills

The Reading and Language Arts Specialist Credential

The Reading and Language Arts Specialist Credential program prepares educators to play a leadership role in materials selection, program development, and professional development at the school, district and county levels. The first five courses in this program are the same as those for the Reading Certificate. This program may be taken concurrently with the Master of Arts in Child and Adolescent Literacy.

Course Requirements

EDES 6103	Curriculum and Instructional Leadership
EDLA 6105	Assessment and Research Methodology
EDES 6340	Educational Linguistics
EDES 6341	Foundations of Literacy Instruction
EDES 6342	Diagnosing and Developing Literacy Skills
EDES 6343	Practicum: Diagnosing and Developing Literacy Skills
EDES 6344	Seminar in Literacy Leadership and Professional Development
EDES 6346	Advanced Practicum for At Risk Students
EDES 6347	Research and Trends in Literacy for At-Risk Students
EDES 6348	Field Experience in Professional Literacy Leadership
EDES 6349	Assessment of Reading Performance

Educational Studies

Program Director: Candace Poindexter

Assistant Program Director: Karla Colorado

Office Location: University Hall 2600

needed

Learning Outcomes

In accordance with the Mission and Goals of the School of Education, the Educational Studies Program strives to work collaboratively in a student-centered environment to be professionals who act to value and respect all individuals, promote social justice, promote cultural responsiveness, integrate theory and practice, develop moral, intellectual, responsible, and caring leaders and to collaborate and share leadership across communities.

Programs also strive to be, and to educate professionals to be, educators who: Respect and value all individuals and communities; Educate by integrating theory and practice; Advocate for access to a socially just education; and Lead in order to facilitate transformation.

For additional information, please refer to the School of Education Mission and Goal statements.

Master of Arts in Educational Studies

This program provides experiences which are tailored to meet the general teaching and curriculum needs of teachers and other professionals. The teaching credential is not required. The candidate for this degree selects coursework centered on his/her goals and objectives. This program allows a maximum flexibility in selecting a course of study for a Master's degree.

Admission Requirements

Application to the Master of Arts in the Educational Studies program requires the completion and submission the following:

- 1. Graduate Division Application:** Submitted directly to the Graduate Division Office.
- 2. Transcripts:** Two copies of official transcripts from all colleges/universities attended. These should be sent directly to the Graduate Division Office.
- 3. GPA Requirement:** A minimum cumulative undergraduate GPA of 2.8; or a 2.85 GPA in the last 60 semester units of undergraduate coursework taken; or a 3.0 GPA in at least 9 units of graduate level coursework is required.
- 4. Statement of Intent**
- 5. Educational Studies Program Application:** Available in the School of Education.
- 6. Two Letters of Recommendation:** Forms may be obtained in the School of Education.
- 7. Interview with the Program Director/Assistant Director:** Upon completing the interview, the candidate's application is submitted to the Associate Dean for review and recommendation. Once a recommendation is made, the candidate will receive written correspondence from the School of Education and Graduate Admissions explaining their admission status. Candidates are notified of their admission status approximately two weeks after completing their admission interview with the Academic Program Director/Assistant Director.

Program Requirements

Four Core Courses

EDLC 6100	Anthropological Analysis of Cultural Diversity
EDES 6103	Curriculum and Instructional Leadership
EDLA 6105	Assessment and Research Methodology
EDSS 6106	Human Development and Learning

Electives: Student selects six additional 5000/6000 level Education classes with approval of Program Director (depending on student's goals), two of which may be in another discipline. At least 18 semester hours of coursework in the total program must be at the 6000 level.

Comprehensive Assessment

EDES 6995	Comprehensive Examination: Educational Studies (fee required, 0 semester hours)
	or

Thesis Option with approval:

EDLA 6950	Advanced Research Methods
EDLA 6951	Advanced Research Design (1 semester hour)
EDES 6955	Master of Arts Thesis I (1 semester hour)
EDES 6956	Master of Arts Thesis II (1 semester hour) as needed
EDES 6957	Master of Arts Thesis III (1 semester hour) as needed

Elementary and Secondary Education Undergraduate Program

Introduction

The Department of Elementary and Secondary Education offers credential programs and minors in Education and is committed to preparing excellent teachers to educate the diverse population in California's K-12 public and private schools. As an NCATE-accredited program, we offer professional preparation in research-based exemplary practices that include the requisite knowledge, skills, and dispositions required to ensure equity and excellence in education.

Academic Programs

Elementary Education

Secondary Education

Minor in Education

Credential Programs

Preliminary California Teaching Credentials are offered in Elementary Education (SB 2042 Multiple Subjects) and Secondary Education (SB 2042 Single Subject)

If you are interested in the following programs, please see the appropriate Department. For Elementary or Secondary Education with a Bilingual Emphasis see the Department of Language and Culture and for Special Education see the Department of Educational Support Services.

Teaching credential requirements (listed with each program) are governed by the California Commission on Teacher Credentialing (CCTC) and are subject to change.

Students interested in pursuing credentials in Elementary or Secondary Education must attend an information session to begin the application process. Contact the School of Education Admissions Coordinator at soeinfo@lmu.edu for information session dates and times.

Initial Application Process for Elementary and Secondary Education Programs

- Attend a mandatory information session to receive the following application materials:
 - School of Education Application
 - Recommendation forms
 - Subject matter Plan of Action
 - Statement of Intent guidelines
 - Technology Self-Verification form
- A minimum GPA of 2.8 is required. Students who do not meet this requirement must schedule an appointment with the Academic Program Director to be considered for admission.

APPLICATION DEADLINES: Priority application deadlines are as follows:

Fall semester—June 15

Spring semester—November 15

Summer session—March 15

Students applying for admission to the School of Education are highly encouraged to submit their applications for admission and all supporting documents by the priority deadlines outlined above. Qualified applicants meeting this deadline will be given priority consideration for admission.

Contact the School of Education Admissions Coordinator at 310.338.7845 or soeinfo@lmu.edu for information session dates and times.

Technology Requirement

All education courses require the usage of LiveText. An Electronic Portfolio fee will be assessed upon admission to the School of Education.

Education Minors

Education minors are offered in Elementary Education and Secondary Education. Students may declare a minor in Education so that their Education coursework is acknowledged in their official transcript. Students pursuing a minor must complete 18 semester hours in Education coursework. Please see the Elementary or Secondary Program section for specific courses.

In order to maximize enrollment in Education courses within the undergraduate program, students are strongly encouraged to declare the Education minor early in their career. The Education minor is not applicable to Liberal Studies majors (Multiple Subject Credential). **Completion of an Education minor does not equal completion of the requirements for a teaching credential.** Students may complete the Education minor without completing all the requirements for a teaching credential.

Students wishing to be admitted to the Minor in Education program must complete all the requirements for admission to the School of Education except for the subject matter competency and CBEST requirements. Students must meet with the Program Director to declare the minor and obtain permission for additional coursework.

Elementary Education

Preliminary California Teaching Credential

The 2042 Multiple Subject Preliminary Credential program is designed for students who are seeking teaching positions in grades K-5 or any self-contained classrooms in grades 6-8. A student successfully completing this program is eligible to receive a minor in Elementary Education and to apply for a California Preliminary Multiple Subject Credential.

Requirements for Formal Admission

Review by the Teacher Admission and Advisory Committee (TAAC): After the requirements for formal admission, outlined below, have been completed and all application materials submitted, the candidate's file will be presented to TAAC for review. It is the candidate's responsibility to ensure that all items have been received. Candidates will be notified of the Committee's decision in writing. All documents become the property of the University and will not be released to any person or institution.

All of the following requirements must be completed and submitted to the School of Education, University Hall 2100, prior to scheduling an interview with the Academic Program Director.

- Complete three of the following four prerequisite courses and maintain a GPA of 2.8 or better:

EDLC 400	Sociocultural Analysis of Education
EDES 401	Educational Psychology for the Childhood and Adolescent Years
EDLC 414	Theories of Second Language Acquisition
EDSS 440	Introduction to the Culturally and Linguistically Diverse Student with Exceptional Needs
- Teacher Education Application form
- Statement of Intent
- Candidate Information Sheet
- Submit one set of official transcripts from all colleges and universities attended other than LMU
- Four letters of recommendations. One letter must be from your major advisor
- Verification of 20 hours of experience working with culturally and linguistically diverse youth groups, ages 4-13
- Fingerprint Clearance: The original Certificate of Clearance must be received back from the California Commission on Teacher Credentialing (CCTC) at the School of Education
- Tuberculosis (TB) Skin Test results: Candidates must submit an official copy of their TB test results, given within one year.
- California Basic Educational Skills Test (CBEST) original passing score report
- U.S. Constitution Requirement—Satisfied by one of the following:
 - Successfully completing one of the following LMU courses: AMCS 161, HIST 161, HIST 162, or POLS 135; or
 - Passing an approved examination through the History Department; or
 - Completing an approved course at another institution.
- Subject Matter Plan of Action completion:

Students must demonstrate mastery of the required subject matter by passing the Multiple Subject California Subject Matter Exam for Teachers (Multiple Subject CSET). Results of the CSET are valid for only five years.

13. Disposition Rubric: Candidates are expected to uphold both academic and non-academic standards embraced by the School of Education. Non-academic factors include behaviors, dispositions, and attitudes that educators must positively develop. The Disposition Rubric will be used to assess the professional dispositions of our candidates.

14. Technology Requirement

15. Interview with Academic Program Director/Assistant Director

Advising

Academic Advising: All candidates are required to meet with the Academic Advisor once a semester. Candidates are advised on appropriate course sequence and program information.

Professional Advising: All candidates are required to meet with the Professional Advisor (Program Director/Assistant Director) once a semester. Candidates will discuss academic course progress, career plans and goals, dispositional issues and other issues related to the teaching profession.

Requirements for Student Teaching

Review by the Teacher Advisory Review Committee (TARC): After the requirements for student teaching, outlined below, have been completed the candidate will apply to TARC for review. Applications will be submitted to the Academic Advisor. It is the candidate's responsibility to ensure that all items have been completed and received. The candidate will be notified of the Committee's decision in writing. All documents become the property of the University and will not be released to any person or institution.

All of the following are required once you have been formally admitted to the School of Education and must be fulfilled prior to enrollment in student teaching:

- A "B" (3.0) grade point average must be maintained in all education coursework. A "D" (1.0) is not acceptable in any of the coursework in the sequence.
- Fingerprint Clearance—A signed Violation Affidavit.
- TB test results—Valid within one year prior to student teaching.
- Health Education requirement (verified on transcripts), satisfied by one of the following:
 - Completing EDSE 8000 (1 semester hour); or
 - Completing a 2042 approved health education course through another institution.
- Multiple Subjects CSET original passing score report
- Disposition Rubric: Candidates are expected to uphold both academic and non-academic standards embraced by the School of Education. Non-academic factors include behaviors, dispositions, and attitudes that educators must positively develop. The Disposition Rubric will be used to assess the professional dispositions of our candidates.
- Complete the following methods courses (maintaining a GPA of 3.0 or better)

EDES 402	Teaching Reading in Today's Elementary Classrooms
EDLC 425	Methods in English Language Development and Specially Designed Academic Instruction in English
EDES 434	Elementary Curriculum and Methods
- Teaching Performance Assessment (TPA) Task 1 and Task 2 (fee based, 0 semester hour courses)

EDCE 461	TPA Task 1 Subject Specific Pedagogy
EDCE 462	TPA Task 2 Designing Instruction

Enrolling in Student Teaching

In order to be accepted and successfully complete student teaching, all students must comply with the policies and requirements set forth by the School of Education. All student teacher placements will be made by the School of Education.

- Students must clear all Incompletes prior to student teaching
- Students must schedule an appointment with the Academic Advisor
- Students must complete the fieldwork application (available from the Academic Advisor) and schedule an interview with the Coordinator of Fieldwork
- Enroll in EDCE 410, Elementary Directed Teaching (9-12 semester hours)

5. Enroll in EDCE 463, TPA Task 3 Assessing Learning
6. Enroll in EDCE 464, TPA Task 4 Culminating Teaching Experience

Reading Instruction Competence Assessment (RICA)

After completion of EDES 402, candidates are eligible to take the RICA exam. Candidates are required to take, pass, and submit an original passing score report to the School of Education prior to applying for the preliminary teaching credential.

Exit Interview

The candidate must schedule an exit interview with the Director or Assistant Director. The exit interview must be completed prior to submitting an application for a credential.

Application Process for the Preliminary Multiple Subject Credential

- a. Successful completion of all the requirements outlined above
- b. Students must submit an official transcript with the Bachelor's degree posted to the Credential Office in the School of Education.
- c. Complete the Credential Application through the School of Education to the Commission on Teacher Credentialing, State of California (additional fee required; see website for more information).

Professional 2042 Clear Teaching Credential

A student has five years after obtaining the preliminary credential to complete the requirements for the professional clear credential. LMU offers a Clear Credential intended for Catholic and Private school teachers who do not have access to a district induction program. For more information, contact the Academic Program Director, Dr. Candace Poinexter, at 310.338.2863.

Secondary Education

Preliminary California Teaching Credential

The 2042 Single Subject Preliminary Credential program is designed for students who are seeking teaching positions in grades 9-12, or in 6-8 school settings that require teachers to teach in departments. A student successfully completing this program is eligible to receive a minor in Secondary Education as well as to apply for a California Preliminary Single Subject Credential.

The following Single Subject Preliminary Credentials are offered through the School of Education:

- a. Art*
- b. Biology*
- c. Chemistry*
- d. English*
- e. French
- f. Mathematics*
- g. Physics
- h. Social Science*
- i. Spanish

* Content area with an LMU undergraduate approved program by the California Commission on Teacher Credentialing (CCTC). However, students can major in any content area and still be eligible to receive a Single Subject Preliminary Credential.

Requirements for Formal Admission

Review by the Teacher Admission and Advisory Committee (TAAC): After the requirements for formal admission, outlined below, have been completed and all application materials submitted, the candidate's file will be presented to TAAC for review. It is the candidate's responsibility to ensure that all items have been received. Candidates will be notified of the Committee's decision in writing. All documents become the property of the University and will not be released to any person or institution.

All of the following requirements must be completed and submitted to the School of Education, University Hall 2100, prior to scheduling an interview with the Academic Program Director.

1. Complete three of the following four prerequisite courses and maintain a GPA of 2.8 or better:

EDLC 400	Sociocultural Analysis of Education
EDES 401	Educational Psychology for the Childhood and Adolescent Years

- | | |
|----------|--|
| EDLC 414 | Theories of Second Language Acquisition |
| EDSS 440 | Introduction to the Culturally and Linguistically Diverse Student with Exceptional Needs |

Prerequisite courses are only available to sophomores (30 semester hours earned) or higher. Interested first year students should contact the Academic Program Director. Plan to complete the fourth prerequisite prior to student teaching.

2. Teacher Education Application form
3. Statement of Intent
4. Candidate Information Sheet
5. Submit one set of official transcripts from all colleges and universities attended other than LMU
6. Four letters of recommendations: three out of the four must be submitted for an interview. One letter must be from your major advisor.
7. Verification of 20 hours of experience working with culturally and linguistically diverse youth groups, ages 4-13, or Plan of Action of Completion of 20 hours prior to student teaching
8. Fingerprint Clearance: The original Certificate of Clearance must be received back from the California Commission on Teacher Credentialing (CCTC) at the School of Education.
9. Tuberculosis (TB) Skin Test results: Candidates must submit an official copy of their TB test results, given within one year.
10. California Basic Educational Skills Test (CBEST) original passing score report
11. U.S. Constitution Requirement—Satisfied by one of the following:
 - Successfully completing one of the following LMU courses: AMCS 161, HIST 161, HIST 162, or POLS 135; or
 - Passing an approved examination through the History Department; or
 - Completing an approved course at another institution.
12. Subject Matter Plan of Action completion
13. Students must demonstrate mastery of the required subject matter by passing the Single Subject California Subject Matter Exam for Teachers (Single Subject CSET); or

Students must complete an LMU Undergraduate Approved Subject Matter Waiver Program (Art [approval pending], Biology, Chemistry, English, Mathematics, Physical Education (Dance), Social Science and Spanish [approval pending])

Results of the CSET are valid for only five years.
14. Disposition Rubric: Candidates are expected to uphold both academic and non-academic standards embraced by the School of Education. Non-academic factors include behaviors, dispositions, and attitudes that educators must positively develop. The Disposition Rubric will be used to assess the professional dispositions of our candidates.
15. Technology Requirement
16. Interview with Academic Program Director

Requirements for Student Teaching

Review by the Teacher Advisory Review Committee (TARC): After the requirements for student teaching, outlined below, have been completed the candidate will apply to TARC for review. Applications will be submitted to the Academic Advisor. It is the candidate's responsibility to ensure that all items have been completed and received. The candidate will be notified of the Committee's decision in writing. All documents become the property of the University and will not be released to any person or institution.

All of the following are required once you have been formally admitted to the School of Education and must be fulfilled prior to enrollment in student teaching:

1. A "B" (3.0) grade point average must be maintained in all education coursework. A "D" (1.0) is not acceptable in any of the coursework in the sequence.
2. Fingerprint Clearance—A signed Violation Affidavit.
3. TB test results—Valid within one year prior to student teaching.
4. Health Education requirement (verified on transcripts), satisfied by one of the following:
 - Completing EDES 8000 (1 semester hour); or
 - Completing a 2042 approved health education course through another institution.

5. Single Subject CSET in credential content area (original passing score report) or official letter confirming the completion and approval of an LMU Undergraduate Subject Matter Waiver Program. See your Major Advisor for further information.
6. Disposition Rubric: Candidates are expected to uphold both academic and non-academic standards embraced by the School of Education. Non-academic factors include behaviors, dispositions, and attitudes that educators must positively develop. The Disposition Rubric will be used to assess the professional dispositions of our candidates.
7. Complete the following methods courses (maintaining a GPA of 3.0 or better):

EDES 403	Reading and Content Learning in Middle and Secondary Schools
EDLC 425	Methods in English Language Development and Specially Designed Academic Instruction in English

And one of the following courses, depending on the credential content area:

ART 455	Methods in Teaching Secondary Art
<i>or</i>	
EDES 484	Methods in Teaching Secondary Languages Other than English; or
EDES 485	Methods in Teaching Secondary Social Studies; or
EDES 486	Methods in Teaching Secondary English; or
EDES 487	Methods in Teaching Secondary Science
<i>or</i>	
EDES 488	Methods in Teaching Secondary Math
8. Teaching Performance Assessment (TPA) Task 1 and Task 2 (fee based, 0 semester hour courses)

EDCE 461	TPA Task 1 Subject Specific Pedagogy (in content area)
EDCE 462	TPA Task 2 Designing Instruction

Enrolling in Student Teaching

In order to be accepted and successfully complete student teaching, all students must comply with the policies and requirements set forth by the School of Education's Clinical Education Department. All student teacher placements will be made by the Clinical Education Department.

1. Students must clear all Incompletes prior to student teaching
2. Students must schedule an appointment with the Academic Advisor
3. Students must complete the fieldwork application (available from the Academic Advisor) and schedule an interview with the Coordinator of Fieldwork.
4. Enroll in EDCE 412 Secondary Directed Teaching (9-12 semester hours).
5. Enroll in EDCE 463 TPA Task 3 Assessing Learning (0 semester hours, fee required).
6. Enroll in EDCE 464 TPA Task 4 Culminating Teaching Experience (0 semester hours, fee required).

Application Process for the Preliminary Single Subject Credential

1. Successful completion of all of the requirements outlined above
2. Students must submit an official transcript with the degree posted to the Credential Office in the School of Education.
3. Complete the Credential application through the School of Education to the Commission on Teacher Credentialing, State of California (additional fee required; see website for more information).

Professional 2042 Clear Teaching Credential

A student has five years after obtaining the preliminary credential to complete the requirements for the professional clear credential. LMU offers a 2042 Professional Clear Credential Program intended for Catholic and private school teachers who do not have access to a district induction program. For more information, contact the Academic Program Director, Dr. Candace Poindexter, at 310.338.2863.

Language and Culture in Education

Course descriptions for Language and Culture in Education have EDLC as the rubric.

Traditional Candidates

Course Requirements

Candidates following this path will complete all coursework before beginning their culminating experience as student teachers. Candidates must successfully pass all components of the CBEST for formal admission in the 2042 credential. The School of Education will facilitate candidates' placement as student teachers. Placements must be completed in the subject or grade level that is authorized by the credential.

Pre-Requisite Coursework

Candidates will complete the courses with a grade of "B" (3.0) or better prior to enrolling in EDCE 5976, TPA 3 and TPA 4:

EDLC 5000	Cultural Paradigms of Education
EDES 5001	Applied Educational Psychology for the Childhood and Adolescent Years
EDLC 5003	Second Language Acquisition: Theory and Policy
EDSS 6001	Teaching Culturally and Linguistically Diverse Students with Exceptional Needs

Student Teaching Requirements

1. Complete the following three courses with a grade of "B" (3.0) or better prior to enrolling in student teaching:

Methods Coursework:

EDLC 5200	Methodology in English Language Development and Specially Designed Academic Instruction in English for Elementary Educators
EDES 6201	Foundations of Elementary Literacy Instruction
EDES 6200	Elementary Curriculum and Methods

BCLAD—Spanish

EDLC 5320	Chicano/Latino Cultures: An Interdisciplinary Perspective
EDLC 5324	Bilingualism & Biliteracy
EDLC 6320	Primary Language Methodology in Bilingual Settings
<i>or</i>	

BCLAD—Mandarin

EDLC 5324	Bilingualism & Biliteracy
EDLC 5330	Chinese/American/American Chinese Cultures: An Interdisciplinary Perspective
EDLC 6330	Methodology for Chinese Language Instruction in Bilingual Settings

2. **Teaching Performance Assessments:** Tasks 1 and 2 (0 semester hours, fee required):

EDCE 5950	TPA Task 1
EDCE 5951	TPA Task 2
3. **Health Education for Educators:** Candidates may satisfy the Health Education requirement in one of the following ways:
 1. Successful completion of EDES 8000
 2. Successful completion of a 2042 approved course through another institution. It is recommended that the candidate obtain approval from the School of Education Credential Office prior to taking class. Official transcripts must be submitted as evidence of course completion.
 3. **Professional Advising:** Schedule an appointment with the Bilingual/Bicultural Program Director/Assistant Director.
 4. **CSET Score Report:** Original score report verifying 100% successful completion of all sections of the Multiple Subjects CSET.
 5. **Disposition Rubric Score:** The professor for EDES 6201 will submit a score to the Academic Advisor.
 6. **Fieldwork Application:** Candidates must complete the fieldwork application and violation affidavit with the Academic Advisor. They must then schedule an interview with the Coordinator of Clinical Education.
 7. **CSET, LOTE, Test 3:** BCLAD candidates must pass Test 6 (Spanish or Mandarin language) of the BCLAD exam prior to enrolling in student teaching. Candidates who are completing or have completed a degree with a Spanish or Chinese major are exempt from this requirement.

Culminating Fieldwork Requirements

1. **Student Teaching:**

EDCE 5976	Bilingual Elementary Directed Teaching (9 semester hours)
-----------	---

2. **TPA Tasks 3 and 4:** 0 semester hours, fee required
EDCE 5952 TPA Task 3
EDCE 5953 TPA Task 4
3. **Complete EDLC 6995 Comprehensive Exam in Bilingual Elementary Education:** Fee required; or Master's Thesis Option
4. **Exit Interview:** The candidate must schedule an exit interview with the Bilingual Education Program Director. The exit interview must be completed prior to submitting an application for a credential and Master of Arts degree.

Reading Instruction Competence Assessment (RICA)

After completing EDES 6201 (Foundations of Elementary Literacy Instruction), candidates are required to take, pass, and submit an original score report of the RICA to the School of Education prior the completion of their student teaching.

Application for Credential

When all requirements have been completed, candidates must complete an application for a preliminary teaching credential (additional fee required, see SOE website for more information).

Application for Master of Arts Degree

Candidates must complete an application for a Master of Arts degree with the Office of the Registrar the semester prior to the completion of degree requirements.

Intern/Practitioner Candidates

University Intern: A candidate following this path is employed full-time at a public school in a district that has a partnership with LMU. The candidate takes courses while teaching full-time. This employment status, along with additional supervision in the classroom provided through LMU, fulfills the field requirements of the credential. Candidates seek out their own employment as an Intern unless the candidate is part of a cohort program where placement is facilitated through the cohort program. The Intern must be employed to teach at least 60% in the area of the credential, and the contract must state that the teacher is contracted to teach in the subject/grade in which the candidate is seeking a credential. It is necessary that the student hold a University Intern credential in order to be in the Intern program.

University Intern Admission Requirements

All applicants to the University Intern Program must complete all the application requirements for the Bilingual Elementary Education Program. Eligibility for the Intern Credential is determined by the following requirements set forth by the California Commission on Teacher Credentialing (CCTC):

University Intern Credential Requirements

- Original approved Basic Skills Proficiency examination score report with passing score
- Original CSET score report with passing score
- Verification the U.S. Constitution requirement has been met
- Undergraduate degree posted on official transcripts
- Verification of employment
- Commit to completing the academic program in two years
- Certificate of Clearance (fingerprint application and fee)
- Application for credential and fee

Once candidates have satisfied the above guidelines, an application for the University Intern credential is available through the Academic Advisor. The California Commission on Teacher Credentialing (CCTC) is responsible for the awarding of the University Intern Credential.

Teacher Practitioner: In this program, a candidate is employed full-time at a private or Catholic school. The candidate takes courses while teaching full-time. This employment status, along with additional supervision in the classroom provided through LMU, fulfills the requirements of the credential. An additional requirement of 60 observation hours in a public school setting is required to meet the credential requirements (see Academic Advisor for further details). Candidates seek out their own employment as a Teacher Practitioner. The Teacher Practitioner must be employed to teach at least 60% in the subject/grade of the credential.

Teacher Practitioner Admission Requirements

All applicants to the Teacher Practitioner Program must complete all the application requirements for the Bilingual Elementary Education Pro-

gram. All requirements must be met to be eligible for an admissions interview with the Bilingual Education Director. All program application requirements must be met.

1. **Verification of Employment:** Candidates must submit a signed Verification of Employment form. The candidate must be employed by a school district that holds a partnership agreement with Loyola Marymount University.
2. **CSET:** must submit official passing score report to the Academic Advisor (for Intern Candidates only).
3. **Interview with the Bilingual Education Program Director:** Upon submission of all application requirements, applicant will be contacted for an interview.
4. **Advisement:** Immediately upon being provisionally admitted, the student must schedule an appointment with the Academic Advisor.

Formal Admission Requirements

1. **Program Advising:** All candidates must meet with the Program Advisor to complete a course sequence and receive program information and a student handbook.
2. **Prerequisite Courses:** Candidates must complete the following courses with a grade of "B" (3.0) or better:

EDCE 5970	Field Experience I
EDCE 5971	Field Experience 2
EDES 6200	Elementary Curriculum and Methods
EDUR 6960	Introduction to Teaching and Learning

Candidates must complete two of the following four courses with a grade of "B" (3.0) or better:

EDLC 5000	Cultural Paradigms of Education
EDES 5001	Applied Educational Psychology for the Childhood and Adolescent Years
EDLC 5003	Second Language Acquisition: Theory and Policy
EDSS 6001	Teaching Culturally and Linguistically Diverse Students with Exceptional Needs
3. **Disposition Rubric Score:** Candidate chooses a professor of one of the four prerequisite courses to complete the Disposition Rubric and submits the score to the Academic Advisor.
4. **Professional Advising:** Candidate schedules an appointment with the Bilingual Education Program Director.

Teacher Admission and Advisory Committee (TAAC) Review:

After the requirements for provisional and formal admission have been completed, the candidate's file will be submitted to TAAC for review. It is the candidate's responsibility to ensure that all items have been completed, including the resolution of any incomplete grades received in the prerequisite courses. Candidates will be notified of the committee's decision in writing.

Note: All documents become property of the University and will not be released to any person or institute unless required by law.

Course Requirements

1. **Candidates will need to complete the following** prior to enrolling in EDUR 6961, EDCE 5952 TPA 3 and EDCE 5953 TPA 4:
Complete the remaining courses below with a grade of "B" (3.0) or better:

EDLC 5000	Cultural Paradigms of Education
EDES 5001	Applied Educational Psychology for the Childhood and Adolescent Years
EDLC 5003	Second Language Acquisition: Theory and Policy
EDSS 6001	Teaching Culturally and Linguistically Diverse Students with Exceptional Needs

Complete both of the following courses with a grade of "B" (3.0) or better:

EDLC 5200	Methodology in English Language Development and Specially Designed Academic Instruction in English for Elementary Educators
EDES 6201	Foundations of Elementary Literacy Instruction
2. **Teaching Performance Assessments:** Tasks 1 and 2 (0 semester hours with fees):

EDCE 5950	TPA Task 1
EDCE 5951	TPA Task 2
3. **Health Education for Educators:** Candidates may satisfy the Health Education requirement in one of the following ways:
 - Successful completion of EDES 8000

- Successful completion of a 2042 approved course through another institution. It is recommended that the candidate obtain approval from the School of Education Credential Office prior to taking class. Official transcripts must be submitted as evidence of course completion.
4. **Professional Advising:** Schedule an appointment with the Bilingual Education Program Director.
 5. **CSET Score Report:** Original score report verifying 100% successful completion of all elements of the CSET.
 6. **Disposition Rubric Score:** The professor for EDES 6201 will submit a score to the Program Advisor.
 7. **Additional Coursework Required for the Master of Arts Degree** (these requirements also meet the requirements for the BCLAD Spanish or Mandarin credential):

EDLC 5320	Chicano/Latino Cultures: An Interdisciplinary Perspective
EDLC 5324	Bilingualism and Biliteracy
EDLC 6320	Primary Language Methodology in Bilingual Settings
	or
EDLC 5324	Bilingualism and Biliteracy
EDLC 5330	Chinese/American/American Chinese Cultures: An Interdisciplinary Perspective
EDLC 6330	Methodology for Chinese Language Instruction in Bilingual Settings
 8. BCLAD candidates must complete the fieldwork application and violation affidavit with the Academic Advisor.
 9. **Verification of Employment:** Candidates must submit a signed verification of employment form prior to enrollment into EDUR 6961.

Teacher Advisory Review Committee (TARC):

After all the steps outlined above have been completed, the candidate's file will be submitted to the Teacher Advisory Review Committee (TARC) for review. It is the candidate's responsibility to ensure that all items have been completed, including the resolution of any incomplete grades received in any courses. Candidates will be notified of the committee's decision in writing.

Culminating Fieldwork Requirements

1. **EDUR 6961** Portfolio and Assessment
2. **TPA Tasks 3 and 4:** (0 semester hours, fee required)

EDCE 5952	TPA Task 3
EDCE 5953	TPA Task 4
3. **CSET-Test 3:** BCLAD candidates must pass test 6 (Spanish language) of the BCLAD exam prior to enrolling in EDUR 6961. Candidates who are completing or have completed a degree with a Spanish major are exempt from this requirement.
4. **Complete EDLC 6995 Comprehensive Exam in Elementary Education:** Fee required; or Master's Thesis Option

Exit Interview

The candidate must schedule an exit interview with the Bilingual Education Director. The exit interview must be completed prior to submitting an application for a credential and Master of Arts degree.

Application for Credential

When all requirements have been completed, candidates must complete an application for a preliminary teaching credential (additional fee required, see SOE website for more information).

Reading Instruction Competence Assessment (RICA) Plan of Action

After completing EDES 6201 (Foundations of Elementary Literacy Instruction), candidates are required to take, pass, and submit an original score report of the RICA to the School of Education prior the completion of their student teaching.

Application for Master of Arts Degree

Candidates must complete an application for a Master of Arts degree with the Office of the Registrar the semester prior to the completion of degree requirements.

Master of Arts in Bilingual Secondary Education with an Option for a 2042 Single Subject Preliminary

Credential Program and Bilingual/Crosscultural, Language and Academic Development Credential

Contact Information

Director: Magaly Lavadenz

E-mail: mlavadenz@lmu.edu

Office Location: University Hall 2600

Assistant Director: Olga Grimalt Moraga

E-mail: omoraga@lmu.edu

Office Location: University Hall 2600

This Master of Arts program emphasizes the preparation of highly qualified middle and high school teachers to conduct quality bilingual and intercultural education for a variety of student populations. This combined master program fulfills all the requirements referred to as and the 2042 Single Subject Preliminary Teaching Credential Program with a Bilingual/Crosscultural Academic and Language Development (BCLAD) emphasis in Spanish or Mandarin.

The combined Bilingual Single Subject Preliminary Credential and Master of Arts in Secondary Education program is designed for graduate students who are seeking teaching positions in grades 9-12, or in 6-8 school settings that require teachers to teach in departments (traditional secondary candidate) or students who are currently contracted to teach in grades 9-12, or in 6-8 school settings that require teachers to teach in departments (Intern/Practitioner secondary candidate). A student successfully completing this program will be eligible to receive a Master of Arts in Secondary Education as well as be able to apply for a California Preliminary Single Subject Credential with a BCLAD emphasis (Spanish or Mandarin).

The following Single Subject Preliminary credentials are offered through the School of Education:

- Art
- French
- Biology
- Mathematics
- Chemistry
- Physics
- Physical Education (Dance)
- Social Science
- Earth Science
- Spanish
- English

Candidates who complete this program will be able to:

- Meet the demand for highly qualified and bilingually certified teachers in California's public and private schools
- Advocate for the educational needs and subsequently assist in improving home-school communication
- Secondary teachers, the Bilingual Credential prepares you to teach Spanish or Mandarin to native speakers
- Provide cultural and instructional knowledge, skills, and dispositions in meeting the needs of Latino or Chinese native or heritage speakers in California.
- Acquire and demonstrate expertise in academic Spanish or Mandarin

Admission Requirements

In addition to meeting all of the application requirements for Graduate admission all students must demonstrate minimum communicative competency in Spanish or Mandarin prior to starting the BCLAD program. BCLAD candidates can meet this language requirement by providing an official transcript showing completion of a Spanish major or minor, passing an approved language examination (such as the one offered by LMU's Department of Modern Languages and Literatures), transcript showing extensive schooling in a Spanish/Chinese speaking country, or appropriate Peace Corps experience in a Spanish or Chinese-speaking country.

1. Attendance at an Information Session (for Credential Candidates Only)

Please contact the School of Education Admissions Coordinator to attend an information session. Applicants will receive an information packet that includes:

Graduate Application

Candidate Information Sheet
 Three Recommendation Forms
 Technology Self-Verification Form
 Fingerprint Clearance Form
 Program information

2. Submission of Graduate Application and Application Fee

Applicants may either submit the application to the Graduate Division or complete the online application.

3. Candidate Information Sheet

Applicants must submit the Candidate Information Sheet to the Graduate Division.

4. Statement of Intent

Applicants must write a 3- to 5-page essay describing how their experiences, qualities, and goals reflect the School of Education's motto—REAL (Respect, Educate, Advocate, Lead). See website for additional information on REAL. The Statement of Intent should be submitted to the Graduate Division with the application and Candidate Information Sheet.

5. Letters of Recommendation

Applicants must submit three letters of recommendation to the Graduate Division. At least one letter must verify the applicant's experience and familiarity with the secondary school age group.

6. Grade Point Average (GPA) Requirement

A cumulative undergraduate GPA of 2.8 or higher or a GPA of 2.85 or higher in the last 60 units of the applicant's undergraduate degree or a GPA of 3.0 or higher obtained in 9 units of graduate work. Students who do not meet this requirement may be recommended to the Exceptions Committee by the Academic Program Director.

7. Transcripts

Applicants must submit, to the Graduate Division, two sets of official transcripts with their bachelor's degree posted. If applicants are in the process of completing their degree, they must submit official transcripts with their degree posted by the start of registration for the following semester. Candidates must submit two sets of official transcripts from each college/university attended.

8. Observation/Volunteer Hours Plan of Action

Candidates must complete at least 20 hours of experience working with culturally diverse youths 13-19 years of age.

9. Basic Skills Proficiency Requirements

All Single (Secondary) Subject applicants must meet the California Commission on Teacher Credentialing requirements for basic skills. An official passing score on the CBEST examination to demonstrate proficiency in basic skills. A passing score report must be submitted to the School of Education.

10. Subject Matter Competency Test (CSET) Plan of Action

Candidates must demonstrate mastery of the required subject matter by passing the appropriate subject matter exam (CSET). Candidates will provide a Plan of Action, written statement, on when the CSET will be taken. Candidates must provide an original passing score report to the School of Education.

Secondary Candidates may provide a letter verifying 100% completion of the subject matter coursework from a 2042 approved program.

11. Fingerprint Clearance: Official results of the Certificate of Clearance must be received by the Credential Office prior to enrolling in teacher education courses. All fees associated with the fingerprint clearance application are the responsibility of the student.

12. Tuberculin Test: Candidates must submit an official copy of their tuberculin skin test results, given within one year.

13. Technology Requirement: Candidates may satisfy the technology requirement by either completing a self-verification form or verifying the completion of an approved 2042 course through another institution. Candidates must register for ePortfolio during the first prerequisite course. The fee is assessed during the first semester of enrollment.

14. Interview: The candidate will be asked to schedule a personal interview with the Director/Assistant Director of the academic program to which the candidate is applying. The interview will not be scheduled until all letters of recommendation have been received.

Traditional Candidates

A candidate following this path will complete all coursework before beginning their culminating experiences as a student teacher. The School of Education will facilitate the candidate's placement as a student teacher. This placement must be completed in the subject or grade level that is authorized by the credential.

Student Teaching Requirements

1. **Candidates will need to complete the following** with a grade of "B" (3.0) or better prior to enrolling in student teaching:

EDLC 5250	Methodology in English Language Development and Specially Designed Academic Instruction in English for Secondary Educators
EDES 6250	Improvement of Literacy in the Single Subject Classroom

One of the following courses, depending upon the subject emphasis of the credential:

EDES 5251	Methods in Teaching Secondary Languages Other than English
EDES 5252	Methods in Teaching Secondary Social Studies
EDES 5253	Methods in Teaching Secondary English
EDES 5254	Methods in Teaching Secondary Science
EDES 5255	Methods in Teaching Secondary Math
EDES 5256	Methods in Teaching Secondary Art

2. **Teaching Performance Assessments:** Tasks 1 and 2 (0 semester hours, required fee):

EDCE 5950	TPA Task 1 in the subject emphasis of the credential
EDCE 5951	TPA Task 2

3. **Health Education for Educators:** Candidates may satisfy the Health Education requirement in one of the following ways:

- Successful completion of EDES 8000
- Successful completion of a 2042 approved course through another institution. It is recommended that the candidate obtain approval from the School of Education Credential Office prior to taking class. Official transcripts must be submitted as evidence of course completion.

4. **Professional Advising:** Schedule an appointment with the Bilingual Education Program Director.

5. **Subject Matter Competency:** Submit to the Academic Advisor either original score report verifying 100% successful completion of all elements of the CSET OR letter verifying 100% completion of the subject matter coursework from a 2042 approved program

6. **Disposition Rubric Score:** The professor for EDES 6250 will submit a score to the Academic Advisor.

7. **Additional Coursework for the Master of Arts Degree:**

These requirements also meet the requirements for the BCLAD credential:

EDLC 5320	Chicano/Latino Cultures: An Interdisciplinary Perspective
EDLC 5324	Bilingualism and Biliteracy
EDLC 6320	Primary Language Methodology in Bilingual Settings
	<i>or</i>
EDLC 5324	Bilingualism and Biliteracy
EDLC 5330	Chinese/American/American Chinese Cultures: An Interdisciplinary Perspective
EDLC 6330	Methodology for Chinese Language Instruction in Bilingual Settings

8. **Fieldwork Application:** Candidates must complete the fieldwork application and violation affidavit with the Academic Advisor responsible for student teaching.

Teacher Advisory Review Committee (TARC): After all the steps outlined above have been completed, the candidate's file will be submitted to the Teacher Advisory Review Committee (TARC) for review. It is the candidate's responsibility to ensure that all items have been completed, including the resolution of any incomplete grades received in any courses. Candidates will be notified of the committee's decision in writing.

Culminating Fieldwork Requirements

1. **Student Teaching:** EDCE 5977, Secondary Directed Teaching (9 semester hours)

2. **TPA Tasks 3 and 4:** (0 semester hours, fee required).

EDCE 5952 TPA Task 3
EDCE 5953 TPA Task 4

- BCLAD TEST 6:** BCLAD candidates must pass Test 6 (Spanish language) of the BCLAD exam prior to enrolling in student teaching. Candidates who are completing or have completed a degree with a Spanish major are exempt from this requirement.
- Complete EDLC 6995, Comprehensive Exam in Secondary Education:** Fee required; or Thesis.

Exit Interview

The candidate must schedule an exit interview with the Bilingual Program Director. The exit interview must be completed prior to submitting an application for a credential and Master of Arts degree.

Application for Credential

When all requirements have been completed, candidates must complete an application for a preliminary teaching credential (additional fee required, see SOE website for more information).

Application for Master of Arts Degree

Candidates must complete an application for a Master of Arts degree with the Office of the Registrar the semester prior to the completion of degree requirements.

Certificate in Leadership and Equity in English Learner Education

Students who hold a Master of Arts degree from an accredited college or university, or are currently enrolled in a Master of Arts program at LMU may apply for this Certificate after completing the following:

- Admission requirements listed under Master of Arts in Administration (see the Department of Educational Leadership)
- Successful completion of:

EDLC 5325	Curriculum and Instructional Leadership in Bilingual Settings
EDSS 6102	Context of Schooling
EDSS 6104	Evaluation of Instruction, Learning, and Achievement

Culminating Experiences:

EDLC 6995 Comprehensive Examination in Bilingual/Intercultural Education
or

Thesis Option (with approval)

EDLA 6950	Advanced Research Methods
EDLA 6951	Thesis Design and Proposal
EDLC 6955	Master of Arts Thesis
EDLC 6956	Master of Arts Thesis, as needed
EDLC 6957	Master of Arts Thesis, as needed

Elective Courses:

EDLC 6325	Technology in Multilingual Settings
EDLC 6326	International Perspectives in Bilingual/Intercultural Education
EDLC 6327	Apprenticeship in Research in Bilingual/Intercultural Education

Master of Arts in Teaching English as a Second Language

Contact Information

Director: Magaly Lavadenz

E-mail: mlavadez@lmu.edu

Office Location: University Hall 2600

The M.A. in Teaching English as a Second Language (TESL) develops the academic and practical skills and abilities of educators in kindergarten through adult settings. Successful candidates acquire expertise in English as a second or foreign language and experiences in conducting professional development in the area of language teaching and learning. For candidates who already hold a teaching credential, some courses may be applicable to the California Crosscultural, Language and Academic Development (CLAD) certificate, as reflected in the California Teachers of English Learners state-approved standards. Competency in a non-English language is not required.

This two-year program follows a cohort model in a specified sequence of 33 semester hours and culminates with either a comprehensive examination or a thesis option. The thesis option must meet approval of the program director and follow the School of Education guidelines.

Admissions Process

Applicants are reviewed and admitted on an annual basis. Application to Master of Arts in Teaching English as a Second Language is made by completion and submission of the following:

- Graduate Division application form, submitted directly to the Graduate Admissions Office.
- Two copies of official transcripts from all colleges/universities attended, sent directly to the Graduate Admissions Office.
- Minimum cumulative undergraduate GPA of 2.8; or a 2.85 GPA in the last 60 semester units of coursework taken; or a 3.0 GPA in at least 9 units of graduate level coursework are required.
- TESL Program application. The application may be obtained in the School of Education.
- Letter of intent.
- Two letters of recommendation. Forms may be obtained in the School of Education.
- Interview with the Program Director.
- After steps 1-7 have been completed, the candidate's file will be submitted to the Admissions Committee for review. Steps 1-7 must be completed for review for formal acceptance. The Director may accept defer or deny admission.

Course Requirements

EDLA 6105	Assessment and Research Methodology
EDLC 6100	Anthropological Analysis of Cultural Diversity
EDLC 5325	Curriculum and Instructional Leadership in Bilingual Settings
EDLC 5323	Bilingualism, Cognition and Identity Development
EDLC 5321	Applied Linguistics
EDLC 6322	Language Ideologies, Planning, and Policies
EDLC 6321	Seminar in Second Language Literacy
EDLC 5003	Theories in Second Language Acquisition
EDLC 5250	Methodology in English Language Development (ELD) and Specially Designed Academic Instruction in English (SDAIE)
EDLC 6340	Educational Linguistics
EDLC 6355	Practicum in Teaching English as a Second Language

Culminating Experiences:

EDLC 6995 Comprehensive Examination in Bilingual/Intercultural Education
or

Thesis Option (with approval)

EDLA 6950	Advanced Research Methods
EDLA 6951	Thesis Design and Proposal
EDLC 6955	Master of Arts Thesis
EDLC 6956	Master of Arts Thesis, as needed
EDLC 6957	Master of Arts Thesis, as needed

Crosscultural, Language and Academic Development (CLAD) California Teachers of English Learner (CTEL) certificate for eligible candidates (pending approval by the CTC)

This 12-semester-hour certificate program is designed for credentialed educators who require CTC authorized to teach English Learners.

EDLC 6100	Anthropological Analysis of Cultural Diversity
EDLC 5003	Second Language Acquisition: Theory and Policy
EDLC 5250	Methodology in English Language Development (ELD) and Specially Designed Academic Instruction in English (SDAIE)
EDLC 6340	Educational Linguistics

Introduction

The Department of Specialized Programs in Urban Education offers credential and Master of Arts degree programs designed for teachers who are employed as the teacher of record in either a private or public school. The Department prepares teachers to work in urban settings where the student population is economically, linguistically, and culturally diverse.

Admission Requirements

Each specialized program cohort in Urban Education has special admission requirements in addition to the requirements listed in this section. Additional admission requirements for these specialized program cohorts are communicated to applicants during the admission process.

1. Graduate Application and Fee
2. Statement of Intent: Applicants must write a 3 to 5 page essay describing how their experience and professional goals are compatible with the Mission and Goals of the School of Education at Loyola Marymount University.
3. Letters of Recommendation: Applicants must submit letters of recommendation. Some specialized cohort programs ask candidates use specific recommendation forms.
4. Grade Point Average Requirement: This requirement is met in one of three ways:
 - a. A cumulative undergraduate degree GPA of 2.8 or higher
 - b. A GPA of 2.85 or higher in the last 60 units of the applicant's undergraduate degree
 - c. A GPA of 3.0 or higher obtained in 9 semester hours of graduate work

Applicants who do not meet the GPA requirement will need to file an appeal with the Exceptions Committee.
5. Transcripts: Applicants must submit two sets of official transcripts in sealed envelopes with their application. The transcript for the undergraduate degree must show that the undergraduate degree has been posted. Applicants who have attended more than one college or university must submit transcripts from all colleges or universities attended.
6. Basic Skills Proficiency Requirement: All credential applicants must meet the California Commission on Teacher Credentialing basic skills requirement. An official passing score on one of the following examinations is required to demonstrate proficiency in basic skills:
 - a. The California Basic Skills Examination Test (CBEST)
 - b. CSET Multiple Subjects plus Writing Section (for multiple subjects only)
7. Subject Matter Competency: All credential applicants must meet the California Commission on Teacher Credentialing subject matter requirement. This requirement can be met in the following ways:

- a. Passing score on the appropriate examination in the California Subject Examination for Teachers (CSET)
 - b. Completion of an approved subject matter program (for single subject candidates only).
8. Certificate of Clearance: Candidates must be able to successfully apply for a Certificate of Clearance with the California Commission on Teacher Credentialing prior to teaching full time.
 9. Technology Requirement: Candidates must satisfy the technology requirement through self-verification of basic technology skills or by completion of an approved course.
 10. Interview: Candidates will be asked to schedule an interview with the appropriate program personnel.
 11. Verification of Employment: Applicants must document employment as a full time teacher using the appropriate form provided by the Department.

LMU|LA CAST: Los Angeles Catholic Archdiocesan School Teachers

Department Chair: Edmundo F. Litton

The LMU|LA CAST program is offered in the School of Education through a partnership with the Department of Catholic School of the Archdiocese of Los Angeles. Candidates in the program are able to complete a Master of Arts Degree and a State of California 2042 Preliminary Teaching Credential. The LMU|LA CAST program is an important professional development opportunity for educators employed in Catholic Schools. Some of the unique features of the program include:

- Saturday classes
- Classes are taught in a hybrid format (traditional classes combined with on-line classes)
- Substantial scholarships are offered
- Candidates have the opportunity to collaborate with other Catholic school teachers
- Candidates are required to infuse technology in teaching and learning

To be eligible for the LMU|LA CAST program, candidates must meet the following requirements:

1. All the admission requirements outlined in the sections for teaching credentials in Multiple and Single subjects for University Interns and Teacher Practitioners
2. Candidates must be a full-time teacher or administrator in a Catholic school in the Archdiocese of Los Angeles. Administrators (e.g., Vice Principal, Principal) must be able to teach at least part-time while enrolled in the LMU|LA CAST program. Teacher aides or pre-school teachers are not eligible for the LMU|LA CAST program.
3. Candidates must attend an information meeting held in October (for Spring admission) and February (for Fall admission). Information on these meetings is given to principals of Catholic schools and is also available from the School of Education.
4. All candidates complete the program as a cohort and must be able to commit to the two year program. Candidates must sign a contract agreeing to program conditions prior to starting the LMU|LA CAST program.

Course Requirements for the LMU|LA CAST Program

Multiple and Single Subject Candidates

EDLC 5000	Cultural Paradigms of Education
EDES 5001	Applied Educational Psychology
EDLC 5003	Theories of Second Language Acquisition
EDSS 6001	Teaching Culturally and Linguistically Diverse Students with Exceptional Needs

EDUR 6961	Portfolio and Assessment of Teaching
EDCE 5970	Field Experience 1
EDCE 5971	Field Experience 2
EDES 8000	Health Education
EDUR 6995	Comprehensive Examination

Completion of the Teaching Performance Assessment (TPAs)

Two School of Education electives selected by the Chair

Candidates who do not take EDUR 6961 must take an additional elective.

Multiple Subjects Candidates only

EDES 6200	Elementary Curriculum and Methods
-----------	-----------------------------------

EDLC 5200	Methodology of ELD and SDAIE for Elementary Educators
EDES 6201	Foundations of Elementary Literacy Instruction

Single Subject Candidates Only

EDLC 5250	Methodology of ELD and SDAIE for Secondary Educators
EDES 6250	Improvement of Literacy in the Single Subject Classroom
One of the following:	
EDES 5251	Methods of Teaching Secondary Languages Other than English
EDES 5252	Methods of Teaching Secondary Social Studies
EDES 5253	Methods of Teaching Secondary English
EDES 5254	Methods of Teaching Secondary Science
EDES 5255	Methods of Teaching Secondary Math
EDES 5256	Methods of Teaching Secondary Art

LMU|Teach for America Partnership

Director: Edmundo F. Litton

This comprehensive two-year program combines coursework for the Master of Arts in Elementary Education, Secondary Education, or Special Education with a preliminary teaching credential while participating in Teach for America in Los Angeles. The Bilingual Crosscultural Academic and Language Development or BCLAD teaching credential (Spanish emphasis) can be added to the credential if a candidate meets the requirements of this program (see BLACD section in the Department of Language and Culture in Education). A Master of Arts in Child and Adolescent Literacy or Education Administration may be available to applicants who already have a teaching credential, pending transcript evaluation.

Introduction

The School of Education is committed to social justice and closing the achievement gap in our most under-resourced schools. In order to advocate for education in our Los Angeles community, the School of Education has partnered with Teach for America (TFA), the national corps of outstanding leaders of all academic majors who commit to teach in public schools and become lifelong leaders in the effort to expand opportunity for children. The LMU|TFA Partnership provides graduate training and support for TFA teachers in the Los Angeles area. This partnership program requires that candidates work full-time in a Los Angeles area public school district while they pursue a Master of Arts in Education and a State of California 2042 Preliminary Teaching Credential. Participants in this program may be eligible for an AmeriCorps educational award through their TFA membership. Participants are also eligible for an LMU tuition grant that is contingent on full-participation in all related grant programs and completion of the two-year program.

Admission Requirements

Admission to the LMU|TFA Partnership is limited to candidates who have been admitted and matriculate to TFA in the Los Angeles region. Admission to the program is contingent upon the availability of space and meeting all deadlines.

Candidates must complete all admission requirements outlined in either the Multiple Subjects or Single Subjects credential program as described in respective sections. Please refer to the Teacher Practitioner/Intern sections of Elementary or Secondary Education in this bulletin for more details.

Program Requirements

LMU|TFA Partnership students admitted to the program are required to attend the Welcome Orientation Weekend in August. The orientation includes such topics as program expectations, the academic program, dispositions, fieldwork requirements, financial aid, student account responsibilities, and registration. Eligible students are also required to participate in all institutional grants.

Recommended Coursework Sequence for Combined Master of Arts in Urban Education and Credential Program (degree pending approval)

LMU|TFA Partnership students take their coursework over a period of two years. Exceptions to the recommended sequence must be approved by the Department Chair and Credential Manager.

The sequence of professional coursework is outlined at the August Orientation. The LMU|TFA Partnership is comprehensive and includes all

the coursework and field experience required to obtain a preliminary teaching credential and Master of Arts degree.

Course Requirements for the Teach for America Program

Credential Coursework

Multiple Subjects Credential:

EDUR 5010	Theories of Teaching, Learning and Assessment (3 semester hours)
EDUR 5012	Culture and Language Learning in Urban Education (3 semester hours)
EDUR 5014	Multiple Subjects Curriculum and Instruction (3 semester hours)
EDUR 5004	Elementary School Literacy and Language Development (3 semester hours)
EDUR 5016	Teaching Students with Special Needs in Urban Education (3 semester hours)
EDCE 5970	Field Experience 1 (1 semester hour)
EDCE 5971	Field Experience 2 (1 semester hour)
EDCE 5972	Field Experience 3 (1 semester hour) (as needed)

Single Subject Credential

EDUR 5010	Theories of Teaching, Learning and Assessment (3 semester hours)
EDUR 5012	Culture and Language Learning in Urban Education (3 semester hours)
EDUR 5005	Literacy and Language Development in the Content Areas (3 semester hours)
EDUR 5016	Teaching Students with Special Needs in Urban Education (3 semester hours)
EDCE 5970	Field Experience 1 (1 semester hour)
EDCE 5971	Field Experience 2 (1 semester hour)
EDCE 5972	Field Experience 3 (1 semester hour) (as needed)

and one of the following:

EDES 5251	Methods in Teaching Languages other than English
EDES 5252	Methods in Teaching Secondary Social Studies
EDES 5253	Methods in Teaching Secondary English
EDES 5254	Methods in Teaching Secondary Science
EDES 5255	Methods in Teaching Secondary Math
EDES 5256	Methods in Teaching Secondary Art

In addition to the required coursework, candidates for the teaching credential must also pass all tasks of the Teaching Performance Assessment (TPA).

Master of Arts in Urban Education Coursework

Candidates complete four courses in their approved concentration. Please see the section on the Master of Arts in Urban Education for information on the concentration. In addition to the four concentration courses, candidates must also complete EDUR 5018, Research in Urban Education.

PLACE Corps—Partners in Los Angeles Catholic Education

Director: Diana Murphy

Introduction

This comprehensive two-year program combines coursework for the Master of Arts in Elementary Education or Master of Arts in Secondary Education with a State of California 2042 Preliminary Teaching Credential while participating in a Catholic teacher service corps. A Master of Arts in Reading Instruction or Special Education may be available to applicants who have had an undergraduate emphasis in education coursework, pending transcript evaluation.

The PLACE Corps is a nationally recognized teaching service corps in partnership with the Archdiocese of Los Angeles and the University of Consortium for Catholic Education (UCCE). The PLACE Corps is built upon three pillars: spirituality, community, and professional development. This University program incorporates full-time teaching in an under-resourced Los Angeles Archdiocesan elementary or high school with an academic program through the School of Education.

The ideal candidate for the PLACE Corps is an enthusiastic recent college graduate who has an appreciation for Catholic education and wishes to "give something back." The PLACE Corps member, serving as a role

model in Catholic schools, will be instrumental in maintaining the traditions of Catholic education in Los Angeles.

The ideal candidate has an ardent desire to work with young people. There are no prerequisite courses, other than a Bachelor's degree in any field. PLACE Corps recruits nationally. Interested students in the local area should attend an information meeting in the fall and subsequent application distribution meeting.

PLACE Corps members work under contract as teachers for the Archdiocese of Los Angeles. Acceptance into the program is contingent upon the availability and offer a compatible teaching position in an Archdiocesan PLACE Corps partner school. A portion of the Corps member's salary will contribute toward housing and other member expenses.

Participants of this service corps may be eligible for the AmeriCorps Educational Award and an LMU grant which contribute toward tuition.

PLACE Corps members are required to maintain a single lifestyle during their two-year commitment.

Those admitted to the new cohort are required to attend the Orientation Weekend in April. The orientation includes such topics as program expectation, the academic program, housing, and program funding. Incorporated into the weekend is an opportunity for the PLACERs to meet their principals. Contracts for employment will be offered by the Archdiocese through the individual school.

Application Deadline: The application deadline for PLACE Corps is January 31. The full-time commitment begins the subsequent summer.

Admission Requirements

Acceptance into the PLACE Corps admits an average of 25 members per cohort. Admission to the PLACE Corps requires the following:

1. Candidates must complete all admission requirements outlined in either the Multiple Subject or Single Subjects credential program as described in respective sections. Please refer to the Teacher Practitioner/Intern sections of Elementary or Secondary Education in this bulletin for more details.
2. Graduate Division application, PLACE Corps application, statement of intent, three letters of recommendation, signed letter of commitment, and a Judicial Affairs clearance
3. Interview with PLACE Corps Candidate Selection Committee
4. Observation Hours: All candidates must present acceptable evidence of having completed at least 20 hours of observation in a culturally and linguistically diverse setting within the age range they are planning to teach. It is beneficial to the candidate to do so within a public school setting as these 20 hours may be applied towards the 60 hours of public school observations required for credential requirements for teachers in private and parochial schools. Any remaining hours of public school observations still required may be completed during the first summer of PLACE Corps participation.

Program Requirements

PLACE Corps members will begin their two-year commitment with participation in a program summer retreat designed to support and inspire members. Participants are invited to become actively involved in ongoing spiritual aspects of the program while fully engaged in the community.

In addition to specific program requirements, PLACERs must satisfy all contractual obligations of the school to which they are assigned.

In the fall, while living in community, PLACE Corps members will begin their teaching, along with taking two classes (generally one night per week) each semester.

For the most part, over the two-year period, PLACE Corps members will be enrolled in courses as a cohort. If a PLACER has an academic background which includes prior education courses, the PLACE Corps staff will work with the PLACER in making appropriate adjustments to his/her respective course of study. Exceptions to the recommended sequence must be approved by both the PLACE Corps director and coordinator. PLACERs must take only their prescribed courses and may not take any additional coursework concurrently.

The sequence of academic coursework will be outlined at the Orientation Weekend in April. The PLACE Corps academic program is comprehensive and includes all the coursework and field experience required to obtain a State of California 2042 Preliminary Teaching Credential and Master of Arts degree.

Course Requirements for the PLACE Program

Multiple and Single Subject Candidates

EDLC 5000	Cultural Paradigms of Education
EDES 5001	Applied Educational Psychology
EDLC 5003	Theories of Second Language Acquisition
EDSS 6001	Teaching Culturally and Linguistically Diverse Students with Exceptional Needs
EDUR 6960	Introduction to Teaching and Learning
EDUR 6961	Portfolio and Assessment of Teaching
EDCE 5970	Field Experience 1
EDCE 5971	Field Experience 2
EDCE 5972	Field Experience 3
EDES 8000	Health Education
EDLA 6800	Foundations of Catholic Education
EDUR 6995	Comprehensive Examination
	Completion of the Teaching Performance Assessments (TPA)

Multiple Subjects Candidates only

EDES 6200	Elementary Curriculum and Methods
EDLC 5200	Methodology of ELD and SDAIE for Elementary Educators
EDES 6201	Foundations of Elementary Literacy Instruction

Single Subject Candidates Only

EDLC 5250	Methodology of ELD and SDAIE for Secondary Educators
EDES 6250	Improvement of Literacy in the Single Subject Classroom

One of the following:

EDES 5251	Methods of Teaching Secondary Languages Other than English
EDES 5252	Methods of Teaching Secondary Social Studies
EDES 5253	Methods of Teaching Secondary English
EDES 5254	Methods of Teaching Secondary Science
EDES 5255	Methods of Teaching Secondary Math
EDES 5256	Methods of Teaching Secondary Art

Candidates in the PLACE program may also have the option of completing the degree requirements for the Master of Arts degree in Child and Adolescent Literacy or Catholic Inclusion. More information can be obtained from the PLACE Program Director.

Elementary Education Intern/Teacher Practitioner Program

Master of Arts in Elementary Education with a Preliminary 2042 Multiple Subjects Credential

The combined Multiple Subject Preliminary Credential and Master of Arts in Elementary Education program is designed for graduate students who are currently contracted to teach in grades K-5 or any self-contained classroom in grades 6-8 in either public or private schools. A student successfully completing the program is eligible to receive a Master of Arts in Elementary Education as well as be able to apply for a California Preliminary Multiple Subject Credential. Application and admissions procedures vary based on the selected cohort program.

Intern Credential Requirements

Eligibility for the Intern Credential is determined by the following guidelines set forth by the California Commission on Teacher Credentialing (CCTC):

1. Original approved Basic Skills Proficiency examination score report with passing score
2. Original CSET score report with passing score
3. Verification the U.S. Constitution requirement has been met
4. Undergraduate degree posted on official transcripts
5. Verification of employment
6. Two-year academic program
7. Certificate of Clearance (fingerprint application and fee)
8. Application for credential and fee

Once candidates have satisfied the above guidelines, an application for the intern credential is available through the Program Director or Department Chair. Please schedule an appointment with the Program Director of Department Chair. The California Commission on Teacher Cre-

dentiaing (CCTC) is responsible for the awarding of the University Intern Credential.

Intern Candidate: A candidate following this path is employed full-time at a public school in a district that has a partnership with LMU. The candidate takes courses while teaching full-time. This employment status, along with additional supervision in the classroom provided through LMU, fulfills the field requirements of the credential. Candidates seek out their own employment as Interns unless the candidates are in a cohort program where placement is facilitated through the program (e.g., Teach for America). The Intern must be employed to teach at least 60% in the area of the credential, and the contract must state that the teacher is contracted to teach in the subject/grade in which the candidate is seeking a credential. It is necessary that the student hold a University Intern credential in order to be enrolled in the Intern program.

Teacher Practitioner Candidate: Teacher practitioner candidates are employed full-time at a private or Catholic school. The candidates take courses while teaching full-time. This employment status, along with additional supervision in the classroom provided through LMU, fulfills the requirements of the credential. There is an additional requirement of 60 observation hours in a public school setting required to meet the credential requirements (see Program Director for details). Candidates seek out their own employment as a Teacher Practitioner unless the candidate is part of a cohort program (e.g., Partners in Los Angeles Catholic Education—PLACE; Los Angeles) where placement is facilitated through the cohort program. The teacher practitioner must be employed to teach at least 60% in the subject/grade of the credential.

Provisional Admission Requirements

All requirements must be met to be eligible for an admissions interview. All application requirements must be met.

- Verification of Employment:** Candidates must submit a signed Verification of Employment form. The candidate must be employed by a School District that holds a partnership agreement with Loyola Marymount University.
- CSET:** Must submit official passing score report to the Academic Advisor (Intern Candidates only)
- Interview with the Program Director:** Upon submission of all application requirements, applicant will be contacted for an interview.

Formal Admission Requirements

- Program Advising:** All candidates must meet with the Program Director to complete a course sequence and receive program information.
- Prerequisite Courses:** Candidates must complete the following courses with a grade of "B" (3.0) or better:

EDCE 5970	Field Experience 1
EDCE 5971	Field Experience 2
EDES 6200	Elementary Curriculum and Methods
EDUR 6960	Introduction to Teaching and Learning

Candidates must complete two of the following four courses with a grade of "B" (3.0) or better:

EDLC 5000	Cultural Paradigms of Education
EDES 5001	Applied Educational Psychology for the Childhood and Adolescent Years
EDLC 5003	Theories of Second Language Acquisition
EDSS 6001	Teaching Culturally and Linguistically Diverse Students with Exceptional Needs

- Disposition Rubric Score:** Candidate chooses a professor of one of the four pre-requisite courses to complete the Disposition Rubric and submits the score to the Academic Advisor.
- Professional Advising:** Candidate schedules an appointment with the Academic Program Director/Assistant Director.

Teacher Admission and Advisory Committee (TAAC) Review

After the requirements for provisional and formal admission have been completed, the candidate's file will be submitted to TAAC for review. It is the candidate's responsibility to ensure that all items have been completed, including the resolution of any Incomplete grades received in the prerequisite courses. Candidates will be notified of the committee's decision in writing.

Note: All documents become property of the University and will not be released to any person or institute unless required by law.

Program Requirements

- Candidates will need to complete the following** prior to enrolling in EDUR 6961, TPA 3 and TPA 4:

Complete the remaining courses below with a grade of "B" (3.0) or better:

EDLC 5000	Cultural Paradigms of Education
EDES 5001	Applied Educational Psychology for the Childhood and Adolescent Years
EDLC 5003	Theories of Second Language Acquisition
EDSS 6001	Teaching Culturally and Linguistically Diverse Students with Exceptional Needs

Complete both of the following courses with a grade of "B" (3.0) or better:

EDLC 5200	Methodology in English Language Development and Specially Designed Academic Instruction in English for Elementary Educators
EDES 6201	Foundations of Elementary Instruction

- Teaching Performance Assessments:** Tasks 1 and 2 (two zero semester hour courses with associated fees):

EDCE 5950	TPA Task 1
EDCE 5951	TPA Task 2

- Health Education for Educators:** Candidates may satisfy the Health Education requirement in one of the following ways:

- Successful completion of EDES 8000
- Successful completion of a 2042 approved course through another institution. It is recommended that the candidate obtain approval from the School of Education Credential Office prior to taking class. Official transcripts must be submitted as evidence of course completion.

- Professional Advising:** Schedule an appointment with the Program Director.
- CSET Score Report:** Original score report verifying 100% successful completion of all elements of the CSET.
- Disposition Rubric Score:** The professor for EDES 6201 will submit a score to the Program Director.
- Fieldwork Application:** Candidates must complete the fieldwork application and violation affidavit with the Academic Advisor. They must then schedule an interview with the Coordinator of Clinical Education.
- Verification of Employment:** Candidates must submit a signed verification of employment form prior to enrollment into EDUR 6961.

- Teacher Advisory Review Committee (TARC):**

After all the steps outlined above have been completed, the candidate's file will be submitted to the Teacher Advisory Review Committee (TARC) for review. It is the candidate's responsibility to ensure that all items have been completed, including the resolution of any Incomplete grades received in any courses. Candidates will be notified of the committee's decision in writing.

Culminating Fieldwork Requirements

- EDUR 6961 Portfolio and Assessment
- TPA Tasks 3 and 4: Two zero semester hour courses with associated fees.

EDCE 5952	TPA Task 3
EDCE 5953	TPA Task 4

Additional Coursework Required for the Master of Arts Degree

OPTION 1: Elementary Education

Choose one of the following courses and complete with a 3.0 or better:

EDLC 6100	Anthropological Analysis of Cultural Diversity
EDES 6103	Curriculum and Instructional Leadership
EDLA 6105	Assessment and Research Methodology
EDSS 6106	Human Development and Learning

Complete EDUR 6995 Comprehensive Exam in Elementary Education: Fee required.

OPTION 2: Literacy and Language Arts

The Master of Arts in Literacy and Language Arts combined with the 2042 Preliminary Multiple Subjects or Single Subject Teaching Credential offers the opportunity for a graduate student to receive both a preliminary teaching credential and a Master of Arts degree. Candidates

who initially applied for admission to the credential program only must add the Master of Arts degree prior to the pre-fieldwork assessment.

Program Requirements

- All 2042 Preliminary Multiple Subjects Teaching Credential courses**
- Additional Required Coursework**

EDES 6342	Diagnosing and Developing Literacy Skills
EDES 6343	Practicum in Diagnosing and Developing Literacy Skills
- Comprehensive Assessment:** Candidates meet with the program director to discuss their timeline and enrollment in either the comprehensive exam or the thesis project series.

EDES 6995	Comprehensive Exam: Literacy (fee required)
	or
	Thesis Option

(See program director for detailed course sequence)
- Exit Interview:**
 The candidate must schedule an exit interview with the Academic Program Director. The exit interview must be completed prior to submitting an application for a credential and Master of Arts degree.
- Application for Credential:**
 When all requirements have been completed, candidates must complete an application for a preliminary teaching credential (additional fee required, see SOE website for more information).
- Reading Instruction Competence Assessment (RICA):**
 After completing EDES 6201 (Foundations of Elementary Literacy Instruction), candidates are required to take, pass, and submit an original score report of the RICA to the School of Education prior to the completion of their student teaching.
- Application for Master of Arts Degree:**
 When all requirements have been completed, candidates must complete an application for a Master's degree with the Office of the Registrar.

Practitioner: Master of Arts without credential

This program is designed for practitioners who do not successfully pass the CSET prior to EDUR 6961 Portfolio and Assessment. Instead, candidates must complete all of the requirements detailed above for Provisional Admission, Formal Admission and Student Teaching requirements. Culminating Fieldwork Experience and Additional Coursework Required for the Master of Arts Degree are replaced with the following:

OPTION 1: Elementary Education

- Choose two of the following courses and complete with a 3.0 or better:**

EDLC 6100	Anthropological Analysis of Cultural Diversity
EDES 6103	Curriculum and Instructional Leadership
EDLA 6105	Assessment and Research Methodology
EDSS 6106	Human Development and Learning

 Students in specialized cohort programs may take an Education elective selected by the Program Director or Department Chair.
- Complete EDES 6995 Comprehensive Exam in Elementary Education:** Fee required.

OPTION 2: Literacy and Language Arts

Program Requirements

- All 2042 Preliminary Single Subject Teaching Credential courses**
- Additional Required Coursework**

EDES 6342	Diagnosing and Developing Literacy Skills
EDES 6343	Practicum in Diagnosing and Developing Literacy Skills
- Comprehensive Assessment:** Candidates meet with the program director to discuss their timeline and enrollment in either the comprehensive exam or the thesis project series.

EDES 6995	Comprehensive Exam: Literacy (fee required)
	or
	Thesis Option (See Program Director for detailed course sequence).

 If the candidate successfully passes all sections of the CSET within 5 years, the candidate can complete the credential by completing an exit interview with the Program Director and submitting an application for a credential.

2042 Professional Clear Multiple Subjects Credential

Candidates have five years after obtaining their preliminary credential in which to complete the requirements for a professional clear credential. LMU offers an approved Professional 2042 Clear Credential Program for those teachers who do not have access to an induction program at their school site. See Professional 2042 Clear Teaching Credential in the Department of Elementary and Secondary Education in this Bulletin for more information.

Master of Arts in Secondary Education with a Preliminary 2042 Single Subject Credential

The combined Single Subject Preliminary Credential and Master of Arts in Secondary Education program is designed for graduate students who are seeking teaching positions in grades 9-12, or in 6-8 school settings that require teachers to teach in departments (Traditional Secondary Candidate) or students who are currently contracted to teach in grades 9-12, or in 6-8 school settings that require teachers to teach in departments (Intern/Practitioner Secondary Candidate). A student successfully completing this program will be eligible to receive a Master of Arts in Secondary Education as well as be able to apply for a California Preliminary Single Subject Credential.

The following Single Subject Preliminary credentials are offered through the School of Education:

- Art
- Biology
- Chemistry
- Physical Education (Dance)
- Earth Science
- English
- French
- Mathematics
- Physics
- Social Science
- Spanish

Intern/Practitioner Candidates

Intern Candidate: A candidate following this path is employed full-time at a public school in a district that has a partnership with LMU. The candidate takes courses while teaching full-time. This employment status, along with additional coaching in the classroom provided through LMU, fulfills the field requirements of the credential. Candidates seek out their own employment as interns unless the candidates are in a cohort program where placement is facilitated through the program (e.g., Teach for America). The intern must be employed to teach at least 60% in the area of the credential, and the contract must state that the teacher is contracted to teach in the subject/grade in which the candidate is seeking a credential.

It is necessary that the student hold a University intern credential in order to be enrolled in the intern program.

University Intern Credential Requirements

Eligibility for the University Intern Credential is determined by the following guidelines set forth by the California Commission on Teacher Credentialing (CCTC):

1. Original CBEST score report with passing score
2. Original CSET score report with passing score
3. Verification the U.S. Constitution requirement has been met
4. Undergraduate degree posted on official transcripts
5. Verification of employment
6. 2-year academic program completion plan
7. Certificate of Clearance (fingerprint application and fee)
8. Application for credential and fee

Once candidates have satisfied the above guidelines, an application for the intern credential is available through the Program Director or Department Chair. The California Commission on Teacher Credentialing (CCTC) is responsible for the awarding of the University Intern Credential.

Teacher Practitioner Candidates: Teacher practitioner candidates are employed full-time at a private or Catholic school. The candidates take courses while teaching full-time. This employment status, along with

additional supervision in the classroom provided through LMU, fulfills the requirements of the credential. There is an additional requirement of 60 observation hours in a public school setting required to meet the credential requirements (see Academic Program Advisor for details). Candidates seek out their own employment as a Teacher Practitioner unless the candidate is enrolled in a cohort program (e.g., PLACE) where placement is facilitated through the cohort program. The teacher practitioner must be employed to teach at least 60% in the subject/grade of the credential.

Provisional Admission Requirements

- 1. Verification of Employment:** Candidates must submit a signed Verification of Employment form. The candidate must be employed by a School District that holds a partnership agreement with Loyola Marymount University.
- 2. Subject Matter Competency (for Intern Candidates only):** Candidates must demonstrate mastery of the required subject matter by either passing the appropriate California Subject Exam Test (CSET) OR by completing a 2042 approved subject matter program. Either option needs to be completed and verified prior to enrollment in EDUR 6961 Portfolio and Assessment and TPA 3 and TPA 4.
 - CSET Option: Candidates will provide a written statement documenting when the CSET will be taken. Candidates must provide an original passing score report to the School of Education prior to enrollment in EDUR 6961 Portfolio and Assessment and TPA 3 and TPA 4.
 - 2042 Approved Subject Matter Program: Candidates must complete a 2042 approved Subject Matter Program. Candidates must provide a written statement on when the subject matter coursework will be completed. Candidates will provide a letter verifying 100% completion of the subject matter requirement prior to enrollment in EDUR 6961 Portfolio and Assessment and TPA 3 and TPA 4.
- 3. Interview with the Elementary/Secondary Academic Program Director/Assistant Director:** Upon submission of all application requirements, applicant will be contacted for an interview.
- 4. Advisement:** Immediately upon being provisionally admitted, the student must schedule an appointment with the Program Director or Department Chair.

Formal Admission Requirements

- 1. Academic Advising:** All candidates must meet with the Program Director to complete a course sequence.
- 2. Prerequisite Courses:**
Candidates must complete the following courses with a grade of "B" (3.0) or better:

EDCE 5970	Field Experience I
EDCE 5971	Field Experience 2
EDUR 6960	Introduction to Teaching and Learning

 Candidates must complete two of the following four courses with a grade of "B" (3.0) or better:

EDLC 5000	Cultural Paradigms of Education
EDES 5001	Applied Educational Psychology for the Childhood and Adolescent Years
EDLC 5003	Theories of Second Language Acquisition
EDSS 6001	Teaching Culturally and Linguistically Diverse Students with Exceptional Needs

 Candidates must complete one of the following courses, depending on subject emphasis of the credential:

EDES 5251	Methods in Teaching Secondary Languages Other than English
EDES 5252	Methods in Teaching Secondary Social Studies
EDES 5253	Methods in Teaching Secondary English
EDES 5254	Methods in Teaching Secondary Science
EDES 5255	Methods in Teaching Secondary Math
EDES 5256	Methods in Teaching Secondary Art
- 3. Disposition Rubric Score:** Candidate chooses a professor of one of the four pre-requisite courses to complete the Disposition Rubric and submits the score to the Program Advisor.
- 4. Professional Advising:** Candidate schedules an appointment with Academic Program Director/Assistant Director.

- 5. Teacher Admission and Advisory Committee (TAAC) Review:** After the requirements for provisional and formal admission have been completed, the candidate's file will be submitted to TAAC for review. It is the candidate's responsibility to ensure that all items have been completed, including the resolution of any Incomplete grades received in the prerequisite courses. Candidates will be notified of the committee's decision in writing.

Note: All documents become property of the University and will not be released to any person or institution unless required by law.

Program Requirements

- 1. Candidates will need to complete** the remaining courses with a grade of "B" (3.0) or better prior to enrolling in EDUR 6961, TPA 3, and TPA 4:

EDLC 5000	Cultural Paradigms of Education
EDES 5001	Applied Educational Psychology for the Childhood and Adolescent Years
EDLC 5003	Theories of Second Language Acquisition
EDSS 6001	Teaching Culturally and Linguistically Diverse Students with Exceptional Needs

 Complete both of the following courses with a grade of "B" (3.0) or better:

EDLC 5250	Methodology in English Language Development and Specially Designed Academic Instruction in English for Secondary Educators
EDES 6250	Improvement of Literacy in the Single Subject Classroom
- 2. Teaching Performance Assessments:** Tasks 1 and 2 (two zero semester hour courses with associated fees):

EDCE 5950	TPA Task 1 in the subject emphasis of the credential
EDCE 5951	TPA Task 2
- 3. Health Education for Educators:** Candidates may satisfy the Health Education requirement in one of the following ways:
 - successful completion of EDES 8000
 - successful completion of a 2042 approved course through another institution. It is recommended that the candidate obtain approval from the School of Education Credential Office prior to taking class. Official transcripts must be submitted as evidence of course completion.
- 4. Professional Advising:** Schedule an appointment with the Program Director.
- 5. Subject Matter Competency:** Submit to the Academic Advisor either
 - original score report verifying 100% successful completion of all elements of the CSET, OR
 - letter verifying 100% completion of the subject matter coursework from a 2042 approved program.
- 6. Disposition Rubric Score:** The professor for EDES 6250 will submit a score to the Program Director.
- 7. Fieldwork Application:** Candidates must complete the fieldwork application and violation affidavit with the Academic Advisor. They must then schedule an interview with the Coordinator of Clinical Education.
- 8. Teacher Advisory Review Committee (TARC):** After all the steps outlined above have been completed, the candidate's file will be submitted to the Teacher Advisory Review Committee (TARC) for review. It is the candidate's responsibility to ensure that all items have been completed, including the resolution of any Incomplete grades received in any courses. Candidates will be notified of the committee's decision in writing.

Culminating Fieldwork Requirements

- 1. Enroll in Fieldwork:**

EDUR 6961	Portfolio and Assessment
-----------	--------------------------
- 2. Enroll in TPA Tasks 3 and 4:** Two zero semester hour courses with associated fees.

EDCE 5952	TPA Task 3
EDCE 5953	TPA Task 4

Additional Coursework Required for the Masters Degree

OPTION 1: Secondary Education

- 1. Choose one of the following courses and complete with a 3.0 or better:**

EDLC 6100	Anthropological Analysis of Cultural Diversity
EDES 6103	Curriculum and Instructional Leadership
EDLA 6105	Assessment and Research Methodology
EDSS 6106	Human Development and Learning

2. **Complete EDES 6995 Comprehensive Exam in Secondary Education:**
Fee required.

OPTION 2: Literacy and Language Arts

The Master of Arts in Literacy and Language Arts combined with the 2042 Preliminary Multiple Subjects or Single Subject Teaching Credential offers the opportunity for a graduate student to receive both a preliminary teaching credential and a Master of Arts degree. Candidates who initially applied for admission to the credential program only must add the Master of Arts degree prior to the pre-fieldwork assessment.

Program Requirements

1. All 2042 Preliminary Single Subject Teaching Credential courses
2. Additional Required Coursework

EDES 6342	Diagnosing and Developing Literacy Skills
EDES 6343	Practicum in Diagnosing and Developing Literacy Skills
3. Comprehensive Assessment: Candidates meet with the program director to discuss their timeline and enrollment in either the comprehensive exam or the thesis project series.
EDES 6995 Comprehensive Exam: Literacy (fee required)
or
Thesis Option (See program director for detailed course sequence)

Exit Interview

The candidate must schedule an exit interview with the Program Director/Assistant Director. The exit interview must be completed prior to submitting an application for a credential and Master of Arts degree.

Application for Credential

When all requirements have been completed, candidates must complete an application for a preliminary teaching credential (additional fee required, see SOE website for more information).

Application for Master of Arts Degree

Candidates must complete an application for a Master of Arts degree with the Office of the Registrar the semester prior to the completion of degree requirements.

Practitioner: Master of Arts without credential

This program is designed for practitioners who do not successfully pass the CSET prior to enrollment in EDUR 6961 Portfolio and Assessment. Instead, candidates must complete all of the requirements detailed above for Provisional Admission, Formal Admission and Program Requirements.

OPTION 1: Secondary Education

1. **Choose two of the following courses and complete with a 3.0 or better:**

EDLC 6100	Anthropological Analysis of Cultural Diversity
EDES 6103	Curriculum and Instructional Leadership
EDLA 6105	Assessment and Research Methodology
EDSS 6106	Human Development and Learning
EDES 6995	Comprehensive Exam in Secondary Education (fee required)
2. **Complete EDES 6995 Comprehensive Exam in Secondary Education:**
Fee required.

OPTION 2: Literacy and Language Arts

The Master of Arts in Literacy and Language Arts combined with the 2042 Preliminary Multiple Subjects or Single Subject Teaching Credential offers the opportunity for a graduate student to receive both a preliminary teaching credential and a Master of Arts degree. Candidates who initially applied for admission to the credential program only must add the Master of Arts degree prior to the pre-fieldwork assessment.

Program Requirements

1. All 2042 Preliminary Single Subject Teaching Credential courses.
2. Additional Required Coursework

EDES 6342	Diagnosing and Developing Literacy Skills
-----------	---

EDES 6343	Practicum in Diagnosing and Developing Literacy Skills
-----------	--

3. Comprehensive Assessment: Candidates meet with the program director to discuss their timeline and enrollment in either the comprehensive exam or the thesis project series.
EDES 6995 Comprehensive Exam: Literacy (fee required)
or
Thesis Option (See Program Director for detailed course sequence)

If the candidate successfully passes all sections of the CSET within 5 years or completes 100% of the required coursework from a 2042 approved program, the candidate can complete the credential by completing an exit interview with the Academic Program Director and submitting an application for a credential.

2042 Single Subject Credential Only

This program is designed for intern/practitioner candidates who are only interested in seeking a credential. Candidates must complete all of the requirements detailed above for Provisional Admission, Formal Admission, Culminating Fieldwork Experience, Exit Interview and Application for Master's Degree.

2042 Professional Clear Multiple Subjects Credential

Candidates have five years after obtaining their preliminary credential in which to complete the requirements for a professional clear credential. LMU offers an approved Professional 2042 Clear Credential Program for those teachers who do not have access to an induction program at their school site. See Professional 2042 Clear Teaching Credential in this Bulletin for more information.

Master of Arts in Urban Education

The Master of Arts in Urban Education allows candidates to study for a teaching credential after completing a prescribed sequence of coursework over a 12 month period. Candidates have the option of studying for a Master of Arts degree in Urban Education during a second year of coursework.

Admission Requirements

Candidates for the Master of Arts in Urban Education program must be admitted to a specialized cohort program (e.g., LMU|LA CAST). Candidates must also complete the admission requirements for the credential program.

Required Coursework

Multiple Subjects Credential

EDUR 5010	Theories of Teaching, Learning and Assessment (3 semester hours)
EDUR 5012	Culture and Language Learning in Urban Education (3 semester hours)
EDUR 5014	Multiple Subjects Curriculum and Instruction (3 semester hours)
EDUR 5004	Elementary School Literacy and Language Development (3 semester hours)
EDUR 5016	Teaching Students with Special Needs in Urban Education (3 semester hours)
EDCE 5970	Field Experience 1 (1 semester hour)
EDCE 5971	Field Experience 2 (1 semester hour)
EDCE 5972	Field Experience 3 (1 semester hour) (as needed)

Single Subject Credential

EDUR 5010	Theories of Teaching, Learning and Assessment (3 semester hours)
EDUR 5012	Culture and Language Learning in Urban Education (3 semester hours)
EDUR 5005	Literacy and Language Development in the Content Areas (3 semester hours)
EDUR 5016	Teaching Students with Special Needs in Urban Education (3 semester hours)
EDCE 5970	Field Experience 1 (1 semester hour)
EDCE 5971	Field Experience 2 (1 semester hour)
EDCE 5972	Field Experience 3 (1 semester hour) (as needed)

and one of the following:

EDES 5251	Methods in Teaching Languages other than Eng-
-----------	---

	lish
EDES 5252	Methods in Teaching Secondary Social Studies
EDES 5253	Methods in Teaching Secondary English
EDES 5254	Methods in Teaching Secondary Science
EDES 5255	Methods in Teaching Secondary Math
EDES 5256	Methods in Teaching Secondary Art

	or
EDLC 5330	Chinese/American Cultures (Mandarin)
	and
EDLC 6330	Methodology for Chinese Language Instruction (Mandarin)

Teaching Performance Assessment

In addition to the required coursework, candidates for the teaching credential must also pass all tasks of the Teaching Performance Assessment (TPA).

Master of Arts in Urban Education

All classes in the teaching credential program (except for the field experience courses) are transferred to the Master of Arts degree program. Candidates transfer up to 15 semester hours of coursework.

For the Master of Arts in Urban Education degree, candidates complete one core course and four courses in a concentration. Courses for the concentration are selected in consultation with the director of the program.

Culminating Required Course: EDUR 5018, Research in Urban Education (3 semester hours). This course should be the last course in the sequence and serves as the culminating experience in the program. A comprehensive research project, equivalent to a thesis, is required in this course.

Concentrations

- Literacy:** A concentration designed for candidates interested in studying literacy practices effective in urban settings.

EDES 6340	Educational Linguistics
EDES 6342	Diagnosing and Developing Literacy Skills
EDES 6343	Practicum: Diagnosing and Developing Literacy Skills
EDES 6103	Curriculum and Instructional Leadership
EDUR 5018	Research in Urban Education
- Digital Learning:** A concentration that explores the role of technology in teaching and learning in urban schools.

EDUR 5018	Research in Urban Education
EDUR 6324	Technology in Multicultural Settings
EDUR 6327	Learning and Teaching with Technology
EDUR 6328	Survey of Digital Technologies for Urban Education
EDUR 6329	Assistive Technology
- Educational Policy and Administration:** Candidates in this concentration learn about administrative practices that promote effective teaching and learning in urban education. Candidates also study federal and state policies in education.

EDUR 5018	Research in Urban Education
EDSS 6102	Context of Schooling
EDLA 6427	Advocacy
EDLA 6428	Business of Education
EDLA 6429	Specializing in Charter Schools
	or
EDLA 6842	Leadership in Catholic Education
- Curriculum, Teaching and Learning:** Candidates in this concentration learn how to become curriculum leaders in their field. Course topics include research in the specified content area (including advanced teaching methodologies) and curriculum transformation.

EDUR 5018	Research in Urban Education
EDUR 6103	Curriculum and Instructional Leadership
EDLA 6104	Evaluation of Instruction
EDLA 6105	Assessment and Research Methodology
EDUR 6963	Seminar in Advanced Teaching Methodologies (Content Area Specific)
- Language and Culture:** Candidates in this concentration have the option of studying for a bilingual teaching credential (emphasis in Spanish or Mandarin).

EDUR 5018	Research in Urban Education
EDLC 5322	Intercultural Education
EDLC 5324	Bilingualism, Cognition, and Identity Development
EDLC 5320	Chicano/Latino Cultures (Spanish)
	and
EDLC 6320	Primary Language Methodology in Bilingual Settings (Spanish)

School of Education Centers

Center for Catholic Education

The Center for Catholic Education brings together a broad range of successful programs at SOE to advance PK-12 Catholic education by training school leaders and teachers, increasing awareness of Catholic schools' impact on communities, and developing innovative ways to support Catholic education.

Center for Equity for English Learners

Educators who utilize students' cultural and linguistic resources while developing students' academic competencies have the potential to significantly transform schools and educational systems.

Center for Math and Science Teaching

Loyola Marymount University's Center for Math and Science Teaching (CMAST) provides a national model for middle schools, high schools and universities to transform math and science education using measurable, data-driven results connected to student engagement and achievement. CMAST is currently implementing the Los Angeles Math and Science Residency (LAMS), a teacher residency program focused on training math and science teachers in urban schools. CMAST also partners with organizations and districts across the spectrum of public, charter and Catholic schools.

Location: University Hall 1760

Introduction

Catholic schools are an integral part of the educational systems of urban centers across the United States, serving as pillars for many communities, particularly in economically disadvantaged areas. In Los Angeles, more than 80,000 children and their families rely on these schools to provide the moral, spiritual and intellectual underpinnings that have enabled so many Catholic school graduates to become productive, socially conscious adults.

But these schools are facing significant challenges. Enrollment in Catholic schools has declined 12 percent nationally in the last decade. Many schools are struggling financially. Catholic school systems are in need of professional development for teachers and administrators, along with research into the most effective approaches to running the schools and educating increasingly diverse student bodies.

With the Center for Catholic Education, the LMU School of Education will be better positioned to assist the Archdiocese of Los Angeles, as well as Catholic school systems across the country, in ensuring that the rich tradition of Catholic education endures and grows. The CCE brings together a broad range of successful programs at SOE to advance PK-12 Catholic education by training school leaders and teachers, increasing awareness of Catholic schools' impact on communities, and developing innovative ways to support Catholic schools. The Center for Catholic Education will serve as an anchor for Catholic schools in Los Angeles and nationally so that the rich tradition of Catholic education continues to shape morally and socially conscious men and women.

The Center for Catholic Education is committed to leadership development, teacher preparation, and research and outreach.

Programs

The Center for Catholic Education offers programs in specialized cohorts:

- **LMU|LA CAST:** For teachers employed by the Archdiocese of Los Angeles
- **PLACE Corps:** Teachers who are part of a teaching service corps in partnership with the Archdiocese of Los Angeles

LMU|LA CAST: Los Angeles Catholic Archdiocesan School Teachers

Department Chair: Edmundo F. Litton

The LMU|LA CAST program is offered in the School of Education through a partnership with the Department of Catholic School of the Archdiocese of Los Angeles. Candidates in the program are able to complete a Master of Arts Degree and a State of California 2042 Preliminary Teaching Credential. The LMU|LA CAST program is an important professional development opportunity for educators employed in Catholic Schools. Some of the unique features of the program include:

- Saturday classes
- Classes are taught in a hybrid format (traditional classes combined with on-line classes)
- Substantial scholarships are offered
- Candidates have the opportunity to collaborate with other Catholic school teachers
- Candidates are required to infuse technology in teaching and learning

To be eligible for the LMU|LA CAST program, candidates must meet the following requirements:

1. All the admission requirements outlined in the sections for teaching credentials in Multiple and Single subjects for University Interns and Teacher Practitioners
2. Candidates must be a full-time teacher or administrator in a Catholic school in the Archdiocese of Los Angeles. Administrators (e.g., Vice Principal, Principal) must be able to teach at least part-time while enrolled in the LMU|LA CAST program. Teacher aides or pre-school teachers are not eligible for the LMU|LA CAST program.
3. Candidates must attend an information meeting held in October (for Spring admission) and February (for Fall admission). Information on these meetings is given to principals of Catholic schools and is also available from the School of Education.
4. All candidates complete the program as a cohort and must be able to commit to the two year program. Candidates must sign a contract agreeing to program conditions prior to starting the LMU|LA CAST program.

Course Requirements for the LMU|LA CAST Program

Multiple and Single Subject Candidates

EDLC 5000	Cultural Paradigms of Education
EDES 5001	Applied Educational Psychology
EDLC 5003	Theories of Second Language Acquisition
EDSS 6001	Teaching Culturally and Linguistically Diverse Students with Exceptional Needs
EDUR 6961	Portfolio and Assessment of Teaching
EDCE 5970	Field Experience 1
EDCE 5971	Field Experience 2
EDES 8000	Health Education
EDUR 6995	Comprehensive Examination

Completion of the Teaching Performance Assessment (TPAs)

Two School of Education electives selected by the Chair

Candidates who do not take EDUR 6961 must take an additional elective.

Multiple Subjects Candidates only

EDES 6200	Elementary Curriculum and Methods
EDLC 5200	Methodology of ELD and SDAIE for Elementary Educators
EDES 6201	Foundations of Elementary Literacy Instruction

Single Subject Candidates Only

EDLC 5250	Methodology of ELD and SDAIE for Secondary
-----------	--

EDES 6250	Educators Improvement of Literacy in the Single Subject Classroom
-----------	--

One of the following:

EDES 5251	Methods of Teaching Secondary Languages Other than English
EDES 5252	Methods of Teaching Secondary Social Studies
EDES 5253	Methods of Teaching Secondary English
EDES 5254	Methods of Teaching Secondary Science
EDES 5255	Methods of Teaching Secondary Math
EDES 5256	Methods of Teaching Secondary Art

PLACE Corps—Partners in Los Angeles Catholic Education

Director: Diana Murphy

Introduction

This comprehensive two-year program combines coursework for the Master of Arts in Elementary Education or Master of Arts in Secondary Education with a State of California 2042 Preliminary Teaching Credential while participating in a Catholic teacher service corps. A Master of Arts in Reading Instruction or Special Education may be available to applicants who have had an undergraduate emphasis in education coursework, pending transcript evaluation.

The PLACE Corps is a nationally recognized teaching service corps in partnership with the Archdiocese of Los Angeles and the University of Consortium for Catholic Education (UCCE). The PLACE Corps is built upon three pillars: spirituality, community, and professional development. This University program incorporates full-time teaching in an under-resourced Los Angeles Archdiocesan elementary or high school with an academic program through the School of Education.

The ideal candidate for the PLACE Corps is an enthusiastic recent college graduate who has an appreciation for Catholic education and wishes to "give something back." The PLACE Corps member, serving as a role model in Catholic schools, will be instrumental in maintaining the traditions of Catholic education in Los Angeles.

The ideal candidate has an ardent desire to work with young people. There are no prerequisite courses, other than a Bachelor's degree in any field. PLACE Corps recruits nationally. Interested students in the local area should attend an information meeting in the fall and subsequent application distribution meeting.

PLACE Corps members work under contract as teachers for the Archdiocese of Los Angeles. Acceptance into the program is contingent upon the availability and offer a compatible teaching position in an Archdiocesan PLACE Corps partner school. A portion of the Corps member's salary will contribute toward housing and other member expenses.

Participants of this service corps may be eligible for the AmeriCorps Educational Award and an LMU grant which contribute toward tuition.

PLACE Corps members are required to maintain a single lifestyle during their two-year commitment.

Those admitted to the new cohort are required to attend the Orientation Weekend in April. The orientation includes such topics as program expectation, the academic program, housing, and program funding. Incorporated into the weekend is an opportunity for the PLACers to meet their principals. Contracts for employment will be offered by the Archdiocese through the individual school.

Application Deadline: The application deadline for PLACE Corps is January 31. The full-time commitment begins the subsequent summer.

Admission Requirements

Acceptance into the PLACE Corps admits an average of 25 members per cohort. Admission to the PLACE Corps requires the following:

1. Candidates must complete all admission requirements outlined in either the Multiple Subject or Single Subjects credential program as described in respective sections. Please refer to the Teacher Practitioner/Intern sections of Elementary or Secondary Education in this bulletin for more details.
2. Graduate Division application, PLACE Corps application, statement of intent, three letters of recommendation, signed letter of commitment, and a Judicial Affairs clearance
3. Interview with PLACE Corps Candidate Selection Committee

4. **Observation Hours:** All candidates must present acceptable evidence of having completed at least 20 hours of observation in a culturally and linguistically diverse setting within the age range they are planning to teach. It is beneficial to the candidate to do so within a public school setting as these 20 hours may be applied towards the 60 hours of public school observations required for credential requirements for teachers in private and parochial schools. Any remaining hours of public school observations still required may be completed during the first summer of PLACE Corps participation.

Program Requirements

PLACE Corps members will begin their two-year commitment with participation in a program summer retreat designed to support and inspire members. Participants are invited to become actively involved in ongoing spiritual aspects of the program while fully engaged in the community.

In addition to specific program requirements, PLACERs must satisfy all contractual obligations of the school to which they are assigned.

In the fall, while living in community, PLACE Corps members will begin their teaching, along with taking two classes (generally one night per week) each semester.

For the most part, over the two-year period, PLACE Corps members will be enrolled in courses as a cohort. If a PLACER has an academic background which includes prior education courses, the PLACE Corps staff will work with the PLACER in making appropriate adjustments to his/her respective course of study. Exceptions to the recommended sequence must be approved by both the PLACE Corps director and coordinator. PLACERs must take only their prescribed courses and may not take any additional coursework concurrently.

The sequence of academic coursework will be outlined at the Orientation Weekend in April. The PLACE Corps academic program is comprehensive and includes all the coursework and field experience required to obtain a State of California 2042 Preliminary Teaching Credential and Master of Arts degree.

Course Requirements for the PLACE Program

Multiple and Single Subject Candidates

EDLC 5000	Cultural Paradigms of Education
EDES 5001	Applied Educational Psychology
EDLC 5003	Theories of Second Language Acquisition
EDSS 6001	Teaching Culturally and Linguistically Diverse Students with Exceptional Needs
EDUR 6960	Introduction to Teaching and Learning
EDUR 6961	Portfolio and Assessment of Teaching
EDCE 5970	Field Experience 1
EDCE 5971	Field Experience 2
EDCE 5972	Field Experience 3
EDES 8000	Health Education
EDLA 6800	Foundations of Catholic Education
EDUR 6995	Comprehensive Examination
Completion of the Teaching Performance Assessments (TPA)	

Multiple Subjects Candidates only

EDES 6200	Elementary Curriculum and Methods
EDLC 5200	Methodology of ELD and SDAIE for Elementary Educators
EDES 6201	Foundations of Elementary Literacy Instruction

Single Subject Candidates Only

EDLC 5250	Methodology of ELD and SDAIE for Secondary Educators
EDES 6250	Improvement of Literacy in the Single Subject Classroom
One of the following:	
EDES 5251	Methods of Teaching Secondary Languages Other than English
EDES 5252	Methods of Teaching Secondary Social Studies
EDES 5253	Methods of Teaching Secondary English
EDES 5254	Methods of Teaching Secondary Science
EDES 5255	Methods of Teaching Secondary Math
EDES 5256	Methods of Teaching Secondary Art

Candidates in the PLACE program may also have the option of completing the degree requirements for the Master of Arts degree in Child and Adolescent Literacy or Catholic Inclusion. More information can be obtained from the PLACE Program Director.

Introduction

- Creating a professional learning community comprised of faculty, teachers, administrators, parents, students, and community members dedicated to increasing student engagement and achievement in mathematics and science
- Finding and sharing solutions that increase the number of students who pursue science, technology, engineering, mathematics, and science and mathematics teaching as careers
- Building teacher retention by providing opportunities for shared leadership between transformational teacher leaders, administrators, and parents
- Designing, strengthening, and sharing best practices in teaching and learning to improve teacher quality and college-readiness

LAMS—Los Angeles Math and Science Residency

Introduction

Admission Requirements

- be a college graduate with a B.A. or B.S., preferably in mathematics, engineering, biology, chemistry, or physics (minimum 3.0 GPA)
- have strong math or science content knowledge, at a minimum, candidates must have a minor in mathematics, engineering, biology, chemistry, or physics
- have passed the Math or Science tests for the California Subject Examinations for Teachers (CSET) and California Basic Skills Test (CBEST)
- desire to pursue a teaching career and become a highly effective math or science teacher and future transformative leader in Los Angeles urban schools serving low income and minority students
- have an unwavering commitment to teaching in urban schools for at least 4 years

Course Requirements

EDUR 5500	Educational Practices in Secondary Math and Science Classrooms
EDUR 5501	Practicum: Educational Practices in Action in Secondary Math/Science Classrooms
EDUR 5503	Practicum: Differentiated Education in Action in Secondary Math/Science Urban Education
EDUR 5505	Research-Supported Math/Science Practices In Urban Education
EDES 8000	Health Education
EDCE 5950	TPA 1
EDCE 5951	TPA 2
EDCE 5952	TPA 3
EDCE 5953	TPA 4

SCHOOL OF FILM AND TELEVISION

Administration

Dean: Stephen Ujlaki

Associate Dean: Mark Evan Schwartz

Objectives

All School of Film and Television courses, whether they be humanistic inquiries into the nature of the media or professionally-oriented exercises in creating film and television, are aimed at developing critical discernment and equipping the student with the technical, theoretical, and aesthetic means to communicate these insights effectively to an audience.

Graduate Program

The School of Film and Television offers three Master of Fine Arts (M.F.A.) degrees: Film and Television Production, Feature Film Screenwriting, and Writing and Producing for Television.

Mission Statement

The Master of Fine Arts degrees offered by the School of Film and Television at Loyola Marymount University are based on a professional academic program and designed to foster original and creative work in film and television production and writing. The emphasis is on understanding and mastering visual storytelling in an atmosphere which allows students to explore and express their ideas with ever increasing *creative and technical skills*.

The School of Film and Television is committed to a relatively small graduate program. Given the large number of qualified applicants, the review process is necessarily very selective. Graduate study in this program is a full-time, intensive endeavor; only the most motivated and serious students can be considered.

Admission Requirements

All applicants must have a Bachelor's degree from an accredited university. The department welcomes applicants who have received degrees in unrelated fields.

There are only a limited number of openings in the graduate School of Film and Television programs and applications are reviewed and accepted **ONLY** for the Fall semester each year.

Applicants must submit **ALL** materials to the Graduate Division by February 15. These materials include: application, \$50 application fee, detailed personal statement, all transcripts, GRE scores, two letters of recommendation, and supplemental materials. Supplemental materials include any creative work in written and/or multi-media formats (DVD preferred) that illustrate a particular talent or expertise that the applicant would like to highlight for the selection committee. Students applying to the Screenwriting emphasis must submit a writing sample.

A \$250 deposit must accompany your letter of acceptance within 15 days of notification by the University of your admittance into the program. The deposit is applied toward tuition and is non-refundable.

Program Options

There are three degree programs within the graduate School of Film and Television at Loyola Marymount University: Film and Television Production, Feature Film Screenwriting, and Writing and Producing for Television. These majors come to fruition in the graduate thesis project for production students, and a portfolio for screenwriting students. Thesis projects take a minimum of one year to complete, usually spanning the final year of graduate work. They comprise 6 semester hours of graduate credit required for the Master of Fine Arts degree. Students do not have the option of the traditional Master's research thesis.

Graduate Prerequisites

Students will also be required to take a specified number of graduate prerequisites. Graduate students are on a provisional status until their graduate prerequisites are successfully completed. These prerequisites are required and may not be waived.

Undergraduate Program

Major Requirements

Lower Division Requirements:

The School of Film and Television offers four majors: Animation, Film and Television Production, Recording Arts, and Screenwriting.

The 12-26 semester hours (depending upon program) of requirement must be completed by all students, including transfer students, before upper division classes are attempted.

Upper Division Requirements:

The requirements are between 24-33 semester hours chosen from the 300-500 level School of Film and Television courses under the direction of the appropriate school program advisor. All majors must complete a senior thesis project accomplished through ANIM 495 and 496; PROD 400, 450, or 460; RECA 470; or SCWR 420 and 421.

Change of Program/Major

There is a formal application procedure for students who wish to be accepted into the School of Film and Television or who wish to transfer from one SFTV program to another. This procedure is explained in the SFTV Application Form available from the School.

Applications are due on the last working day of February for admission to the following Fall semester and on the last working day of September for admission to the following Spring semester.

Application of General University Requirements

The University requirements for admission, graduation, and all general rules and regulations of the University as set forth in this Bulletin are applicable to and binding upon all students enrolled in the School of Film and Television.

School Curriculum

The curriculum of the School of Film and Television incorporates required courses in general education, major sequences, and elective courses which complement and enhance the student's major field of concentration.

Core Curriculum for the Baccalaureate Degree in the School of Film and Television

American Cultures

3 Semester Hours

Course Selection

First- and second-year students choose from any lower division course listed or cross-listed as AMCS. Third- and fourth-year students choose from any upper division course listed or cross-listed as AMCS. A single course will generally not fulfill two core requirements. The only exception is a course that satisfies another core requirement which is also cross-listed as AMCS.

College Writing

3 Semester Hours

Course Selection

ENGL 110 will fulfill the college writing requirement. ENGL 100 will not fulfill the college writing requirement but is required of certain students based on their performance in the essay written in all ENGL 110 sections during the first week of classes. A minimum grade of C (2.0) is required in ENGL 110. All students who receive a grade of C- or lower must retake ENGL 110 as soon as possible.

Choose: ENGL 110.

Communication or Critical Thinking**3 Semester Hours**

Course Selection

Communication: Choose from CMST 100, 110, 130, or 140.

OR

Critical Thinking: Choose from CMST 206, PHIL 220.

Critical and Creative Arts**6 Semester Hours**

Course Selection

This requirement is satisfied by taking one course from Critical Arts and one course from Creative Arts.

Critical Arts: Choose from ANIM 100; ARHS 200, 201, 202, 321, 340, 345; DANC 281, 381; MUSC 102, 104, 303, 365; THEA 240, 245, 331, 336, 341, 346, 347, 348, 349, 430.

Creative Arts: Choose from ANIM 120, ART 150, 151, 153, 278, 280, 350; DANC 163; ENGL 205, 311 (Prerequisite 202), 312 (Prerequisite 201); MUSC 105, 106, 107; SCWR 220; THEA 110, 400.

Students may not select courses which are requirements for their major.

History**6 Semester Hours**

Course Selection

This requirement is satisfied by taking one course from Western Civilization and one course from Contemporary Societies.

Western Civilization: Choose from HIST 100 or 101.

Contemporary Societies: Choose from HIST 152, 162, 172, 182, or 192.

Literature**3 Semester Hours**

Course Selection

Prerequisite: Successful completion of college writing requirement.

Choose from CLCV 200, 210, 220, 230; ENGL 130, 140, 150, 170; FNLT 180; THEA 240, 245, 331, 336, 341, 346, 347, 348, 349, or 430.

Mathematics, Science and Technology**6 Semester Hours**

Course Selection

All students take MATH 102 and 103 and one other course in Science and Engineering. The MATH 102 course is designed to allow students to attain a level of mathematical literacy which will enable them to deal with the types of mathematical questions that they will encounter on a regular basis after they graduate.

The course in science and engineering introduces the student to the methodology used in that field of science or engineering. These courses include laboratories and/or demonstrations providing the student with hands-on experience.

Courses ordinarily recommended to students majoring outside the Frank R. Seaver College of Science and Engineering are those numbered 260-279 in each department within the College. Courses in this series are specifically designed for the non-major.

All other lower division courses (at least 3 semester hours) in the Frank R. Seaver College of Science and Engineering also satisfy this requirement.

Only one mathematics course will be credited toward the Mathematics, Science and Technology component of the Core.

Philosophy**6 Semester Hours**

Course Selection

Lower Division:

Choose PHIL 160. Transfer students who enter LMU with a minimum of sixty (60) accepted transfer hours are exempted from the lower division requirement.

Upper Division:

Choose one PHIL course from 320 through 330.

Social Sciences**6 Semester Hours**

Student must select one of the following options:

1. Select two courses from ECON 100, 105, 110, 120; GEOG 100; POLS 135, 155; PSYC 100; SOCL 100 or 105. Courses must be from different departments.
2. Select one course from: AFAM 115, APAM 117, CHST 116, or WNST 100; and one course from ECON 100, 105, 110, 120; GEOG 100; POLS 135, 155; PSYC 100; SOCL 100 or 105.
3. Select two courses from the same department. The first is selected from ECON 100, 105, 110, 120; GEOG 100; POLS 135, 155; PSYC 100; SOCL 100 or 105. The second course in the same department is selected from upper division courses that the student is qualified to take.

Theological Studies**6 Semester Hours**

Course Selection

Lower Division:

Choose from the 100-level series of THST courses. Transfer students who enter LMU with a minimum of sixty (60) accepted transfer hours are exempted from the lower division requirement.

Upper Division:

Choose from the 300-level series of THST courses only.

European Satellite Program

Students in the School of Film and Television have the opportunity to participate in an intensive production study abroad experience in Bonn, Germany. The program focuses on documentary film production and European media and culture. Courses are taught by both LMU faculty and German instructors. The program's structure includes three-week workshops and immersive, hands-on production training. Cultural opportunities while overseas include film festivals (depending on the season), exhibitions, theater performances, tours of film and television studios, and a trip to Berlin. Participating students will earn 13-15 semester hours of credit, including the production sequence, and will produce a 10-minute documentary that can be distributed or exhibited at festivals or through other channels.

The FITS Europe study abroad program partners LMU's School of Film and Television.

For more details on the program, please visit LMU's Study Abroad Office and FITS Europe.

Animation**Faculty**

Chairperson: José Garcia-Moreno

Associate Professors: Rob Burchfield, José Garcia-Moreno

Assistant Professors: Adriana Jaroszewicz, Thomas F. Klein

Major Requirements

Lower Division Requirements:

35 semester hours of lower division courses distributed as follows:

ANIM 100, 110, 120 (completed with a grade of B [3.0] or better), 220, 230, 250, 260; ART 153, 154; 2 semester hours of Drawing for Animation (ART 200, 201); FTVS 210; and SCWR 220.

ART 153—also counts as a creative arts core class.

FTVS 210 also counts as a critical arts core class.

Upper Division Requirements:

ANIM 490, 495, 496 and at least 12 semester hours of upper division electives.

Minor Requirements

18 semester hours divided into 9 semester hours of lower division work from:

ANIM 100, 110, 120; and 9 semester hours of upper division Animation work under the direction of the Chairperson and/or Animation committee.

The proper sequence of these courses should be discussed with the student's advisor.

Objectives

The department proposes that Animation at LMU represents a solid cross-disciplinary pre-professional degree in animation studies. Accordingly, we choose to stress a solid lower division knowledge base across the salient animation disciplines taught in any given animation curriculum. Moreover, we choose to stress a higher dimension of flexibility in upper division courses to allow students the freedom to determine their course and career destinations within the protocols of a classical Ignatian education.

Our goal via this curriculum is to foster the unique personal vision of each of our students in addition to supporting the collaborative filmmaking process. Hence, we propose that students create their own personal films during their first year, a group project in their second year, another individual project in their third year, culminating in a final group project during their senior year.

We hope to nurture animation artists to be prepared to assume creative leadership roles in the animation industry—whether it will be in the studio system or as independent artists. We further aspire to cultivate developing artists that reflect the School of Film and Television's primary focus of new storytelling grounded in humanism, innovation and diversity. We will provide a curriculum that reflects our desire to instill in young filmmakers the idea that industry connectivity is key. And while we choose to be reknown as world-class storytellers, we insist that this be grounded in strong technical/craft ability.

Learning Outcomes

To promote the unique personal artistic vision of each of our students in addition to supporting the collaborative filmmaking process.

- To foster a higher order of industry connectivity
- To develop humanistic animation storytellers, grounded in the pillars of innovation, diversity and social justice
- To prepare students for the ever evolving world of technological change that they will experience
- To prepare the students for active creative leadership roles in the new emerging industries—whether it will be in the studio system or as independent artists
- To prepare students for the challenging advent of life-time learning

Our curriculum is integral, and by definition, interdisciplinary. We consider these to be hallmarks of Animation Education in the 21st century. The reality of modern animation is that the final product can represent a myriad of delivery platforms, but the core will be based on a classical approach to the fundamental aspects of the teaching of animation production.

Animation Model Four-Year Plan

Freshman Year

Fall Semester	S.H.	
ANIM 100	History of Animation	3
ANIM 110	Visual Dev for Animation	3
ART 153	Drawing I	3
ENGL 110	College Writing	3
_____	University Core	3
		16
Spring Semester	S.H.	
ANIM 120	Beginning Animation	3

ART 154	Drawing II	3
MATH 102	Quantitative Skills	3
MATH 103	Quantitative Skills Lab	0
SCWR 220	Intro to Screenwriting	3
_____	University Core	3
		15

Sophomore Year

Fall Semester	S.H.	
ANIM 220	Intermediate Animation	3
ANIM 260	Digital Toolbox	3
ART 200	Figure Drawing Workshop I	1
_____	University Core	3
_____	University Core	3
_____	University Core	3
		16

ART 401	Figure Workshop II	1
_____	Elective	3
_____	Elective	3
_____	Elective	3
		16

The proper sequence of these courses should be discussed with the student's advisor.

Suggested Additional Electives—Animation Program

Acting: Especially helpful for those interested in character animation, where the animator is the actor or actress.

Cinematography and Lighting: Useful for 3D computer animation/stop motion.

Computer Programming: Useful for interactive media and new technology.

Dance: Also useful for those interested in character animation. These classes will foster an additional understanding of movement, meter, and rhythm.

Design: 2D, 3D, and multimedia.

Directing

Drawing: Any drawing courses in addition to those required are recommended, especially for those interested in character animation. When appropriate (and pending approval of specific instructors), students are encouraged to attend additional sections of the life drawing labs. Other drawing courses may be taken at the Union school, ASIFA, and any number of other art academies in the Los Angeles area.

Editing: Recommended especially for those without any previous film background.

Music: As a source and as a partner.

Mythology, Literature: For understanding storytelling.

Painting: Also highly recommended for those persons who are interested in environmental animation, storyboarding, and background painting.

Perspective and Color Theory

Sound Design: Useful for engineering, mixing, and using sound creatively.

Film, Television, and Media Studies

Faculty

Interim Director: Susan Scheibler

Professor: Lawrence Wenner (Von der Ahe Chair in Communications and Ethics)

Associate Professors: Susan Torrey Barber, Patrick J. Connolly, S.J., Richard P. Hadley, Jr., Susan Scheibler

Objectives

Film, Television, and Media Studies is an academic interdisciplinary program that provides students the opportunity to understand the many ways that filmmakers have used the media as a means of personal expression as well as a tool for understanding the world. Through their Film and TV courses, students gain the tools that allow them to critically examine the ways in which their own perceptions have been shaped and influenced by media texts. FTVS classes are academically rigorous, depending on analytic as well as critical tools that are informed by reading in media and cultural history. The program is an integral part of the School of Film and Television, providing the theoretical, historical, and cultural frameworks within which SFTV students apply their practical skills, whether they are directing, producing, filming, editing, writing, and/or recording sound for movies.

Film, Television, and Media Studies students gain an appreciation of the basic elements of film and/or television language and acquire the tools that will enable them to be more thoughtful consumers as well as producers of media texts. Through a careful study of film history, students will understand and appreciate the development of cinematic and televisual media within their historical and cultural contexts. Courses focusing on national cinemas open up and deepen their understanding of other cultures, national histories, and religious viewpoints. Courses that focus on ethical and political issues encourage students to think about the ways that media can be used to create a more just world. In all FTVS classes, students explore the many ways that media texts reflect, shape and question cultural values, attitudes, and beliefs, including but not limited to representations of race, ethnicity, gender, sexuality, class, and nationality.

Film, Television, and Media Studies Student Learning Outcomes

Students minoring in Film, Television, and Media Studies will

- Know and demonstrate an understanding of the narrative and stylistic elements of film or TV language
- Apply an understanding of film/TV language through a critical analysis of specific texts

- Know and demonstrate knowledge of film history, including key movements and important filmmakers
- Know and demonstrate understanding of at least one film/TV genre or auteur and one national cinema or international TV
- Value diverse approaches to film and TV production

Film, Television, and Media Studies Minor Requirements

The Film, Television, and Media Studies Minor consists of 18 semester hours, with at least 12 being upper division, structured as follows:

Foundational courses: Either FTVS 210 Art of Cinema or 212 Art of Television

Film History: Either FTVS 313 Survey of American Film or 314 Survey of International Film

Film stylistics: One TV or Film genre (FTVS 315, 430-439, 440-447), or Film Authors (FTVS 412)

International Film or TV: One national cinema (FTVS 420-429) or International TV

Two upper division electives

Film and Television Production

Faculty

Chairperson: Charles Swanson

Professors: Glenn Gebhard, Art Nomura, John A. Stewart, Donald Zirpola
Associate Professors: Howard S. Lavick, Sylvia Morales, Rev. Luís Proença, Gregory Ruzzin,

Assistant Professors: Mikael R. Kreuzriegler, Vanessa Newell, Charles Swanson, Kennedy Wheatley

Objectives

The School of Film and Television's major in Film and Television Production is designed to enable students to express their ideas on the screen—whether that screen is in a theater, at home, or held in one's hand. Beyond the existing television and theatrical feature landscape, new forms of media empower a single person to be both a worldwide broadcaster and a very selective receiver. Digital technologies have created new ways of working that transcend the traditional distinctions between film and television. The Film and Television Production major combines the best of both of these fields.

Students admitted to this rigorous major become quickly immersed in the art of storytelling for the screen. They encounter and study great works of world cinema, both past and present, and ponder the ramifications of the emerging media of the future. They receive expert hands-on training in writing the screenplay, directing actors, cinematography, sound recording and design, and editing. In the process, each student learns about the challenging relationship between art and technique, and how both serve each other. Students learn the practical aspects of mounting a production: budgeting, location scouting, casting, set design and construction, post production, and the importance of safety in all aspects of what they do. Complete premier state of the art equipment and technology are available 24/7—all in service of story. Through teamwork, students learn an appreciation for all of the artists who labor to serve the story, and the camaraderie that comes from working as part of a crew engaged in a large, collaborative creative enterprise.

Students also learn to find their individual voices, and express their own points of view, on projects driven by their own creative choices. Beginning with their work on a series of short and intermediate films, students forge the fundamental skills of visual storytelling. Each student's experience culminates with a final project in which advanced students write, cast, direct and edit their own thesis films.

These projects may be entirely from the imagination, or they may document the real world. These finished works are produced and owned by the students, and many are distributed and celebrated far beyond the confines of our campus, through the exciting world of festivals, theatrical, television, and other channels of local, national, and international exhibition.

Production Graduate Program

Contact Information

Graduate Director: Kennedy Wheatley

Office Location: Xavier 209

Telephone: 310.338.3765

MFA Degree

Production Prerequisites

PROD 500	Production I
RECA 500	Sound I
SCWR 501	Writing for Production

Failure to maintain a "B" in prerequisites will lead to disqualification from the program.

The student may petition to repeat (one time only) deficient prerequisite course work.

Graduate Production Requirements

A. Film Studies (9 semester hours)

Select three of the following:

FTVS 512	Seminar in Television Genres
FTVS 513	Seminar in American Film
FTVS 514	Seminar in European Film
FTVS 515	Seminar on the Documentary
FTVS 517	Seminar in TV Programming
FTVS 518	Analysis of Video Games
FTVS 611	Seminar in Film Genres
FTVS 612	Seminar in Film Authors
FTVS 613	Seminar in National Film
FTVS 614	Seminar in Television and Video

B. Screenwriting (3 semester hours)

One of the following:

PROD 530	Documentary Pre-Production I
SCWR 530	Writing for Production I

C. Production (12 semester hours)

PROD 550	Production II (3 semester hours)
PROD 565	Cinematography (3 semester hours)
PROD 600	Production III (fiction and non-fiction) (6 semester hours)

D. Film Process Seminars (6 semester hours)

RECA 567	Seminar in Sound
PROD 668	Pre-Production Planning

E. Advanced Production Technique Seminars (9 semester hours)

Select three of the following:

PROD 666	Advanced Editing
PROD 669	Advanced Cinematography
PROD 680	Seminar in Directing
PROD 685	Advanced Production Technique Seminar
PROD 690	Post-Production Effects
RECA 568	Advanced Post-Production Sound
SCWR 520	Inter. Screenwriting

F. Internship (3 semester hours)

PROD 688	Internship
----------	------------

G. Thesis Project (9 semester hours)

The thesis project requires completion of three courses which divide the project (fiction or non-fiction) into pre-production, production and post-production phases.

Pre-Production Thesis Project (3 semester hours)

Select one of the following:

SCWR 620	Writing for Production II (Fiction thesis)
PROD 626	Documentary Pre-Production II (Non-fiction thesis)

The Production Thesis Project (3 semester hours)

PROD 650	Thesis Project
----------	----------------

The Post-Production Thesis Project (4 semester hours)

PROD 670	Thesis: Post-Production
----------	-------------------------

Prior to registration for the Thesis Project (PROD 650), the student must come before the Thesis Committee to advance to candidacy based upon the work completed towards this goal. Once advanced to candidacy, the student must take PROD 650 (with the instructor of record) and PROD 670 (with the instructor of record) until the project is completed and signed off by the Thesis Committee and the Dean in order to successfully complete the requirements for the M.F.A. degree. The Thesis Committee form adopted by the School must be obtained from the SFTV Graduate Office and signed by all committee members in order for the student to be advanced to candidacy.

63 total graduate semester hours are required for the M.F.A. in Production (Film and Television).

Students must screen a master copy for approval. Upon approval, the master copy must be submitted to the thesis committee to complete the requirements. All Thesis productions are required to have a full card that reads:

This production was done in partial fulfillment of degree requirements at LOYOLA MARYMOUNT UNIVERSITY

If necessary, additional registration in PROD 671 (for 3 semester hours each semester) will be required in subsequent semesters until the project is completed. The normal sequence of classes is outlined below. **Please note: History and Theory courses may be taken any semester.**

First Year

Fall Semester

PROD 500	Production I (6 s.h.)
PROD 565	Cinematography
SCWR 501	Writing for Production

Spring Semester

PROD 530	Documentary Pre-Production
	or
SCWR 530	Writing for Production I
PROD 550	Production II (3 s.h.)
PROD 668	Pre-Production Planning
RECA 500	Sound I

Second Year

Fall Semester

PROD 600	Production III (6 semester hours)
RECA 567	Seminar in Sound

Spring Semester

PROD ____	Adv. Production Tech. Seminar
PROD ____	Adv. Production Tech. Seminar
SCWR 620	Writing for Production II (fiction thesis)
	or

PROD 626	Documentary Pre-Production II (Non-fiction thesis)
____	Film Studies

Third Year

Fall Semester

PROD 650	Thesis Project
PROD ____	Adv. Production Tech. Seminar
____	Film Studies

Spring Semester

PROD 670	Thesis: Post-Production
PROD 688	Intern Practicum I

Film and Television Production Undergraduate Program

Film and Television Production Student Learning Outcomes

Upon completing the program, students majoring in Film and Television Production will know:

- The basic techniques of visual storytelling
- The processes of producing, directing, screenwriting, cinematography, editing, sound recording and design, and set design
- The current technologies involved in the creation of film and television production
- Strategies for future dissemination of their work.

Upon completing the program, student majoring in Film and Television Production will value:

- A wide variety of cinematic forms of expression
- The importance of film and television history and theory
- Technically accomplished and aesthetically engaging productions
- The diversity and contributions of fellow students
- Collaboration and teamwork in the production process

- Individual expression through cinematic and other forms.

Upon completing the program, student majoring in Film and Television Production will be able to:

- Clearly communicate story, theme, and concept in their works
- Apply learned techniques of film and television production to creative works of their own
- Give constructive feedback, and implement revision of their own creative work based on feedback received
- Balance creative and organizational skills
- Practice teamwork, while developing leadership skills
- Create and treat content in innovative and imaginative ways.

Major Requirements

Lower Division Requirements:

21 semester hours of lower division courses distributed as follows: FTVS 200; 210 or 212; PROD 180; PROD 200 and 250 (completed with a grade of B [3.0] or better); RECA 250; and SCWR 220.

Upper Division Requirements:

Satisfactory completion of PROD 300 and SCWR 327 or PROD 326 and 350; PROD 365, 366, and 379; RECA 367; PROD 400, 450, or 460; one upper division advanced PROD course (courses ending with 98 are by permission only); one upper division advanced course in the School of Film and Television (courses ending with 98 are by permission only); two cinema/TV history courses chosen from FTVS 313-518 (FTVS 398, 498, or 598 require special permission).

Freshman Year

Fall Semester		S.H.
FTVS 210	Art of the Cinema	3

		15

Note: All courses listed for senior year may be taken either semester.

The proper sequence of these courses should be discussed with the student's advisor. Students at the 300 and 400 Production level have the choice of either fiction or non-fiction (300 or 350; 400 or 450).

Acting, drawing, photography, computer graphics, additional film history, screenwriting, and business classes are among the suggested electives for Film and Television Production majors.

Recording Arts

Faculty

Chairperson: Mladen Milicevic

Professor: Mladen Milicevic

Associate Professor: Roger Pardee

Assistant Professor: Kurt Daugherty

Objectives

Recording Arts students explore the theoretical and practical elements of sound recording, reproduction, and design—the fundamentals crucial to successful work in all media that tap into the creative power of sound.

Given the enormous influence of these media, it is vital that these studies are given perspective by courses in LMU’s Liberal Arts core curriculum. Recording Arts students are also required to take one music class that deals with the fundamentals of music theory. In upper division courses, students study the science of sound behavior, reproduction, and modification. They learn audio techniques that apply to both film/television sound and music recording.

The SFTV sound stages, studios, and audio workstations are the laboratories where students put their knowledge and creativity to work and build a portfolio. Each Recording Arts student gains experience with film and television sound production and produces an advanced recording arts senior project. Creative collaboration is key to success in this field.

Recording Arts Student Learning Outcomes

Recording Arts students will understand:

- The physical and psychoacoustic properties of sound
- The techniques of making, editing, and processing sound recordings
- The aesthetic contribution of sound to media.

Recording Arts students will be able to:

- Make technically competent recordings of music as well as production and post-production sound for film and television media
- Effectively edit and process sound for those media
- Create technically competent and aesthetically pleasing mixes for those media.

Recording Arts students will value:

- The transformative power of challenging and meaningful art
- The collaborative and rigorous nature of working in sound for music, film, and television
- The cultural impact and significance of this media—past, present, and future.

Major Requirements

Lower Division Requirements:

18 semester hours of lower division courses distributed as follows: FTVS 200; FTVS 210 or 212; MUSC 104 and 107; PROD 200; and RECA 250 (completed with a grade of B [3.0] or better).

Upper Division Requirements:

Satisfactory completion of RECA 320, 322, 353, 358, 361, 367, 461, 464, and 470; plus one additional course from the SFTV upper division courses.

Screenwriting

Faculty

Chairperson: Jeffrey Davis
 Professors: Marilyn Beker, Stephen V. Duncan
 Associate Professors: Jeffrey Davis, Mark Evan Schwartz
 Assistant Professor: Beth Serlin

Screenwriting Graduate Program

Contact Information

Graduate Director: Kennedy Wheatley

Office Location: Xavier 209

Telephone: 310.338.3765

Objective

The School of Film and Television is dedicated to the mission of "Master Visual Storytelling Grounded in Humanism, Innovation, and Diversity." The primary objective of both screenwriting areas of emphasis is to prepare students to work in the entertainment industry as screenwriters for both film and television. In the pursuit of this objective, students learn through practical application by creating works in various art forms such as feature film screenplays and teleplays. In doing so, students create a portfolio of work that can be used to gain representation from professional artist management, attract the interest in their work and themselves as writers from all levels in the entertainment industry, and gain employment.

Students applying for the MFA Screenwriting Program are required to indicate the program of interest and submit appropriate writing samples with their application.

MFA Feature Film Screenwriting

The MFA in Feature Film Screenwriting primary goal is to train students to write and work in long-form storytelling. Progressing from the core courses, the feature film screenwriting student must complete a portfolio, which consists of three feature-length screenplays and develop a project adapted from another medium. Students can also take courses in television writing as electives.

First Year (18 Semester Hours)

Fall Semester

SCWR 510 Producing and Directing for Feature Film Screenwriters
SCWR 540 Elements of Feature Film Screenwriting

Choose one of the following (3 s.h.):

FTVS 611 Seminar in Film Genres
or

FTVS 612 Seminar in Film Authors
or

FTVS 613 Seminar in National Film
or

FTVS 614 Seminar in Television and Video

Spring Semester

SCWR 541 Intermediate Screenwriting Project I

Choose one of the following (3 s.h.):

FTVS 513 Seminar in American Film
or

FTVS 514 Seminar in International Film
or

FTVS 515 Seminar in Documentary Film
or

FTVS 517 Seminar in Television Programming
Free Writing Elective (3 s.h.)

Second Year (18 Semester Hours)

Fall Semester

SCWR 640 Rewriting the Feature Screenwriting Project I
SCWR 650 Intermediate Screenwriting Project II
Free Writing Elective (3 s.h.)

Spring Semester

SCWR 641 Feature Film Adaptation
SCWR 651 Rewriting the Feature Screenwriting Project II
Free Writing Elective (3 s.h.)

Third Year (15 Semester Hours)

Fall Semester

SCWR 685 Entertainment Business Affairs
SCWR 690 Adv. Screenplay Project I
SCWR 697 Feature Film Internship

Spring Semester

SCWR 691 Rewriting Adv. Screenplay Project II
SCWR 692 Feature Film Screenwriting Workshop

Total Semester Hours: 51

MFA Writing and Producing for Television

The MFA in Writing and Producing for Television goal is to train hyphenates—writer-producers—who will become the creative leaders of television programming. Progressing from the core courses, the television writing student must complete a portfolio, which consists of a one-hour "spec" teleplay, a half-hour "spec" teleplay, an original television pilot (one hour or half hour), and produce a presentation of the pilot. Students can also take courses in feature film writing as electives.

First Year (18 Semester Hours)

Fall Semester

SCWR 511 Intro to Television Producing
SCWR 550 Elements of Television Writing
FTVS 512 Seminar in Television Genres

Spring Semester

FTVS 517 Seminar in Television Programming
Free Writing or Film Studies Elective (3 s.h.)
Free Writing Elective (3 s.h.)

Second Year (15 Semester Hours)

Fall Semester

SCWR 660 Writing Episodic Drama
SCWR 670 Writing Episodic Comedy
SCWR 689 Acting for Television

Spring Semester

SCWR 611 Television Planning, Budgeting, and Scheduling

Choose one of the following (3 s.h.):

SCWR 661 Writing the Drama Pilot
or

SCWR 671 Writing the Comedy Pilot

Third Year (18 Semester Hours)

Fall Semester

SCWR 680 Television Producing II
SCWR 685 Entertainment Business Affairs
SCWR 696 Television Internship

Spring Semester

SCWR 681 Television Producing III
SCWR 682 Television Screenwriting Workshop

Total Semester Hours: 51

Screenwriting Undergraduate Program

Major Requirements

Lower Division Requirements:

12 semester hours of lower division courses distributed as follows:
FTVS 200; FTVS 210 or 212; PROD 200; SCWR 220 (completed with a grade of B [3.0] or better).

Upper Division Requirements:

Satisfactory completion of SCWR 320, 321, 325 or 426, 329, 420, 421, 428; and two cinema/TV history courses from FTVS 313-518 (FTVS 398, 498, or 598 require special permission). In consultation with the advisor, it is also recommended that the student take courses outside the major in writing, literature, and drama courses from English, Classics, and Theatre Arts department offerings.

Minor in Screenwriting for English Majors

The School of Film and Television offers a minor as an option to students majoring in the writing emphasis in the English Department. The minor consists of 18 semester hours.

Required Courses:

FTVS 210 Art of the Cinema
SCWR 220 Beginning Screenwriting
SCWR 320 Intermediate Screenwriting
SCWR 321 Completing or Rewriting the Feature

Upon completion of the required courses, students will choose two from the following:

SCWR 325 Writing the TV Situation Comedy
 SCWR 426 Writing for Television
 SCWR 428 Adaptation: One Medium to Another

SECONDARY TEACHER PREPARATION

Introduction

The Loyola Marymount University Center for Undergraduate Teacher Preparation exists to provide matriculation-to-graduation advising and other academic and professional support to undergraduates preparing for careers in K-12 teaching. The Center also serves as a resource for faculty and staff who provide instruction and other services in LMU's subject-matter teacher preparation programs.

In carrying out its work, the Center for Undergraduate Teacher Preparation is informed by the Mission and Goals of Loyola Marymount University, which emphasize the encouragement of learning, the education of the whole person, the service of faith, and the promotion of justice. For the encouragement of learning, the Center facilitates academically challenging teacher preparation programs where the faculty model effective pedagogy. The Center contributes to the education of the whole person through a vision of the educational process as the simultaneous formation of intellect, moral character, the senses and the imagination. The Center's role in the service of faith includes training future Catholic educators as well as cultivating respect in all our future teachers for the rich diversity of faith traditions in our multicultural society. To promote justice, the Center educates our future teachers to be agents of positive social change for all members of global society.

All LMU undergraduates who foresee a career in K-12 teaching, whether enrolling in a formal teacher preparation program or not, are encouraged to contact the Center for Undergraduate Teacher Preparation for support throughout their time at LMU.

Art Education

Secondary Teacher Preparation in Art

Secondary Teacher Preparation in Art

B.A. Degree in Studio Arts with an Emphasis in Art Education

The Art Education Emphasis is designed to create reflective, informed, caring, and capable artists who are skilled in using interpersonal and creative tools for teaching careers in California schools at the secondary level (grades 6-12). Students interested in earning a State of California Single Subject Teaching Credential in Art must fulfill all the requirements for the major in Studio Arts (STAR) with an Emphasis in Art Education (ARTE) and the requirements for a minor in Secondary Education (SEED). With the help of their advisor, students can carefully design a schedule to complete the program during their four years at LMU. Students who seek graduation with an Art Education Emphasis and a teaching credential should ideally declare the Art Education Emphasis as a freshman.

The LMU Secondary Teacher Preparation Program in Art is approved by the California Commission on Teacher Credentialing. The Department of Art and Art History is a fully accredited member of the National Association of Schools of Art and Design.

Students should consult with the Director/Advisor of Secondary Teacher Preparation Program in Art, Professor Terry Lenihan (tlenihan@lmu.edu 310.338.4409) to sign up for the program and to discuss their course of study.

Please contact the School of Education at soeinfo@lmu.edu for information about all available Secondary Teacher Preparation Programs (STPP). All students interested in teaching Art in middle schools or high schools should meet with their departmental advisors as soon as possible and must also attend a mandatory School of Education Undergraduate Information Session. Please call 310.338.7845 to obtain the next scheduled meeting time and to confirm attendance. The advisor for STPP students regarding the School of Education is Terri Taylor (ttaylor@lmu.edu 310.338.7755).

The Center for Undergraduate Teacher Preparation (CUTP) is also available to assist students interested in teaching careers in both secondary and elementary education. Please contact Dr. Bernadette M. Musetti, Senior Director and Associate Professor of Liberal Studies (bmusetti@lmu.edu 310.338.4402). CUTP has a library of information and advice for teachers and also sponsors several informational programs every year. CUTP is located in UH 3404, 310.338.1748.

Major Requirements for a Major in Studio Arts (STAR) with an Emphasis in Art Education (ARTE)

Core Requirements

Consult with the Director of Secondary Teacher Preparation of Art for Core recommendations. HIST 162 or POLS 135 required for students pursuing a teaching credential and recommended for all Art Education Emphasis students.

Lower Division Requirements (24 semester hours)

24 semester hours of lower division courses: ART 153, 160, 255, 257, 260, 275; ARHS 200 and 201; and ART 154, 278, 280, or 285 as the foundation for the Studio Arts Focus.*

Note: ARHS 200 also satisfies Critical Arts Core, and ART 153 satisfies Creative Arts Core.

Upper Division Requirements (27 semester hours)

27 semester hours of upper division courses: ART 355, 396 or 397, 455, 490 or 497; 9 semester hours of upper division ART electives*, ARHS 419, and a non-Western Art History course (ARHS 316, 318, 320, 321, 420, 421, 425, 428 or any non-Western ARHS 498 course).

*Studio Arts Focus Requirement

Out of the 9 semester hours of upper division ART electives, 6 must be in the same Studio Arts Focus. Select both lower and upper division courses from within the same Studio Arts Focus. Courses must be selected under the advisement of the Director of Secondary Teacher Preparation of Art.

Requirements for State of California Secondary Teaching Credential and a Minor in Secondary Education (SEED)

Art Education Emphasis students interested in earning a State of California Secondary Teaching Credential are encouraged to declare a Minor in Secondary Education.

The following education course requirements apply ONLY to those students who entered LMU after Spring 2003.

EDLC 400	Sociocultural Analysis of Education**
EDES 401	Educational Psychology for the Childhood and Adolescent Years**
EDCE 412	Fieldwork: Secondary Directed Teaching**
EDLC 414	Theories of Second Language Acquisition
EDLC 425	ELD Methods and SDAIE**
EDES 428	Reading/Language Arts for the Single Subject**
EDSS 440	Education of Culturally and Linguistically Diverse Students with Exceptional Needs

** Prerequisite courses along with these additional requirements are necessary for applying to the School of Education to earn the State of California Teaching Credential:

- Cumulative GPA of 2.8 or better
- CBEST original passing score report
- 20 hours of grade-level instruction (letter from ARTsmart Program Director)
- U.S. Constitution Requirement (HIST 162 or POLS 135)
- Fingerprint Clearance
- Tuberculosis (TB) Skin Test
- School of Education Application Form
- Statement of Intent
- Candidate Information Sheet
- Four Letters of Recommendation
- Technology Requirement (self-verification form)

See School of Education listing for additional requirements and information.

This schedule is typical. The sequence and choices of courses must be decided in consultation with the Director of Secondary Teacher Preparation of Art and advisors from the School of Education.

Additional education courses are required for those students who plan to complete the State of California Secondary Teaching Credential. Additionally, prerequisite courses are required along with these additional requirements and are necessary for applying to the School of Education to earn the State of California Teaching Credential.

All students interested in art education are required to consult closely with the CFA Dean's office, the Director of Secondary Teacher Preparation of Art, and the School of Education for the updated program requirements. Consultation is critical to insure timely completion of the programs. Additionally, students should contact the School of Education to arrange a time to attend an Undergraduate Information Session.

English

Secondary Teacher Preparation Program for English

Please contact the Center for Undergraduate Teacher Preparation for information about all available Secondary Teacher Preparation Programs. All students interested in teaching English in middle schools or high schools should meet with their departmental advisors as soon as possible and must also attend a mandatory School of Education Undergraduate Information Session. Please call 310.338.7845 to obtain the next scheduled meeting time and to confirm attendance.

Students interested in completing the coursework for the Secondary Teacher Preparation Program for English must fulfill all of the requirements for the major in English and must also fulfill special course requirements specified by the State of California. These requirements are set forth in detail below and in a brochure available from Prof. Linda Bannister (lbannist@lmu.edu, University Hall 3875, x82854).

The LMU Secondary Teacher Preparation Program for English is approved by the California Commission on Teacher Credentialing.

Checklist for Students: Secondary Teacher Preparation Program in English at LMU

Pre-Major/Lower Division Requirements (12 semester hours)

ENGL 201	Language of Poetry
ENGL 200	Language of Drama
or	
ENGL 202	Language of Fiction
ENGL 203	British Literature I
ENGL 204	British Literature II
Upper Division (30 semester hours)	
ENGL 321	Shakespeare: Major Plays
or	
ENGL 322	Studies in Shakespeare
ENGL ____	Pre-1800 Literature
ENGL ____	Post-1800 Literature
ENGL ____	Comp. or Cultural Lit
ENGL 346	Children's Literature (3 s.h. included in University Core to fulfill American Cultures requirement)
ENGL 375	StreetRead (preliminary field exp.)
or	
ENGL 376	StreetWrite (preliminary field exp.)
ENGL 565	Theory of Teaching Literature & Writing
ENGL 569	Linguistics
ENGL 574	Rhetoric and Media

6 semester hours of 2 electives, two electives of extended study in one of the domains. **Two courses taken from one of the domains:** 1) creative performance, 2) literary analysis, 3) rhetoric/composition, or 4) language and linguistics.

University Core Integral to Teacher Preparation Program (12 semester hours)

Includes ENGL 346, Children's Literature (3 semester hours) in place of AMCS (American Cultures) core.
Includes ENGL 371 or 372, American Literature Survey (3 semester hours), in place of Literature core.
Includes Communications Core (3 semester hours) and Creative Arts Core (3 semester hours) selected from the following:

Communications Core (3 semester hours)

* At least **one course** from the following Communication Studies courses (**also counts as University Core):

CMST 100	Intro to Public Speaking**
CMST 110	Interpersonal Comm.**
CMST 130	Argumentation and Debate**
CMST 170	Interpersonal and Small Group Communication
CMST 336	Intercultural Communication

Creative Arts Core (3 semester hours)

* At least **one course** from the following Theatre Arts courses (**also counts as University Core):

THEA 110	Beginning Acting (designed for the non-major)**
Beyond the Core, students may additionally wish to take:	
THEA 120	Basic Stagecraft (with THEA 121, Basic Stagecraft Lab)
THEA 251	Theatre Practicum: Perf.
THEA 451	Theatre Practicum: Perf.

Professional Course Work (30 semester hours)

EDLC 400	Sociocultural Analysis of Educ.
EDES 401	Educ. Psych. for the Childhood and Adolescent Years
EDCE 412	Secondary Directed Teaching (9 semester hours)
EDLC 414	Theories of Second Lang. Acq.
EDLC 425	Methods in English Lang. Dev. and Specially Designed Acad. Instruction in English
EDES 428	Reading/Language Arts for Single Subject Teachers
EDSS 440	Intro. to the Culturally and Linguistically Diverse Student with Exceptional Needs
EDES 486	Trends in Teaching English in the Secondary Schools

Total Semester Hours:
12+30+12+30+36 additional semester hours of University Core=120 semester hours

(These 36 semester hours of additional core are described in the University Bulletin under Bellarmine College of Liberal Arts [BCLA], Core Curriculum.)

Explanation of Coursework Required

Candidates must complete major requirements and liberal arts core requirements that address the four domains of competence. The courses listed above under pre-major, lower-division (12 semester hours), and upper-division (30 semester hours) will demonstrate competence in the Four Domains.

Candidates complete coursework in the Four Domains of Competence, including:

- the literature and textual analysis requirement by taking a **minimum of ten literature courses** (these ten courses are included in those listed above)
- the language, linguistics, and literacy requirements by taking ENGL 559, Linguistics; and EDLC 414, Theories of Second Language Acquisition
- the rhetoric and composition requirement by taking ENGL 110, College Writing; ENGL 574, Rhetoric and Media; and ENGL 565, Theory of Teaching Writing and Literature
- the communications, speech, media, and creative performance requirement by taking *one communications course* (CMST 100, Introduction to Public Speaking; CMST 110, Interpersonal Communication; or CMST 130, Argument and Debate); *one theatre course* (THEA 110, Beginning Acting; THEA 120/121, Basic Stagecraft and Stagecraft Lab; THEA 251, Theatre Practicum: Performance; or THEA 451, Theatre Practicum: Performance); and *one media course* (ENGL 574, Rhetoric and Media).

Candidates must also complete extended studies in one of the domains. This extended study consists of 6 semester hours or 2 electives in the selected domain. Students may not choose one course from one domain and one course from another. They must select their two elective courses from within one domain. Students can specialize in every genre and/or period and can select from a wide range of theory and writing courses, both creative and professional.

- Domain Course Listings:
- Literature and Language Analysis
- Language, Linguistics, Literacy
- Composition and Rhetoric
- Communications, Speech, Media, and Performance

Advising Assistance

A message from the School of Education: Please contact the School of Education at soeinfo@lmu.edu for information about all available Secondary Teacher Preparation Programs. All students interested in teaching English in middle schools or high schools should meet with their departmental advisors as soon as possible and must also attend a mandatory School of Education Undergraduate Information Session. Please call 310.338.7845 to obtain the next scheduled meeting time and to confirm attendance. The advisor for STPP students regarding the School of Education is Terri Taylor, ttaylor@lmu.edu, x87755.

The Center for Undergraduate Teacher Preparation (CUTP) is also available to assist students interested in teaching careers in both secondary and elementary education. Please contact Dr. Bernadette M. Musetti, Senior Director and Associate Professor of Liberal Studies, 310.338.4402, bmusetti@lmu.edu, UH 3407. CUTP has a library of information and advice for teachers and also sponsors several informational programs every year. CUTP is located in UH 3404, 310.338.1748.

Students interested in completing the coursework for the Secondary Teacher Preparation Program in English must fulfill all of the requirements for the major in English and must also fulfill special course requirements specified by the State of California. These requirements are set forth in detail in the "Secondary Teacher Preparation Program in English" section of the University Bulletin under English Department.

Students should consult with the **Director/Advisor for the Secondary Teacher Preparation Program in English**, Dr. Linda Bannister (lbannist@lmu.edu), UH 3875, x82854 to sign up for the program and to discuss their course of study.

Undergraduate-Level Coursework Plan for the Secondary Teacher Preparation Program for English

The Secondary Teacher Preparation Program for English is designed for students who anticipate teaching English in grades 6-8 or 9-12. Because of the rigorous standards set by the State of California for teacher credentialing, the Program at LMU is very specific in terms of the coursework you will be taking. With careful planning, however, it is possible to complete an English major, the University's Core Curriculum requirements, the Secondary Teacher Preparation Program for English, and the School of Education's required courses in four years (eight semesters).

Four-Year Plan for the English Major

(120 Semester Hours)

Freshman Year

Fall Semester		S.H.

This four-year plan is only a model. Course offerings vary from semester to semester. In every semester the students must meet with his or her advisor in order to decide how best to continue one's education.

Teacher Preparation Programs in Biology, Chemistry, and Mathematics

The Frank R. Seaver College of Science and Engineering offers subject matter preparation programs in mathematics and in science specifically designed to meet State of California subject matter requirements for a secondary teaching credential. Both the Bachelor of Arts degree in Mathematics (see the Mathematics section) and the Bachelor of Science degree in Natural Science (see the Natural Science section) are designed to allow completion of the 2042 California Preliminary Single Subject (Secondary) credential in four years, although this may require some summer coursework. These programs are offered in conjunction with the Center for Undergraduate Teacher Preparation and the School of Education. The College also offers courses in mathematics and science to support the multiple subject credential program for teaching elementary school (see the Liberal Studies section in the Bellarmine College of Liberal Arts part of the University Bulletin).

All students interested in teaching mathematics or science at the secondary level should inform their departmental advisors as soon as possible and should also contact the Center for Undergraduate Teacher Preparation and the School of Education to arrange a time to attend an Undergraduate Information Session.

Mathematics

Bachelor of Arts with Major in Mathematics

Secondary Teacher Preparation Program

This major is designed for students who are interested in pursuing a career in teaching mathematics at the secondary (i.e., middle or high school) level. With the help of her/his advisor, the student may design a schedule carefully so that s/he can complete the degree and 2042 California Preliminary Single Subject (Secondary) Teaching Credential during her/his four years at LMU.

Included in the program, students complete University and College core lower division. Additionally, students complete eight upper division math core. The required upper division math courses are: MATH 321, 331, 357, 360, 490, 493 or 497, 550, and one additional 3 semester hour upper division MATH elective (excluding MATH 301 or 302) chosen in consultation with her/his advisor.

In addition, the Bachelor of Arts requires students to complete EDES 488 and two three semester EDxx courses chosen from the list of requirements for the preliminary single subject secondary credential pro-

gram. Those doing both the Bachelor of Arts and the credential will have to complete the other requirements for the credential program.

Four-Year Plan for Mathematics Major, Secondary Teacher Preparation Program, including the Preliminary Single Subject Credential

Freshman Year**Fall Semester:**

- MATH 131 Calculus I (4 semester hours)
- MATH 190 Workshop in Math (2 semester hours)
- ENGL 110 College Writing (3 semester hours)
- University Core (PSYC 100+) (3 semester hours)
- University Core (Comm/Critical Thinking) (3 semester hours)

Spring Semester:

- MATH 132 Calculus II (4 semester hours)
- MATH 191 Workshop in Math II (2 semester hours)
- Science Requirement—choose one of the following: PHYS 101 or 201 or CMSI 185 or 281 (3/4 semester hours)
- HIST 100 Foundations of Western Civilization to 1500 or HIST 101 Wester Traditions (3 semester hours)
- THST 1xx (3 semester hours)

Sophomore Year**Fall Semester:**

- MATH 234 Calculus III (4 semester hours)
- MATH 248 Intro to Methods of Proof (3 semester hours)
- University Core (Creative Arts) (3 semester hours)
- HIST 162* Contemporary America (3 semester hours)
- University Core (Literature) (3 semester hours)
- PHIL 160 Philosophy of Human Nature (3 semester hours)

Spring Semester:

- EDLC 400+ Education Requirement (3 semester hours)
- MATH 245 Ord Differential Equations (3 semester hours)
- MATH 250 Linear Algebra (3 semester hours)
- MATH 282 Elem Numerical Methods (3 semester hours)
- MATH 293** Field Experience (0 semester hours)
- EDES 401+ Educational Psychology for the Childhood and Adolescent Years (3 semester hours)

Junior Year**Fall Semester:**

- EDSS 440 Intro to the Culturally and Linguistically Diverse Student with Exceptional Needs (3 semester hours)
- MATH 321 Real Variables (3 semester hours)
- MATH 360 Intro to Probability and Statistics (3 semester hours)
- THST 3xx (3 semester hours)
- EDLC 414 Theories of Second Language Acquisition (3 semester hours)
- EDCE 461 Teaching Performance Assessment (0 semester hours)

Spring Semester:

- MATH 331 Elements of Group Theory (3 semester hours)
- MATH 3xx Mathematics Upper Division Elective (excludes 301 or 302) (3 semester hours)
- MATH 490 History of Mathematics (3 semester hours)
- PHIL 320 Ethics or 330 Contemporary Moral Problems (3 semester hours)
- EDLC 425 Methods in English Language Development and Specially Designed Academic Instruction in English (3 semester hours)

Senior Year**Fall Semester:**

- EDES 488 Trends in Teaching Secondary Math (3 semester hours)
- EDCE 462 Teaching Performance Assessment 2 (0 semester hours)
- MATH 357 Complex Variables (3 semester hours)

- MATH 493 Seminar for Educators or 497 Thesis (3 semester hours)
- MATH 550 Geometry (3 semester hours)
- University Core (Critical Arts) (3 semester hours)

Spring Semester:

- EDES 8000 Health Education (1 semester hour)
- EDES 428 Reading/Language Arts for Single Subject Teachers (3 semester hours)
- EDCE 463 Teaching Performance Assessment 3 (0 semester hours)
- EDCE 412 Secondary Directed Teaching (9 semester hours)
- EDCE 464 Teaching Performance 4 (0 semester hours)

* HIST 162 satisfies both the U.S. Constitution requirement for the preliminary teaching credential and 3 semester hours of the history core requirement. POLS 135 satisfies both the U.S. Constitution requirement for the preliminary teaching credential and 3 semester hours of the social science core requirement.

** This class is required for the student who wishes to get a secondary teaching credential.

*** For the student who is working on the teaching credential, these semester hours can be used for secondary directed teaching (EDCE 412).

† Note: With the approval of the Chairperson of Mathematics and the Associate Dean of Science and Engineering:

1. EDLC 400 can be substituted for AMCS 100.
2. EDES 401 can be substituted for an upper division Psychology class to be paired with PSYC 100 to satisfy the 6 semester hours of Social Science requirement.

This four-year plan serves only as a general model. Students should meet with their advisors at least once a semester to discuss progress in the program and plans for future semesters.

Natural Science

See the Natural Science section in the Frank R. Seaver College of Science and Engineering part of the University Bulletin.

Social Science

Secondary Teacher Preparation Program in Social Science

The LMU Secondary Teacher Preparation Program in Social Science is designed for students who are seeking history and social science teaching positions in grades 6-8 or 9-12 in school settings that are departmentalized.

This program includes courses both in the Bellarmine College of Liberal Arts and the School of Education, and it leads towards the 2042 Preliminary Single-Subject Teaching Credential granted by the State of California Commission on Teacher Credentialing.

Students are able to complete the LMU Secondary Teacher Preparation Program in Social Science at the same time that they complete a B.A. degree with a major either in History or Political Science. The LMU Secondary Teacher Preparation Program in Social Science has been approved by the California Commission on Teacher Credentialing.

Please contact the Center for Undergraduate Teacher Preparation for information about all available Secondary Teacher Preparation Programs. All students interested in teaching English in middle schools or high schools should meet with their departmental advisors as soon as possible and must also attend a mandatory School of Education Undergraduate Information Session. Please call 310.338.7845 to obtain the next scheduled meeting time and to confirm attendance.

In order to meet the academic requirements of the LMU Secondary Teacher Preparation Program in Social Science, students must complete the following courses granting either 141 semester hours of credit for a Political Science major or 120 semester hours of credit for a History major.

Required Core Courses in the Secondary Teacher Preparation program in Social Science (27 semester hours)

World History	
HIST 300	History of Global Encounters before 1500
HIST 301	History of Global Encounters after 1500

POLS 155	Comparative Foreign Govs
United States History	
HIST 161	Young America, 1607-1900
HIST 162	Contemporary America

California History	
HIST 366	History of California
(also meets the LMU American Cultures Studies course requirement)	

Principles of Democracy	
POLS 135	Contemp. American Politics

Principles of Economics	
ECON 100	Economic Literacy

Principles of Geography	
GEOG 100	Human Geography

Required Extended Studies Courses in the Secondary Teacher Preparation Program in Social Science (15 semester hours)

EDLC 400	Sociocultural Analysis of Educ.
EDES 485	Teaching Social Studies in Secondary Schools
PHIL 160	Philosophy of Human Nature
PHIL 320	Ethics
THST 180	Religions of the World

Required Courses in the Secondary Teacher Preparation Program in Social Science Needed to Complete Either a History or a Political Science Major (HIST Majors: 24 semester hours; POLS Majors: 48 semester hours)

Both History and Political Science majors choose either HIST 152: Modern Middle East, HIST 172: Modern Latin America, HIST 182: Modern Asia, or HIST 192: Contemporary Africa

POLS 210: Empirical Approaches to Politics (a requirement for POLS majors); HIST 310: History and Historians, or HIST 330: History as Detective (a requirement for HIST majors) (HIST and POLS majors)

Political Science majors must complete POLS 220: Foundations of Political Thought. (POLS Majors)

Both History and Political Science majors choose five upper division HIST courses. Not more than half of the total upper division semester hours may be taken from one of the following areas: a) Europe; b) United States; or c) Africa, Asia, Latin America, and modern Middle East 15 s.h. (HIST and POLS Majors)

Political Science majors choose five upper division POLS courses, at least one course in three of these five groups: Political Thought, U.S. Politics, Comparative Politics, and International and World Politics. 20 s.h. (POLS Majors)

History majors choose one HIST 500-level senior seminar. Political Science majors choose one POLS 500-level seminar. 3/4 s.h. (HIST and POLS Majors)

Total:
HIST Majors: 24 semester hours
POLS Majors: 48 semester hours

Education Courses Required for the 2042 Preliminary Single-Subject Teaching Credential (not included in the Extended Studies Courses of the Secondary Teacher Preparation Program in Social Science) (24 semester hours)

EDES 401	Educ. Psych. for the Childhood and Adolescent Years
EDCE 412	Secondary Directed Teaching
EDLC 414	Theories of Second Lang. Acq.
EDLC 425	Methods in English Lang. Dev. and Specially Designed Acad. Instruction in English
EDES 428	Reading/Language Arts for Single Subject Teachers
EDSS 440	Intro. to the Culturally and Linguistically Diverse Student with Exceptional Needs

LMU Core Curriculum Courses (not included in the Core and Extended Studies Courses of the Secondary Teacher Preparation Program in Social Science) (24 semester hours for POLS majors and 30 semester hours for HIST majors)

College Writing	
Communications/Critical Thinking	
Critical Arts	

Creative Arts
Literature
Mathematics
Science and Technology
Theology (upper division)
Electives (HIST majors)

Total semester hours that a student needs to complete in order to meet the coursework requirements of the LMU Secondary Preparation Program in Social Science, a B.A. degree with a major in either History or Political Science, and the California 2042 Preliminary Single-Subject Teaching Credential:

HIST Majors: 120 semester hours

POLS Majors: 138 semester hours

Undergraduate-Level Coursework Plan for the Secondary Teacher Preparation Program in Social Science (History)

The Secondary Teacher Preparation Program in Social Science is designed for students who anticipate teaching history and social science in grades 6-8 or 9-12 in school settings that are departmentalized. Because of the rigorous standards set by the State of California for teacher credentialing, the Program at LMU is very specific in terms of the coursework you will be taking. With careful planning, however, it is possible to complete a History major, the University's Core Curriculum requirements, the Secondary Teacher Preparation Program's subject-matter courses in social science, and the School of Education's required courses in four years (eight semesters). Students with a History major, choosing to complete this four-year plan, will fulfill all of the required coursework at the undergraduate level that will lead to a B.A. degree, with a major in History, and the California 2042 Preliminary Social Science Single-Subject Credential.

Spanish

Secondary Teacher Preparation Program for Spanish

Please contact the Center for Undergraduate Teacher Preparation for information about all available Secondary Teacher Preparation Programs. All students interested in teaching Spanish in middle or high schools should meet with their departmental advisors as soon as possible and must also attend a mandatory School of Education Undergraduate Information Session. Please call 310.338.7845 to obtain the next scheduled meeting time and to confirm attendance.

Students interested in completing the coursework for the Secondary Teacher Preparation Program for Spanish must fulfill the requirements for the major in Spanish and take two additional courses specified by the State of California Commission on Teacher Credentialing.

This program includes courses both in the Bellarmine College of Liberal Arts and the School of Education.

The LMU Secondary Teacher Preparation Program for Spanish is approved by the California Commission on Teacher Credentialing.

Required Course List: Secondary Teacher Preparation Program for Spanish at LMU

Pre-Major/Lower Division Requirements (12 semester hours): Any or all of these courses can be exempted by placing above the level in the LMU Spanish Placement exam:

SPAN 101	Elementary Spanish I
SPAN 102	Elementary Spanish II
SPAN 203	Intermediate Spanish I
SPAN 204	Intermediate Spanish II
	<i>or</i>
SPAN 205	Intermediate Spanish II for Latino Students
	Upper Division (24 semester hours)
SPAN 321	Stylistics and Composition
SPAN 322	Intro to Hispanic Literatures

SPAN 333	Spanish Linguistics I: Sounds and Words
Two of the following courses:	
SPAN 331	Survey of Peninsular Spanish Literature
SPAN 332	Survey of Latin American Literature
SPAN 334	Spanish Linguistics II: Structure and Variation
Three of the following courses:	
SPAN 433	Spanish of the United States
SPAN 434	Spanish Language Acquisition
SPAN 441	Latin American Novel
SPAN 442	Latin American Poetry
SPAN 443	Latin Amer Women Writers
SPAN 444	Latin American Drama
SPAN 445	Latin American Short Story
SPAN 451	Nineteenth-Century Spanish Literature
SPAN 452	Early Modern Spanish Narrative
SPAN 453	Twentieth-Century Spanish Literature
SPAN 455	Early Modern Spanish Drama and Poetry
SPAN 457	Spanish Authors
SPAN 460	Selected Topics in Spanish Studies
SPAN 498	Special Studies

Mandatory 400-level Courses for Teacher Preparation for Spanish (6 semester hours)

SPAN 420	Hispanic Cultural Studies
SPAN 432	Spanish of the Americas

Capstone Spanish Portfolio (1 semester hour)	
SPAN 500	Senior Capstone Project

Professional Course Work (30 semester hours)

EDLC 400	Sociocultural Analysis of Educ.
EDES 401	Educ. Psych. for the Childhood and Adolescent Years
EDCE 412	Secondary Directed Teaching
EDLC 414	Theories of Second Lang. Acq.
EDLC 425	Methods in English Lang. Dev. and Specially De- signed Acad. Instruction in English

Undergraduate-Level Coursework Plan for the Secondary Teacher Preparation Program for Spanish

The Secondary Teacher Preparation Program for Spanish is designed for students who anticipate teaching Spanish in grades 6-8 or 9-12. Because of the rigorous standards set by the State of California for teacher credentialing, the Program at LMU is very specific in terms of the coursework you will be taking. Students with the equivalent of three semesters of college Spanish (placing at SPAN 204-205) will be able to complete a Spanish major, the University's Core Curriculum requirements, the Secondary Teacher Preparation Program for Spanish, and the School of Education's required courses in four years. Students starting at a lower Spanish proficiency level must be willing to take Summer courses abroad or at other institutions to complete this program in four years.

AEROSPACE STUDIES

All University Colleges and Schools

Faculty

Alexis Bailey, Charles Corley, Won In, Daniel Krunglevich, Erik Torguson

General Military Course

The first two years of Aerospace Studies (AERO 100, 200) are designated the General Military Course (GMC) for students enrolled in Air Force Reserve Officer Training Corps (AFROTC). There are no prerequisites for these courses, and all University students may participate. These courses focus on developing individual communication skills, basic leadership traits, understanding the environment of the Air Force officer, and comprehending the historical development of the United States Air Force in the national security structure. AERO 100 and 200 may be taken concurrently to allow late entry into the program by second-semester freshmen and sophomores.

Professional Officer Course

The last two years of AFROTC (AERO 300, 400) are designated the Professional Officer Course (POC) for students enrolled in AFROTC. They are designed to prepare cadets for duty as officers in the United States Air Force and provide students with a working knowledge of advanced leadership and management theories and applications, as well as an understanding of the United States national security processes. The POC includes academics, interaction with military and national security professionals, and the practice of leadership and management in a large group environment.

Special Notes

Aerospace Studies are open to all students who wish to take these classes as electives, whether they are cadets or not. Courses may or may not count toward graduation, depending upon the student's major. Students should consult their Dean and Department Chairperson for allowable courses. Leadership laboratories are mandatory for members of the cadet corps but optional for students taking the academic courses as electives.

Air Force Reserve Officer Training Corps Program

The AFROTC program at Loyola Marymount University is conducted by active duty Air Force Officers assigned to the Department of Aerospace Studies. The program is designed to prepare qualified men and women for careers as commissioned officers in the United States Air Force. Textbooks, uniforms, and all other equipment used in this program are furnished by the Air Force at no expense to the student.

Air Force ROTC offers two-, three-, and four-year scholarships. Additionally, Loyola Marymount University supplements some Air Force ROTC scholarships with room and board.

A nominal four-year program consists of two years of the General Military Course, followed by two years of the Professional Officer Course. Admission into the Professional Officer Course is limited to those students who successfully pass required written, oral, and physical examinations. During the summer between the sophomore and junior year, cadets are required to attend four weeks of field training at Maxwell Air Force Base, Alabama, to familiarize them with Air Force life. The Air Force furnishes all uniforms, equipment, and transportation. Students also receive pay and allowances authorized by current directives at the time of field training attendance. After successfully completing field training, qualified cadets enter the Professional Officer Course and receive \$300-500 per month, tax-free, during the final two years of AFROTC.

AFROTC offers students expanded access to management theories and practice, exposure to industry and military leaders, and opportunities to better comprehend international political and security environments. While most training takes place on the LMU campus, it includes extensive interaction with students from other local universities and colleges

who participate in the program. In addition to a commission upon graduation, cadets may apply for careers as pilots, navigators, space and missile operators, business administrators, engineers, health professionals, intelligence, officers, and many other leadership positions.

UNIVERSITY HONORS PROGRAM COURSES

HNRS 100

Writing Tutorial

1 Semester Hour

An individual tutorial which guides students in the writing of clear, logical, and cogent essays, with an emphasis on close and accurate readings of the texts from HNRS 115.

HNRS 101

American Persona

3 Semester Hours

An interdisciplinary seminar based on readings reflecting the political, social, literary, and cultural diversity of the American experience.

HNRS 105

Wealth of Nations

3 Semester Hours

An in-depth treatment of social science theory and policy, including analysis of individual decision-making, markets, the national economy, and the government.

HNRS 115

On the Sublime

3 Semester Hours

A First-Year Honors seminar that presents students to the "Great Ideas" and the overarching themes of the intellectual tradition.

HNRS 120

On Human Dignity

3 Semester Hours

An examination of what it means to be human as reflected in and fashioned by significant philosophical works, both classical and contemporary.

HNRS 130

Society and Its Discontents

3 Semester Hours

A discussion of culture and ideology that informs social issues and contemporary questions.

HNRS 140

On Motion and Mechanics

3 Semester Hours

An experiential course employing scientific, mathematical, and engineering methods to study the world around us and solve technical problems.

HNRS 198

Special Studies

1-3 Semester Hours

HNRS 199

Independent Studies

1-3 Semester Hours

HNRS 215

Imago Dei

3 Semester Hours

A historical, literary, and social exploration of theological images of creation and the divine.

HNRS 220

Republic to Prince

3 Semester Hours

A study of history and the construction of civilizations from the ancient to early modern periods.

HNRS 230

Age of Leviathan

3 Semester Hours

A historical presentation of the major concepts, ideologies, and movements that have dominated the path to contemporary globalization.

HNRS 240

On the Nature of Things

3 Semester Hours

An examination of the history, philosophy, and nature of scientific discovery, theory, and practice.

HNRS 298

Special Studies

1-3 Semester Hours

HNRS 299

Independent Studies

1-3 Semester Hours

HNRS 330

Beyond Good and Evil

3 Semester Hours

An exploration of moral problems through the study of ethics, considering select issues in social justice, science and technology, business and society, medicine and bioethics, or media and responsibility.

HNRS 398

Special Studies

1-3 Semester Hours

These seminars, taught outside of the University Honors Program, give Honors students the opportunity to explore topics and questions along with upper division majors in a variety of disciplines. Students are encouraged to expand their horizons and study something outside of their field of specialty.

HNRS 399

Independent Studies

1-3 Semester Hours

HNRS 490

Honors Teaching Assistant

1-2 Semester Hours

Guided teaching of HNRS 100 by leading individual writing tutorials, peer-editing groups, and discussion of the First-Year Book.

HNRS 497

Honors Thesis

3 Semester Hours

The preparation, research and publication of the Honors Thesis. Required of any Honors student not pursuing a thesis/capstone/Senior project in their major.

HNRS 498

Special Studies

1-3 Semester Hours

HNRS 499

Independent Studies

0-3 Semester Hours

BELLARMINE COLLEGE OF LIBERAL ARTS COURSES

African American Studies

AFAM 115

Introduction to African American Studies

3 Semester Hours

An introductory course designed to give an overview of African American Studies in order to familiarize the student with the history, culture, aspirations, and contemporary issues of the African American experience.

AFAM 150

Black Cultural Arts

3 Semester Hours

A study of Black American art forms, such as music, dance, theatre, film, television, painting, sculpture, and literature, as they have developed in the African Diaspora from slavery to the modern age.

AFAM 155

African American History

3 Semester Hours

An analysis of the historical forces which shaped the African American experience in America from past to present.

AFAM 198

Special Studies

1-3 Semester Hours

AFAM 199

Independent Studies

1-3 Semester Hours

AFAM 208

Social Research Methods

3 Semester Hours

An introduction to scientific inquiry and research methods in the social sciences with special emphasis on African Americans.

AFAM 270

Gospel Choir

1 Semester Hour

Students participating in LMU Gospel Choir enroll in this course.

AFAM 298

Special Studies

1-3 Semester Hours

AFAM 299

Independent Studies

1-3 Semester Hours

AFAM 301

Black Identities, Families, and Cultures

3 Semester Hours

This course examines relevant issues about life within the Black Family and the impact that these issues have on the individual, the community, and culture. Emphasis is placed on myths, gender roles, socialization, parenting styles, and male/female relationships. The course gives students an opportunity to select an aspect of Black life and do an in-depth critical analysis of it with a focus on the current research, competing views, and implications for the future.

AFAM 335

Sociology of the Black Community

3 Semester Hours

A survey of the effects of long-standing discrimination and deprivation upon family structure, occupational patterns, health and educational conditions, motivation, and personal as well as group identity. An analysis of the Black power concept and its influence upon the growing community control of the ghetto.

AFAM 337

Black Arts Movement

3 Semester Hours

A survey of the critical, fictional, poetic, and dramatic writings of Black Americans in the 1920s-1930s and the 1960s-1970s.

AFAM 395

Black Drama

3 Semester Hours

A survey of dramatic literature written by African American playwrights from the 19th century to the current day. Representative playwrights include Garland Anderson, Theodore Ward, Langston Hughes, James Baldwin, Lorraine Hansberry, Charles Gordone, Charles Fuller, Ntozake Shange, and August Wilson. Students will have the opportunities to attend live performances of African American drama in L.A. communities and to stage readings of selected works.

AFAM 396

Survey of African American Literature

3 Semester Hours

A study of the major themes in selected works of African American literature; examination of their social, historical, cultural, and contemporary significance.

AFAM 397

Hip Hop Culture

3 Semester Hours

This course will explore how and why hip hop has become a global phenomenon, examining themes within hip hop culture with a primary focus on race, gender, class, sexuality, and youth politics of hip hop.

AFAM 398

Special Studies

1-4 Semester Hours

AFAM 399**Independent Studies***1-3 Semester Hours***AFAM 435****Sex, Race, and Violence***3 Semester Hours*

This course examines the issues of sex, race, and violence and their implications for the individual, the family, and the community. Emphasis is placed on the role of socialization and the myths that impact societal attitudes about sex and violence. Student have an opportunity to identify and to explore factors that influence the manifestation of physical violence (including dating violence, child abuse, and domestic violence), and sexual violence (including date rape, stranger rape, and marital rape) across the dimensions of race, ethnicity, and gender.

AFAM 485**African American Social Thought***3 Semester Hours*

A survey of the development of African American social thought with special emphasis upon current philosophies which have influenced contemporary African American social movements.

AFAM 497**Senior Seminar***3 Semester Hours*

Designed as a capstone experience for African American Studies majors and minors. In the seminar format, students will be challenged to integrate knowledge, skills gained in course work, and life experiences into a meaningful project that meets the challenge of academic excellence and social responsibility.

Senior standing required.

American Cultures Studies

AMCS 100

Introduction to American Cultures

3 Semester Hours

Lower division introductory courses in American Cultures Studies explore the meaning and dynamics of such issues as race, ethnicity, gender, class, sexuality, and other factors that define members of our society. These issues are explored from the vantage point of at least three ethno-cultural groups. Courses may be taught from myriad disciplinary perspectives and emphasize the development of basic skills for understanding and interacting in today's multicultural society.

Not repeatable for credit.

Freshman and Sophomore students only.

AMCS 105

History of Ethnic America

3 Semester Hours

A historical and comparative approach to the study of America's racial and ethnic diversity.

Freshman and Sophomore students only.

AMCS 110

Race in Contemporary American Society

3 Semester Hours

A critical examination of the role of race and ethnicity in contemporary American society.

Freshman and Sophomore students only.

AMCS 115

Race and Representations

3 Semester Hours

A comparative examination of race and ethnicity in American literary and cultural representations.

Freshman and Sophomore students only.

AMCS 161

Young America, 1607-1900

3 Semester Hours

(See HIST 161.)

AMCS 198

Special Studies

1-3 Semester Hours

Freshman and Sophomore students only.

Freshman and Sophomore students only.

AMCS 299

Independent Studies

1-3 Semester Hours

AMCS 300

Advanced Survey of American Cultures

3 Semester Hours

Upper division courses in American Cultures Studies explore the meaning and dynamics of race, ethnicity, class, sexuality, and other factors that define members of our society. These issues are explored from the vantage point of at least three ethno-cultural groups. Courses may be taught from myriad disciplinary perspectives and emphasize the development of basic skills for understanding and interacting in today's multicultural society.

Not repeatable for credit.

Junior and Senior students only.

AMCS 346

Children's Literature

3 Semester Hours

(See ENGL 346.)

AMCS 350

Immigration and Los Angeles

3 Semester Hours

An interdisciplinary and comparative examination of the historical role of immigration and migration in shaping the Los Angeles region as well as the social, political, economic, and cultural impact of immigration in contemporary Los Angeles.

AMCS 366

History of California

3 Semester Hours

(See HIST 366.)

AMCS 367

History of Los Angeles

3 Semester Hours

(See HIST 367.)

AMCS 398

Special Studies

1-4 Semester Hours

Junior and Senior students only.

AMCS 399

Independent Studies

1-3 Semester Hours

Asian Pacific American Studies

APAM 117

Introduction to Asian Pacific American Studies

3 Semester Hours

An introductory course which surveys the cultures and histories of the Asian Pacific American in the U.S. Interaction among various Asian Pacific Americans in the United States will also be discussed.

Fulfills core curriculum requirement for Social Sciences.

APAM 198

Special Studies

1-3 Semester Hours

APAM 199

1-3 Semester Hours

APAM 350

Immigration and Los Angeles

3 Semester Hours

An interdisciplinary and comparative examination of the historical role of immigration and migration in shaping the Los Angeles region as well as the social, political, economic, and cultural impact of immigration in contemporary Los Angeles.

APAM 371

Asian American Literature

3 Semester Hours

A survey of Asian Pacific American writers and their literature, using critical analysis of autobiographies, short stories, novels, poetry, essays, and films.

APAM 398

Special Studies

1-4 Semester Hours

APAM 399

Independent Studies

1-3 Semester Hours

APAM 417

Contemporary Issues of Asian Pacific Americans

3 Semester Hours

Topical studies of timely and pertinent contemporary interest involving Asian Americans in the U.S. Focus will change from year to year.

APAM 427

Asian American Psychology

3 Semester Hours

Coverage of major psychological issues relevant to Asian American personality, identity, and mental health, including acculturation, stereotypes, racial identity, intergenerational conflict, etc.

APAM 435

Asian Pacific American Women's Experience

3 Semester Hours

An interdisciplinary and comparative examination of the histories and experiences of Asian Pacific American women. Topics include social and economic inequality, literary and cultural representation, and political and community activism.

APAM 437

Asian Pacific Americans and the American Law

3 Semester Hours

An examination of constitutional, immigration, and civil rights laws and their impact on Asian Pacific American experience. Analysis of historical court cases and legislation, including those pertaining to citizenship, exclusion, and World War II internment. Study of contemporary legal issues in Asian Pacific American communities.

APAM 450

Specific Ethnic Focus Seminars

3 Semester Hours

An in-depth examination of the experience of a single Asian American subgroup. Populations covered will vary.

APAM 453

Filipino American Experience

3 Semester Hours

Comprehensive introduction to the Filipino American experience. Historical analysis of U.S. colonialism and the experiences of Filipino Americans as "American Nationals." Review of contemporary issues such as immigration patterns, community formation, and family dynamics. In-depth study of Filipino Americans in Los Angeles and Southern California.

APAM 457

Vietnamese American Experience

3 Semester Hours

Comprehensive introduction to the Vietnamese American experience. Review of Southeast Asian politics during the Cold War with emphasis on U.S. policies in Vietnam. Review of contemporary issues in Vietnamese American community including economic integration, political mobilization, and community and family dynamics. In-depth study of social and cultural life of Vietnamese Americans in Los Angeles and California.

APAM 459

Pacific Islander American Experience

3 Semester Hours

Comprehensive study of the Pacific Islander American experience, including the history and culture of Pacific Islanders, especially Hawaii, and contemporary issues facing the Pacific Islander American communities, particularly in Southern California.

APAM 478

Comparative Study of Asian Pacific American History

3 Semester Hours

Traces the many-faceted histories of Asian Americans and Pacific Islanders from cross-cultural and transnational perspectives, focusing on interactions and exchanges between Asian Pacific Americans and various ethnic and racial groups.

APAM 498

Special Studies

1-3 Semester Hours

Archaeology

ARCH 201

Beginning and Intermediate Classical Hebrew

3 Semester Hours

A concentrated course in Hebrew, with attention paid to its historical development and to comparative phonetics and morphology.

ARCH 204

Beginning and Intermediate Classical Arabic

3 Semester Hours

A concentrated course in the writing system and morphology of the classical language.

ARCH 205

Beginning and Intermediate Sanskrit

3 Semester Hours

A concentrated course in the writing system, phonetics, and morphology of the classical language.

ARCH 298

Special Studies

1-3 Semester Hours

ARCH 299

Independent Studies

1-3 Semester Hours

ARCH 301

Rapid Readings in Classical Hebrew

3 Semester Hours

Selected readings in both prose and poetry.

Prerequisite: ARCH 201 or equivalent.

ARCH 302

Egyptian Hieroglyphics

3 Semester Hours

A study of the Middle Egyptian language, its literature, and the hieroglyphic writing system.

APAM 499

Independent Studies

1-3 Semester Hours

APAM 500

Capstone Course

3 Semester Hours

A mandatory course that provides APAM minors with the opportunity to create an individualized thesis project that draws on knowledge and experiences gained from previous coursework in APAM studies. Specific requirements will be finalized based on the research interest.

Prerequisite: Completion of all other APAM requirements.

ARCH 303

Ancient Near Eastern Languages

3 Semester Hours

Study of the languages and writing systems of the ancient Near East, including Sumerian, Babylonian, Egyptian, Hebrew, Aramaic, and Arabic.

ARCH 304

Rapid Readings in Arabic

3 Semester Hours

Selected readings in either classical or contemporary Arabic.

Prerequisite: ARCH 204 or equivalent.

ARCH 305

Rapid Readings in Sanskrit

3 Semester Hours

Selected readings in classical Sanskrit.

ARCH 311

Ancient Near East

3 Semester Hours

Study of the Near Eastern background of classical civilizations from the Neolithic to the Hellenistic periods.

ARCH 354

Near Eastern Religions

3 Semester Hours

Study of the religions, rituals, and pantheons of ancient Near Eastern societies.

ARCH 363

Archaeology and the Bible

3 Semester Hours

Study of selections from the Old or New Testament, combining historical criticism and exegesis with the relevant archaeological data.

This course may be repeated for credit.

ARCH 364

Principles of Archaeology

3 Semester Hours

Modern archaeological methodology, theory, and interpretation.

ARCH 366**Archaeology and the Psalms***3 Semester Hours*

Study of selections from the Psalms and other biblical wisdom literature combining historical criticism and exegesis with the relevant archaeological data.

ARCH 398**Special Studies***1-4 Semester Hours***ARCH 399****Independent Studies***1-3 Semester Hours***ARCH 401****Near Eastern Archaeology***3 Semester Hours*

Hands-on study of the archaeology and excavated artifacts of the Levant, from the paleolithic to the Roman periods.

ARCH 402**Studies in Mediterranean Archaeology***3 Semester Hours*

Study of the archaeology of a specific ancient Mediterranean culture, period, type of artifact, or phenomenon in Egypt, Anatolia, Crete, Greece, Italy, Israel-Palestine, etc.

This course may be repeated for credit.

ARCH 403**Classical Numismatics***3 Semester Hours*

Hands-on study of the coinages of ancient Greece, Rome, and the Eastern Mediterranean, with emphasis on archaeology, art history, and monetary origins.

Asian and Pacific Studies**ASPA 201****Asian Civilizations***3 Semester Hours*

A study of Asian civilizations through history, literature, art, philosophy, and film. Topics to be covered will emphasize the intellectual, cultural, social, and political factors which shaped the civilizations of Asia and the Pacific.

ASPA 298**Special Studies***1-3 Semester Hours***ASPA 299****Independent Studies***1-3 Semester Hours***ARCH 404****Egyptology***3 Semester Hours*

Study of Egypt from the Neolithic to the Roman period: history, culture, religion, art, language, and literature.

ARCH 410**Archaeology Field Experience***1-3 Semester Hours*

Active participation in archaeological excavations or surveys at Near Eastern, Classical, or selected New World sites.

This course may be repeated for credit.

ARCH 411**Near Eastern Archaeology Lab***1-3 Semester Hours*

This course may be repeated for credit.

Prerequisite: ARCH 401 or concurrent enrollment.

ARCH 415**Special Topics in Near Eastern Archaeology***3 Semester Hours*

This course may be repeated for credit.

ARCH 498**Special Studies***1-3 Semester Hours***ARCH 499****Independent Studies***1-3 Semester Hours***ASPA 301****Geography of Asia and the Pacific***3 Semester Hours*

An introductory geography class in which basic geography concepts and the relationship between humans and nature are presented in the context of East and Southeast Asia. Emphasis will be placed on the study of resource base and the impact of the economy upon settlement, agriculture, transportation, and industrial growth in Asian countries and regions.

ASPA 304**Politics of Asia***3 Semester Hours*

This course deals with the politics of East Asia, emphasizing China, South Korea, and Japan. In particular, the concept of democratization is examined by looking at the political institutions, history, culture, ideologies, and economies of these countries.

ASPA 305**Economic and Political Issues in Contemporary Asia**

3 Semester Hours

This course covers various issues that contemporary Asia, the most politically, economically, and socially dynamic in the world today, is facing. Some of the issues to be dealt with are: economic uncertainties in Asian nations, population, human rights, reunification, and others.

ASPA 321**Arts of Asia: Zen****3 Semester Hours**

(See ARHS 321.)

ASPA 385**Buddhism****3 Semester Hours**

(See THST 385.)

ASPA 386**Introduction to Asian Literature****3 Semester Hours**

An introductory course in Asian literature from China, Japan, and India. Various literary genres such as poetry, fiction, diary, biographies, and drama and their relation to Asian literary tradition will be examined.

ASPA 387**China's Women and One Child Family****3 Semester Hours**

Course traces the development of Chinese female roles from the traditional to the modern periods. Footbinding, infanticides, and the three obediences gave way to Communism, which provided women freedom and recognition for their contribution. Is the One Child Policy a relief to women?

ASPA 388**Imperial China****3 Semester Hours**

(See HIST 482.)

ASPA 397**Popular Culture in East Asia****3 Semester Hours**

(See HIST 397.)

ASPA 398**Special Studies****1-4 Semester Hours****ASPA 399****Independent Studies****1-3 Semester Hours****ASPA 482****Daoism: Theory and Practice****3 Semester Hours**

An introduction to Daoism, its classical texts and its enduring practices. Special emphasis will be on the examinations of Daoist philosophical concepts and persistent issues that arise in the development of Daoist spiritual tradition. A central aim of the course is to understand the Chinese ways of thinking, values, and the way of life.

ASPA 486**Topics in Asian Literature****3 Semester Hours**

The subject matter of this course will vary from semester to semester.

ASPA 487**Asian Mythology****3 Semester Hours**

This class will examine mythology and folktales from various Asian traditions: China, Japan, Korea, and India. The reading materials will be examined through psychological, philosophical, and cultural approaches. The topics for discussion include creation myths, heaven and hell, the mythic hero, metamorphosis, and immortality.

ASPA 488**Modern Asian Fiction****3 Semester Hours**

This course examines twentieth-century Chinese and Japanese fiction through the study of novels, short stories, novellas, biographies, diaries, and film. The class will also study major literary trends and movements.

ASPA 490**Asian Women Writers****3 Semester Hours**

This is a cross-cultural study of Asian women writers through the readings of poetry, short stories, autobiographies, diaries, and novels. Most readings are derived from contemporary female writers from China, Japan, Korea, Hong Kong, Taiwan, and the United States.

ASPA 498**Special Studies****1-3 Semester Hours****ASPA 499****Independent Studies****1-3 Semester Hours****ASPA 500****Senior Integrating Seminar****3 Semester Hours**

This requirement enables the students to integrate their work in Asian and Pacific Studies. The actual content of the course will depend on the student's chosen focus. Students write a senior thesis under the guidance of a faculty member. The thesis, while focused on a particular topic, is intended to be interdisciplinary.

Bioethics

BIOE 595

Survey Course in Bioethics

1 Semester Hour

The course surveys the major developments in bioethics and focuses on some of the most important ethical, legal, and medical issues associated with clinical decision-making. Lectures and group discussion of case studies are used to create a highly interactive learning environment.

CR/NC grading only.

BIOE 600

Methodological Issues in Bioethics

3 Semester Hours

Bioethics represents a complex intellectual phenomenon. Although an established academic field, it still struggles to find a formal and coherent methodology for the analysis of ethical problems triggered by advances in medicine and the life sciences. The course will, first, look at the historical roots of bioethics, concentrating, in particular, upon the original contribution of theologians and, later on, of philosophers to the field. It will, then, discuss the dominant theories in contemporary bioethics, among others: principlism in its various versions, rights-based theories, casuistry, virtue ethics, and the ethics of care.

BIOE 602

Historical Foundations of Bioethics

3 Semester Hours

This course will present the history and intellectual development of key ideas and concepts in bioethics. It will include an analysis of the forces that have shaped bioethics including sociological, technological, and others. The key ideas include, but are not limited to, the basis of human dignity, sanctity of life, codes of ethics, health and illness, professional roles, medical technology, autonomy, beneficence/nonmaleficence, euthanasia, quality of life, truth-telling, playing God, stewardship, and justice.

BIOE 604

Medical Anthropology and Bioethics

3 Semester Hours

This course will explore the role of culture in medicine and how cultures inform ethical discernment. This may include the acculturation of physicians and other health providers in medical training, the acculturation of different people from various ethnic, linguistic, and geographic backgrounds, the variety of understandings of health and illness (including pain) in different cultures, the different ways in which death is understood, and the differences in how medical technology is perceived as an intervention into one's life. Particular focus would be placed on how these differences influence moral judgment or sentiment regarding specific issues (i.e., specific issues may be used as examples). A section on how diversity in cultures relates to objectivity in ethics may also be included (i.e., how moral relativism is understood in a pluralistic society).

BIOE 610

Theological Issues in Bioethics

3 Semester Hours

This course will introduce the student to the basic theological concepts, frameworks, and analyses that have been used by both Catholic and Protestant theologians in their discussions of bioethics. After reviewing the various relationships between religion and medicine and the role that theological reflection can play in bioethics, several specific topics will be discussed and analyzed in depth. Topics such as assisted reproductive technologies, abortion, genetic control, care of severely handicapped neonates, death and dying, and the meaning and application of

"quality of life" to contemporary issues will be discussed in both lecture and seminar formats."

BIOE 620

Jurisprudence and Healthcare Law

3 Semester Hours

This course will introduce the student to the basic theories and principles of jurisprudence. In addition, it will familiarize the student with the various types of constitutional and statutory laws that have been promulgated on issues related to bioethics. Special attention will be given to how legal theories and promulgated laws have contributed to bioethics.

BIOE 630

Topics in Bioethics

3 Semester Hours

The course is an analysis of some of the important topics in bioethics. Students will familiarize themselves with the ethical questions surrounding major topics in contemporary bioethics. The course will focus on one or more of the following topics: medical research with human subjects, the new genetic medicine, social justice and the delivery of healthcare, organ transplantation, death and dying, and the development of techniques for human reproduction.

BIOE 633

Social Justice and Bioethics

3 Semester Hours

This course will examine how social justice is addressed in bioethics. Attention will be paid to the relationship between micro-ethics and macro-ethics. Different theories of justice will be presented along with specific moral problems facing contemporary health care. These may include globalization, resource allocation, rationing, access to health care, preventative medicine and public health (e.g., which may include how we responsibly attend to epidemics, outbreaks, and/or bioterrorist attacks), compensation for organs or participation in research protocols (e.g., egg donation for SCNT and stem cell technology), and managed care and the role of evidence-based medicine. In addition, the course may include a section on how decisions are made from a social perspective on research agendas (i.e., why do we/should we pursue high-tech, high-priced medicine versus allocating those funds to other initiatives).

BIOE 635

Organizational Ethics and Healthcare

3 Semester Hours

This course will address ethical issues in the organization of health care. It will attend to the ethical issues regarding the structures of health care delivery, including decisions on what services to provide and how. For example, should one health care institution enter into a partnership with another? Should Hospital A close its transitional care unit? How is this decision made? This may also include the philosophical basis of health care policy (including the moral significance of policies—are they expressions of middle axioms or norms?). Theological issues (In particular for Catholic or faith-based organizations) in corporate identity and how that identity shapes the services provided and the relationships to other organizations (e.g., to what extent and how does a Catholic organization cooperate with a non-Catholic entity) will also be discussed.

BIOE 640

Clinical Bioethics and Religious Traditions

3 Semester Hours

This course will focus on the clinical and religious aspects of bioethics in a hospital setting. Every week the students will attend two sets of clinical rounds in an Intensive Care Unit (ICU). During these rounds certain ethical issues will emerge from patient care, and the students will be responsible for researching these issues during the week. On the other class day, the students will attend class at LMU, and seminar discussions of various ethical issues involved in clinical medicine from different

religious traditions, e.g., Catholic, Protestant, Jewish, Islamic, etc., will be held.

Offered in the Summer only.

BIOE 650

Introduction to Clinical Medicine

3 Semester Hours

This course will introduce the non-clinically trained students to basic medical terminology and clinical medicine in order that they will be able to participate in a bioethics consultation in a medical center. In addition, the course will discuss the ethical dimensions of the physician-patient relationship through a study of the philosophy of medicine.

BIOE 660

Ethical Theories in Bioethics

3 Semester Hours

The course serves as a general introduction to the theories and problems of moral philosophy for students in bioethics, comprising both a historical and a systematic component. Main ethical versions of moral philosophy will be studied, in particular, virtue ethics, deontological theories, utilitarianism, individual liberalism, and communitarianism. Students will understand the function and importance of general ethical frameworks for the articulation of bioethical problems. Although the course interest is on the "application" of theories, the focus will be on the fundamental theoretical thrust of different approaches to ethics. Classic

CATH 490

Seminar in Catholic Studies

3 Semester Hours

The capstone seminar in Catholic Studies explores the relationship between Catholicism and culture organized around a central theme. This

interdisciplinary course provides an opportunity for students to synthesize their Catholic Studies courses.

Chinese

CHIN 101

Elementary Chinese I

3 Semester Hours

This course is designed for students who have little or no knowledge of Chinese. Students will be introduced to fundamentals of Mandarin Chinese. Students will develop communicative skills and learn to read and write in spoken style Chinese.

This course requires participation in a weekly one-hour integrated drill session.

Fall semester only.

CHIN 102

Elementary Chinese II

3 Semester Hours

This course is a continuation of CHIN 101. Students will continue learning the fundamentals of Mandarin Chinese. The four aspects of language skills—listening, speaking, reading, and writing in spoken style Chinese—are equally emphasized.

This course requires participation in a weekly one-hour integrated drill session.

Spring semester only.

Prerequisite: CHIN 101 or by LMU Placement Exam.

CHIN 198

Special Studies

1-3 Semester Hours

CHIN 199

Independent Studies

1-3 Semester Hours

CHIN 203

Intermediate Chinese I

3 Semester Hours

Builds upon the fundamentals of Mandarin Chinese studied in CHIN 101 and 102. Students will further intensively practice oral skills and increase their reading and writing skills.

This course requires participation in a weekly one-hour integrated drill session.

Fall semester only.

Prerequisite: CHIN 102 or by LMU Placement Exam.

CHIN 204

Intermediate Chinese II

3 Semester Hours

This course is a continuation of CHIN 203. Students will continue to build upon the fundamentals of Mandarin Chinese. Four aspects of language—listening, speaking, reading, and writing—are equally emphasized. Students will be introduced to more idiomatic expressions, grammatical structures, and cultural elements. Students are expected to write short

paragraphs and do oral presentations. The basic written style will also be introduced.

This course requires participation in a weekly one-hour integrated drill session.

Spring semester only.

Prerequisite: CHIN 203 or by LMU Placement Exam.

CHIN 298

Special Studies

1-3 Semester Hours

CHIN 299

Independent Studies

1-3 Semester Hours

CHIN 305

Advanced Chinese I

3 Semester Hours

This course will help students continue to develop their four skills of aurally understanding, speaking, reading, and writing. Many of the grammatical constructions introduced in first and second year Chinese will be repeated in this course with increasing sophistication in terms of style and usage. In this course, students are required to comprehend and produce paragraph-level Chinese. Rigorous practice of spoken and written style Chinese in complex communicative activities will be conducted. Students will also do intensive reading of expository writings on a variety of cultural topics.

Prerequisite: CHIN 204 or by LMU Placement Exam.

CHIN 306

Advanced Chinese II

3 Semester Hours

This course is designed to help students to continue to develop their skills or aurally understanding, speaking, reading, and writing; moreover, this course helps students improve their understanding of today's China and ensures that students solidify their language and literacy skills. It seeks to enable students to give formal reports, give factual accounts, read materials, and write essays, reports, and all types of correspondence in written style Chinese.

Prerequisite: CHIN 305 or by LMU Placement Exam.

Chicana/o Studies

CHST 116

Introduction to Chicana/o Studies

3 Semester Hours

An interdisciplinary overview of Chicana/o Studies to familiarize students with historical and contemporary issues in Chicana/o and Latina/o communities.

CHST 126

Chicana/o Cultural Production

3 Semester Hours

Examines contemporary Chicana/o cultural production, including performance, film, and art. Comparisons are made to other ethnic groups and crosscultural production.

CHST 198

Special Studies

1-3 Semester Hours

CHST 199

Independent Studies

1-3 Semester Hours

CHST 206

Introduction to Chicana/o-Latina/o Literature

3 Semester Hours

An overview of a range of genre, themes, and concepts created by Chicana/o and other U.S. Latina/o writers.

CHST 298

Special Studies

1-3 Semester Hours

CHST 299

Independent Studies

1-3 Semester Hours

CHST 302

Chicanas and Latinas in the U.S.

3 Semester Hours

Analysis of the historical, social, and cultural characteristics that shape the roles of Chicanas and Latinas in the U.S.

CHST 308

Contemporary Urban Issues

3 Semester Hours

Using service learning in Los Angeles, the course helps students understand how the lives of Chicanas/os and Latinas/os are shaped by politics, economics, culture, history, and access to nation-state institutions.

1-3 Semester Hours

CHST 310

Guadalupe, Queen of the Américas

3 Semester Hours

The course investigates the Virgin of Guadalupe's religious, cultural, and artistic significance among Mexicans and Mexican Americans in the United States. It uses interdisciplinary methods to examine Latino theology, the faith-practices and devotions to Guadalupe, and contemporary visual arts.

CHST 332

Survey of Chicana/o-Latina/o Literature

3 Semester Hours

(See ENGL 350.)

CHST 337

Racial and Ethnic Politics

3 Semester Hours

Comparative analysis of racial and ethnic groups within the United States political system. A focus on the effect of political institutions on minority groups at federal, state, and local levels. Examines the experience of minority groups to illuminate political process in the U.S.

CHST 350

Immigration and Los Angeles

3 Semester Hours

(See APAM 350.)

CHST 360

Chicana/o History

3 Semester Hours

An analytical survey of Native America, Mexican America, and the recent past with a focus on race, ethnicity, sexuality, gender, and class.

CHST 367

History of Los Angeles

3 Semester Hours

(See HIST 367.)

CHST 398

Special Studies

1-4 Semester Hours

CHST 399

Independent Studies

1-3 Semester Hours

CHST 404

Latina Feminist Traditions

3 Semester Hours

Focuses on current writings by Chicana feminists and connects this material to African American and Asian American feminist theory. The

course traces the development of Chicana feminism and its concern with the interlocking conditions of gender, race, sexuality, and class.

CHST 406

Chicana/o Consciousness

3 Semester Hours

(See ENGL 353.)

CHST 407

Chicana/o Art: Performing Politics

3 Semester Hours

A historical and social investigation of Chicana/o art and the politics of identity and museum practices, including exhibition, collection, interpretation, and preservation. The course includes options for curating a virtual art gallery, field trips, and other assignments.

CHST 435

The Politics of California

1-3 Semester Hours

(See POLS 435.)

CHST 436

The Politics of Los Angeles

3 Semester Hours

(See POLS 436.)

CHST 437

Chicana/o Politics

3 Semester Hours

(See POLS 437.)

Classic Civilizations

Classic Civilizations courses require no knowledge of the Latin or Greek languages:

CLCV 200

Classical Epic in Translation

3 Semester Hours

The *Iliad*, *Odyssey*, *Argonautica*, and *Aeneid*.

CLCV 210

Greek Tragedy

3 Semester Hours

The plays of Aeschylus, Sophocles, and Euripides.

CLCV 220

Ancient Comedy

3 Semester Hours

The plays of Aristophanes, Menander, Plautus, and Terence.

CLCV 230

Ancient Historians

3 Semester Hours

The works of Herodotus, Thucydides, Livy, and Tacitus.

CHST 460

The Chicana/o Southwest

3 Semester Hours

An examination of the historical and contemporary issues shaping this important region of the U.S. Attention to indigenous communities, women, and current political issues.

CHST 465

Chicana/os-Latina/os in Film and Mass Media

3 Semester Hours

An examination of film and other forms of mass media, focusing on issues of representation as well as production. Subject matter addresses both Chicano cinema and Mexican/Latin American cinema.

CHST 498

Introductory Statistics

3 Semester Hours

An introduction to the modern methods of analyzing sample data. Topics include descriptive statistics, probability theory, binomial and normal distributions, estimation, hypothesis testing, and simple regression analysis.

Prerequisite: MATH 131 (or 112).

ECON 235

Accelerated Introductory Statistics

3 Semester Hours

Accelerated introduction to statistics with applications to economics. Topics include descriptive statistics, probability theory, binomial and normal distributions, estimation, hypothesis testing, and regression analysis. This course also involves exercises in applying theoretical concepts to real world empirical problems, e.g., for policy analysis. This course can be taken in lieu of ECON 230 and substitutes for 230 whenever it is stated as a prerequisite.

ECON 298

Special Studies

1-3 Semester Hours

ECON 299

Independent Studies

1-3 Semester Hours

ECON 310

Intermediate Microeconomics I

3 Semester Hours

Microeconomic theory applied to the private sector. Indifference curves, utility theory, Slutsky equation, individual and market demand, technology, cost minimization, cost curves, consumer and producer surplus, efficiency, perfect competition, monopoly, price discrimination, classical oligopoly theory, game theory including Nash equilibrium, resource markets.

Prerequisites: A grade of at least B- in ECON 105 or 110, and a grade of at least B- in MATH 112 or of at least C in MATH 131 or 132.

Offered in the Fall semester only.

ECON 320

Intermediate Macroeconomics

3 Semester Hours

Macroeconomic analysis: The determination of national income and output and their components, employment, the price level (and inflation), interest rates, and long-term economic growth. An introduction to business cycle theory, monetary theory, balance of payments, and exchange rates. A study of economic policies to achieve goals and the limits of such policies.

Prerequisites: A grade of at least B- in ECON 105 or 110, and a grade of at least B- in MATH 112 or of at least C in MATH 131 or 132.

Offered in the Spring semester only.

ECON 322

Money and Banking

3 Semester Hours

The role of monetary matters in the economy. The organization, operation, and impact of money, banks and nonbank financial intermediaries, and financial markets in the economy. The impact of these on the determination of interest rates, the price level, and economic activity. The role of central bank and regulatory agency policies in financial markets and the economy.

Prerequisite: ECON 120 (or 105).

ECON 330

Regression Analysis

3 Semester Hours

Analysis of the linear regression model and its practical applications in economics, finance, marketing, and other areas of business. Material covered will be the two variable model, hypothesis testing, forecasting, functional forms of regression models, regression using dummy explanatory variables, multiple regression, autocorrelation, heteroscedasticity and multicollinearity. Emphasis is placed on the application of the techniques covered in the course to the solution of real world problems.

Prerequisites: ECON 110 and 120 (or 105) and 230.

ECON 334

Forecasting Methods

3 Semester Hours

Analysis of a wide range of forecasting methods, including regression, smoothing, and arima models.

Prerequisites: ECON 110 and 120 (or 105) and 230.

ECON 338

Economic Geography

3 Semester Hours

Using geographical information systems to test spatial economics and classical locational theories, we explore economic activity and worldwide patterns of trade.

Prerequisite: ECON 110 (or 105).

ECON 340

U.S. Economic History

3 Semester Hours

Historical study of the economic growth and institutional development of the U.S. economy from the colonial era to the twentieth century. Topics may include: the economic ramifications of the American Revolution and the Constitution, the economics of slavery, industrialization, and the origins of the Great Depression.

Prerequisites: ECON 110 and 120 (or 105).

ECON 342**History of Economic Thought***3 Semester Hours*

An analysis of the evolution of moral, political, and economic ideas and theories and their influence on the development of economic society.

Prerequisites: ECON 110 and 120 (or 105).

ECON 352**Labor Economics***3 Semester Hours*

Modern theories of market and non-market behavior relating to issues of labor and the determination of wages, salaries, and perquisites. Empirical evidence and public policy considerations are always relevant. Topics may include: education, poverty, discrimination, internal job ladders and management systems, collective bargaining, and unemployment.

Prerequisite: ECON 110 (or 105).

ECON 356**Urban Economics***3 Semester Hours*

A survey of the policy and theoretical issues that are raised when economic analysis is applied in an urban setting. Topics include urbanization and urban growth housing markets, location decisions of households and firms, transportation, urban labor markets, the local public sector, and discrimination.

Prerequisite: ECON 110 (or 105).

ECON 360**Financial Economics***3 Semester Hours*

Practical application of financial theory in both a certain and uncertain environment. Focus on capital budgeting, financial structure, cost of capital, and dividend policy.

Prerequisites: ECON 110 and 120 (or 105).

ECON 362**Managerial Economics***3 Semester Hours*

Provides a solid foundation of economic understanding for use in managerial decision making. It focuses on optimization techniques in the solution of managerial problems.

Prerequisites: ECON 110 and 120 (or 105).

ECON 364**Multinational Corporation***3 Semester Hours*

The economic power and impact; the expansion of multinational business, international movement of management techniques, labor, resources, and technology.

Prerequisite: ECON 110 or 120 (or 105).

ECON 366**Personal Finance***3 Semester Hours*

This course is a comprehensive coverage of consumer finance. Topics are consumer credit, consumer spending, and investing for the short run and the long run. Housing and real estate investing, personal financial planning, and various investment vehicles such as equity, fixed rate of return instruments, annuities, and insurance, as well as the fundamentals of tax planning are addressed. The emphasis is on evaluating choices and understanding the consequences of decisions in terms of opportunity costs.

Prerequisite: ECON 110 or 120 (or 105).

ECON 369**Chinese Economic and Business System***3 Semester Hours*

This course aims to provide an introduction to Chinese economic and business system as well as the major strategic and operational issues facing multinational corporations in doing business in China.

Taught only in Beijing, China.

ECON 370**International Trade***3 Semester Hours*

Analysis of classical and modern theories of international trade and their relation to internal and external equilibria. Income and monetary factors, commercial policies affecting international trade. Resource movements, regional economic integration.

Prerequisite: ECON 110 (or 105).

ECON 372**International Finance Theory***3 Semester Hours*

Introduction to foreign exchange markets and the determination of exchange rates. Understanding balance of payments accounts, enacting policies to affect the current account, and examining balance of payments crises. Overview of international policy coordination and the international monetary system. Application of theory to current international issues.

Prerequisite: ECON 120 (or 105).

ECON 374**Economic Development of Minority Communities***3 Semester Hours*

Historical study of minority groups in the American economy. Emphasis upon institutions, ideas, and individuals.

Prerequisite: ECON 110 (or 105).

ECON 398**Special Studies***1-4 Semester Hours***ECON 399****Independent Studies***1-3 Semester Hours***ECON 410****Intermediate Microeconomics II***3 Semester Hours*

Microeconomic theory applied to the public sector. General equilibrium theory for exchange and production economies, First Theorem of Welfare Economics, public goods, Samuelson condition, externalities and policy remedies, information theory and social insurance, intertemporal choice, uncertainty, cost-benefit analysis, welfare economics and income redistribution.

Prerequisite: ECON 310.

Offered in the Spring semester only.

ECON 412

Economics and Ethics

3 Semester Hours

Economics and Ethics examines the roles and effects of ethics on economic analysis, behavior, and institutions. These issues arise, for example, in matters of charity, labor markets, and taxation. This course treats both descriptive and prescriptive theories as well as evidence on ethics from behavioral and experimental economics. It covers standard philosophical theories and connects them to empirical evidence and real world decision-making.

Prerequisite: ECON 310. Recommended: ECON 410 or concurrent enrollment.

ECON 414

Game Theory

3 Semester Hours

Game Theory is the study of strategic interaction. This course will focus on analyzing these interactions and predicting equilibrium outcomes. Topics to be covered include utility theory, rationality, simultaneous and sequential move games, Nash equilibrium, backward induction, repeated games, and games of incomplete information.

Prerequisite: ECON 310.

ECON 416

Environmental Economics

3 Semester Hours

Environmental Economics deals with the use of society's scarce environmental resources. Economic theory and analysis are applied to various environmental issues, including pollution, sustainable development, clean air, and quality of life.

Prerequisite: ECON 310.

ECON 434

Experimental Economics

3 Semester Hours

Experimental methods of research in economics. Basic experimental concepts, induced value theory, individual decisions, game theory, market experiments, auctions, bargaining, public choice.

Prerequisite: ECON 310.

ECON 450

Industrial Organization

3 Semester Hours

Analysis of firm behavior. Classical models of perfect competition, monopoly and oligopoly. Game theory including dominant strategy, Nash and subgame perfect equilibrium. Price discrimination, antitrust policy and regulation.

Prerequisite: ECON 310.

ECON 452

Political Economy

3 Semester Hours

The elections, institutions, and actors that determine important policy outcomes. The inefficient outcomes arise and the lessons that can be learned from those failures of voters and institutions. Half the class will focus on the United States, and the other half will consider these issues in a comparative perspective.

Prerequisite: A grade of C (2.0) or higher in ECON 310 or consent of instructor; ECON 410 recommended.

ECON 456

Law and Economics

3 Semester Hours

This course will explore the field of law and economics. We will use standard microeconomic tools to examine torts, contracts, and property law, as well as the theory and empirical evidence on criminal behavior.

Prerequisite: ECON 310.

ECON 458

Health Economics

3 Semester Hours

Access to quality health care remains an important public health problem for a significant part of the population. This course examines the theoretical and empirical analyses of major topics in health care economics, such as the production of health, demand for medical care and health insurance, the physician-firm, the hospital market, and government provided health care.

Prerequisite: ECON 310.

ECON 474

Economic Development

3 Semester Hours

This course is about global poverty, with a focus on the market failures that often characterize countries in the developing world and the solutions that countries have adopted to deal with these failures. We will explore how missing or incomplete markets for land, insurance, and credit give rise to the institutions that we see in developing countries, particularly in rural areas. Evidence about important policy debates, such as the role of industrialized countries in the development process, will be discussed in detail.

Prerequisite: ECON 310.

ECON 490

Senior Assessment

0 Semester Hours

Assessment of student learning outcomes in the field of economics. Includes a written comprehensive examination, a senior exit interview, and possible additional Department evaluation. ECON 490 is offered toward the end of the Spring semester only and is required of all economics majors who will have completed 100 hours or more by the end of the Spring semester.

CR/NC grading only.

Economics majors only.

Prerequisite: Registered to complete 100 hours or more by the end of the semester in which it is taken.

ECON 498**Special Studies***1-3 Semester Hours***ECON 499****Independent Studies***1-3 Semester Hours***ECON 530****Mathematics for Economics***3 Semester Hours*

Absolutely necessary for those continuing to graduate school and required for those pursuing the B.S. degree in economics. Review of fundamental mathematical concepts and logic. Treatment of linear algebra, univariate and multivariate calculus, real analysis, and unconstrained and constrained optimization. Applications of mathematical techniques to typical problems in microeconomics and macroeconomics.

Offered only in the Fall semester.

Prerequisites: ECON 310 and MATH 131 (or 112). Recommended: ECON 320.

English**ENGL 100****English for Academic Purposes***3 Semester Hours*

Students enroll in ENGL 100 based on their performance on the essay administered in all ENGL 110 sections during the first week of classes. A course designed to give students essential skills in writing and reading English.

Students must earn a grade of C (2.0) or better in order to pass this courses. Concurrent enrollment in ENGL 101 required.

ENGL 101**Required Writing Lab***1 Semester Hour*

The required lab component of ENGL 100. Taken concurrently with ENGL 100.

Credit/No Credit grading.

Students must earn a grade of Credit in this lab course in order to pass ENGL 100.

ENGL 110**College Writing***3 Semester Hours*

The art of clear and effective college writing. This course will teach students how to generate clear and persuasive expository prose suitable to a variety of academic disciplines.

A grade of C (2.0) or better is required.

ENGL 111**Elective Writing Lab***1 Semester Hour*

A program of individualized tutorial instruction designed specifically to reinforce and develop those skills important to improving college-level

ECON 532**Econometrics***3 Semester Hours*

This branch of economics uses mathematical and statistical tools to analyze economic phenomena. Mathematical formulation, establishment of hypotheses, model construction, data collection, and statistical estimation and inference. Required for the B.S. degree in Economics.

Offered only in the Spring semester.

Prerequisite: ECON 530 (or MATH 250).

ECON 598**Special Studies***1-3 Semester Hours***ECON 599****Independent Studies***1-3 Semester Hours*

prose. This elective writing lab is taken concurrently with College Writing (ENGL 110).

Credit/No Credit grading.

ENGL 115**University Writing Lab***1 Semester Hour*

A program of individualized tutorial instruction designed to improve writing skills in course work across the curriculum. Emphasis is placed on clarity and style.

Credit/F grading. This course may be repeated twice for degree credit.

ENGL 116**Practicum in Tutoring Writing and Liberal Arts***1 Semester Hour*

Credit/No Credit grading.

ENGL 130**Introduction to Poetry***3 Semester Hours*

A course designed to develop an appreciation of the meaning, forms, techniques, and impact of poetry; critical essays based on the reading.

Prerequisite: ENGL 110.

ENGL 140**Introduction to Fiction***3 Semester Hours*

An introduction to significant works in the novel and short story; critical essays based on the reading.

Prerequisite: ENGL 110.

ENGL 150**Introduction to Drama**

3 Semester Hours

An introduction to significant works of dramatic literature; critical essays based on the reading.

Prerequisite: ENGL 110.

ENGL 170

Classics of Literature

3 Semester Hours

An introduction to significant works in literature outside the British and American traditions; critical essays based on the reading.

Prerequisite: ENGL 110.

Not available to students who already have credit in FNLT 180.

ENGL 198

Special Studies

1-3 Semester Hours

Prerequisite: ENGL 110.

ENGL 199

Independent Studies

1-3 Semester Hours

Prerequisite: ENGL 110.

ENGL 200

The Language of Drama

3 Semester Hours

An introduction to creating drama and writing about it.

Open to English majors and minors, and screenwriting majors.

Prerequisite: ENGL 110.

ENGL 201

The Language of Poetry

3 Semester Hours

An introduction to creating poetry and writing about it.

Required of all English majors.

Open to English majors and minors, and screenwriting majors.

Prerequisite: ENGL 110.

ENGL 202

The Language of Fiction

3 Semester Hours

An introduction to creating fiction and writing about it.

Open to English majors and minors, and screenwriting majors.

Prerequisite: ENGL 110.

ENGL 203

History of British Literature I

3 Semester Hours

British literature from the Anglo Saxons to the end of the eighteenth century.

Required of all English majors.

Prerequisite: ENGL 110.

ENGL 204

History of British Literature II

3 Semester Hours

British literature from Romanticism through the Moderns.

Required of all English majors.

Prerequisite: ENGL 110.

ENGL 205

Creative Writing for Non-majors

3 Semester Hours

A genre-based writing workshop (fiction, poetry and drama).

Fulfills the core requirement in creative arts.

Not open to English majors and minors.

Prerequisite: ENGL 110.

ENGL 298

Special Studies

1-3 Semester Hours

Prerequisite: ENGL 110.

ENGL 299

Independent Studies

1-3 Semester Hours

Prerequisite: ENGL 110.

ENGL 301

Writing for Journalism I: Workshop

3 Semester Hours

An intermediate level writing class and an introduction to journalism. Covers the basic components of both features and news stories, interview strategies, and legal and ethical concerns.

Junior or senior standing required.

Prerequisite: ENGL 110.

ENGL 302

Writing the Article: Workshop

3 Semester Hours

Techniques of writing and marketing the magazine article.

Junior or senior standing required.

Prerequisite: ENGL 110.

ENGL 304

Writing for Advertising

3 Semester Hours

Writing strategies for advertising.

Junior or senior standing required.

Prerequisite: ENGL 110.

ENGL 305

Advanced Composition for Credential Candidates

3 Semester Hours

A review of the principles of exposition and grammar, principally for candidates for the elementary and secondary credentials.

Junior or senior standing required.

Prerequisite: ENGL 110.

ENGL 316

Modern Drama

3 Semester Hours

International and American drama from 1870-1963.

Fulfills post-1800 or comparative/cultural literatures requirement.

Junior or senior standing required.

ENGL 321

Shakespeare: The Major Plays

3 Semester Hours

A survey course of Shakespeare's "major plays." It is a course that intends to cover all the dramatic genres Shakespeare wrote in and at the same time highlight those works which are considered Shakespeare's most important.

Junior or senior standing or permission of the Chairperson required.

Prerequisite: ENGL 110.

ENGL 322

Studies in Shakespeare

3 Semester Hours

An in-depth study of Shakespeare's writings.

This course is repeatable for degree credit up to two times provided new course material (literature) is covered and a new subtitle has been designated.

Junior or senior standing or permission of the Chairperson required.

Prerequisite: ENGL 110.

ENGL 325

Contemporary Poetry

3 Semester Hours

British and American poetry from Wallace Stevens to the present.

Fulfills post-1800 requirement.

Junior or senior standing required.

Prerequisite: ENGL 110.

ENGL 326

Contemporary Drama

3 Semester Hours

International and American drama from 1964 to the present.

Fulfills post-1800 requirement.

Junior or senior standing required.

Prerequisite: ENGL 110.

ENGL 332

The Short Story

3 Semester Hours

A study of the short story as a literary form; close reading of representative short stories by American, British, and continental writers.

Junior or senior standing required.

Prerequisite: ENGL 110.

ENGL 341

Studies in World Literature

3 Semester Hours

A study of literature(s) written outside the United States and Britain.

Fulfills comparative/cultural literatures requirement.

Junior or senior standing required.

Prerequisite: ENGL 110.

ENGL 342

The Image of Woman in Nineteenth-Century England

3 Semester Hours

A study of the attitudes towards women as they emerge in the writings of both men and women in 19th-century England.

Fulfills post-1800 requirement.

Junior or senior standing required.

Prerequisite: ENGL 110.

ENGL 343

Twentieth-Century Women's Writing

3 Semester Hours

A study of literary and critical texts written by women in the 20th century.

Fulfills post-1800 requirement.

Junior or senior standing required.

Prerequisite: ENGL 110.

ENGL 344

Survey of African American Writing

3 Semester Hours

(See AFAM 396.)

Fulfills comparative/cultural literatures requirement.

Junior or senior standing required.

Prerequisite: ENGL 110.

ENGL 345

Studies in Multi-Ethnic Literature

3 Semester Hours

The comparative study of literatures within the American experience.

This course is repeatable for degree credit up to two times provided new course material (literature) is covered and a new subtitle has been designated.

Fulfills comparative/cultural literatures requirement.

Junior or senior standing required.

Prerequisite: ENGL 110.

ENGL 346

Children's Literature

3 Semester Hours

A study of children's literature and the critical discussions it raises across literary and educational studies.

Open to Liberal Studies majors who are juniors or seniors.

Prerequisite: ENGL 110.

ENGL 350

Survey in Chicana/o-Latina/o Literature

3 Semester Hours

Examines Chicana/o-Latina/o literature, its criticism as well as its various artistic genres, introducing students to its aesthetic and social value/s (see CHST 332).

Fulfills post-1800 or comparative/cultural requirement.

Junior or senior standing required.

Prerequisite: ENGL 110.

ENGL 351

Classical Mythology

3 Semester Hours

Study of the basic myths and myth patterns of the Greeks and Romans, and the mythological heritage in Western Literature (see CLCV 451).

Fulfills pre-1800 requirement.

Junior or senior standing required.

Prerequisite: ENGL 110.

ENGL 352

Portraits of the Artist

3 Semester Hours

Fictional, poetic, and dramatic portraits of the developing artist.

Junior or senior standing required.

Prerequisite: ENGL 110.

ENGL 353

Chicana/o Consciousness

3 Semester Hours

Surveys through literary analysis and critical theory a Chicana/o form of awareness, with particular attention to the intersection in Latina/o intellectual history of the aesthetic, the ethical, and the political (see CHST 406).

Fulfills post-1800 or comparative/cultural requirement.

Junior or senior standing required.

Prerequisite: ENGL 110.

ENGL 354

Prison Literature

3 Semester Hours

Surveys literature written by political prisoners to examine its artistry as well as its attempt to intervene in a culture of incarceration.

Fulfills post-1800 or comparative/cultural requirement.

Junior or senior standing required.

Prerequisite: ENGL 110.

ENGL 361

Reading Methods

3 Semester Hours

A survey of various methods of reading literary texts.

Fulfills theory requirement.

Junior or senior standing required.

Prerequisite: ENGL 110.

ENGL 362

Reading Cultural Studies

3 Semester Hours

Examines the concept of culture in literary analysis, introducing students to different methods of reading and the analysis of power in various social categories such as race and gender, religion and nationalism.

Fulfills theory requirement.

Junior or senior standing required.

Prerequisite: ENGL 110.

ENGL 371

American Literature I

3 Semester Hours

A survey of American literature from colonial times to 1865.

Fulfills pre-1800 requirement or American Survey.

Junior or senior standing or permission of the Chairperson required.

Prerequisite: ENGL 110.

ENGL 372

American Literature II

3 Semester Hours

A survey of American literature from 1865 to the present.

Fulfills post-1800 requirement or American Survey.

Junior or senior standing or permission of the Chairperson required.

Prerequisite: ENGL 110.

ENGL 373

RoadRead

3 Semester Hours

This multi-genre course explores the literature of Los Angeles and California. Involves field trips. Lab fee.

Open to English majors and minors who are juniors or seniors.

Prerequisites: ENGL 201 and either 200 or 202.

ENGL 374

RoadWrite

3 Semester Hours

This multi-genre writing course explores the literature of Los Angeles and California. Involves field trips. Lab fee.

Open to English majors and minors who are juniors or seniors.

Prerequisites: ENGL 201 and either 200 or 202.

ENGL 375

StreetRead

3 Semester Hours

Students will respond critically to literature in the classroom and run reading groups in the community.

Open to English majors and minors who are juniors or seniors.

Prerequisites: ENGL 201 and either 200 or 202.

ENGL 376

StreetWrite

3 Semester Hours

Student writers will workshop their own writing and run field workshops in the community.

Open to English majors and minors who are juniors or seniors.

Prerequisites: ENGL 201 and either 200 or 202.

ENGL 381

Journalism and New Media

3 Semester Hours

This course will look at the emergent forms of new media by examining websites, blogs, and podcasts and reading the works of media thinkers. Students will use various digital tools, such as podcasts, Flip cameras, slideshows, etc., in their weekly blog postings and papers/presentations.

Fulfills writing requirement.

Junior or senior standing required.

ENGL 398

Special Studies

1-4 Semester Hours

Junior or senior standing required.

Prerequisite: ENGL 110.

ENGL 399

Independent Studies

1-3 Semester Hours

Junior or senior standing required.

Prerequisite: ENGL 110.

ENGL 401

Writing for Journalism II: Workshop

3 Semester Hours

An advanced class in journalistic prose. Readings and assignments cover hard news, feature stories, and New Journalism.

Junior or senior standing required.

Prerequisite: ENGL 110.

ENGL 402

Writing Internship in Media

3 Semester Hours

Students enrolled in this course work 10-12 hrs./week with an off-campus media firm.

Permission of the instructor required. Students must submit a portfolio of their writing to the instructor four weeks prior to registration for the course.

Note: This course does not fulfill any requirements of the English major or minor but is recommended for students seeking a career in professional writing. The course is a university elective and may also be used to fulfill requirements of the Pre-Journalism Certificate Program.

Junior or senior standing required.

Prerequisite: ENGL 110.

ENGL 403

Non-Fiction Workshop

3 Semester Hours

A writer's workshop with practice in analyzing and creating non-fiction prose.

This course is repeatable for degree credit up to two times provided new course material is covered and a new subtitle has been designated.

Junior or senior standing required.

Prerequisite: ENGL 110.

ENGL 405

Literary Non-Fiction Workshop

3 Semester Hours

An advanced course in non-fiction prose, with practice in both creating and analyzing non-fiction.

Junior or senior standing required.

Prerequisite: ENGL 110.

ENGL 406

Journalism: The Interview: Workshop

3 Semester Hours

A course in interview strategies for journalists.

Junior or senior standing required.

Prerequisite: ENGL 110.

ENGL 407

Reviewing the Arts

3 Semester Hours

A course in writing reviews. Topics may include art, books, film, music, theatre, TV, or videogames.

Class may involve field trips to theatre, film, or other performances or exhibits.

Junior or senior standing required.

Prerequisite: ENGL 110.

ENGL 408**Journalism: Editing Workshop***3 Semester Hours*

A course in editing techniques for journalists.

Junior or senior standing required.

Prerequisite: ENGL 110.

ENGL 411**Fiction Writing Workshop: Narrative and Style***3 Semester Hours*

Exercises, experiments, and creative construction in classic narrative fiction styles.

Junior or senior standing required.

Prerequisite: ENGL 202.

ENGL 412**Poetry Writing Workshop: Imagination***3 Semester Hours*

Writing poetry with an emphasis on image and the lyric imagination.

Junior or senior standing required.

Prerequisite: ENGL 201.

ENGL 413**Play Writing Workshop: One-Acts***3 Semester Hours*

Writing monologues, ten-minute, and one-act scripts for the stage.

Junior or senior standing required.

Prerequisite: ENGL 200.

ENGL 421**Fiction Writing Workshop: Dialogue and Scene***3 Semester Hours*

Exercises in literary dialogue, scene setting, and scene execution.

Junior or senior required.

Prerequisite: ENGL 202.

ENGL 422**Poetry Writing Workshop: Forms***3 Semester Hours*

Writing poetry in traditional and non-traditional forms.

Junior or senior standing required.

Prerequisite: ENGL 201.

ENGL 424**Play Writing Workshop: Full-Lengths***3 Semester Hours*

Writing full-length scripts for the stage.

Junior or senior standing required.

Prerequisite: ENGL 200.

ENGL 431**Fiction Writing Workshop: The Components of the Short Story***3 Semester Hours*

Exercises and experiments in putting together the parts of a short story.

Junior or senior standing required.

Prerequisite: ENGL 202.

ENGL 432**Poetry Writing Workshop: Voice***3 Semester Hours*

Writing poetry persona poems and/or dramatic monologues.

Junior or senior standing required.

Prerequisite: ENGL 201.

ENGL 433**Play Writing Workshop: Adaptation***3 Semester Hours*

Adapting fiction, non-fiction, and other genres for the stage.

Junior or senior standing required.

ENGL 460**Hard News to Blogs: Post-1800 Journalism***3 Semester Hours*

A study of diverse journalism from 1800 to the present, emphasizing how their work reflects the concerns of their age and their contributions to the tradition of journalism that continues today. Students will develop their own journalistic writing in response to this tradition.

Fulfills writing requirement.

Junior or senior standing required.

Prerequisite: ENGL 110.

ENGL 463**The Art of the Essay***3 Semester Hours*

A study of the form of the essay, with emphasis on the historical tradition of essay writing. Students will develop their own essays in response to this tradition.

Junior or senior standing required.

Prerequisite: ENGL 110.

ENGL 467

Time in 20th/21st Century Fiction and Film

3 Semester Hours

A writing and theory course that explores the shift from modernist to postmodernist ideas of time.

Junior or senior standing required.

Prerequisite: ENGL 110.

ENGL 469

Practicum in Journalism I

1-3 Semester Hours

This course gives students practical journalism experience working on the staff of the *Los Angeles Loyolan* or the *Tower*. Particularly appropriate for editors.

Consent of instructor required.

Junior or senior standing required.

Prerequisite: ENGL 110.

ENGL 470

Practicum in Journalism II

1-3 Semester Hours

This course is for advanced journalism students who have served as editors for at least one semester and who have completed ENGL 469.

Consent of instructor required.

Junior or senior standing required.

Prerequisite: ENGL 110.

ENGL 498

Special Studies

1-3 Semester Hours

Junior or senior standing required.

Prerequisite: ENGL 110.

ENGL 499

Independent Studies

1-3 Semester Hours

Junior or senior standing required.

Prerequisite: ENGL 110.

ENGL 502

The Arthurian Romance

3 Semester Hours

A study of Arthurian legend from Geoffrey of Monmouth to Sir Thomas Malory.

Fulfills pre-1800 requirement.

Junior, senior, or graduate standing required.

ENGL 503

English Literature of the Middle Ages

3 Semester Hours

English literature, from the Normans to the Tudors.

Fulfills pre-1800 requirement.

Junior, senior, or graduate standing required.

ENGL 504

Chaucer

3 Semester Hours

The works of Chaucer, particularly *The Canterbury Tales*.

Fulfills pre-1800 requirement.

Junior, senior, or graduate standing required.

ENGL 511

Literature of the Renaissance

3 Semester Hours

English literature, exclusive of drama, from Thomas More to the death of Elizabeth I.

Fulfills pre-1800 requirement.

Junior, senior, or graduate standing required.

ENGL 512

Seventeenth-Century Poetry

3 Semester Hours

English poetry in the Metaphysical and Cavalier traditions, including the works of Jonson, Donne, Herrick, Herbert, and Marvell.

Fulfills pre-1800 requirement.

Junior, senior, or graduate standing required.

ENGL 513

Milton

3 Semester Hours

The poetry and selected prose of John Milton.

Fulfills pre-1800 requirement.

Junior, senior, or graduate standing required.

ENGL 521

British Literature: 1660-1800

3 Semester Hours

Studies in British literature of the Restoration and eighteenth century, exclusive of the novel.

Fulfills pre-1800 requirement.

Junior, senior, or graduate standing required.

ENGL 522

Eighteenth-Century English Novel

3 Semester Hours

The development of the English novel in its first century.

Fulfills pre-1800 requirement.

Junior, senior, or graduate standing required.

ENGL 530**Studies in Romanticism***3 Semester Hours*

Explore the key works, concepts, genres, and writers associated with Romanticism.

This course is repeatable for degree credit up to two times provided new course material is covered and a new subtitle has been designated.

Junior, senior, or graduate standing required.

ENGL 532**The Nineteenth-Century English Novel***3 Semester Hours*

The development of the English novel from Austen to Hardy.

Fulfills post-1800 requirement.

Junior, senior, or graduate standing required.

ENGL 533**Victorian Literature***3 Semester Hours*

Selected works of major poets and prose writers of the period from 1832 to 1900.

Fulfills post-1800 requirement.

Junior, senior, or graduate standing required.

ENGL 534**Literature of the Holocaust***3 Semester Hours*

A study of the literature of the Holocaust including fiction, poetry, drama, and film.

Fulfills post-1800 or comparative/cultural literatures requirement.

Junior, senior, or graduate standing required.

ENGL 541**British Fiction: 1900-1950***3 Semester Hours*

A study of British novels and short fiction from 1900 to 1950.

Fulfills post-1800 requirement.

Junior, senior, or graduate standing required.

ENGL 542**British Literature: 1950 to the Present***3 Semester Hours*

A study of British novels, short fiction, and poems from 1950 to the present.

Fulfills post-1800 requirement.

Junior, senior, or graduate standing required.

ENGL 543**British Poetry: 1900-1950***3 Semester Hours*

A study of the poetry of Yeats, Eliot, Auden, Thomas and other modernists.

Fulfills post-1800 requirement.

Junior, senior, or graduate standing required.

ENGL 544**Modern Irish Literature***3 Semester Hours*

A survey of Irish literature from 1900 to World War II.

Fulfills post-1800 or comparative/cultural literatures requirement.

Junior, senior, or graduate standing required.

ENGL 545**Contemporary Irish Literature***3 Semester Hours*

A study of Irish literature from the end of World War II to the present.

Fulfills post-1800 or comparative/cultural literatures requirement.

Junior, senior, or graduate standing required.

ENGL 546**Irish Renaissance***3 Semester Hours*

A study of the period from the 1890s through the 1920s in Ireland focusing on the effort of Irish writers (and others) to preserve the rich legacy of Irish culture and carry it forward into the modern age.

Fulfills post-1800 or comparative/cultural literatures requirement.

Junior, senior, or graduate standing required.

ENGL 547**Irish Short Story***3 Semester Hours*

A study of the short story in Ireland during the twentieth century.

Fulfills post-1800 or comparative/cultural literatures requirement.

Junior, senior, or graduate standing required.

ENGL 551**Early American Literature and Ideas***3 Semester Hours*

A survey of representative fiction, poetry, and essays from the colonial, revolutionary, and early national periods.

Fulfills pre-1800 requirement.

Junior, senior, or graduate standing required.

ENGL 552**American Renaissance***3 Semester Hours*

The study of American Transcendentalists and other writers from the American Renaissance period of the 19th century.

Fulfills post-1800 requirement.

Junior, senior, or graduate standing required.

ENGL 553

American Realism and Naturalism

3 Semester Hours

The study of such representative American fiction writers as Twain, James, and Crane.

Fulfills post-1800 requirement.

Junior, senior, or graduate standing required.

ENGL 554

Modern American Fiction

3 Semester Hours

The study of such representative novelists as Hemingway, Faulkner, Anderson, and Fitzgerald.

Fulfills post-1800 requirement.

Junior, senior, or graduate standing required.

ENGL 555

Amer Fiction Since 1950

3 Semester Hours

A study of American novels and short fiction from 1950 to the present.

Fulfills post-1800 requirement.

Junior, senior, or graduate standing required.

ENGL 556

Modern American Poetry

3 Semester Hours

The study of representative American poets from Whitman to the mid-twentieth century.

Fulfills post-1800 requirement.

Junior, senior, or graduate standing required.

ENGL 558

Caribbean Literature

3 Semester Hours

The study of representative writers from the English-speaking Caribbean, such as George Lamming, Jean Rhys, Sam Salvon and Jamaica Kincaid.

Fulfills post-1800 or comparative/cultural literatures requirement.

Junior, senior, or graduate standing required.

ENGL 559

Survey of Literary Criticism

3 Semester Hours

The principles and practice of literary criticism from the Ancient Greeks to World War II.

Fulfills theory requirement.

Junior, senior, or graduate standing required.

ENGL 561

Contemporary Literary Criticism

3 Semester Hours

The principles and practice of literary criticism from World War II to the present.

Fulfills theory requirement.

Junior, senior, or graduate standing required.

ENGL 562

Contemporary Rhetorical Theory

3 Semester Hours

Textual analysis and production based on contemporary rhetorical theory.

Fulfills theory or writing requirement.

Junior, senior, or graduate standing required.

ENGL 563

Creative Writing Seminar

3 Semester Hours

An intensive writing class in fiction, poetry, drama, creative non-fiction, or some combination of these genres.

This course is repeatable for degree credit up to two times provided new course material is covered and a new subtitle has been designated.

Junior, senior, or graduate standing required.

Prerequisite: One 400-level creative writing course in the appropriate genre.

ENGL 565

Theory of Teaching Writing and Literature

3 Semester Hours

A course for current and future teachers of composition designed to facilitate the application of theory to pedagogy.

Fulfills theory or writing requirement.

Junior, senior, or graduate standing required.

ENGL 566

Metaphor: Theory and Practice

3 Semester Hours

A course investigating metaphor theoretically and in the students' own writing.

Fulfills writing requirement.

Junior, senior, or graduate standing required.

ENGL 567

Style in Writing

3 Semester Hours

An examination of prose styles and theories of style to help students develop their own writing styles.

Fulfills writing requirement.

Junior, senior, or graduate standing required.

ENGL 569

Linguistics

3 Semester Hours

An introduction to issues in linguistics, such as phonology, morphology, syntax, and sociolinguistics.

Fulfills theory requirement.

Junior, senior, or graduate standing required.

ENGL 571

Writing the Novella: Workshop

3 Semester Hours

Practice in writing extended narrative forms.

Junior, senior, or graduate standing required.

Prerequisites: ENGL 411, 421, or 431.

ENGL 574

Rhetoric and Media

3 Semester Hours

A study of persuasion and rhetorical strategies used by the media.

Fulfills theory, writing, or comparative/cultural literatures requirement.

Junior, senior, or graduate standing required.

ENGL 575

The Art of Rhetoric

3 Semester Hours

A survey of rhetoric from the classical to the modern period.

Fulfills theory requirement.

Junior, senior, or graduate standing required.

ENGL 580

Comparative Drama

3 Semester Hours

An exploration of dramatic literature and criticism through the comparative study of stage plays, teleplays, films, and other performance texts.

Fulfills comparative/cultural literature requirement.

Junior, senior, or graduate standing required.

ENGL 584

The Black Aesthetic

3 Semester Hours

Study of theories of African American aesthetics.

Fulfills theory requirement.

Junior, senior, or graduate standing required.

ENGL 598

Special Studies

1-3 Semester Hours

Junior, senior, or graduate standing required.

ENGL 599

Independent Studies

1-3 Semester Hours

Junior, senior, or graduate standing required.

Graduate Seminars

ENGL 600

Critical Methodology

3 Semester Hours

Prolegomena to Graduate Studies in English (must be completed in the first semester).

ENGL 601

Seminar in a Literary Period

3 Semester Hours

Intensive study of a formative era in the history of English Literatures.

ENGL 602

Seminar in a Genre

3 Semester Hours

Exploration of one of the types or categories into which literary works are conventionally grouped.

ENGL 603

Seminar in a Major Writer

3 Semester Hours

Intensive study of an influential writer.

ENGL 604

Seminar in Literary Theory

3 Semester Hours

Exploration of theoretical approaches to literature and its production.

ENGL 605

Contemporary Critical Theory

3 Semester Hours

Exploration of theoretical approaches to art, thought, and culture (must be completed in the first year).

ENGL 606

Seminar in Rhetoric

3 Semester Hours

Intensive study of the arts of persuasion.

ENGL 607

Seminar in Composition Theory

3 Semester Hours

Exploration of theoretical approaches to the disciplines of Rhetoric and Composition.

ENGL 610

Seminar in Creative Writing

3 Semester Hours

Intensive practicum in Creative Writing.

ENGL 691**Comprehensive Examination (M.A.)***0 Semester Hours*

Required of all graduate students: see M.A. Program description, and consult Department website for updated information.

ENGL 693**Comprehensive Exam (M.A.T.)***0 Semester Hours*

As ENGL 691, but to be registered for by students undertaking joint studies through the School of Education.

ENGL 697**Creative Writing Thesis****European Studies****EURO 181****European Language and Culture I***3 Semester Hours*

Introduction to a specific European language. Designed for complete beginners. No placement test necessary upon on-site arrival.

Only available to LMU Study Abroad Program students.

Repeatable up to four times, as long as each is in a different language (FREN, GRMN, ITAL, SPAN).

EURO 182**European Language and Culture II***3 Semester Hours*

Designed for false beginners—i.e., students who either took a language a long time ago and do not remember it, or students who were exposed to the language, but not in a formal way—in a specific European language. Students will take a placement test upon on-site arrival to be assigned to the appropriate level.

Only available to LMU Study Abroad Program students.

Repeatable up to four times, as long as each is in a different language (FREN, GRMN, ITAL, SPAN).

EURO 198**Special Studies***1-3 Semester Hours***EURO 199****Independent Studies***1-3 Semester Hours***EURO 283****European Language and Culture III***3 Semester Hours*

Designed for students with intermediate proficiency in a specific European language. Students will take a placement test upon on-site arrival to be assigned to the appropriate level.

Only available to LMU Study Abroad Program students.

3 Semester Hours

An extended creative work supervised by one of the Department's Professors of Creative Writing; students must obtain the approval of a prospective supervisor before undertaking the course.

ENGL 698**Special Studies***1-3 Semester Hours***ENGL 699****Independent Studies***1-3 Semester Hours*

Repeatable up to four times, as long as each is in a different language (FREN, GRMN, ITAL, SPAN).

EURO 284**European Language and Culture IV***3 Semester Hours*

Designed for students with intermediate to advanced proficiency in a specific European language. Students will take a placement test upon on-site arrival to be assigned to the appropriate level.

Only available to LMU Study Abroad Program students.

Repeatable up to four times, as long as each is in a different language (FREN, GRMN, ITAL, SPAN).

EURO 298**Special Studies***1-3 Semester Hours***EURO 299****Independent Studies***1-3 Semester Hours***EURO 371****Poetics of Modern Landscape***3 Semester Hours*

Comparative study of the poetics of modern landscape as reflected in contemporary French/European literature and the arts.

(This course can fulfill some of the requirements for the major in European Studies.)

Only available to students in the LMU Summer Study Abroad Program in Paris, France.

EURO 373**Paris Mètisse: Multiculturalism in Paris***3 Semester Hours*

The course's objective is to understand the concept of "métissage" in contemporary Parisian society through contact with the modern arts—poetic, pictorial, and musical—through an analysis of various texts and through personal interviews with exiles.

(This course can fulfill some of the requirements for the major in European Studies.)

Only available to students in the LMU Summer Study Abroad Program in Paris, France.

EURO 381

British Life and Cultures

3 Semester Hours

This course will cover the historical processes that have shaped British society and that govern the social attitudes and outlook of modern Britons.

(This course can fulfill some of the requirements for the major in European Studies.)

Only available to students in the LMU Semester Study Abroad Program in London, England.

Filipino

FLPN 101

Elementary Filipino I

3 Semester Hours

This course is designed for students who have little or no knowledge of the language. Students will learn how to construct the basic sentence patterns in Filipino/Tagalog, and to use the actor focus verbs UM, MAG, MA and the object focus verb -IN as well as the different sets of pronouns and their proper use: nominative, dative, and genitive.

FLPN 102

Elementary Filipino II

3 Semester Hours

This course is a continuation of Elementary Filipino I. The course will also cover the Object Focus Verbs -IN, I-, -AN, and the abilitative focus verbs MAKA- and MAKAPAG- and the causative verb MAGPA-. There will be extensive role play and multimedia materials to assist students in learning the language.

Foreign Literature in English Translation

French/Francophone Studies

FREN 101

Elementary French I

3 Semester Hours

A course intended for students who have not taken French before. Based on a communicative approach, the course emphasizes reading, writing, and oral proficiency in basic French. Materials covered include an introduction to all articles, pronouns, regular and irregular verbs in past and present tenses and in indicative and imperative modes, adjectives, prepositions, and basic vocabulary.

FREN 102

Elementary French II

3 Semester Hours

A continuation of FREN 101. New materials covered include an introduction to pronominal verbs, verbs in the future tense and in the subjunctive and conditional modes, adjectives, pronouns, adverbs, and many idiomatic vocabulary and verbal expressions.

Prerequisite: FREN 101 or by LMU Placement Exam.

FREN 198

Special Studies

1-3 Semester Hours

FREN 199

Independent Studies

1-3 Semester Hours

FREN 203

Intermediate French I

3 Semester Hours

After reviewing FREN 101 and 102, an introduction to more complex linguistic patterns presented in a French/Francophone cultural and comparative context. Includes practice in speaking, listening, reading, and writing through discussion of short texts, written exercises and short compositions, and work with multimedia resources.

Prerequisite: FREN 102 or by LMU Placement Exam.

FREN 204

Intermediate French II

Interdisciplinary and comparative approaches in the study of cultures. Students study the process through which different nations or communities understand and express their cultural identities and diversities. They examine the ways in which cultural identities become politically dominant at different historical moments, and how, more generally, cultures contaminate and influence each other.

FNLT 498

Special Studies

1-3 Semester Hours

FNLT 499

Independent Studies

1-3 Semester Hours

3 Semester Hours

Developing complex linguistic patterns introduced in FREN 203 in a French/Francophone cultural and comparative context. Includes more practice in speaking, listening, reading, and writing through discussion of various texts, written exercises and longer compositions, and work with multimedia resources.

Prerequisite: FREN 203 or by LMU Placement Exam.

FREN 298

Special Studies

1-3 Semester Hours

FREN 299

1-3 Semester Hours

FREN 301

French Pronunciation Clinic

3 Semester Hours

A course designed for students who want to specialize and/or improve their pronunciation in French. Offers an initiation to French literature, drama, and poetry through the apprenticeship of French pronunciation.

Spring semester only.

Prerequisite: FREN 203, or by LMU Placement Exam, or by consent of instructor. May be taken concurrently with FREN 204.

FREN 314

Stylistics and Translation

3 Semester Hours

A study of different modes of writing and of the major grammatical, stylistic, and vocabulary challenges when translating from English into French and vice versa. Practice with a broad range of literary, professional, and journalistic texts.

Spring semester only.

Prerequisite: FREN 204 or by LMU Placement Exam.

FREN 321

Writing Workshop in French

3 Semester Hours

A course designed to improve written expository prose in French. Practice of various forms of writing, such as extensive, intensive, and team writing, through the approach of global simulations.

Fall semester only.

Prerequisite: FREN 204 or by LMU Placement Exam.

FREN 333

French Literature and Society I

3 Semester Hours

A survey of literary themes and of the evolution of the social, political, and philosophical ideas in France, expressed in a variety of forms through the works of major writers, from the inception of French literature to the French Revolution.

Fall semester only.

Prerequisite: FREN 204 or by LMU Placement Exam.

FREN 334

French Literature and Society II

3 Semester Hours

An overview of French literature and of modernity through the study of French novels, short fiction, drama, poetry, by representative writers, from the French Revolution to present times.

Spring semester only.

Prerequisite: FREN 204 or by LMU Placement Exam.

FREN 398

Special Studies

1-4 Semester Hours

Prerequisite: FREN 204 or by LMU Placement Exam or consent of instructor.

FREN 399

Independent Studies

1-3 Semester Hours

Prerequisite: FREN 204 or by LMU Placement Exam or consent of instructor.

FREN 431

Fictions of Culture, Film, and Other Media

3 Semester Hours

A course designed to introduce students to French culture through films and other media.

May be repeated as specific content changes.

Prerequisite: One (1) FREN 300-level course or by consent of instructor.

Geography

GEOG 100

Human Geography

3 Semester Hours

An introduction to general world patterns of major cultural elements and processes and their influence on relationships between human societies and their environment. Cultural and environmental differences between developed and less developed nations and their regional implications in the modern world are emphasized.

FREN 432

Women in French

3 Semester Hours

An examination of the issues raised in women's writings in French as well as a study of French feminism across the disciplines.

May be repeated as specific content changes.

Prerequisite: One (1) FREN 300-level course or by consent of instructor.

FREN 433

Francophone Literature

3 Semester Hours

A study of representative writers from the French-speaking world outside of France.

May be repeated as specific content changes.

Prerequisite: One (1) FREN 300-level course or by consent of instructor.

FREN 443

Selected Topics in French

3 Semester Hours

Topics in French literature and culture.

May be repeated as specific content changes.

Prerequisite: One (1) FREN 300-level course or by consent of instructor.

FREN 498

Special Studies

1-3 Semester Hours

Prerequisite: One (1) FREN 300-level course or by consent of instructor.

HIST 299

Independent Studies

1-3 Semester Hours

Upper Division Courses

Historical Method

HIST 310

History and Historians

3 Semester Hours

An introduction to the study of history, including historical method, writing of history, and historical interpretation.

Area 1: Europe

HIST 314

Authority and Resistance in Medieval Europe

3 Semester Hours

Discusses the dominant conceptions of spiritual and political authority from the fifth to the fifteenth centuries and their social and intellectual challenges.

HIST 318

Victorians to Moderns

3 Semester Hours

Covers the enormous changes in society and technology, art and science, gender and religion from Victoria's reign through the First World War and the Great Depression.

HIST 322

Seventeenth-Century Europe

3 Semester Hours

An examination of the social, political, and cultural developments in continental Europe during the Age of the Baroque.

HIST 324**Revolutionary Europe 1750-1850***3 Semester Hours*

A study of European cultural change ranging from Romanticism to industrialization, materialism to religious revival.

HIST 326**Nineteenth-Century Europe, 1815-1914***3 Semester Hours*

An investigation into the political, social, and economic crises of the European nations between the Congress of Vienna and the outbreak of World War I.

HIST 327**Twentieth-Century Europe***3 Semester Hours*

Europe from 1900 to the present with emphasis on political and social history.

HIST 328**Modern Eastern Europe***3 Semester Hours*

An analysis of the political, social, and cultural developments in the lands between Germany and Russia in the modern period.

HIST 335**Women in European History***3 Semester Hours*

An analysis of how philosophical constructs, religion, education, employment, and family structures have defined the role of women since the Renaissance.

HIST 405**History of Ancient Greece***3 Semester Hours*

The history of Greece from its origins to the death of Philip of Macedon.

HIST 406**Alexander and the Hellenistic World***3 Semester Hours*

An investigation of the spread of Greek culture through the lands of the successors of Alexander the Great and its relations with the older civilizations of the known world.

HIST 407**Ancient Rome***3 Semester Hours*

The history of Rome from its origins to the creation of the empire.

HIST 408**Imperial Rome***3 Semester Hours*

A study of the Roman Empire and world to the seventh century and the end of antiquity.

HIST 410**History of the Byzantine Empire***3 Semester Hours*

A study of the eastern Roman Empire to its fall in 1453. Topics include the Byzantine recovery, the Slavic and Moslem invasions, and the Crusades.

HIST 411**The Rise of Medieval Europe***3 Semester Hours*

Traces the emergence of a coherent European civilization from the collapse of Roman power in the fifth century to the rise of new forms of Latin Christian unity in the eighth through eleventh centuries.

HIST 412**The Transformation of Medieval Europe***3 Semester Hours*

Examines the fragmentation of the medieval forms of European unity from the twelfth through sixteenth centuries. Topics include political and social change, questions of authority, and religious strife.

HIST 414**The Crusades***3 Semester Hours*

A study of the origins and the impact of the Crusades on medieval Europe and on the Middle East.

HIST 416**Pagans and Missionaries to 1650***3 Semester Hours*

A study of the expansion of Christianity through the efforts of missionary preachers from the Roman Empire to the New World.

HIST 418**The Viking World***3 Semester Hours*

Studies the Viking invasions of the Early Middle Ages, pre-Christian Scandinavian religion, Christianization, Norse colonization from Russia to North America, and the complex "Europeanization" of the Vikings in the eleventh through thirteenth centuries.

HIST 425**The French Revolution***3 Semester Hours*

An inquiry into the causes of the fall of the French monarchy, the creation of a civic order, a new political culture, and the impact of war and terror on French society.

HIST 430**The Rise of Russia, 900-1825***3 Semester Hours*

A study of the origins of the Russian Empire from the arrival of the Vikings to the emergence of Russia as a Great Power. Topics include autocracy, serfdom, religious revolts, imperial expansion, and competitive emulation of the West.

HIST 431**Modern Russia, 1825-1991**

3 Semester Hours

Traces the revolutionary challenges to the Romanov dynasty, attempts to modernize the multi-national empire, the revolution and civil war, and the interplay between communism and nationalism in the history of the Soviet Union.

HIST 435**Modern Germany***3 Semester Hours*

An analysis of the political, economic, social, and cultural developments during the 19th and 20th centuries.

HIST 444**Tudor and Stuart England***3 Semester Hours*

An examination of the relations between the English monarchs and their parliaments during the Tudor and Stuart periods, intending to show conflict and collaboration and the role of political and economic interest groups.

HIST 446**Modern Britain***3 Semester Hours*

How Britain became the world's first industrial nation, came to rule over a quarter of the world's population, became a democracy, lost an empire, and joined the European Union.

HIST 447**Modern Ireland***3 Semester Hours*

Covers key events of Ireland's struggle for independence, incorporating debates about the uses of history and memory, the formation of national identity, and the politics of nostalgia.

HIST 448**The British Empire***3 Semester Hours*

An examination of the rise of the British empire, its impact on British and colonial culture, and its collapse and imperial legacy.

HIST 450**Modern Greek History and Society***3 Semester Hours*

An examination of the crises and challenges that have shaped modern Greek society, the transformations that have taken place, and the culture and literature it produced.

Area 2: United States**HIST 340****American Slavery and Racism***3 Semester Hours*

A survey of the origins and evolution of slavery and racism in American society.

HIST 345**War and Violence in America***3 Semester Hours*

An examination into the various incidents of war and violence to show how they have affected the American experience.

HIST 351**American Reform Movements***3 Semester Hours*

An examination of the major movements for reform of American society, with emphasis on abolitionism, Women's Rights, Progressivism, and Civil Rights.

HIST 352**Health and Disease in American Culture***3 Semester Hours*

The history of health, medicine, and disease in the American social and cultural context, from the colonial period to the present.

HIST 354**Women in American History***3 Semester Hours*

An exploration of women's experience in American history from the colonial period to the present, with emphasis on such variables as class, race/ethnicity, and region, as well as the impact of changing gender roles on American society, culture, and politics.

HIST 356**The American Family***3 Semester Hours*

Traces the changing nature of the family in America from the Colonial period to the present, with emphasis on the difference in family forms and experiences by region, race, and class.

HIST 357**Immigrant America***3 Semester Hours*

A study of the patterns of emigration and assimilation for European, New World, and Asian immigrants to the United States from the colonial period to the present.

HIST 360**Chicana/o History***3 Semester Hours*

(See CHST 360.)

HIST 365**The American West***3 Semester Hours*

An examination into the patterns of frontier settlement from the colonial period to 1890, and the regional history of the trans-Mississippi West from 1890 to the present.

HIST 366**History of California***3 Semester Hours*

The political, economic, social, and cultural development of California from its Spanish origins to the present.

HIST 367**History of Los Angeles**

3 Semester Hours

An inquiry into the multi-cultural origins and development of Los Angeles, and the challenges facing the modern urban center.

HIST 368

Hollywood and History

3 Semester Hours

An examination of the American motion picture industry and the films it produced from the 1890s through the 1960s, including a study of shifting gender, class, racial, and ethnic positionings.

HIST 378

African American History since Reconstruction

3 Semester Hours

The course introduces students to the Black Freedom Movement since Reconstruction through analyses of black liberation philosophies and movements and black participation in the African Diaspora as well as addressing issues of gender, class, and race in black America.

HIST 388

Imagining Asian Pacific America

3 Semester Hours

Using interdisciplinary approaches and cross-cultural perspectives, the class explores the ways in which certain Asian Americans and Pacific Islanders have been portrayed and, in turn, have portrayed themselves throughout historical time and space.

HIST 389

The Invention of Communities

3 Semester Hours

Examines a multitude of socio-economic and cultural conditions that have caused the formation and the disintegration of communal bonds in 19th- and 20th-century United States.

HIST 460

Colonial America, 1607-1763

3 Semester Hours

Origin and growth of the English colonies from 1607; the development of colonial economic, social, and intellectual life.

HIST 461

Revolutionary America, 1763-1787

3 Semester Hours

The origins, course, and results of the American Revolution; the Articles of Confederation.

HIST 462

Founding Fathers

3 Semester Hours

Formation of the Constitution; formation of political parties; cultural, economic, social, and diplomatic developments.

HIST 463

Jacksonian America, 1815-1845

3 Semester Hours

A study of thirty pivotal years in American history, focusing on the social, cultural, economic, and political developments of the era.

HIST 464

The Civil War and Reconstruction

3 Semester Hours

A history of the Civil War era that covers the causes, fighting, and consequences of the war, as well as the problems and challenges of Reconstruction.

HIST 465

The Age of Theodore Roosevelt

3 Semester Hours

A study of the age of Populism, Progressivism, overseas expansion, and American involvement in World War I.

HIST 466

The Rise of Modern America, 1920-1945

3 Semester Hours

A study of the emergence of the mass consumption culture, the Great Depression, the rise of the welfare state, and World War II.

HIST 467

Recent America 1945 to the Present

3 Semester Hours

This course examines the dimensions of affluence and poverty, the politics of the welfare state, the Cold War, and détente.

HIST 468

Social and Cultural History of the United States in the Nineteenth Century

3 Semester Hours

A historical overview of 19th-century America through a social and cultural lens, including such topics as industrialization, urbanization, religion, literature, westward migration, class formation, gender roles, and notions of race.

HIST 478

From "Yellow Peril" to "Model Minority": Asians in America

3 Semester Hours

Traces the many-faceted histories of Asian Americans and Pacific Islanders from cross-cultural and transnational perspectives, focusing on interactions and exchanges between Asian Pacific Americans and various ethnic and racial groups.

HIST 479

The Politics and Culture of the Cold War: 1917-1989

3 Semester Hours

An inquiry into the impacts of the Cold War on American domestic policies, foreign relations, as well as cultural and social developments.

HIST 488

Consensus and Conflict: America in the 1950s and 1960s

3 Semester Hours

This upper division class will focus on 1950s and 1960s United States. Some of the issues that will be addressed include the counterculture, the Civil Rights Movement, and changing gender ideals.

HIST 489

A Cultural and Social History of Sport in the United States

3 Semester Hours

The course will ask, "What can sport teach us about American society?" It explores the themes of leisure, nation, gender, manliness, race, the consumer economy, and others that have given sport more than the meaning of play in the United States.

Area 3: World Regions

HIST 300

History of Global Encounters before 1500

3 Semester Hours

A history of global encounters among the regions of the Middle East, the Mediterranean World, Europe, and Asia. It will include a focus on the exchange of ideas, trade, and cultural developments.

HIST 301

History of Global Encounters after 1500

3 Semester Hours

A history of global encounters during the early modern and modern periods that includes the regions of the Middle East, Africa, Latin America, Asia, and Europe. It will examine the global impact of Christianity, Islam, and the market economy. Through the use of primary and secondary sources, different interpretations are offered on historic and current events.

HIST 338

Islam and the West

3 Semester Hours

This course examines several moments of contact between Islam and the West from the seventh to the twentieth century. The course aims at complicating our understanding of "Islam" and the "West" as well as the nature of their various political and cultural encounters.

HIST 348

Women in East Asian History

3 Semester Hours

This course will explore the ways in which specific institutional arrangements, political settlements, and economic changes informed the organization of family and lineages, inheritance practices, work, and thus shaped the lives of women.

HIST 372

History of Mexico

3 Semester Hours

An analysis of the colonial and national periods, with emphasis on 20th-century revolution and socio-economic development.

HIST 376

Pirates, Revolutionaries, and Runaways in the Caribbean, 1570-1930

3 Semester Hours

This course will introduce students to the history of the circum-Caribbean, a region that includes the southern coasts of the United States, the northern coasts of South America, the Caribbean islands, and Central American states. We will focus on how this trans-imperial (and later transnational) region was criss-crossed by a wide variety of historical actors whose lives defied political borders and boundaries.

HIST 390

African Kingdoms

3 Semester Hours

A study of significant kingdoms of Black Africa exploring the major themes of the period.

HIST 392

Colonial Africa: 1860-1980

3 Semester Hours

A study of the inception and development of European rule over various parts of Africa by European imperialists of the 19th century.

HIST 396

Asian Empires

3 Semester Hours

This course focuses on the making of Modern East Asia by looking at two empires that left a mark on the region and its history: the Qing Empire (1644-1911) and the Japanese Empire (1910-1945). Paying close attention to the process of empire-building and then to imperial administration, the course will evaluate the impact of these empires in East Asia especially in relation to nations of resistance, cooptation, and cooperation.

HIST 397

Popular Culture in East Asia

3 Semester Hours

This course examines the history of modern East Asia through the prism of its popular cultures. Its main goal will be to examine audio, visual, and literary representations from that region in relation to de-colonization, nation-building, democracy, identity-formation, and globalization.

HIST 455

The Ottoman Empire

3 Semester Hours

A study of the Ottoman Empire from its emergence in the late thirteenth century to its dismemberment following the Great War. The course examines political institutions of empire as well as social life including the status of women and non-Muslim communities.

HIST 456

Star, Cross, and Crescent

3 Semester Hours

This course examines the status of Jews and Christians in Muslim societies in the Middle East from the rise of Islam in the seventh century to the dawn of the twentieth century and the emergence of sectarian and nationalist movements. It considers the legal, socio-economic, and political factors that, at local, regional, and international levels, affected the lives of individuals as well as groups. The course also considers the history of other "marginal" groups such as gypsies, slave-soldiers, eunuchs, and "heretics."

HIST 458

Society and Culture in the Contemporary Middle East

3 Semester Hours

A thematic and interdisciplinary exploration of Middle Eastern society and culture in the twentieth century.

HIST 459

The Palestine/Israel Conflict

3 Semester Hours

This course traces the history of the conflict from its beginnings in the late nineteenth century to the present. It is chrono-thematically organized with a focus on historiographic issues and interdisciplinary approaches. It uses scholarly, literary, and visual materials and draws on several disciplines including anthropology, sociology, political science, and gender studies.

HIST 474**Brazil***3 Semester Hours*

Brazil from colonial times to the present, analyzing national development, major socio-economic problems, class, caste, power, poverty, and revolution.

HIST 482**Imperial China***3 Semester Hours*

This course explores the origins of Chinese civilization and culture and the growth of the Chinese Imperial state from earliest times to the early 19th century, just prior to full scale contact with the Western world.

HIST 483**Modern China***3 Semester Hours*

This is a course on modern Chinese history from the mid-nineteenth century to the present. Major themes examined are the collapse of the traditional Chinese world order, the failure of the republican revolution of 1911, the birth of Chinese nationalism, Mao Zedong's Chinese communism, and Deng Xiaoping's strategy for modernization.

Area 1: Europe**HIST 501****Seminar in European History***3 Semester Hours***HIST 505****Seminar in Ancient History***3 Semester Hours***HIST 510****Seminar in Medieval History***3 Semester Hours***HIST 515****Seminar in Early Modern Europe***3 Semester Hours***HIST 520****Seminar in Modern Europe***3 Semester Hours***Area 2: United States****HIST 550****Seminar in American History***3 Semester Hours***HIST 555****Seminar in Early America***3 Semester Hours***HIST 485****Modern Japan***3 Semester Hours*

This course examines the history of Japanese experiences on modernity, focusing on the diversity, unevenness, and conflicts that are often elided by assertions of Japanese homogeneity.

HIST 490**The Quest for the Nile's Source***3 Semester Hours*

A study of the quest for the source of the Nile River and the interaction of African, European, and Asian peoples in the area.

HIST 491**South Africa***3 Semester Hours*

The history of South Africa during the last two centuries with emphasis on political rivalries, apartheid, and economic development.

Seminars**HIST 560****Seminar in 19th Century America***3 Semester Hours***HIST 565****Seminar in Recent America***3 Semester Hours***Area 3: World Regions****HIST 568****Seminar in Comparative/Global History***3 Semester Hours***HIST 570****Seminar in Latin America***3 Semester Hours***HIST 580****Seminar in Asian History***3 Semester Hours***HIST 585****Seminar: Achilles in Vietnam***3 Semester Hours***HIST 590****Seminar in African History***3 Semester Hours*

Italian

ITAL 101

Elementary Italian I

3 Semester Hours

An introduction to Italian language and culture with emphasis on communicative skills, this course is designed for students who have little or no knowledge of Italian. Students will acquire the four basic language skills—listening, speaking, reading, and writing—in classes that are taught exclusively in Italian. Materials covered include an introduction to articles, pronouns, adjectives, prepositions, regular and irregular verbs in past and present tense indicative, and basic vocabulary on selected topics. Students are also introduced to the basic geography of Italy and to aspects of everyday Italian culture.

ITAL 102

Elementary Italian II

3 Semester Hours

Emphasizing communicative and linguistic skills, this course is a continuation of ITAL 101. The principal goal of the curriculum is to develop the four basic language skills—listening, speaking, reading, and writing—in classes that are taught exclusively in Italian. New grammatical material introduced includes direct and indirect object pronouns, imperfect and future tenses, and the use of negative expressions. Students increase their vocabulary through further study of Italian culture past and present.

Prerequisite: ITAL 101 or equivalent.

ITAL 112

Beginning Conversational Italian

3 Semester Hours

Prerequisite: ITAL 102 or concurrent enrollment.

ITAL 198

Special Studies

1-3 Semester Hours

ITAL 199

Independent Studies

1-3 Semester Hours

ITAL 203

Intermediate Italian

3 Semester Hours

Emphasizing communicative and linguistic skills, this course is a continuation of ITAL 102. The goal of the curriculum is to develop the four basic language skills—listening, speaking, reading, and writing—at the appropriate level of proficiency in classes that are taught exclusively in Italian. New materials covered include the subjunctive modes, hypothetical sentences, double pronouns, comparisons, and superlatives. Students familiarize themselves with additional aspects of Italian history, culture, and politics.

Prerequisite: ITAL 102 or equivalent.

ITAL 204

Advanced Italian

3 Semester Hours

Emphasizing communicative and linguistic skills, this course reviews the material studied in ITAL 101, 102, and 203. The goal of the curriculum is

to develop the four basic language skills—listening, speaking, reading, and writing—at the appropriate level of proficiency in classes that are taught exclusively in Italian. Increased emphasis is placed on writing assignments, working with multimedia materials in Italian, and reading selected texts written for native speakers of Italian.

Prerequisite: ITAL 203 or equivalent.

ITAL 211

Advanced Conversation

3 Semester Hours

Prerequisite: ITAL 203 (may be taken concurrently).

ITAL 298

Special Studies

1-3 Semester Hours

ITAL 299

Independent Studies

1-3 Semester Hours

ITAL 321

Stylistics and Composition

3 Semester Hours

An introduction to reading, writing, and editing texts in Italian. Students develop skills in writing clear and correct Italian and provide critical commentary on selected topics using the techniques of formal composition.

Prerequisite: ITAL 204 or equivalent.

ITAL 332

Italian Literature of the 14th Century

3 Semester Hours

Providing an overview of the historical context in which Dante, Petrarch, and Boccaccio emerged, the course introduces students to some of the most famous works in the Italian literary tradition. The course develops the students' ability to write critical essays in Italian, while sharpening their skills in literary and cultural analysis.

Prerequisite: ITAL 204 or equivalent.

ITAL 333

The Italian Novella

3 Semester Hours

A survey of the short story form from the fourteenth century to the present.

Prerequisite: ITAL 204 or equivalent.

ITAL 334

Italian Literature of the 20th and 21st Century

3 Semester Hours

A survey of poetry, drama, and prose from Pirandello to Calvino and beyond.

Prerequisite: ITAL 204 or equivalent.

ITAL 350

Contemporary Italian Culture

3 Semester Hours

An examination of the diverse forms of cultural expression in contemporary Italy, including literature, cinema, theatre, music, feminist writing and political critique.

Prerequisite: ITAL 204 or equivalent.

ITAL 380

Italian Women Writers

3 Semester Hours

Survey of representative works by Italian women writers from various historical periods, with particular focus on the modern and contemporary period.

Prerequisite: ITAL 204 or equivalent.

ITAL 398

Special Studies

1-4 Semester Hours

ITAL 399

Japanese

JAPN 101

Elementary Japanese I

3 Semester Hours

An introduction to the fundamentals of Japanese, emphasizing listening and speaking skills. Students learn to ask and answer simple questions in the present and past tense. Introduces reading and writing of Hiragana and approximately 305 Kanji along with essentials of Japanese culture and custom.

Fall semester only.

JAPN 102

Elementary Japanese II

3 Semester Hours

A continuation of JAPN 101. Introduction of Katakana and approximately 60 new Kanji. Useful grammatical patterns emphasizing the use of adjectives and verb conjugations. Practical patterns such as polite commands, permissions, prohibitions, and progressive forms are studied. Students continue to learn fundamentals of Japanese culture and life-style.

Spring semester only.

Prerequisite: JAPN 101 or equivalent, or consent of instructor.

JAPN 198

1-3 Semester Hours

ITAL 451

Italian Cinema

3 Semester Hours

An examination of the historical development of Italian cinema from Neorealism to the present. Students familiarize themselves with the history of Italian national cinema, while developing skills in the close analysis of film.

ITAL 498

Special Studies

1-3 Semester Hours

ITAL 499

Independent Studies

1-3 Semester Hours

3 Semester Hours

A course designed to improve oral proficiency as well as reading and writing skills in Hiragana, Katakana, and Kanji. More complex grammatical patterns such as giving advice and expressing one's desires. Approximately 60 new Kanji are introduced, and students write short essays on selected topics. Increased knowledge and understanding of Japanese culture and customs.

Fall semester only.

Prerequisite: JAPN 102 or equivalent, or consent of instructor.

JAPN 204

Intermediate Japanese II

3 Semester Hours

A continuation of JAPN 203. A course designed to enable students to express their ideas effectively through the use of more complex patterns such as advanced relative clauses, giving and receiving verbs, and volitional forms. Sixty new Kanji are practiced, and students write short essays on selected topics. Increased knowledge and understanding of Japanese culture and customs.

Spring semester only.

Prerequisite: JAPN 203 or equivalent, or consent of instructor.

JAPN 298

Special Studies

1-3 Semester Hours

JAPN 299

Independent Studies

1-3 Semester Hours

JAPN 305

Advanced Intermediate Japanese I

3 Semester Hours

This course concentrates on further perfecting the student's four communicative skills. It focuses on building more advanced vocabulary,

idiomatic expressions, and grammatical patterns. Informal and formal language, especially different levels of Keigo (polite speech), along with selected topics of Japanese culture and customs, are introduced. The student learns approximately 60 Kanji and writes short essays (800 characters) on culturally intriguing topics.

Fall semester only.

Prerequisite: JAPN 204 or equivalent, or consent of instructor.

JAPN 306

Advanced Intermediate Japanese II

3 Semester Hours

This course is designed to help students further develop fluency in speaking, reading, and writing at an advanced-intermediate level. Discussions and compositions (800 characters) are based on selected, more increasingly complex topics. The student learns passive, causative, and causative-passive sentences thoroughly along with 45 Kanji. More advanced knowledge and understanding of Japanese culture, history, art, and socio-economics.

Spring semester only.

Prerequisite: JAPN 305 or equivalent, or consent of instructor.

This course examines the rise of Jewish nationalism, Theodore Herzl, and the rise of political Zionism. We will discuss Zionism after Herzl, the Balfour Declaration, the seeds of Arab-Jewish confrontation, Palestine in World War II, postwar Palestine, the war of independence, and the growth of the Israeli republic. Other topics include Israel's search for peace and security, economic and social growth, the Six-Day War, the Yom Kippur War, the Likud era, peace with Egypt, and Israel's involvement in Lebanon, Gaza, and its relationship with Iran. Israeli society is quite heterogeneous, and the many peoples of Israel will be examined from the perspective of nationality and ethnicity as well as from the perspective of religion, gender, and economic status.

Latin

The LATN 101, 102, 201 sequence covers the full grammar and syntax of Classical Latin and prepares the students to read a wide range of prose and poetry from the Roman Republic and Empire.

LATN 101

Elementary Latin I

3 Semester Hours

Basic introduction to Latin grammar and syntax, including noun declension and verb conjugation; translation of simple prose passages.

LATN 102

Elementary Latin II

3 Semester Hours

A continuation of the grammar and syntax covered in LATN 101, with a focus on more complex sentences and dependent clauses; translation of more elaborate prose and poetry passages.

Prerequisite: LATN 101 or equivalent.

LATN 198

Special Studies

1-3 Semester Hours

LATN 199

Independent Studies

1-3 Semester Hours

LATN 201

Intermediate Latin

3 Semester Hours

A continuation of the LATN 101 and 102 sequence, focusing on more advanced constructions; grammar review and translation of unedited passages of poetry and prose.

Prerequisite: LATN 102 or equivalent.

LATN 298

Special Studies

1-3 Semester Hours

LATN 299

Independent Studies

1-3 Semester Hours

LATN 312

Virgil

3 Semester Hours

Readings in the *Eclogues*, *Georgics*, and/or *Aeneid*.

This course may be repeated for credit.

1-3 Semester Hours

LATN 313

Catullus

3 Semester Hours

Selections from the poetry of Catullus, with a focus on metrical variety, literary style, and historical context.

This course may be repeated for credit.

LATN 314

Horace

3 Semester Hours

Readings from the Epodes, Odes, or Epistles of Horace.

Prerequisite: LATN 201 or equivalent.

LATN 315

Ovid

3 Semester Hours

Readings from the Ovid's *Metamorphoses*.

Prerequisite: LATN 201 or equivalent.

LATN 317

Roman Elegy

3 Semester Hours

Readings from the love poetry of Tibullus, Propertius, and/or Ovid.

Prerequisite: LATN 201 or equivalent.

LATN 319

Roman Satire

3 Semester Hours

Selections from the satiric works of Horace, Seneca, Martial, and/or Juvenal.

LATN 321

Cicero

3 Semester Hours

Readings in the orations, philosophical works, and/or letters.

This course may be repeated for credit.

LATN 322

Roman Historians

3 Semester Hours

Readings in Caesar, Livy, and Tacitus.

This course may be repeated for credit.

LATN 323

Roman Epistolography

3 Semester Hours

Readings in the letters of Cicero and/or Pliny the Younger.

This course may be repeated for credit.

LATN 324

Latin Prose

3 Semester Hours

Readings in selected prose authors of the Republic and/or Empire.

This course may be repeated for credit.

Practicum: Teaching Classical Latin

3 Semester Hours

Liberal Arts

LIBA 101

Strategies for Graduate/Professional School Admission I

1 Semester Hour

Strategies and co-curricular options to assist students in their application to graduate and professional school.

ACE program only.

Offered Fall semester.

Credit/No Credit grading.

LIBA 102

Strategies for Graduate/Professional School Admission II

1 Semester Hour

Continuation of LIBA 101, including exploration of options such as undergraduate and graduate study abroad, graduate entrance examinations, writing the personal essay, interviewing, and financing graduate school.

ACE program only.

Offered Spring semester.

Credit/No Credit grading.

LIBA 111

Academic Skills for Psychology I

1 Semester Hour

Learning strategies and techniques for success in the Psychology major.

Credit/F grading.

Freshman PSYC majors only.

Offered Fall semester.

Practicum in teaching skills for undergraduate elementary Latin class. Topics include basic pedagogy, planning, presentation, testing, grading, tutoring, and problem-solving.

This course may be repeated for credit.

Permission of the instructor required.

Prerequisite: At least two semesters of Latin at the 300- and 400-level and a minimum GPA of 3.3 (B+) in LATN courses.

LATN 415

Special Topics in Latin Literature

3 Semester Hours

This course may be repeated for credit.

Special Studies

1-3 Semester Hours

LATN 499

Independent Studies

1-3 Semester Hours

Co-requisite: PSYC 101.

LIBA 112

Academic Skills for Psychology II

1 Semester Hour

A continuation of LIBA 111.

Credit/F grading.

Freshman PSYC majors only.

Offered Spring semester.

Prerequisite: LIBA 111.

LIBA 144

Academic Skills for Student Athletes

1 Semester Hour

This course covers academic skills for a successful university experience, including time management, library research processes, note taking, reading for meaning, avoiding plagiarism, and using MS Office applications. The course is tailored for student athletes.

Credit/F grading.

LIBA 170

Orientation to Learning I

1 Semester Hour

This course provides information on making a successful transition to college, including campus resources, study skills, academic and career planning.

Credit/F grading.

Offered Fall semester.

LIBA 171**Orientation to Learning II***1 Semester Hour*

Continuation of LIBA 170.

Credit/F grading.

Offered Spring semester.

LIBA 181**Exploring Wellness I***1 Semester Hour*

Introduction to wellness, including physical, psychological, nutritional, financial, and environmental and the skills and campus resources that contribute to academic success.

Healthy Living Learning Community only.

Credit/F grading.

Offered Fall semester.

LIBA 182**Exploring Wellness II***1 Semester Hour*

A continuation of LIBA 181.

Healthy Living Learning Community only.

Credit/F grading.

Offered Spring semester.

LIBA 198**Special Studies***1-3 Semester Hours***LIBA 199****Independent Studies***1-3 Semester Hours***LIBA 250****Strategies for Career Development***2 Semester Hours*

This course utilizes the popular models of career theory and traditional personality assessments to help students identify interests, skills, and values and describe how they relate to a career choice. The decision-making model is utilized to synthesize personal information and research is conducted on employment trends. By the end of the course, students will be familiarized with the job search process including resume writing, interviewing skills, and job search strategies.

Credit/No Credit grading.

LIBA 251**Career Development Internship***1 Semester Hour*

Engage in a mentoring/training type relationship with an employer in a career field of interest. Internships are established through the office of Career Development Services to aid in career decision-making, to make

contacts with employers, and to evaluate employment opportunities firsthand.

This course may be repeated 3 times.

Credit/No Credit grading.

LIBA 291**Intercultural Practicum I***1 Semester Hour*

This course will teach students advanced human relations skills and provide them the occasion for integrating intercultural theory and practice in an increasingly diverse society.

Credit/No Credit grading.

LIBA 292**Intercultural Practicum II***2 Semester Hours*

This course will teach students advanced skills in cross-cultural conflict management, intercultural leadership, strategies for organizational change in multiethnic settings, institutionalizing social change, and preparing personal action plans.

Completion of LIBA 291 and 292 earns the Certificate for Intercultural Competence.

Credit/No Credit grading.

Prerequisite: LIBA 291.

LIBA 298**Special Studies***1-3 Semester Hours***LIBA 299****Independent Studies***1-3 Semester Hours***LIBA 300****Internship***0 Semester Hours*

This course provides a supervised internship either on or off campus.

Credit/No Credit grading.

LIBA 351**Career Development Internship***1 Semester Hour*

Engage in a mentoring/training type relationship with an employer in a career field of interest. Internships are established through the office of Career Development Services to aid in career decision-making, to make contacts with employers, and to evaluate employment opportunities firsthand.

This course may be repeated 3 times.

Credit/No Credit grading.

LIBA 398**Special Studies***1-4 Semester Hours*

LIBA 399**Independent Studies***1-3 Semester Hours***LIBA 495****Seminar in College Teaching***3 Semester Hours*

Seminar for students serving as teaching assistants in undergraduate courses. Topics include college teaching techniques, problems, and ethical considerations.

Consent of instructor required.

Modern Greek**MDGK 100****Modern Greece***3 Semester Hours*

Introduction to Modern Greek language, culture, and history.

MDGK 101**Elementary Modern Greek I***3 Semester Hours*

An introductory course covering the fundamentals of grammar, syntax, reading skills, and oral expression.

MDGK 102**Elementary Modern Greek II***3 Semester Hours*

Continuation of MDGK 101.

MDGK 198**Special Studies***1-3 Semester Hours***MDGK 199****Independent Studies***1-3 Semester Hours***MDGK 203****Intermediate Modern Greek I***3 Semester Hours*

Completion of the study of grammar and syntax. This course is designed to help the student improve conversational skills through listening comprehension and class discussion.

MDGK 204**Intermediate Modern Greek II***3 Semester Hours*

A course aimed at furthering proficiency through reading, listening comprehension, composition, and discussion.

MDGK 298**Special Studies**

Senior standing required.

LIBA 498**Special Studies***1-3 Semester Hours***LIBA 499****Independent Studies***1-3 Semester Hours**1-3 Semester Hours***MDGK 299****Independent Studies***1-3 Semester Hours***MDGK 321****Advanced Modern Greek***3 Semester Hours*

A course designed to enable the students to refine their understanding of the language and enhance their verbal abilities. A reasonable command of Modern Greek is a prerequisite.

MDGK 325**Advanced Modern Greek Conversation***3 Semester Hours*

Texts from prose and poetry serve as a basis for advanced discussion and composition.

MDGK 341**Introduction to Modern Greek Literature (in Translation)***3 Semester Hours*

An examination of the connections between literature and the formation of a Modern Greek national and cultural identity against the background of Greek history and myth.

This course may be repeated for credit.

MDGK 342**Ancient Landscapes: Modern Voices***3 Semester Hours*

Literary texts supplement the visits to museums, archaeological sites, and cultural centers in Greece. Discussion will focus on the diverse forms of cultural expression in contemporary Greece.

This course is offered only in the summer and is cross-listed with ENGL 341, EURO 398, and FNLT 341.

MDGK 343**Angels and Demons: Women and Literary Stereotypes***3 Semester Hours*

Enduring female stereotypes, such as the murderess, the adulteress, the woman warrior, and the hysteric are examined in a historical, social, and cultural context.

MDGK 344**Cities of the Dead: English and Modern Greek Modernism***3 Semester Hours*

A comparative study of Modern Greek and English Modernism and their use of classical myths. Texts from Eliot, Joyce, Seferis, Elytis, Kazantzakis, and others will be used for study and discussion.

MDGK 345**Coming of Age: Stories of Growth and Self-Discovery***3 Semester Hours*

An exploration of the internal psychological conditions as well as the external social pressures that influence the construction of one's identity.

MDGK 346**Out of Control: Women, Madness, and the Cultural Imagination***3 Semester Hours*

A cross-cultural exploration of social, cultural, and literary representations of female madness from antiquity to the present.

MDGK 350**Greek Orthodox Tradition***3 Semester Hours*

(See THST 322.)

MDGK 352**Orthodox Christian Spirituality***3 Semester Hours*

(See THST 352.)

MDGK 354**Greek Cinema****Modern Languages and Literatures****MDLL 300****Linguistics***3 Semester Hours*

Students examine major linguistic disciplines, such as phonology, phonetics, morphology, syntax, and language acquisition and variation. Languages from different linguistic families will be analyzed and compared. This class presents activities for raising linguistic awareness.

Prerequisite: 200-level in two languages or consent of instructor.

MDLL 400**Applied Linguistics***3 Semester Hours***Philosophy****PHIL 160****Philosophy of Human Nature***3 Semester Hours*

An introductory exploration of central questions and interpretations of human existence, carried on in light of the Catholic intellectual tradition.

Satisfies core requirement in all Colleges and Schools.

3 Semester Hours

A historical and critical survey of contemporary Greek cinema as an alternative narrative discourse that comments on contemporary political, social, and cultural circumstances.

MDGK 398**Special Studies***1-4 Semester Hours***MDGK 399****Independent Studies***1-3 Semester Hours***MDGK 450****Modern Greek History and Society***3 Semester Hours*

An examination of the crises and challenges that have shaped Modern Greek society, the transformations that have taken place, and the culture and literature it produced.

MDGK 498**Special Studies***1-3 Semester Hours***MDGK 499****Independent Studies***1-3 Semester Hours*

Topics include language acquisition, language socialization, language policy and planning, bilingualism and multilingualism, translation and intercultural communication. Students will design a research project on child/adult second language acquisition in a psycholinguistic or a socio-cultural framework.

Prerequisite: MDLL 300 or consent of instructor.

MDLL 500**Senior Capstone Project***1 Semester Hour*

Exit research project.

Credit/No Credit grading.

PHIL 198**Special Studies***1-3 Semester Hours***PHIL 199****Independent Studies***1-3 Semester Hours*

PHIL 220**Critical Thinking***3 Semester Hours*

An introduction to the methods and principles of sound reasoning, with special attention to the analysis of deductive and inductive arguments, informal fallacies, and the nature and purpose of definition.

Satisfies core requirement.

PHIL 221**Symbolic Logic***3 Semester Hours*

An introduction to the techniques of modern mathematical logic, including proofs relying on the logic of truth-functions and quantifiers and their application to arguments in English. No mathematical training presupposed. Required for Philosophy majors.

PHIL 254**Philosophy and Film***3 Semester Hours*

An investigation of the philosophical use of the film medium and an examination of particular philosophical ideas portrayed in films.

PHIL 296**Philosophy Proseminar***3 Semester Hours*

An introduction to philosophic research and dialogue through the examination of a philosophic issue or thinker in a seminar setting.

Open to freshman and sophomore majors.

PHIL 298**Special Studies***1-3 Semester Hours***PHIL 299****Independent Studies***1-3 Semester Hours***PHIL 398****Special Studies***1-4 Semester Hours***PHIL 399****Independent Studies***1-3 Semester Hours***PHIL 481****Special Topics***3 Semester Hours*

A seminar course which aims to expose students to the current research and special philosophical interests of departmental faculty. Topics vary from semester to semester.

PHIL 494**Ethics Minor Assessment***0 Semester Hours*

Assessment of student learning outcomes for the Ethics minor program. Includes completion of survey instruments, senior exit interview, and other forms of program evaluation.

CR/NC grading only.

Senior Ethics minor program students only.

Prerequisites: All required courses for the Ethics minor program either already completed or currently in progress.

PHIL 495**Senior Assessment***0 Semester Hours*

Assessment of student learning outcomes in the field of philosophy. Includes completion of survey instruments, senior exit interview, or other forms of end-of-program evaluation.

CR/NC grading only.

Senior Philosophy majors only.

Prerequisites: All required courses for the major in Philosophy completed or currently in progress.

PHIL 498**Special Studies***1-3 Semester Hours***PHIL 499****Independent Studies***1-3 Semester Hours***PHIL 500****Senior Project***3 Semester Hours*

A research and writing project completed under the guidance and direction of a faculty supervisor.

PHIL 598**Special Studies***1-3 Semester Hours***PHIL 599****Independent Studies***1-3 Semester Hours***I. Morality, Law, and Politics****PHIL 320****Ethics***3 Semester Hours*

A study of the questions which a person must ask in forming an intelligent philosophy of moral choice, carried on in the light of the Catholic intellectual tradition.

Fulfills the upper-division Philosophy core requirement for all Colleges and Schools.

Junior standing required.

PHIL 321

Bioethics

3 Semester Hours

This course looks carefully at ethical issues that arise in the field of medicine, such as abortion, euthanasia, physician-assisted suicide, and distribution of medical resources and care.

Fulfills the upper-division Philosophy core requirement for all Colleges and Schools.

Junior standing required.

PHIL 322

Business Ethics

3 Semester Hours

This course considers ethical issues that arise in the field of business.

Fulfills the upper-division Philosophy core requirement for all Colleges and Schools.

Junior standing required.

PHIL 323

Ethics for Engineering and Science

3 Semester Hours

This course looks at ethical questions that arise in the fields of science and engineering, focusing on examples such as the *Challenger* disaster and the decisions that led up to it.

Fulfills the upper-division Philosophy core requirement.

Junior standing required.

Restricted to majors in the Frank R. Seaver College of Science and Engineering.

PHIL 325

Environmental Ethics

3 Semester Hours

The study of moral and ethical issues as they relate to the environment and nonhuman nature. Specific topics and foci vary from semester to semester.

PHIL 326

Ethics of Love and Marriage

3 Semester Hours

This course focuses on the ethical dimensions of friendship, love, marriage, and commitment.

Fulfills the upper-division Philosophy core requirement for all Colleges and Schools.

Junior standing required.

PHIL 327

Ethics and Education

3 Semester Hours

A look at the ethical and justice-related issues posed by the institutions of public and private education in modern democracies, with special focus on education in America.

Fulfills the upper-division Philosophy core requirement for all Colleges and Schools.

Junior standing required.

PHIL 328

Media Ethics

3 Semester Hours

An exploration of the ethical challenges of professionals working in the media and communications industries, providing strategies for students to assess ethical dilemmas in business and creative decisions in film, television, popular music, news, public relations, and advertising professions.

Fulfills the upper-division Philosophy core requirement for all Colleges and Schools.

Junior standing required.

PHIL 329

Topics in Applied Ethics

3 Semester Hours

An in-depth study of a contemporary ethical issue.

Fulfills the upper-division Philosophy core requirement for all Colleges and Schools.

Junior standing required.

PHIL 330

Contemporary Moral Problems

3 Semester Hours

A study from the perspective of ethical theory of selected moral problems of contemporary interest and significance.

Fulfills the upper-division Philosophy core requirement for all Colleges and Schools.

Junior standing required.

PHIL 331

Political Philosophy

3 Semester Hours

A philosophical analysis of the purposes and functions of the political state, including an analysis of the limits of political authority. Course content may vary from historical surveys (of, for example, Hobbes, Locke, Hume, Rousseau, Mill) to in-depth treatments of specific schools of political theory.

PHIL 332

Philosophy of Law

3 Semester Hours

A philosophical analysis of the rule of law and the operation of contemporary legal systems. Topics will include the nature of law and legal obligations, the relation between law and morality, and the criteria for ascribing both civil and criminal (legal) liability.

PHIL 333

Feminist Theory

3 Semester Hours

A survey of the political, epistemological, and metaphysical questions raised for philosophy as traditionally conceived by the claim that sex and/or gender should play a significant role in its self-understanding.

PHIL 334**Images of Women in Philosophy***3 Semester Hours*

An exploration of the understanding of women and human nature in the various philosophical traditions.

II. Natural and Social Sciences**PHIL 341****Philosophy of Science***3 Semester Hours*

A study of the nature of science, with special attention to the history of science, contemporary scientific developments, and scientific method.

PHIL 342**Philosophy of Biology***3 Semester Hours*

A critical examination of central philosophical issues and controversies in the life sciences.

PHIL 343**Environmental Philosophy***3 Semester Hours*

This course addresses fundamental issues associated with the human relationship to the natural world. Specific topics will vary from semester to semester.

III. Arts and Literature**PHIL 351****Philosophy and Culture***3 Semester Hours*

A study of cultural forms as carriers of meaning and value. Topics may vary from year to year and could include analysis of cultural modes of expression, their interpretation and their origins, cultural pluralism, cultural relativism, and the notion of the transcultural.

PHIL 352**Philosophy and the Arts***3 Semester Hours*

A study of the meaning of art and what it can tell us about human beings, the nature of artistic intuition, and the creative process.

PHIL 353**Philosophy and Literature***3 Semester Hours*

An investigation of the philosophical use of literature and an examination of philosophical ideas portrayed in a variety of literary works, which may include plays, novels, autobiographies, and short stories.

PHIL 354**Aesthetics in the Catholic Tradition***3 Semester Hours*

A survey of aesthetic theories from the Catholic tradition, their application to religious and non-religious works of art, and a consideration of the role of the arts and imagination in Catholic intellectual life and spirituality.

IV. Religion and Theology**PHIL 361****Philosophy of God***3 Semester Hours*

The focus of this course is on the debate regarding concepts of God and the arguments for and against God's existence. It will examine the contributions of both classical and contemporary schools of thought to the debate.

PHIL 362**Philosophy and Christianity***3 Semester Hours*

An exploration of central philosophical issues that arise in Christian life—understood as pilgrimage. What is happiness? How does one integrate the immanent and the transcendent? How does Christian praxis relate to the political sphere?

PHIL 363**Personalism***3 Semester Hours*

An exploration of the nature of personhood and its implications for building a just society. Major personalist thinkers and critics—including Maritain, Mounier, Wojtyla, Weil, and Bellah—may provide a context for analysis.

PHIL 365**Chinese Philosophy***3 Semester Hours*

An introduction to Chinese Philosophy, its subject matter and methodologies, with special attention to the six philosophical schools and some fundamental philosophical concepts and persistent issues that arise in the development of the Chinese philosophical tradition.

PHIL 366**Philosophy of Religion***3 Semester Hours*

A philosophical investigation of the issues surrounding religion and religious beliefs. Possible topics will include: religious language, problem of evil, immortality, theism, and atheism.

PHIL 368**Chinese Ethics and Asian Values***3 Semester Hours*

This course explores four schools of thought in ancient China—Confucianism, Taoism, Moism, and Legalism—focusing on each school's texts, important characteristics, influences, ethical ideas, and their impacts on contemporary Chinese ethical thought.

Offered in Beijing.

V. History of Philosophy**PHIL 381****Ancient Philosophy***3 Semester Hours*

A study of pre-Socratic thought, Plato, and Aristotle. Part of the history sequence for majors.

PHIL 382**Philosophy in Late Antiquity***3 Semester Hours*

A study of major philosophical currents after Aristotle, including Neo-Platonism, Stoicism and early Christian reactions to Greek philosophy.

PHIL 383**Medieval Philosophy***3 Semester Hours*

A study of the major philosophical movements from Augustine to Ockham. Part of the history sequence for majors.

PHIL 385**Modern Philosophy I***3 Semester Hours*

A study of 17th century Rationalism and 18th century Empiricism, including Descartes, Spinoza, Leibniz, Locke, Berkeley and Hume. Part of the history sequence for majors.

PHIL 387**Modern Philosophy II***3 Semester Hours*

A study of Kant and post-Kantian developments, including 19th century German Idealism. Part of the history sequence for majors.

VI. Contemporary Movements**PHIL 421****Pragmatism***3 Semester Hours*

A study of 19th and 20th century pragmatism, including the philosophies of Charles Sanders Peirce, William James, and John Dewey.

PHIL 422**The Analytic Tradition***3 Semester Hours*

An examination of some of the most influential philosophers whose work constitutes the Anglo-American tradition of the 20th century, including Frege, Russell, G.E. Moore, Wittgenstein, the Logical Positivists, the Ordinary Language Philosophers, and several contemporary post-analytic philosophers.

PHIL 423**Phenomenology***3 Semester Hours*

An introduction to phenomenological method through the close study of the works of Husserl and/or later phenomenologists.

PHIL 424**Existentialism***3 Semester Hours*

A study of 20th-century European existential philosophy and its 19th-century forerunners.

PHIL 426**Postmodernism***3 Semester Hours*

A study of 20th and/or 21st century responses to modern and/or Enlightenment philosophy. Can also include postmodern philosophical theology and philosophy of religion.

PHIL 427**Contemporary Chinese Philosophy***3 Semester Hours*

An exploration of contemporary Chinese thought, focusing on its relationship to historically important philosophies such as Confucianism and Marxism, as well as to contemporary political, ecological, and religious influences.

Offered in Beijing.

PHIL 428**Spanish Philosophy***3 Semester Hours*

An exploration of Spanish (Iberian) philosophical figures and themes, including one or more of the following thinkers: Seneca, Averroës, Maimonides, Lull, Ibn Al'Arabi, Vives, St. Teresa of Jesus, St. John of the Cross, Suárez, Unamuno, Ortega y Gasset, Zubiri, Mora, Marías, and/or Triás.

PHIL 429**Topics in Chinese Philosophy***3 Semester Hours*

An advanced study of patterns of philosophical thinking in Chinese intellectual tradition. The topics will focus in depth on a particular theory, problem, or text.

May be repeated twice for degree credit.

PHIL 430**Hermeneutics***3 Semester Hours*

This course will study philosophical accounts of interpretation and the role it plays in understanding. The course may approach the field through emphasis on a particular figure (e.g., Martin Heidegger, Hans-Georg Gadamer, or Paul Ricoeur) or through a particular theme or topic (e.g., narrative identity, religion, or politics).

VII. Major Thinkers**PHIL 451****Major Thinkers***3 Semester Hours*

Concentrated study of a single, major philosopher.

Repeatable for degree credit.

VIII. Mind and Reality**PHIL 461****Epistemology***3 Semester Hours*

An introduction to the principal problems of epistemology as they appear in both classical and contemporary theories.

PHIL 463**Metaphysics***3 Semester Hours*

An introduction to classical and contemporary metaphysics, the general theory of being. Topics often include analogy, essence and existence, matter and form, potency and act, causality, and the transcendentals.

PHIL 464

Philosophy of Mind

3 Semester Hours

An exploration of the nature of mind. Topics may vary and may include consciousness, experience, the self, the historical discovery of mind, and consideration of psychological theories of mental operations. Alternative theories will be critically examined.

Graduate Courses

PHIL 602

Plato

3 Semester Hours

An exploration of selected dialogues, informed by a study of the various interpretations of the dialogues from Aristotle to the present.

PHIL 604

Aristotle

3 Semester Hours

A close study of Aristotelian texts. Aristotle's psychology, metaphysics, or ethics and politics may be emphasized in a given semester.

PHIL 606

Classics of Chinese Philosophy

3 Semester Hours

A study of the classic texts of the Confucian and Daoist traditions, including the *Analects*, *Mencius*, *Doctrine of the Mean*, *The Great Learning*, *Daodejing*, *Zhuangzi*, and *The Art of War*.

PHIL 608

Plotinus

3 Semester Hours

A study of a wide range of Plotinus' works, aimed at articulating his understanding of the fundamental structures of reality, of thought, and of human life in relation to their transcendent source. The main emphasis will be on metaphysical and gnoseological themes, but the ethical, aesthetic, and spiritual dimensions of Plotinus' thought will also be considered.

PHIL 609

Augustine

3 Semester Hours

A study of central philosophical topics in Augustine's thought, focusing primarily but not exclusively on the earlier phases of his work. Issues to be thematized include truth, beauty, unity and number, interiority, divine illumination, eternity and time, and the problem of evil.

PHIL 610

Philosophy in Late Antiquity

3 Semester Hours

A study of major philosophical currents after Aristotle, which may include Neo-Platanism, Stoicism, and early Christian reactions to Greek philosophy.

PHIL 612

Practical Wisdom

3 Semester Hours

A study of Aristotle's notion of *phronesis* as understood by medieval thinkers.

PHIL 614

Aquinas

3 Semester Hours

An exploration of major themes in the thought of the 13th-century Dominican Thomas Aquinas through seminal works such as the *Summa Theologiae* and the *Summa Contra Gentiles*.

PHIL 616

Divine and Human Willing

3 Semester Hours

A study of the nature and role of the will, both human and divine, in Duns Scotus and William of Ockham.

PHIL 618

Divine Foreknowledge and Human Free Will

3 Semester Hours

A study of medieval reflection on the foreknowledge question from Augustine's *De Ordine* to Ockham's *Divine Foreknowledge and Human Freedom*, including writings of Boethius, Anselm, Aquinas, and Scotus.

PHIL 624

Early Modern Philosophy

3 Semester Hours

A study of selected thinkers and themes in 17th and 18th century European philosophy, focusing on the major works of seminal philosophers such as Descartes, Spinoza, Malebranche, Pascal, Locke, Leibniz, Berkeley, and Hume. Topics may include reality, knowledge, perception, reason, causation, identity, substance, mind, and God.

PHIL 626

Pascal

3 Semester Hours

A close reading of the *Pensées* and selected shorter works with special attention to their relevance for contemporary debates in philosophy of religion over the nature of faith, the ethics of belief, and religious pluralism.

PHIL 630

Kant

3 Semester Hours

An in-depth study of selections from the three critiques and other writings, with attention to the relevant secondary literature.

PHIL 634

Hegel

3 Semester Hours

A close reading of Hegel's *Phenomenology of Spirit* with the aid of the major commentators.

PHIL 636

Kierkegaard

3 Semester Hours

A study of Kierkegaard's philosophical psychology through an examination of his pseudonymous works, including *Either/Or*, *Fear and Trem-*

bling, Repetition, The Concept of Anxiety, Concluding Unscientific Postscript, and The Sickness Unto Death.

PHIL 637

Husserl

3 Semester Hours

A study of the phenomenological method of Husserl through readings from one or more of his texts.

PHIL 638

Heidegger

3 Semester Hours

A study of major themes in Heidegger's philosophy, beginning with *Being and Time* and including other major texts from the later periods of his thought.

PHIL 639

Topics in Phenomenology

3 Semester Hours

The study of one or more topics in phenomenology, drawing from the works of such thinkers as Husserl, Scheler, Stein, Heidegger, Sartre, and Merleau-Ponty.

May be repeated for degree credit.

PHIL 640

Wittgenstein

3 Semester Hours

A close study of the *Philosophical Investigations* along with the *Tractatus* and *On Certainty*. Topics include the nature of mind, language, and the relation between language and the world in the philosophy of Wittgenstein.

PHIL 642

Hermeneutics

3 Semester Hours

A consideration of the philosophical questions raised by the interpretation of historically and culturally distant texts and artifacts. We will pay close attention to the work of Hans-Georg Gadamer, the most famous 20th century exponent of "philosophical hermeneutics."

PHIL 644

Critical Theory

3 Semester Hours

A look at contemporary "critical theorists," scholars who—inspired by Kant, Hegel, Marx, and Freud—share two apparently incompatible convictions: first, that philosophy must acknowledge the historical, economic, political, psychological, and sociological factors that constrain and distort our thinking; and second, that this discipline of radical self-criticism can lead to insight, change, and growth.

PHIL 647

American Philosophy

3 Semester Hours

A study of issues and movements in American Philosophy, such as Transcendentalism, Pragmatism, and Neo-Pragmatism.

PHIL 648

Lonergan

3 Semester Hours

A study of Lonergan's cognitional theory, epistemology, metaphysics, and ethics, in *Insight* and later works.

PHIL 650

Topics in Continental Philosophy

3 Semester Hours

A study of prominent themes in the continental tradition of philosophy. Topics vary each semester and may include figures from the 19th, 20th, and 21st centuries.

May be repeated for degree credit.

PHIL 654

Contemporary French Philosophy

3 Semester Hours

A study of twentieth-century figures in French philosophy. This seminar may be devoted to one or more of the following figures: Bergson, Marcel, Ricoeur, Levinas, Foucault, Derrida, and/or DeLeuze.

PHIL 656

Epistemology

3 Semester Hours

This course addresses the philosophical dimensions of the cognitive life. It explores questions about the nature and sources of knowledge—and even its very possibility. Such questions lead to further considerations about, for example, skepticism and the problem of epistemic regress; the foundationalism vs. coherentism and internalism vs. externalism debates; the classical debates between rationalism and empiricism and, too, realism and idealism. The course might also investigate fresh developments in virtue epistemology, social epistemology, and feminist epistemology.

PHIL 660

Metaphysics

3 Semester Hours

A study of major metaphysical theories including those of Plato, Aristotle, and Aquinas.

PHIL 662

Personalist Metaphysics

3 Semester Hours

An exploration of the thesis that the personal self is the most dynamic dimension of reality, contrasting both classical metaphysics and phenomenological realism with a range of reductionist accounts of the person. Particular points of contact include economism, scientism, and individualism.

PHIL 664

Philosophy of Mind

3 Semester Hours

An examination of the nature of mind and its relation to the physical world. Topics might include consciousness, subjectivity, the self, personal identity, neuroscience, cognitive psychology, artificial intelligence, and cognitive ethology.

PHIL 666

Philosophy of Science

3 Semester Hours

A detailed philosophical examination of some aspect of natural science. Topics might include science and pseudoscience, scientific explanation,

theoretic confirmation, laws of nature, scientific revolutions, scientific realism, and social constructivism.

PHIL 670

Social and Political Philosophy

3 Semester Hours

A study of the interrelation of the person and community, focusing on such questions as: Is the human person, at the deepest level, a whole rather than a part? How can we best evaluate contractarian, utilitarian, and natural law views of the common good? Does liberal individualism do justice to either the person or the common good?

PHIL 672

Virtue Ethics

3 Semester Hours

A study of contemporary reappropriations of Aristotle by such authors as MacIntyre, Anscombe, Veach, and Porter.

PHIL 678

Ethics

3 Semester Hours

A survey of major ethical theories including those of Aristotle, Kant, and Mill.

PHIL 682

Topics in Philosophy and Religion

Political Science

Introductory Courses, Internship Courses, and Special Studies

POLS 135

American Politics

3 Semester Hours

An overview of the major political processes in contemporary American life.

POLS 155

Comparative Politics

3 Semester Hours

Analyzes political institutions and policies in democratic and authoritarian countries. Combines conceptual understanding with case studies from Europe, Africa, Asia, and Latin America.

POLS 165

International Relations

3 Semester Hours

This course provides an introduction to the field of international relations, with an emphasis on state and non-state behavior in explaining international cooperation and conflict.

POLS 198

Special Studies

1-3 Semester Hours

POLS 199

Independent Studies

3 Semester Hours

A study of selected topics in the philosophy of religion, such as God, faith and reason, including an examination of both historical and contemporary discussions of these topics.

PHIL 696

Teacher Orientation and Practicum

0 Semester Hours

PHIL 697

Comprehensive Examinations

0 Semester Hours

Credit/No Credit grading.

PHIL 698

Special Studies

1-3 Semester Hours

PHIL 699

Independent Studies

1-3 Semester Hours

1-3 Semester Hours

POLS 210

Empirical Approaches to Politics

3 Semester Hours

This course introduces the assumptions of the scientific approach in the study of politics, the process of concept formation, and research design. Includes data analysis laboratory sessions.

Students are encouraged to complete this class in their sophomore year.

Prerequisite: POLS 135, 155, or 165.

POLS 220

Foundations of Political Thought

3 Semester Hours

Introduction of the major thinkers and schools of thought that lay the foundation for western governments. Writing intensive.

Students are encouraged to complete this class in their sophomore year.

Prerequisite: POLS 135, 155, or 165.

POLS 298

Special Studies

1-3 Semester Hours

POLS 299

Independent Studies

1-3 Semester Hours

POLS 380**Washington Internship***1-6 Semester Hours*

The academic component of a supervised internship in Washington, D.C.

Credit/No Credit grading only

POLS 381**Internship***1-4 Semester Hours*

The academic component of a supervised internship in an appropriate agency in Los Angeles or Sacramento.

In addition to the internship itself, the student must meet regularly with a faculty member selected prior to the start of the internship and write a research paper.

Credit/No Credit grading only.

POLS 382**Washington D.C. Politics***3 Semester Hours*

A part of The Washington Center academic internship program, this course is a comprehensive reflective examination and evaluation (in portfolio format) of the student's academic and internship experience.

POLS 385**Political Films and Media***4 Semester Hours*

An examination of the role of print and electronic media in politics and an exploration of political themes as presented in movies.

POLS 398**Special Studies***1-4 Semester Hours***POLS 399****Independent Studies***1-4 Semester Hours***POLS 430****Campaign***1 Semester Hour*

A study of the candidates and issues involved in the fall campaign of each election year.

POLS 435**Politics of California***1-4 Semester Hours*

An examination of the structure and dynamics of California government and politics.

POLS 485**Practicum in Politics***4 Semester Hours*

Involves a combination of field work with assigned readings, research and group discussion with others engaged in these same endeavors.

POLS 491**Special Studies***1-4 Semester Hours***POLS 498****Special Studies***1-4 Semester Hours***POLS 499****Independent Studies***1-4 Semester Hours***POLS 581****Honors Seminar***4 Semester Hours*

A particularly challenging senior seminar for students contemplating graduate work. Also provides preparation for writing a senior thesis.

Prerequisites: POLS 210, 220, and consent of instructor.

POLS 590**Senior Thesis***3 Semester Hours*

The senior thesis provides the opportunity for students to complete a substantive research project to culminate their study of Political Science.

Senior standing required.

Prerequisites: POLS 210 and consent of department chairperson. Also, the student must obtain the written approval of the faculty supervisor the semester prior to writing the thesis.

POLS 591**Honors Thesis***4 Semester Hours*

This is an opportunity for Honors-Eligible students to complete a substantive research project to qualify for Departmental Honors.

Prerequisite: POLS 581.

POLS 598**Special Studies***1-4 Semester Hours***POLS 599****Independent Studies***1-4 Semester Hours***Group 1: Political Thought****POLS 323****American Political Thought***4 Semester Hours*

A study of the origin and development of liberal democracy from Hobbes and Locke to contemporary American thinkers and groups.

POLS 324**Marx and Marxism***4 Semester Hours*

An examination of the Marxist contribution to socio-political thought from Marx to the current era.

POLS 325**Classical and Christian Political Theory***4 Semester Hours*

A survey of Western political thought from ancient Greece through the Renaissance.

POLS 326**Modern Political Theory***4 Semester Hours*

A survey of Western political thought from the Renaissance through the 19th century.

POLS 327**Contemporary Political Theory***4 Semester Hours*

A survey of 20th century and 21st century political thought.

POLS 392**Special Studies in Political Thought***1-4 Semester Hours***POLS 420****Ethics, Politics, and Policy***4 Semester Hours*

An examination of the ethical dimensions of domestic policy and political action. The course combines theoretical analyses and case studies.

POLS 421**Ethics of War***4 Semester Hours*

An examination of the ethical dimensions of military and political action, with special attention to just war theory and its applicability to today's world. The course combines theoretical analyses and case studies.

POLS 422**Human Nature and Politics***4 Semester Hours*

An examination of how conceptions of human nature have shaped our conception and practice of the good life and the good polity.

POLS 423**Political Rhetoric***4 Semester Hours*

An examination of how rhetoric shapes political life and social goals. This course analyzes how the structure and content of arguments helps to create political narrative and guide political action.

POLS 450**Asian Political Thought***4 Semester Hours*

An overview of traditional Asian political thought. This course examines the role that ideologies such as Buddhism, Confucianism, and Taoism have had in shaping the political landscape of China, Korea, and Japan.

POLS 492**Special Studies in Political Thought***1-4 Semester Hours***POLS 520****Modes of Political Inquiry***4 Semester Hours*

An examination of the major frameworks of political inquiry: the traditional, behavioral, and critical approaches.

Prerequisite: POLS 210.

POLS 521**Visions of Freedom***4 Semester Hours*

This course focuses on issues such as "what is a free society?" and "why is freedom important?" Also examines legal and constitutional issues of freedom.

POLS 592**Special Studies in Political Thought***1-4 Semester Hours*

Senior standing required.

Prerequisite: POLS 210.

Group 2: American Politics**POLS 332****Campaigns and Elections***4 Semester Hours*

An examination of the electoral process in the United States covering political participation, campaigns, and institutional arrangements at all levels of government.

POLS 333**Congressional Politics***4 Semester Hours*

A study of the workings of the U.S. Congress with an emphasis on the legislative process. Course is primarily conducted as a simulation of either the House or Senate.

POLS 334**Presidency***4 Semester Hours*

A study of the powers, process, and problems of the modern United States presidency.

POLS 335**Immigration Politics and Policy***4 Semester Hours*

An analysis of the current demographics of U.S. immigration, the causes of international migration, and the dynamics of the U.S. immigration policymaking-process.

POLS 336

Courts, Law, and Society

4 Semester Hours

A study of how America's courts really work, focusing on the role of judges, juries, and attorneys.

POLS 337

Racial and Ethnic Politics

4 Semester Hours

Comparative analysis of racial and ethnic groups within the United States political system. A focus on the effect of political institutions on minority groups at federal, state, and local levels. Examines the experience of minority groups to illuminate political process in the U.S.

POLS 338

Civil Rights Movements

4 Semester Hours

An analysis of the current issues and controversies facing several civil rights movements.

POLS 339

Media and Politics

4 Semester Hours

An examination of the broad array of news and information sources in the U.S. A particular focus on media trends and how information dissemination affects democratic principles.

POLS 340

Public Administration

4 Semester Hours

Introduction to the problems, principles, and theory encountered in the field of public administration.

POLS 341

Race, Class, Culture, and Public Policy

4 Semester Hours

An examination of the linkages between race, social class, culture, and public policy in discussions of two important public policy issues in the United States: the creation and persistence of the urban underclass and changes in the racial, economic, political, and cultural characteristics of the United States due to recent patterns of immigration.

POLS 345

Urban Politics

4 Semester Hours

Analysis of political institutions and processes in urban areas of the U.S., including policy-making processes, power structures, urban problems, and intergovernmental relations.

POLS 349

African Americans and U.S. Public Policy

4 Semester Hours

The course examines the historical role of race and African American racial identity in contemporary public policies such as Affirmative Action, racial profiling, social welfare, and the Voting Rights Act.

POLS 370

Elderly and the Law

4 Semester Hours

A study of the intersection of aging issues with the legal system including advance directives, guardianships, wills and trusts, assisted living arrangements, health care benefits, age discrimination in employment, long term care, and elder abuse.

POLS 393

Special Studies in U.S. Politics

1-4 Semester Hours

POLS 394

Special Studies in Public Administration and Policy Analysis

1-4 Semester Hours

POLS 397

Special Studies in Public Law

1-4 Semester Hours

POLS 431

Public Opinion and American Culture

4 Semester Hours

An examination of public opinion and political participation in terms of their development, trends, measurement and influencing factors.

POLS 432

Interest Groups and Advocacy

4 Semester Hours

An examination of the role of groups and advocacy organizations in the U.S. Central assignment of the course will be a founding of an interest group.

POLS 436

Politics of Los Angeles

4 Semester Hours

A study of the structure and dynamics of county, city, and special district governments in the Los Angeles metropolitan area.

POLS 437

Chicana/o Politics

3 Semester Hours

A study of the social and political development of the Chicano community in the United States.

(See CHST 337.)

POLS 438

Women and Politics

4 Semester Hours

An analysis of the issues and topics resulting from the intersection of gender with the political system.

POLS 439

Political Psychology

4 Semester Hours

A study of the relationship between selected psychological and social-psychological characteristics of individuals and political behavior.

POLS 440

Public Policy Analysis

4 Semester Hours

An examination of the processes by which public policy is formulated, implemented, and evaluated. Emphasis will be placed on policy planning and evaluation competencies.

POLS 446

Public Policy on Aging

3 Semester Hours

An introduction to the field of political gerontology with a emphasis on the public policies that affect the elderly population.

POLS 447

Overcoming Poverty: Research and Internship

4 Semester Hours

Seminar organized around overcoming poverty in the developing world. Students design a nonprofit organization, prepare a Fulbright proposal, and intern with a local NGO.

Consent of instructor required.

POLS 471

United States Constitutional Law: Case Method I

4 Semester Hours

Judicial, executive, and legislative power; individual rights.

POLS 472

United States Constitutional Law: Case Method II

3 Semester Hours

Freedom of Speech and Equal Protection.

POLS 493

Special Studies in U.S. Politics

1-4 Semester Hours

POLS 494

Special Studies in Public Administration and Policy Analysis

1-4 Semester Hours

POLS 497

Special Studies in Public Law

1-4 Semester Hours

POLS 540

Education Policy

4 Semester Hours

A senior seminar examining selected dimensions of education policy in the United States.

Prerequisite: POLS 210.

POLS 570

Child Advocacy Seminar

4 Semester Hours

Internship and seminar exploring family and juvenile law with an emphasis on Los Angeles.

Consent of instructor required.

Prerequisite: POLS 210.

POLS 571

The Law and Presidential Power

4 Semester Hours

A seminar examining the ways and extent to which the Constitution and statutes empower and enchain the American President.

Prerequisite: POLS 210.

POLS 572

Women and the Law

4 Semester Hours

This course focuses on the evolution and current situation of how women and their related issues fare in the legal system, including domestic violence, child custody, reproductive rights, marriage and divorce, domestic partnerships, education, employment, sexual harassment, prostitution and pornography.

Political Science majors only.

POLS 593

Special Studies in U.S. Politics

1-4 Semester Hours

Prerequisite: POLS 210.

POLS 594

Special Studies in Public Administration and Policy Analysis

1-4 Semester Hours

Senior standing required.

Prerequisite: POLS 210.

POLS 597

Special Studies in Public Law

1-4 Semester Hours

Senior standing required.

Prerequisite: POLS 210.

Group 3: Comparative Politics

POLS 351

Politics of the European Union

4 Semester Hours

An analysis of the political structures and processes of Great Britain, France, Germany, Italy, Spain, and other European nations.

POLS 352

Russia and Eastern Europe

4 Semester Hours

An analysis of political processes and recent changes in Eastern Europe and in the republics that made up the former USSR.

POLS 353

Politics in the Middle East

4 Semester Hours

An overview and analysis of the major patterns and problems in political development and life in the Middle East and North Africa from a cross-national perspective.

POLS 354

Politics of Latin America

4 Semester Hours

Analyzes political institutions and processes in Latin America. Emphasizes current political and economic challenges to democratic consolidation in the region.

POLS 355

Politics of Asia

4 Semester Hours

An analysis of political institutions and political processes in Asian political systems, with special emphasis on China, Japan and India.

POLS 356

Politics of Africa

4 Semester Hours

An analysis of the problems and prospects for political, economic, and social development in Africa south of the Sahara.

POLS 357

US-British Politics

4 Semester Hours

A comparative study of political systems of the United States and Great Britain.

POLS 358

Politics of Development

4 Semester Hours

An analysis of the various theoretical approaches to understanding the political economy of developing nations and the empirical consequences of development strategies.

POLS 395

Special Studies in Comparative Politics

1-4 Semester Hours

POLS 451

National Identities

3 Semester Hours

The course uses empirical evidence and theoretical concepts of race, ethnicity, and gender to draw comparisons of national identity in countries on both sides of the Atlantic.

POLS 456

Identities in African Diaspora I: The Americas

4 Semester Hours

The course examines the political identities of peoples of African descent in North American, South America, and the Caribbean.

POLS 457

Identities in African Diaspora II: Western Europe

4 Semester Hours

The course examines the political identities of peoples of African descent in Western Europe.

POLS 458

Political Leadership

4 Semester Hours

A study of the sources and uses, limits and possibilities of leadership in the political arena. The course focuses on leadership and followership in political systems across cultures and systems but focuses on the United States.

POLS 495

Special Studies in Comparative Politics

1-4 Semester Hours

POLS 550

Comparative Human Rights

3 Semester Hours

Examines the tension between human rights and national sovereignty and analyzes how international norms are changing the domestic protection of human rights. Explores how human rights are defined and derived, surveys the historical development of human rights law, and studies enforcement mechanisms and international tribunals.

Political Science majors only.

POLS 551

New Social Movements

3 Semester Hours

The course analyzes sociopolitical movements across western cultures from the student movements, anti-war protests, and women's movements of the 1960s and 70s to contemporary social movements.

Prerequisite: POLS 210.

POLS 595

Special Studies in Comparative Politics

1-4 Semester Hours

Senior standing required.

Prerequisite: POLS 210.

Group 4: International and World Politics

POLS 360

World Politics

4 Semester Hours

An analysis of how nations behave and why. International conflict and cooperation, with an emphasis on nation-state interaction.

POLS 361

International Cooperation

4 Semester Hours

A study of the patterns of formal institution building and informal regime definition that underlie and define the development of cooperative relationships among the nations of the world.

POLS 362

International Security

4 Semester Hours

A survey of challenges to security and peace in modern international relations, such as war, the nuclear peril, terrorism, revolution, ecological dangers, economic pressures and sociodemographic crises.

POLS 365

United States Foreign Policy

4 Semester Hours

Analysis of recent United States foreign policy with a focus on the policy making and implementation process.

POLS 396

Special Studies in International and World Politics

1-4 Semester Hours

POLS 460

Internship in International Relations

4 Semester Hours

This course is designed to provide students with academic credit for an internship in international relations. As such, this course will encourage students to integrate knowledge gained from academic research with practical, real-world experience. Students are expected to work at their internship at least 6-8 hours per week.

POLS 461

United States and Latin America

4 Semester Hours

A survey of the international relations between the United States and the countries of Latin America.

POLS 462

Politics of the European Union

Psychology

PSYC 100

General Psychology

3 Semester Hours

Introduction to psychology: historical origins; methods of investigation; topics such as sensation, perception, learning, cognition, motivation, and emotion; fields such as physiological, development, personality, social, abnormal, testing, applied psychology, and psychotherapy.

PSYC 101

Introduction to Psychology

3 Semester Hours

Introduction to the scientific study of behavior, including an overview of the history of psychology, biological basis of behavior, sensation/perception, consciousness, learning, memory, cognition, language, motivation, emotion, intelligence, development, personality, psychological disorders, therapy, social behavior, and psychological testing.

Majors/minors only.

4 Semester Hours

This course focuses on the structure of the European Union, the interaction of states in the European Union, and the European Union's foreign policy.

POLS 465

World Political Economy

4 Semester Hours

A study of international political economy with an emphasis on North-South relations.

POLS 475

International Law

4 Semester Hours

Focus on some of the major doctrines of international law and the processes of making and implementing law in the contemporary international system.

POLS 496

Special Studies in World Politics

1-4 Semester Hours

POLS 560

Global Agenda

3 Semester Hours

A seminar focusing on global political dynamics, transformations, and issues.

Prerequisite: POLS 210.

POLS 596

Special Studies in World Politics

1-4 Semester Hours

Senior standing required.

Prerequisite: POLS 210.

PSYC 198

Special Studies

1-3 Semester Hours

PSYC 199

Independent Studies

1-3 Semester Hours

PSYC 241

Statistical Methods for Psychology

3 Semester Hours

Statistical concepts and methods related to psychological testing and research, including measures of central tendency, variance, hypothesis testing, analysis of variance, correlation, regression, non-parametric tests, use of computer aids.

Lab required.

Prerequisites: Grade of C (2.0) or higher in each: MATH 104, PSYC 100 or 101, 243 or concurrent enrollment.

PSYC 243

Statistical Methods for Psychology Lab

1 Semester Hour

Companion lab course to PSYC 241. Data management and statistical analysis using SPSS.

Prerequisite: Grade of C (2.0) or higher in PSYC 241 or concurrent enrollment.

PSYC 251

Brain and Behavior

3 Semester Hours

Biological basis of behavior; structure and function of the sensory and effector mechanisms, neural and endocrine systems and their underlying physiological substrates.

Prerequisites: Grade of C (2.0) or higher in each: NTLS 150, PSYC 100 or 101, or consent of instructor.

PSYC 261

Experimental Methods

3 Semester Hours

Introduces the basic principles of experimental designs. Provides students with fundamental background for planning, conducting, and critiquing experimental research in psychology. Emphasizes scientific writing, including APA style; and data interpretation using inferential, descriptive, and relational statistics. Includes how to generate and test hypotheses, search the scientific literature, the nature of variables, types of measurement, types and assessment of reliability and validity, and ethical issues in empirical research.

Prerequisites: Grade of C (2.0) or higher in each: PHIL 220, PSYC 100 or 101, 241, 243.

PSYC 265

Nonexperimental Methods

3 Semester Hours

Introduces the basic principles of nonexperimental and quasi-experimental designs. Provides students with fundamental background for planning, conducting, and critiquing nonexperimental, quasi-experimental, and qualitative research in psychology. Emphasizes philosophy of science and scientific writing, including APA style. Methods and designs may include quasi-experimental, correlational, meta-analytic, survey, longitudinal, narrative, participatory action, ethnographic, focus groups, and mixed methodologies. Statistical procedures include those appropriate to these methods and designs.

Prerequisites: Grade of C (2.0) or higher in each: PHIL 220, PSYC 100 or 101, 241, 243.

PSYC 298

Special Studies

1-3 Semester Hours

Prerequisite: Grade of C (2.0) or higher in PSYC 100 or 101.

PSYC 299

Independent Studies

1-3 Semester Hours

Prerequisite: Grade of C (2.0) or higher in PSYC 100 or 101.

PSYC 301

Introduction and Overview of Alcohol, Tobacco, and Other Drugs

3 Semester Hours

History of alcohol and other mood-altering drugs in the United States, the myths and stereotypes of alcohol use, the socio-cultural factors that contribute to drug use, and the patterns and progressions of alcoholism and other drug dependency.

Junior standing required.

Prerequisite: Grade of C (2.0) or higher in PSYC 100 or 101.

PSYC 310

Psychology of Sex Differences

3 Semester Hours

Explores sex and sex differences from a biosocial or evolutionary psychology perspective. Examines evolution of sexual reproduction, the two sexes, sexually dimorphic morphology, behavior, and emotion. Identifies and examines different reproductive strategies employed by males and females (including nonhuman species) and resulting conflicts of interests between the sexes. Particular focus given to sex differences in sexuality, courtship, jealousy, mating systems, and parenting.

Junior standing required.

Prerequisite: Grade of C (2.0) or higher in PSYC 100 or 101.

PSYC 315

Psychology of Women

3 Semester Hours

Women's biological, emotional, cognitive, and behavioral functioning will be reviewed. Topics of special concern to women (e.g., discrimination, sexual harassment, parenting, etc.) will also be discussed.

Junior standing required.

Prerequisite: Grade of C (2.0) or higher in PSYC 100 or 101.

PSYC 319

African and Black Psychology

3 Semester Hours

A biopsychosocial/spiritual review of topics in psychology from an African-centered perspective. A survey course examining and contrasting basic theories, research, and concepts in African psychology and Black psychology. Selected features of the discipline of western psychology are critiqued from an African-centered perspective.

Junior standing required.

Prerequisite: Grade of C (2.0) or higher in PSYC 100 or 101.

PSYC 320

Psychology of Race, Culture, and Ethnicity

3 Semester Hours

Theories and research on psychological, social, and cultural influences in prejudice, racism, ethnic identification, stereotyping, and racial conflict.

Junior standing required.

Prerequisite: Grade of C (2.0) or higher in PSYC 100 or 101.

PSYC 321

Psychology of Marriage

3 Semester Hours

Exploration of theories and research on psychological processes in interpersonal attraction; intimacy, marriage, and family relationships.

Junior standing required.

Prerequisite: Grade of C (2.0) or higher in PSYC 100 or 101.

PSYC 325

Applied Sport Psychology

3 Semester Hours

Explores the relationship of psychological factors to performance in sports. Emphasizes the application of psychological techniques to sport and exercise, including such topics as: personality, motivation, arousal, anxiety, competitiveness, and aggression. Examines psychosocial aspects of team versus individual sports, performance enhancement strategies, and injury avoidance and recovery. Self-assessment and activities facilitate growth and development in personal abilities to enhance performance in a sport and in a variety of non-sport settings.

Junior standing required.

Prerequisite: Grade of C (2.0) or higher in PSYC 100 or 101.

PSYC 330

Forensic Psychology

3 Semester Hours

Examines the interaction of psychology and law. Topics include basic assumptions of law and professional and academic psychology; psychological malpractice; role of mental health experts as expert witnesses, diagnosticians, treatment providers, and advisors in tort law, family law, mental health law, criminal law, and alternative dispute resolution including mediation. Covers fundamental legal procedures, roles of mental health professionals who interact with the legal system, psychological research on legal issues, and common ethical and legal issues related to psychological practices in these areas.

Junior standing required.

Prerequisite: Grade of C (2.0) or higher in PSYC 100 or 101.

PSYC 332

Psychological Disorders

3 Semester Hours

An introduction to the biological, psychological, and social determinants of psychopathology and maladaptive behaviors. Focus on the causes, diagnosis, and treatment of these disorders. This course is designed for students not majoring in Psychology.

Not open to majors in Psychology.

Junior standing required.

Prerequisite: Grade of C (2.0) or higher in PSYC 100 or 101.

PSYC 345

Psychology on Film

3 Semester Hours

An investigation of principles and theories of psychology through the analysis of characters in quality, character-based films.

Junior standing required.

Prerequisite: Grade of C (2.0) or higher in PSYC 100 or 101.

PSYC 351

Comparative Animal Behavior

3 Semester Hours

An examination of the ecological and social determinants of the evolution of adaptive behavioral strategies for various classes of behavior across species, including foraging, courtship and reproduction, mating systems, aggression, territoriality, and parenting. Field trips to observe animals.

Junior standing required.

Prerequisite: Grade of C (2.0) or higher in PSYC 100 or 101.

PSYC 352

Developmental Psychology

3 Semester Hours

Research and theories of normal human development from conception through adult maturity, old age, and death. Focus on growth and change in biological, cognitive, and social processes in psychological development. This course is designed for students not majoring in Psychology.

Not open to majors in Psychology.

Junior standing required.

Prerequisite: Grade of C (2.0) or higher in PSYC 100 or 101.

PSYC 357

Language, Mind, and Culture

3 Semester Hours

An introduction to the study of language and literacy in its relationship with culture, mind, and society. The course will explore the diverse ways in which people use language in different cultural and social settings, the role of literacy, and encourage students to reflect on how social and psychological factors may have contributed to the achievement gap in our nation's schools. Under close guidance of the professor, students will develop a project to be implemented for young children at a site impacted by the achievement gap.

Junior standing required.

Prerequisite: Grade of C (2.0) or higher in PSYC 100 or 101.

PSYC 362

Psychology of Religion

3 Semester Hours

Examines the religious experience from a psychological perspective, including methods of developing spiritual awareness, classic writings in the field and review of empirical research.

Junior standing required.

Prerequisite: Grade of C (2.0) or higher in PSYC 100 or 101.

PSYC 363

Psychology of Death and Dying

3 Semester Hours

Theoretical and empirical research on the psychological nature of death and dying in the human life span process will be fully examined.

Lab required.

Junior standing required.

Prerequisite: Grade of C (2.0) or higher in PSYC 100 or 101.

PSYC 364

Psychology of Death and Dying Lab

1 Semester Hour

Companion lab course to PSYC 363. Observation and data collection from various institutions and community settings related to concerns of illness, health maintenance, dying, death, and funerals.

Junior standing required.

Prerequisite: Grade of C (2.0) or higher in PSYC 100 or 101.

PSYC 398**Special Studies***1-4 Semester Hours*

Junior standing required.

Prerequisite: Grade of C (2.0) or higher in PSYC 100 or 101.

PSYC 399**Independent Studies***1-3 Semester Hours*

Junior standing required.

Prerequisite: Grade of C (2.0) or higher in PSYC 100 or 101.

PSYC 401**Cognition***3 Semester Hours*

Contemporary theories and research regarding cognitive processes: perception, pattern recognition, attention, memory, representation of knowledge, mental imagery, psycholinguistics, concept formation, problem-solving, and reasoning. Explores the application of these theories to study skills, education, neuropsychology, psychopathology, cognitive development, intelligence, and computer models of cognition.

Prerequisites: Grade of C (2.0) or higher in each: PSYC 100 or 101, 251, and 261 or 265.

PSYC 402**Learning***3 Semester Hours*

Systematic theories of learning and problem solving in animals and humans, with a discussion of the relation of such theories to theories of psychopathology, education, and psychotherapy.

Prerequisites: Grade of C (2.0) or higher in each: PSYC 401, 410, 415.

PSYC 410**Social Psychology***3 Semester Hours*

Contemporary theories and empirical research related to person perception, affiliation, interpersonal attraction, group structure and dynamics, social influence, attitude change, aggression, prosocial behavior, and prejudice.

Prerequisites: Grade of C (2.0) or higher in each: PSYC 100 or 101, 251, and 261 or 265.

PSYC 415**Lifespan Development***3 Semester Hours*

Research and theories of normal human development from conception through death, with emphasis on changes in physical, cognitive, and social-emotional processes with age.

Prerequisites: Grade of C (2.0) or higher in each: PSYC 100 or 101, 251, and 261 or 265.

PSYC 430**Motivation and Emotion***3 Semester Hours*

Animal and human research related to needs, desires, feelings, and purposes that arouse and direct behavior.

Prerequisites: Grade of C (2.0) or higher in each: PSYC 401, 410, 415.

PSYC 432**Health Psychology***3 Semester Hours*

Explores the relationship between behavioral principles/personality and physical health/illness.

Prerequisites: Grade of C (2.0) or higher in each: PSYC 401, 410, 415.

PSYC 433**Community Psychology***4 Semester Hours*

History and principles of human services delivery systems of community mental and physical health in settings affected by poverty, social discord, and dehumanizing factors in urban living.

Lab required.

Prerequisites: Grade of C (2.0) or higher in each: PSYC 401, 410, 415.

PSYC 436**Personality***3 Semester Hours*

A survey of the major contemporary theories of personality and relevant research and applications related to each theory.

Prerequisites: Grade of C (2.0) or higher in each: PSYC 401, 410, 415.

PSYC 438**Abnormal Psychology***3 Semester Hours*

Causes, diagnosis, and treatment of various mental disorders: schizophrenia, mood disorders, anxiety disorders, personality disorders, childhood disorders, sexual dysfunctions, and other conditions covered in DSM IV-TR.

Prerequisites: Grade of C (2.0) or higher in each: PSYC 401, 410, 415.

PSYC 442**Psychological Assessment***3 Semester Hours*

The use of psychological assessment and testing in the understanding of individual differences. Current theories of individual differences and behavior are studied as well as the use of assessment in the provision of clinical and counseling services.

Prerequisites: Grade of C (2.0) or higher in each: PSYC 401, 410, 415.

PSYC 443**Advanced Statistics***3 Semester Hours*

Advanced statistical methods using computer statistical packages. Topics include factor analysis, multiple regression, and multivariate analysis of variance.

Prerequisites: Grade of C (2.0) or higher in each: PSYC 401, 410, 415.

PSYC 445

Research Practicum

3 Semester Hours

Students design and conduct an experiment or other empirical research in a specific area of psychology. Highly recommended for undergraduates considering graduate school.

Consent of instructor required.

Prerequisites: Grade of B (3.0) or higher in each: PSYC 241, 243, 261, 265; grade of C (2.0) or higher in each: PSYC 401, 410, 415.

PSYC 452

Evolutionary Psychology

3 Semester Hours

Examination of the biosocial development of adaptive behavioral strategies for various classes of behavior including altruism, intergenerational conflict, courtship, parenting, territoriality, sibling rivalry, aggression.

Prerequisites: Grade of C (2.0) or higher in each: PSYC 401, 410, 415.

PSYC 455

Neuropsychology

3 Semester Hours

Clinical neuropsychology; brain damage and organic syndromes, diagnosis, and biological therapies.

Prerequisites: Grade of C (2.0) or higher in each: PSYC 401, 410, 415.

PSYC 456

Psychopharmacology

3 Semester Hours

Study of psychopharmacological prevention, diagnosis, and treatment of mental disorders; secondary focus on psychopharmacodynamics and neurochemistry of drugs which derive their primary effect by acting on the central nervous system.

Prerequisites: Grade of C (2.0) or higher in each: PSYC 401, 410, 415.

PSYC 457

Psycholinguistics Research

3 Semester Hours

Students participate in on-going studies in the areas of speech, language, and reading under the mentorship of the professor. Students study a current research topic in detail, formulate a research hypothesis, design an experiment, and collect and statistically analyze the data. The final product for the course is dissemination of the research report at a major conference and/or submission of the APA-style manuscript to a major journal.

Consent of instructor required.

Prerequisites: Grade of B (3.0) or higher in each: PSYC 241, 243, 261, 265; grade of C (2.0) or higher in each: PSYC 401, 410, 415.

PSYC 458

Psychobiology Research

3 Semester Hours

Students participate in on-going laboratory research on the psychobiology of learning and memory. Emphasis is on theoretical and methodological issues, research design, data collection, analysis, and interpretation.

Consent of instructor required.

Prerequisites: Grade of B (3.0) or higher in each: PSYC 241, 243, 261, 265; grade of C (2.0) or higher in each: PSYC 401, 410, 415.

PSYC 462

Industrial/Organizational Psychology

3 Semester Hours

Human problems in industry and business: motivation, morale, efficiency, human relations, occupational fatigue and rest, accident proneness, human engineering, and leadership.

Prerequisites: Grade of C (2.0) or higher in each: PSYC 401, 410, 415.

PSYC 465

Couple and Family Systems

3 Semester Hours

Imparts an understanding of individuals in systems and introduces the practice of the therapeutic intervention at the couple and family level. Some of the major approaches are critically reviewed, demonstrated, and practiced. Students explore themselves, their own backgrounds and biases, their ability to work therapeutically at the systemic level, and sensitivities relating to cultural and other difference in people from various backgrounds. Covers ethics and professional issues in working with people in systems. Requires participation in self-development exercises such as role-playing, as well as self, peer, and instructor critiques of one's performance.

Prerequisites: Grade of C (2.0) or higher in each: PSYC 401, 410, 415.

PSYC 490

Teaching Internship

1-3 Semester Hours

Guided teaching of undergraduate laboratories. May be repeated for credit.

Prerequisites: Grade of C (2.0) or higher in each: PSYC 401, 410, 415.

PSYC 498

Special Studies

1-3 Semester Hours

Prerequisites: Grade of C (2.0) or higher in each: PSYC 401, 410, 415.

PSYC 499

Independent Studies

1-3 Semester Hours

Prerequisites: Grade of C (2.0) or higher in each: PSYC 401, 410, 415.

PSYC 510

Capstone Course: The History and Future of Psychology

3 Semester Hours

Survey of major trends in philosophy and science culminating in the establishment of scientific psychology, with attention to theories and systems that have influenced psychology to the present time. Review and critique of psychology and the biopsychological model. Future of psychology and its methods and models. Course fulfills capstone requirement.

Senior Psychology majors only.

Prerequisites: All required courses for the major completed or currently in progress.

PSYC 515

Capstone Seminar

3 Semester Hours

Seminar focuses on a faculty-selected topic to be investigated using the biopsychological perspective. The topic of this seminar may be related to the focus of the annual Bellarmine Forum, other major university forum, or a selected issue of current social importance. Students will review and integrate their learning in psychology. Course fulfills capstone requirement.

Senior Psychology majors only.

Prerequisites: All required courses for the major completed or currently in progress.

PSYC 540

Honors Seminar

3 Semester Hours

For departmental Honors-Eligible students, this seminar examines a faculty-selected topic from one or more of the biopsychological perspectives. Students will complete an extensive literature review on the topic.

Senior Psychology majors only.

Consent of Department Chairperson required.

PSYC 545

Honors Research Thesis

3 Semester Hours

Departmental Honors-Eligible students design and conduct empirical research in a specific area of psychology. The completed research report, written in APA style, is the student's Honors Thesis.

Sociology

SOCL 100

Principles of Sociology

3 Semester Hours

Development of the perspectives, concepts, and methodologies needed for objective, analytical thinking about human interaction. Relationships explored in terms of the development of the self through interaction, basic types of social organization, collective behavior, types of institutions, and aspects of the total social system such as social change and population phenomena.

SOCL 105

Cultural Anthropology

3 Semester Hours

An introduction to the social organization and culture of preliterate and modern societies. Major emphasis is on cultural anthropology, a study of how humans have learned to cope with their world, the varieties and similarities of this coping.

SOCL 109

Social Research Methods

3 Semester Hours

An introduction to scientific inquiry and research in the social sciences, with special emphasis on conceptualization and operationalization pro-

cess, various data collection strategies, and the use of computers in data analysis.

Senior Psychology majors only.

PSYC 595

Senior Assessment

0 Semester Hours

Assessment of student learning outcomes in the field of psychology. Includes written examination or some other form of written assessment, completion of survey instruments, senior exit interview, or other forms of end-of-program evaluation. PSYC 595 is offered three times a year (Spring, Summer, and Fall) on a Credit/No Credit basis.

CR/NC grading only.

Lab fee.

Senior Psychology majors only.

Prerequisites: All required courses for the major completed or currently in progress.

PSYC 598

Special Studies

1-3 Semester Hours

Prerequisites: Grade of C (2.0) or higher in each: PSYC 401, 410, 415.

PSYC 599

Independent Studies

1-3 Semester Hours

Students work individually with a selected professor on a specific area of interest. Students who have completed PSYC 445 may wish to conduct further research independently.

Prerequisites: Grade of C (2.0) or higher in each: PSYC 401, 410, 415.

SOCL 210

Elementary Social Statistics

3 Semester Hours

An introduction to basic inferential and descriptive statistics commonly used in the social sciences. Among the topics covered are: table construction; central tendency; variation; probability, sampling distributions, and the normal curve; hypothesis testing; and measures of association.

Recommended to be taken concurrently with SOCL 109.

SOCL 301

Development of Sociological Theory

3 Semester Hours

An introduction to 19th century contributions to sociological thought: Comte, Tocqueville, Marx, Durkheim, Weber, and others are examined within their historical settings.

SOCL 401

Contemporary Theory

3 Semester Hours

A survey of the variety of 20th century sociological perspectives, including symbolic interactionism, ethnomethodology, functionalism, critical theory, and others.

SOCL 495**Sociology Seminar***3 Semester Hours*

Designed as a senior seminar for Sociology majors. Stress will be on organization and integration of sociology studies, bringing together in a meaningful way sociological facts, understandings, and knowledge.

Students must have 90 hours completed at time of registration.

Senior majors only.

Prerequisites: SOCL 109 and SOCL 301 or 401.

I. Deviance and Social Control**SOCL 322****Deviant Behavior***3 Semester Hours*

A social interactionist approach to the study of deviant behavior; an examination of the process whereby society defines and labels an act as deviant, trends in deviance theory, deviant careers, and the mechanisms involved in confronting the label.

SOCL 422**Criminal Justice***3 Semester Hours*

An introduction to the system of criminal justice in contemporary America with a focus on how criminal behavior is processed by the system's agencies: police, courts, and correctional institutions. Legal concerns such as the rights of the accused and due process will also be discussed in terms of their application in each of these areas.

SOCL 423**Criminal Law***3 Semester Hours*

This course examines the criminal law in the U.S. from a sociological perspective, as a set of "social control" processes by which norms are transmitted and enforced. Topics include how the law defines crime and particular forms of crime, drug abuse and alcohol-related crime, and various legal defenses available to the accused.

SOCL 424**Crime and Delinquency***3 Semester Hours*

An introduction to the nature and dynamics of criminal and delinquent behavior from a sociological viewpoint. Topics to be covered: the nature of crime and the criminal law, the measurement of crime, major theories—both historical and contemporary, and patterns of criminal and delinquent behavior.

II. Social Inequality**SOCL 332****Gender and Society***3 Semester Hours*

An examination of processes resulting in socio-cultural sex role differences and the cultural consequences relating to opportunity, power, and prestige in society. An attempt to understand the effects of social organization and change on the status of women and men.

SOCL 333**Men and Masculinities***3 Semester Hours*

An exploration of masculinity through critical examination of men, women, gender, politics, identity, and social change from a social scientific perspective. Topics include: gender socialization, the diversity of masculinities, race and ethnicity, class, age, sexuality, and men's social movements.

SOCL 334**Race and Ethnic Relations***3 Semester Hours*

An examination of the interaction between ethnic and racial minorities and the dominant group in the light of current sociological theories of social conflict and social change.

SOCL 335**Sociology of the Black Community***3 Semester Hours*

A survey of the effects of long-standing discrimination and deprivation upon family structure, occupational patterns, health and education conditions, motivation, and personal as well as group identity. An analysis of the black power concept and its influence upon the concept of Afrocentrism and the focus on community control.

SOCL 336**Social Stratification***3 Semester Hours*

An examination of the historical roots and contemporary patterns of social and economic inequality in the United States. Distribution of income and wealth, social mobility, life chances, education, and race and ethnicity will be discussed.

SOCL 338**Sociology of Racism***3 Semester Hours*

An exploration and examination of the interaction between the major ethnic and racial groups in the United States with emphasis on the current context, the social contact, intergroup conflicts, and social changes affecting the various groups.

III. Urban, Population, and Demographic Processes**SOCL 340****Urban Sociology***3 Semester Hours*

An examination of the basic historical processes which have shaped cities, including spatial differentiation. Topics may include the formation of community, metropolitan deconcentration, urban poverty, housing segregation, and third world urbanization.

SOCL 341**Community***3 Semester Hours*

This course examines a wide range of American community studies, ranging from the 1920s to the present. Primary attention is directed toward an understanding of the scope of change in community structure and process in industrial society.

SOCL 342**Demography and Population Analysis***3 Semester Hours*

An analysis of major international population trends, problems of over-population, and population control, with an introduction to the methods and techniques of demographic and ecological analysis.

SOCL 348

Urban Anthropology

3 Semester Hours

A comparative analysis of urban social relationships. Emphasis is directed to the use of ethnographic methodologies in understanding contemporary American urbanism and to the problems associated with pluralistic urban society.

SOCL 349

Research in Urban Society

3 Semester Hours

An examination of the methodologies and strategies employed by social scientists researching urban society. Case studies and research agendas are drawn from modern and postmodern cities, including metropolitan Los Angeles.

IV. Social Structure, Culture, and Process

SOCL 351

Sociology of Sport

3 Semester Hours

An examination of the social nature of sport in society. Topics may include the interrelation of sport and culture, sport and the socialization process, deviance and violence in sport, sport and race, the status of women in sport, and the political and economic ramifications of sport.

SOCL 352

Political Sociology

3 Semester Hours

An analysis of the relationship between forms of social organization and the exercise of power in society. Among the subjects considered are: types of political regimes, cross-cultural patterns of voting, voluntary associations, social classes, social movements, and revolution.

SOCL 353

Sociology of Emotions

3 Semester Hours

This course examines how culture and society influence our feelings yet also leave us with the ability to change how we feel, individually and collectively.

SOCL 354

Social Organization

3 Semester Hours

The study of large-scale, highly structured groups, such as athletic teams, local school systems, colleges and universities, hospitals, businesses, and governmental agencies.

SOCL 355

Social Psychology

3 Semester Hours

The interrelationships between individual behavior and the larger social order. Language and communication, the self, interaction and interactional strategy, aggression, perception and attribution theory, prejudice and discrimination, and collective behavior.

SOCL 356

Sociology of Law

3 Semester Hours

A survey of the important theoretical and research traditions and recent empirical developments in sociology of law. A variety of law-related topics will be covered, including law and social structure, the economy and culture, law and inequality, law and social control, courts and alternative dispute resolution, and the legal profession.

SOCL 357

Media and Society

3 Semester Hours

An examination of the social role of the media in our lives and our society. Topics include: culture, race, class, and gender, as well as alternative media and the political struggles over social change and the media system.

SOCL 358

Medical Sociology

3 Semester Hours

Development of the field of medical sociology, with emphasis on changing patterns in the health care and delivery systems, doctor-patient relationships, and health care.

SOCL 359

Sociology of Popular Culture

3 Semester Hours

The study of the artifacts of everyday life—newspapers, films, sports, music and such—as important sources of sociological knowledge.

SOCL 454

Religion, Culture, and Society

3 Semester Hours

The study of religion as an expression of culture, its diverse subcultural characteristics as a social institution, and the interrelationships of religion and other social institutions.

V. Family and Life Cycle

SOCL 361

Sociology of Marriage and Families

3 Semester Hours

A study of marriage and family as social institutions, including normative aspects, socialization activities, value orientations, family structures and behavior, and societal influences on families.

SOCL 362

Sociology of Children

3 Semester Hours

A sociological study of the world of children, interactional events in children's activities, and examination of the cultures of children and of adults.

SOCL 363

Concepts and Issues in Aging

3 Semester Hours

A general introduction to the study of physiological, psychological, and sociological aspects of aging. The focus is on the individual in society throughout the adult phase of the lifespan.

SOCL 367**Sociology of Adolescents***3 Semester Hours*

An examination of the adolescent society with particular focus on the high school. Topics to be discussed: peer socializations, cliques and crowd formations, lifestyles, fads and fashions, and changing patterns and relations resulting from globalization.

VI. Globalization**SOCL 370****Social Change***3 Semester Hours*

An examination of the social, economic, and political sources of social change.

SOCL 371**Social Ecology***3 Semester Hours*

An analysis of the interaction and interrelationship of population, natural resources, and environment as they affect social organization and place limits on life on the earth.

SOCL 372**Work and Occupations***3 Semester Hours*

Explores the social dynamics of work and occupations in terms of culture, ideology, race, class, and gender. Topics will include the day-to-day experiences of the workplace, the politics of the economic system, and the social changes related to globalization and the international economy.

SOCL 374**Gender and Migration***3 Semester Hours*

Studies the globe's migrants and how their movements shape gender in their everyday lives, families, and workplaces—as well as ours—and in the global economy.

SOCL 378**International Tourism***3 Semester Hours*

A survey of the social, cultural, economic, and environmental elements of international tourism with special emphasis on the impacts of the expansion of tourism from the developed nation into the less developed realm. Modern trends in tourism, such as ecotourism, are analyzed for their potential costs-benefits and their implications for careers in the tourist industry.

Spanish

All courses are taught in Spanish unless otherwise indicated.

SPAN 101**Elementary Spanish I***3 Semester Hours*

The course emphasizes reading, writing, aural, and oral proficiency in basic Spanish, and respects the diversity within Hispanic cultures. Instruction includes articles, pronouns, regular and irregular verbs (includ-

SOCL 379**Sociology of Immigration***3 Semester Hours*

An investigation into current and historical immigration trends as they encompass the economy, education, language, identity, politics, and culture. There is a particular focus on globalization and Los Angeles as an immigration center.

VII. Special Areas**SOCL 198****Special Studies***1-3 Semester Hours***SOCL 199****Independent Studies***1-3 Semester Hours***SOCL 298****Special Studies***1-3 Semester Hours***SOCL 299****Independent Studies***1-3 Semester Hours***SOCL 398****Special Studies***1-4 Semester Hours***SOCL 399****Independent Studies***1-3 Semester Hours***SOCL 498****Special Studies***1-3 Semester Hours***SOCL 499****Independent Studies***1-3 Semester Hours*

ing reflexive verbs) in the present and the past tenses of the indicative mood, adjectives, and basic vocabulary.

For students with no prior study of Spanish or based on the LMU Placement Exam.

SPAN 102**Elementary Spanish II***3 Semester Hours*

A continuation of SPAN 101. New material studied includes an introduction to the present and present perfect subjunctive, the preterite vs. imperfect tense distinction, passive *se*, uses of *por* and *para*, direct and

indirect object pronouns, past participle, formal commands, comparisons, and additional vocabulary and idioms.

Prerequisite: SPAN 101 or by LMU Placement Exam.

SPAN 198

Special Studies

1-3 Semester Hours

SPAN 199

Independent Studies

1-3 Semester Hours

SPAN 203

Intermediate Spanish I

3 Semester Hours

After a review of SPAN 101 and 102 material, topics include the preterite vs. imperfect tense distinction, the pluperfect indicative tense, the present and present perfect subjunctive contrasted with the indicative mood, commands, and the *ser* vs. *estar* distinction. Coursework includes the discussion of short texts, oral exercises, and medium-length compositions.

Prerequisite: SPAN 102 or by LMU Placement Exam.

SPAN 204

Intermediate Spanish II

3 Semester Hours

Course strengthens the students' receptive and productive skills in Spanish while developing an appreciation and deeper knowledge of Hispanic cultures. As part of the grammatical review, the course covers adverbial conjunctions, indirect speech, "SI" clauses, and other advanced level constructions. Students present oral and written reports in formal Spanish to practice high-frequency linguistic structures.

Prerequisite: SPAN 203 or by LMU Placement Exam.

SPAN 205

Intermediate Spanish II for Latino Students

3 Semester Hours

This course, specially designed for students with a cultural Latino/Hispanic background, is the equivalent of SPAN 204. It strengthens the students' communicative skills in Spanish while developing an appreciation and deeper knowledge of their cultural background. Students are trained to present oral and written reports in formal Spanish, to narrate and describe in paragraphs of connected discourse in high-frequency linguistic structures. They will acquire and demonstrate a solid knowledge of Spanish grammar.

Prerequisite: SPAN 203, or by LMU Placement Exam, or consent of instructor.

SPAN 211

Advanced Conversational Spanish

1-3 Semester Hours

A course designed to permit intermediate students of Spanish to learn and practice communicative strategies, increase their vocabulary, and to become acquainted with Spanish, Latin American, and U.S. Latino cultures. Oral presentations are required.

Credit/No Credit grading.

Prerequisite: SPAN 102 or consent of instructor.

SPAN 298

Special Studies

1-3 Semester Hours

SPAN 299

Independent Studies

1-3 Semester Hours

SPAN 321

Stylistics and Composition

3 Semester Hours

An introduction to writing and editing Spanish compositions. Course work emphasizes the writing process: developing theses, structuring arguments, and generating a clear, cohesive style.

Prerequisite: SPAN 204 or 205, or by LMU Placement Exam.

SPAN 322

Introduction to Hispanic Literatures

3 Semester Hours

A study of theoretical terminology and concepts essential for structural and conceptual analysis of literary works written in Spanish. Students are introduced to literary periods and genres from Spanish and Spanish American authors.

Prerequisite: SPAN 321.

SPAN 331

Survey of Peninsular Spanish Literature

3 Semester Hours

Analysis of some of the most celebrated masterpieces of Spanish literature from the Middle Ages to the present in their historical and cultural contexts.

Prerequisite: SPAN 322 or consent of instructor.

SPAN 332

Survey of Latin American Literature

3 Semester Hours

General survey of texts written by a representative body of Latin American authors from the pre-Columbian period to the present.

Prerequisite: SPAN 322 or consent of instructor.

SPAN 333

Spanish Linguistics I: Sounds and Words

3 Semester Hours

A study of the Spanish sound systems, word formation, and vocabulary. The course provides theoretical tools to analyze Spanish at the phonological and morphological levels. It also includes an exploration of sounds and word use in different varieties of Spanish.

Prerequisite: SPAN 321 or consent of instructor.

SPAN 334

Spanish Linguistics II: Structure and Variation

3 Semester Hours

A study of Spanish language structure, variation, historical change, and the linguistic effects of language contact. Course reading and activities

include discussions of research in syntax, sociolinguistics, and historical linguistics.

Prerequisite: SPAN 333 or consent of instructor.

SPAN 398

Special Studies

1-4 Semester Hours

SPAN 399

Independent Studies

1-3 Semester Hours

SPAN 410

Latin American Cinema

3 Semester Hours

Introduction to elements of film language and aesthetics, field of Latin American Film Studies, and film as Latin American cultural artifact. Course examines how films have responded to issues inherent in or challenged by institutional, political, economic, and socio-cultural pressures in Latin America during the Colonial Period, 19th, and 20th centuries. Critical focus is on discourses of gender, class, politics, and race in representative visual works by and about Latin Americans and U.S. Latinos. Selected screenings, readings, and lecture/discussions.

Prerequisites: SPAN 322 and either SPAN 331 or 332 (preferred).

SPAN 420

Hispanic Cultural Studies

3 Semester Hours

General survey of Iberian, U.S. Latino, and/or pre-Columbian civilizations and the literature of Meso- and South America; the impact of the Encounter with Europe; the Conquest; the Colonial Period; the Independence Era; and modern literary, socio-historical, economic, and political events that have shaped present-day Spanish American cultures.

Prerequisite: SPAN 322 or consent of instructor.

SPAN 432

Spanish of the Americas

3 Semester Hours

The course will begin with a review of changes in modern Spanish in the Americas. It will provide a general introduction to the history and structure of the varieties of Spanish spoken in the New World. Topics to be treated will include the Peninsular origins of New World Spanish, the influence of American languages on Spanish, the features which characterize the different varieties of "New World" Spanish (including U.S. Spanish), and the grammatical and lexical features which distinguish European Spanish from that spoken in the Americas.

Prerequisite: SPAN 333 or consent of instructor.

SPAN 433

Spanish of the United States

3 Semester Hours

This course aims to raise awareness of linguistic contact phenomena, as well as socio-political and ideological research issues underlying the complexity of Spanish in the U.S. Students will be working with a variety of linguistic topics related to the analysis of the Spanish language and its role as a minority language in the U.S. Topics covered are linguistic variation, diglossia, historical perspectives, attitudes towards language, and language planning.

Prerequisite: SPAN 333 or consent of instructor.

SPAN 434

Spanish Language Acquisition

3 Semester Hours

A study of the acquisition of Spanish as first and second language from a linguistic and psycholinguistic perspective. This course provides hands-on experience on the design of a research project on child and/or adult language acquisition of Spanish.

Prerequisite: SPAN 333 or consent of instructor.

SPAN 435

The Sounds of Spanish: Theory and Practice

3 Semester Hours

Study and practice of the sound system of Spanish. This course provides opportunities to explore the organization of the basic sounds in Spanish and discuss the differences between English and Spanish. Students will further develop their pronunciation abilities in Spanish through a lab component, where they will practice phonetic transcription and pronunciation.

Prerequisite: SPAN 333 or consent of instructor.

SPAN 441

Latin American Novel

3 Semester Hours

A comparative study of representative narratives written by Latin American, U.S. Latino/a, and/or other diasporic Spanish-speaking authors during the 19th, 20th, and 21st centuries.

Specific course content depends on the instructor.

Prerequisite: SPAN 322 or consent of instructor.

SPAN 442

Latin American Poetry

3 Semester Hours

Survey and comparative study of Spanish language poetry of the Americas from a variety of historical periods, national origins, and cultural and literary movements.

Specific course content depends on the instructor.

Prerequisite: SPAN 322 or consent of instructor.

SPAN 443

Latin American Women Writers

3 Semester Hours

Survey and comparative study of representative works by Latin American and/or Latina women writers from a variety of historical periods, national origins, and cultural and literary movements.

Specific course content depends on the instructor.

Prerequisite: SPAN 322 or consent of instructor.

SPAN 444

Latin American Drama

3 Semester Hours

An introduction to and comparison of representative works written by Latin American dramatists from a variety of historical periods, national origins, and literary and cultural movements.

Specific course content depends on the instructor.

Prerequisite: SPAN 322 or consent of instructor.

SPAN 445

Latin American Short Story

3 Semester Hours

A comparative and literary study of the short story as well as representative works written by Latin American and/or Latino/a authors from a variety of historical periods, national origins, and literary and cultural movements.

Specific course content depends on the instructor.

Prerequisite: SPAN 322 or consent of instructor.

SPAN 451

Nineteenth-Century Spanish Literature

3 Semester Hours

Analysis of representative literary works and authors of the Spanish 19th century in their historical and cultural contexts through a particular theme and from different perspectives.

Prerequisite: SPAN 322 or consent of instructor.

SPAN 452

Early Modern Spanish Narrative

3 Semester Hours

The course analyzes narrative texts of the early modern period in Spain studied within their historical and cultural contexts. It will pay particular attention to their relevance for modern and contemporary literature.

Prerequisite: SPAN 322 or consent of instructor.

SPAN 453

Twentieth-Century Spanish Literature

3 Semester Hours

Analysis of representative literary works and authors from the Spanish 20th century in their historical and cultural contexts through a particular theme and from different perspectives.

Prerequisite: SPAN 322 or consent of instructor.

SPAN 455

Early Modern Spanish Drama and Poetry

Theological Studies

Lower Division

THST 100

Introduction to the Old Testament

3 Semester Hours

A general introduction to the literary, historical, and religious traditions of the Old Testament.

THST 109

Introduction to Scripture and Prayer

3 Semester Hours

For Jesuit Novices only.

3 Semester Hours

The course analyzes poetic and dramatic works of the early modern period in Spain studied within their historical and cultural contexts. It will pay particular attention to their relevance for modern and contemporary literature.

Prerequisite: SPAN 322 or consent of instructor.

SPAN 457

Spanish Authors

3 Semester Hours

An in-depth study of the work of a specific author, such as Miguel de Cervantes or Federico García Lorca, or a group of authors, such as Spanish women writers.

May be repeated for degree credit, when content varies.

Prerequisite: SPAN 322 or consent of instructor.

SPAN 460

Selected Topics in Spanish Studies

3 Semester Hours

Topics in Peninsular Spanish literature, film, and culture.

May be repeated for degree credit, when content varies.

Prerequisite: SPAN 322 or consent of instructor.

SPAN 498

Special Studies

1-3 Semester Hours

SPAN 499

Independent Studies

1-3 Semester Hours

SPAN 500

Senior Capstone Project

1 Semester Hour

Exit portfolio (for majors only).

Credit/No Credit grading.

THST 110

Introduction to the New Testament

3 Semester Hours

An introduction to the literary, historical, and theological dimensions of the New Testament.

THST 120

The Roots of Catholic Christianity

3 Semester Hours

A study of the Biblical roots of Catholic Christianity based on a critical introduction to the New Testament.

THST 122

Theological Foundations of Catholicism

3 Semester Hours

An introduction to the theological roots of the Roman Catholic Tradition, with attention to the historical and theological development of the Catholic tradition in its cultural contexts.

Required for the Catholic Studies Minor.

(See CATH 122.)

THST 125**Introduction to Global Christianity****3 Semester Hours**

An introduction to the history of Christianity as a global movement, incorporating historical, theological, and social issues in Christianity from both non-western and western perspectives.

THST 131**Introduction to Christian Theology****3 Semester Hours**

Using primary source documents, this course acquaints students with the contents of the Bible, and major areas of theology including revelation, Jesus Christ, God, creation, interreligious dialogue, and ecumenism.

THST 149**Introduction to Christian Spirituality****3 Semester Hours**

For Jesuit Novices only.

THST 150**Belief and Unbelief****3 Semester Hours**

An examination of the various forms of unbelief, the meaning and significance of belief, and the relationship between belief and unbelief.

THST 160**Introduction to Christian Ethics****3 Semester Hours**

An examination of ethical issues in light of Christian scriptures, traditions, and experiences.

THST 170**Christian Faith and American Cultures****3 Semester Hours**

This course explores Christian faith in the diverse cultural context of the contemporary United States.

THST 175**Narratives of Christian Faith****3 Semester Hours**

A study of Christian faith as explored through narratives: a gospel, some saints' lives, and the work of contemporary storytellers.

THST 180**Religions of the World****3 Semester Hours**

An introduction to the history, literature, and thought patterns of the major religions of the world.

THST 198**Special Studies****1-3 Semester Hours****THST 199****Independent Studies****1-3 Semester Hours****THST 241****Liturgy Practicum****1 Semester Hour**

Course objectives are to understand the dynamics of worship and to engage in critical reflection on the experience of liturgical leadership. Students serve in a variety of worship settings.

Permission of instructor required.

Recommended co-requisite: THST 341.

This service learning course may be repeated for credit.

THST 298**Special Studies****1-3 Semester Hours****THST 299****Independent Studies****1-3 Semester Hours****Upper Division****Area A: Sacred Scriptures, Religious Sources, and Traditions****THST 301****Ancient Futures****3 Semester Hours**

This course explores the corpus of Wisdom and Apocalyptic literatures in the Bible and samples of other extant Wisdom and Apocalyptic writings both ancient and modern.

THST 302**Prophecy and Social Justice****3 Semester Hours**

An examination of the Hebrew prophets in the socio-economic and historical context, with particular emphasis on issues of justice. Some considerations of more recent "prophet" figures are included for comparison.

THST 303**The Old Testament in Gospel and Blues****3 Semester Hours**

A survey of Old Testament themes as they relate to the lyrics and themes of African-American gospel music. With attention to the roots of gospel in the blues tradition, this course combines historical, cultural, and biblical analysis.

THST 304**War and Peace in the Bible**

3 Semester Hours

This course considers the development of Biblical and religious reflection on the issues of the Church, war, peace, and Christian nonviolence up to the present.

THST 305

The Four Gospels

3 Semester Hours

A social-historical, literary and theological examination of the Gospels and early Christian and modern interpretations of Jesus.

THST 310

The Gospel of John

3 Semester Hours

An analysis of the interplay among the historical setting, literary development, and theological motifs of the Fourth Gospel.

THST 311

Pauline Epistles

3 Semester Hours

A study of the ministry and message of Paul presented in his letters, accounts in Acts, and deuterio-Pauline epistles.

THST 314

Jesus in Gospel and Film

3 Semester Hours

An exploration of various portraits of Jesus in the Gospels, the identity of the historical Jesus, and contemporary interpretations of Jesus in various films.

THST 320

History of Christianity I

3 Semester Hours

Selected themes treating major problem areas in the history of Christian life and thought from its origins to the end of the high Middle Ages.

THST 321

History of Christianity II

3 Semester Hours

Selected themes treating major problem areas in the history of Christian life and thought from the end of the high Middle Ages to the present.

THST 322

Greek Orthodox Tradition

3 Semester Hours

A review of the unbroken dogmatic tradition of the Greek Orthodox Church, her liturgy, and her place in the religious life of the United States.

Sponsored by the Basil P. Caloyeras Center for Modern Greek Studies.

THST 323

Celtic Christianity

3 Semester Hours

An examination of the inculturation of Christianity into the Celtic worldview from the fifth to eleventh centuries, including Celtic monasticism, liturgy, literature, art, and spirituality.

THST 324

Women in Christian History

3 Semester Hours

An historical investigation of Christian theology of woman: what theologians said about women; what women said about themselves, and what they accomplished.

THST 326

Catholicism: The American Experience

3 Semester Hours

A study of the diverse experiences in U.S. Catholicism with emphasis on the theological implications of American Catholic responses to a pluralistic society.

THST 328

Age of Reformation

3 Semester Hours

The religious, political, and cultural upheaval of the protestant challenge to medieval Christendom and Catholic response.

Usually taught in Bonn, Germany.

THST 401

Gospel of Mark

3 Semester Hours

A comprehensive verse by verse exegesis of the Gospel of Mark. Students will situate the Gospel of Mark within the Early Christian genre of gospel and place it in conversation with the other Synoptic Gospels.

THST majors/minors only.

THST 415

New Testament Theology

3 Semester Hours

An examination of various historical, literary, theological, and ethical issues in the interpretation of the New Testament, especially the Gospels and the Pauline epistles.

THST 420

Early Christian Theology

3 Semester Hours

A study of the development of Christian theology from the Apostolic Fathers through the period of the Cappadocians to the era of Jerome and Augustine.

THST major/minors only.

THST 421

Medieval Religious Thought and Practice

3 Semester Hours

An introduction to Christian thought and practice in the late Middle Ages through a detailed consideration of select topics: God; Saints; Mary; Demons, Body and Soul; Rituals (especially the eucharist); Death and the Afterlife.

THST majors/minors only.

THST 422

Heresy and Mysticism

3 Semester Hours

An examination of medieval heretics' and mystics' contribution to the richness of their traditions. This class emphasizes issues of gender, authority, class, and culture, tracing developments of heresy and mysticism from late antiquity through the Middle Ages.

THST majors/minors only.

THST 425

Medieval Theology

3 Semester Hours

Selected topics on medieval theology such as the development of a specifically Christian culture, the tensions between religion and empire and between popular and institutional forms of religious expression, and monastic and scholastic theological methods.

THST 427

Theology and History of Vatican II

3 Semester Hours

This course explores Roman Catholic theology by reading the major Conciliar documents and analyzing the social and historical context, with emphasis on ecumenism, historical understanding, and the recovery of the biblical tradition.

THST 432

Dante's Inferno

3 Semester Hours

An exploration of Dante's vision of hell and humanity in the *Inferno* through a close reading of the text in translation. We highlight the theological significance of Dante's poem and focus on its literary and political aspects.

THST majors/minors only.

THST 481

Islam in the Modern World

3 Semester Hours

An introduction to the contemporary Islamic religious tradition, including Muslim approaches to modernity, major reformers of Islam in the modern world, Muslim feminism, and the role of Islam in North America.

THST majors/minors only.

Area B: Theology, Ethics, and Spirituality

THST 330

What Is Faith in Christ?

3 Semester Hours

An analysis of past and present meanings of Christian faith in its relation to the person of Jesus Christ, the Church, doctrine, and Christian life.

THST 332

Friends of God, Fools for Christ

3 Semester Hours

A study of the Christian notion of sanctity in the Catholic, Orthodox, and Protestant traditions, with attention to ancient, medieval, and modern saints' lives. We investigate how the shape of holiness has varied according to time and context.

THST 345

The Catholic Church of Today and Tomorrow

3 Semester Hours

An examination of the post-Vatican II Catholic Church. How has the Church's self-understanding changed in recent years, and what projections can be made for the future?

THST 350

Foundations of Christian Spirituality

3 Semester Hours

An analysis of themes central to Christian spirituality including prayer, the nature of religious experience, asceticism and the schools of spirituality. Essential to the analysis is an articulation of key doctrinal themes.

THST 352

Orthodox Christian Spirituality

3 Semester Hours

The history of the monastic life of the desert fathers and the spiritual tradition of Easter Christianity will be examined and made relevant to the present-day world.

THST 355

After Eden

3 Semester Hours

An exploration of the human person in relation to God.

THST 359

Theology of Religious Life

3 Semester Hours

For Jesuit Novices only.

THST 360

Moral Issues and Christian Responses

3 Semester Hours

An exploration of the issues involved in a variety of moral problems and a survey of present and past Christian responses to them.

THST 361

Christian Ethics in the Marketplace

3 Semester Hours

An analysis and discussion of business ethics case studies in the light of Christian economic teachings.

THST 363

Christian Marriage and Sexuality

3 Semester Hours

An examination of the varieties of Christian views of marriage and the full range of moral issues concerning human sexuality today.

THST 367

Christian Voices on War and Peace

3 Semester Hours

An examination of Christian attitudes toward war and peace that address U.S. policies during the twentieth century and beyond.

THST 368

Bioethics: A Theological Introduction

3 Semester Hours

This course provides an overview of the basic themes of contemporary bioethics with a theological emphasis. Topics include medical research,

genetics, assisted reproductive technologies, abortion, euthanasia and assisted suicide, xenotransplantation and organ donation.

THST 381

Contemporary Judaism and Its Historical Background

3 Semester Hours

An understanding of Jewish beliefs and practices, their Biblical and historical roots, their theological and cultural motivations.

Sponsored by the Jewish Chautauqua Society.

THST 382

Religions of India

3 Semester Hours

An exploration of the cultural/historical background and theological insight of Hinduism and Jainism. Sikhism, Christianity, and Islam in India are also discussed.

THST 383

Religions of the Near East

3 Semester Hours

An overview of the history, theology, and interactions of Judaism, Christianity, and Islam, both in their Middle Eastern and global contexts.

THST 384

Religions of East Asia

3 Semester Hours

The history and development of Confucianism, Taoism, Tibetan and Zen Buddhism, and Shinto, emphasizing primary textual sources. Islam and Christianity in East Asia will also be discussed.

THST 385

Buddhism

3 Semester Hours

A survey of the history of Buddhism in India and Southeast Asia, China, Japan, Tibet, and North America. Discussion of Buddhism's contributions to social ethics, ecological concern, and dialogue with Christianity.

THST 386

Islam

3 Semester Hours

This course will introduce students to the religion of Islam. Key topics will be Muhammad and the Qur'an, Islamic religious practices, the Sunni-Shi'i split, Sufism, Islam in North America, and the Christian-Muslim dialogue.

THST 387

World Religions and Ecology

3 Semester Hours

In this course, we will discuss how the world's religious traditions approach the topic of the relationship between ecological and religious values.

THST 430

Christology

3 Semester Hours

An investigation of the Christology of the New Testament, the early councils, and contemporary issues in Christology.

THST 431

Rahner

3 Semester Hours

A study of the life, context, and theology of Karl Rahner.

THST 433

Theotokos

3 Semester Hours

This course examines the theology of the Mother of God, from its biblical foundations, through the patristic and medieval periods, into the modern appropriations of Mariology by Protestant and feminist scholars.

THST majors/minors only.

THST 434

The Art and Theology of the Icon

3 Semester Hours

The course traces the origins of Christian iconography, examining the theological controversies which shaped the icon tradition, leading students to read the subtle and rich theological messages encoded in these mysterious images.

THST majors/minors only.

THST 450

Topics in Christian Spirituality

3 Semester Hours

A survey of key persons and movements in the history of Western Christian spirituality.

THST 455

Theology of Liberation

3 Semester Hours

A study of recent Latin American theology as a Christian response to current political, social, and economic injustice in Latin American countries.

THST 460

Christian Ethics and Social Responsibility

3 Semester Hours

This course critically examines biblical, theological, and ethical texts related to social responsibility in light of contemporary issues.

THST majors/minors only.

THST 461

Christian Ethics and HIV/AIDS

3 Semester Hours

This course analyzes how distinct approaches and sources in Christian ethics, including elements of scripture, tradition, sexual ethics, virtue ethics, and social ethics interact as they relate to confronting the AIDS crisis.

THST majors/minors only.

THST 470

Topics in Theological Ethics

3 Semester Hours

An exploration of the history and methods of theological ethics with analysis of contemporary moral issues.

THST 480

Topics in Comparative Theology

3 Semester Hours

Multiple religious perspectives will be utilized in this course to explore one or more topics of theological concern, such as violence and nonviolence, myth and symbol, modes of spirituality, images of God, and/or multicultural religious presence in Los Angeles.

THST 482

Hindu and Jaina Theology

3 Semester Hours

In this course we study in depth primary sources of these two traditions, including the *Rig Veda*, the Upanisads, the *Yoga Sutra*, and the *Tattvarthasutra*.

THST majors/minors only.

THST 495

Seminar: Major Christian Thinker

3 Semester Hours

An examination of the theological work of one major thinker, studying the work both as an integrated theological statement and as a part of continuing theological dialogue.

This course may be repeated for credit.

Area C: Faith, Culture, and Ministry

THST 307

Interpreting Jesus

3 Semester Hours

This course takes a close look at the conversation between the Jesus of the Gospels and contemporary embodiments of his Ministry. Community-based learning component required.

THST 331

Salvation and Liberation

3 Semester Hours

An examination of the theme of liberation in Scripture, church history, and the recent theologies, as well as its impact on our own lives.

THST 340

Word, Water, and Wine

3 Semester Hours

An introduction to the phenomenon and power of ritual and symbolic activity, with particular emphasis on how these provide a foundation for understanding Christian rituals and sacraments.

THST 341

Liturgy and Culture

3 Semester Hours

A study of Christian worship examining the historical development of worship in its interaction with various cultures from ancient to modern.

THST 346

The Latino Experience in the U.S. Church

3 Semester Hours

A review of the Latino presence in the Catholic Church with emphasis on the historical experience, Latino popular religion and current trends and issues in Hispanic ministry and theology.

THST 348

African American Religious Experience

3 Semester Hours

A survey of African American religious experience from the time of slavery to the present, emphasizing the role of faith in African American society and the role of the church in the struggle for equality.

THST 373

Catholic Social Teaching and Action

3 Semester Hours

This course examines Catholic social teaching thematically, focusing on such principles as human dignity, solidarity, the common good, and the option for the poor; contemporary activist groups are also studied as part of the living tradition of Catholic social teaching.

This course requires a weekly community service placement where the student will perform at least 20 hours of service during the semester.

THST 388

Women and Religion

3 Semester Hours

This course approaches various world religions through a focus on women in those traditions, exploring these religions as they affect and are affected by women.

THST 389

Asian Christianities

3 Semester Hours

This course examines varieties of Christian expressions in West, South, East, Southeast Asia and the Pacific, and the complex issues that impact these communities.

THST 390

Meeting Christ in Faith and Art

3 Semester Hours

An exploration of the development and key issues surrounding Christianity's understanding of Jesus as Christ through the joint engagement of theology, theological aesthetics and the arts.

THST 435

Eucharistic Theology

3 Semester Hours

An in-depth study of the theology of the Eucharist from an ecumenical perspective, highlighting the teaching of the Roman Catholic Church.

THST 451

Ignatian Spirituality

3 Semester Hours

A study of the spirituality of Ignatius of Loyola based on a close reading of his Spiritual Exercises and contemporary writings on Ignatian themes.

THST 471

Ministry to Youth and Young Adults

3 Semester Hours

The course examines the theory and practice of ministry with and for youth and young adults, with emphasis on faith development, community building, justice and service education, advocacy, and guidance of youth and young adults.

THST majors/minors only.

THST 497

Youth and Young Adult Ministry

3 Semester Hours

The course examines the theory and practice of ministry to youth and young adults, emphasizing faith development, community building, justice and service education, advocacy, and guidance of youth and young adults.

Special Courses

THST 398

Special Studies

1-4 Semester Hours

THST 399

Independent Studies

1-3 Semester Hours

THST 496

Senior Integration Seminar

3 Semester Hours

The course stresses the integration of the various dimensions and methods of Theological Studies.

Senior standing required.

THST majors and minors only.

THST 498

Special Studies

1-3 Semester Hours

THST 499

Independent Studies

1-3 Semester Hours

Graduate Courses

Biblical Theology

THST 600

Foundations of New Testament Theology

3 Semester Hours

This course presents critical issues in current biblical interpretation of the New Testament. In particular, attention is given to the significance of historical, literary, social, and theological aspects of the New Testament writings, as well as to contemporary interpretive methodologies and the pastoral dimensions of interpretation.

THST 603

Foundations of Old Testament Theology

3 Semester Hours

This course examines central issues in the interpretation of the Hebrew Bible, with attention to sociological, historical, literary, and theological dimensions of the Hebrew Bible, as well as the methodology of interpretation.

THST 607

Topics in the Gospels

3 Semester Hours

This course explores aspects of contemporary studies of the Gospels, focusing on one of the canonical Gospels and its relations to other canonical and non-canonical Gospels, with attention to the search for the historical Jesus, the investigation of the Evangelist's communities and traditions, and later theological appropriations of the Gospels.

This course may be repeated for credit.

THST 609

Paul the Apostle

3 Semester Hours

This course explores the life and letters of Paul in their historical, literary, social, and theological contexts, as well as issues in contemporary interpretation of Pauline theology.

World Religions

THST 612

Hinduism: Vedanta and Yoga

3 Semester Hours

This course investigates primary sources, including the *Rig Veda*, the Upanishads, the *Bhagavad Gita*, and the *Yoga Sutra*.

THST 613

Buddhism and Jainism

3 Semester Hours

This course studies primary texts and history of Buddhism and Jainism, with emphasis on theological praxis.

THST 615

Classics of Chinese Philosophy

3 Semester Hours

(See PHIL 606.)

THST 619

Readings in Religious Literature

3 Semester Hours

This course entails the reading of primary texts in the original language.

May be repeated twice for degree credit.

Historical Theology

THST 620

Foundations of Historical Theology

3 Semester Hours

A study of the specific role which historical investigation plays in constructive and critical theology; this study uses, as its major case study, the development of the Christian doctrine of God and Christ as articulated in the classical period and developed up to the scholastic period.

THST 621**Patristic Theology***3 Semester Hours*

The emergence of theology in pastoral and liturgical reflection on the biblical tradition in the first six centuries of the church's life: theology from the time of Ignatius of Antioch to Gregory the Great.

THST 623**History of Christian Spirituality***3 Semester Hours*

This course will explore the rich and complex tradition of Christian spirituality, with a particular focus on the unfolding quest for wisdom within that tradition. Particular attention will be given to a) developing a critical approach to the study of Christian spirituality, b) understanding the relationship of spirituality and history, c) cultivating the art of reading classic spiritual texts, and d) retrieving classic themes of spirituality for contemporary use.

THST 625**Medieval Theology***3 Semester Hours*

An introductory survey beginning with Bede's retrieval and transformation of the patristic legacy and ending with the dissolution of the scholastic tradition.

Systematic Theology**THST 630****Introduction to Systematic Theology***3 Semester Hours*

This course investigates how theology attempts to translate the Christian message into new situations. Theological issues include revelation, faith, God and trinity, christology, the church, sin and grace, and sacramental and liturgical theology. Attention is given to their historical development as well as their contemporary significance, particularly in light of philosophical, cultural, and religious pluralism.

THST 631**Christology***3 Semester Hours*

An historical and systematic investigation of the Christian understanding of Jesus Christ and his significance for salvation. Topics include the historical Jesus, the Christ of faith, New Testament christology, the early christological councils, the historical development of philosophical christology, and contemporary christologies.

THST 632**Issues in Christian Spirituality***3 Semester Hours*

This course examines some of the issues of contemporary Christian spirituality in the light of how certain exemplary Christians in earlier ages envisioned them. Questions such as the nature of spirituality, the integration of a contemplative attitude in life activity, Christian freedom, images of God and the role of culture in the formation of spirituality are addressed.

THST 640**Issues in the Contemporary Church***3 Semester Hours*

This course explores various ecclesiological and theological issues in the contemporary church, such as theologies of the church, authority and its

exercise, ordained and unordained ministry, women in the church, ecumenism and the church of tomorrow.

THST 643**Feminist Theology***3 Semester Hours*

A study of feminist theology from its historical antecedents to its roots in the changing experience of women. It considers the essential methodologies of feminism, important feminist theologians, and the contributions of feminism to contemporary theology as a whole.

THST 650**Liturgical Theology: History and Interpretation***3 Semester Hours*

This course examines the foundational period of the early church as the setting for the establishment of liturgy and its synthesis with culture. The methodology involves an exploration of liturgy in particular cultural contexts, including the important Christian centers of Jerusalem, Antioch, North Africa, Rome, and Constantinople, and the contemporary theological implications of these developments.

THST 652**The Rites***3 Semester Hours*

This course will survey several of the seven official sacraments of the Roman Catholic Church in both their historical development and their liturgical practice, focusing on five in any given semester.

THST 653**Sacraments and Sacramentality***3 Semester Hours*

An in-depth study of the theology of Christian sacraments and the symbolization of divine grace.

Moral Theology**THST 660****Foundations of Theological Ethics***3 Semester Hours*

This course familiarizes students with the language of Christian moral discourse. By focusing on methodological issues and the sources informing Christians about their moral life, students identify the complex personal dynamics of being and becoming Christian.

THST 661**Catholic Social Teachings***3 Semester Hours*

A study of the last one hundred years of Catholic social teachings, including papal encyclicals from Leo XIII to John Paul II, conciliar documents from Vatican II, and statements and letters issued by episcopal conferences and episcopal synods.

Prerequisite: THST 660.

THST 662**Issues in Moral Theology Today***3 Semester Hours*

This course examines the writings of rival moral theologians today and their competing perspectives. Particular practical problems to be discussed vary and may include business ethics, sexual ethics, war and peace, and social ethics.

Prerequisite: THST 660.

THST 663

Issues in Bioethics

3 Semester Hours

This course will introduce the student to the basic theological concepts, frameworks, and analyses that have been used by both Catholic and Protestant theologians in their discussions of bioethics. Topics such as assisted reproductive technologies, abortion, genetic control, care of severely handicapped neonates, death and dying, and the meaning and application of "quality of life" to contemporary issues will be discussed in both lecture and seminar formats.

Pastoral Theology

THST 670

Foundations of Pastoral Theology

3 Semester Hours

A review of the biblical, historical and theological sources for constructing a theology of pastoral ministry which is appropriate to various contemporary pastoral settings and functions. The relationship between pastoral theology and other branches of theology is considered.

THST 671

Pastoral Approaches to Religious Education

3 Semester Hours

An exploration of, and reflection on, the history and theory of Christian religious education, treating the relationship between religious education and allied fields of pastoral care, liturgy, justice and service activities which serve to foster the development of faith.

THST 672

Skills for Pastoral Ministry

3 Semester Hours

This course, involving both theoretical and experiential learning, focuses on personal and interpersonal dynamics and skills that foster effective pastoral ministry. Topics include the spiritual formation of ministers, collaborative ministry, facilitating prayer, and a generic helping process for spiritual direction, pastoral counseling, and formation in various pastoral settings.

THST 673

Faith and Culture

3 Semester Hours

An exploration of the nature of faith and culture and their interrelationship. An analysis of interculturalism and its relevance to ministry and pastoral care in church and society.

THST 674

Theory and Practice of Pastoral Leadership

3 Semester Hours

This course offers the student an exploration of theories that can inform pastoral leaders about the exercise of effective leadership in pastoral settings and communities of faith. The course is an elective open to all students, but is required for the Concentration in Pastoral Leadership in the M.A. in Pastoral Theology.

THST 675

Spiritual Formation for Pastoral Ministry

3 Semester Hours

This seminar seeks to foster a stronger link between academic learning and the personal and professional concerns of students especially as related to pastoral ministry.

THST 676

Pastoral Synthesis Project

0 Semester Hours

The project is designed to elicit familiarity with scholarly sources and pastoral analysis of issues that impact the contemporary practice of ministry.

THST 677

Pastoral Liturgy

3 Semester Hours

This course examines the role of liturgy in the lives of Christians and their communities, exploring the tensions between liturgical norms and liturgy as practiced and experienced.

THST 678

The Theology of the Parish

3 Semester Hours

This course focuses on the history, theology, and practice of Roman Catholic parishes in the United States. As an exercise in practical theology, students reflect on the lived practices in parishes and the theology of the church that emerges therefrom.

THST 679

Special Topics in Pastoral Theology

3 Semester Hours

Comparative Theology

THST 680

Comparative Theology

3 Semester Hours

This course provides a review of the historical roots of the current situation of religious pluralism. It examines and evaluates relevant methodological proposals for comparative theology and clarifies the relationship of comparative theology to interreligious dialogue, the history of religions and the Christian theology of religions. It also offers an opportunity to engage in the practice of comparative theology through the interpretation of texts.

THST 681

Comparative Religious Ethics

3 Semester Hours

This course begins with a comparative survey of ethics as found in the world's religious traditions. Specific issues such as war and peace, euthanasia, and environmentalism are then examined.

THST 682

Comparative Mysticism

3 Semester Hours

In this course, Christian mysticism as found in the writings of Teresa of Avila and Meister Eckhart is compared and contrasted with the interior traditions of India and East Asia, including Samkhya, Yoga, Taoism, and Yogacara Buddhism.

Spiritual Direction

THST 685

The Theory and Practice of Spiritual Direction

3 Semester Hours

This course seeks to further the student's understanding of spiritual direction as a form of pastoral care and as a helping relationship. Among the topics to be considered are: various forms of spiritual guidance within the Christian tradition, the distinctive nature of spiritual direction, the qualities and skills required to be an effective spiritual director, and the role of spiritual direction in facilitating spiritual growth and development.

THST 686

Ignatian Spirituality and Discernment

3 Semester Hours

This course seeks to further the student's understanding of the spirituality of Ignatius of Loyola by a close reading of his spiritual classic, *The Spiritual Exercises*, and by a study of contemporary writing on Ignatian spirituality. Praxis, the reflection upon experience, is a central aspect of this course and reflects the hypothesis that some of the dynamics of the Spiritual Exercises can be experienced by individuals in a group learning situation when they are approached in a critical and prayerful way.

THST 687

Psychological Foundations of Spiritual Direction

3 Semester Hours

This course focuses on the psychological dynamics of spiritual direction as a helping relationship, as well as the cultivation of communication skills needed to be an effective spiritual director. Principal topics to be covered include the following: how spiritual direction differs from psychotherapy; the importance of self-knowledge and personal awareness on the part of helpers; the nature of empathic understanding and its relationship to psychological and spiritual growth; basic counseling skills.

THST 688

Practicum and Supervision in Spiritual Direction

3 Semester Hours

The art of spiritual direction is best fostered through practice and reflection on that practice in a supervisory setting. This course will give students an opportunity to grow in spiritual direction skills, self-awareness, and interior freedom under the guidance of experienced spiritual directors.

Special Studies

THST 690

Directed Research

1-3 Semester Hours

Through selected readings and individually directed study, a student can concentrate in a specific field of research or area of ministry. This course is designed for those students whose particular needs would not be adequately met through other course offerings.

THST 691

Pastoral Synthesis Seminar

0-3 Semester Hours

Urban Studies

URBN 125

Urban Physical Environment

3 Semester Hours

THST 692

Graduate Pro-Seminar

3 Semester Hours

The pro-seminar provides an orientation to various theological methods, tools, and modes of discourse in theological and pastoral studies (biblical, historical, systematic, moral, comparative, and pastoral theology).

THST 693

Thesis and Thesis Seminar

3 Semester Hours

For those Theology M.A. candidates who choose to submit a thesis to complete their requirements for the Thesis Option. The Thesis Seminar will meet regularly to facilitate the progress of the thesis.

(Offered in Fall only.)

THST 694

Thesis and Thesis Seminar

3 Semester Hours

For those Theology M.A. candidates who choose to submit a thesis to complete their requirements for the Thesis Option. The Thesis Seminar will meet regularly to facilitate the progress of the thesis.

(Offered in Spring only.)

THST 695

Comprehensive Exam Seminar

3 Semester Hours

THST 696

Research and Writing Seminar

3 Semester Hours

THST 697

Comprehensive Exam

0 Semester Hours

Comprehensive Exams are offered in the first week of November and the first week of April. Students must register for THST 697 and inform the Graduate Director, in writing, in the first week of the semester, their intention to complete their comprehensive exams.

THST 698

Special Studies

1-3 Semester Hours

THST 699

Independent Studies

1-3 Semester Hours

An introduction to the physical-biotic and structural consequences of urbanization. The internal structure of contemporary American cities is emphasized.

URBN 135

Urban Social Environment

3 Semester Hours

An introduction to the social, economic, political, and spatial developments associated with urbanization and a pluralistic society. The nature of contemporary American urbanism is emphasized.

URBN 198

Special Studies

1-3 Semester Hours

URBN 199

Independent Studies

1-3 Semester Hours

URBN 298

Special Studies

1-3 Semester Hours

URBN 299

Independent Studies

1-3 Semester Hours

URBN 345

Urban Planning

3 Semester Hours

An introduction to the problems, principles, and practices of modern urban planning.

URBN 347

Community Development

3 Semester Hours

An exploration of the meanings and methodologies of community development, especially in contemporary urban America.

URBN 349

Research in Urban Society

3 Semester Hours

(See SOCL 349.)

URBN 365

Metropolitan Los Angeles

Women's Studies

WNST 100

Introduction to Women's Studies

3 Semester Hours

An interdisciplinary study of women in society oriented toward exploring women's experiences in a variety of contexts. Topics covered include biology, sociology, psychology, politics, economics, religion, philosophy, history, literature and language, law, and culture. Course content is focused on North America and is multicultural.

Satisfies social science core requirement.

WNST 101

Women of Color in the U.S.

3 Semester Hours

An overview of the social, economic, political, environmental, and spatial characteristics and dynamics of metropolitan Los Angeles in the context of contemporary urbanization in the United States.

URBN 398

Special Studies

1-4 Semester Hours

URBN 399

Independent Studies

1-3 Semester Hours

URBN 455

Urban Internship

3 Semester Hours

A supervised internship in public administration, social service, urban planning, or law enforcement. Individual assignments are made on the basis of the interns academic preparation and career aspirations.

Approval of the Program Director required.

URBN 456

Senior Project

3 Semester Hours

Directed research on a specific urban topic in the social sciences, natural sciences, business administration, and/or arts and humanities incorporating methodologies of primary and secondary research, and/or participant observation.

Senior standing required.

Prerequisite: URBN 455.

URBN 498

Special Studies

1-3 Semester Hours

URBN 499

Independent Studies

1-3 Semester Hours

3 Semester Hours

An introduction to critical thinking skills about concepts such as gender, race, class, and sexuality, how these intersect in lives of women of color together with women's strategies of surviving, resisting, and overcoming barriers.

Satisfies American Cultures core requirement.

WNST 198

Special Studies

1-3 Semester Hours

WNST 199

Independent Studies

1-3 Semester Hours

WNST 200

Women in Global Communities

3 Semester Hours

This course introduces students to the cultural, social, political, and economic contexts in which non-Western women live. It addresses the impact of globalization, colonialization, and post-coloniality, and women's responses to these processes.

WNST 220

Women's Bodies, Health, and Sexuality

3 Semester Hours

This course addresses women's health and sexuality from a feminist perspective. It also deals with body images not only from the perspective of health but also in terms of their relationship to structures of power.

WNST 221

Mathematics: Contributions by Women

3 Semester Hours

(See MATH 261.)

WNST 222

Human Reproduction and Development

3 Semester Hours

(See BIOL 271.)

WNST 298

Special Studies

1-3 Semester Hours

WNST 299

Independent Studies

1-3 Semester Hours

WNST 301

Feminist Theories

3 Semester Hours

Focuses on the historical roots of feminist political thought in relation to other social movements. Examines the intellectual traditions within feminist theory today such as postmodernism, psychoanalysis, postcolonial theory, queer theory, and the intersectional analyses produced by women of color.

Normally offered in the Fall semester.

WNST 302

Investigating Women: Feminist Research Methods

3 Semester Hours

Examines feminist methodologies through hands-on research and considers the complex relationships between researchers and their subjects, the impact of social location on our field of vision, ethical issues in the research process, as well as research that facilitates social and gender justice.

Normally offered in the Spring semester.

WNST 303

History of Feminisms

3 Semester Hours

This course traces the development of feminist theories as structures of ideas and relates them to the historical contexts and feminist movements in which they developed.

WNST 311

Gender Communication

3 Semester Hours

(See CMST 335.)

WNST 331

The Image of Woman In Nineteenth-Century England

3 Semester Hours

(See ENGL 342.)

WNST 332

Twentieth-Century Women's Writing

3 Semester Hours

(See ENGL 343.)

WNST 334

Italian Women Writers

3 Semester Hours

(See ITAL 380.)

WNST 335

Literature by Women of Color

3 Semester Hours

The course explores contemporary literature by women of color in the United States and their immigrant experiences. It attends to the ways that authors imaginatively use genres to represent and challenge gender and race construction.

WNST 336

Angels and Demons

3 Semester Hours

(See MDGK 343.)

WNST 337

Out of Control: Women, Madness, and the Cultural Imagination

3 Semester Hours

(See MDGK 346.)

WNST 341

Black Identities, Families, and Cultures

3 Semester Hours

(See AFAM 301.)

WNST 342

Chicanas and Other Latinas in the U.S.

3 Semester Hours

(See CHST 302.)

WNST 343**Hip Hop Culture***3 Semester Hours*

(See AFAM 397.)

WNST 344**Gender and Society***3 Semester Hours*

(See SOCL 332.)

WNST 345**Sociology of Marriage and Families***3 Semester Hours*

(See SOCL 361.)

WNST 346**Women in the Middle East***3 Semester Hours*

This course explores the themes and variations in women's lives in the Middle East. Particular attention will be paid to family structures, rural-urban, social class and ethnic differences, social and political movements, religion, work, and education.

WNST 347**Women's Movements in Latin America and the Caribbean***3 Semester Hours*

Examines feminisms and women's participation in indigenous, environmental, and labor movements, Christian-based communities, peasant struggles, and new social movements concerned with race, sexuality, feminism, and human rights.

WNST 348**Men and Masculinities***3 Semester Hours*

(See SOCL 333.)

WNST 349**Ethnicity, Race, and Gender***3 Semester Hours*

This course is an exploration of the ways in which gender, race, ethnicity, and class intersect to shape individuals' life chances and experiences in the contemporary United States. The following areas will be emphasized: income and occupation, the justice system, social reputation and credibility, religion, education, and health. Treatment of these topics will be analytical and comparative, focusing on the experiences of African Americans, Latinas/os, and European-Americans.

Satisfies American Cultures core requirement.

Prerequisites: SOCL 100; WNST 100 or 101.

WNST 351**Genders and Sexualities***3 Semester Hours*

This course explores the relationship between sexuality and gender as well as a diversity of sexual identities. It focuses on issues of the body, sex, nature, and power within the context of history, culture, and public policy.

WNST 361**Women in Christian History***3 Semester Hours*

(See THST 324.)

WNST 362**Women in European History***3 Semester Hours*

(See HIST 335.)

WNST 363**American Reform Movements***3 Semester Hours*

(See HIST 351.)

WNST 364**Women in American History***3 Semester Hours*

(See HIST 354.)

WNST 366**The American Family***3 Semester Hours*

(See HIST 356.)

WNST 370**Feminist Theory***3 Semester Hours*

(See PHIL 333.)

WNST 371**Images of Women in Philosophy***3 Semester Hours*

(See PHIL 334.)

WNST 372**Guadalupe, Queen of the Américas***3 Semester Hours*

(See CHST 310.)

WNST 373**Women and Religion***3 Semester Hours*

(See THST 388.)

WNST 398**Special Studies***1-4 Semester Hours***WNST 399****Independent Studies***1-3 Semester Hours*

WNST 411

Women in Film

3 Semester Hours
(See FTVS 473.)

WNST 430

Women in French

3 Semester Hours
(See FREN 432.)

WNST 431

Latin American Women Writers

3 Semester Hours
(See SPAN 443.)

WNST 440

Asian Pacific American Women's Experience

3 Semester Hours
(See APAM 435.)

WNST 445

Sex, Race, and Violence

3 Semester Hours
(See AFAM 435.)

WNST 451

Women and Politics

3 Semester Hours
(See POLS 438.)

WNST 452

Gender in Comparative Perspective

3 Semester Hours

Within a cross-cultural and cross-societal framework, gender roles are examined in relation to a central question: why does patriarchy exist? Case studies from the Americas, Europe, Africa, Asia, and Oceania are examined in light of theories addressing the course's central question. Work, kinship, values, religion, and politics are among the topics examined.

WNST 453

Latina Feminist Traditions

3 Semester Hours
(See CHST 404.)

WNST 454

Gender and Globalization

3 Semester Hours

Examines how gender is shaped by globalization through the feminization of labor and migration, environmental degradation, diaspora, sexuality, cultural displacement, and militarization. Explores the ways women have confronted these conditions as well as the possibilities and challenges of cross-border feminist coalitions.

WNST 461

Sex and Gender in Classical Antiquity

3 Semester Hours

(See CLCV 452.)

WNST 490

Service Learning in Women's Studies

3 Semester Hours

The internship in Women's Studies combines practical experience and feminist theory through the theme of women's empowerment. Students work in selected placements while reading through a sequenced bibliography. They discuss their experiences and readings in seminars and papers.

WNST 497

Senior Seminar in Women's Studies

3 Semester Hours

Designed as a last course for students obtaining the Women's Studies major or minor. Stress is on the organization and integration of knowledge gained regarding women in society.

Offered only during the Spring semester.

WNST 498

Special Studies

1-3 Semester Hours

WNST 499

Independent Studies

1-3 Semester Hours

COLLEGE OF BUSINESS ADMINISTRATION COURSES

Accounting

ACCT 2110

Financial Accounting

3 Semester Hours

This is the first course in a two-accounting-course sequence that is required for all business majors and business minors. This course introduces the student to 1) the role of accounting in business and society, 2) the basic concepts and techniques of financial accounting and 3) the use of financial statements for decision-making purposes. Topics covered include a summary of the accounting cycle, analyzing and recording transactions, accounting valuation and allocation practices, preparation, interpretation, and analysis of financial statements.

Prerequisites: BADM 1010, 1020; MATH 111 or 112 or 131, all with a minimum grade of C (2.0).

ACCT 2120

Accounting Information for Decision Making

3 Semester Hours

This course involves study of managerial accounting, in which economic information (both qualitative and quantitative) is used to make strategic business decisions. This course is the second of two introductory accounting courses (business core prerequisite: ACCT 2110, Financial Accounting) required for all business majors and as a prerequisite to all other accounting courses. Managerial accounting information is used to make decisions that guide the organization through planning, organizing, directing, and controlling activities. Strategic decision making requires a future orientation to the information, with relevant and flexible data. This course draws heavily from economics, finance, management, and marketing.

Prerequisites: ACCT 2110; BADM 1010, 1020, 1030; MATH 112 or 131, all with a minimum grade of C (2.0).

ACCT 3110

Intermediate Accounting I

4 Semester Hours

This course begins the in-depth study of financial accounting and reporting. Topics covered include the environment of the standard setting process for financial accounting and reporting, the conceptual framework, accounting cycle procedures, financial statement preparation and financial disclosures, basic ratio analysis, and accounting standards and procedures for cash, notes and accounts receivable, and inventories. Uses and limitations of the balance sheet and the income statement are studied. Researching accounting issues through the use of a database and accounting websites are a course requirement.

Prerequisites: ACCT 2120 and BADM 1030, all with a minimum grade of C (2.0).

ACCT 3120

Intermediate Accounting II

4 Semester Hours

This course continues the in-depth study of financial accounting and reporting introduced in ACCT 3110. The conceptual and procedural aspects of some of the most complex and controversial topics in financial accounting are studied. Topics include the accounting for property, plant, and equipment, intangible assets, investments, long-term debt, derivatives, leases, deferred taxes, stock options, error correction, and the statement of cash flows. Coverage of these topics includes an historical

perspective, learning the current standards under generally accepted accounting principles, awareness of the flaws and limitations in current practice, and possible future directions.

Prerequisite: ACCT 3110 with a minimum grade of C (2.0).

ACCT 3130

Cost Management

4 Semester Hours

This course continues the process of analyzing economic events within the framework of accounting information systems and the use of information in the management decision-making process. Students are expected to analyze and evaluate business operations and activities. The topics will include those of the traditional product costing methods as well as cost management topics. Advanced topics of decision making structure, together with the measurement of performance, and the new competitive environment are covered during the last part of the semester. This course draws heavily from other disciplines, especially the fields of management and economics.

Prerequisite: ACCT 2120 with a minimum grade of C (2.0).

ACCT 3140

Accounting Information Systems

3 Semester Hours

This course introduces students to the fundamentals of accounting information systems including transaction processing, system documentation techniques, business process, and internal controls. Accounting software and spreadsheets are used to illustrate these AIS fundamentals and to reinforce financial and managerial accounting concepts within the context of an accounting information system. (Accounting majors only, except by permission of instructor.)

Prerequisites: ACCT 2120 and BADM 1030, all with a minimum grade of C (2.0).

ACCT 3197

Internship

1 Semester Hour

The objective of this one-semester-hour course is to help students achieve a worthwhile learning experience relevant to their major program of study. The internship, conducted with an off-campus organization, will help the student gain insights relative to his/her strengths and weaknesses in the job environment.

Prerequisite: ACCT 3110 with a minimum grade of C (2.0).

ACCT 4110

Advanced Financial Accounting

4 Semester Hours

This course completes the undergraduate study of financial accounting and reporting. An emphasis is placed on consolidated financial statements. Additional topics covered include foreign currency transactions, translation of the financial statements of foreign entities, governmental accounting for local and state governments, and accounting and reporting of private not-for-profit organizations. (Accounting majors only, except by permission of instructor.)

Prerequisites: ACCT 3120 with a minimum grade of C (2.0) and 3140.

ACCT 4120

Federal Income Taxation

4 Semester Hours

This is a comprehensive study of federal tax laws and administration with emphasis on the taxation of individuals. In addition, application of the components of the federal income tax formulas for partnerships, corporations, and other business entities will be examined. (Accounting majors /minors only, except by permission of instructor and approval of Associate Dean.)

Prerequisite: ACCT 3110 with a minimum grade of C (2.0).

ACCT 4150**Accounting Ethics, Professionalism, and the Public Interest***3 Semester Hours*

Accountants and the accounting profession play an important role in society. This role is examined in this course through an in-depth study of accounting ethics, professionalism, and the public interest. Students will learn about and analyze the history of the profession; the legal and ethical responsibilities of the profession; important legislation that has impacted the profession and the practice of accounting, particularly auditing; and the current environment in which accountants and auditors work. Students will also gain exposure to moral reasoning and ethical decision making, and will be encouraged to adopt the objectivity, integrity, and ethical standards necessary to serve society as an accounting professional. (Accounting majors only, except by permission of instructor.)

Prerequisites: ACCT 3110 with a minimum grade of C (2.0), BADM 1020.

ACCT 4160**Auditing***4 Semester Hours*

This course covers the methodology used by public accountants to obtain and evaluate evidence regarding assertions concerning financial statements and internal controls over financial reporting. Ethical and legal aspects of the auditing profession are examined with special reference to ramifications of the Sarbanes-Oxley Act. (Accounting majors only, except by permission of instructor and approval of Associate Dean.)

Prerequisites: ACCT 3120, with a minimum grade of C (2.0), 3130, 3140; ECON 230.

ACCT 4180**Fraud Examination***3 Semester Hours*

An introductory course designed for business managers and those beginning careers in accounting and auditing. The course stresses the nature of fraud, its litigation, approaches to detecting and preventing fraud, fraud inquiry methods, and reports issued by fraud examiners. Specific topics covered include: financial statement fraud, asset conversion frauds, computer frauds, and bankruptcy frauds. The course advocates a more careful and skeptical view of financial transactions and information.

Prerequisite: ACCT 3110.

ACCT 4198**Special Studies***1-3 Semester Hours***ACCT 4199****Independent Studies***1-3 Semester Hours*

Applied Information Management Systems

AIMS 2710**Management Information Systems***3 Semester Hours*

This course is designed to introduce students to the key concepts in MIS (Management Information Systems) and to enhance understanding of the issues that business organizations face when developing and managing information systems. The course will examine the fundamental principles associated with IT development and management and the increasing impact of information technology in business organizations. The field is in a state of flux, so the course will also examine emerging technologies and IT trends. By completing the course, students should be better equipped to make IT-related decisions, to participate in IT projects, and to communicate more knowledgeably with IT experts.

Must be taken in residence at LMU.

Prerequisite: BADM 1030 with a grade of C (2.0) or higher.

AIMS 3710**Database Management Systems***3 Semester Hours*

This course is intended for the student who wishes to become more proficient at developing and managing database applications. It is designed to provide an introduction to the conceptual foundations underlying database management systems, with an emphasis on its applications in business and organizations. The course begins with an introduction to the fundamental principles of database design—from data modeling to the actual implementation of a business application. Particular emphasis will be placed on the careful planning and analysis of business needs, which will lead to the appropriate development of an Entity-Relationship Model. Using these principles, each student will design and implement a database application using Access. This part of the course will employ lectures describing database theory, as well as hands-on tutorials demonstrating database concepts using Access. The second part of the course will further investigate the relational model, which is the basis for the most popular DBMS products on the marketplace today (i.e., Oracle, SQL Server, MS Access, Sybase). Topics to be studied include relational algebra, Structured Query Language (SQL), and maintaining data integrity in a relational design. In addition, important managerial concerns will be covered including database administration and the management of multi-user databases. No prior knowledge of database management systems is required, although a strong aptitude for computer-related work is helpful.

Prerequisites: ACCT 3140 or AIMS 2710; BADM 1030 or consent of instructor and approval of Associate Dean.

AIMS 3720**Object-Oriented Analysis and Design***3 Semester Hours*

The course deals with fundamental concepts and issues in object-orientation essential for the development of application systems. Emphasis is placed on use of Use Cases to gather the information requirements for the application system and to model the software system using object-oriented (OO) modeling techniques. The course also emphasizes approaches to produce correct and flexible models. The Unified Modeling Language (UML) notation is used throughout to document the analysis and design process. The roles of the analyst(s), the designer(s), and the user(s) are discussed.

Prerequisites: ACCT 3140 or AIMS 2710; BADM 1030, all with a minimum grade of C (2.0) or consent of instructor and approval of Associate Dean.

AIMS 3770**Production Operations Analysis***3 Semester Hours*

This course will introduce students to decision making and model building in the management of operations which create products and/or services. The principles of Operations Management apply throughout the world to all productive enterprises. It doesn't matter if a good or a service is being produced, efficient production methods require the effective application of the concepts, tools, and techniques that are covered in this course. Hands-on learning is an important feature of the course. For each topic, a case analysis requires the use of Excel and/or other specialized operations management software to reinforce the underlying theoretical details.

Prerequisites: BADM 1030, ECON 230, MATH 112 or 131, all with a grade of C (2.0) or higher.

AIMS 3780**IT and Supply Chains***3 Semester Hours*

This course will teach the importance of information, its uses and the technologies that enable supply chain managers to make better decisions and improve the performance of the supply chain. In addition to providing a strategic framework for analyzing supply chains, students will learn information sharing and planning strategies to improve supply chain coordination and mitigate the bullwhip effect. Topics include technologies and decision models in the areas of forecasting, inventory management, and transportation, pricing strategies, reducing supply chain variability, and managing incentives.

Prerequisites: ACCT 3140 or AIMS 2710 and 3770.

AIMS 3797**Internship***1 Semester Hour*

The objective of this one-semester-hour course is to help students achieve a worthwhile learning experience relevant to their major program of study. The internship, conducted with an off-campus organization, will help the student gain insights relative to his/her strengths and weaknesses in the job environment.

Prerequisite: ACCT 3140 or AIMS 2710.

AIMS 4720**Object-Oriented Programming***3 Semester Hours*

The course covers fundamental concepts in OO programming using the Java language. Objects represent entities in the real world with properties whose values define their states, and with methods that describe the operations that can be performed on the objects. Objects can interact with each other by sending and receiving messages among themselves. In Java, the objects are represented as program modules, which encapsulate some portion of the objects' characteristics and operations or behavior. The course will tackle basic concepts dealing with object-oriented problem-solving and software development. Students will learn problem-solving skills and apply them to real-world program design and construction in the Java language.

Prerequisites: ACCT 3140 or AIMS 2710; BADM 1030, all with a minimum grade of C (2.0).

AIMS 4730**Business Data Communications***3 Semester Hours*

An introduction to the use of data communications and other automation systems in the business environment, including the study of local and

wide area networks, voice and electronic mail, video conferencing, and other automation tools in support of management.

Prerequisite: ACCT 3140 or AIMS 2710 or consent of instructor and approval by Associate Dean.

AIMS 4740**Financial Modeling for Decision Support***3 Semester Hours*

This course introduces spreadsheet modeling skills and advanced quantitative analysis tools to support financial decision-making. Hands-on experience in the development of spreadsheet forecasting, simulation and optimization models for applications in valuation, cash budgeting, and financial planning and portfolio management will be provided.

Prerequisites: AIMS 3770 and FNCE 3410.

AIMS 4750**Web-based Development***3 Semester Hours*

This course will introduce students to Web-based Development using various web design and development software as well as programming languages. The emphasis is on the business use of the web and its integration with business strategy and activities along with developing skills in creating effective web sites. The course will teach the students the basics of web development and will introduce them to the Mobile Web and Mobile Application development. Students will also learn about the current developments taking place in this area.

Prerequisite: ACCT 3140 or AIMS 2710.

AIMS 4760**Business Intelligence and Data Mining***3 Semester Hours*

Current management practices place an increasing dependence on the use of information to *manage* a business—business intelligence tools and systems play a critical role in this regard. To help managerial decision makers do their job effectively, it is necessary to understand the decision making process, the nature of data/information used in the decision making process and the role of information technology (in particular, business intelligence technologies) in that process. The course focuses on data mining, data warehousing and aspects of knowledge management along future directions and development of business intelligence tools in the context of business networks and collaborative online environments.

Prerequisite: ACCT 3140 or AIMS 2710.

AIMS 4770**Information Technology Security***3 Semester Hours*

This course will introduce students to Information Technology Security in the corporate setting through various hands-on practice/experiments as well as Harvard Business School cases. The emphasis is on the business use of information security knowledge and its integration with business strategy and process along with developing skills in measuring information security, identifying security vulnerabilities, managing security risks, monitoring and preventing potential security breaches, and creating secured business practice procedures. The course will teach the students the basics of Information Technology Security and will introduce them to theory and technology of wireless network security, e-commerce security, securing online advertising as well as business continuity and disaster recovery.

Prerequisite: ACCT 3140 or AIMS 2710.

AIMS 4790**Capstone Project**

3 Semester Hours

This course will enable students to practice team-oriented problem-solving skills in the context of undertaking and completing a complex IT project, and to demonstrate their knowledge and understanding of IT concepts and techniques in tackling analysis, design, and implementation of solutions to complex IT problems. The course will enable students to acquire and demonstrate their understanding, use and proficiency in project management skills related to tackling IT projects, and to practice their written and oral communication skills in the write-up and presentation of their projects.

Prerequisites: The three required upper division AIMS courses for the specific track.

AIMS 4798**Special Studies**

1-3 Semester Hours

AIMS 4799**Independent Studies**

1-3 Semester Hours

Requires approval of the Associate Dean.

Business Administration**BADM 1010****Business Perspectives—Business Institutions**

1 Semester Hour

This course covers the Choice and Decision Making framework within the context of a free market economy. Students will be exposed to the role of managers in organizations and the basic agency theory. Students will learn the underlying structure of decision making and concepts of incentive and reward systems. Students will be introduced to the business institutions and the career opportunities in each segment of the free market economy. An overview of economic and business crises in recent history and the role of government in dealing with market failure will be briefly explored.

The objectives of this course are:

- To provide business students with a world view of business organizations in a free society;
- To provide a general understanding of the role of management in business, not-for-profit, and governmental organizations;
- To explain the role of competition, risk, and information in the free market setting;
- Discuss the interaction of regulation and businesses in a market economy;
- To understand the individual choice process and role of the individual in a free society.

Required for ALL majors in the College of Business Administration.

BADM 1020**Business Perspectives—Introduction to Ethical Decision Models**

1 Semester Hour

This course covers two general topics that will be modified slightly based on individual faculty perspectives and style. The first part of the course deals with a variety of legal, social, and institutional dimensions of the environment in which business is conducted. This will include:

- The relationship between business and the society natural environment in which it operates;
- The relationship between business and the values of the society; the legal and business context in which we find "ethics" in today's workplace—corporate ethics programs, the Federal Sentencing Guidelines for Organizations, Sarbanes-Oxley, and other business regulations;
- The relationship between business, society, and Jesuit values.

The second part of the course aims to help students learn how to work with two different approaches to ethical reasoning:

- A "values" approach (which echoes the "virtue ethics" approach taken by most corporate ethics programs), and
- An approach that connects with the methodology students will be exposed to in their ethics requirement (a secular approach based on an analysis of both the consequence of actions and the intrinsic merit of the actions themselves).

The objective of this course is introducing our students to the centrality of ethics in our mission, and importance of ethical standards in the business leaders' decision process.

Required for ALL majors in the College of Business Administration.

BADM 1030**Business Perspectives—Information Technology in Organizations**

1 Semester Hour

This course provides an introduction to information technology and computing with emphasis to its applications in business and organizations.

The course will be devoted to *problem-solving* and acquiring *personal productivity software skills* essential for effective and efficient use of IT in business and organizations. Emphasis is on use of the computer in problem-solving, and will be hands-on in a laboratory setting. The course is designed to cover the following:

- *Application software use to solve problems:* Problem-solving/analytical skills—mental processing/logical thinking stage, procedure development, e.g., uses of control structures and flowcharting techniques in developing business procedures, etc. Use of spreadsheet, e.g., Excel, in modeling and data analysis; spreadsheet calculations—use of Excel and user-defined functions, what-if type analysis; use of graphs—creating and editing charts, and printing worksheets, etc.
- *Information Technology use for knowledge workers:* Use of knowledge work productivity software, e.g., Excel; what is knowledge work and knowledge workers—analysis of individual knowledge work tasks/activities of, for example, managers, accountants, financial analysts, lawyers, etc.; knowledge workers and information management; collaboration among knowledge workers—analysis of work activities and information requirements or management, etc.; data organization, access and management of internal organizational data and external data—role of IT, e.g., Internet and WWW in knowledge worker productivity.
- *The Internet and WWW:* Operation and functional uses; IP addresses, datagrams, domain names, TCP/IP; and the World Wide Web, use of URLs, browsers, and search engines—for information searches, etc.

The objectives of this course are:

- To introduce students to the important concepts and terminology fundamental to an understanding and appreciation of information technology and its uses in business and organizations.
- To establish a firm foundation and proficiency in problem-solving skills in computing using flowcharting techniques, acquiring personal productivity skills in the use of application software packages, in particular, Excel for spreadsheet modeling and analysis, and the use of the Internet and the WWW for

communication, information searches, and collaboration with other workers in an organizational setting.

Required of ALL majors in the College of Business Administration.

BADM 1040

Business Perspectives—Globalization

1 Semester Hour

This course is designed to provide freshman or sophomore students with knowledge of the critical aspects of globalization, key trends in the global economy, and build an appropriate educational plan at the early stage of their college years.

The objectives of this course are:

- To introduce students to the driving forces behind globalization and evaluate how globalization has affected the U.S. economy.
- To discuss our main trading partners and investors along with the key trends in international trade and foreign direct investment. Additionally, the course addresses the key players and their roles in the global economy.

Through an in-depth analysis of these issues, students are expected to learn:

- The current trends and future prospects of the global economy.
- The meaning of globalization and its impacts on the U.S. economy as well as career implications of global economy.

Required for ALL majors in the College of Business Administration.

BADM 3010

Analytical Concepts and Methods for Business

3 Semester Hours

The course is meant as an introductory basis for students seeking a minor in Business Administration. Topics will include fractions, decimals vs. percentages, Excel spreadsheets vs. calculators, future and present value, interest rates, compounding, credit terms in personal finance, probabilities, weights, mean or expected value, statistics, variance, standard deviation, sample vs. population statistics, correlation and covariance, and linear estimations.

Required for ALL Business Administration minors.

BADM 3020

Economic Environment, Marketing, and Business Law Concepts

3 Semester Hours

This is a basic course in economics, marketing, and business law which will give the Business Administration minor student an introduction to the three subjects. After taking this course, the student will be prepared to take more advanced courses in the various subjects covered.

Required for ALL Business Administration minors.

BADM 3030

Key Concepts of Accounting and Finance

3 Semester Hours

This course provides a timely and relevant introduction to key accounting and finance concepts. With a focus on strategic techniques for decision making in the corporate environment, it aims to provide students with a general, real-world understanding of financial statements, budgeting, financial analysis, managerial accounting, valuation, financial markets, investments, risk, ethics, and how firms raise capital.

Required for ALL Business Administration minors.

Prerequisite: BADM 3010.

BADM 3040

Management and Society: Issues in Strategic and Ethical Management

3 Semester Hours

Management and Society is an introductory course which covers the role of business in our society and the principles of management and organizational behavior. Basic concepts such as the role of management (focused on planning, organizing, leading, and controlling) and theories of organizations will be explored while considering the impact on and involvement of stakeholders, the importance of ethics, influence of business-government relations, issues in corporate governance, and the significance of long-term sustainability.

Required for ALL Business Administration minors.

Prerequisite: BADM 3020.

BADM 4950

Business and Social Responsibility in the Global Economy

3 Semester Hours

This is an applied course that focuses on the interactions of business, government, and societal institutions. Particular attention is directed to such topics as economic systems, stakeholder management, political and legislative process, sustainability, and corporate governance. Themes of ethics, social responsibility, and leadership will be emphasized. There are two specific goals: 1) The student grasps the broad issues of corporate social responsibility and 2) The student develops decision making skills needed to lead a corporation to productive solutions.

Must be taken in residence at LMU.

Senior standing required.

Required for ALL majors in the College of Business Administration.

Prerequisites: BADM 1010, 1020; BLAW 2210; MGMT 3610; one course from PHIL 320-330.

BADM 4970

Strategic Management

3 Semester Hours

This is an applied course that develops strategic thinking skills to enable managers to position the business to achieve and sustain superior competitive performance. This course addresses issues of both strategy design and implementation in the complex global economic environment. The course requires students to draw upon and integrate knowledge and skills developed throughout their business education.

Must be taken in residence at LMU.

Senior standing required.

Required for ALL majors in the College of Business Administration.

Prerequisites: AIMS 3770; FNCE 3410; MGMT 3610; MRKT 3510.

Business Law

BLAW 2210

Legal and Regulatory Environment

3 Semester Hours

A survey course on the general concepts found in Business Law. The student will be exposed to legal, ethics, and regulatory terminology, concepts, and reasoning found when working within the business and government environment.

Prerequisites: BADM 1010 and 1020, both with a grade of C (2.0) or higher.

BLAW 3210

Business Law Applications and Cases

3 Semester Hours

The course offers a detailed study of the nature of contracts and their applications in business organizations, personal property, real property, and commercial transactions. A focus will be placed on interpreting the law through existing case studies.

Prerequisite: BLAW 2210.

BLAW 3270

Marketing Law

3 Semester Hours

To acquaint students with fundamental concepts, principles, and rules of marketing law that concern marketers and consumers in day-to-day activities, in private business relationships, and in their relationship with government. The course will focus on various legal constraints, problems and ramifications which should be recognized and addressed by marketers when making pricing, product, promotion, and distribution decisions.

Prerequisites: BLAW 2210 and MRKT 3510.

BLAW 4210

Entertainment Law

3 Semester Hours

Law as it applies to the entertainment (motion picture, sound, television) industry, with particular focus on contracts and agency.

Prerequisite: BLAW 2210.

BLAW 4220

Employment Law

3 Semester Hours

This course provides a broad overview of federal and state employment laws, administrative agency regulations, and judicial decisions that govern the management of human resources. It provides a framework for the analysis and implementation of procedures that impact the employer-employee relationship in the workplace. Topics include the rules for proper advertising, screening, interviewing, and hiring of applicants; an analysis of the procedures that shape the training, promotion, discipline, and termination of employees; grievance handling, anti-discrimination laws, employee rights, health and safety regulations, leaves of absence, harassment prevention, regulatory compliance, and administrative adjudication of claims.

Prerequisite: BLAW 2210.

BLAW 4230

Sports Law

3 Semester Hours

Sports Law is a practical course that focuses on the nature, formation, and application of traditional legal concepts in relation to sports as a business and social entity. This upper division elective provides a comprehensive introduction to the different dimensions of the legal environment and their influence on the business of sports.

Prerequisite: BLAW 2210.

BLAW 4240

Real Estate Law

3 Semester Hours

A study of the legal aspects involved in real estate ventures. This course will explore the nature of property and land transactions, management based on current law code, and existing case law. This course provides an excellent legal foundation for students with an interest in future property ownership.

Prerequisite: BLAW 2210.

BLAW 4250

International Business Law

3 Semester Hours

This course provides an excellent legal foundation for the international operation of businesses. Students will address balancing the legal interests of domestic and international parties and will explore the applicable legal guidelines and case history.

Prerequisite: BLAW 2210.

BLAW 4298

Special Studies

1-3 Semester Hours

BLAW 4299

Independent Studies

1-3 Semester Hours

Entrepreneurship

ENTR 3310

Introduction to Entrepreneurship

3 Semester Hours

This course is designed to introduce students to entrepreneurship as an integral part of our economy at the local, regional, national, and global level. Students will learn about the processes involved in taking entrepreneurial ideas from conception to new venture launch, with emphasis placed on the creativity, critical thinking skills, and flexibility essential to recognizing business opportunities and assessing those opportunities' feasibility in uncertain, dynamic markets. At a more detailed level, students will be exposed (through readings and experiential exercises) to issues of creativity and innovation, feasibility analysis, "proof of concept" development, and new venture leadership.

Junior standing required.

Prerequisites: BADM 1010, 1020, all with a minimum grade of C (2.0).

ENTR 3330

Social Entrepreneurship

3 Semester Hours

In this course, students are introduced to the field of social entrepreneurship—the process of using an entrepreneurial mindset and business skills to create innovative approaches to societal problems. We explore the social entrepreneurship landscape and examine the latest innovations in business models, legal forms, financing alternatives, and management strategies. Students are expected to identify their passions and work on relevant business ideas or field projects that will equip them with hands-on experience.

Junior standing required.

Prerequisites: BADM 1010, 1020, all with a minimum grade of C (2.0).

ENTR 3350**New Venture Creation***3 Semester Hours*

This course is designed to provide students with a hands-on opportunity to learn how a new venture opportunity is developed. In the process of completing a business plan, students will 1) learn to think critically about business concepts, and 2) complete primary and secondary research about fundamental strategic, operational, financial, marketing, and HR issues.

ENTR 3380**Small Business Management***3 Semester Hours*

This integrative course allows students to combine skills learned in all business disciplines. The focus is on the identification and analysis of operating problems confronting the small business manager.

Junior standing required.

Prerequisites: BADM 1010, 1020, all with a minimum grade of C (2.0).

ENTR 3397**Internship***1 Semester Hour*

The objective of this one-semester-hour course is to help students achieve a worthwhile learning experience relevant to their major program of study. The internship, conducted with an off-campus organization, will help the student gain insights relative to his/her strengths and weaknesses in the job environment.

Prerequisite: ENTR 3310.

ENTR 4310**Entrepreneurial Finance***3 Semester Hours*

In this course, students are introduced to the financial aspects of small businesses and entrepreneurial ventures. The key topics include evaluating new business ideas and ventures, reading and understanding financial statements of rapidly growing companies, and developing financing strategies. We also discuss various debt and equity alternatives of financing, the different valuation techniques, and key tactics and approaches to negotiating term sheets.

Prerequisites: ACCT 2110, FNCE 3410.

ENTR 4320**Real Estate Finance, Investment, and Entrepreneurship***3 Semester Hours*

This course introduces students to gathering relevant data (both primary and secondary data) to build financial models for analyzing, interpreting, and making decisions on evaluation of alternative real estate investment opportunities with alternative financial structures. Hands-on entrepreneurial learning makes use of cases, gathering primary data, financial modeling, and estimating the most an investor should pay for a specific property. More specifically, this course includes determining a property's "investment value," financing strategy, risk analysis, taxation, market area supply and demand analysis by property type (e.g., single-family homes, apartments, office, retail, warehouses, and other industrial properties), alternative investment ownership (e.g., sole proprietorships, REITs, Limited Partnerships, LLCs, etc.), as well as evaluating alternative financing instruments in both primary and secondary markets.

Prerequisite: FNCE 3410.

ENTR 4340**International Entrepreneurship***3 Semester Hours*

This course focuses on developing knowledge and skills in three key components of international entrepreneurship: initiating entrepreneurial ventures, managing international business transactions, and dealing with multicultural business environments. The course includes a feasibility study of an international small business venture start up, case study, and experiential learning.

Prerequisite: INBA 3810.

ENTR 4350**Entrepreneurial and Small Business Marketing***3 Semester Hours*

Whereas traditional marketing courses often assume that marketers are operating in a predictable environment with generous budgets, this course examines shoestring methods to be used under conditions of considerable uncertainty.

Prerequisite: MRKT 3510.

ENTR 4370**Product Design and Development***3 Semester Hours*

This course, a joint venture between LMU and OTIS College of Design, provides an overview of the key concepts, frameworks, and issues in product design and development. Students are expected learn to work effectively in an interdisciplinary team to construct a business concept, design a new product, and complete a prototype.

Prerequisite: ENTR 3350 with a minimum grade of B (3.0).

ENTR 4381**Managing New and Growing Ventures***3 Semester Hours*

This course is designed to provide students with theoretical and practical knowledge about new and young businesses. Print and live cases will be used to facilitate in-depth exploration of the typical start-up, operating, and growth challenges facing entrepreneurial companies. Guest speakers (founders of or investors in new ventures) will share their entrepreneurial journeys. Students will participate in a team project where they meet with the founder(s) of a local entrepreneurial venture, identify key challenges facing that venture, and develop an in-depth plan to address those challenges.

Prerequisite: ENTR 3310.

ENTR 4398**Special Studies***1-3 Semester Hours***ENTR 4399****Independent Studies***1-3 Semester Hours*

Requires approval of the Associate Dean.

Finance**FNCE 3410****Fundamentals of Finance**

3 Semester Hours

Topics include structure and financial problems of business enterprises; methods and instruments available for promoting, financing, recapitalizing, and reorganizing business enterprises; and social control of security issues and exchanges. In addition, time value of money, risk and return trade-offs, security valuation, and working capital management will be studied.

Prerequisites: ACCT 2120; BADM 1010, 1020; ECON 105 OR ECON 110 and 120; ECON 230; MATH 112, all with a minimum grade of C (2.0).

FNCE 3420**Investments***3 Semester Hours*

The course will examine the sources and demand for investment capital, the determination of investment policy, and procedures for the analysis of security evaluation.

Prerequisites: ACCT 2110, 2120; FNCE 3410.

FNCE 3430**Financial Policy***3 Semester Hours*

This course focuses on corporate finance decision making using finance cases to analyze financial policies and problems of business enterprises as well as investment issues related to maximizing corporate value. Students will develop advanced skills in corporate value/shareholder wealth maximization including learning tools and concepts employed in analyzing and managing financial risk. Students obtain hands-on experience in the conduct of financial policy analysis through completion of a mergers and acquisitions project. Skills learned are especially applicable to employment in firms in all industries including investment banking.

Prerequisite: FNCE 3410.

FNCE 3440**Mergers and Acquisitions***3 Semester Hours*

This course will introduce students to the merger and acquisition process and alternative restructuring strategies including business alliances, divestitures, spin-offs, split-offs, carve-outs, and bankruptcy. The student will learn to develop acquisition plans as part of an investment banking team charged with implementing a firm's business strategy. The team will be responsible for valuing the target firm, negotiating and structuring the deal, and for resolving common tax, payment, accounting, and legal issues arising during transactions.

Prerequisite: FNCE 3410.

FNCE 3497**Internship***1 Semester Hour*

The objective of this one-semester-hour course is to help students achieve a worthwhile learning experience relevant to their major program of study. The internship, conducted with an off-campus organization, will help the student gain insights relative to his/her strengths and weaknesses in the job environment.

Prerequisite: FNCE 3410.

FNCE 4410**Entrepreneurial Finance***3 Semester Hours*

In this course, students are introduced to the financial aspects of small businesses and entrepreneurial ventures. The key topics include evaluat-

ing new business ideas and ventures, reading and understanding financial statements of rapidly growing companies, and developing financing strategies. We also discuss various debt and equity alternatives of financing, the different valuation techniques, and key tactics and approaches to negotiating term sheets.

Prerequisites: ACCT 2110, FNCE 3410.

FNCE 4420**Real Estate Finance, Investment, and Entrepreneurship***3 Semester Hours*

This course introduces students to gathering relevant data (both primary and secondary data) to build financial models for analyzing, interpreting, and making decisions on evaluation of alternative real estate investment opportunities with alternative financial structures. Hands-on entrepreneurial learning makes use of cases, gathering primary data, financial modeling, and estimating the most an investor should pay for a specific property. More specifically, this course includes determining a property's "investment value," financing strategy, risk analysis, taxation, market area supply and demand analysis by property type (e.g. single-family homes, apartments, office, retail, warehouses, and other industrial properties), alternative investment ownership (e.g., sole proprietorships, REITs, Limited Partnerships, LLCs, etc.), as well as evaluating alternative financing instruments in both primary and secondary markets.

Prerequisite: FNCE 3410.

FNCE 4430**Capital Markets***3 Semester Hours*

This course examines the development, regulation, and management of each of the financial institutions and markets. The activities of these institutions, governments, and individuals in the markets will then be studied.

Prerequisite: FNCE 3410.

FNCE 4470**Multinationals and the Third World***3 Semester Hours*

This course examines business activity by multinationals corporations in Third World countries focusing on conventional theory and practices of multinational enterprise, user-friendly shareholder wealth maximization, multinational finance, and corporate ethics. Issues of analysis include technology transfer, institutional arrangements, entry strategy and entry options, host country bargaining power, shareholder wealth maximization, workplace protection, financing decisions, direct foreign investment, and business ethics.

Prerequisites: FNCE 3410 and INBA 3810.

FNCE 4480**International Finance***3 Semester Hours*

This course introduces students to international business finance and the workings of international financial markets. The principal objective of the course is for students to develop an understanding of the basic tools of financial decision making in an international environment. Key topics of study include exchange rate determination, relationships between inflation, interest rates, and exchange rates, risk management, multinational capital budgeting, and international portfolio theory.

Prerequisites: FNCE 3410, INBA 3810.

FNCE 4491**Student Investment Fund: Security Analysis**

3 Semester Hours

This course is Part I of the Student Investment Fund (SIF) Program. In this one-year program, the students gain hands-on experience in managing the Student Investment Fund by learning the theory and practice of securities investment and portfolio management within an academic context, enhanced by the frequent interaction with individuals and institutions engaged in the money management industry. While the focus of Part I is stock valuation using absolute and relative valuation models, this course will also familiarize the students with topics covered in a typical investment course such as financial markets and financial instruments as well as investment concepts and theory, including risk and return, diversification, Capital Asset Pricing Model, etc.

Prerequisite: FNCE 3410.

FNCE 4492**Student Investment Fund: Portfolio Management***3 Semester Hours*

This course is Part II of the Student Investment Fund (SIF) Program. In this one-year three-course program, the students gain hands-on experience in managing the Student Investment Fund by learning the theory and practice of securities investment and portfolio management within an academic context, enhanced by the frequent interaction with individuals and institutions engaged in the money management industry. While the students continue to apply what they have learned in Part I of the program to stock analysis and investment, the main focus of this part of the program is the application of portfolio theory to portfolio formation and performance measurement. The course culminates with the production and presentation of the SIF Annual Report at the end of the semester. Additionally, the students will also learn investment topics that are not covered in Part I, including analysis and management of bonds and an overview of derivative securities.

Prerequisite: FNCE 4491.

FNCE 4493**Student Investment Fund: Investment Research Lab***3 Semester Hours*

This course is Part III of the Student Investment Fund (SIF) Program. In this one-year program, the students gain hands-on experience in managing the Student Investment Fund by learning the theory and practice of securities investment and portfolio management within an academic context, enhanced by the frequent interaction with individuals and institutions engaged in the money management industry. The focus of this course is experiential learning via the application of the theories covered in both Parts I and II of the program to the analysis and investments of stocks and management of the SIF portfolio, utilizing the databases and software available.

Prerequisite: FNCE 3410.

FNCE 4498**Special Studies***1-3 Semester Hours***FNCE 4499****Independent Studies***1-3 Semester Hours*

Requires approval of the Associate Dean.

International Business Studies**INBA 3810****International Business***3 Semester Hours*

This course introduces students to the international business environments and practices. In order to understand complex issues related to the global economy, students will learn about national differences in political, economic, and socio-cultural systems. To acquire skills and knowledge necessary for managing international business operations, students will also study international trade and investment theories and policies, foreign exchange market, and global strategies in manufacturing, marketing, and human resources management.

Prerequisites: ECON 105 or ECON 110 and 120 and BADM 1040.

INBA 3851**Building Global Career Competence***3 Semester Hours*

This course combines experiential learning during study abroad with conceptual learning assignments to build critical global career competencies. The course involves relevant and challenging international consulting work experience, exposure to the working and cultural environments of Germany and the European Union, building skills for international adjustment and successful management of international assignments, networking and building potentially valuable international professional, and developing insights for future career planning within a global context.

Prerequisites: BADM 1010, 1040.

INBA 4830**International Management***3 Semester Hours*

Different economic, political, and socio-cultural environments around the world challenge managers with opportunities and risks. The goal of this course is to help students achieve a general understanding of the international business environment and evaluate the agenda facing managers operating in international business contexts. Students will learn how national economies are intertwined as never before, competition is increasingly global, and firms have become international in their sales, production, investment, financing, and sourcing.

Prerequisites: INBA 3810, MGMT 3610.

INBA 4840**International Entrepreneurship***3 Semester Hours*

This course focuses on developing knowledge and skills in three key components of international entrepreneurship: initiating entrepreneurial ventures, managing international business transactions, and dealing with multicultural business environments. The course includes a feasibility study of an international small business venture start up, case study, and experiential learning.

Prerequisite: INBA 3810.

INBA 4850**International Business Law***3 Semester Hours*

This course provides an excellent legal foundation for the international operation of businesses. Students will address balancing the legal interests of domestic and international parties and will explore the applicable legal guidelines and case history.

Prerequisites: BLAW 2210, INBA 3810.

INBA 4870**Multinationals and the Third World***3 Semester Hours*

This course examines business activity by multinationals corporations in Third World countries focusing on conventional theory and practices of multinational enterprise, user-friendly shareholder wealth maximization, multinational finance, and corporate ethics. Issues of analysis include technology transfer, institutional arrangements, entry strategy and entry options, host country bargaining power, shareholder wealth maximization, workplace protection, financing decisions, direct foreign investment, and business ethics.

Prerequisites: FNCE 3410 and INBA 3810.

INBA 4872

Managing a Global Workforce

3 Semester Hours

This course helps students recognize important human resource management (IHRM) issues underlying current international and global business conditions, as well as understand key IHRM challenges and practices (e.g., cross-cultural management, managing international assignments, global talent management) relevant to effective strategic management and business development in important countries and regions of the global economy. In addition, personal competencies and international issues are examined that are relevant to students' own future careers within the global workforce.

Prerequisites: INBA 3810, MGMT 3610.

INBA 4880

International Finance

3 Semester Hours

This course introduces students to international business finance and the workings of international financial markets. The principal objective of the course is for students to develop an understanding of the basic tools of financial decision making in an international environment. Key topics of study include exchange rate determination, relationships between inflation, interest rates, and exchange rates, risk management, multinational capital budgeting, and international portfolio theory.

Prerequisites: FNCE 3410 and INBA 3810.

INBA 4898

Special Studies

1-3 Semester Hours

INBA 4899

Independent Studies

1-3 Semester Hours

Management

MGMT 3610

Managing People and Organizations

3 Semester Hours

This course provides future leaders and managers with a basic understanding of theories and principles of Organizational Behavior (OB) and their practical applications in critical Human Resources Management (HRM) responsibilities for the effective management of employees, teams, and organizations. Included are key and socially responsible management practices in planning, organizing, and controlling for achieving organizational goals and objectives, as well as in creating a high quality work environment for attracting, developing, and retaining human talent.

Prerequisites: BADM 1010 and 1020 with a minimum grade of C (2.0).

MGMT 3620

Management Skills

3 Semester Hours

This course provides an opportunity to develop key managerial skills at the personal, interpersonal, group, and organizational levels for promoting effective workforce development and ongoing organizational success. An emphasis will be upon applied, experiential learning in critical performance areas related to communication skills, work design, self-awareness and career development, thinking style and creative problem-solving, emotional intelligence, team effectiveness, employee training, coaching and performance management, and organization performance problem diagnosis.

Prerequisite: MGMT 3610.

MGMT 3630

Social Network Analysis for Managers

3 Semester Hours

This course explores managing performance through understanding mechanisms of coordination and control. We will consider how managers and organizations can benefit from the coordination of both individual network contacts and organization level contacts such as strategic partnerships. We will analyze social organizations through network methods. We will cover topics including Trust and Reputation, Organizational Roles, Team Work, Organization Change, Virtual Network, and Diffusion.

Prerequisite: MGMT 3610.

MGMT 3640

Managing Diversity

3 Semester Hours

The effective management of diversity in the workplace provides several benefits to our society, economy, and nation. The reality is that issues around diversity have been controversial. Due to the changing of demographics, increasing global business, and technological innovations, the composition of the workforce of today and in the future will be much more diverse, and the business challenges and opportunities will be unique. The goal of diversity in the workplace and inclusion is that new faces, differing points of view, life experiences, and cultural values will be seen as attributes that help our social, economic, and government organizations achieve their goals and objectives.

Prerequisite: MGMT 3610.

MGMT 3651

Building Global Career Competence

3 Semester Hours

This course combines experiential learning during study abroad with conceptual learning assignments to build critical global career competencies. The course involves relevant and challenging international consulting work experience, exposure to the working and cultural environments of Germany and the European Union, building skills for international adjustment and successful management of international assignments, networking and building potentially valuable international professional, and developing insights for future career planning within a global context.

Prerequisites: BADM 1010, 1040.

MGMT 3670

Training and Development

3 Semester Hours

The effective management of diversity in the workplace provides several benefits to our society, economy, and nation. The reality is that issues around diversity have been controversial. Due to the changing of demographics, increasing global business, and technological innovations,

the composition of the workforce of today and in the future will be much more diverse, and the business challenges and opportunities will be unique. The goal of diversity in the workplace and inclusion is that new faces, differing points of view, life experiences, and cultural values will be seen as attributes that help our social, economic, and government organizations achieve their goals and objectives.

Prerequisite: MGMT 3610.

MGMT 3680

Mentoring and Management

3 Semester Hours

This course will help students increase professional skills by connecting them with a mentor. Students will be asked to formulate specific developmental goals that the mentor can provide with assistance in reaching. A broad overview to careers theory in general, and mentoring theories and practices in particular, will be provided. In addition to structured mentoring learning experiences, students will also have the opportunity to develop important work skills in planning, organizing, and managing a project. In some cases, mentors may involve protégés in projects related to their profession that will enable students to gain valuable hands-on experience. There may also be some projects available with non-profits and the First Year program on campus through collaboration with the Center for Service and Action for students and mentors to work on together. In this way, the class will embody the LMU mission of men and women in service for others. The first part of the class will be structured around addressing three basic questions: 1) Who am I? 2) What do I want (goals)? and 3) What is my plan for getting what I want and how will I give back? Students will answer each of these three questions by completing standardized assessments, undertaking a rigorous self reflection, setting developmental goals, enhancing career-related skills, and by completing a professional development project.

Prerequisite: MGMT 3610.

MGMT 3697

Internship

1 Semester Hour

This one-semester-hour course helps students achieve a worthwhile learning experience relevant to their career interest. The internship, conducted with an off-campus organization, and associated reflective assignments, will help students gain insights for enhancing previous classroom learning and for future career planning.

Prerequisite: MGMT 3610.

MGMT 4610

Leadership

3 Semester Hours

This course focuses on the role of leadership and leaders in organizations. Main topics include sources and uses of power, leadership traits, leadership styles and behaviors, contingency theories, team leadership, leadership development. Lectures, discussions, case studies, videos, and experiential exercises will be part of the course.

Prerequisite: MGMT 3610.

MGMT 4620

Employment Law

3 Semester Hours

This course provides a broad overview of federal and state employment laws, administrative agency regulations, and judicial decisions that govern the management of human resources. It provides a framework for the analysis and implementation of procedures that impact the employer-employee relationship in the workplace. Topics include the rules for proper advertising, screening, interviewing, and hiring of applicants; an analysis of the procedures that shape the training, promotion, discipline, and termination of employees; grievance handling, anti-discrimination

laws, employee rights, health and safety regulations, leaves of absence, harassment prevention, regulatory compliance, and administrative adjudication of claims.

Prerequisites: BLAW 2210, MGMT 3610.

MGMT 4630

International Management

3 Semester Hours

Different economic, political, and socio-cultural environments around the world challenge managers with opportunities and risks. The goal of this course is to help students achieve a general understanding of the international business environment and evaluate the agenda facing managers operating in international business contexts. Students will learn how national economies are intertwined as never before, competition is increasingly global, and firms have become international in their sales, production, investment, financing, and sourcing.

Prerequisites: INBA 3810, MGMT 3610.

MGMT 4640

Cross-Cultural Leadership

3 Semester Hours

This collaborative course examines what constitutes "effective" leadership across cultures, how to be an inclusive leader, and how to lead diverse groups. Students will be asked to describe leadership in particular cultures based on their research and/or personal experiences. The goal is to prepare students for leadership assignments outside their native countries and/or in cross-cultural teams.

Prerequisite: MGMT 3610.

MGMT 4650

Managing Compensation and Rewards

3 Semester Hours

This advanced management elective deals with such topics as wage and salary administration, benefits administration (U.S. and international), performance management, governmental and legal issues, and budgeting and administration. The course presents practical tools, methods, and a systems perspective to help students understand the role of compensation (base pay and total compensation) in human resource management. Knowledge and skill development from this course is important for future HR professionals and general managers alike. Additionally, this course examines various theories, strategies, and actual practices of employee total compensation (including employee benefits and nonfinancial rewards). A central question throughout will be about what types and forms of compensation practices best motivate and stimulate performance and commitment in the workplace.

Prerequisite: MGMT 3610.

MGMT 4661

Effective Organizational Governance

3 Semester Hours

This course will explore board of director and top management team responsibilities and activities related to effective organizational governance. All students will participate as part of a team in a Community-based Learning project—a semester-long experience exploring course concepts in a community-based organizational environment while providing a value-added contribution to that organization.

Prerequisite: MGMT 3610.

MGMT 4670

Human Resource Management Practicum

3 Semester Hours

Due to the increasing realization of the importance of the human resource function, the role of the human resource professional is likewise gaining in importance. This course provides information and professional development opportunities, including resume-building HR consulting projects, a part-time internship, and other relevant field assignments to help facilitate student entry into a successful career in human resources.

Prerequisite: MGMT 3610.

MGMT 4671

Managing Career Success

3 Semester Hours

It is increasingly clear that career planning and ongoing career management activities are essential to career success. Career management activities in organizations are clearly linked to employee retention and key productivity measures. To help generate experience-based insights for future career preparation and planning, this course involves a personally relevant off-campus internship or meaningful work experience of a minimum of 100 hours, a separate community service activity of at least 20 hours, regular journal recording of ongoing observations and insights, a mock employment interview, informational interviews of professional in the field, a minimum of 10 different self-assessment exercises, and an off-campus networking assignment. Course learning culminates in the completion of a final in-depth individual report that describes insights and specific short- and long-term plans for future career management.

Prerequisites: MGMT 3610, 3620.

MGMT 4672

Managing a Global Workforce

3 Semester Hours

This course helps students recognize important human resource management (IHRM) issues underlying current international and global business conditions, as well as understand key IHRM challenges and practices (e.g., cross-cultural management, managing international assignments, global talent management) relevant to effective strategic management and business development in important countries and regions of the global economy. In addition, personal competencies and international issues are examined that are relevant to students' own future careers within the global workforce.

Prerequisites: INBA 3810, MGMT 3610.

MGMT 4680

Employee Relations and Retention

3 Semester Hours

Employee Relations is the functional area of Human Resource Management whose primary focus is to develop and maintain effective working relationships with employees within union and non-union environments. At a minimum, it is the task of managers and HR professional to have the knowledge and ability to adhere to organizational policy and state and federal labor law. However, to be truly competitive, managers and HR professionals must strive to advance beyond the minimum standards and focus on the development and retention of their employees as well. This course will present an in-depth overview to Employee Relations along with best practice retention strategies currently employed by leading organizations. This class is designed to address several key questions related to Employee Relations and Retention: 1) What skills are needed by employees, managers, and HR professional to be successful in this arena? 2) Why do we care about Employee Relations and Retention? 3) Who are the primary stakeholders and what are the interrelationships? 4) How does organizational context affect Employee Relations and Retention? Employee Relations and Retention are critical to the bottom line success of organizations. As future employees, managers, and perhaps for some students, Human Resource professionals, it is critical to be familiar with the fundamental laws, policies, programs, and skills related to developing oneself and the organization's human capital.

Prerequisite: MGMT 3610.

MGMT 4690

Strategic Human Resource Management

3 Semester Hours

In this course students learn from lectures, cases, and assigned readings about how the various areas of the human resource function (e.g., HR planning, staffing, training, performance management, compensation, employee relations) contribute to an organization's productivity and competitive advantage. A major emphasis is placed on how the human resource function supports effective organization strategy formulation and implementation, as the central role of all managers as HR practitioners in their daily workforce interactions and challenges.

Prerequisite: MGMT 3610.

MGMT 4698

Special Studies

1-3 Semester Hours

MGMT 4699

Independent Studies

1-3 Semester Hours

Requires approval of the Associate Dean.

Marketing

MRKT 3510

Principles of Marketing

3 Semester Hours

This course covers the essential principles of marketing as a vital component of a business operation, emphasizing marketing's strategic bases and the real-world utilization of both traditional and innovative techniques to influence both the trade and the consumer in making a purchase decision. We will focus on the effects of uncontrollable factors in the environment. In addition, basic controllable variables essential to marketing success will be examined, including marketing analysis, product decisions, pricing, distribution, and promotion. We will explore how marketing guides business strategy, discovers and creates demand for products, and influences product development.

Prerequisites: BADM 1010; ECON 100 or 105 or 110; PSYC 100.

MRKT 3520

Marketing Analysis

3 Semester Hours

The course will introduce students to the basic tools and concepts used for acquiring and evaluating market information. Both qualitative and quantitative approaches to analyzing consumer attitudes and behaviors will be examined, and methods for understanding trends in the marketing environment will be discussed.

Prerequisite: MRKT 3510.

MRKT 3530

Buyer Behavior

3 Semester Hours

This course is designed to refocus the student on the buyer as the object of marketing programs. Social science concepts (from psychology, sociology, anthropology, and economics) are used to examine influences on buyer behavior, as well as to study the buyer decision process itself. Emphasis will be put on how marketers use this knowledge to develop their overall strategies.

Prerequisite: MRKT 3510.

MRKT 3570**Marketing Law***3 Semester Hours*

To acquaint students with fundamental concepts, principles, and rules of marketing law that concern marketers and consumers in day-to-day activities, in private business relationships, and in their relationship with government. The course will focus on various legal constraints, problems and ramifications which should be recognized and addressed by marketers when making pricing, product, promotion, and distribution decisions.

Prerequisites: BLAW 2210 and MRKT 3510.

MRKT 3597**Internship***1 Semester Hour*

The objective of this one-semester-hour course is to help students achieve a worthwhile learning experience relevant to their major program of study. The internship, conducted with an off-campus organization, will help the student gain insights relative to his/her strengths and weaknesses in the job environment.

Prerequisite: MRKT 3510.

MRKT 4510**Advertising and Promotion Management***3 Semester Hours*

This course is designed to introduce students to the field of advertising and promotion in an applied fashion. The emphasis in this course will be on the role of advertising and other promotional mix elements in the integrated marketing communications program (IMC) of an organization. The development of an integrated marketing communications program requires an understanding of the overall marketing process, how companies organize for advertising and other promotional functions, customer behavior, communications theory, and how to set goals, objectives, and budgets. Attention will be given to the various IMC tools used in contemporary marketing including advertising, direct marketing, Internet and interactive marketing, sales promotion, publicity and public relations, and personal selling. We will examine the process by which integrated marketing communications programs are planned, developed, and executed as well as the various factors and considerations that influence this process. We will also discuss the environment in which advertising and promotion takes place and the various regulatory, social, and economic factors that affect an organization's IMC program.

Prerequisites: MRKT 3510, 3520, 3530.

MRKT 4515**Managing Retail and Service Businesses***3 Semester Hours*

The U.S. economy is now dominated by the retail and services sectors. Moreover, understanding and strategically managing customer service is now becoming a critical determinant of business success or failure. Yet, most business school courses have traditionally focused on the manufacturing sector of the economy. This is a potential problem, because the management and marketing of service or retail businesses involve methods, strategies, and analytical tools that are distinct from those used in other areas of business. At the same time, the successful marketing of services and the delivery of excellent service are critical elements in the achievement of customer satisfaction and thus the long-term success for virtually all organizations. The purpose of this course is to provide students with an understanding and appreciation of retail and services marketing as separate and distinct areas of marketing thought and practice, their critical roles in contemporary competitive markets, and the tools and strategies necessary for managing successful enterprises in these areas. This course is especially designed for those students who anticipate working in retail or service businesses, or who wish to better understand how these forms of businesses are managed. The

course will discuss an overarching philosophy that stresses the importance of the integration of the marketing, human resources, and operations functions within the service and retail systems.

Prerequisite: MRKT 3510.

MRKT 4525**Competitive Strategy***3 Semester Hours*

This course provides an in-depth analysis of competition and competitive strategy in the context of business from both theoretical and applied perspectives. Whereas numerous business classes discuss competitive environments, this course focuses exclusively on theories and strategies that can be used to achieve and enhance competitive advantage in the business marketplace. Competitive models, strategic metaphors, and concepts from game theory are explored in detail. Most importantly, the notions of competitive evolution and interdependence are emphasized and extensively explored. These concepts are then illustrated as they are commonly applied in the business world to enhance an enterprise's market position. Additionally, the great dangers of applying "cookbook strategies" or off-the-shelf solutions to competitive situations are explained and illustrated.

Prerequisites: MRKT 3510, 3520, 3530.

MRKT 4530**Sports Marketing***3 Semester Hours*

This course will introduce students to the unique nature of sport marketing at both the professional and amateur levels. The course will cover the unique aspects of sport marketing and how marketing concepts such as strategic planning and segmentation apply to sport marketing. Students will be introduced to the interrelationship of integrated marketing communications and sport and develop an understanding of sport as industry and the fan as consumer.

Prerequisite: MRKT 3510.

MRKT 4540**Professional Selling***3 Semester Hours*

An examination of the sales function, encompassing the broad range of methods that sales professionals may employ to build marketing relationships. Steps in the selling process will be explored, including techniques for engaging customers, identifying needs, handling objections, negotiating, requesting orders, and developing and maintaining long term relationships. A particular emphasis will be placed on the role of technology in contemporary sales activities.

Prerequisite: MRKT 3510.

MRKT 4545**New Product Development***3 Semester Hours*

The development of new products represents one of the most promising avenues by which firms can exploit to maintain and expand their market position in today's dynamic markets. The course provides a practical introduction to the process of designing and marketing new products and it covers the major phases of product development and launch. All of the critical steps in the new product development process will be discussed in detail, including: opportunity identification and analysis, concept development and testing, product design and pre-market testing and forecasting, and the management and control of the product launch. The particular focus of this class is upon the marketing function. Thus, the class will concentrate on market measurement, the use of that information to develop the benefit targets for the new product, and the ultimate development of marketing mixes (product, price, place, promotion) that will improve the chances for success. As such, the class will

provide techniques to interface the marketing function with the functions of R&D, design engineering, and manufacturing, but it is beyond the scope of the course to emphasize these functions *per se*. The course will be relevant to students who expect to work directly in brand or product management as well as those whose interests are in general management and consulting.

Prerequisites: MRKT 3510, 3520, 3530.

MRKT 4550

Brand Management

3 Semester Hours

The objective of this course is to learn the decision-making processes used by product or brand managers with primary responsibility for the market success of the company's products and services, including environmental scanning and coordination of marketing activities for the firm's offerings.

Prerequisite: MRKT 3510.

MRKT 4555

Marketing to Companies

3 Semester Hours

In the business market, the customers are organizations (e.g., businesses, governments, and institutions), and these customers represent a huge market opportunity. While we think of companies like Procter & Gamble, Sony, or Ford as sellers, they are also organizational buyers that annually purchase enormous quantities of raw materials and manufactured component parts; they purchase supplies and business services regularly to support operations, and they make large investments in building, equipment, and information technology. It's important to know that building and maintaining a close relationship with an organizational buyer require careful attention to details, meeting promises, and swiftly responding to changing demands.

Prerequisite: MRKT 3510.

MRKT 4560

Supply Chain Management and Logistics

3 Semester Hours

This course takes a look at the front-end functions of marketing planning, logistical planning, business relationships, networking, and the marketing benefits of business collaboration inherent in the dynamic channels of distribution used in a global business environment.

Prerequisites: MRKT 3510, 3520, 3530.

MRKT 4570

Pricing Goods and Services

3 Semester Hours

The focus of this course is upon the function of price as a driver of profit. Particular attention will be given to the roles of customers, costs, and competitors as key concerns when developing pricing strategies. All aspects of pricing within the marketing and business environment will be examined, including theories and models of pricing strategy, and common pricing techniques used in contemporary business practice.

Prerequisites: ACCT 2110, 2120; MRKT 3510, 3520, 3530.

MRKT 4575

Strategic Marketing for Non-Profit Organizations

3 Semester Hours

This course combines traditional studies and 15-30 hours of community-based learning with a non-profit organization selected by the student in concert with LMU's Center for Service and Action. We will study the constructs and application of marketing principles and practices in the non-

profit organizations, focusing on those addressing social issues and causes, with a special emphasis on the service of faith and justice. We will explore a variety of techniques non-profit marketers use to further their missions and causes, which include 1) identifying and serving the needs of customers/clients, 2) co-creating value for multiple stakeholders, 3) developing relationships with donor/volunteer, 4) creating partnerships with private sector partners. Through readings, lectures, discussion cases, training seminars/workshops, and community-based learning experiences, students will develop a basic framework for strategic thinking and decision-making in this sector. Students will consider these perspectives while applying marketing concepts including segmentation, positioning, branding, strategic alliance, and the marketing mix.

Prerequisite: MRKT 3510.

MRKT 4580

Marketing and Society

3 Semester Hours

This course examines the roles individuals play in society and the economy through the acts of shopping, consuming, discussing, displaying, and disposing of goods and services. In addition, the processes by which organizations conceptualize, reinforce, and exploit these roles in the marketing of goods and services will be examined.

Prerequisite: MRKT 3510.

MRKT 4585

Consumer Research and Analysis

3 Semester Hours

This course covers the application of consumer analysis from the perspectives of demographic, trends, and forecasting. Social, cultural, and psychological factors influencing consumers' decision-making processes will be examined through qualitative and quantitative methods. The overall emphasis will be toward determining implications and conclusions to be drawn from the understanding of consumers and purchase decisions. This course seeks to leverage and deepen knowledge from the marketing core by addressing how consumers understand applications within the marketing sector.

Prerequisites: MRKT 3510, 3520, 3530.

MRKT 4597

Marketing Strategy in the Global Environment

3 Semester Hours

This is the capstone course for students completing the marketing major. This course provides a comprehensive framework for the development of competitive marketing strategies that achieve organizational objectives and build competitive advantage. It teaches students the fundamentals of strategic analysis and strategy development within the context of the global business environment. The course emphasizes the major analytical, ethical, and strategic frameworks of marketing, as specifically implemented within the complex contemporary conditions of global business relationships and activities. The course incorporates experiential learning, case studies, and a simulation project.

Must be taken in residence at LMU with senior standing.

College of Business Administration students only.

Prerequisites: MRKT 3510, 3520, 3530.

MRKT 4598

Special Studies

1-3 Semester Hours

MRKT 4599

Independent Studies

1-3 Semester Hours

Requires approval of the Associate Dean.

Master of Business Administration

Core Curriculum Courses

The core curriculum courses, prefixed MBAA, comprise the first level or common body of knowledge in business administration. All core courses must be taken or waived before students may proceed to the advanced curriculum. Exceptions must be approved by the Associate Dean.

MBAA 601

The Legal and Ethical Environment of Business

3 Semester Hours

The factors present in the external environments of business relative to business law and political entities that must be dealt with by business managers. Interrelated ethical considerations will be explored along with such topics as agency, contracts, business organizations, property, the court system, and business interfaces with local, state and federal governments.

MBAA 602

Financial and Managerial Accounting

3 Semester Hours

The nature, techniques, and uses of accounting from a manager's perspective. Topics include accounting methodology, corporate financial statements and disclosures, alternative accounting measurement techniques, interpreting quality of earnings, strategic planning, and operational decision making.

MBAA 603

Business Statistics

3 Semester Hours

The use of basic statistics, probability concepts, sampling distributions, hypothesis tests, correlation/regression analysis and analysis of variance for making rational business decisions under conditions of risk and uncertainty. Applications of the computer and standard software packages as management tools are used to simplify and facilitate this process.

MBAA 604

Business Economics

3 Semester Hours

Macro and micro economic theories are studied and applied to business situations to facilitate decision-making relevant to the domestic and international marketplaces.

MBAA 605

Management and Organizational Behavior

3 Semester Hours

The study of management as it relates to individual, small group, and total organizational systems. Topics covered include management principles, international management, leadership, motivation, and interpersonal communication. The course also includes a focus on ethical issues and the social responsibilities of the manager in a complete global environment.

MBAA 606

Marketing Management

3 Semester Hours

This course is concerned with the role of marketing in a market economy and within modern organizations. Emphasis will be placed upon market-

ing concepts and activities which comprise successful marketing practices. The student will be introduced to decision-making tools in such areas as product development and positioning, pricing strategy, supply chain management, and integrated marketing communications.

Prerequisite: MBAA 604.

MBAA 607

Operations Analysis and Decision Support Systems

3 Semester Hours

A decision-making approach involving computer applications. Topics include linear programming, forecasting project management, simulation, queuing theory, and decision trees.

Prerequisite: MBAA 603.

MBAA 608

Financial Management

3 Semester Hours

An examination of methods and instruments useful to financial managers of business enterprises for making investment, dividend, and financial decisions and in managing working capital.

Prerequisites: MBAA 602, 603, and 604.

MBAA 609

Management Information Systems

3 Semester Hours

An overview of planning, analysis and design, implementation, and operation and control of information technology for business environments. Primary emphasis is placed on the role of the manager in a computer-based information system environment.

Prerequisite: MBAA 605.

Advanced Curriculum Courses: Areas of Emphasis

The advanced Curriculum comprises eight Areas of Emphasis or fields of business study, plus the Integrative Experience. The Areas of Emphasis are: Management and Organizational Behavior (MBAB), Marketing Management (MBAC), Information and Decision Sciences (MBAD), Human Resource Management (MBAE), Financial Decision Systems (MBAF), International Business Systems (MBAG), Entrepreneurial Organizations (MBAH), and Accounting Decision Systems (MBAJ). These elective courses are taken after the completion of the core courses. These courses are comprehensive of the field but are taught at a higher level than that of the prerequisite core course(s) and are designed for highly qualified students who seek greater depth of knowledge.

MBAB: Management and Organizational Behavior

Courses in this area of emphasis prepare the student with the principles and basic concepts underlying the management of business organizations. Courses in behavioral concepts, managerial strategy, management theory, and process management are included in this broad field. It is strongly recommended that all students take at least one advanced course in management.

MBAB 613

Performance Management

3 Semester Hours

Key principles, methods and techniques are presented for enhancing employee productivity through performance problem analysis, work design, coaching, training and skill development, performance appraisal system design and implementation, employee correction and discipline, interpersonal communication skills, team development and manage-

ment, empowerment, and other formal and informal performance management systems. Includes Human Resource performance management issues and methods appropriate for the small and medium-sized enterprise. Critical legal aspects of performance management are also covered. Also listed as MBAE 613 and MBAH 613.

Prerequisite: MBAA 605.

MBAB 614

Advanced Communication for Managers

3 Semester Hours

This is a practical course focused on the sharpening of interpersonal communication skills that lead to successfully managing others. Topics will include theory and skills for strengthening one's interpersonal communication abilities, leading groups, presenting ideas, and the effective use of power in the workplace.

Prerequisite: MBAA 605.

MBAB 615

Program Management

3 Semester Hours

The use of basic management concepts in the operational management of projects and programs that operate within the framework of larger firms by utilizing matrix structures and systems approaches. Also listed as MBAH 615.

Prerequisite: MBAA 605.

MBAB 621

Managing in the Multicultural Workplace

3 Semester Hours

Drawn to areas of economic traction, the immigrant populations participate in fueling the economic growth, creating a diverse workplace with a multicultural workforce in the process. Business issues relating to these demographic realities, superficially in the Los Angeles area, such as immigration and settlement patterns, workforce and market participation, and the process of assimilation will be analyzed. Intercultural communication, prejudice as a management concern, operational challenges and strategic questions will be defined and explored. Also listed as MBAE 621.

Prerequisite: MBAA 605.

MBAB 622

Management Consulting

3 Semester Hours

This course is primarily intended for the individual who is considering becoming a full-time independent consultant, but also has value for those considering joining a large firm and for those considering only a part-time consulting career. There will be a focus on the consultant's ability to cut to the main issues, understand them, formulate alternative responses, and present those alternatives in a way the client can quickly understand the recommended action. Business experience is a plus. Also listed as MBAH 622.

Prerequisite: MBAA 605.

MBAB 636

Managing Organizational Change and Development

3 Semester Hours

This course will focus on investigation of the emerging field of Organization Development (OD), including its major theories, basic concepts and primary intervention/change strategies. This course will focus on assessing the health/ effectiveness of an organizational system and plan-

ning an intervention/change strategy to increase the effectiveness of the organization. Also listed as MBAE 636.

Prerequisite: MBAA 605.

MBAB 640

International Strategic Management

3 Semester Hours

The formulation and implementation of business and corporate strategies for worldwide operations in the increasingly global economy, as opposed to those purely domestic firms or firms marginally involved in international activities, is examined. The most recently developed approaches and concepts are discussed and applied through the use of extensive international case studies and current readings. Also listed as MBAG 640.

Prerequisite: MBAA 605; one international elective also recommended.

MBAB 641

International Management

3 Semester Hours

Differences in political, economic, and socio-cultural environments around the world challenge managers with opportunities and risks. The primary objective of the course is to help the students achieve understanding of the international business environment and evaluate the agenda facing managers operating in international business contexts. Also listed as MBAG 641.

Prerequisite: MBAA 605.

MBAB 650

Environmental Strategy

3 Semester Hours

This course sensitizes students to the broad range of environmental issues affecting business and society today. It examines how society's increasing concern for the natural environment is having a major impact on business firms as well as how business is affecting the environment. Theoretical frameworks and case studies are used. A strategic approach is emphasized.

Prerequisite: MBAA 605.

MBAB 651

Ethical Issues in Business

3 Semester Hours

This course introduces students to the two dominant philosophical traditions used in analyzing ethical issues in business: 1) evaluating the amount and type of benefits and/or harm that will result from an action, and 2) evaluating the intrinsic character of an action. After getting comfortable with the basic theory, students apply these approaches to numerous ethical dilemmas in business. In this respect, the course is about learning a new way of evaluating problems and making decisions. This course also discusses: the issue of the relationship between the moral character of our actions and the health of the human personality, and the claim that men and women may perceive and resolve ethical dilemmas differently.

Prerequisite: MBAA 605.

MBAB 670

Small Business Strategy

3 Semester Hours

This course explores strategy development, implementation, and control in small businesses. The interdependence of strategic management, leadership and operational tools and techniques are used to address the effective management of a firm's growth. Class materials, individual

research, and case analyses are used to evaluate small-company strategic and operational issues. Business experience required. Also listed as MBAH 670.

Prerequisites: MBAA 605, 606, and 608.

MBAB 680

Advanced Topics in Managerial Policy and Strategy

3 Semester Hours

Case histories are documented, reviewed, analyzed and interpreted from the perspective of the functional specialist operating as part of the strategic management team. Concepts comprising the course will be applicable to both large and small enterprises. The student will develop skill in identifying and focusing on the key issues which must be addressed from an overall strategic perspective.

Prerequisite: MBAA 605.

MBAB 685

Power, Politics, and Negotiation in Organizations

3 Semester Hours

A study of organizational politics and power applications within the organization. The focus is a positive practical understanding and application of power within organizations. Inter- and intra-organizational negotiation techniques are also explored from theoretical and practical standpoints. Also listed as MBAE 685.

Prerequisite: MBAA 605.

MBAB 696

Directed Research in Management

3 Semester Hours

MBAB 698

Special Studies

1-3 Semester Hours

Prerequisite: as designated by the MBA Office.

MBAB 699

Independent Studies

1-3 Semester Hours

Prerequisites: MBAA 601-609.

MBAC: Marketing Management

As defined by The American Marketing Association, "Marketing consists of individual and organizational activities that facilitate and expedite satisfying exchange relationships in a dynamic environment through the creation, distribution, promotion, and pricing of goods, services, and ideas." As such, marketing is concerned with the manner in which the enterprise, profit or not-for-profit, interacts with its customers, competition, suppliers, distributors, and government.

MBAC 612

Advanced Marketing Management

3 Semester Hours

This course is a case-based extension of marketing management, focusing on cutting-edge issues faced by marketers. Students will enter actual organizations to develop cases based upon current concerns, and reading assignments will be drawn from the most recent articles on marketing subjects. The goal is to go beyond the textbooks to expose students to the latest marketing topics, technologies, and practices.

Prerequisite: MBAA 606.

MBAC 613

Consumer Behavior

3 Semester Hours

This course is designed to refocus the student on the consumer as the object of marketing efforts. Social science concepts, drawn from such fields as psychology, sociology, anthropology, and economics, are used to examine influences on consumer choices, as well as to study the consumer decision process itself. Emphasis will be placed on how marketers use this knowledge to develop effective marketing programs.

Prerequisite: MBAA 606.

MBAC 614

Marketing Research

3 Semester Hours

This course is concerned with the application of both qualitative research methodology to resolve marketing questions. Students will study the role of marketing research within the organization's planning and strategic efforts, and will be involved in the design, execution, analysis, and implementation of a comprehensive research project.

Prerequisite: MBAA 606.

MBAC 617

Direct Response Marketing

3 Semester Hours

This course will focus on how the marketing concept has increased the use of direct response marketing in the U.S. Database development and use, the media of direct response marketing, and the design and production of direct mail pieces will be covered.

Prerequisite: MBAA 606.

MBAC 618

Entrepreneurial and Small Business Marketing

3 Semester Hours

Traditional marketing approaches often assume large budgets, well-organized management structures, available information and power in the marketplace. Small and entrepreneurial business now constitutes a critical sector of the global economy, and the unique needs of such enterprises must be addressed. This course examines how marketers in emergent firms may challenge major competitors through the use of niche strategies, guerrilla techniques, and general creativity. Also listed as MBAH 618.

Prerequisite: MBAA 606.

MBAC 619

Marketing Strategies for Innovative Products and Services

3 Semester Hours

This course will explore concepts and practices related to marketing in the volatile and fast-paced high-tech environment. The course will provide a balance between conceptual discussions and applied/hands-on analysis. The objectives include obtaining an understanding of the concepts and frameworks of high-tech industries and their marketing implications, the use of strategic alliances and partnerships in marketing technology, and the current knowledge and adaptations of the "4 p's" to the high-tech market place.

Prerequisite: MBAA 606.

MBAC 647

International Marketing

3 Semester Hours

This course will examine marketing management and planning factors and techniques required for success in a global environment. Students will develop an appreciation for the external forces which shape the international marketer's decisions and will study strategic decision-making used by international firms as they enter and adapt to new cultures and nations. Also listed as MBAG 647.

Prerequisite: MBAA 606.

MBAC 660

Marketing Strategy

3 Semester Hours

Includes an emphasis on development and implementation of marketing strategy and marketing planning. This course is designed to provide the student with advanced theoretical and practical approaches of those methodologies that lead toward survival and growth in the marketing and competitive environments. Marketing strategy concepts are reviewed in detail.

Prerequisite: MBAA 606.

MBAC 662

Product and Brand Management

3 Semester Hours

This class addresses important decisions faced by an organization. The objectives will be to increase an understanding of the important issues in planning and to provide the appropriate theories, models, and other tools to make better branding decisions. Emphasis is placed on understanding psychological principles at the consumer level that will improve managerial decision making with respect to brands.

Prerequisite: MBAA 606.

MBAC 663

Business-to-Business Marketing

3 Semester Hours

Although firms marketing products and services to other organizations, rather than to final consumers, account for a majority of our economy, marketing was slow to acknowledge the importance of such exchanges. This course focuses on the analysis of issues emerging when the buyer is an organization. Topics include relationship marketing, organizational buying behavior, and marketing of technology.

Prerequisite: MBAA 606.

MBAC 664

Advertising and Promotional Strategy

3 Semester Hours

The field of Integrated Marketing Communications (IMC) is a recognition of the need for firms to coordinate their various promotional activities and expenditures to achieve overall objectives. This course will cover advertising, public relations, sales promotions, and direct marketing theory and technique and their interrelationships. Students will develop a promotional strategy for an organization using complementary elements of each of these tools.

Prerequisite: MBAA 606.

MBAC 676

The Environment of Business in the European Union

3 Semester Hours

This course will examine the European Union as both a major part of the global marketplace and a policymaking body. Cultural aspects of doing business there will be highlighted and contrasted with other regional areas. Historical references will be included to enhance understanding. Finally, the course addresses current EU issues. Throughout, the major

focus will be how all of this impacts marketing practice. Also listed as MBAG 676.

Prerequisite: MBAA 606.

MBAC 698

Special Studies

1-3 Semester Hours

Prerequisite: As designated by the MBA Office.

MBAC 699

Independent Studies

1-3 Semester Hours

Prerequisites: MBAA 601-609.

MBAD: Information and Decision Sciences

Courses in this area of emphasis provide the student with the skills necessary to function in a computer-oriented environment. Information management and decision-making skills are developed by combining theory and practice through the use of computer-aided projects and cases.

MBAD 611

Information Systems Analysis and Design

3 Semester Hours

An in-depth study of business information systems development that deals with fundamental concepts and issues essential to the analysis and design of information systems from both the technical and organizational perspectives. Issues associated with information requirements of enterprises, the roles played by the analysts, designers, and users, as well as current topics are discussed. The course introduces the student to computer based software tools for information Systems Analysis and Design.

Prerequisite: MBAA 609.

MBAD 612

Management Support Systems

3 Semester Hours

An in-depth study of the foundations and applications of computer-based tools that support the functions and activities of managers. It includes, but is not limited to, components on decision support systems, executive support systems, and expert systems. Integrates hands-on experience in the development of applications with theoretical structure of decision making.

Prerequisite: MBAA 609.

MBAD 613

Database Management Systems

3 Semester Hours

An in-depth analysis of the strategies employed in the development of generalized database management systems. Explores data and file structures, the network, hierarchical and relational models, and methods of structured design. Students will be expected to participate in the development of a small database.

Prerequisite: MBAA 609.

MBAD 614

Electronic Business

3 Semester Hours

A study of how to plan, analyze, design, develop, and implement information systems to support business activity via electronic mediums, such as the Internet, with an emphasis on the management issues involved. Also includes an assessment of current business and technology factors that impact such business activity.

Prerequisite: MBAA 609.

Recommended: MBAD 611 or 613.

MBAD 617

Optimization and Financial Engineering

3 Semester Hours

This course introduces advanced optimization modeling techniques that support financial decision-making. Provides hands-on experience in the development of spreadsheet optimization models for applications in cash budgeting, portfolio management, short-term financial planning, capital budgeting, and project management. Also listed as MBAF 617.

Prerequisites: MBAA 607 and 608.

MBAD 619

Risk Analysis and Financial Modeling

3 Semester Hours

This course introduces advanced quantitative model building skills for financial risk analysis. Provides hands-on experience in the development of spreadsheet simulation and forecasting models for applications in valuation, capital budgeting, mergers and acquisitions, option pricing, and portfolio management. Also listed as MBAF 619.

Prerequisites: MBAA 607 and 608.

MBAD 698

Special Studies

1-3 Semester Hours

Prerequisite: As designated by the MBA Office.

MBAD 699

Independent Studies

1-3 Semester Hours

Prerequisites: MBAA 601-609.

MBAE: Human Resource Management

Courses in this area of emphasis expose the student to the human resource management (HRM) function. Within the HRM area, major topics pertinent to management success include planning and linking HRM to organizational strategy, staffing, training, career management, performance appraisal, compensation, labor relations, safety and health, employment law and Affirmative Action, and international HRM issues.

MBAE 611

Human Resource Management and Career Development

3 Semester Hours

This course provides a broad overview to fill critical information and skill needs of all managers for effectively managing an organization's human resources. Key topics include human resource planning, staffing, training, performance evaluation, compensation, health and safety, labor law, and equal employment guidelines. An important emphasis is on effective career planning in organizations, both for managers themselves and their subordinates.

Prerequisite: MBAA 605.

MBAE 613

Performance Management

3 Semester Hours

Key principles, methods, and techniques are presented for enhancing employee productivity through performance problem analysis, work design, coaching, training and skill development, performance appraisal system design and implementation, employee correction and discipline, interpersonal communications skills, team development and management, empowerment and other formal and informal performance management systems. Includes Human Resource performance management issues and methods appropriate for the small- and medium-sized enterprise. Critical legal aspects of performance management are also covered. Also listed as MBAB 613 and MBAH 613.

Prerequisite: MBAA 605.

MBAE 621

Managing in the Multicultural Workplace

3 Semester Hours

Drawn to areas of economic traction, the immigrant populations participate in fueling the economic growth, creating a diverse workplace with a multicultural workforce in the process. Business issues relating to these demographic realities, superficially in the Los Angeles area, such as immigration and settlement patterns, workforce and market participation, and the process of assimilation will be analyzed. Intercultural communication, prejudice as a management concern, operational challenges and strategic questions will be defined and explored. Also listed as MBAB 621.

Prerequisite: MBAA 605.

MBAE 630

Strategic Human Resource Management

3 Semester Hours

This course examines important HRM topics that are closely involved in the successful formulation and implementation of strategy within organizations for achieving competitive advantage, including strategic human resource planning and staffing, organizational culture and leadership, communication, compensation and reward systems, managing organizational change and development, and building learning organizations.

Prerequisite: MBAA 605.

MBAE 636

Managing Organizational Change and Development

3 Semester Hours

This course will focus on an investigation of the emerging field of Organization Development (OD), including its major theories, basic concepts and primary intervention/change strategies. This course will focus on assessing the health/effectiveness of an organizational system and how planning an intervention/change strategy will increase the effectiveness of the organization. Also listed as MBAB 636.

Prerequisite: MBAA 605.

MBAE 637

International Management of Human Resources

3 Semester Hours

This course examines key issues and problems involved in managing human resources on a global scale. In addition to comparative analysis of traditional HRM areas such as staffing, training, performance appraisal, and compensation, special topics include expatriate preparation, repatriation, and managing a foreign and culturally diverse workforce. Also listed as MBAG 637.

Prerequisite: MBAA 605.

MBAE 685**Power, Politics, and Negotiation in Organizations***3 Semester Hours*

A study of organizational politics and power applications within the organization. The focus is a positive practical understanding and application of power within organizations. Inter- and intra-organizational negotiation techniques are also explored from theoretical and practical standpoints. Also listed as MBAB 685.

Prerequisite: MBAA 605.

MBAE 698**Special Studies***1-3 Semester Hours*

Prerequisite: As designated by the MBA Office.

MBAE 699**Independent Studies***1-3 Semester Hours*

Prerequisites: MBAA 601-609.

MBAF: Financial Decision Systems

The Financial Decision Systems area of emphasis provides an understanding of the operations of money and capital markets, the valuation of the firm in the market, and how the techniques of financial management affect that valuation. Students who choose the Financial Decision Systems area of emphasis will find it appropriate for careers in investing, financial analysis, financial operations, and related fields.

MBAF 611**Financial Markets***3 Semester Hours*

This course introduces students to the various financial markets. Emphasis is on the history and development of each market as well as changes in the markets over recent years. The impact of factors such as technology, regulation, political and global environments on the operations of these markets will be discussed.

Prerequisite: MBAA 608.

MBAF 612**Financial Institutions***3 Semester Hours*

This course introduces students to the various financial institutions. Emphasis is on the purpose of each institution and changes in that purpose over recent years. The impact of factors such as regulation, taxes, and the global environment on the management of these institutions will be discussed.

Prerequisite: MBAA 608.

MBAF 615**Tax Planning for Management Decisions***3 Semester Hours*

An analysis of the effects of the tax law on the investment and business decisions of individuals and organizations. The course will survey tax principles that managers should understand whether they are a sole proprietor or an executive in a partnership or corporation. Tax planning and savings opportunities from the perspective of the entrepreneur, the business enterprise, the employee and the investor will be emphasized. Also listed as MBAJ 615.

Prerequisites: MBAA 602 and 608.

MBAF 617**Optimization and Financial Engineering***3 Semester Hours*

This course introduces advanced optimization modeling techniques that support financial decision-making. Provides hands-on experience in the development of spreadsheet optimization models for applications in cash budgeting, portfolio management, short-term financial planning, capital budgeting, and project management. Also listed as MBAD 617.

Prerequisites: MBAA 607 and 608.

MBAF 619**Risk Analysis and Financial Modeling***3 Semester Hours*

This course introduces advanced quantitative model building skills for financial risk analysis. Provides hands-on experience in the development of spreadsheet simulation and forecasting models for applications in valuation, capital budgeting, mergers and acquisitions, option pricing, and portfolio management. Also listed as MBAD 619.

Prerequisites: MBAA 607 and 608.

MBAF 620**Financial Strategy***3 Semester Hours*

A course that examines corporate level financial decision making with respect to policy and strategy determination.

Prerequisite: MBAA 608.

MBAF 621**Current Trends in Finance***3 Semester Hours*

This course will examine recent developments in finance. Specific topics for the semester will be described in the syllabus for the course.

Prerequisite: MBAA 608.

MBAF 623**Investments***3 Semester Hours*

Presents portfolio theory and security analysis. Describes the market for each security and available investment strategies. Presented from a personal investor perspective.

Prerequisite: MBAA 608.

MBAF 624**Mergers and Acquisitions***3 Semester Hours*

A capstone MBA entrepreneurial experience that looks at mergers, acquisitions, long-term capital investments, levered buyouts, and divestitures. Major management decisions attempting to exploit economic and market opportunities are investigated in regard to their impact upon shareholder wealth. Also listed as MBAH 624.

Prerequisite: MBAA 608.

MBAF 625**Real Estate Investments and Entrepreneurship**

3 Semester Hours

An entrepreneurial approach to real estate investment built around financial modeling, market area supply and demand analysis, risk analysis, mortgage alternatives, and taxation impacts. Merits of real property investment options and strategies are presented in a "real world" context. Also listed as MBAH 625.

Prerequisite: MBAA 608.

MBAF 648**International Finance***3 Semester Hours*

This course integrates investment, financing, and dividend policies and practices for multinational corporations. Topics include measuring and managing foreign exchange risk, foreign investment decisions, capital budgeting and cost of capital in an international perspective, political risk, working capital management, and international financial markets. Also listed as MBAG 648.

Prerequisite: MBAA 608.

MBAF 649**International Dimensions of Economic Strategy***3 Semester Hours*

This course is designed to help students develop a clear understanding of the issues surrounding international economic strategy and trade policy, and to provide analytical tools and framework with which critical assessment of opportunities and risks can be made. Also listed as MBAG 649.

Prerequisite: MBAA 608.

MBAF 698**Special Studies***1-3 Semester Hours*

Prerequisite: As designated by the MBA Office.

MBAF 699**Independent Studies***1-3 Semester Hours*

Prerequisites: MBAA 601-609.

MBAG: International Business Systems

This area of emphasis exposes the student to the international marketplace. The courses are grouped into four categories: Functional, Regional, Practicum, and Integrative. All prerequisite courses are at the core level (MBAA 601-609). Thus students who have completed the core may take any MBAG classes without having had previous international coursework. It is recommended, however, that students select courses from different groups rather than taking all their international classes in a single category. Note: This recommendation is a requirement for students seeking the Certificate in International Business.

Functional Courses (MBAG)

The functional courses address the basic functions of business and explore them from an international perspective.

MBAG 637**International Management of Human Resources***3 Semester Hours*

This course examines key issues and problems involved in managing human resources on a global scale. In addition to comparative analysis of traditional HRM areas such as staffing, training, performance appraisal, and compensation, special topics include expatriate preparation,

repatriation, and managing a foreign and culturally diverse workforce. Also listed as MBAE 637.

Prerequisite: MBAA 605.

MBAG 640**International Strategic Management***3 Semester Hours*

The formulation and implementation of business and corporate strategies for worldwide operations in the increasing global economy, as opposed to those of purely domestic firms or firms marginally involved in international activities, is examined. The most recently developed approaches and concepts are discussed and applied through the use of extensive international case studies and current readings. Also listed as MBAB 640.

Prerequisite: MBAA 605.

MBAG 641**International Management***3 Semester Hours*

Differences in political, economic, and socio-cultural environments around the world challenge managers with opportunities and risks. The primary objective of the course is to help the students achieve understanding of the international business environment and evaluate the agenda facing managers operating in international business contexts. Also listed as MBAB 641.

Prerequisite: MBAA 605.

MBAG 646**International Entrepreneurship***3 Semester Hours*

This course focuses on international small business venture initiation process and seeks to develop your knowledge and skills in three key components of international entrepreneurship: initiating entrepreneurial venture, managing basic international business transactions, and dealing in multicultural business environments. Also listed as MBAH 646.

Prerequisites: MBAA 605, 606, and 608.

MBAG 647**International Marketing Management***3 Semester Hours*

This course will examine marketing management and planning factors and techniques required for success in a global environment. Students will develop an appreciation for the external forces which shape the international marketer's decisions and will study strategic decision-making used by international firms as they enter and adapt to new cultures and nations. Also listed as MBAC 647.

Prerequisite: MBAA 606.

MBAG 648**International Finance***3 Semester Hours*

This course integrates investment, financing, and dividend policies and practices for multinational corporations. Topics include measuring and managing foreign exchange risk, foreign investment decisions, capital budgeting and cost of capital in an international perspective, political risk, working capital management, and international financial markets. Also listed as MBAF 648.

Prerequisite: MBAA 608.

MBAG 649**International Dimensions of Economic Strategy***3 Semester Hours*

This course is designed to help students develop a clear understanding of the issues surrounding international economic strategy and trade policy, and to provide analytical tools and frameworks with which critical assessment of opportunities and risks can be made. Also listed as MBAF 649.

Prerequisite: MBAA 608.

Practicum Course (MBAG)

The practicum course provides students with specific information about the operational aspects of the international marketplace. Its major thrust is the study of practice rather than functional principle.

MBAG 676**The Environment of Business in the European Union***3 Semester Hours*

This course will examine the European Union as both a major part of the global marketplace and a policymaking body. Cultural aspects of doing business there will be highlighted and contrasted with other regional areas. Historical references will be included to enhance understanding. Finally, the course addresses current EU issues. Throughout, the major focus will be how all of this impacts marketing practice. Also listed as MBAC 676.

Prerequisite: MBAA 606.

Regional Course (MBAG)

The regional course explores the relevant strategies for managing within the economic, social, political, and cultural systems of the international marketplace.

MBAG 682**Regional Studies***3 Semester Hours*

Prerequisites: MBAA 601, 604, 605, and 606.

Special Courses (MBAG)**MBAG 698****Special Studies***1-3 Semester Hours*

Prerequisite: As designated by the MBA Office.

MBAG 699**Independent Studies***1-3 Semester Hours*

Prerequisites: MBAA 601-609.

MBAH: Entrepreneurial Organizations

Courses in this area of emphasis are designed to give the student an in-depth understanding and appreciation of new venture operations including entrepreneurial ventures in small business, entrepreneurial ventures of large business, and project management systems of matrixed organizations. The student is oriented in the mechanics of starting new ventures, both from the small enterprise perspective and from the viewpoint of the larger enterprise. This area of emphasis provides the student with many practical concepts within a sound empirically-based theoretical framework on how to create a new product and bring it to market. The courses are designed to foster the entrepreneurial spirit and keep it alive

and to show the student how to optimize entrepreneurial results while holding risk at an acceptable level.

MBAH 611**Entrepreneurship***3 Semester Hours*

Sources of entrepreneurs and entrepreneurial opportunities are explored. Steps in starting a new venture, preparation of a business plan for this venture.

Prerequisites: MBAA 605, 606, and 608.

MBAH 613**Performance Management***3 Semester Hours*

Key principles, methods, and techniques are presented for enhancing employee productivity through performance problem analysis, work design, coaching, training and skill development, performance appraisal system design and implementation, employee correction and discipline, interpersonal communication skills, team development and management, empowerment, and other formal and informal performance management systems. Includes Human Resource performance management issues and methods appropriate for the small- and medium-sized enterprise. Critical legal aspects of performance management are also covered. Also listed as MBAB 613 and MBAE 613.

Prerequisite: MBAA 605.

MBAH 615**Program Management***3 Semester Hours*

The use of basic management concepts in the operational management of projects and programs that operate within the framework of larger firms by utilizing matrix structures and systems approaches. Also listed as MBAB 615.

Prerequisite: MBAA 605.

MBAH 617**Small Business Management and Law***3 Semester Hours*

This course focuses on the structure of law as it applies generally to syndications, franchises, and business opportunities; legal representation benefits to business opportunities; insurance and risk management, worker's compensation, health benefits; legal analytical skills to achieve business goals; also, the interface of business opportunities, government and regulatory agencies, wage and hour laws, architectural requirements, E.E.O.C. and disability compliance rules.

Prerequisites: MBAA 601 and 605.

MBAH 618**Entrepreneurial and Small Business Marketing***3 Semester Hours*

Traditional marketing approaches often assume large budget, well-organized management structures, available information and power in the marketplace. Small and entrepreneurial business now constitutes a critical sector of the global economy, and the unique needs of such enterprises must be addressed. This course examines how marketers in emergent firms may challenge major competitors through the use of niche strategies, guerrilla techniques, and general creativity. Also listed as MBAC 618.

Prerequisite: MBAA 606.

MBAH 622**Management Consulting***3 Semester Hours*

This course is primarily intended for the individual who is considering becoming a full-time independent consultant but also has value for those considering joining a large firm and for those considering only a part-time consulting career. There will be a focus on the consultant's ability to cut to the main issues, understand them, formulate alternative responses, and present those alternatives in a way that the client can quickly understand the recommended action. Business experience is a plus. Also listed as MBAB 622.

Prerequisite: MBAA 605.

MBAH 624**Mergers and Acquisitions***3 Semester Hours*

A capstone MBA entrepreneurial experience that looks at mergers, acquisitions, long-term capital investments, levered buyouts, and divestitures. Major management decisions attempting to exploit economic and market opportunities are investigated in regard to their impact upon shareholder wealth. Also listed as MBAF 624.

Prerequisite: MBAA 608.

MBAH 625**Real Estate Investments and Entrepreneurship***3 Semester Hours*

An entrepreneurial approach to real estate investment built around financial modeling, market area supply and demand analysis, risk analysis, mortgage alternatives, and taxation impacts. Merits of real property investment options and strategies are presented in a "real world" context. Also listed as MBAF 625.

Prerequisite: MBAA 608.

MBAH 630**Strategies for Technology Ventures***3 Semester Hours*

This course explores emerging trends and opportunities arising from innovations in science and technology and examines strategies that ventures utilize to exploit them. This course is designed to be approachable for all graduate students regardless of backgrounds and will be highly relevant for those interested in careers in management, marketing, and financing of technology. Through a collection of case studies, lectures, guest speakers, and projects that cover high-growth ventures, the student will gain an understanding of the basic opportunities and challenges around some of the most promising technologies. The purpose of the course is to offer the student the tools necessary to successfully identify a true business opportunity and to start, grow, and maintain a technology enterprise.

MBAH 646**International Entrepreneurship***3 Semester Hours*

This course focuses on international small business venture initiation process and seeks to develop your knowledge and skills in three key components of international entrepreneurship: initiating entrepreneurial venture, managing basic international business transactions, and dealing in multicultural business environments. Also listed as MBAG 646.

Prerequisites: MBAA 605, 606, and 608.

MBAH 670**Small Business Strategy***3 Semester Hours*

This course explores strategy development, implementation, and control in small businesses. The interdependence of strategic management, leadership, and operational tools and techniques are used to address the effective management of a firm's growth. Class materials, individual research, and case analysis are used to evaluate small-company strategic and operational issues. Business experience required. Also listed as MBAB 670.

Prerequisites: MBAA 605, 606, and 608.

MBAH 673**New Product Design and Development***3 Semester Hours*

This course is a team-taught course (professors from Engineering and MBA) that is cross-listed with MECH/SELP 673. The course includes both individual projects and assignments and a team project to create a new product, develop a prototype, and then develop a business plan for bringing the product to market. Each team will involve engineers and MBA students. In the past, the course has created outstanding results, including projects that are actually being taken to market. Teams have competed in international New Venture Competitions representing LMU.

Prerequisites: MBAA 606 and 608.

MBAH 698**Special Studies***1-3 Semester Hours*

Prerequisite: As designated by the MBA Office.

MBAH 699**Independent Studies***1-3 Semester Hours*

Prerequisites: MBAA 601-609.

MBAI: Integrative Experience Courses

The Integrative Experience provides a unique final capstone to the MBA Program. Three available options enable the student to provide focus for the knowledge gained in earlier courses. Integrative Experience courses are designed as capstone courses to culminate the student's graduate studies. Students should select and anticipate the scheduling of the course(s) that will provide the best possible conclusion to the MBA curriculum. Integrative courses should be taken toward the end of the Advanced Curriculum. The intent of the Integrative Experience is to focus the student's previous business training on a single conclusion. Through this opportunity, the student experiences the interrelationships and interactions that exist between all the functional areas of the modern business firm. Integrative Experience courses are both comprehensive and demanding of the student's time and effort.

MBAI 610**Management Strategy***3 Semester Hours*

This course deals with the strategic direction of the firm. Tools for the in-depth analysis of industries and competition and techniques for the analysis and creation of competitive advantage are presented. Issues of both formulation and implementation of strategy within the firm are explored. This course seeks to develop the capability to understand and evaluate a firm's strategic situation in depth and to advance viable approaches to addressing the key issues facing it.

Prerequisites: MBAA 601-609.

MBAI 688**CMS Preparation—Fall**

0 Semester Hours

This noncredit class is required for CMS activities and mandatory for those planning to participate in the CMS class departing in May. Students will register for this class as they would for any Fall semester course. No tuition is paid at the time of registration, but rather a CMS travel deposit is required. The class will meet one Saturday per month. The schedule will be posted outside the MBA Office.

MBAI 689**CMS Preparation—Spring***0 Semester Hours*

This noncredit class is equivalent to MBAI 688, but takes place in the Spring. Students will pay the remaining travel costs required for the CMS trip to be determined by the MBA Office. The balance will be due upon registration.

Prerequisite: MBAI 688.

MBAI 690**International Regional Strategies: Cultural and Industrial***3 Semester Hours*

Class sessions held over each month emphasize tools of analysis and comparison, international strategy, regional studies and the industry that has been selected for the year's focus. Individual papers are written on cultural aspects of the international region to be visited and on the group process to date. Group papers are written on the industry, and group presentations are given on visits to representative local firms visited by each group.

Prerequisites: Completion of the core plus MBAI 688 and 689.

MBAI 691**Comparative Management Systems (CMS)***3 Semester Hours*

The CMS course commences immediately at the conclusion of MBAI 690. Students continue with the same groups to visit business firms in a number of different countries. Their preparation in the previous course provides them a significant degree of industry and cultural awareness.

The duration of the trip is about three weeks. En route, the student groups conduct pre-arranged visits to firms in the designated industry and meet with executives who manage their group's functional area. After each visit, the groups make informal presentations to the rest of the class integrating information gleaned from the visit with that from previous visits. Additional visits with relevant government and industry organizations are included for overall learning enrichment.

At the conclusion of the course, each student submits a final analysis of his/her group. Sub groups write papers on topics of interest and present them to their peers in an academic conference.

Although students may have only one integrative course sequence in their MBA program, it is possible for students to participate a second time in the CMS experience on a directed study elective (MBAG 698) basis.

Prerequisite: MBAI 690.

MBAI 692**Integrative Project***3 Semester Hours*

This course provides an opportunity for the student to integrate three fields of study in solving on-the-job problems or by doing primary research. An intensive original research study within one field may also be acceptable. Admission requires approval of the Integrative Project Coordinator. The student works independently with the Integrative Project Coordinator in completing the project. Each project is an effort that is

unique to the student and his/her field of study and provides a definite state of the art advancement.

Prerequisite: MBAI 610 or 690.

MBAI 697**Internship Experience***1 Semester Hour*

This one semester hour Credit/No Credit course will assist students in attaining practical experience relevant to the student's area of emphasis. Course is repeatable.

MBAI 698**Special Studies***1-3 Semester Hours***MBAI 699****Independent Studies***1-3 Semester Hours***MBAJ: Accounting Decision Systems**

Businesses communicate financial data through the language of accounting. Courses in this area of emphasis are designed to enhance the understanding of how accounting information is developed and how it can be used to optimize organizational goals. Students choosing this area of emphasis will find the knowledge useful in the financial field as well as for strategic and day-to-day business decisions.

MBAJ 611**Modern Corporate Reporting***3 Semester Hours*

This course will examine basic concepts that govern financial statement reporting by publicly-held corporations. Actual statements will be used to illustrate the complexities of current disclosure issues. The policy-making environment that produces generally accepted accounting principles in the United States will be critically examined, along with some procedural aspects of financial accounting.

Prerequisite: MBAA 602.

MBAJ 613**Profit Planning and Management Decisions***3 Semester Hours*

This course provides a conceptual framework for decisions involving a firm's strategies and profitability. Partly based on case study approach, the importance of performance measurement in the decision process is emphasized. Various issues related to the firm's cost structure and pricing models as well as budgeting are covered. Other topics related to the profitability measure such as cost assignment, performance appraisal, and resource allocation are discussed.

Prerequisite: MBAA 602.

MBAJ 615**Tax Planning for Management Decisions***3 Semester Hours*

An analysis of the effects of the tax law on the investment and business decisions of individuals and organizations. The course will survey tax principles that managers should understand whether they are a sole proprietor or an executive in a partnership or corporation. Tax planning and savings opportunities from the perspective of the entrepreneur, the business enterprise, the employee, and the investor will be emphasized. Also listed as MBAF 615.

Prerequisites: MBAA 602 and 608.

MBAJ 618

Fraud Examination

3 Semester Hours

An introductory course designed for business managers and those beginning careers in accounting and auditing. The course stresses the nature of fraud, its litigation, approaches to detecting and preventing fraud, fraud inquiry methods, and reports issued by fraud examiners. Specific topics covered include: financial statement fraud, asset conversion frauds, computer frauds, and bankruptcy frauds. The course advocates a more careful and skeptical view of financial transactions and information.

Prerequisite: MBAA 602.

MBAJ 698

Special Studies

1-3 Semester Hours

Prerequisite: As designated by the MBA Office.

MBAJ 699

Independent Studies

1-3 Semester Hours

Prerequisites: MBAA 601-609.

Executive MBA Program

MBAP 602

Accounting and Control

1-4 Semester Hours

This course gives managers a better understanding of accounting information and how to use that information to make more informed decisions.

MBAP 603

Decision Support Foundation

1-4 Semester Hours

Covers data analysis through descriptive statistics techniques, an introduction to quantifying uncertainty through the use of probabilities and decision trees, and an introduction to basic regression analysis tools for business forecasting.

MBAP 604

Applied Business Economics

1-4 Semester Hours

This course applies economic concepts and tools to solve contemporary, real-world business problems. Includes economic terminology, issues and methods, determinants of supply and demand, elasticity concepts, understanding the economics of the firm, and characteristics of alternative market structures.

MBAP 608

Managerial Finance

1-4 Semester Hours

Financial planning and analysis for businesses. Emphasizes long-term investment, securities and business valuation, risk vs. return analysis, long-term and short-term financing alternatives, and working capital management.

MBAP 611

Corporate Expansion Project

1-4 Semester Hours

This real-world skill application project ties the course work together and provides actual practice in using quantitative data to support a major financial decision.

MBAP 612

Leadership Practicum

1-4 Semester Hours

This skill application project includes a capstone business simulation, in which students will understand how to use one's own leadership style more effectively.

MBAP 613

Business Opportunity Assessment

1-4 Semester Hours

This skill application project involves the identification and evaluation of an international business opportunity. A major report and presentation integrate module concepts into a supportable recommendation for board-level decision.

MBAP 614

Strategic Opportunity Implementation

1-4 Semester Hours

This skill application project is a comprehensive implementation plan for the business opportunity identified and evaluated in the Module 3 skill application project.

MBAP 615

Field Consulting Project

1-4 Semester Hours

In this course, student teams conduct an in-depth study of an actual business, usually a small disadvantaged or non-profit enterprise. Acting as consultants to the enterprise, students apply concepts learned in the classroom to actual business situations, and their recommendations and solutions carry real consequences. Students gain a framework for managing a consulting project and practice the art of quickly turning complex information into effective oral and written presentations.

MBAP 622

Strategic Human Resources Management

1-4 Semester Hours

Introduces students to key human capital management concepts and tools for managing individual and organizational performance. Includes human capital and organizational performance; HR strategy development and planning; HR "best practices"; establishing, evaluating, and rewarding performance; high performance management practices; recruitment/retention of superior staff; knowledge management; and work design.

MBAP 623

Leadership in the 21st Century

1-4 Semester Hours

Addresses what it means to be a leader in the 21st century. Focuses on three areas related to leadership: the key framework that defines a leader; the key issues a leader encounters in daily work, such as managing people, professional growth planning, and providing feedback and coaching; and the context within which the leader operates, including organizational change, climate and culture, and organizational power and politics.

MBAP 624**The Manager as Decision Maker***1-4 Semester Hours*

Integrates two different but related decision-making theories: prescriptive (normative) theory and behavioral theory. On the prescriptive side, typical decision-making problems are investigated from problem statement through to solution analysis. On the behavioral side, decision making is investigated from the perspective of how the decision maker is influenced by non-quantitative information.

MBAP 625**Managing Technology***1-4 Semester Hours*

Introduces key concepts and tools for leveraging and managing information technology (IT) for business results, including IT literacy, business megatrends where technology is often deployed, foundational rule-breaking technologies, and the IT maturity curve and its usage.

MBAP 626**Executive Communications I***1-4 Semester Hours*

This course includes basic elements of corporate communication strategy with an emphasis on writing, presenting, and listening.

MBAP 627**Executive Communications II***1-4 Semester Hours*

Emphasizes developing and delivering effective presentations.

MBAP 628**Business Research Skills***1-4 Semester Hours*

The course introduces students to business research methods and their application to optimizing strategic decisions. Students will complete a "hands-on" industry analysis project. As part of the project, students will learn how to plan and manage the execution of business research projects; how to identify, evaluate, and analyze publicly available data sources; and how to conduct data collection in the field (interviews with policy makers and business executives). Special attention will be placed on the development of students' teamwork skills. The project will conclude with a presentation and a research project.

MBAP 631**Strategy Formulation in the Global Environment***1-4 Semester Hours*

The first of two courses on Strategic Management. Addresses macro-level issues and how they impact the long-term direction of the firm. External forces (globalization, economic trends, technology trends, political and legal environment, and market trends) are analyzed and evaluated to determine strategies that will lead to and sustain a competitive advantage for the firm.

MBAP 632**Applied Economic Environment***1-4 Semester Hours*

Explores how aggregate production and spending interact within free markets in the context of the global economy, including understanding how government policies, including monetary, fiscal, and regulatory policies, help shape the environment in which companies compete.

MBAP 633**Changing Global Economic Environment***1-4 Semester Hours*

Helps students understand the intricacy of the global political economy by understanding the issues involving international trade and investment for multinational corporations.

MBAP 634**Marketing and Social-Cultural Environment***1-4 Semester Hours*

The first of two marketing courses, where students come to understand how marketing translates the goals of the business into strategies and activities that create a sustainable competitive advantage. The goal is to reach a clear understanding of the elements used to create a marketing plan.

MBAP 635**Legal Environment of Business***1-4 Semester Hours*

An introduction to business law in the United States, with emphasis on the court system and on contracts, which are basic to all business activities.

MBAP 641**Executive Strategy in the Global Environment***1-4 Semester Hours*

The second course in the Strategic Management sequence. Focuses on the leader's role in setting, implementing, and controlling strategy. Students learn how to integrate and incorporate the leadership skills, competencies, and functional disciplines needed to strategically lead an enterprise in a responsible and ethical manner.

MBAP 642**Deal Making***1-4 Semester Hours*

How to select an appropriate market-entry strategy from a range of reasonable alternatives. If the appropriate strategy requires a business combination of some type, students learn how and when to use the appropriate tools and skills to successfully complete various types of transactions, including mergers, acquisitions, joint ventures, and business alliances.

MBAP 643**Strategic Marketing***1-4 Semester Hours*

The second marketing course that builds upon the marketing concepts and processes explored in Module 3 (MBAP 634). Continues the transition already begun in Module 3 that addressed understanding the marketing environment (marketing mix and product strategies) to developing specific implementation strategies and tactics.

MBAP 644**Corporate Governance***1-4 Semester Hours*

Helps students understand the role of corporate governance in protecting the interests of corporate stakeholders. Governance often refers to the formulation and administration of policies designed to protect such interests. Traditionally, corporate governance has been defined as a system that allocates duties and authority among a company's shareholders, board of directors, and managers. More recently, the definition

has been expanded to include stakeholders other than shareholders such as employees, customers, suppliers, regulators, and communities.

MBAP 651

Introduction to Executive Leadership

1-4 Semester Hours

The program begins with a four-day residential retreat where students set learning goals, form study teams, and engage in a variety of workshops and team-building exercises. A workshop specifically designed for students and their spouses/significant others addresses the importance of achieving balance between family, work, and school, and introduces the Spouse/Partner Support Program.

MBAP 652

Field Study on Conducting Business Domestically

1-4 Semester Hours

This course supplements the Business Research Skills course (MBAP 628). The main component of the course is a trip to a major U.S. business center where students drawing from readings, the business research, site visits, presentations, and cultural experiences will gain insights and key "lessons learned" regarding the issues, challenges, and potential benefits of conducting business in a major business area, such as California.

MBAP 653

Business in the International Environment

1-4 Semester Hours

A two-week journey to one or more major, non-U.S. business centers that broaden understanding of what it takes to manage in today's global business environment. Each student draws from the international field trip lectures, site visits, presentations, and cultural experiences to gain insight and key "lessons learned" regarding the issues, challenges, and potential benefits of conducting business in an international setting. A major paper that demonstrates how these lessons learned can be applied in actual business setting is required.

MBAP 661

Team Performance and Group Dynamics

1-4 Semester Hours

Helps student study teams perform more effectively in skill application projects, and teaches students about teams and team building so they can use teams more effectively as executives. Includes determinants of team success, developing a team mission and operation guidelines, and monitoring team performance.

MBAP 662

Ethics and Spirituality in the Workplace

1-4 Semester Hours

Effective business leadership requires a commitment to personal leadership development and formation in order to fully realize one's personal goals and maximize the value of the organization and the contribution it makes to stakeholders and society at large. This approach defines valuation in its broadest sense and links one's development as a principle-based leader to how an organization identifies and implements core values within the enterprise.

MBAP 663

Professional Growth Planning

1-4 Semester Hours

Provides the tools, guidance, and professional support for developing a well thought-out plan for professional growth. It effectively lets students apply the tools of analysis used in business to develop a professional growth plan.

MBAP 698

Special Studies

1-4 Semester Hours

MBAP 699

Independent Studies

1-4 Semester Hours

COLLEGE OF COMMUNICATION AND FINE ARTS COURSES

Art History

ARHS 200

Art of the Western World I

3 Semester Hours

An introductory survey of the visual arts from the Prehistoric through the early Medieval period.

ARHS 201

Art of the Western World II

3 Semester Hours

Introductory survey of the visual arts from the Medieval to the mid-Nineteenth Century.

ARHS 202

Modernism

3 Semester Hours

Study of Modernism from Impressionism through Post-Modernism. Focus on artists, movements, art issues, theory, and practice in Europe, the United States, and Mexico.

ARHS 203

Social Design

3 Semester Hours

A critical and historical examination of the role of design in the communication of social and political issues. Focus is on the role of the designer as an agent for social change. Research, discussion, and project-based presentations.

Prerequisite: ART 160 or concurrent enrollment in ART 260.

ARHS 230

Multimedia Art Survey

3 Semester Hours

Critical and historical examination of multimedia arts through research, discussions, and presentations.

ARHS 301

Arts of Ancient Egypt

3 Semester Hours

A survey of the art and architecture of ancient Egypt from the Neolithic Period through Roman rule.

ARHS 303

Arts of Ancient Greece

3 Semester Hours

A survey of Greek art from the Neolithic Age through the Hellenistic Period.

ARHS 304

Arts of Ancient Rome

3 Semester Hours

A survey of Roman art from the early days of the Republic through the decline of the Empire.

ARHS 306

Medieval Art

3 Semester Hours

A survey of the visual arts of the Medieval period in Europe.

ARHS 310

Study in Florence: The Italian Renaissance

3 Semester Hours

Study of Italian Renaissance art and architecture in Florence and Tuscany.

ARHS 314

American Art

3 Semester Hours

Art in the United States from the Colonial period to 1900.

ARHS 316

Pre-Columbian Arts and Architecture

3 Semester Hours

A survey of Pre-Columbian art and architecture from c. 1200 BCE to the Fifteenth Century CE.

ARHS 317

Arts of Colonial and Post-Colonial Latin America

3 Semester Hours

A survey of the art and architecture of Colonial and Post-Colonial Latin America.

ARHS 318

The Arts of Traditional Africa

3 Semester Hours

A survey of the Traditional Arts of Africa from 1000 BCE through the Twentieth Century.

ARHS 320

The Arts of Islam

3 Semester Hours

Islamic arts of the Middle East and Persia from the Seventh through the Nineteenth Centuries.

ARHS 321

Arts of Asia: Zen

3 Semester Hours

A survey of Buddhist arts with particular focus on the Zen sect and its concomitant arts (architecture, gardens, painting, tea ceremony, ceramics, flower arranging, and the martial arts).

ARHS 340**History of Photography***3 Semester Hours*

A survey of photography as art from its invention to the present day. Emphasis is on Twentieth Century developments and contemporary trends.

Recommended: ARHS 202.

ARHS 345**Modern and Contemporary Art Criticism***3 Semester Hours*

An examination of Twentieth and Twenty-First Century theory and practice.

Recommended: ARHS 202.

ARHS 360**History of Design***3 Semester Hours*

An analysis of design history from the Industrial Revolution to the present, with emphasis on creative innovation and progress as rooted in artistic, cultural, and political contexts.

Prerequisite: ART 160 or Art History major or minor.

ARHS 410**Italian Renaissance Art***3 Semester Hours*

Selected topics in Italian Renaissance art.

ARHS 411**Northern Renaissance Art***3 Semester Hours*

Selected topics in Northern Renaissance art.

ARHS 413**Baroque Art***3 Semester Hours*

Selected topics in European art of the Seventeenth Century.

ARHS 416**Nineteenth-Century European Art***3 Semester Hours*

A survey of art and architecture that includes Romanticism and Realism with special emphasis on Impressionism and Post-Impressionism.

ARHS 419**Contemporary Art***3 Semester Hours*

An exploration of new directions in post World War II art, with an emphasis on Post-Modernism.

Recommended: ARHS 202.

ARHS 420**The Arts of Early India***3 Semester Hours*

Painting, sculpture, and architecture of India: Buddhist, Hindu, and Jain arts through the Medieval Period.

ARHS 421**The Arts of Later India***3 Semester Hours*

Painting and architecture of the Moguls, Rajput Kingdoms, the British Raj, and contemporary India: Sixteenth through Twentieth Centuries.

ARHS 425**The Arts of China***3 Semester Hours*

The painting, sculpture, and architecture of China from the Neolithic Period through the Twentieth Century.

ARHS 428**The Arts of Japan***3 Semester Hours*

The painting, sculpture, and architecture of Japan from prehistoric times through the Nineteenth Century.

ARHS 445**Museum/Gallery Internship***3 Semester Hours*

A directed internship in museum or gallery education, curatorial work, registration, public relations, or installation design. Individual placements are made on the basis of the student's academic background and professional goals. Majors only with Senior standing. Research paper required.

Consent of instructor required.

ARHS 447**LA Now***3 Semester Hours*

Internationally recognized practicing artists, designers, critics, and curators talk about their work, ideas, practices, and processes.

Recommended: ARHS 202 or 419.

Consent of instructor required.

ARHS 449**Junior/Senior Seminar in Art History***3 Semester Hours*

Examination of art historical problems and ideas, emphasizing the methodological and scholarly processes of art history.

Consent of instructor required.

ARHS 494**Curatorial Practices***3 Semester Hours*

Study of the professional aspects of museum and gallery work including exhibition preparation, design, and the curatorial process.

Prerequisite: ARHS 202.

ARHS 498**Special Studies***3 Semester Hours***ARHS 499****Independent Studies***1-3 Semester Hours*

Senior standing required.

Studio Arts**ART 150****Introduction to Studio Arts***3 Semester Hours*

Open to non-Studio Arts majors only.

Exploration of the materials, techniques, and inspiration of the artist in the media of drawing, painting, printmaking, sculpture, and two- and three-dimensional design.

ART 151**Introduction to Drawing and Printmaking***3 Semester Hours*

Open to non-Studio Arts majors only.

Development of basic drawing skills in various media and the exploration of printmaking techniques.

ART 153**Drawing I***3 Semester Hours*

An introduction to drawing and the development of visual awareness. Experimentation and exploration of technique developed through a variety of subject matter. Varied media, including pencil, charcoal, ink, and conte.

ART 154**Drawing II: Figure Drawing***3 Semester Hours*

Development of technique and principles used in Drawing I, ART 153, with emphasis placed on working from the figure and anatomy.

Prerequisite: ART 153.

ART 160**Two-Dimensional Design***3 Semester Hours*

An examination of the basic elements of two-dimensional design. Course emphasizes visual literacy as well as the conceptual and problem-solving processes used in creating and composing graphic form.

ART 182**Programming for Creative Applications***3 Semester Hours*

Emphasis on programming as an art form and as a tool for creative applications. Introduction to computer programming within the context of art and design. Concepts and skills taught enhance student ability to excel in future courses about Internet, animation, interactive media, and

game design. Weekly exercises balance concept and technique to reveal potential of computer as medium and tool.

Lecture, lab, workshop.

ART 200**Figure Drawing Workshop I***1 Semester Hour*

A studio workshop for art and animation majors with emphasis placed on working from the figure and anatomy.

May be repeated once for degree credit.

Prerequisites: ART 153 and 154, or consent of instructor.

ART 201**Figure Drawing Workshop II***1 Semester Hour*

Continuation of a studio workshop for art and animation majors with emphasis placed on working from the figure and anatomy.

May be repeated once for degree credit.

Prerequisite: ART 153 and 154, or consent of instructor.

ART 250**Visual Arts for the Elementary Educator***3 Semester Hours*

Designed to develop the visual arts for the Liberal Studies student, both personally and professionally. Projects will emphasize a personal exploration of media, techniques, art history, and art fundamentals, as well as the role of the teacher in nurturing artistic expression and aesthetic. Students will compile course material into a professional teaching research portfolio. Participation in the ARTsmart service-learning program is required and is incorporated into class hours.

Liberal Studies majors only.

ART 255**Field Experience in Art***0 Semester Hours*

Designed for students interested in secondary art education. Explores practical applications of teaching through planned observation, reflection, and group discussions appropriate for future secondary art teachers. Twenty (20) hours of field observation in a secondary public school art classroom is required.

Art Education Emphasis majors only.

Consent of the Director of Secondary Teacher Preparation of Art required.

ART 257**Painting I***3 Semester Hours*

Study of basic theoretical methods and techniques as applied to both representation and abstraction. Acrylic paints will be utilized.

Prerequisite: ART 153, 160, or consent of instructor.

ART 260**Computer Graphics I***3 Semester Hours*

Introduction to principles and practices of electronic imaging as they apply to graphics, art, and design.

Recommended: ART 160.

ART 275

Three-Dimensional Design

3 Semester Hours

Examination of the basic elements of three-dimensional design emphasizing the conceptual process and utilizing various media.

Prerequisite: ART 160 or consent of instructor.

ART 276

Ceramic Sculpture

3 Semester Hours

Examination of ceramics as a sculptural medium. Students will explore technical and conceptual processes of ceramics. While clay is the focus, other materials will be utilized.

ART 278

Ceramics I

3 Semester Hours

Basic techniques of hand building and throwing on the potter's wheel integrated with aesthetic exploration through various projects.

ART 280

Photography I

3 Semester Hours

This course focuses on photography as a medium of personal and artistic expression. Students learn camera, darkroom, and presentation fundamentals, as well as basic digital imaging skills.

ART 285

Introduction to Printmaking

3 Semester Hours

Introduction to the basic printmaking and transfer processes, using monoprinting, linocuts, woodcuts, drypoints, water etchings, and collagraphs. Both black and white and multicolor images will be produced.

Recommended: ART 151, 153, and 160.

ART 290

Multimedia Survey

3 Semester Hours

Critical and historical examination of multimedia arts through research, discussions, and presentations.

ART 298

Special Studies

1-3 Semester Hours

ART 299

Independent Studies

1-3 Semester Hours

ART 300

Figure Workshop I

1 Semester Hour

A studio workshop for art and animation majors with emphasis placed on working from the figure and anatomy.

May be repeated once for degree credit.

Prerequisites: ART 153 and 154, or consent of instructor.

ART 301

Figure Workshop II

1 Semester Hour

Continuation of a studio workshop for art and animation majors with emphasis placed on working from the figure and anatomy.

May be repeated once for degree credit.

Prerequisites: ART 153 and 154, or consent of instructor.

ART 302

Design: Concept to Form

3 Semester Hours

Design as a visual problem-solving process is explored. Emphasis is placed on the creative processes of design and the visual presentation of design research, the design concept, and the final design. This will include visualization techniques and book binding.

Prerequisites: ART 160 and 260.

ART 303

Experimental Typography

3 Semester Hours

The conceptual aspects of typography as both image and form are explored in print, environmental, and time-based media. Storytelling using typography is emphasized.

Prerequisite: ART 368 or consent of instructor or Multimedia Emphasis major.

ART 304

Image Making

3 Semester Hours

The creation of original imagery is explored using a combination of digital and analog drawing, collage and montage methods. The communicative potential of the image is emphasized through the interplay of context, connotation, and denotation.

Prerequisites: ART 160 and 260.

Recommended: ART 368.

ART 305

ARTsmart Community Service Program

0 Semester Hours

ARTsmart is the community service program of the Department of Art and Art History. The mission of ARTsmart is to provide underserved youth an education in the visual arts. LMU Art and Art History students work in teams to develop and teach lessons that incorporate formal art issues, art history, visual culture, social justice issues, and standards-based education to students in a neighboring K-8 school. Students from a variety of art disciplines are encouraged to volunteer.

ART 350

Visual Thinking

3 Semester Hours

This course promotes concept development and creative thinking. Visual problem solving and projects will be based on a concern for how each person examines and explores, ultimately interprets and recreates the world around them.

ART 355**Experiencing Art and Social Justice****3 Semester Hours**

This course is divided into two components: studio arts and service learning. In the studio component, students will create art to explore the relationship between art and social justice. Studio projects include mixed media sculpture, painting, and installation. The students participate in the ARTsmart service-learning program, developing and teaching lessons that emphasize the use of art to incite social change. ARTsmart service time is incorporated into the class hours.

ART 356**Painting II****3 Semester Hours**

A continuation of theoretical methods and techniques used in Painting I, ART 257. Emphasis is on color, materials, and individual concept development. A variety of media will be utilized.

Prerequisites: ART 153, 160, and 257, or consent of instructor.

ART 358**Painting III****3 Semester Hours**

A continuation of Painting II, ART 356. Emphasis is on color, materials, and individual concept development. May be repeated for degree credit with consent of instructor.

Prerequisite: ART 356 or consent of instructor.

ART 359**Mural Painting****3 Semester Hours**

Emphasis on student collaboration in the process and execution of large-scale paintings and public mural projects.

May be repeated for degree credit with consent of instructor.

ART 360**Graphic Design I****3 Semester Hours**

An introduction to the basic principles of visual design as they are applied to communication problems involving a message and an audience. Students develop conceptual and problem solving skills to create graphic form for a range of content.

Prerequisites: ART 160, 260, and 368.

Recommended: ARHS 360.

ART 362**Creative Direction****3 Semester Hours**

The application of design principles and advertising concepts in the development of conceptual campaigns involving a message and an audience.

Prerequisites: ART 302, 360, and 368.

ART 363**3D Digital Toolbox****3 Semester Hours**

Survey of concepts and processes utilized in the production of artworks with 3D digital software applications. Study of computer techniques integrating digital processing into the creative process.

May be repeated for degree credit.

Prerequisites: ART 160 and 260.

ART 364**Digital Illustration****3 Semester Hours**

The integration of illustration practices, design principles, and conceptual problem solving procedures in the creation of illustrations for editorial designs, book jackets, and advertising. Illustrations are computer assisted or computer generated in black and white and in color.

May be repeated for degree credit.

Prerequisites: ART 153, 160, and 260.

ART 365**Illustration****3 Semester Hours**

The integration of illustration practices, design principles, and conceptual problem-solving procedures in the creation of illustrations for editorial designs, book jackets, and advertising art. Illustrations are conceived of by conventional means.

May be repeated for degree credit.

Junior standing required.

Prerequisites: ART 153, 160, and 260.

ART 366**Multimedia Computer Arts****3 Semester Hours**

Explorations of interactive computer multimedia technologies with emphasis on the development of personal artistic expression.

May be repeated twice for degree credit.

Prerequisite: ART 260.

ART 367**Online Computer Arts****3 Semester Hours**

An emphasis on a working expertise in graphics, art, design, and aesthetics as they apply to interactive web authoring. This course will also utilize interactive linkages to a larger virtual arts community.

May be repeated for degree credit.

Prerequisites: ART 160 and 260.

ART 368**Typography I****3 Semester Hours**

An introduction to the fundamentals of typography. Emphasis is on developing typographic literacy in terms of history, type classification, nomenclature, letterform anatomy, hierarchy, visual structure, as well as how type works as a compositional element in textual communication.

Prerequisites: ART 160 and 260.

ART 369

Information Design

3 Semester Hours

A practical introduction to the preparation of graphic design for printing. Both the technological and aesthetic challenges of getting ink onto paper are explored through communication design projects.

Prerequisites: ART 160 and 260.

Recommended: ART 368.

ART 370

Beginning Wheel Throwing

3 Semester Hours

Introduction to throwing, glazing, and firing at several temperature levels with the aim of developing skills to enhance the student's artistic voice in the contemporary clay context.

ART 371

Advanced Wheel Throwing

1-3 Semester Hours

Advanced work with wheel thrown forms with the aim of developing a thematic body of creative work in clay.

May be repeated for degree credit.

Prerequisite: ART 370.

ART 372

Jewelry I

3 Semester Hours

A basic jewelry course with an emphasis on creative design and various techniques including fabrication, soldering, forging, wax working, and casting. Also includes bezel stone setting.

ART 373

Jewelry II

3 Semester Hours

Advanced jewelry making with an emphasis on creative design and exploration of various techniques such as fabrication, casting, rolling mill texturing, hydraulic press forming, enameling processes, and the setting of faceted stones. Also an introduction to larger scale, sculptural design.

Prerequisite: ART 372.

ART 374

Motion Graphics

3 Semester Hours

Advanced multimedia-oriented design concepts of the "on-screen" motion graphics and interactive presentations of images, text, motion, and sound.

May be repeated for degree credit.

Prerequisites: ART 160 and 260.

ART 375

Figure Sculpture

3 Semester Hours

Modeling of the human figure with an emphasis on anatomy, leading to the extension of the figure as image.

May be repeated for degree credit with consent of instructor.

ART 376

Sculpture Workshop

3 Semester Hours

Advanced exploration of sculptural problems, techniques, and concepts using a variety of materials.

May be repeated for degree credit with consent of instructor.

Prerequisite: ART 275 or consent of instructor.

ART 378

Drawing and Clay

3 Semester Hours

Emphasis on the surface treatment of ceramic work incorporating drawing, painting, and printmaking techniques.

May be repeated for degree credit with consent of instructor.

ART 380

Photography II

3 Semester Hours

Exploration of advanced concepts of photography as applied to the further development of personal expression. Students learn medium and large format photography, studio lighting, and some digital imaging.

Prerequisite: ART 280.

ART 382

Digital Photography

3 Semester Hours

An emphasis on a working expertise in digital imaging, technologies utilizing Adobe Photoshop for image creation, manipulation, with input and output to various media.

May be repeated for degree credit.

Prerequisite: ART 260 or consent of instructor.

Recommended: ART 280.

ART 383

Advanced Multimedia

3 Semester Hours

Advanced investigation in one or more areas of multimedia production based upon research, mentorship, and practical experience that culminates in a final project.

Prerequisites: ART 363 or 374 and ART 366 or 367, or consent of instructor.

ART 385

Relief Printmaking

3 Semester Hours

Exploration of relief printmaking, photo-etching, and monotype processes. Graphic image making will be pursued through multiprintings. Personal visual development, technical skill, and conceptual development will be emphasized.

Recommended: ART 151 or 285, or consent of instructor.

ART 386

Etching Printmaking

3 Semester Hours

Process using etching, aquatint, and other incising techniques on metal plates. Emphasis on black and white images with an introduction to multicolor printing.

May be repeated for degree credit.

Recommended: ART 151, 280, and 285.

ART 387

Silkscreen Printmaking

3 Semester Hours

Introduction to the use of serigraphy to create posters and fine art prints. Hand-cut, hand-painted, and photographic techniques will be used. The emphasis is on the development of personal expression in the creation of multicolor prints.

May be repeated for degree credit.

Recommended: ART 160 and 280.

ART 388

Screen Printing

3 Semester Hours

Introduction to the use of silkscreening to communicate a message. Basic screening techniques will be used, including using hand-cut, photographic, and computer-generated images. Water-based textile and plastisol inks will be used. Emphasis will be on producing multicolor prints on T-shirts and posters.

May be repeated for degree credit.

Recommended: ART 160, 260, and 280.

ART 396

Professional Practices in Graphic Design

3 Semester Hours

An examination of the career possibilities within the creative landscape of contemporary design. The design internship and portfolio development are emphasized. Participation in the LMU AIGA student chapter is recommended.

Prerequisites: ART 160, 260, and 368.

Recommended: Concurrent enrollment in ART 360.

ART 397

Professional Practices in Fine Arts

3 Semester Hours

Examination of the current state of the studio arts and various career options through research, discussions, and guest speakers. Includes development and presentation of a professional portfolio and resume.

Studio Arts major or consent of instructor required; Junior standing required.

ART 398

Special Studies

1-3 Semester Hours

ART 399

Independent Studies

1-3 Semester Hours

ART 400

Figure Workshop I

1 Semester Hour

A studio workshop for art and animation majors with emphasis placed on working from the figure and anatomy.

May be repeated once for degree credit.

Prerequisites: ART 153 and 154, or consent of instructor.

ART 401

Figure Workshop II

1 Semester Hour

Continuation of a studio workshop for art and animation majors with emphasis placed on working from the figure and anatomy.

May be repeated once for degree credit.

Prerequisites: ART 153 and 154, or consent of instructor.

ART 453

Drawing III: Formal Issues

3 Semester Hours

This course explores traditional and contemporary issues in drawing. Using a variety of media, content, space, color, value, and form are examined.

May be repeated for degree credit with consent of instructor.

Prerequisites: ART 153 and 154, or consent of instructor.

ART 454

Drawing IV: Figure Composition

3 Semester Hours

This course promotes concept development and psychological possibilities inherent in the human form. Using a variety of media, it explores anatomical structure and imaginative composition.

May be repeated for degree credit with consent of instructor.

Prerequisites: ART 153 and 154, or consent of instructor.

ART 455

Methods in Teaching Secondary Art

3 Semester Hours

This methodology seminar is designed to provide opportunities for prospective secondary art educators to critically examine the theoretical, historical, psychological, sociological, and practical applications of art education. Projects will involve the development, implementation, and assessment of a successful and socially responsible art education curriculum. Students will compile course material into a professional teaching resource portfolio.

Prerequisite: ART 255.

Art Education Emphasis majors only.

Junior standing required.

ART 460

Graphic Design II

3 Semester Hours

Graphic Design II builds on the fundamental design principles introduced in ART 360, Graphic Design I. Portfolio-oriented projects cover the gamut of print to electronic media.

Prerequisites: ART 302, 303, 360, 368, and 369.

Recommended: ARHS 360 and ART 468.

ART 468

Typography II

3 Semester Hours

Typography II extends the fundamental concepts introduced in ART 368, Typography I. Projects emphasize the application of typographic principles to multiple levels of text in both print and electronic media.

Prerequisite: ART 368

Recommended: ART 369 and ARHS 360.

ART 478

Ceramics Workshop

3 Semester Hours

Design problems with ceramic materials incorporating wheel-thrown and hand building techniques. Development of a personal style in addition to advanced firing techniques.

May be repeated for degree credit with consent of instructor.

ART 480

Color Photography

3 Semester Hours

Exploration of general color principles and lab procedures with an emphasis on developing a long-term personal project. Students learn color printing, medium format photography, and digital imaging.

Prerequisite: ART 280.

ART 485

Advanced Printmaking

1-3 Semester Hours

Continuation and more advanced work in relief, etching, or silkscreen techniques.

May be repeated for degree credit with consent of instructor.

Prerequisite: ART 385 or 386 or 387.

ART 490

Senior Design Thesis

3 Semester Hours

The Senior Thesis in Design provides the opportunity to explore design as a liberal arts activity through focused studies around the design disciplines, or the application of design to a specific subject or area of interest. Students independently address topic areas within a creative design

project resulting in a body of work (aside from the professional portfolio). The topic(s) should address one or more of the following issues: the societal impact of design; design as a process for innovation; the historic and contemporary contexts of design; design as an experiential medium.

Senior standing required.

Prerequisites: ART 302, 303, 360, 368, 369, and 460 or 468.

Recommended: ARHS 360.

ART 494

Multimedia Internship

3 Semester Hours

Professional experience in multimedia.

Studio Arts majors only.

Consent of instructor required.

ART 495

Advanced Studio Studies

1-3 Semester Hours

Pre-professional directed study in studio art.

May be repeated for degree credit three times.

Permission of instructor and Department Chairperson required.

ART 497

Senior Thesis in Fine Arts

1-3 Semester Hours

This course continues for Fine Arts emphasis students the professional development experience of ART 397, Professional Practices in Fine Arts. The curriculum includes all aspects of exhibition design, promotion, and artwork presentation.

Required for Fine Arts Emphasis majors.

Studio Arts majors, Fine Arts Emphasis only.

Prerequisite: ART 397 or consent of instructor.

ART 498

Special Studies

1-3 Semester Hours

ART 499

Independent Studies

1-3 Semester Hours

Senior standing required.

Communication Studies

CMST 100

Introduction to Public Speaking

3 Semester Hours

Designed to assist the student in developing the skills necessary to communicate effectively to others and to listen effectively to communication from others. Development of proficiency in speaking results from the practice and criticism of informative speeches, persuasive speeches, and discussion.

CMST 110**Interpersonal Communication***3 Semester Hours*

Examination of students' communication strengths and weaknesses in order to develop proficiency in interpersonal communication. A variety of practice speaking contexts is provided, including public speaking, group discussion and problem solving, and informal and formal one-to-one communication.

For non-majors only.

CMST 130**Argumentation and Debate***3 Semester Hours*

The principles of reasoning, evidence, and organization of argumentation for debate and related forms of competitive speech; practical application in debate and other forensic speech.

CMST 131**Argumentation Practicum***3 Semester Hours*

Forensics competition in various debate formats requiring intramural and intercollegiate debate competition.

Prerequisite: CMST 130 and consent of instructor.

CMST 140**Business and Professional Communication***3 Semester Hours*

A study of the principles and methods involved in improving oral communication in the business and the professions. Emphasis on interviewing, conference speaking, selling and persuading, problem-solving discussions, and interpersonal relations.

For non-majors only.

CMST 170**Interpersonal and Small Group Communication***3 Semester Hours*

This course is designed to introduce the students to interpersonal and small group communication theories, processes, and skills. The course challenges students to examine their own communication behaviors and focus on their strengths and weaknesses as a way to develop and apply new communication skills and proficiencies. The course includes a variety of oral and written presentations at both the individual and group levels.

CMST 198**Special Studies***0-3 Semester Hours***CMST 199****Independent Studies***1-3 Semester Hours***CMST 203****Foundations of Communication Theory***3 Semester Hours*

This course introduces students to the field of communication studies and its major areas of inquiry. It begins with an overview of the history of the discipline, tracing its humanistic roots, social scientific orientations, and approaches which combine these two traditions. The course then examines communication studies from the standpoint of four perspectives that can be used to organize major movements in the field: mechanistic, psycho-symbolic, pragmatic, and critical. These perspectives are used to organize the variety of communication theories examined in the course.

Must be completed with a grade of C (2.0) or better.

CMST 204**Introduction to Research in Communication Studies***3 Semester Hours*

This course introduces students to scholarship conducted in communication studies. It overviews the research process, including generating research questions, constructing bibliographies, gathering and assessing information, and developing scholarly arguments. Students will learn research techniques, including location and retrieval of information sources (i.e., newspapers, journals, books, electronic databases, and Internet sources). They will apply critical thinking skills to the evaluation of information sources and data/arguments in qualitative and quantitative research. Students will also be introduced to basic aspects of writing for the discipline, as well as expectations for scholarly ethics and proper citation of sources.

Must be completed with a grade of C (2.0) or better.

Prerequisite: CMST 203 with a grade of C (2.0) or better, or consent of instructor.

CMST 206**Critical Thinking and Communication***3 Semester Hours*

A study of the techniques of critical thinking as applied to communication and rhetoric.

CMST 298**Special Studies***1-3 Semester Hours***CMST 299****Independent Studies***1-3 Semester Hours***CMST 330****Advanced Forensics***3 Semester Hours*

A study of advanced principles of debate with emphasis on interdisciplinary research on current national collegiate debate topic.

Junior standing required.

Prerequisite: CMST 130 or consent of instructor.

CMST 331**Argumentation Practicum***3 Semester Hours*

Forensics competition in various debate formats requiring intramural and intercollegiate debate competition.

Consent of instructor required.

Prerequisite: CMST 130.

CMST 335

Gender Communication

3 Semester Hours

Course surveys gender similarities and differences in verbal and nonverbal communication. Emphasis is also placed on how males and females perceive the world and how these perceptions affect the human communication process.

Junior standing required.

CMST 336

Intercultural Communication

3 Semester Hours

A study of the principles and theories of human communication related to cross cultural encounters. Emphasis is placed on cultural relativity, culture shock, verbal and nonverbal interaction, and value differences among diverse cultures.

Junior standing required.

CMST 351

Contemporary Rhetorical Theory

3 Semester Hours

This course provides a survey of major rhetorical themes and theories, including classical, symbolic, argumentation, critical, feminist, and non-Western approaches to rhetoric. Students will explore the relationship between rhetorical theory and practice, the contributions of rhetorical theory to the social world, and the potential for rhetorical studies to inform issues of democratic governance, marginalized groups, social justice, and technology in society.

Must be completed with a grade of C (2.0) or better.

Junior standing required.

Prerequisite: CMST 203 with grade of C (2.0) or better.

CMST 352

Theories of Organizational Communication

3 Semester Hours

This course is designed to introduce the students to the field of organizational communication and the relationship between organization and communication. The course is designed to allow students to examine a range of organizational communication perspectives, theories, issues, and constructs. At the same time, students are encouraged to explore the ways these perspectives shape, expand, and limit our understanding of communicating and organizing. Significantly, the course encourages critical and analytical thinking by using the course content as a basis for critique.

Must be completed with a grade of C (2.0) or better.

Junior standing required.

Prerequisites: CMST 203 and 204 with a grade of C (2.0) or better.

CMST 375

Organizational Communication Advanced Topical Seminar

3 Semester Hours

Advanced topical studies in organizational communication.

May be repeated once for degree credit with a different topic.

Junior standing required.

CMST 376

Communication and Consulting

3 Semester Hours

Course surveys methods of designing, conducting and evaluating organizational communication change strategies. Emphasis is on various methods of conducting organizational communication needs analysis, designing training programs, implementing organizational development strategies, and evaluating change efforts.

Junior standing required.

CMST 385

Political Communication

3 Semester Hours

Course analyzes the rhetorical dimensions of political campaigns and methods of carrying out various political objectives.

Junior standing required.

CMST 386

Rhetoric of Social Movements

3 Semester Hours

This course is a survey of historical and current events and rhetorical documents of movements for social change. Movements may include: abolitionist (anti-slavery), labor, socialist, women's rights, environmental justice, civil rights (Black, Chicana/o, and Native American), gay and lesbian, and student movements. Emphasis will be placed on rhetorical strategies and tactics relating to effects of movements on systems and structures conceived as dominant; analyses of how social movement actors construct meaning and identity in their discourses is also stressed.

Junior standing required.

CMST 387

Communication and Legal Practice

3 Semester Hours

This course brings the legal trial to the classroom, providing students an opportunity to incorporate an array of communication principles and skills with the experience of trial practice. Students are introduced progressively to key aspects of communication and litigation and participate in exercises that culminate in mock trials before a jury.

Junior standing required.

CMST 393

Topical Seminars in Communication Studies

3 Semester Hours

Further studies in communication.

May be repeated for degree credit when a different topic is studied.

Junior standing required.

CMST 398

Special Studies

1-3 Semester Hours

CMST 399

Independent Studies

1-3 Semester Hours

CMST 451

Rhetorical Methods

3 Semester Hours

This course examines various ways rhetorical theories may be applied to discourse in order to highlight methods of rhetorical criticism.

Must be completed with a grade of C (2.0) or better.

Prerequisite: CMST 351 with a grade of C (2.0) or better.

CMST 452

Qualitative Research Methods

3 Semester Hours

Study of qualitative research methods in communication, including data collection, analysis, and interpretation of observations and interview data.

Must be completed with a grade of C (2.0) or better.

Prerequisite: CMST 352 with a grade of C (2.0) or better.

CMST 490

Communication Practicum

3 Semester Hours

Students participate in an internship with one of several Los Angeles area companies or institutions currently accepting LMU students. The internship focuses on practical experience working in a position that utilizes communication skills. Students will integrate communication theory with their internship experience.

May be repeated once for credit as an upper division elective, but will not count as a "Communication Application" course.

Majors only.

Junior standing required.

CMST 495

Senior Thesis

3 Semester Hours

The senior thesis provides the opportunity for students to perform original research using qualitative and/or rhetorical research methods and culminates in a substantial written project.

The student must obtain the written approval of the faculty member directing the thesis project and the Department Chairperson the semester prior to writing the thesis.

Senior standing required.

Prerequisites: CMST 451 and 452 with a grade of C (2.0) or better.

CMST 498

Special Studies

1-3 Semester Hours

CMST 499

Independent Studies

1-3 Semester Hours

Dance

DANC 100

Orientation to Dance

1 Semester Hour

An introduction to the discipline of Dance for Dance major students. This course addresses: careers, health, wellness, performance, community service, and community resources. Introduction to yoga and other movement fundamentals.

Majors only.

DANC 101

Principles of Movement

0-1 Semester Hours

Orientation to use of breath, alignment, and basic principles of motion. Exploration of the body-mind connection.

Majors only.

Offered in the Fall semester.

DANC 102

Modern Dance I

0-2 Semester Hours

Fundamental movement techniques and the manipulation of time, force, and space are explored through participation in improvisation and structured skill activity, as well as basic relaxation and body awareness experiences. Introduction to jazz dance forms.

May be repeated for degree credit up to 2 times.

DANC 120

Ballet I

0-2 Semester Hours

Barre and center work for alignment, strength, flexibility, and coordination. Introduction to ballet terminology, aesthetics, and study of fundamentals of style and history.

May be repeated for degree credit up to 2 times.

DANC 142

Jazz Dance I

0-2 Semester Hours

An introduction to the art of jazz dance. Emphasis on fundamental alignment and rhythmic skills as well as styling. Study of the aesthetics of entertainment.

May be repeated for degree credit up to 2 times.

Offered in the Fall and Spring semesters.

DANC 144

Tap Dance I

0-2 Semester Hours

An introduction to tap dance and its history. Focus on specific skills in tap dance involving vocabulary, keeping time, music theory, and rhythm.

May be repeated for degree credit up to 2 times.

DANC 160

Fundamentals of Dance Composition I

3 Semester Hours

Principles of composition in relation to time, force, space, and kinesthesia. Groundwork in aesthetics and composition theory.

Dance majors or Dance minors only.

Offered in the Fall semester.

DANC 161

Fundamentals of Dance Composition II

3 Semester Hours

Continuation of DANC 160.

Dance majors or Dance minors only.

Offered in the Spring semester.

DANC 163

Introduction to Choreography

3 Semester Hours

An introduction to dance composition for the non-major. Exploration of space, time, and energy through movement, sound, and text.

DANC 183

Stagecraft for Dancers

1 Semester Hour

Introduction to basic principles of lighting, costuming, and production management.

Offered in the Spring semester.

DANC 198

Special Studies

1-3 Semester Hours

DANC 199

Independent Studies

1-3 Semester Hours

DANC 202

Modern Dance II

0-2 Semester Hours

Continuation of DANC 102. Increased emphasis on energy, range, and expression. More complex rhythmic patterns and movement designs are explored. Introduction to performance technique. Continuation of study of historical and aesthetic principles.

May be repeated for degree credit up to 4 times.

Audition: First class meeting.

DANC 220

Ballet II

0-2 Semester Hours

Learning to execute the vocabulary of ballet movement with technical accuracy. Beginning combinations across the floor. Continuation of study of history and aesthetics of the ballet style.

May be repeated for degree credit up to 4 times.

Audition: First class meeting.

DANC 242

Jazz Dance II

0-2 Semester Hours

Body rhythms, their initiation, pulse, and flow are explored in conjunction with sound through the principle of syncopation. Study of the aesthetics of entertainment and ethnology.

May be repeated for degree credit up to 4 times.

Audition: First class meeting.

DANC 244

Tap Dance II

0-2 Semester Hours

Continuation of DANC 144. Increased focus on musicality.

May be repeated for degree credit up to 6 times.

Audition: First class meeting.

DANC 248

Musical Theatre Dance I

0-2 Semester Hours

Study of the fundamental dance and performance skills associated with musical theatre dance.

May be repeated for degree credit up to 8 times.

DANC 260

Laban Movement Analysis

3 Semester Hours

Study of Rudolf Laban's method of systematic description of qualitative change in movement. Application in choreography, in teaching and in learning movement.

Dance majors or Dance minors only.

DANC 262

Dance Styles and Forms

3 Semester Hours

Exploration of dance composition based on styles of noted choreographers. Study of dance forms. Theory and practice as modes of study.

Prerequisites: DANC 160, 161, or 163; and DANC 260.

DANC 279

Rehearsal and Performance I

0-3 Semester Hours

Format varies by semester. Fall: preparation of a small touring program or lecture demonstration; Spring: dancing in the major Dance production.

May be repeated for credit up to 4 times.

DANC 281

History of Dance Theatre

3 Semester Hours

A study of dance development as an art form from earliest origins, through medieval religious pageantry, Renaissance court dances, 18th

century stage dance, and culminating with dance in the 19th and 20th centuries. Evolution of ballet and modern dance forms in Europe and America.

Offered in the Spring semester, alternate years.

DANC 298

Special Studies

1-3 Semester Hours

DANC 299

Independent Studies

1-3 Semester Hours

DANC 302

Modern Dance III

0-2 Semester Hours

Continuation of DANC 202. More complex rhythmic patterns and movement design. Concentrated work on performance and projection techniques. Dance films and study of current research on dance criticism.

May be repeated for degree credit up to 6 times.

Audition: First class meeting.

DANC 305

Modern Dance Coaching

0-1 Semester Hours

One-on-one coaching with modern dance instructor. Focused work on technique and performance.

Majors only.

May be repeated for degree credit up to 8 times.

DANC 320

Ballet III

0-2 Semester Hours

Continuation of DANC 220. Variations from the repertory of classic ballet. Familiarity with the music, scenarios, and staging of several traditional ballets. Dance films and study of current research on dance criticism.

May be repeated for degree credit up to 6 times.

Audition: First class meeting.

DANC 323

Intermediate/Advanced Ballet

0-2 Semester Hours

Continuation of DANC 220 and 320. Augmented work in ballet technique and performance.

May be repeated for degree credit up to 8 times.

Audition: First class meeting.

DANC 324

Ballet Coaching

0-1 Semester Hours

One-on-one coaching with ballet dance instructor. Focused work on technique and performance.

Majors only.

May be repeated for degree credit up to 8 times.

DANC 342

Jazz Dance III

0-2 Semester Hours

Continuation of DANC 242. Focus on styling and performance. Theoretical study of selected jazz dance artists and the impact of film and video on jazz dance.

May be repeated for degree credit up to 6 times.

Audition: First class meeting.

DANC 344

Tap Dance III

0-2 Semester Hours

A continuation of DANC 244. Focus on developing better skills, exploring rhythms, and mastering ability to keep time and phrase rhythms.

May be repeated for degree credit up to 6 times.

Audition: First class meeting.

DANC 345

Jazz Dance IV

0-2 Semester Hours

Continuation of DANC 342. Emphasis on study of jazz dance, hip hop, funk, and other dance styles used in commercial/media dance.

May be repeated for degree credit up to 8 times.

Audition: First class meeting. Intermediate ballet skills requisite.

DANC 346

Intermediate/Advanced Jazz Dance

0-1 Semester Hours

Continuation of DANC 345. Augmented work in jazz technique and performance skills.

Co-requisite: DANC 349.

Majors only.

May be repeated for degree credit up to 8 times.

Audition: First class meeting.

DANC 347

Intermediate Hip Hop

0-2 Semester Hours

Study of hip hop as a cultural dance form.

May be repeated for degree credit up to 4 times.

DANC 348

Musical Theatre Dance II

0-2 Semester Hours

Continuation of DANC 248. Practice of the dance technique and performance skills associated with musical theatre. Study of music, costuming, and acting dimensions of musical theatre dance.

Majors only.

May be repeated for degree credit up to 8 times.

Audition: First class meeting.

DANC 349

Jazz Dance Coaching

0-1 Semester Hours

One-on-one coaching with jazz dance instructor. Focused work on technique and performance.

Co-requisite: DANC 346.

Majors only.

May be repeated for degree credit up to 8 times.

Audition: First class meeting.

DANC 353

Dance Conditioning

0-2 Semester Hours

Laboratory course using specialized training modalities selected from Pilates, Feldendrais, and other physical systems.

May be repeated for degree credit up to 6 times.

DANC 360

Advanced Choreography

3 Semester Hours

Dance composition with focus on the craft elements of development, variation, thematic, and non-thematic subject matter. Strategies for building a dance from study to completed work.

Prerequisite: DANC 262.

DANC 362

Choreographers' Workshop

0-1 Semester Hours

Preparing work for the Student Dance Concert.

May be taken up to 8 times for degree credit.

Prerequisites: DANC 160 and 161.

DANC 371

Martial Arts

0-2 Semester Hours

Study of Tae Kwan Do, Aikido, Tai Chi Chuan, or other selected martial arts forms.

May be repeated for degree credit as long as subject changes.

DANC 372

Martial Arts in China

3 Semester Hours

The study of martial arts on location in China.

Enrollment through Study Abroad.

DANC 373

Yoga for Ballet

0-2 Semester Hours

The study of asana, pranayama, and philosophical dimensions of yoga which inform and support the study of ballet.

Majors only.

May be repeated for degree credit up to 8 times.

DANC 374

Yoga I

0-2 Semester Hours

Theory and practice of yoga through exercise, meditation, and selected readings.

DANC 375

Yoga II

0-2 Semester Hours

Continuation of yoga practice begun in Yoga I.

Prerequisite: DANC 374.

DANC 376

Yoga for Dancers

0-2 Semester Hours

Yoga practice particularly designed for those pursuing in-depth dance technique training.

Majors only.

DANC 377

Dance Production

0-1 Semester Hours

Serving as crew member or 30 hours of Dance Production work in the areas of lighting, publicity, costuming, staging, and/or related fields.

DANC 378

Service Project

0-1 Semester Hours

Completion of a service project on campus or in the community.

DANC 379

Dance Touring Group

0-3 Semester Hours

Performance group which tours local K-12 schools.

May be repeated for degree credit up to 4 times.

DANC 380

Music for Dance

3 Semester Hours

Study of the elements of music theory and history which are common to dance and music.

DANC 381**To Dance Is Human: Dance, Culture, and Society***3 Semester Hours*

A study of dance as a cultural, political, and socio-economic phenomena. The dance of three selected cultures in the United States today with origins in Africa, Asia, and Europe and current life in the United States will form the focus of study.

Offered in the Fall semester.

DANC 382**Drumming for Dance***2 Semester Hours*

African drumming techniques used in dance for dancers and musicians.

DANC 383**Dance Improvisation***0-1 Semester Hours*

Movement exploration of time, space, energy, use of gravity, partnering, music and text as sources of movement invention.

May be repeated for degree credit up to 4 times.

DANC 384**Creative Dance for Children***3 Semester Hours*

Creative dance experience designed to prepare the elementary school teacher to offer dance instruction.

Meets Liberal Studies Credential requirements.

DANC 385**Movement Arts for Children***3 Semester Hours*

Movement Arts experience ("new games," dance, sport) and study of the child's physical and motor development. Designed as pre-service Elementary School teacher training.

Meets Liberal Studies Credential requirements.

DANC 386**Dance in Los Angeles***1 Semester Hour*

Attendance at and analysis of concert dance at venues in the greater Los Angeles area.

DANC 387**Dance as Social Action***0-3 Semester Hours*

Theoretical and artistic exploration of Dance as a cultural phenomena and its role in social change.

May be repeated for degree credit up to 2 times.

DANC 388**Careers in Dance***1-2 Semester Hours*

Practical and theoretical study of dance-related careers.

DANC 390**Dance of Greece***0-2 Semester Hours*

Intensive study of folk dance of Greece with historical and cultural perspectives.

Offered in the Fall semester.

DANC 394**Dunham Dance Technique***0-2 Semester Hours*

A study of the dance technique of Katherine Dunham.

May be repeated for degree credit up to 6 times.

Audition: First class meeting.

DANC 396**Musical Theatre Dance***0-2 Semester Hours*

Practice and study of dances from the musical theatre repertory.

May be repeated for degree credit up to 2 times.

DANC 397**World Dance***0-2 Semester Hours*

Intensive study of selected world cultures from Africa, Asia, the Pacific, and Europe with particular attention to historical and cultural perspective.

May be repeated for degree credit as long as selected culture differs.

DANC 398**Special Studies***1-3 Semester Hours***DANC 399****Independent Studies***1-3 Semester Hours***DANC 402****Modern Dance IV***0-2 Semester Hours*

Continuation of DANC 302. Study focuses on subtlety in energy, range, and expression, along with concentration of style, rhythmic patterns, and movement design. Dance films and study of current research on dance criticism.

May be repeated for degree credit up to 8 times.

Audition: First class meeting.

DANC 403**Friday Dance Workshop***0-1 Semester Hours*

In-depth exploration of dance technique and partnering.

May be repeated for degree credit up to 8 times.

Audition: First class meeting.

DANC 404

Modern Dance V

0-2 Semester Hours

Continuation of DANC 402. Study focuses on increasing subtlety in energy, range, and expression, along with concentration on style, rhythmic patterns, and movement designs. Focus on style and professional work.

May be repeated for degree credit up to 6 times.

DANC 420

Ballet IV

0-2 Semester Hours

Continuation of DANC 320.

May be repeated for degree credit up to 8 times.

Audition: First class meeting.

DANC 421

Pointe and Variations

0-2 Semester Hours

Study of pointe work in ballet and reconstruction of variations from ballets of different periods.

May be repeated for degree credit up to 4 times.

Audition: First class meeting.

DANC 422

Partnering

0-1 Semester Hours

Exploration of partnering techniques as used in classical ballet, modern and post-modern dance.

DANC 423

Ballet V

0-2 Semester Hours

Continuation of DANC 420.

May be repeated for degree credit up to 8 times.

Audition: First class meeting.

DANC 424

Ballet VI

0-2 Semester Hours

Continuation of DANC 423.

May be repeated for degree credit up to 8 times.

Audition: First class meeting.

DANC 425

Ballet Repertory

0-2 Semester Hours

Apply ballet technique and principles of style to the learning of historical and/or contemporary ballet works.

May be repeated for degree credit up to 8 times.

DANC 440

Jazz Dance IV-V

0-2 Semester Hours

Continuation of DANC 345. Emphasis on study of jazz dance, hip hop, funk, and other dance styles used in commercial/media dance.

Consent of instructor required.

DANC 444

Tap Dance IV

0-2 Semester Hours

A continuation of DANC 344. Focus on developing better skills, exploring rhythms, and mastering ability to keep time and phrase rhythms.

May be repeated for degree credit up to 6 times.

Audition: First class meeting.

DANC 445

Jazz Dance V

0-2 Semester Hours

Continuation of DANC 345. Emphasis on study of jazz dance, hip hop, funk, and other dance styles used in commercial/media dance.

May be repeated for degree credit up to 8 times.

By audition only.

DANC 446

Jazz Dance VI

0-2 Semester Hours

Continuation of DANC 445. Pre-professional emphasis including auditioning and career planning.

May be repeated for degree credit up to 8 times.

By audition only.

DANC 459

Senior Thesis Preparation

0 Semester Hours

Organization of the senior thesis project, preparation of the senior thesis essay, and career bridge building.

Majors only.

Senior standing required.

DANC 460

Dance Theory and Criticism

3 Semester Hours

Formal seminar in philosophy of art and aesthetic criticism.

Senior standing required.

Majors only.

DANC 461

Senior Thesis: Project

3 Semester Hours

Preparation and presentation of performance or research thesis.

Senior standing required.

Majors only.

DANC 462

Mentorship: Senior Thesis

0-1 Semester Hours

One-on-one guidance on the development and presentation of the Senior Thesis Project.

May be repeated for degree credit up to 2 times.

DANC 477

Choreography Workshop Coaching

0-2 Semester Hours

One-on-one coaching to support work in choreography workshop.

May be repeated for degree credit up to 8 times.

DANC 479

Rehearsal and Performance II

0-3 Semester Hours

Continuation of DANC 279.

May be repeated for degree credit up to 4 times.

DANC 480

Kinesiology for Dancers I

3 Semester Hours

Understanding of the human body as it experiences movement. Analysis of the physics, anatomy, physiology, and psychology of movement behavior.

Offered in the Fall semester.

DANC 481

Kinesiology for Dancers II

3 Semester Hours

Continuation of DANC 480.

Prerequisite: DANC 480 or NTLS 150 or consent of Dance director.

Offered in the Spring semester.

DANC 484

Principles of Teaching Dance

3 Semester Hours

Theory and practice of effective dance instruction, including methods, lesson plans, and practice teaching of high school students and adults.

Offered in the Spring semester, alternate years.

DANC 485

Internships

1-3 Semester Hours

Work experience in teaching, health care, or business.

DANC 487

Dance Media and Technology

3 Semester Hours

Use of computer technology and other media in the making and performance of dance.

Principles of Public Relations

3 Semester Hours

An introductory course that overviews strategies, concepts, theories, practices, and history of public relations.

IDAP 301

Advanced Media Production

3 Semester Hours

IDAP 320

Broadcast Writing

3 Semester Hours

An introductory course to teach the basic skills of broadcast writing. Primary emphasis on television news and secondary emphasis on radio news. Techniques taught will also emphasize writing for allied fields such as public relations, advertising, and technical production.

IDAP 330

Broadcast News Production

3 Semester Hours

An introduction to news gathering, writing, and production for radio and television. Course covers the use of basic broadcast journalism tools, such as cameras, microphones, and conversational writing.

IDAP 340

Video Production for Public Relations

3 Semester Hours

An introductory course that overviews the conceptual and technical skills of video production within a public relations context. Emphasis is placed on the planning, scripting, and production processes.

IDAP 350

Radio Drama Production

3 Semester Hours

Working as an ensemble, students will write, act, direct and produce live on tape weekly performances for broadcast on KXLU-FM.

Lab fee.

IDAP 360

Workshop in Media Production

3 Semester Hours

IDAP 390

KXLU Workshop

1 Semester Hour

Hands-on study of radio broadcasting. The areas to be mastered are proper station operations, voice, writing, delivery, and simple production.

IDAP 391

KXLU Practicum

1 Semester Hour

A concentrated study of the management process associated with the day-to-day operation of KXLU-FM, recommended for radio station directors and others.

Marital and Family Therapy

MFTH 600

Art Therapy Literature/Assessment

2 Semester Hours

Comparative study of art therapy and its history in relation to theory and application. Also included is an overview of current art therapy assessment protocols.

MFTH 601

Art Explorations

2 Semester Hours

Explorations in art making to support an understanding of the art therapy modality.

MFTH 602

Fundamentals of Marriage/Family Systems

2 Semester Hours

This course provides an introduction to systems theory as a foundation to therapeutic intervention in marital and family therapy. The ground-work provides the conceptual view for the exploration of theoretical perspectives in the family therapy literature. A variety of family structures including traditional and non-traditional forms are studied as well as their clinical implications for the marital and family therapist.

MFTH 604

Child Psychotherapy: Theory and Practice

2 Semester Hours

Theories of Freud, Erikson, Piaget, and Lowenfeld are critically surveyed. Normal child development, psychopathology and psychotherapy theory, literature, and treatment approaches are coordinated. Verbal and non-verbal treatment approaches are coordinated.

MFTH 606

Adolescent Psychotherapy: Theory and Practice

2 Semester Hours

Continuation of MFTH 604. Within a family context, this course coordinates normal adolescent development, psychopathology and techniques of psychotherapy. Theoretical and practical aspects of treatment are explored. Case materials included focus the discussion on verbal and nonverbal treatment interventions.

MFTH 608

Theories of Marriage and Family Therapy

4 Semester Hours

Within a conceptual framework of systems theory in marital and family treatment, major theories are surveyed including psychodynamic, structural, strategic, communications, experiential, and post-modern. To demonstrate these theories, videotape of live supervision of cases is utilized where possible. Verbal and nonverbal treatment approaches are explored.

MFTH 609**Introduction to Mental Health Services***2 Semester Hours*

Introduces the spectrum of agencies involved in mental health services and provides a comprehensive overview of resources and advocacy programs including both governmental and private sources.

MFTH 610**Adult Psychotherapy***2 Semester Hours*

Normal adult development and theories of dysfunction are presented. Family, marital, individual, and group treatment strategies are addressed exploring both verbal and nonverbal treatment interventions. Emphasis is placed on the differential approach between psychiatric hospital, day treatment, and out-patient settings.

MFTH 611**Drug and Alcohol Treatment***1 Semester Hour*

This course helps students to recognize, assess, and treat substance abuse and addiction. It respects the complexity of the subject matter's physiological, sociological, psychological, economic, political, and international facets.

MFTH 612**Marriage and Family Psychotherapy: Issues and Applications***3 Semester Hours*

Provides a study of various concepts of psychotherapy through didactic and experiential methods. Includes a focus on effective approaches to communications as well as resolution of problematic issues of the treatment process, including both verbal and nonverbal interventions.

MFTH 613**Intimate Partner Violence***1 Semester Hour*

This course meets the State of California B.B.S. requirement regarding domestic violence.

MFTH 615**Group Psychotherapy: Theory and Practice***2 Semester Hours*

This course represents the theory and practice of group psychotherapy. The dynamics of group therapy are focused on including group process, group formation and maintenance, leadership styles, therapeutic factors, and group stages of development. Various theoretical approaches integrate the verbal and nonverbal experiential exercises.

MFTH 616**Human Sexuality***1 Semester Hour*

This course explores human sexuality from a bio-psychosocial perspective, including effects of physiology, genetics, environmental, individual, and relationship problems on sexuality and to know how to therapeutically address these problems. It emphasizes understanding the ways in which sexual problems may appear in social populations.

MFTH 617**Practicum/Supervision I***3 Semester Hours*

Internship includes two individual weekly supervisions by licensed psychotherapists. Students attend institutional training seminars and appropriate staff meetings. A minimum of 16 hours per week for 15 weeks in the field is required. Internships include work with children/adolescents/adults/geriatrics within a marital and family context.

The following types of institutional settings are available: outpatient clinics and community mental health centers, residential treatment (including abused children), therapeutic and public schools, rehabilitation centers, psychiatric in-patient, and day-treatment hospital settings. The practicum includes a variety of ethnic minority populations.

MFTH 618**Practicum/Supervision II***4 Semester Hours*

Refer to MFTH 617, Practicum/Supervision I. Requires a minimum of 20 hours per week for 15 weeks.

MFTH 619**Practicum/Supervision III***4 Semester Hours*

See MFTH 618.

MFTH 620**Multiculturalism and Art Therapy in Mexico—Part I***1 Semester Hour*

An exploration of cultural issues including art-based processes in support of expanding multicultural clinical competencies.

MFTH 621**Cultural and Ethnic Issues in Marital and Family Therapy***1-3 Semester Hours*

Multicultural values in psychotherapy and counseling are explored. Racial and ethnic factors are examined in the therapeutic process.

Enrollment for 1 semester hour is contingent upon completion of MFTH 620 and 622; enrollment for 2 semester hours is contingent upon completion of MFTH 620.

MFTH 622**Multiculturalism and Art Therapy in Mexico—Part II: Artisans in Michoacán***1 Semester Hour*

A field trip into the Mexican state of Michoacán to explore the creative processes and products of the region from an art therapy perspective.

MFTH 629**Family Art Therapy in Mexico***1 Semester Hour*

An integrated exploration of family art therapy within the context of family therapy theory. Experiential learning is facilitated through the art process.

MFTH 630**Marital and Family Therapy: Clinical Studies***2-3 Semester Hours*

Advanced studies in marriage and family therapy including the exploration of a range of verbal and nonverbal treatment interventions and strategies from a variety of theoretical viewpoints. Case presentations provide a format to articulate and explore theoretical frameworks.

Enrollment for 2 semester hours is contingent upon completion of MFTH 629.

MFTH 638

Psychopathology

2 Semester Hours

Psychopathology as stated in DSM-IV is reviewed and comprehensively explored. The process of assessment and diagnosis focuses on verbal and nonverbal communications.

MFTH 639

Psychopharmacology

2 Semester Hours

Provides a comprehensive look at the neuroscience and pharmacological treatment of psychiatric disorders. Specifically explores the neurological functioning involved in the creative process and identifies the impact of medications on creativity.

MFTH 640

Psychological Tests

2 Semester Hours

Review of formal and informal psychological tests used for assessment, including issues of reliability, validity, and item content. Projective drawings and structured clinical interviews are covered.

MFTH 641

Aging and Long-Term Care

1 Semester Hour

Explores the developmental phases of aging and looks at current trends and issues in long-term care. Includes a review of legal and community resources.

MFTH 642

Trauma Art Therapy

2 Semester Hours

This course provides an introduction to crisis intervention and disaster response theory as a foundation to therapeutic intervention in marital and family therapy. Assessment and treatment approaches are explored within the context of crisis and disaster field response. Case material supports the discussion of verbal and non-verbal treatment interventions.

MFTH 690

Seminar: Professional Ethics

2 Semester Hours

Overview of issues in law and ethics for marriage and family therapists and clinical art therapists, such as licensure, values, legal and ethical responsibilities, malpractice, and confidentiality. Also discussed is the development of professional identity. Course includes ten hours of human sexuality as mandated by the B.B.S.

MFTH 691

Research Methodology

3 Semester Hours

An overview of research design, ethics, and philosophy from a variety of research paradigms and approaches. Critical study of the relevant literature and the development of an in-depth proposal for a research/clinical project or paper to be carried out in the following semester.

MFTH 696

Research/Clinical Paper

3 Semester Hours

The student carries out a research project and writes a research report under the direction of a faculty member.

Consent of instructor required.

MFTH 698

Special Studies

1-3 Semester Hours

Contact Department Chairperson for details.

MFTH 699

Independent Studies

1-3 Semester Hours

Contact Department Chairperson for details.

Music

MUSC 101

Studio Class

0 Semester Hours

Recital class for music majors and minors enrolled in applied lessons, including composition lessons.

May be repeated for degree credit.

MUSC 102

Enjoyment of Music

3 Semester Hours

An overview of the evolution of Western Art music from the era of Gregorian Chant to modern times. Focus is on style periods and the contributions of the great composers. Concert attendance required.

Non-majors and non-minors only.

MUSC 104

Fundamentals of Music

3 Semester Hours

Practical study of the rudiments of music—notation, rhythm, keys, scales, and terminology, with the object of attaining and applying a basic musical literacy. Concert attendance required.

Non-majors and non-minors only.

MUSC 105

The Vocal Experience

3 Semester Hours

Exploration of the basic techniques of singing with emphasis on the expressive elements inherent in simple vocal literature; study of fundamental musical elements—rhythm, melody, key structures, notation—leading to successful sight singing.

MUSC 106

The Guitar Experience

3 Semester Hours

Exploration of the basic technique of performing on the guitar including 1) learning to read music, 2) chords and styles of accompaniment, and 3) the preparation of solo pieces.

MUSC 107

The Piano Experience

3 Semester Hours

Exploration of the basic techniques of performing piano literature; study of fundamental musical elements—rhythm, melody, key structures, notation, and reading music.

Lab fee.

MUSC 121

Music Theory and Form I

3 Semester Hours

Introduction to the fundamentals of functional tonal harmony, basic musical terminology and notation, figured bass, and diatonic harmonic progression and voice leading.

Corequisite: MUSC 133.

Lab fee.

MUSC 122

Music Theory and Form II

3 Semester Hours

Continuation of MUSC 121, introducing cadences, non-chord tones, 7th chords, chromatic harmony and voice leading (secondary chords), and various types of modulation. Also includes an introduction to formal analysis through the study of period and other phrase structures.

Corequisite: MUSC 134.

Lab fee.

MUSC 131

Sight Singing I

1 Semester Hour

Study of notation, keys, scales, rhythm; recognition of intervals; development of the ability to sight-read vocally from the score and to take melodic dictation.

MUSC 132

Sight Singing II

1 Semester Hour

Continuation of MUSC 131.

Prerequisite: MUSC 131.

MUSC 133

Aural Skills I

1 Semester Hour

Developing of the aural skills of sight singing, audiation, and pitch discrimination leading to the ability to take musical dictation from simple to intermediate levels involving melody, rhythm and meter, chords in root position, and cadential harmony. Includes Computer Assisted Instruction (CAI).

Corequisite: MUSC 121.

MUSC 134

Aural Skills II

1 Semester Hour

Continuation of MUSC 133, further developing the ability to take musical dictation from intermediate to advanced levels involving tonal, modal, and atonal melody, rhythm and meter, all chord types including inversions and functional harmonic progression. Continuation of CAI.

Prerequisite: MUSC 133.

Corequisite: MUSC 122.

MUSC 135

Functional Piano I

1 Semester Hour

Development of pragmatic keyboard reading skills.

Music majors/minors only.

Lab fee.

MUSC 136

Functional Piano II

1 Semester Hour

Continuation of MUSC 135.

Prerequisite: MUSC 135 or consent of instructor.

Lab fee.

MUSC 175

Beginning Piano Class

1 Semester Hour

Development of pragmatic keyboard reading skills.

Lab fee.

MUSC 176

Intermediate Piano Class

1 Semester Hour

Application of fundamental keyboard reading skills through sight reading, ensemble work, harmonizing, and improvising. Development of interpretive skills through the use of repertoire from different eras.

Prerequisite: MUSC 175 or consent of instructor.

Lab fee.

MUSC 177

Advanced Piano Class

1 Semester Hour

Application of interpretive skills using more complex repertoire. Fundamentals of tonal music theory are addressed along with sight reading and improvising. Individual projects may be assigned.

Prerequisite: MUSC 176 or consent of instructor.

Lab fee.

MUSC 178

Beginning Voice Class

1 Semester Hour

Group instruction in singing. The basics of breathing, tone production, diction and articulation, song preparation, and performance.

MUSC 179

Beginning Guitar Class

1 Semester Hour

The study of the classical guitar: learning to read music, learning to use the hands efficiently, gaining an understanding of the structures of music in order to develop an interpretive style.

MUSC 180

Guitar, Percussion, Piano, Strings, Voice

1 Semester Hour

First semester of private applied lessons in the major/minor.

Corequisite: MUSC 101.

MUSC 181

Guitar, Percussion, Piano, Strings, Voice

1 Semester Hour

Second semester of private applied lessons in the major/minor.

Prerequisite: MUSC 180.

Corequisite: MUSC 101.

MUSC 182

Guitar, Percussion, Piano, Strings, Voice

1 Semester Hour

First year of private applied lessons for non-majors, non-minors (repeatable credit).

Applied music fee.

Permission of instructor required.

MUSC 221

Music Theory and Form III

3 Semester Hours

Introduction to modal species counterpoint, fugal process, fundamentals of formal analysis, binary and ternary forms, and further chromatic harmony and voice leading, including borrowed chords, the Neapolitan and augmented 6th chords.

Prerequisite: MUSC 122.

MUSC 222

Music Theory and Form IV

3 Semester Hours

Introduction to song forms, rondo and sonata forms, and further chromatic harmony, including chromatic mediant relationships and enharmonic modulation. Introduction to 20th century concerns, including modality, atonality, Impressionism, Expressionism, polyrhythm and polytonality, serial techniques, minimalism, and improvisation and chance.

Prerequisite: MUSC 221.

MUSC 235

Instrumentation

2 Semester Hours

Ranges, limits, use possibilities, technical parameters, and transpositions of instruments used for the making of music in performance.

Prerequisite: MUSC 122.

MUSC 280

Guitar, Percussion, Piano, Strings, Voice

1 Semester Hour

Third semester of private applied lessons in the major.

Prerequisite: MUSC 181.

Corequisite: MUSC 101.

MUSC 281

Guitar, Percussion, Piano, Strings, Voice

1 Semester Hour

Fourth semester of private applied lessons in the major.

Prerequisite: MUSC 280.

Corequisite: MUSC 101.

MUSC 282

Guitar, Percussion, Piano, Strings, Voice

1 Semester Hour

Second year of private applied lessons for non-majors (repeatable credit).

Applied music fee.

Permission of instructor required.

MUSC 303

Introduction to World Music Cultures

3 Semester Hours

An introductory-level survey of art, traditional, and regional popular music, chosen from the Near East, South Asia, Indonesia, and East Asia. Class lectures and discussion focus upon readings and guided listening. Some in-class performance.

MUSC 304

Topics in World Music Cultures

3 Semester Hours

An intermediate-level survey of art, traditional, and regional popular music, chosen from Africa, the Americas, and Oceania. Class lectures and discussion emphasize coherences between music and culture. Some musical analysis.

Prerequisite: MUSC 303.

MUSC 309

History/Literature of the Guitar

3 Semester Hours

The development of the guitar and related plucked instruments from the Renaissance to the present; a survey of notational systems, techniques, historical styles, and the representative works for the lute, vihuela, five-course guitar, and six-string guitar.

Prerequisite: MUSC 281.

MUSC 310

Instrumental Pedagogy

3 Semester Hours

Research, concepts, and methodology common to the teaching of instruments.

Prerequisite: MUSC 222.

MUSC 316

Music History: Antiquity to 1600

3 Semester Hours

A historical survey of Western music traditions from antiquity and early chants through the Renaissance (1600). Includes methodology and procedures which are fundamental to scholarly research and inquiry in musicology.

Prerequisite: MUSC 122.

MUSC 317

Music History: 1600-1820

3 Semester Hours

A continuation of the historical survey of Western music traditions from the Baroque Era (1600) through the Classic Era (1820). Includes methodology and procedures which are fundamental to scholarly research and inquiry in musicology.

Prerequisite: MUSC 316.

MUSC 318

Music History: 1820 to Present

3 Semester Hours

A continuation of the historical survey of Western music traditions from the beginnings of Romanticism through the milieu of twentieth-century music, concluding with current practices and trends. Includes methodology and procedures which are fundamental to scholarly research and inquiry in musicology.

Prerequisite: MUSC 317.

MUSC 319

Analytic Techniques

3 Semester Hours

The study of concerto and variation forms, tonal pairing and other 19th century developments, and an introduction to linear-graphic analysis and set theory.

Prerequisite: MUSC 222.

MUSC 320

Notation and Copying

3 Semester Hours

A survey of the fundamentals of traditional musical notation, with emphasis on the development of practical notational skills. Includes Computer Assisted Instruction (CAI).

Prerequisite: MUSC 222.

MUSC 322

Modal Counterpoint

3 Semester Hours

Introduction to the style of sixteenth-century counterpoint, as exemplified by the vocal works of Palestrina. Topics covered include species counterpoint, the setting of Latin texts, and techniques of mass composition.

Prerequisite: MUSC 221.

MUSC 323

Tonal Counterpoint

3 Semester Hours

Introduction to the style of eighteenth-century counterpoint, as exemplified by the instrumental works of J.S. Bach. Techniques and procedures covered include species counterpoint, canon, invention, and fugue.

Prerequisite: MUSC 221.

MUSC 325

Music for the Recordist

3 Semester Hours

An in-depth investigation of the businesses of music as they apply to the recording and entertainment industry.

MUSC 328

Choral Methods I

2 Semester Hours

Practical aspects of choral techniques ranging from the audition through the working rehearsal with emphasis on development of choral tone, phrasing, articulation, dynamics, blend, and balance, as well as selection of repertoire.

Prerequisites: MUSC 281 (Voice), 322, and 491 or 495.

MUSC 330

Score Reading I

2 Semester Hours

Score reading preparation of concert and transposed musical scores involving two through six parts including the use of multiple clefs.

Prerequisite: MUSC 333.

MUSC 331

Score Reading II

2 Semester Hours

Score reading preparation of concert and transposed scores involving seven or more diverse instrumentations including the use of multiple clefs.

Prerequisite: MUSC 330.

MUSC 332

Choral Conducting

2 Semester Hours

Basic conducting skills, technical and expressive uses of the conducting gesture, methods of verbal and non-verbal communication appropriate to a choral ensemble.

MUSC 333

Instrumental Conducting

2 Semester Hours

Basic conducting skills, technical and expressive uses of the conducting gesture, and methods of communication appropriate to an instrumental ensemble.

Prerequisite: MUSC 235.

MUSC 335**Accompanying I***1 Semester Hour*

The literature and performance practices applicable for solo and small genre accompaniment.

Consent of instructor required.

MUSC 336**Accompanying II***1 Semester Hour*

Continuation of MUSC 335.

Prerequisite: MUSC 335 or consent of instructor.

MUSC 340**Diction for Singers I***1 Semester Hour*

Development and refinement of enunciation and performing skills in English, Italian, and Latin. An extensive working knowledge of the International Phonetic Alphabet will be acquired.

Major or minor required.

MUSC 341**Vocal Pedagogy***3 Semester Hours*

Study of the physiology and acoustics of the voice and its application to singing and to the teaching of singing.

Major or minor required.

MUSC 342**Diction for Singers II***1 Semester Hour*

Continuation of MUSC 340; emphasis on German and French.

Prerequisite: MUSC 340.

MUSC 343**Opera Scenes/Workshop***1-2 Semester Hours*

Preparation of scenes from major operas in either staged or concert versions, and study of the complete works to aid singers in establishing context and characterization.

Audition after enrollment.

May be repeated for degree credit.

MUSC 344**Alexander Technique***0-1 Semester Hours*

Basic skills of coordinated movement appropriate to stage work for vocalists and instrumentalists. Exploration of the elements of poise, postural habits, and style based on principles developed by F.M. Alexander.

May be repeated for degree credit.

MUSC 361**Music in Contemporary Africa***3 Semester Hours*

A survey of traditional and popular music in the Sudanic Desert, East Horn, Eastern, Southern, Central, and Western Coastal regions of Africa. The course emphasizes relationships between music and culture that can be discovered and discussed through active listening. Some hands-on performance of both music and dance.

MUSC 365**History of Jazz***3 Semester Hours*

A survey of the origins and major style periods of jazz from the antebellum era to the present. Listening assignments emphasize the ways in which specific musical features reflect currents of history and culture.

MUSC 366**History of Rock***3 Semester Hours*

Evolution of rock and roll from its African-American origins to the present.

MUSC 367**History of Popular Music***3 Semester Hours*

Survey of the musical and cultural history of the diverse styles and artists associated with popular music. Exploration will range from rock to blues to hip hop to heavy metal to country. The course will consider the social, political, and cultural themes that influence and are influenced by music.

MUSC 380**Guitar, Percussion, Piano, Strings, Voice***1 Semester Hour*

Fifth semester of private applied lessons in the major.

Prerequisite: MUSC 281.

Corequisite: MUSC 101.

MUSC 381**Guitar, Percussion, Piano, Strings, Voice***1 Semester Hour*

Sixth semester of private applied lessons in the major.

Prerequisite: MUSC 380.

Corequisite: MUSC 101.

MUSC 382**Guitar, Percussion, Piano, Strings, Voice***1 Semester Hour*

Third year of private applied lessons for non-majors (repeatable credit).

Applied music fee.

Permission of instructor required.

MUSC 387**Music Composition I**

1 Semester Hour

The composition of original instrumental and vocal works for solo performers and small ensembles employing structures such as binary, ternary, and song forms.

Prerequisite: MUSC 222.

MUSC 388**Music Composition II***1 Semester Hour*

Continuation of MUSC 387.

Prerequisite: MUSC 387.

MUSC 398**Special Studies****1-3 Semester Hours***MUSC 399****Independent Studies****1-3 Semester Hours*

*MUSC 398 and 399 may not be designated to stand in lieu of a course in the Music curriculum, except by permission of the Chairperson.

MUSC 401**Music in Native North America***3 Semester Hours*

A survey of traditional and contemporary music/dance within primary culture areas.

MUSC 402**Music of East, Central, and Southeast Asia***3 Semester Hours*

A historically-oriented survey of traditional, art, and popular genres within each region.

MUSC 403**Music of Indonesia***3 Semester Hours*

An exploration of performing arts in Java, Bali, and outer islands of the archipelago.

MUSC 404**Music of India***3 Semester Hours*

An exploration of performing arts in North and South India.

MUSC 405**Music in Contemporary Society***3 Semester Hours*

Using live performance as the springboard, the elements of music are examined from a cross-cultural perspective.

MUSC 407**Research and Methods in Ethnomusicology***1 Semester Hour*

A survey of the essential literature of ethnomusicology; introduction to field methods, transcription, and analysis.

Prerequisite: MUSC 303 or consent of instructor.

MUSC 412**Pre-Renaissance and Renaissance Music***3 Semester Hours*

The study of the major musical figures and their representative works from the chants of the early Christian church to the Baroque Era.

Prerequisites: MUSC 316, 317, and 318.

MUSC 413**Music of the Baroque***3 Semester Hours*

Composers, music, and practices from 1600 to 1750 with emphasis on historical development culminating in the works of G.F. Handel and J.S. Bach.

Prerequisites: MUSC 316, 317, and 318.

MUSC 414**Music of the Classical Era***3 Semester Hours*

Composers, music, and practices from 1750 to 1827 with emphasis on historical developments of musical trends through the works of Gluck, Haydn, Mozart, Beethoven and Schubert.

Prerequisites: MUSC 316, 317, and 318.

MUSC 415**Music of the Romantic Age***3 Semester Hours*

Composers, music, and musical developments from the death of Beethoven through the end of the nineteenth century.

Prerequisites: MUSC 316, 317, and 318.

MUSC 416**Music of the Twentieth-Century Era***3 Semester Hours*

Composers, music, trends, and musical arts-related developments from the close of the nineteenth century through contemporary practices.

Prerequisites: MUSC 316, 317, and 318.

MUSC 425**Electronic Music***3 Semester Hours*

The history and investigation of electronic, electroacoustic, and computer generated sounds as music composition and production tools.

Prerequisite: MUSC 222.

MUSC 426**Arranging and Scoring***1 Semester Hour*

Principles, methods, formats, and techniques employed in arranging or scoring existing musical materials for instrumental or vocal genre in selected styles.

Prerequisite: MUSC 222.

MUSC 428

Choral Methods II

1 Semester Hour

Continuation of MUSC 328.

Prerequisite: MUSC 328.

MUSC 432

Advanced Choral Conducting

2 Semester Hours

Application of concepts and fundamentals experienced in MUSC 332, development and application of interpretive conducting skills through study of choral works representing the major style periods.

Prerequisite: MUSC 332.

MUSC 433

Advanced Instrumental Conducting

2 Semester Hours

Application of concepts and fundamentals experienced in MUSC 333, development and application of interpretive conducting skills through major orchestral works.

Prerequisite: MUSC 333.

MUSC 435

Instrumental Conducting Practicum

2 Semester Hours

Preparation and application of conducting skills with a departmental instrumental ensemble resulting in a recital performance appearance as a student conductor.

Prerequisite: MUSC 433.

MUSC 445

Choral Practicum

1 Semester Hour

In-depth study of choral rehearsal practices resulting in a senior project or conducting recital.

Prerequisite: MUSC 432.

MUSC 450

Senior Project/Recital

1 Semester Hour

Preparation and presentation of a solo performance in a student recital format.

Permission of Applied instructor, advisor, and Chairperson required.

MUSC 454

World Music Ensembles I

0-1 Semester Hours

Practice and performance of West African drumming and Balinese gamelan including both traditional and new compositions.

Audition after enrollment.

May be repeated for degree credit.

MUSC 455

World Music Ensembles II

0-1 Semester Hours

Practice and performance of intermediate-level techniques in West African drumming and xylophone as well as Balinese gamelan and gender wayang.

Prerequisite: MUSC 454.

Permission of instructor required.

May be repeated for degree credit.

MUSC 457

Music Management I

3 Semester Hours

Subjects include, but are not limited to: the music business system, professional songwriting, music publishing, music copyright, music licensing, unions and guilds, agents, managers and attorneys, artist management, concert promotion, theatrical production, music merchandising, and arts administration.

MUSC 458

Music Management II

3 Semester Hours

Subjects include, but are not limited to: scope of the record industry, record markets, artists' recording contracts, record production, record promotion, distribution and merchandising, studios and engineers, environmental music, music in radio, music in telecommunications, music in advertising, film scoring, career options, and career development.

Prerequisite: MUSC 457.

MUSC 480

Guitar, Percussion, Strings, Voice

1 Semester Hour

Seventh semester of private applied lessons in the major.

Prerequisite: MUSC 381.

Corequisite: MUSC 101.

MUSC 481

Guitar, Percussion, Piano, Strings, Voice

1 Semester Hour

Eighth semester of private applied lessons in the major.

Prerequisite: MUSC 480.

Corequisite: MUSC 101.

MUSC 482

Guitar, Percussion, Piano, Strings, Voice

1 Semester Hour

Fourth year of private applied lessons for non-majors (repeatable credit).

Applied music fee.

Permission of instructor required.

MUSC 487

Music Composition III

1 Semester Hour

The composition of original instrumental and vocal works for large ensembles employing extended structures such as sonata, rondo, variation, and concerto forms.

Prerequisite: MUSC 388.

MUSC 488

Music Composition IV

1 Semester Hour

Continuation of MUSC 487.

Prerequisite: MUSC 487.

MUSC 490

Chamber Orchestra

0-1 Semester Hours

Offers students and members of the community instruction in orchestral music through the study and performance of quality literature representing a variety of style periods and musical genre.

Audition after enrollment.

May be repeated for degree credit.

MUSC 491

Consort Singers

0-1 Semester Hours

Smaller, more advanced choral ensemble provides an opportunity for students to perform challenging choral literature from a wide range of composers and styles.

Should have previous choral experience.

Audition after enrollment.

May be repeated for degree credit.

MUSC 492

Chamber Music Ensembles

0-1 Semester Hours

To gain an understanding of and to develop the skills necessary for small ensemble playing (includes guitar, string, and piano ensembles).

Audition after enrollment; permission of instructor required (piano ensembles).

May be repeated for degree credit.

MUSC 493

Women's Chorus

0-1 Semester Hours

The ensemble explores and performs choral literature for treble voices.

Audition after enrollment.

May be repeated for degree credit.

MUSC 494

Men's Chorus

0-1 Semester Hours

The ensemble explores and performs choral literature for male voices.

Audition after enrollment.

May be repeated for degree credit.

MUSC 495

Concert Choir

0-1 Semester Hours

The large choral ensemble offers students and members of the community instruction in choral music with emphasis on vocal techniques as well as the study and performance of quality literature representing a variety of style periods and musical genres.

Audition after enrollment.

May be repeated for degree credit.

MUSC 496

Theory Placement Practicum

0-1 Semester Hours

Review of selected topics from Music Theory and Form I-IV and techniques of preparation for theory placement examinations required by music graduate schools.

MUSC 497

Musicology Placement Practicum

0-1 Semester Hours

Techniques of preparation for musicology placement examinations required for entrance into music graduate school programs.

MUSC 498

Special Studies*

1-3 Semester Hours

MUSC 499

Independent Studies*

1-3 Semester Hours

* MUSC 498 and 499 may not be designated to stand in lieu of course content addressed by another course in the music curriculum, except by permission of the Chairperson.

Theatre Arts

THEA 100

Introduction to the LMU Theatre Arts Experience

1 Semester Hour

An introductory course designed to enhance the student's experience of the study of theatre arts, this course explores and explains theatre practice from varying points of view at LMU. Full-time faculty and staff members will lecture and discuss different approaches to learning, creating, and understanding theatre arts.

Course required by major.

Offered in the Fall semester.

Theatre Arts majors only.

Credit/No Credit grading.

THEA 110**Beginning Acting***3 Semester Hours*

An introduction to the interpretation of drama through the art of the actor.

Lab fee.

Non-majors and Theatre Arts minors only.

THEA 111**Introduction to Theatre Performance***3 Semester Hours*

An introduction to the study of acting with a foundation in realism and physical actions. Emphasis is placed on a variety of critical and creative theories, and techniques to cultivate imagination, focus, and embodied creativity, self-awareness, vocal and physical range, and script analysis. Suitable for beginners and students with some performance experience.

Lab fee.

Theatre Arts majors only.

THEA 112**Voice and Movement for the Stage***3 Semester Hours*

An introduction to develop and practice vocal and physical techniques designed to free the natural voice and body and to explore the relationship between the two as expressed in performance and basic communication.

Lab fee.

Theatre Arts majors/minors only.

Prerequisite: THEA 111 or 110-equivalent experience.

THEA 120**Basic Stagecraft***3 Semester Hours*

An introduction to basic technical theatre organization and vocabulary, scenic materials, and construction processes. The course includes an overview of the relationship of scenography to production and reading/executing basic graphic documents. A lab provides practical application of techniques and methods covered in lectures.

Lab fee.

Corequisite: THEA 121.

THEA 121**Basic Stagecraft Lab***0 Semester Hours*

An application of basic modern theatrical practices in a lab format through hands-on experience in a scene shop. Course work correlates with instruction in THEA 120.

Corequisite: THEA 120.

Credit/No Credit grading.

THEA 210**Scene Study and Presentation***3 Semester Hours*

A concentrated approach to Stanislavski-based scene analysis and presentation. Emphasis on further development and integration of acting skills in voice, movement, interpretation, script analysis, and character development for performance.

Theatre Arts majors/minors only.

Prerequisite: THEA 110, 111, or equivalent experience.

THEA 220**Introduction to Basic Scene, Lighting, and Costume Design***3 Semester Hours*

An introduction to the basic elements of production design and its interrelation to the idea of the play. Course will examine the script and explore the development of a concept and its application in the design disciplines. Conceptual and technical drawing are produced, emphasizing clear and concise communication.

Lab fee.

Corequisite: THEA 221.

THEA 221**Introduction to Basic Scene, Lighting, and Costume Design Lab***0 Semester Hours*

Credit/No Credit grading.

Corequisite: THEA 220.

THEA 223**Lighting Design I***3 Semester Hours*

This course explores the use of light as a medium and art form in contemporary theatre and dance through theoretical and hands-on work and exposes the student to the collaborative contribution of light in the performing arts.

Lab fee.

Prerequisite: THEA 220 or consent of instructor.

THEA 224**Scene Design I***3 Semester Hours*

Combining the development of practical skills and imagination in the development of scenic design, this course explores the basics such as ground plan formation, research, textual analysis, color, basic rendering, drafting and model making techniques.

Lab fee.

Prerequisite: THEA 220 or consent of instructor.

THEA 225**Basic Stage Make-up***2 Semester Hours*

An introduction to the art and application of basic stage make-up required of working actors and performers. Recommended for acting students and cast members.

Lab fee.

THEA 227**Costume Design I**

3 Semester Hours

This course explores costume design as developed from different genres of plays, styles, and/or periods. Emphasis is on the application of design elements, principles, research, process, fabric choice, and script analysis.

Lab fee.

Prerequisite: THEA 220 or consent of instructor.

THEA 240

Western Theatre History and Literature I

3 Semester Hours

A study of the theatre (literature, playhouse, performance conventions) of the ancient Greek and Roman worlds, the Medieval world, the Renaissance, and the Elizabethan period.

Offered in the Fall semester.

THEA 245

Western Theatre History and Literature II

3 Semester Hours

A study of the theatre (literature, playhouse, performance conventions) from the 17th century to the 20th century.

Offered in the Spring semester.

THEA 250

Theatre Practicum: Crew

0-2 Semester Hours

This course provides mentored hands-on experience in technical theatre through participation in construction or running crew for Theatre Arts departmental productions.

May be repeated for up to 6 semester hours with a maximum of 2 semester hours in any given technical area.

Theatre Arts majors/minors only.

THEA 251

Theatre Practicum: Performance

0-3 Semester Hours

The application of actor training methods and techniques to departmental theatrical productions.

May be repeated for credit up to 9 semester hours.

Lab fee.

Audition required.

THEA 253

Playwrights Center Stage

0-3 Semester Hours

An introduction to new play development, theory, and practice, designed for writers, actors, and technical/production managers. The course focuses on the development of new scripts through the interaction between actors and writers with the possibility of staged readings and/or workshop productions.

May be repeated for credit up to 6 semester hours.

Lab fee.

Consent of instructor or Co-Chairperson required.

THEA 266

Introduction to Camera Acting

3 Semester Hours

An introduction to the basics of acting for the camera. Exercises and scenes will be taped. Students will also learn basic camcorder, microphone, and lighting usage.

Lab fee.

Prerequisite: THEA 111 or equivalent experience.

THEA 270

Stage Management

3 Semester Hours

This course studies and practices the job duties and skills required of Production Stage Managers where all phases of production are examined from both theoretical and real world models including those with educational, community, regional, and Broadway theatres.

Lab fee.

Prerequisite: THEA 120 or consent of instructor.

THEA 298

Special Studies

1-3 Semester Hours

THEA 299

Independent Studies

1-3 Semester Hours

THEA 300

Theatre in Los Angeles

3 Semester Hours

Theatre-going and appreciation designed for the potential audience member through first-hand meetings with theatre artists and attendance at Los Angeles productions.

Lab fee.

May be repeated up to 6 semester hours.

THEA 310

Intermediate Scene Study

3 Semester Hours

A continuation of THEA 210, this course continues toward the development of the integration of acting skills in scene and text analysis, accessing emotional life, voice, movement, interpretation, and character development for performance. This course is a deeper and more rigorous exploration of the acting process.

Theatre Arts majors/minors only.

Prerequisite: THEA 210.

THEA 312

Voice Development

3 Semester Hours

A course designed to free the natural voice, to develop a full vocal range, and to practice techniques towards compelling and articulate vocal expression and communication.

THEA 313**Reader's Theatre***1-3 Semester Hours*

This course develops the techniques for reading literature through the exploration of vocal flexibility and expression, textual interpretation and analysis, and the development of character through skillful and informed vocal choices.

May be repeated for credit up to 9 semester hours.

THEA 314**Intermediate Acting for Non-Majors***3 Semester Hours*

A continuation of THEA 110; students will further explore the elements of character development and scene analysis.

Non-majors and Theatre Arts minors only.

Prerequisite: THEA 110 or consent of instructor.

THEA 315**Alexander Technique***3 Semester Hours*

A course open to all majors designed to improve the relationship and use of the body, voice, and breath. Through application of the Alexander Technique, interfering habitual blocks of tension and personality are transformed for greater command over the physical and emotional instrument. Movement ease and coordination as well as improved posture are achieved through informed choices.

THEA 320**Intermediate Scenic Design***3 Semester Hours*

This course examines the theory and practice of scene design and manipulation of stage space. Special emphasis is placed on the development of a point of view toward the production of the play as related to all aspects of theatrical design.

Lab fee.

Prerequisite: THEA 220, 224, or consent of instructor.

THEA 321**Intermediate Lighting Design***3 Semester Hours*

This course examines the theory and practice of lighting design. The core of this course is a series of discovery projects using minimal resources, to explore the use of light in the theatre. Through this exploration, students will discover a variety of approaches to developing a successful lighting design.

Lab fee.

Prerequisite: THEA 220, 223, or consent of instructor.

THEA 322**Intermediate Costume Design and Construction***3 Semester Hours*

This course examines the craft of designing, planning, and constructing costumes, including beginning pattern-drafting.

Lab fee.

Prerequisite: THEA 220, 227, or consent of instructor.

THEA 331**Classical Spirit in Drama***3 Semester Hours*

An exploration of the classical drama throughout major periods.

THEA 336**Romantic Spirit in Drama***3 Semester Hours*

An exploration of the romantic drama throughout major periods.

THEA 341**Realistic Spirit in Drama***3 Semester Hours*

An exploration of the realistic drama throughout major periods.

THEA 343**Shakespeare: Stage and Screen***3 Semester Hours*

A study of the interpretation of Shakespeare by actors, directors, and designers in theatre, opera, ballet, film, and television from the 17th century to the present.

THEA 346**Avant-Garde Spirit in Drama***3 Semester Hours*

An exploration of the avant-garde drama throughout major periods.

THEA 347**African Spirit in Drama***3 Semester Hours*

An exploration of African theatre and theatre of the African diaspora in the United States, the Caribbean, and elsewhere.

THEA 348**Asian Spirit in Drama***3 Semester Hours*

An exploration of the Asian drama throughout major periods.

THEA 349**Hispanic Spirit in Drama***3 Semester Hours*

An exploration of theatre of the Spanish language in the Western Hemisphere and in Europe, as well as theatre of the Latin traditions in the United States.

THEA 361**Acting: Method and Technique***3 Semester Hours*

A hands-on exploration of varied approaches toward actor training and the development of individual approaches toward working with a text in preparation for performance.

Lab fee.

Theatre Arts majors/minors only.

Consent of instructor required.

Prerequisites: THEA 110 or 111, THEA 210.

THEA 366

Acting for the Camera

3 Semester Hours

This course builds on basic camera acting knowledge and experience through various filmed exercises and scenes.

Lab fee.

Theatre Arts majors/minors only.

Consent of Co-Chairperson and instructor required.

Prerequisite: THEA 266.

THEA 370

Directing for the Theatre I

3 Semester Hours

This course examines and practices basic elements of stage direction. Students will explore script analysis from a director's point of view, develop and practice effective communication with actors and designers, and learn to identify elements of direction that communicate story, theme, and concept.

Lab fee.

Theatre Arts majors/minors only.

Prerequisites: THEA 111, 120, and 220.

THEA 375

Directing for the Theatre II

3 Semester Hours

Continuation of THEA 370, with emphasis on advanced theory and practicum.

Theatre Arts majors/minors only.

Consent of Co-Chairperson and instructor required.

Prerequisite: THEA 370.

THEA 398

Special Studies

1-3 Semester Hours

THEA 399

Independent Studies

1-3 Semester Hours

THEA 400

Playwriting

3 Semester Hours

An introduction to the techniques of writing one-act plays for the theatre.

THEA 401

The Creative Process

3 Semester Hours

This course is designed to guide development in a wide range of substantial creative writing projects including the exploration of music, literature, and art that correlate to a specific theatrical project, requiring research and interviews with professionals in the chosen field of study.

May be repeated once for degree credit.

Consent of Co-Chairperson or instructor required.

THEA 410

Advanced Scene Study

3 Semester Hours

A concentrated approach to advanced scene analysis, with emphasis on working with styles of performance such as classical/rhetoric-based texts, texts from the theatre genres/performance styles.

Theatre Arts majors/minors only.

Prerequisite: THEA 210.

THEA 412

Movement for the Actor

3 Semester Hours

The exploration of the acting process through the use of the body, and how an unblocked natural physical connection can expand range, versatility, and full range of expression.

Theatre Arts majors/minors only.

Consent of instructor required.

Prerequisites: THEA 111 and 112.

THEA 413

Devised Ensemble Theatre

3 Semester Hours

An introduction and exploration of various contemporary ensemble-devising methods towards the creation of new works for the stage. Through research, writing, physical theatre, and workshop techniques, students will develop the tools to collectively conceive, develop, and present original theatrical work.

May be repeated once for degree credit.

Theatre Arts majors only.

Consent of instructor required.

Prerequisites: THEA 111 and 112.

THEA 422

Advanced Costume Design

3 Semester Hours

Advanced study in theatre costume construction including pattern-making, advanced sewing techniques, and millinery.

Prerequisite: THEA 322 or consent of instructor.

THEA 425

Scene Painting

3 Semester Hours

This course is a guide to the tools and techniques used in modern scene painting.

Consent of instructor required.

THEA 426**Advanced Scenic and Lighting Design***3 Semester Hours*

This course is an advanced study of scene design and lighting design for the theatre with emphasis on their roles as creative members of a collaborative team.

Prerequisites: THEA 320 and 321.

THEA 427**Scene Painting Lab***0 Semester Hours*

Basic scene painting techniques and practices are demonstrated and applied in full scale painting projects. Lab fee covers cost of brushes, paint, and material. Paint clothes required.

Corequisite: THEA 425.

THEA 430**Special Author/Genre Seminar***3 Semester Hours*

Study of Shakespeare or other topics in selected authors and/or dramatic genres.

May be repeated only when a different genre is studied.

THEA 435**Special Period Seminar***3 Semester Hours*

Study of 20th Century American Drama, American Drama through the 19th Century, Modern British Playwrights, 17th and 18th Century Comedy, or other topics in theatre history.

May be repeated only when a different topic and/or period is studied.

THEA 450**Theatre Practicum: Crew***1-3 Semester Hours*

Students are instructed and mentored as they assume positions of managerial or creative responsibility and/or leadership in mounting departmental productions.

May be repeated for credit up to 9 semester hours.

Theatre Arts majors/minors only.

Prerequisite: THEA 250.

THEA 451**Theatre Practicum: Performance***0-3 Semester Hours*

The application of further developed actor training methods and techniques in departmental theatrical productions.

May be repeated for credit up to 9 semester hours.

Lab fee.

Audition required.

THEA 453**Playwrights Center Stage***0-3 Semester Hours*

A theory and performance course in new play development methods. Practice and participation as writers, actors, and production managers/assistants or new play interns in staged readings and/or workshops.

May be repeated for degree credit up to 6 semester hours.

Consent of instructor required.

THEA 461**Acting: Special Genre***3 Semester Hours*

An exploration of advanced acting techniques for particular genres such as musical theatre, comedy of errors, Shakespeare, Chekhov.

May be repeated for credit up to 9 semester hours as long as course content is different.

Theatre Arts majors/minors only.

Consent of instructor required.

THEA 463**Acting: Auditions and Cold Reading***3 Semester Hours*

A course in the development and practice of cold-reading, audition, and interview techniques/skills necessary to obtain professional work in the performing arts. Students will develop an effective and organized business approach toward their careers by learning how to market their talent, develop a professional portfolio, necessary for the audition and interview process.

Lab fee.

Theatre Arts majors/minors only.

Consent of instructor required.

THEA 467**Career Development***3 Semester Hours*

An overview of current trends in casting toward professional work in theatre, television, and film with visits from professional artists such as agents, managers, actors, casting directors, and the possibility of participation in a professional showcase.

Lab fee.

Theatre Arts majors/minors only.

Consent of Co-chairperson and instructor required.

THEA 490**Senior Thesis: Project***3 Semester Hours*

Preparation and presentation of performance or research thesis.

Theatre Arts majors only.

Consent of instructor required.

THEA 491**Surviving as an Artist***1 Semester Hour*

This course builds an understanding of the unique requirements and challenges that life as an artist in our society presents. Students will be introduced to many aspects of the artistic life, including but not limited to personal finance, unions, professional conduct, and how to develop and sustain career opportunities.

Theatre Arts majors/minors only.

Credit/No Credit grading.

THEA 498

Special Studies

1-3 Semester Hours

THEA 499

Independent Studies

1-3 Semester Hours

FRANK R. SEAVER COLLEGE OF SCIENCE AND ENGINEERING COURSES

Biology

BIOL 101

General Biology I

3 Semester Hours

Unifying principles of biology; introduction to cell structure and function, genetics, control systems, tissues, organs, and organ systems.

Frank R. Seaver College of Science and Engineering majors only.

Lecture, 3 hours.

BIOL 102

General Biology II

3 Semester Hours

An introduction to the mechanism of evolution; major patterns of biotic evolution; and the principles of ecology.

Frank R. Seaver College of Science and Engineering majors only.

Lecture, 3 hours.

Prerequisites: BIOL 101 and 111.

BIOL 111

General Biology I Laboratory

2 Semester Hours

A survey of the three domains.

Frank R. Seaver College of Science and Engineering majors only.

Lecture, 1 hour; Laboratory, 4 hours.

Prerequisite: BIOL 101 or concurrent enrollment.

BIOL 112

General Biology II Laboratory

2 Semester Hours

An experimental approach to biology with emphasis on design, execution, and analysis to answer biological questions.

Frank R. Seaver College of Science and Engineering majors only.

Lecture, 1 hour; Laboratory, 4 hours.

Prerequisite: BIOL 101 or 102, or concurrent enrollment.

BIOL 114

Biology for Engineers

3 Semester Hours

This course addresses fundamental concepts and language of biology. Topics include cell biology, genetics, organ systems, ecosystems, organisms, and engineering applications.

Frank R. Seaver College of Science and Engineering majors only.

Lecture, 3 hours.

BIOL 194

Introduction to Research

0-4 Semester Hours

An introduction to scientific research methodology: information gathering, data analysis, laboratory research practice in a faculty laboratory.

BIOL 198

Special Studies

1-4 Semester Hours

BIOL 199

Independent Studies

1-4 Semester Hours

BIOL 201

Cell Function

3 Semester Hours

Cellular and sub-cellular structures and functions including: DNA and RNA structure and function; protein synthesis and structure; enzyme function; metabolic pathways; membrane function.

Prerequisites: BIOL 101, CHEM 112, or concurrent enrollment.

BIOL 202

Genetics

3 Semester Hours

A study of Mendelian and molecular genetics.

Prerequisite: BIOL 201.

BIOL 260

Human Biology

3 Semester Hours

The discussion of general biological principles with a human emphasis. Topics include: cells, heredity and reproduction, animal behavior, organ systems, drugs, disease, ecology, and evolution.

Prerequisite: MATH 101 or higher, or placement into MATH 106 or higher.

BIOL 263

Natural History of Southern California

3 Semester Hours

Introduction to the geography, climate, plant communities, and common animals of Southern California; animals will be covered in regard to behavior, taxonomy, and ecology.

Prerequisite: MATH 101 or higher, or placement into MATH 106 or higher.

BIOL 264**The Marine Environment***3 Semester Hours*

An introduction to marine biology, including its history, different communities and the animals and plants that occur in marine ecosystems, and their economic importance.

Prerequisite: MATH 101 or higher, or placement into MATH 106 or higher.

BIOL 266**Sacred and Medicinal Plant Use***3 Semester Hours*

The sacred and medicinal use of plants and hallucinogenic fungi by traditional and modern cultures, including the biological basis for their use.

Prerequisite: MATH 101 or higher, or placement into MATH 106 or higher.

BIOL 271**Human Reproduction and Development***3 Semester Hours*

The biological aspects of human reproduction, including the basic reproductive system, genetics, fetal development, nutrition, pregnancy, birth, and neonatal development.

Prerequisite: MATH 101 or higher, or placement into MATH 106 or higher.

BIOL 272**Human Drug Use***3 Semester Hours*

The physiological, psychological, and social effects of the use of alcohol, tobacco, and other therapeutic and recreational drugs.

Prerequisite: MATH 101 or higher, or placement into MATH 106 or higher.

BIOL 275**Human Genetics***3 Semester Hours*

Basic Mendelian genetics and the application to individual risk assessments. Population genetics and the implications of artificial selection. Modern molecular genetics and medical applications.

Prerequisite: MATH 101 or higher, or placement into MATH 106 or higher.

BIOL 277**Plants and Society***3 Semester Hours*

An introduction to the natural evolution of plant species and the associated cultural evolution of man's relationship to plants. A multidisciplinary approach to studying the relationship between plants and people. An exploration of plants as sources of food and medicine, commercial products, and the role of plants in preserving and restoring the environment.

Prerequisite: MATH 101 or higher, or placement into MATH 106 or higher.

BIOL 278**Tropical Marine Ecology***3 Semester Hours*

Field studies of the tropical marine habitats in Isla Roatán, Honduras. This includes the examination of the ecology and biology of coral reefs, mangroves, seagrass beds, and intertidal communities.

Summer only—Study Abroad Program.

Prerequisite: MATH 101 or higher, or placement into MATH 106 or higher. Open water SCUBA certification highly recommended.

BIOL 294**Independent Research***0-4 Semester Hours***BIOL 295****Biology Internship***1-2 Semester Hours*

Work experience involving research, industry-, or community-based projects.

May be taken only once for credit.

CR/NC only.

BIOL 298**Special Studies***1-4 Semester Hours***BIOL 299****Independent Studies***1-4 Semester Hours***BIOL 311****Plant Interactions***3 Semester Hours*

Study of the various ways in which plants interact with other organisms, such as herbivores, pathogens, symbiotic bacteria and fungi, and the outcomes of that interplay. Examination of the physiological, biochemical, and genetic bases of these interactions and how understanding the chemical and molecular communication that takes place has implications for improvement of agriculture and human health.

Prerequisites: BIOL 112, 201, 202; CHEM 220.

BIOL 312**Field Botany***4 Semester Hours*

The identification, distribution, evolution, and ecological relationships of the native plants of Southern California.

Lecture, 3 hours; Laboratory, 4 hours; 4 weekend field trips.

Prerequisites: BIOL 102, 111, 112; CHEM 110, 111; MATH 122 or 131.

BIOL 314**Tropical Ecology***4 Semester Hours*

An introduction to Neotropical biodiversity, natural history and conservation, as well as an examination of the diversity of tropical species interactions in an international field setting.

Travel embedded course—lab travels to Costa Rica during Spring break.

Prerequisites: BIOL 102, 111, 112; CHEM 221; MATH 122 or 131.

BIOL 315

World Vegetation Ecology

3 Semester Hours

Characteristics and distribution of the major vegetation types of the world, emphasizing environmental conditions, plant adaptations and ecosystem processes.

Prerequisites: BIOL 102, 111; CHEM 110, 112.

BIOL 316

Island Biology

3 Semester Hours

Island biogeography and evolution, dispersal, adaptive radiation, gigantism/dwarfism, flightlessness, reproductive biology, endemism, and relictualism.

Lecture, 3 hours.

Prerequisites: BIOL 101 and 102.

BIOL 318

Principles of Ecology

4 Semester Hours

An exploration of the interactions between organisms and their biotic and abiotic environment across population, community, and ecosystem levels.

Lecture, 3 hours; Laboratory, 4 hours; weekend field trips.

Prerequisites: BIOL 101, 102, 111, 112; CHEM 221; MATH 122 or 131.

BIOL 321

Urban Ecology

3 Semester Hours

An analysis of the dynamic and integrated nature of urbanized landscapes. Using active inquiry and the original literature, the course will engage the current theories and practice of the research being conducted on the patterns and process of urban ecosystems—ranging from biodiversity and trophic dynamics, to public health and environmental justice.

Prerequisites: BIOL 101, 102 or equivalent.

BIOL 322

Urban Ecology Laboratory

1 Semester Hour

An inquiry-based investigation into the biophysical and human social dimensions of a local urban ecosystem, with a focus on group project development. At least one Saturday trip.

Prerequisites: BIOL 112 and 321, or concurrent enrollment.

BIOL 328

Tropical Marine Ecology

3 Semester Hours

Field studies of the tropical marine habitats on Isla Roatán, Honduras. This includes the examination of physical, chemical, and ecological as-

pects as applied to coral reefs, mangroves, seagrass beds, and intertidal communities.

Summer only—Study Abroad Program.

Prerequisites: BIOL 101, 102, 111, 112; CHEM 110, 112. Open water SCUBA certification highly recommended.

BIOL 329

Marine Ecology of Baja, California

3 Semester Hours

Field studies of subtropical, intertidal, and subtidal habitats along the coasts of Baja, California peninsula.

Emphasis on community structure.

Summer only. Entire course held at the LMU Baja, California Biological Station.

Prerequisites: BIOL 101, 102, 111, 112; CHEM 110, 112.

BIOL 330

Embryology and Development

4 Semester Hours

The development of chordates with emphasis on experimental embryology and underlying molecular mechanisms.

Lecture, 3 hours; Laboratory, 4 hours.

Prerequisites: BIOL 112, 202; CHEM 222, 223.

BIOL 333

Biology of Mammals

4 Semester Hours

Examination of physical, physiological, and ecological characteristics of mammals, including taxonomic relationships, feeding and reproductive strategies, and local and world distribution of mammalian orders and families.

Lecture, 3 hours; Laboratory, 4 hours; Weekend field trips.

For majors only.

Prerequisites: BIOL 102, 112; CHEM 110, 112.

BIOL 334

Invertebrate Zoology

4 Semester Hours

A study of the anatomy, physiology, behavior, and ecology of invertebrates and the evolutionary relationships within and among the invertebrate phyla.

Lecture, 3 hours; Laboratory, 4 hours.

Prerequisites: BIOL 101, 102, 111, 112; CHEM 110, 112.

BIOL 335

Comparative Anatomy

4 Semester Hours

A comparative study of the vertebrate structures and their significance in terms of their evolution and function.

Lecture, 3 hours; Laboratory, 4 hours.

Prerequisites: BIOL 101, 102, 111, 112; CHEM 110, 112.

BIOL 338**Animal Behavior***4 Semester Hours*

Study of the evolutionary aspects of behavioral ecology including foraging strategies, social competition, communication, sexual selection, mating systems, cooperation, and social organization.

Lecture, 3 hours; Laboratory, 4 hours.

Prerequisites: BIOL 101, 102, 111, 112.

BIOL 351**General Physiology***3 Semester Hours*

Introduction to physiological principles and concepts with emphasis on organ systems.

Prerequisite: BIOL 201.

BIOL 352**Physiology Laboratory***1 Semester Hour*

Laboratory experiments in general physiology.

Laboratory, 4 hours; Data analysis, 1 hour.

Prerequisites: BIOL 112 and 351 or 356 or 357, or concurrent enrollment.

BIOL 353**Plant Physiology***3 Semester Hours*

Introduction to plant function, including photosynthesis, mineral nutrition, water relations, metabolism, and growth processes.

Prerequisites: BIOL 201; CHEM 220, 221; MATH 122 or 131.

BIOL 354**Plant Physiology Laboratory***1 Semester Hour*

Laboratory experiments in plant physiology.

Laboratory, 4 hours.

Prerequisites: BIOL 112 and 353 or concurrent enrollment.

BIOL 355**Physiology of Drugs***3 Semester Hours*

A study of the absorption, distribution, action, biotransformation, and elimination of drugs. An introduction to the pharmacology of certain drugs.

Prerequisites: BIOL 202; CHEM 222, 223.

BIOL 356**Cell Biology***3 Semester Hours*

A detailed study of subcellular organelles, including their origin, function, and regulation within the cell.

Prerequisites: BIOL 202; CHEM 222, 223.

BIOL 357**Comparative Animal Physiology***3 Semester Hours*

A study of the different strategies utilized by various organisms to deal with problems of oxygen supply, temperature, water, salt balance, etc. Emphasis is on the vertebrates.

Prerequisites: BIOL 102, 201; CHEM 110, 112.

BIOL 358**Hormones and Behavior***4 Semester Hours*

Study of the interaction of hormones and behavior in vertebrates. Topics include organizational and activational effects of hormones, sex differences in behavior, reproductive behavior, parental behavior, social behavior, and stress.

Lecture, 3 hours; Laboratory 4 hours.

Prerequisites: BIOL 101, 112, 201; CHEM 220, 221.

BIOL 359**Cell Biology Lab***1 Semester Hour*

Laboratory experiments in cell biology.

Laboratory, 4 hours.

Prerequisites: BIOL 112, 201; CHEM 220.

BIOL 361**General Microbiology***3 Semester Hours*

Properties and ecology of viruses, bacteria, and protists; principles of genetics and physiology of bacteria; pathogenesis of bacteria and viruses; microbes as tools for molecular biology.

Prerequisites: BIOL 202; CHEM 220.

BIOL 362**General Microbiology Laboratory***1 Semester Hour*

Laboratory experiments in general microbiology.

Laboratory, 4 hours.

Prerequisites: BIOL 112 and 361 or concurrent enrollment.

BIOL 367**Biological Databases***3 Semester Hours*

Interdisciplinary course at the interface between biology and computer science focusing on how biological information is encoded in the genome of a cell and represented as data in a database. Biological concepts include DNA structure and function, the central dogma of molecular biology, and regulation of gene expression. Computer science concepts and skills include command line interaction, the structure and functions of a database, and the management of data ranging from individual files to a full relational database management system. Emphasis on science and engineering best practices, such as maintaining journals and notebooks, managing files and code, and critically evaluat-

ing scientific and technical information. Course culminates with team projects to create new gene databases.

BIOL 368

Bioinformatics Laboratory

1 Semester Hour

Current bioinformatics techniques will be used to address systems-level biological questions. Techniques may include: querying biological databases, sequence alignment, construction of phylogenetic trees, comparative genomics, genome annotation, protein structure analysis and prediction, modeling pathways and networks, use of biological ontologies, or the analysis of high-throughput genomic and proteomic data.

Prerequisites: BIOL 112, 202; CHEM 220.

BIOL 375

Advanced Genetics

3 Semester Hours

Topics in genetics including both meiotic and mitotic recombination, quantitative genetics, gene structure, genetic control, and gene therapy.

Lecture, 3 hours.

Prerequisites: BIOL 202; CHEM 222, 223.

BIOL 376

Genetics Laboratory

1 Semester Hour

Laboratory experiments in genetics.

Laboratory, 4 hours.

Prerequisites: BIOL 112, 202; CHEM 110, 112.

BIOL 380

Tropical Marine Ecology Laboratory

1 Semester Hour

Requires consent of instructor.

BIOL 381

Baja Marine Ecology Laboratory

1 Semester Hour

Requires consent of instructor.

BIOL 394

Independent Research

0-4 Semester Hours

Independent research in a faculty laboratory.

BIOL 395

Biology Internship

1-2 Semester Hours

Work experience involving research, industry-, or community-based projects. May be taken only once for credit.

CR/NC only.

BIOL 398

Special Studies

1-4 Semester Hours

BIOL 399

Independent Studies

1-4 Semester Hours

BIOL 422

Marine Biology

4 Semester Hours

Study of the marine environment, including physical, chemical, and biological aspects as applied to littoral, deep sea, and pelagic organisms.

Lecture, 3 hours; Laboratory, 4 hours.

Prerequisites: BIOL 101, 102, 111, 112; CHEM 110, 112.

BIOL 433

Histology

3 Semester Hours

The structure and function of human tissue types including basic histological techniques.

Prerequisites: BIOL 101, 102, 111, 112; CHEM 110, 112.

BIOL 437

Plant Development

3 Semester Hours

Biochemical, molecular, and genetic approaches to the study of pattern and tissue formation, embryogenesis, germination, flowering, photosynthesis, and plant-microbe interaction.

Prerequisites: BIOL 202; CHEM 222, 223 or concurrent enrollment.

BIOL 438

Plant Development Laboratory

1 Semester Hour

Laboratory experiments in plant developmental biology.

Laboratory, 4 hours.

Prerequisites: BIOL 112 and 437 or concurrent enrollment.

BIOL 439

Molecular Biology Applications

4 Semester Hours

The application of the techniques employed in molecular biology to the study of inherited diseases, genetic engineering, infectious diseases, cancer, and gene therapy.

Lecture, 2 hours; Laboratory, 6 hours.

Prerequisites: BIOL 112, 202; CHEM 220.

BIOL 443

Molecular Biology

3 Semester Hours

Study of properties, synthesis, and interactions of macromolecules; genetic engineering.

Prerequisites: BIOL 202; CHEM 220, 222.

BIOL 445**Endocrinology***3 Semester Hours*

The study of the production, functions, and interactions of hormones and other chemical messengers involved in the integration of the living organism.

Prerequisites: BIOL 202 and CHEM 220.

BIOL 449**Immunology***3 Semester Hours*

The study of the immune response mechanisms in the vertebrate organism, with special reference to humans.

Prerequisites: BIOL 202 and CHEM 220.

BIOL 461**Microbial Genetics***3 Semester Hours*

Mechanisms of inheritance and the regulation of gene expression in bacteria and viruses. Viral interactions with higher eukaryotes.

Prerequisites: BIOL 202; CHEM 222, 223 or concurrent enrollment.

BIOL 474**Principles of Evolution***3 Semester Hours*

Study of the pattern and process of evolution. Topics include the development of theories of evolutionary change; the mechanisms of evolutionary change at the population (micro) level; and evolution at the macro level, focusing on speciation, phylogenetic analysis, historical biogeography, and extinctions.

Lecture, 3 hours.

Prerequisites: BIOL 101, 102, 111, 201, 202.

BIOL 475**Evolution***4 Semester Hours*

Study of the pattern and process of evolution. Topics include the development of theories of evolutionary change; the mechanisms of evolutionary change at the population (micro) level; and evolution at the macro level, focusing on speciation, phylogenetic analysis, historical biogeography, and extinctions.

Lecture, 3 hours; Laboratory, 4 hours.

Prerequisites: BIOL 101, 102, 112, 201, 202.

BIOL 477**Conservation Genetics***4 Semester Hours*

Survey of the major topics in conservation genetics. Basic models of population genetics and topics relevant to conservation genetics, such as population structure, inbreeding, genetic load, genetic variation, reserve design, and the ethical, moral, and political aspects of species conservation.

Lecture, 3 hours; Laboratory, 4 hours.

Prerequisites: BIOL 101, 102, 112, 202.

BIOL 478**Molecular Biology of the Genome***4 Semester Hours*

Advances in understanding cellular processes, gene expression, and the structure and function of macromolecules due to The Human Genome Project and associated new high-throughput technologies. Use of systems biology perspectives and bioinformatics tools to answer biological questions. May include: functional genomics, sequence alignment and phylogeny, comparative genomics, and biological pathways and networks.

Lecture, 2 hours; Laboratory, 6 hours.

Prerequisites: BIOL 112, 202; CHEM 220.

BIOL 479**Molecular Mechanisms of Disease***3 Semester Hours*

Analysis of the molecular mechanisms which underlie the pathology of genetic and infectious diseases. Particular attention paid to molecular mechanisms of disease treatment and experimental analysis in the field of human molecular genetics.

Prerequisites: BIOL 202; CHEM 220, 222.

BIOL 490**Biological Teaching***1-2 Semester Hours*

Guided teaching of undergraduate laboratories.

May be repeated for credit.

Requires consent of instructor.

BIOL 494**Independent Research***0-4 Semester Hours*

Independent research in a faculty laboratory.

BIOL 498**Special Studies***1-4 Semester Hours***BIOL 499****Independent Studies***1-4 Semester Hours***All 500-level courses require consent of instructor.****BIOL 515****Ecology of Mutualisms***2 Semester Hours*

Characterization of conditional interspecific interactions and investigations into the variability of outcomes as mediated by seasonality, chemistry, novel habitats, and morphology.

Requires consent of instructor.

Prerequisites: BIOL 102, 111, 112; CHEM 113; MATH 122 or 131.

BIOL 522**Marine Biology Research***2 Semester Hours*

An introduction to marine biology research techniques and basic marine ecosystems.

Requires consent of instructor.

BIOL 523**Scientific Diving***2 Semester Hours*

Introduction to scientific diving, including studies of benthic populations and communities using line and belt transects, plot sampling methods, and fish survey techniques. The design, data collection, and analysis will be from local submarine coastal habitats. The class will also cover fundamentals of dive physics and physiology, first aid, CPR, oxygen administration, and dive tables.

Requires consent of instructor and basic open water SCUBA certification.

BIOL 525**Subtidal Ecology Seminar***2 Semester Hours*

An introduction to the ecology of subtidal systems including coral reefs, kelp forests, hard and soft bottoms, deep sea and pelagic communities.

Requires consent of instructor.

BIOL 527**Benthic Ecology Research***2 Semester Hours*

An introduction to underwater research techniques and studies of soft and hard bottom communities.

Requires consent of instructor and basic open water SCUBA certification.

BIOL 528**Invertebrate Conservation Research***2 Semester Hours*

Participation in research on topics in invertebrate conservation biology. Research may include ecological and/or genetic approaches and methodologies.

Requires consent of instructor.

BIOL 531**Developmental Genetics Research***2 Semester Hours*

Investigation through original literature and laboratory experience of the ways in which genes direct development.

Requires consent of instructor.

Prerequisite: BIOL 394, 494, or 594.

BIOL 532**Drosophila Genetics Research***2 Semester Hours*

An introduction to the use of drosophila as a research tool in classical and molecular genetics.

Requires consent of instructor.

Prerequisite: CHEM 220.

BIOL 536**Functional Morphology Research***1-2 Semester Hours*

Participation in original research investigating the functional aspects of morphology and development in carnivorous mammals.

Requires consent of instructor.

BIOL 537**Vertebrate Paleontology Research***1-2 Semester Hours*

Participation in original research investigating functional, evolutionary and ecological aspects of vertebrate paleontology in mammals and birds.

Requires consent of instructor.

BIOL 546**Physiology of Drugs Seminar***2 Semester Hours*

An introduction into the pharmacology of certain drugs, their absorption, metabolism, use, misuse, abuse.

Requires consent of instructor.

BIOL 551**Behavior and Physiology Research***1-2 Semester Hours*

Participation in original laboratory and/or field research on social birds or mammals, addressing questions at the interfaces of behavior, physiology and ecology.

Requires consent of instructor.

BIOL 561**Bioinformatics and Genomics Research***2 Semester Hours*

Investigation of the systems-level properties of biological pathways and networks. Research may include bioinformatics and/or functional genomics techniques.

Requires consent of instructor.

BIOL 562**Microbiology Research***2 Semester Hours*

Participation in research investigating the role of microbes in the environment using culture based and molecular techniques.

Requires consent of instructor.

BIOL 563**Molecular Genetics Research***2 Semester Hours*

Laboratory work in gene mapping and gene isolation.

Requires consent of instructor.

BIOL 565

Plant Developmental Biology Research

2 Semester Hours

Laboratory work in molecular and genetic analysis of plant development.

Requires consent of instructor.

BIOL 566

Plant Research

2 Semester Hours

Participation in laboratory and/or field research on the ecophysiological response of plants to environmental extremes.

Requires consent of instructor.

BIOL 567

Plant-Microbe Interactions Research

2 Semester Hours

Participation in research investigating the association between microbes and plants.

Requires consent of instructor.

BIOL 569

Ethnobotany Seminar

2 Semester Hours

An introduction to the mutual relationships between plants and traditional peoples with an emphasis on phyto medicines and sustainability.

Requires consent of instructor.

BIOL 571

Conservation Biology Seminar

2 Semester Hours

A survey of topics relating to the conservation of animals and plants, including extinction, genetic aspects, demography, insularization, threats to biodiversity, economics and politics, religious and ethical perspectives, and practical applications.

Requires consent of instructor.

BIOL 584

Advanced Topics in Gene Expression

2 Semester Hours

An in-depth exposure to topics in gene expression through analysis of data from primary research literature.

Requires consent of instructor.

Prerequisites: BIOL 201, 202.

BIOL 585

Issues in Biotechnology Seminar

2 Semester Hours

An interdisciplinary seminar series bringing together faculty from different disciplines to present and discuss topics in biotechnology. Examples include sustainable agriculture, advances in medicine and biotechnology, legal and ethical considerations and biotechnology, the environment and biotechnology, the manipulation of biological machinery (proteins), the fusion of engineering and biotechnology (nanotechnology), the business of biotechnology.

Requires consent of instructor.

BIOL 586

Molecular Cell Biology Research

2 Semester Hours

Independent laboratory research examining questions pertaining to gene expression, including ribosome biogenesis and mRNA transport/localization, utilizing techniques of molecular and cell biology, biochemistry, and genetics.

Requires consent of instructor.

BIOL 587

Molecular Mechanisms in Development Seminar

2 Semester Hours

An exploration of current research utilizing molecular/genetic techniques to study developmental biology.

Requires consent of instructor.

BIOL 594

Independent Research

0-4 Semester Hours

Independent research in a faculty laboratory. Results must be presented formally.

BIOL 598

Special Studies

1-3 Semester Hours

Requires consent of instructor.

BIOL 599

Independent Studies

1-3 Semester Hours

Chemistry

CHEM 110

General Chemistry I

3 Semester Hours

Atomic theory; chemical nomenclature; chemical equations and reactions; stoichiometry; properties of gases, solids, and liquids electronic structure of atoms and periodic properties of the elements; covalent bonding and molecular geometry.

Lecture, 3 hours.

CHEM 111

General Chemistry I Lab

1 Semester Hour

Basic chemical lab technique, conservation of mass, definite composition, molar masses, gravimetric and titrimetric analyses, redox chemistry.

Lecture and laboratory, 4 hours.

Prerequisite: CHEM 110, 114, or concurrent enrollment.

CHEM 112**General Chemistry II***3 Semester Hours*

Solutions, chemical kinetics, thermodynamics, acids and bases, equilibria, electrochemistry, nuclear reactions, and selected additional topics.

Lecture, 3 hours.

Prerequisite: CHEM 110.

CHEM 113**General Chemistry II Lab***1 Semester Hour*

Chemical kinetics, equilibrium, complex ions, solubility, visible spectrophotometry, inorganic synthesis, crystallization, inorganic qualitative analysis.

Lecture and laboratory, 4 hours.

Prerequisites: CHEM 111; 112 or concurrent enrollment.

CHEM 114**General Chemistry for Engineers***3 Semester Hours*

Atomic theory; stoichiometry; properties of gases, liquids, and solids; electronic structure and periodic table; covalent bonding; kinetics and equilibrium; acid-base, precipitation, and reduction-oxidation reactions; basic thermodynamics.

Lecture, 3 hours.

Engineering majors only.

CHEM 190**World of Chemistry and Biochemistry***1 Semester Hour*

Introduction to the Chemistry and Biochemistry programs, faculty, staff, and the facilities. Students will have the opportunity to learn about the various research programs in the department. Students will also be introduced to various chemistry and biochemistry careers.

Seminar, 2 hours.

CR/NC grading only.

CHEM 198**Special Studies***0-3 Semester Hours***CHEM 199****Independent Studies***0-3 Semester Hours***CHEM 220****Organic Chemistry I***3 Semester Hours*

Introduction to the fundamental theories of organic chemistry; chemical properties, synthesis, and nomenclature of alkanes, alkenes, alkynes, cycloalkanes, aromatic hydrocarbons, and alkyl halides.

Lecture, 3 hours.

Prerequisites: CHEM 110 and 112.

CHEM 221**Organic Chemistry I Lab***1 Semester Hour*

Introduction to the fundamental lab techniques used in organic chemistry.

Lecture and laboratory, 4 hours.

Prerequisites: CHEM 111, 113; 220 or concurrent enrollment.

CHEM 222**Organic Chemistry II***3 Semester Hours*

Introduction to the chemistry of alcohols, ethers, carbonyl compounds, amines, and carbohydrates.

Lecture, 3 hours.

Prerequisite: CHEM 220.

CHEM 223**Organic Chemistry II Lab***1 Semester Hour*

Laboratory experience in synthesis and analysis of organic compounds.

Lecture and laboratory, 4 hours.

Prerequisites: CHEM 221; 222 or concurrent enrollment.

CHEM 250**Earth Systems***3 Semester Hours*

An introductory exploration of how the Earth works. Focus is placed on connecting the Earth systems—the solid Earth, atmosphere, oceans, and biosphere—through the cycling of chemical elements and energy. The course will also discuss significant anthropogenic impacts to the natural Earth system.

Lecture, 3 hours.

Prerequisites: CHEM 110 and 112.

CHEM 261**The Science in Science Fiction***3 Semester Hours*

The physics, chemistry, and biology found in science fiction literature and examined for accuracy and probability. Topics include the physics of space and space habitats, the chemistry and biology of life arising under non-earthlike conditions, and the ecology of imagined worlds. "Engineering" new worlds on the basis of sound scientific theory will be expected. Understanding of physical implications of simple algebraic expressions is required.

Lecture, 3 hours.

Prerequisite: MATH 101 or higher, or placement into MATH 106 or higher.

CHEM 262**The Chemical Environment***3 Semester Hours*

The important chemical processes of the world in which we live; air, water, agriculture, food additives, household chemicals, cosmetics, chemotherapy, sports, toxic waste management.

Lecture, 3 hours.

Prerequisite: MATH 101 or higher, or placement into MATH 106 or higher.

CHEM 290

Chemistry Seminar

1 Semester Hour

Regular attendance by second-year students at the Departmental Seminar Program.

May be taken twice.

CR/NC grading only.

CHEM 298

Special Studies

1-3 Semester Hours

CHEM 299

Independent Studies

1-3 Semester Hours

CHEM 330

Inorganic Chemistry

3 Semester Hours

Introduction to the chemistry of the transition elements. Structure, stereochemistry, and bonding in transition metal complexes. Applied thermodynamics, oxidation-reduction, and descriptive chemistry of the main group elements. Nuclear reactions and the actinide elements.

Lecture, 3 hours.

Prerequisite: CHEM 222.

CHEM 331

Inorganic Chemistry Lab

1 Semester Hour

The synthesis of transition metal complexes and characterization by Intra-red, UV-Visible, and NMR spectroscopy. Optical activity and the resolution of a racemic mixture. Organometallic compounds and clusters of the p-block elements. Reactions in non-aqueous solvents and under an inert atmosphere.

Lecture and laboratory, 4 hours.

Prerequisites: CHEM 222 and 223.

CHEM 340

Physical Chemistry

3 Semester Hours

The objective of this course is to introduce the student to the principles of physical chemistry, both to satisfy a requirement of the major and to serve as preparation to enrollment in subsequent in-depth courses in selective topics in physical chemistry. Topics include: properties of gases, chemical thermodynamics, chemical equilibria, colligative properties, electrochemistry, chemical kinetics, quantum mechanics, atomic and molecular spectroscopy.

Lecture, 3 hours.

Prerequisites: CHEM 222 and 223; MATH 123 or 132; PHYS 201 or 254.

CHEM 341

Physical Chemistry Lab

1 Semester Hour

Physical measurements, calorimetry, physical equilibria, phase behavior, chemical equilibria, kinetics, colligative properties, atomic and molecular spectroscopy.

Lecture and laboratory, 4 hours.

Prerequisite: CHEM 340 or concurrent enrollment.

CHEM 342

Advanced Physical Chemistry

3 Semester Hours

Chemical kinetics, quantum mechanics, atomic and molecular spectroscopy, statistical mechanics.

Lecture, 3 hours.

Prerequisites: CHEM 340 and 341.

CHEM 343

Advanced Physical Chemistry Lab

1 Semester Hour

Kinetics, colligative properties, atomic and molecular spectroscopy.

Lecture and laboratory, 4 hours.

Prerequisites: CHEM 340, 341; 342 or concurrent enrollment.

CHEM 346

Physical Biochemistry

3 Semester Hours

Chemical and enzyme kinetics, solutions of macromolecules, chemical equilibria, transport processes, sedimentation, transport in electric fields, physical methods in biochemistry, scattering, molecular modeling.

Lecture, 3 hours.

Prerequisites: CHEM 340 and 341.

CHEM 352

Environmental Chemistry

3 Semester Hours

A study of chemical processes in the environment: topics include stratospheric ozone depletion, the greenhouse effect, air pollution, sources of energy, water chemistry, water purification, sewage treatment, and pesticides.

Lecture, 3 hours.

Prerequisites: CHEM 110 and 112.

CHEM 353

Environmental Chemistry Lab

1 Semester Hour

Analysis to determine pollutants found in air, water, soil systems; emphasis on the use of instrumental methods and techniques.

Laboratory, 4 hours.

Prerequisites: CHEM 110, 111, 112, 113.

Corequisite: CHEM 352.

CHEM 354

Air Pollution: Atmospheric Chemistry

3 Semester Hours

Introduction to air pollution and the chemistry of the Earth's atmosphere. The fundamental natural processes controlling trace gas and aerosol concentrations in the atmosphere will be explored as well as how anthropogenic activity has affected those processes at local, regional, and global scales.

Lecture, 3 hours.

Prerequisites: CHEM 110 and 112.

CHEM 360

Analytical Chemistry

4 Semester Hours

Theory and practice of chemical analyses, statistical analyses in chemistry, introduction to spectroscopy.

Lecture, 2 hours.

Prerequisites: CHEM 112 and 113.

Corequisite: CHEM 361.

CHEM 361

Analytical Chemistry Lab

0 Semester Hours

Calibration of glassware, analysis of selected unknown samples by volumetric, gravimetric, and electrochemical methods.

Laboratory, 6 hours.

Corequisite: CHEM 360.

CHEM 370

Biochemistry

3 Semester Hours

Macromolecular structure and function, enzymology, bioenergetics and kinetics, biotechnology, major metabolic pathways.

Lecture, 3 hours.

Prerequisites: CHEM 222 and 223.

CHEM 371

Biochemistry Lab

1 Semester Hour

Techniques of protein purification, enzyme assay, and kinetics.

Lecture and laboratory, 4 hours.

Prerequisite: CHEM 370 or concurrent enrollment.

CHEM 372

Advanced Biochemistry

3 Semester Hours

Metabolic regulation; macromolecular structure, function and synthesis; membrane transport; DNA and RNA metabolism and control; biochemistry of vitamins and other nutrients; protein biosynthesis.

Lecture, 3 hours.

Prerequisite: CHEM 370.

CHEM 373

Advanced Biochemistry Lab

1 Semester Hour

Techniques in lipid and carbohydrate analysis; enzyme regulation; enzymes as diagnostic tools, restriction enzymes.

Lecture and laboratory, 4 hours.

Prerequisites: CHEM 370, 371; and 372 or concurrent enrollment.

CHEM 380

Forensic Chemistry

3 Semester Hours

An introduction to the forensic sciences with an emphasis on chemistry. This course gives students an appreciation for the activities of a real forensic laboratory. Topics covered include basic analytical techniques, arson investigation, and fingerprint, drug, blood, and DNA analyses.

Lecture, 3 hours.

Prerequisites: CHEM 222, 223, and 360 or consent of instructor.

CHEM 382

Wine Chemistry

3 Semester Hours

Addresses the major chemical topics associated with wine production, chemical analysis of wine and wine faults. Provides an overview of wine-making and the wine industry through a combination of lecture, lab and field trips.

Minimum age of 21 required for full participation.

Lecture, 3 hours.

Prerequisite: CHEM 222.

CHEM 390

Chemistry Seminar

1 Semester Hour

Regular attendance at Departmental Seminar Program.

CR/NC grading only.

CHEM 391

Chemistry Seminar

1 Semester Hour

Regular attendance at Departmental Seminar Program and presentation of a seminar.

CHEM 393

Chemistry/Biochemistry Internship

1-3 Semester Hours

Research/Development work conducted in a professional chemical setting in a local government or industrial laboratory. Work includes both theory and laboratory practice on a project designed cooperatively by the

laboratory's supervisory staff and LMU faculty. The project is jointly supervised by on-site staff and LMU faculty.

May be repeated for credit up to 6 semester hours.

CR/NC grading only.

CHEM 398

Special Studies

0-3 Semester Hours

CHEM 399

Independent Studies: Directed Research

1-3 Semester Hours

May be repeated for credit up to 6 semester hours.

Consent of instructor required.

CR/NC grading only.

CHEM 420

Advanced Organic Chemistry

3 Semester Hours

Modern synthetic reactions, mechanisms and study of organic synthesis.

Lecture, 3 hours.

Prerequisites: CHEM 220 and 222.

CHEM 421

Advanced Organic Chemistry Lab

1 Semester Hour

Laboratory techniques for multi-step synthesis and spectroscopic analysis of organic compounds.

Lecture and laboratory, 4 hours.

Prerequisites: CHEM 222 and 223.

CHEM 430

Advanced Inorganic Chemistry

3 Semester Hours

Ligand field theory and spectral properties of transition metal complexes. Acid-base concepts and non-aqueous ionizing solvents. Molecular orbital theory applied to p-block clusters. Metallic bonding and chemistry of the solid state.

Lecture, 3 hours.

Prerequisites: CHEM 330 and 331 or concurrent enrollment.

CHEM 434

Bioinorganic Chemistry

3 Semester Hours

The study of the function and structure of metal ions in biology: the properties and spectroscopy of metal ions; metalloproteins; the interaction between metal ions and DNA or RNA; introduction of metal ions into biological systems as probes and as drugs.

Lecture, 3 hours.

Prerequisite: CHEM 370 or 376, or by consent of instructor.

CHEM 460

Instrumental Analysis

4 Semester Hours

Theory of analytical methods including gas and liquid chromatography; nuclear magnetic resonance, atomic, and infrared spectroscopy; mass spectroscopy.

Lecture, 3 hours.

Prerequisites: CHEM 360; 340 and 341 or concurrent enrollment.

Corequisite: CHEM 461.

CHEM 461

Instrumental Analysis Lab

0 Semester Hours

Laboratory in selected methods of modern instrumental analysis, including gas and liquid chromatography, atomic absorption spectroscopy, Fourier-transform infrared spectroscopy, nuclear magnetic resonance spectroscopy, mass spectrometry.

Laboratory, 4 hours.

Corequisite: CHEM 460.

CHEM 474

Food Chemistry

3 Semester Hours

The chemistry involved in food preparation and development. Examples include flavorings, food additives, what happens when it is cooked, then eaten; nutritional aspects of foods, food supplements, preservation, food fads.

Lecture, 3 hours.

Prerequisite: CHEM 370.

CHEM 476

Advanced Topics in Biochemistry and Biotechnology

3 Semester Hours

Recent advances in biochemistry and biotechnology are discussed and analyzed. Typical topics discussed include protein phage display, genome sequencing technologies, gene synthesis and mutagenesis, protein design and engineering. Students will also read and discuss recent publications from leaders in the fields of biochemistry and biotechnology.

Lecture, 3 hours.

Prerequisite: CHEM 370.

CHEM 480

Medicinal Chemistry

3 Semester Hours

Chemical principles involved in design and formulation of drugs; their absorption, distribution, and elimination; and their interaction at possible active sites. Mechanism of action of specific groups of drugs are discussed.

Lecture, 3 hours.

Prerequisite: CHEM 370 or consent of instructor.

CHEM 490

Chemistry Seminar

1 Semester Hour

Regular attendance at Departmental Seminar Program.

CR/NC grading only.

CHEM 491

Chemistry Seminar

1 Semester Hour

Regular attendance at Departmental Seminar Program and presentation of a seminar.

CHEM 493

Chemistry/Biochemistry Internship

1-3 Semester Hours

Research/Development work conducted in a professional chemical setting in a local government or industrial laboratory. Work includes both theory and laboratory practice on a project designed cooperatively by the laboratory's supervisory staff and LMU faculty. The project is jointly supervised by on-site staff and LMU faculty.

May be repeated for credit up to 6 semester hours.

CHEM 495

Chemistry Teaching

0-1 Semester Hours

Guided teaching of the undergraduate laboratories.

May be repeated for credit up to 8 semester hours.

CR/NC grading only.

Approval of Department Chairperson required.

CHEM 498

Special Studies

1-3 Semester Hours

CHEM 499

Independent Studies: Directed Research

1-3 Semester Hours

May be repeated for credit up to 6 semester hours. Consent of instructor required.

A written report is required.

Prerequisite: CHEM 399.

Civil Engineering

CIVL 200

Mechanics of Materials

3 Semester Hours

Development of relationships between loads applied to an elastic body to stresses and deformations produced in the body, the relation between stresses and strains, approaches for finding necessary dimensions of a member with respect to material capabilities and design constraints.

Lecture, 3 hours.

Prerequisite: ENGR 200.

CIVL 210

Surveying and Mapping

3 Semester Hours

Study of basic surveying instruments and related computations for topographic surveys, horizontal and vertical curves, and the design of highways. The course will include computer aided design and geographic information systems (applications of AutoCAD to civil engineering design and fundamentals of GIS using ArcView).

Lecture, 2 hours; Laboratory, 4 hours.

Sophomore standing required.

CIVL 230

Particle Dynamics

2 Semester Hours

Kinetics and kinematics of particles. Application of Newton's laws, principles of work and energy, impulse and momentum.

Lecture, 2 hours.

Prerequisite: ENGR 200.

CIVL 250

Thermal-Fluid Systems

3 Semester Hours

The fundamental concepts of thermodynamics including properties, work, and heat; first and second laws; entropy; irreversible processes; thermodynamic analysis of power cycles and refrigeration; fluid statics; Bernoulli's equation; heat convection and radiation.

CIVL 302

Seismic Design of Structures

3 Semester Hours

Free and forced vibration of discrete single and multiple degree of freedom systems, continuous systems, design for earthquake loading, application of the Uniform Building Code to the seismic design of structures.

Lecture, 3 hours.

Prerequisite: CIVL 200.

CIVL 305

Structural Theory

3 Semester Hours

Introduction to the International Building Code. Analysis of determinate and indeterminate deformable structures using classical methods and an introduction to computer methods of analysis.

Lecture, 3 hours.

Prerequisite: CIVL 200.

CIVL 310

Fluid Mechanics I

3 Semester Hours

Properties of fluids, fluid statics, kinematics, energy, hydrodynamics, momentum and dynamic forces, steady flow of compressible and incompressible fluids.

Lecture, 3 hours.

CIVL 311

Fluid Mechanics Laboratory

1 Semester Hour

A companion laboratory of CIVL 310.

Laboratory, 3 hours.

Corequisite: CIVL 310.

CIVL 315

Fluid Mechanics II

3 Semester Hours

A continuation of CIVL 310. Similarity and dimensional analysis, laboratory experiments with fluid flow phenomena, fluid measurements, pipe and open channel flow, forces on immersed bodies.

Lecture, 2 hours; Laboratory, 3 hours.

Prerequisite: CIVL 310.

CIVL 320

Introduction to Environmental Engineering

3 Semester Hours

Introduction to elements of water treatment, water pollution control, solid and hazardous waste disposal, and air pollution control. The inter-relationships of the movement of pollutants between the land, air, and water media are discussed.

Lecture, 3 hours.

Prerequisites: CHEM 114 and MATH 123 or 132.

CIVL 340

Analytical Methods in Civil Engineering I

3 Semester Hours

Introduction to probability and statistics with an emphasis on techniques and applications useful in engineering.

Lecture, 3 hours.

Prerequisite: MATH 234.

CIVL 395

Engineering Economics and Decision Theory

3 Semester Hours

The economic evaluation of engineering alternatives. Topics include: time value of money relationships, nominal and effective interest rates, present worth method, annual worth method, rate of return and incremental analysis, depreciation and income taxes, replacement analysis and benefit/cost analysis.

Lecture, 3 hours.

CIVL 400

Fundamentals of Water and Wastewater Treatment

3 Semester Hours

Fundamentals of water and wastewater treatment systems; water and wastewater characteristics, analysis and design and conventional water treatment systems and physical, chemical, and biological processes for wastewater treatment.

Lecture, 3 hours.

Prerequisites: CIVL 310 and ENVS 320.

CIVL 406

Water Resources Planning and Design

3 Semester Hours

Flood control hydrology including rainfall, unit hydrographs, flood frequency analysis and flood routing. Development of surface and ground-water supplies, reservoir yield and operation, determination of water requirements, analysis of water supply and distribution systems, including reservoirs and pump stations.

Lecture, 3 hours.

Prerequisite: CIVL 315.

CIVL 410

Soil Mechanics

4 Semester Hours

Physical and mechanical properties of soil, consolidation, settlement of structures, shear strength, analysis of earth pressures, bearing capacity, slope stability, flow through porous media, and open ended design problems.

Lecture, 3 hours; Laboratory, 3 hours.

Prerequisites: CIVL 200 and 310 and ENVS 300.

CIVL 411

Design of Foundations and Earth Structures

2 Semester Hours

Design methods for foundations and earth structures. Design of footings and piles including stability and settlement, slopes, and retaining structures.

Lecture, 2 hours.

Prerequisite: CIVL 410.

CIVL 415

Reinforced Concrete Design

4 Semester Hours

Theory and design of reinforced concrete columns, beams, retaining walls, footings and slabs. Application to design projects.

Lecture, 3 hours; Laboratory, 3 hours.

Prerequisite: CIVL 200.

CIVL 450

Analytical Methods in Civil Engineering II

3 Semester Hours

Specific application of mathematical techniques to a variety of Civil Engineering problems, with an emphasis on the mathematical formulation and subsequent computer solution of practical problems utilizing ordinary and partial differential equations; linear regression analysis; optimization techniques.

Lecture, 3 hours.

Prerequisites: CIVL 310, 340; MATH 245.

CIVL 460

Civil Engineering Design

4 Semester Hours

An integrated senior design experience which utilizes knowledge from the civil engineering curriculum. In addition to the technical aspects, the designs consider costs, sustainability economics, and environmental factors. Class lectures include discussion of the design process, environmental impact, engineering and professional ethics, the engineering profession, professional practice issues, the role of the engineer in the construction process, and procurement of engineering work. Student project reports and presentations are required.

Lecture, 2 hours; Design Laboratory, 4 hours.

Senior standing required.

Prerequisites: CIVL 210, 395, 400, 406, 410.

CIVL 498

Special Studies

1-4 Semester Hours

CIVL 499

Independent Studies

1-4 Semester Hours

CIVL 503

Engineering Sustainability and LEED

3 Semester Hours

Introduction to the role of engineers in sustainability with focus on the modern engineer's role on design. Topics include environmental impacts, sustainable construction, recycled water and desalination, renewable energy, and management and conservation techniques. Additionally, the course prepares students in Leadership in Energy and Environmental Design (LEED) with the overall goal for them to receive LEED Green Associate credentials.

Lecture, 3 hours.

CIVL 504

Applied Fluid Mechanics

3 Semester Hours

Fundamentals of fluid mechanics, and review of the underlying mathematical principles, viscosity, fluid statics, conservation of mass, energy equation, momentum principle, fluid flow in pipes, hydraulic machinery.

Open to science majors interested in a Master's degree in Environmental Science.

Lecture, 2 hours.

Requires consent of instructor.

CIVL 510

Open Channel Hydraulics

2 Semester Hours

Study of steady uniform and non-uniform flow in open channels; design of channels, transitions, confluences, culverts, and other hydraulic structures.

Lecture, 2 hours.

Prerequisite: CIVL 315.

CIVL 511

Hydraulic Analysis and Design

2 Semester Hours

Design and analysis of hydraulic structures and pump stations; rainfall-runoff models; determination of reservoir storage; unsteady flow and water hammer; flood routing techniques; sediment transport.

Lecture, 2 hours.

CIVL 512

Air Pollution Analysis

2 Semester Hours

Detailed analysis of emission sources, emission calculation methods, and air pollution controls. The dispersion of air pollutants in the atmosphere (fates and lifetimes, dispersion modeling methods). In-depth techniques of conducting risk assessments due to exposure to air pollutants.

Lecture, 2 hours.

CIVL 513

Solid Wastes Engineering

3 Semester Hours

An application of current technology in the collection, control, disposal, and recovery of value from solid wastes.

Lecture, 3 hours.

CIVL 514

Groundwater Hydrology

3 Semester Hours

Theory of the movement and occurrence of water in a porous medium; steady and unsteady flow in confined and unconfined aquifers; Darcy's law; equilibrium and non-equilibrium hydraulics of wells; computer applications.

Lecture, 3 hours.

Prerequisite: CIVL 315.

CIVL 515

Industrial Waste Management

2 Semester Hours

Principles and methods of treatment and disposal of industrial wastes that may adversely affect the environment, including general characterization of wastes from industries of major significance and typical treatment processes involved. Regulatory constraints.

Lecture, 2 hours.

Prerequisites: CIVL 400 and ENVS 510.

CIVL 548

Hazardous Substances Management

2 Semester Hours

The study of regulation and management strategies for environmental programs (hazardous substances) including hazardous waste, asbestos, underground tanks, air pollution, and the California Environmental Quality Act.

Lecture, 2 hours.

CIVL 549

Hazardous Waste Remediation

2 Semester Hours

This course provides an overview of the regulatory framework, site assessment and sampling techniques, and remediation technologies for

hazardous waste sites. Emphasis is placed on cost-effective remediation technologies, regulatory agency coordination, and new emerging technologies for hazardous waste site clean-up projects.

Lecture, 2 hours.

CIVL 550

Fundamentals of Environmental Health Risk Management

2 Semester Hours

The fundamental technical aspects and non-technical policy aspects of environmental health risk assessments. Basics of environmental chemistry partitioning fate and transport of pollutants in the atmosphere and water; human exposure scenarios, fundamentals of toxicology and epidemiology.

Lecture, 2 hours.

CIVL 595

Structural Steel Design

3 Semester Hours

Theory and design of steel structures, component members, and connections using codes and specifications. Design projects.

Lecture, 3 hours.

Prerequisite: CIVL 200.

CIVL 598

Special Studies

1-4 Semester Hours

CIVL 599

Independent Studies

1-4 Semester Hours

CIVL 600

Comprehensive Exam

0 Semester Hours

Students must register for this class but only after they have completed all of their course requirements (30 semester hours) or will have completed all of their course requirements at the end of the semester in which they plan to take the comprehensive examination.

CIVL 602

Membrane Treatment Systems

3 Semester Hours

Characteristics, application, and selection of membranes for treatment, including reverse osmosis, microfiltration, ultrafiltration and other technologies. Membrane design, process and operation of surface water, groundwater, seawater, wastewater, recycled water and industrial water.

Lecture, 3 hours.

Prerequisites: ENVS 631 and 633.

CIVL 603

Engineering Sustainability and LEED

3 Semester Hours

Introduction to the role of engineers in sustainability with focus on the modern engineer's role on design. Topics include environmental impacts, sustainable construction, recycled water and desalination, renewable

energy, and management and conservation techniques. Additionally, the course prepares students in Leadership in Energy and Environmental Design (LEED) with the overall goal for them to receive LEED Green Associate credentials.

Lecture, 3 hours.

CIVL 604

Climate Change, Impacts, and Sustainability

3 Semester Hours

Overview of Earth's climate system and exploration of the science, impacts, and politics of global climate change. Specific topics include the greenhouse effect; El Niño; atmospheric and oceanic circulations; observations and projections; impacts on water resources and agriculture; politics; alternative energy; sustainability; and mitigation. Special emphasis is placed on California and the western United States.

Lecture, 3 hours.

CIVL 605

Engineering Communications

2 Semester Hours

Written and verbal communication in the engineering profession.

Students for whom English is a second language may not enroll in this class until their second year at LMU.

CIVL 607

Hydraulic Analysis and Design

2 Semester Hours

Design and analysis of hydraulic structures and pump stations; rainfall-runoff models; determination of reservoir storage; unsteady flow and water hammer; flood routing techniques; sediment transport.

Lecture, 2 hours.

Prerequisite: CIVL 504 or equivalent.

CIVL 608

Groundwater Hydrology

3 Semester Hours

Theory of the movement and occurrence of water in a porous medium; steady and unsteady flow in confined and unconfined aquifers; Darcy's law; equilibrium and non-equilibrium hydraulics of wells; computer applications.

Lecture, 3 hours.

Prerequisite: CIVL 504 or equivalent.

CIVL 609

Open Channel Hydraulics

2 Semester Hours

Study of steady uniform and non-uniform flow in open channels; design of channels, transitions, confluences, culverts, and other hydraulic structures.

Lecture, 2 hours.

Prerequisite: CIVL 504 or equivalent.

CIVL 610

Water Treatment Systems Design

2 Semester Hours

Integration of unit processes and operations and functional engineering design of water treatment systems.

Prerequisite: CIVL 640.

CIVL 611

Wastewater Treatment Systems Design

2 Semester Hours

Integration of unit processes and unit operations and functional engineering design of municipal wastewater treatment and water reclamation systems.

Corequisite: CIVL 641.

Prerequisites: CIVL 640 and ENVS 610.

CIVL 612

Air Pollution Analysis

2 Semester Hours

Detailed analysis of emission sources, emission calculation methods, and air pollution controls. The dispersion of air pollutants in the atmosphere (fates and lifetimes, dispersion modeling methods). In-depth techniques of conducting risk assessments due to exposure to air pollutants.

CIVL 613

Solid Wastes Engineering

3 Semester Hours

An application of current technology in the collection, control, disposal, and recovery of value from solid wastes.

Lecture, 3 hours.

CIVL 614

Industrial Waste Management

2 Semester Hours

Principles and methods of treatment and disposal of industrial wastes that may adversely affect the environment, including general characterization of wastes from industries of major significance and typical treatment processes involved. Regulatory constraints.

Prerequisites: ENVS 610 and 631.

CIVL 615

Theory and Design of Waste Outfall Systems

2 Semester Hours

The theory of turbulent mixing as applied to the design of submarine waste and thermal outfall systems; a review of the regulations and their impact on the design of outfall systems.

Prerequisites: CIVL 504 or equivalent; ENVS 610 and 631.

CIVL 620

Computers and Environmental Analysis

2 Semester Hours

Applications of digital simulations in the analysis of problems in the environment, water quality modeling, numerical methods, statistical analysis, and use of a large scale application program.

CIVL 634

Groundwater Management

2 Semester Hours

Management of groundwater basins for optimum yield, quality, and environmental considerations; artificial recharge; methods of exploration; groundwater models; water rights; and conjunctive use of surface and groundwater.

CIVL 635

Contaminant Transport in Groundwater

2 Semester Hours

Processes affecting the transport and fate of inorganic and organic contaminants in groundwater. Emphasis is placed on processes involving phase equilibrium, mass transfer, dissolution, etc. Review of flow and contaminant transport models, remediation technologies, and practical/regulatory considerations.

Prerequisites: CIVL 514, ENVS 610 and 631.

CIVL 640

Physical and Chemical Treatment Processes

2 Semester Hours

Theory and practice of the physical and chemical treatment processes to treat water and wastewater including flow equalization, preliminary treatment, grit removal, primary sedimentation, filtration, flotation, adsorption, ion exchange and membrane separation, air stripping, precipitation, chemical oxidation and disinfection.

Prerequisites: CIVL 504 or equivalent; ENVS 631 and 633.

CIVL 641

Biological Treatment Processes

2 Semester Hours

Theory and practice of biological treatment of wastewater and wastewater residuals including activated sludge, biotowers and fixed film systems, oxygen transfer, secondary clarification, nutrient removal, aerobic and anaerobic digestion, composting, oxidation ponds, and wetlands.

Prerequisites: CIVL 504 or equivalent; ENVS 631, 633, and 644.

CIVL 648

Hazardous Substance Management

2 Semester Hours

The study of regulation and management strategies for environmental programs (hazardous substances) including hazardous waste, asbestos, underground tanks, air pollution, and the California Environmental Quality Act.

CIVL 649

Contaminated Site Remediation

2 Semester Hours

An overview of the regulatory framework, site assessment and sampling techniques, and remediation technologies for contaminated sites. Emphasis is placed on cost-effective remediation technologies, regulatory agency coordination, and new and emerging technologies for site clean-up projects.

CIVL 650

Fundamentals of Environmental Health Risk Assessment

2 Semester Hours

The fundamental technical aspects and non-technical policy aspects of environmental health risk assessments. Basics of environmental chemistry; partitioning, fate and transport of pollutants in the atmosphere and water; human exposure scenarios, fundamentals of toxicology and epidemiology.

CIVL 654**Surface Water Hydrology***2 Semester Hours*

Study of the elements of the hydrologic cycle, rainfall, streamflow, infiltration, evapotranspiration, snowmelt, hydrographs, probability, river and reservoir routing, runoff determination using the rational method and hydrograph methods.

CIVL 656**Water Resources Systems Modeling***2 Semester Hours*

Analyze and implement current simulation models in water resources. Topics may include: hydrologic and watershed models; reservoir operation models; surface water and groundwater quality models; computer applications.

Permission of instructor required.

CIVL 665**Economics of Water Resources***2 Semester Hours*

Fundamentals of microeconomics; analysis of demand; production; theory of costs; welfare economics; benefit-cost analysis; applications in water resources management and environmental engineering.

CIVL 670**Contracts and Specifications***2 Semester Hours*

Discussion of the design and construction process, contract documents and specifications, contract changes, claims and disputes, property issues, selection of the design professional and professional service contracts.

CIVL 695**Master Thesis***3 Semester Hours***CIVL 698****Special Studies***1-4 Semester Hours***CIVL 699****Independent Studies***1-4 Semester Hours***Computer Science****CMSI 161****Computing in Popular Culture***3 Semester Hours*

Common stereotypes and assumptions about computing, as reflected in art, entertainment, and conventional wisdom—and the truths and fallacies behind them. Deeper study of particularly seminal popular representations of computing concepts. Critical study of the depiction of computing in film (e.g., *2001: A Space Odyssey*, *The Matrix*, *War Games*), literature (e.g., *Neuromancer*; *I, Robot*, *The Soul of a New Machine*; *The Hitchhiker's Guide to the Galaxy*), and mixed media (e.g., "Spock's Brain," *Max Headroom*, and Univac's 1952 presidential election forecast).

Lecture, 3 hours.

CMSI 182**Introduction to Computer Science***3 Semester Hours*

History of computer science and its relationship to other fields. The benefits of computational thinking in daily life. Numerous examples connecting computing and computing technology to human activities, such as sporting events, elections, politics, and health care. Coursework includes writing small-scale computer programs.

Lecture, 3 hours.

CMSI 185**Computer Programming***3 Semester Hours*

Introduction to algorithms and computer programming using Java, JavaScript, or Python.

Lecture, 3 hours.

CMSI 186**Programming Lab***3 Semester Hours*

Apprenticeship-styled workshop in Java or JavaScript programming, loosely structured around the notion of algorithm paradigms, treating one medium-sized application every two weeks in a laboratory setting. Typical projects include discrete simulation, randomized estimation, maze solving, dynamic programming, large-number arithmetic, and numerical methods.

For majors and minors only.

Prerequisite: A grade of C (2.0) or better in CMSI 185 or consent of instructor.

CMSI 261**Language, Thought, and Computation***3 Semester Hours*

A study of the philosophical and epistemological roots of computer science, covering language, thought, logic, cognition, computation, the Church-Turing thesis, computer programming, and artificial intelligence. Mathematical models of knowledge, learning, consciousness, and self-awareness. Structural and statistical foundations of human language. Holism, reductionism, Zen, and dualism.

Lecture, 3 hours.

Prerequisite: MATH 101 or higher, or placement into MATH 106 or higher.

CMSI 264**Cryptography through the Ages***3 Semester Hours*

Descriptions of mathematical systems that have been used for enciphering and deciphering information and a study of the context in which these systems arose.

Lecture, 3 hours.

Prerequisite: MATH 101 or higher, or placement into MATH 106 or higher.

CMSI 266**Electronic Markets**

3 Semester Hours

Study of the convergence of markets, fair division, and dispute resolution with modern information technologies. Topics include: utility theory; formal definitions for fairness; algorithms for proportional, strong, and envy-free division; complexity of cake-cutting algorithms; unequal shares; indivisible goods; impossibility theorems; auctions and elections; electronic markets vs. electronic commerce; parimutuel wagering and modern wagering websites; efficient market hypothesis; introduction to price theory; prediction markets and IEM (Iowa Electronic Markets); securities exchanges and NASDAQ; online auction markets and eBay; architecture and implementation; scalability and security; legal issues; future directions.

Lecture, 3 hours.

Prerequisite: MATH 101 or higher, or placement into MATH 106 or higher.

CMSI 281**Data Structures***3 Semester Hours*

Introduction to data types, information structures, and algorithms. Topics include: collection classes and interfaces for sets, lists, stacks, queues, and dictionaries; implementation techniques such as arrays, linked lists, and efficient tree structures; introduction to computational complexity; elementary sorting; hashing.

Lecture, 3 hours.

Prerequisite: A grade of C (2.0) or better in CMSI 185.

CMSI 282**Algorithms***3 Semester Hours*

Algorithm paradigms, with an emphasis on combinatorial search. Topics include: generating combinatorial objects; greedy methods, dynamic programming; randomized algorithms; modern heuristics such as genetic programs and simulated annealing; advanced sorts and order statistics; cake-cutting and fair division; graph algorithms; computational geometry.

Lecture, 3 hours.

Prerequisite: CMSI 281.

CMSI 284**Computer Systems Organization***3 Semester Hours*

An introduction to the basic organization of computer systems. Digital representation of textual and numeric information. Machine instructions and instruction formats, assemblers and assembly languages, linking and loading, process execution, interrupt and device-handling, and file management. System-level programming in C and assembly language.

Lecture, 3 hours.

CMSI 298**Special Studies***1-3 Semester Hours***CMSI 299****Independent Studies***1-3 Semester Hours***CMSI 355****Networks***3 Semester Hours*

A detailed study of the design and use of internetworking technologies in modern digital communication systems. Topics include: routing and control protocols, signalling, multicasting, OSI model, sockets, IPv4, IPv6, UDP, TCP, ARP, ICMP, IGMP, Mobile IP, DNS, SMTP, FTP, VoIP, and HTTP.

Lecture, 3 hours.

Prerequisite: CMSI 284.

CMSI 367**Biological Databases***3 Semester Hours*

The representation, storage, and transformation of biological data. Topics include the central dogma of molecular biology, the genetic code, the Human Genome Project, sequence databases, formats and conversion, searching and regular expressions, XML, and relational databases in biology. Students build and potentially release an open source gene database for a new species at the end of the course.

Lecture, 3 hours.

CMSI 370**Interaction Design***3 Semester Hours*

Introduction to interaction design and human-computer interaction, with equal emphasis on learning how to design and evaluate interaction architectures, and learning how to use existing frameworks to implement such architectures. Topics include: interaction guidelines, principles, and theories; usability engineering; the model-view-controller (MVC) paradigm; and current frameworks such as HTML5, GLUT, and Cocoa.

Lecture, 3 hours.

Prerequisite: CMSI 281.

CMSI 371**Computer Graphics***3 Semester Hours*

Introduction to interactive computer graphics. Topics include the design and use of three-dimensional graphics engines and APIs, animation, physics and computer games, modeling, computational geometry, shading, ray tracing, and fractal geometry.

Lecture, 3 hours.

Prerequisite: CMSI 281.

CMSI 375**Game Design***3 Semester Hours*

The art and science of games, hosted by a machine or otherwise. Goals, rules, game balance, and other fundamentals are introduced, as well as implementation issues such as modeling, physics, animation, networking, and performance. Coverage of existing gaming platforms and languages is provided as needed. Concepts are applied in an appropriately scaled, team-implemented game project.

Lecture, 3 hours.

CMSI 377**Introduction to Virtual Worlds**

3 Semester Hours

An introduction to the history of, and the technological and social aspects surrounding, virtual worlds. Topics include building and scripting objects, and the interaction between avatars, avatar customization, and computer science concepts underlying virtual worlds.

Lecture, 3 hours.

CMSI 385**Introduction to the Theory of Computation***3 Semester Hours*

Introduction to the formal theory of computation. Topics include: finite automata and regular sets; context-free grammars and pushdown automata; Turing machines and computability; intractability.

Lecture, 3 hours.

Prerequisites: CMSI 281 and MATH 248.

CMSI 386**Programming Languages***3 Semester Hours*

A comparative study of the rationale, concepts, design, and features of several major programming languages. Topics include the role of bindings, control flow, types, subroutines, modules, objects, and concurrency. Major attention is given to C, Java, ML, Perl, and JavaScript.

Lecture, 3 hours.

Prerequisite: CMSI 284.

CMSI 387**Operating Systems***3 Semester Hours*

Concepts in the design of operating systems, including: processes, process management, mutual exclusion, synchronization and message-passing; primary memory management, multiprogramming, paged allocation and paging policies; resource and I/O management; file systems, and security.

Lecture, 3 hours.

Prerequisite: CMSI 284.

CMSI 390**Internship or Practicum***1-2 Semester Hours*

Credit awarded for 1) preparing supporting documentation for actual internships taken, or 2) participating in an individual or group directed research project resulting in a project or paper that is presented at a conference or University-sanctioned event.

May be repeated for credit.

CMSI 398**Special Studies***1-3 Semester Hours***CMSI 399****Independent Studies***1-3 Semester Hours***CMSI 401****Software Engineering Laboratory***3 Semester Hours*

Design and implementation of large programs in a group setting, including use of the Unified Modeling Language (UML) for specifying, visualizing, and documenting models.

Lecture and Laboratory, 3 hours.

Consent of instructor required.

CMSI 402**Senior Project Laboratory***4 Semester Hours*

Analysis, design, implementation, and presentation of a large-scale, individual project, demonstrating mastery of the computer science curriculum.

Lecture and Laboratory, 4 hours.

Consent of instructor required.

CMSI 475**Computational Complexity***3 Semester Hours*

Introduction to the study of computational complexity, including efficient algorithms for matrix multiplication and fast Fourier transforms, the classes P and NP, approximation algorithms, randomized algorithms and RP, parallel algorithms and NC.

Lecture, 3 hours.

Prerequisites: CMSI 282 and 385.

CMSI 485**Artificial Intelligence***3 Semester Hours*

Introduction to the fundamental concepts needed to attain human-level intelligence in computer systems. Topics include agent architectures, problem-solving methods, heuristic search, game playing, knowledge representation, symbolic reasoning, computational models of virtual humans, and machine learning.

Lecture, 3 hours.

Prerequisites: CMSI 385 and 386.

CMSI 486**Introduction to Database Systems***3 Semester Hours*

Theory and design of database systems, with an emphasis on relational and object-oriented models. Topics include database system structure, semantic data modeling, relational databases, object-oriented extensions, formal query languages, integrity and security, physical design of databases, indexing and hashing, and query processing and optimization. Transaction processing, concurrency, and crash recovery are introduced.

Lecture, 3 hours.

Prerequisite: CMSI 386.

CMSI 488**Language Translation and Implementation**

4 Semester Hours

Introduction to the theory and design of translators and interpreters for high-level computer programming languages. Topics include programming language specification, scanner construction, parser construction, intermediate representations, virtual machines, code generation, and optimization. Comparisons between computer and natural language translations are also covered.

Lecture, 3 hours.

Prerequisites: CMSI 385 and 386.

CMSI 498**Special Studies**

1-4 Semester Hours

CMSI 499**Independent Studies**

1-4 Semester Hours

CMSI 586**Database Design and Database Systems I**

3 Semester Hours

Fundamentals concepts in the field of database technology. Topics include hierarchical, network, object, object-relational, relational, and XML models; database system structure; semantic data modeling; relational database systems; relational query languages; practical database design methodology; mapping of DB tables to UML class diagrams; DB requirements analysis and traceability; introduction to functional dependencies and normalization through 3NF.

Course is designed to meet the needs of Systems Engineering students.

Not available for credit to students who have completed CMSI 486.

CMSI 598**Special Studies**

1-4 Semester Hours

CMSI 599**Independent Studies**

1-4 Semester Hours

CMSI 601**Graduate Seminar**

3 Semester Hours

Project-based seminar in which students will be required to select, research, write about, and discuss some aspect of a broad area of current interest to computer scientists and electrical engineers (e.g., computer networks, digital communication).

Successful completion of coursework and the endorsement of the faculty advisor required. (The seminar can be taken during the final semester of coursework subject to the approval of the faculty advisor.)

Note: Students unable to complete the CMSI 601 project within one semester may request an "in process" grade and complete the project the subsequent term. Students wishing to change their project after the first semester of enrollment in CMSI 601 will need to re-enroll in the course. Students who are unable to complete the CMSI 601 project after two semesters can petition for a continuation of the "in process" grade. If the petition is not granted, re-enrollment in CMSI 601 will be necessary.

CMSI 641**Software Engineering**

3 Semester Hours

Design and development issues of large-scale software systems which are reliable and easily maintainable. Course project covers each step of the development process from the initial needs analysis and requirement specification through design and implementation. Topics include tradeoffs between agile and traditional approaches, impact of legacy systems, architectural representation issues, testing, project risk management, and emerging trends in software engineering such as model-driven engineering and aspect-oriented software development.

Lecture, 3 hours.

CMSI 644**Advanced Modeling of Software Systems**

3 Semester Hours

Study of model-driven engineering and its ability to alleviate platform complexity and effectively express domain concepts. Topics include techniques for designing, implementing, and maintaining robust software systems; the Unified Modeling Language (UML) and entity relationship modeling (ERD); automation of change evolution in models; and definition of standards that enable tools and models to work together.

Lecture, 3 hours.

CMSI 670**Topics in Interaction Design**

3 Semester Hours

Interaction design and human-computer interaction, with equal emphasis on learning how to design and evaluate interaction architectures and learning how to survey and analyze current literature on the subject to implement such architectures. Topics include: interaction guidelines, principles, and theories; usability engineering; the model-view-controller (MVC) paradigm; and current research in the field.

Lecture, 3 hours.

CMSI 677**Artificial Intelligence**

3 Semester Hours

Study of the fundamental concepts needed to attain human-level intelligence in computer systems. Topics include: agent architectures, problem-solving methods, heuristic search, game playing, knowledge representation frames, inheritance and common-sense reasoning, neural networks, genetic algorithms, conceptual clustering, and current research in the field.

Lecture, 3 hours.

Prerequisites: CMSI 385 and 386 or consent of the instructor.

CMSI 678**Multi-agent Systems and Distributed Artificial Intelligence**

3 Semester Hours

Study of the development of multi-agent systems for distributed artificial intelligence. Topics include intelligent agents, multi-agent systems, agent societies, problem solving, search, decision-making, and learning algorithms in the distributed Artificial domain, industrial and practical applications of distributed artificial intelligence techniques to real-world problems.

Lecture, 3 hours.

CMSI 682**Knowledge-Based Systems***3 Semester Hours*

Detailed study of design and implementation of knowledge-based systems. Topics include: logic and theorem proving; deduction systems; reaction systems; forward and backward chaining; knowledge acquisition; and explanatory interfaces.

Lecture, 3 hours.

CMSI 686**Database Design and Database Systems II***3 Semester Hours*

Advanced concepts in the field of database technology. Course begins with a review of database system structure, semantic data modeling, relational databases, and object-oriented extensions. Additional topics include relational algebra and formal query languages; integrity, functional dependencies, normalization, security, physical design of databases, indexing and hashing, query processing and optimization, transaction processing, concurrency, crash recovery, and current research in the field.

Lecture, 3 hours.

Prerequisite: CMSI 486 or 586, or consent of the instructor.

CMSI 689**Computer Networks***3 Semester Hours*

Concepts in and design of large-scale distributed networks and local area networks, including topologies, standards and protocols.

(See ELEC 687.)

CMSI 698**Special Studies***1-3 Semester Hours*

Special Studies

CMSI 699**Independent Studies***1-3 Semester Hours***Electrical Engineering****ELEC 210****Electric Circuit Analysis***3 Semester Hours*

Introduction to the principles of electric circuit analysis, DC, AC, transient and steady-state response of electric circuits; electric power.

Lecture, 3 hours; Laboratory, 2 hours.

Corequisite: ELEC 213.

Prerequisites: ENGR 160 and MATH 131.

ELEC 213**Electric Circuit Analysis Lab***0 Semester Hours*

Laboratory experiments on electric circuits. This is a companion laboratory course to the electric circuit analysis course.

Corequisite: ELEC 210.

Prerequisites: ENGR 160 and MATH 131.

Engineering majors only.

ELEC 220**Electric Circuit Applications***3 Semester Hours*

Laplace transform applications, network functions, frequency response, analog filters, two-port networks, three phase power, magnetic circuits.

Lecture, 3 hours.

Prerequisites: ELEC 210; MATH 245 or concurrent enrollment.

ELEC 260**Introduction to Electricity and Applications***3 Semester Hours*

Presentation of a brief history of electricity and electrical devices. Introduction to basic concepts of circuit and system analysis, electronic instruments, devices and modern electric equipment. Demonstrations of concepts and devices are included.

Lecture, 3 hours.

Prerequisite: MATH 101 or higher, or placement into MATH 106 or higher.

ELEC 281**Logic Design***3 Semester Hours*

Introduction to computer systems, number systems. Boolean algebra, combinational and sequential logic design, minimization and analysis techniques. Concepts of programmable logic devices.

Lecture, 3 hours.

ELEC 298**Special Studies***0-3 Semester Hours***ELEC 299****Independent Studies***1-3 Semester Hours***ELEC 301****Junior Lab I***3 Semester Hours*

Introduction to the use of contemporary lab equipment and techniques of measurement and experimentation; introduction to technical report writing; class is used to provide a laboratory experience related to junior level courses.

Laboratory, 3 hours; Lecture, 1 hour.

Prerequisites: ELEC 220, 281, and concurrent enrollment in ELEC 353 or permission of the instructor.

ELEC 302**Junior Lab II***3 Semester Hours*

Continuation of ELEC 301 with emphasis on design; introduction to use of CAD tools and FPGA based system design.

Laboratory, 4 hours.

Prerequisites: ELEC 301 and 383; concurrent enrollment in ELEC 354.

ELEC 353**Electronics I***3 Semester Hours*

Fundamentals of semiconductor devices and the physics of their operation. Applications of semiconductor devices in electronic circuits and device modeling. Introduction to CAD tools. Design of single stage amplifiers.

Lecture, 3 hours.

Prerequisite: ELEC 220.

ELEC 354**Electronics II***3 Semester Hours*

Introduction to engineering design methods utilized in the synthesis of contemporary analog electronic circuits including extensive use of CAD tools. Topics include multitransistor circuits, large signal limitations, feedback techniques, amplifier frequency response, stability and oscillation.

Lecture, 3 hours.

Prerequisite: ELEC 353.

ELEC 361**Electromagnetics***3 Semester Hours*

Introduction to Maxwell's equations, wave propagation, transmission line theory, and the solution of static and time varying field problems.

Lecture, 3 hours.

Prerequisites: MATH 355 and PHYS 201.

ELEC 371**Linear Systems***3 Semester Hours*

Time and frequency domain analysis of continuous and discrete-time signals and systems. Signal characterization, Laplace transform, Z-transform, Fourier series, Fourier transform, discrete Fourier transform, State variable analysis. Applications to differential and difference equations.

Lecture, 3 hours.

Prerequisite: ELEC 220.

ELEC 383**Introduction to Microprocessors***3 Semester Hours*

Basic concepts in design and organization of microprocessors and microcomputers. Assembly language programming design for incorporating peripheral devices in solving application designs.

Not open to CMSI majors.

Lecture, 3 hours.

Prerequisite: ELEC 281.

ELEC 385**Computer Systems Design***3 Semester Hours*

Formal description of digital systems. Design of functional subsystems. Organization and design of general purpose digital computers and of special purpose digital systems.

Lecture, 3 hours.

Prerequisites: CMSI 284 and ELEC 281.

ELEC 398**Special Studies***1-4 Semester Hours***ELEC 399****Independent Studies***1-4 Semester Hours***ELEC 400****Design Methodology***2 Semester Hours*

An introduction to systems engineering, including a study of design methodology and development of professional project-oriented skills such as communication, team management, creative problem solving, interpersonal management, and leadership skills.

Lecture, 2 hours.

Corequisite: ELEC 401.

ELEC 401**Senior Lab I***3 Semester Hours*

Course is intended to provide a laboratory experience related to other senior level courses; emphasis is on design, technical report writing, and oral presentation.

Laboratory, 4 hours.

Prerequisites: ELEC 302, 354, and 383.

Corequisite: ELEC 400.

ELEC 402**Senior Project***3 Semester Hours*

A study of design methodology and development of professional project-oriented skills including communication, team management, creative problem solving, interpersonal management, and leadership skills. Team project activities are used to apply project-oriented skills to solution of design problems. Periodic design reports and design reviews are presented to, and critiqued by the faculty and the design team.

Lecture, 1 hour; Laboratory, 3 hours.

Prerequisites: ELEC 400 and 401.

ELEC 423

Communications I

3 Semester Hours

Review of topics in Signals and Systems, Fourier transform and frequency-domain analysis. Introduction to the principles of operation of typical analog and digital communication systems. Extensive discussion on modulation and demodulation, power and bandwidth.

Lecture, 3 hours.

Prerequisite: ELEC 371.

ELEC 424

Communications II

3 Semester Hours

Fundamentals of probability, random variables, and random processes. Performance analysis of typical communication systems. Introduction to information theory and coding theories.

Lecture, 3 hours.

Prerequisite: ELEC 423.

ELEC 453

Digital Integrated Electronics

3 Semester Hours

Extensive coverage of digital integrated circuit design, including TTL, NMOS, CMOS and BiCMOS digital logic circuits, Read Only Memory (ROM), and Random Access Memory (RAM).

Lecture, 3 hours.

Prerequisites: ELEC 281 and 354.

ELEC 462

Microwave and Optical Communications

3 Semester Hours

Applications of electromagnetic theory. Topics include transmission lines, waveguides, impedance transformations and matching, passive devices, scatter parameters and their applications in circuits, antennas and wave propagation, fiber optics and other communication links.

Lecture, 2 hours; Laboratory, 3 hours.

Prerequisite: ELEC 361.

ELEC 472

Control Systems

3 Semester Hours

Analysis and design of feedback systems using root locus, Bode, Nyquist, and state variable techniques; introduction to discrete feedback control system analysis.

Lecture, 3 hours.

Prerequisite: ELEC 371.

ELEC 481

Introduction to Computer Networks

3 Semester Hours

This course provides a basic introduction to computer networking. The topics covered include: types and uses of computer networks, data transmission, protocols and protocol layering, packets, message transactions, layered architecture, and a client-server introduction.

Lecture, 3 hours.

Senior standing and permission of instructor required.

ELEC 498

Special Studies

1-4 Semester Hours

ELEC 499

Independent Studies

1-4 Semester Hours

ELEC 521

Introduction to Communication Systems

3 Semester Hours

The concepts of signal formulation, modulation, transmission and reception, and demodulation of signals in noise will be discussed.

Prerequisites: ELEC 423 and 532, or equivalents.

ELEC 525

Digital Signal Processing

3 Semester Hours

The representation, analysis, and processing of discrete signals are discussed. Topics include sampling, quantization, Z-transform of signal, discrete Fourier and fast Fourier transforms, analysis and design of digital filters, and spectral estimation of random digital signals.

Prerequisite: ELEC 371.

ELEC 532

Probability and Random Processes

3 Semester Hours

Studies of probability, random variables, stochastic processes, correlation, power spectral density, and linear mean-square estimation with emphasis on their application to electrical engineering are included.

Senior or graduate standing required.

ELEC 552

Semiconductor Device Physics

3 Semester Hours

In-depth coverage of semiconductor device physics, including: principle of quantum mechanics, carrier transport phenomena in semiconductor materials, P-N junctions, metal-semiconductor and semiconductor heterojunctions, and MOS transistors.

Prerequisite: ELEC 353 or equivalent.

ELEC 561

IC Fabrication Processes

3 Semester Hours

Overview of processes in manufacture of integrated circuits. Topics include: single crystal growth, oxide growth, photolithographic processes,

ion implantation and impurity diffusion, metal deposition, and passivation and packaging of chips. Use is made of Unix workstations for modeling and simulation.

Prerequisite: ELEC 353 or equivalent.

ELEC 562

Digital System Design with VHDL

3 Semester Hours

Computer aided design of digital VLSI (Very Large Scale Integrated) systems using Very High Speed Integrated Circuits (VHSIC) Hardware Description Language (VHDL).

Prerequisites: ELEC 281 and 383, or equivalents.

ELEC 563

ASIC Design

3 Semester Hours

Topics include programmable logic devices and gate array architectures, programmability of PLDs and gate arrays, field programmable gate arrays (FPGAs) and applications of FPGAs in digital system design. Course includes laboratory experiments and extensive use of Computer Aided Design tools.

Prerequisites: ELEC 383 and 562, or permission of instructor.

ELEC 567

Introduction to Digital VLSI Design

3 Semester Hours

Custom and semi-custom design of VLSI circuits using standard cells, design methodologies of advanced complementary metal-oxide-semiconductor (CMOS) circuits, and simulation of designed circuits will be emphasized. At the end of the semester, circuits designed by the students will be sent for fabrication through MOSIS and later tested by the students for functionality.

Prerequisite: ELEC 383 or permission of instructor.

ELEC 583

Finite State Machines

3 Semester Hours

An introduction to the theory and design of finite state automata and sequential machines.

Prerequisite: ELEC 281 or equivalent.

ELEC 584

Introduction to Microprocessors II

3 Semester Hours

Design and applications of 32-bit microprocessors. Topics include: basic concepts, software, architecture, programming, interfacing, and system design.

Prerequisite: ELEC 383 or equivalent.

ELEC 585

Computer Organization and Architecture

3 Semester Hours

System structure of minicomputers and main frame computers. Structured memory based systems; parallel and multiunit processors; introduction to input/output processing.

Prerequisite: ELEC 385 or equivalent.

ELEC 598

Special Studies

1-4 Semester Hours

ELEC 599

Independent Studies

1-4 Semester Hours

ELEC 601

Graduate Seminar

3 Semester Hours

Project-based seminar in which students will be required to select, research, write about, and discuss some aspect of a broad area of current interest to computer scientists and electrical engineers (e.g., computer networks, digital communication).

Prerequisites: Successful completion of coursework and the endorsement of the faculty advisor. (The seminar can be taken during the final semester of coursework subject to the approval of the faculty advisor.)

ELEC 621

Information Theory and Coding

3 Semester Hours

The concepts of information measures and channel capacity are introduced. The applications of Shannon theory to evaluate the effectiveness of practical communication links is developed. Error correction coding and its application in reliable communications are emphasized in this class.

Prerequisite: ELEC 532.

ELEC 624

Digital Communication Theory

3 Semester Hours

This course provides the foundation of digital communication theory. Topics include representation of bandpass signals, frequency and phase shift keying, M-ary signal, detection in additive Gaussian noise channel, intersymbol interference, and efficient signaling with coding.

Prerequisites: ELEC 521 and 532.

ELEC 626

Satellite Communication Systems

3 Semester Hours

This course provides an introduction to the practical and theoretical analysis of the performance of satellite communications links. Topics in link design, satellite orbit dynamics, antenna gain and coverage, frequency and time division multiple access, component and subsystem nonlinearity, signal format, and error correction coding will be discussed.

Prerequisites: ELEC 521 and 532.

ELEC 627

Phase-Lock Techniques for Communication and Control

3 Semester Hours

Phase-lock loop concepts, stability, noise response, acquisition, frequency response and topics of applications in coherent communications such as PLL costas loop, byte synchronization will be discussed.

Prerequisite: ELEC 532.

ELEC 628**Spread Spectrum Systems***3 Semester Hours*

The system performance and signal design of spread communication systems will be discussed. Topics addressed are frequency hopping and direct sequence systems and their performance in jamming and CDMA environments.

ELEC 521, 532, and 624 are recommended.

ELEC 631**Numerical Methods in Engineering***3 Semester Hours*

A course in numerical techniques of computing. Numerical techniques; errors in computing; generation of functions; roots of polynomials, integration techniques; solution of simultaneous linear equations; ordinary differential equations; partial differential equations.

ELEC 632**Optimization Techniques in Signal Processing***3 Semester Hours*

An introduction to the theory, analysis, and design of optimal signal processing systems in both discrete and continuous time. Topics include spectral factorization, least-mean-square theory and estimation algorithms, linear signal estimation, Wiener and Kalman filtering, linear prediction, spectral estimation, and matched filtering. Access to computer with MATLAB, Fortran, or other high level language compiler for assignments is required.

Prerequisite: ELEC 532.

ELEC 637**Optical Communication Systems***3 Semester Hours*

This course presents the analytical basis for fiber optic and laser communication systems.

Prerequisites: ELEC 521 and 532.

ELEC 651**Communication Electronics***3 Semester Hours*

Theory and design aspects of analog electronic circuits as applied to the generation, amplification, detection, transmission, and modulation of electrical signals will be discussed.

Prerequisite: Undergraduate electronics course.

ELEC 662**Analog VLSI Design***3 Semester Hours*

Topics in computer-aided design of analog VLSI systems. Topics include: custom and semi-custom design, design methodologies, and simulation of designed circuits. Circuits designed will be fabricated for testing by student.

Prerequisites: ELEC 354 and 383 or equivalent.

ELEC 663**Digital VLSI Design***3 Semester Hours*

Topics in computer-aided design of digital VLSI systems. Topics include: custom and semi-custom design, design methodologies of advanced CMOS circuits, and simulation of designed circuits. Circuits designed will be fabricated for testing by student.

Prerequisites: ELEC 354 and 383 or equivalent.

ELEC 670**Radar Engineering***3 Semester Hours*

Radar fundamentals will be covered including radar applications, frequency allocation, radar space-time coordinates, target and clutter scattering, radar range performance and signal/target detection and location. Also waveform and non-coherent/coherent signal processing design and analysis will be treated for targets embedded in various types of clutter. The course will also address simple antenna and transmitter/receiver design and performance. A sample radar system design problem will be accomplished.

ELEC 682**Arithmetic Processors***3 Semester Hours*

Concepts of number systems, digital numbers algorithms; logic and organization of digital arithmetic processors; conventional arithmetic; algorithm acceleration; floating-point and significance arithmetics; redundant, signed-digit, residue number systems; error detection in digital arithmetic.

Prerequisite: ELEC 585 or equivalent.

ELEC 685**Diagnostic Design and Fault-Tolerant Computers***3 Semester Hours*

Theories and techniques for testing digital circuits and systems, design techniques for fault-tolerant digital systems, test generation for combinational and sequence circuits, self-checking and self-testing circuits, gate-level simulation on a fault-model.

Prerequisites: ELEC 584 and 585.

ELEC 686**Microprocessor Applications***3 Semester Hours*

Applications of microprocessors and microprocessor control in the design of digital and hybrid systems, including digital computer systems.

Prerequisite: ELEC 584 or equivalent.

ELEC 687**Computer Networks***3 Semester Hours*

Concepts in and design of large-scale distributed networks and local area networks, including topologies, standards, and protocols.

ELEC 688**Advanced Computer Architecture***3 Semester Hours*

Design and implementation of reduced instruction set computer architectures. Topics include pipelining, parameter passing, register windows compiling techniques, and comparison with CISC architectures.

Prerequisite: ELEC 585.

ELEC 689**Advanced Topics in Computer Design***3 Semester Hours*

Selected topics from microprogramming, performance measurement and chip-slice architectures.

ELEC 698**Special Studies***1-3 Semester Hours***ELEC 699****Independent Studies***1-3 Semester Hours***General Engineering****ENGR 100****Introduction to Engineering Analysis, Problem Solving, and Design***3 Semester Hours*

This course is designed to introduce basic concepts relevant to engineering and to promote interest in the profession. The course seeks to establish a solid foundation of technical, creative, team work, and communication skills for engineers through effective problem solving, analysis, and design techniques. Practical computer applications are integrated as tools to solve engineering problems through the use of spreadsheets and other software. The course introduces the use of manual and computer graphics in engineering design. Students are also exposed to the different engineering disciplines through a variety of speakers active in the profession.

Lecture, 3 hours.

Corequisite: MATH 120.

ENGR 160**Algorithms and Applications***3 Semester Hours*

The development of algorithms for the computer solution of engineering problems and the implementation of the algorithms using MATLAB.

Lecture, 3 hours.

ENGR 198**Special Studies***1-3 Semester Hours***ENGR 199****Independent Studies***1-3 Semester Hours***ENGR 200****Statics***3 Semester Hours*

Resultants of force systems, free-body diagrams, equations of equilibrium and their applications, analysis of trusses, centroids and moments of inertia, shear and moment diagrams.

Lecture, 3 hours.

Prerequisites: MATH 132 or concurrent enrollment, PHYS 101.

ENGR 278**The Science of the Automobile***3 Semester Hours*

An introduction to today's automotive technology, and the science that supports it, using a systems approach to automotive design. Automotive design, function, and features are discussed, along with the manufacturing processes involved in automotive construction and the effect of globalization on the automotive industry.

Lecture, 3 hours.

Prerequisite: MATH 101 or higher, or placement into MATH 106 or higher.

ENGR 298**Special Studies***1-3 Semester Hours***ENGR 299****Independent Studies***1-3 Semester Hours***ENGR 300****Fundamentals of Engineering (FE) Examination***0 Semester Hours*

A review of topics in mathematics, science, and engineering in preparation for the Fundamentals of Engineering (FE) Examination. Students must register for and take the Fundamentals of Engineering (FE) Examination.

Junior standing required.

ENGR 398**Special Studies***1-3 Semester Hours***ENGR 399****Independent Studies***1-3 Semester Hours***ENGR 400****Senior Seminar***0 Semester Hours*

Presentations emphasizing ethics; economics; societal, political, and global issues; lifelong learning; and contemporary engineering issues.

Lecture, 1 hour.

Senior standing required.

ENGR 498**Special Studies***1-3 Semester Hours***ENGR 499****Independent Studies**

1-3 Semester Hours

Environmental Science

ENVS 300

Engineering Geology

3 Semester Hours

Atmospheric, aqueous, and igneous agencies; river and marine deposits, glaciers, earth movements, volcanoes, earthquakes. Emphasis placed on factors affecting engineering projects; field trips.

Lecture, 3 hours.

ENVS 398

Special Studies

1-3 Semester Hours

ENVS 399

Independent Studies

1-4 Semester Hours

ENVS 420

Environmental Systems Laboratory

1 Semester Hour

Chemical and microbiological tests and demonstrations for environmental systems.

Laboratory, 3 hours.

ENVS 498

Special Studies

1-4 Semester Hours

ENVS 499

Independent Studies

1-4 Semester Hours

ENVS 500

Geology

2 Semester Hours

Atmospheric, aqueous, and igneous agencies; river and marine deposits, glacier, earth movement, volcanoes, earthquakes. Emphasis placed on factors affecting engineering projects; field trips.

ENVS 510

Chemistry for Environmental Engineers and Scientists

2 Semester Hours

Review of inorganic chemistry with emphasis on gas laws, chemical equilibrium, oxidation-reduction, thermodynamics, and chemical kinetics. An introduction to organic chemistry is presented.

Lecture, 2 hours.

Prerequisite: CHEM 114.

ENVS 513

Solid Waste Engineering

2 Semester Hours

An application of current technology in the control, disposal, and recovery of value from solid wastes.

Lecture, 2 hours.

ENVS 515

Environmental Impact Reports

2 Semester Hours

An engineering perspective of managing projects through the California Environmental Quality Act (CEQA) process.

Lecture, 2 hours.

ENVS 518

Applied Oceanography

2 Semester Hours

A study of the physical, chemical, and biological characteristics of the oceans which must be considered in the design of wastewater outfalls, marine structures, etc.

Lecture, 2 hours.

ENVS 525

Inland Waters

2 Semester Hours

The structure of and movement of water in lakes, rivers, and estuaries; cyclical and progressive changes of the physical, chemical, and biological composition of aquatic systems are discussed along with an explanation of lake remediation techniques.

Lecture, 2 hours.

Prerequisites: ENVS 510 and 544.

ENVS 533

Aquatic Chemistry

2 Semester Hours

Equilibrium chemistry concepts including gas- and solid-liquid equilibria applied to aquatic systems. Emphasis on calculation methods for solving for chemical speciation in natural and treated aquatic systems.

Lecture, 2 hours.

Prerequisite: ENVS 510.

ENVS 544

Applied Microbiology

2 Semester Hours

Emphasis on physical and biochemical aspects of bacterial metabolism and behavior as applied to environmental engineering; kinetics and energetics of microbial growth.

Lecture, 2 hours.

Prerequisites: CIVL 400 and ENVS 510.

ENVS 598

Special Studies

1-4 Semester Hours

ENVS 599**Independent Studies***1-4 Semester Hours***ENVS 610****Chemistry for Environmental Engineers and Scientists***2 Semester Hours*

Review of inorganic chemistry with emphasis on gas laws, chemical equilibrium, oxidation-reduction, thermodynamics, and chemical kinetics. An introduction to organic chemistry is presented.

Prerequisite: Undergraduate chemistry.

ENVS 613**Solid Wastes Engineering***2 Semester Hours*

Application of current technology to municipal solid waste collection, separation and recovery, haul and transport, and municipal landfill design including gas collection and handling.

ENVS 615**Environmental Impact Reports***2 Semester Hours*

An engineering perspective of managing water and wastewater projects through the California Environmental Quality Act (CEQA) process.

ENVS 618**Applied Oceanography***2 Semester Hours*

A study of the physical, chemical, and biological characteristics of the oceans which must be considered in the design of wastewater outfalls, marine structures, etc.

Adequate mathematics/science background required.

ENVS 625**Inland Waters***2 Semester Hours*

The structure and movement of water in lakes, rivers, and estuaries; cyclical and progressive changes of the physical, chemical, and biological composition of aquatic systems are discussed along with an explanation of lake remediation techniques.

Prerequisites: ENVS 610 and 644.

ENVS 631**Principles of Water Quality Management***2 Semester Hours*

Review of the basic parameters used to describe water quality. Fundamentals of aquatic interaction in natural systems and fate of pollutants in the natural environments. Basic water and wastewater treatment systems.

Prerequisites: Introductory calculus, basic physics, and chemistry.

ENVS 633**Aquatic Chemistry***2 Semester Hours*

Equilibrium chemistry concepts including gas- and solid-liquid equilibria applied to aquatic systems. Emphasis on calculation methods for solving for chemical speciation in natural and treated aquatic systems.

Prerequisite: ENVS 610.

ENVS 635**Chemical Fate and Transport***2 Semester Hours*

Introduction to physical, chemical, and biological processes governing the movement and fate of chemicals in surface water and the subsurface. Practical quantitative problems solved based on chemical transport and reactions in the environment.

Prerequisite: ENVS 610 or permission of the instructor.

ENVS 644**Applied Microbiology***2 Semester Hours*

Emphasis on physical and biochemical aspects of bacterial metabolism and behavior as applied to environmental engineering; kinetics and energetics of microbial growth.

Prerequisites: ENVS 610 and 631.

ENVS 645**Environmental Engineering and Science Laboratory***2 Semester Hours*

The application of standard tests to determine the chemical and biological quality characteristics in aquatic systems.

Prerequisites: ENVS 631, 633, and 644.

ENVS 650**Watershed Management***2 Semester Hours*

Discussion of the regulatory implications and comparison and contrast of different approaches to watershed management through case studies. Topics include Total Maximum Daily Loads (TMDLs) and ESP's "net environmental benefit"; pollutants studied include nutrients, salts, pesticides, trash, and sediments. A class project, involving application and modeling of basic hydrologic principles for an actual watershed, is assigned.

ENVS 695**Master Thesis***3 Semester Hours***ENVS 698****Independent Studies***1-4 Semester Hours***ENVS 699****Independent Studies***1-4 Semester Hours***Mathematics****MATH 101****Algebra**

3 Semester Hours

Polynomials, rational expressions, exponents, radicals, equations in one and two variables, the quadratic formula, functions and graphs.

MATH 102

Quantitative Skills for the Modern World

3 Semester Hours

Quantitative and analytic skills used to understand personal and social issues faced in everyday life. Topics include problem solving, computer spreadsheets, probability and statistics, and the mathematics of finance.

Corequisite: MATH 103.

MATH 103

Quantitative Skills for the Modern World Lab

0 Semester Hours

Concurrent laboratory for MATH 102.

Corequisite: MATH 102.

MATH 104

Elementary Statistics

3 Semester Hours

Introduction to methods of inferential statistics, histograms, elementary probability, and random variables and distributions.

MATH 106

Mathematics for Elementary Teachers I

3 Semester Hours

Foundations of arithmetic from an advanced standpoint: sets, numeration systems, the structure of number systems, and problem solving strategies.

For Liberal Studies majors only, or by consent of the instructor.

Prerequisite: MATH 101 with a minimum grade of C (2.0) or Mathematics Placement Examination.

MATH 107

Mathematics for Elementary Teachers II

3 Semester Hours

Geometry, metric system, and introduction to probability and statistics.

For Liberal Studies majors only, or by consent of the instructor.

Prerequisite: MATH 106.

MATH 111

Mathematical Analysis for Business I

3 Semester Hours

Systems of equations and inequalities, exponential and logarithmic functions, math of finance, linear programming.

Prerequisite: MATH 101 or Mathematics Placement Examination.

MATH 112

Mathematical Analysis for Business II

3 Semester Hours

Introduction to the differential and integral calculus of elementary functions. Applications of the methods of calculus to business and economics problems.

A laboratory fee may be required.

Prerequisite: MATH 111 or 120 or Mathematics Placement Examination.

MATH 120

Precalculus Mathematics

3 Semester Hours

Functions; polynomial, rational, trigonometric, exponential and logarithmic functions.

Prerequisite: MATH 101 or Mathematics Placement Examination.

MATH 122

Calculus for the Life Sciences I

3 Semester Hours

An introduction to calculus. Derivatives and integrals of the elementary functions, including computational techniques and applications.

Prerequisite: MATH 120 or Mathematics Placement Examination.

MATH 123

Calculus for the Life Sciences II

3 Semester Hours

Integration methods with applications, differential equations and modeling, introduction to multivariate calculus.

Prerequisite: MATH 122 or equivalent.

MATH 131

Calculus I

4 Semester Hours

Limits, continuity, derivatives of algebraic and transcendental functions, applications of the derivative, antiderivatives, introduction to the definite integral, Fundamental Theorem of Calculus.

Prerequisite: MATH 120 or Mathematics Placement Examination.

MATH 132

Calculus II

4 Semester Hours

Techniques of integration, numerical methods of integration with error analysis, applications of the integral, improper integral, infinite series, an introduction to parametric equations and polar coordinates.

Prerequisite: MATH 131 or equivalent.

MATH 190

Workshop in Mathematics I

2 Semester Hours

Study skills, analytical and problem solving skills, technical writing, recent fields of study and advances in mathematics, mathematical career opportunities.

MATH 191

Workshop in Mathematics II

2 Semester Hours

A continuation of MATH 190.

MATH 198**Special Studies***1-4 Semester Hours***MATH 199****Independent Studies***1-4 Semester Hours***MATH 234****Calculus III***4 Semester Hours*

Partial derivatives, multiple integrals, three-dimensional space, vectors in two- and three- dimensional space, line integrals, Green's theorem.

Prerequisite: MATH 132 or equivalent.

MATH 245**Ordinary Differential Equations***3 Semester Hours*

Differential equations as mathematical models, analytical, qualitative, and numerical approaches to differential equations and systems of differential equations, and Laplace transform techniques.

Prerequisite: MATH 132 or equivalent.

MATH 248**Introduction to Methods of Proof***3 Semester Hours*

Number theory, sets, functions, equivalence relations, cardinality, methods of proof, induction, contradiction, contraposition. Student portfolios will be collected.

Prerequisite: MATH 132 or equivalent.

MATH 250**Linear Algebra***3 Semester Hours*

Systems of linear equations, Gauss and Gauss-Jordan elimination, matrices and matrix algebra, determinants. Linear transformations of Euclidean space. General vector spaces, linear independence, inner product spaces, orthogonality. Eigenvalues and eigenvectors, diagonalization. General linear transformations.

Prerequisite: MATH 234 or 248 or consent of instructor.

MATH 261**Mathematics: Contributions by Women***3 Semester Hours*

A study of the biographies and mathematics of women mathematicians from the 1st through the 20th centuries. Topics include prime numbers, conic sections, cycloid curve, functions, sequences, series, polyhedra, and group theory.

Prerequisite: MATH 101 or higher, or placement into MATH 106 or higher.

MATH 264**Cryptography through the Ages***3 Semester Hours*

A study of mathematical systems used for enciphering and deciphering information and the context in which these systems arose.

Prerequisite: MATH 101 or higher, or placement into MATH 106 or higher.

MATH 282**Elementary Numerical Methods***3 Semester Hours*

Computer solutions of applied mathematical problems using a procedural programming language and a computer algebra system. Nonlinear equations, differentiation, integration.

Prerequisite: MATH 131 or equivalent.

MATH 293**Mathematics Teaching Field Experience***0 Semester Hours*

Planned observation, instruction or tutoring experiences appropriate for future secondary or middle school mathematics teachers; related professional reading and reflections.

MATH 298**Special Studies***1-4 Semester Hours***MATH 299****Independent Studies***1-4 Semester Hours***MATH 301****Mathematical Ideas for Future Teachers I***3 Semester Hours*

A selection of topics from number theory, algebra, game theory, probability, and statistics of interest to future teachers. The emphasis is on deepening students' understanding of the methods and philosophy of mathematics. Students will actively engage in exploring mathematics through student investigations and presentations.

Prerequisites: MATH 107 and MATH 111 or 112 or 120 or 122 or 131.

MATH 302**Mathematical Ideas for Future Teachers II***3 Semester Hours*

A selection of topics from geometry and topology of interest to future teachers. The emphasis is on deepening students' understanding of the methods and philosophy of mathematics. Students will actively engage in exploring mathematics through student investigations and presentations.

Prerequisites: MATH 107 and MATH 111 or 112 or 120 or 122 or 131.

MATH 321**Real Variables I***3 Semester Hours*

The real number system, least upper bound, sequences, Cauchy sequences, functions, limits of functions, continuity, derivatives, and Riemann integration.

Prerequisite: MATH 248.

MATH 322**Real Variables II***3 Semester Hours*

Infinite series, uniform convergence, power series, and improper integrals.

Prerequisite: MATH 321.

MATH 331**Elements of Group Theory***3 Semester Hours*

Group theory. Binary operations, subgroups, cyclic groups, factor groups, isomorphism, homomorphism, and Cayley's theorem.

Prerequisite: MATH 248.

MATH 332**Elements of the Theory of Rings and Fields***3 Semester Hours*

Rings, integral domains, fields, ideals, factor rings, polynomial rings, and unique factorization domains.

Prerequisite: MATH 331.

MATH 350**Advanced Linear Algebra***3 Semester Hours*

Vector spaces over an arbitrary field, dual spaces, Cayley-Hamilton theorem, invariant subspaces, canonical forms for matrices, inner product spaces over \mathbb{C} , the spectral theorem.

Prerequisites: MATH 248 and 250.

MATH 355**Methods of Applied Mathematics***3 Semester Hours*

Series solutions and special functions. Orthogonal functions and Fourier series, partial differential equations and boundary-value problems.

Prerequisites: MATH 234 and 245.

MATH 357**Complex Variables***3 Semester Hours*

Complex variables; analytic functions, Laurent expansions and residues; evaluation of real integrals by residues; integral transforms.

Prerequisite: MATH 234.

MATH 360**Introduction to Probability and Statistics***3 Semester Hours*

Descriptive statistics, probability, discrete and continuous random variables, limit theorems, sampling distributions, estimations of parameters, nonparametric methods, hypothesis testing, linear regression.

Prerequisite: MATH 123 or 132.

MATH 366**Discrete Methods***3 Semester Hours*

An introduction to graph theory; trees; coloring; Eulerian circuits. Combinatorics; permutations and combinations; recurrence relations.

Prerequisite: MATH 248.

MATH 388**Survey of Biomathematics***3 Semester Hours*

Introduction to the application of mathematical tools and techniques in biology. Application areas range from gene regulatory networks to physiological systems to ecology and environmental biology. Mathematical methods include deterministic and probabilistic approaches to modeling dynamical systems, development, analysis, and simulation of model equations, and problems of fitting models to data.

Prerequisites: BIOL 101 and MATH 123 or 132.

MATH 393**Mathematics Internship***1-3 Semester Hours*

Internship conducted in an industrial, business, government, or educational setting involving applied mathematical work or teaching. This will involve a research project (or paper) coordinated jointly with an on-site supervisor and a Department faculty member.

Enrollment is subject to available opportunities and approval of the Department Chairperson.

MATH 397**Putnam Competition Preparation***0-1 Semester Hours*

A study of problem-solving techniques and skills to prepare students to participate in the William Lowell Putnam Mathematical Competition, a prestigious national exam. The course may be repeated for credit. Grading is Credit/No Credit. The course may not be used to satisfy any of the requirements of the mathematics major or minor.

Consent of instructor required.

MATH 398**Special Studies***1-4 Semester Hours***MATH 399****Independent Studies***1-4 Semester Hours***MATH 471****Topology***3 Semester Hours*

An introduction to metric and topological spaces; continuity and homeomorphism; separation properties; connectivity and compactness; examples and applications.

Prerequisite: MATH 321.

MATH 473**Differential Geometry***3 Semester Hours*

Curves, parametrizations, and arc length; surfaces, differential functions, and the first fundamental form (area); the Gauss map; isometries, Gauss' Theorema Egregium, geodesics, and the Gauss-Bonnet theorem.

Prerequisites: MATH 234 and 250.

MATH 490

History of Mathematics

3 Semester Hours

The development of mathematics from historical and cultural viewpoints including both European and non-European roots of mathematics as well as contributions by women.

Prerequisite: MATH 248.

MATH 491

Senior Mathematics Seminar

3 Semester Hours

Topics in mathematics chosen by the instructor. Written and oral presentations are required.

MATH 493

Senior Seminar for Future Mathematics Educators

3 Semester Hours

Topics in high school mathematics are examined from an advanced standpoint by developing and exploring extensions and generalizations of typical high school problems, by making explicit connections between these problems and upper division mathematics courses, and by providing historical context. Current issues in secondary mathematics education will be investigated. Written and oral presentations are required.

Senior standing or consent of instructor required.

MATH 495

Mathematical Modeling

3 Semester Hours

Introduction to various modeling techniques, design and implementation of algorithms, organization and presentation of results, introduction to problem solving using computer algebra systems. Written and oral presentations are required.

Senior standing or consent of instructor required.

MATH 497

Senior Thesis

3 Semester Hours

This course is intended to provide the student with an opportunity to complete a substantive research project under the guidance of a faculty member. The student will prepare a written report and an oral presentation on the project at the end of the semester.

Senior standing and the consent of both the Chairperson and a faculty thesis advisor required.

MATH 498

Special Studies

1-3 Semester Hours

MATH 499

Independent Studies

1-3 Semester Hours

MATH 511

Mathematics and Gender Equality

3 Semester Hours

Historical and current gender issues in mathematics examined through 1) the lives and mathematical work of women mathematicians from the 4th to the 21st centuries and 2) equity issues in K-12 mathematics education and math-related careers. Mathematical topics include prime numbers, conic sections, functions, sequences and series, polyhedra and group theory.

Prerequisites: MATH 107 and MATH 111 or 112 or 120 or 122 or 131 or consent of instructor.

MATH 550

Fundamental Concepts of Geometry

3 Semester Hours

Euclidean and non-Euclidean planar geometries, axiomatic systems, synthetic and analytic representations, relationships with algebra, and selected topics and applications.

Prerequisites: MATH 248 and 250.

MATH 560

Advanced Topics in Probability and/or Statistics

3 Semester Hours

Material to be covered will be determined by the instructor. Consult with the instructor for the specific topics in probability and statistics that will be covered in any given semester.

Prerequisites: MATH 234 and 360.

MATH 561

Computational Methods in Linear Algebra

3 Semester Hours

Numerical solutions of linear systems of equations, Gauss elimination and iterative methods, eigenvalues and eigenvectors.

Prerequisites: CMSI 185 or ENGR 160 or MATH 282, and MATH 250 or consent of instructor.

MATH 562

Numerical Analysis

3 Semester Hours

Numerical solutions of non-linear equations, interpolation, numerical differentiation, integration, and solution of differential equations.

Prerequisites: CMSI 185 or ENGR 160 or MATH 282, and MATH 245 or consent of instructor.

MATH 568

Mathematical Methods of Operations Research

3 Semester Hours

Linear and dynamic programming, network analysis, inventory control.

Prerequisite: MATH 360.

MATH 590

History of Mathematics for Secondary Teachers

3 Semester Hours

The development of mathematics from historical and cultural viewpoints, including both European and non-European roots of mathematics as well

as contributions by women. Course content will be connected to the secondary classroom.

Prerequisite: MATH 248.

MATH 598

Special Studies

1-3 Semester Hours

MATH 599

Independent Studies

1-3 Semester Hours

MATH 695

MAT Final Project

0 Semester Hours

The student will prepare and submit a proposal for a substantive project to the MAT Director, who will submit it to the Education Liaison Committee, complete the proposal as approved by the Education Liaison Committee under the guidance of a faculty member, prepare a written report, and give an oral presentation on the project.

Mechanical Engineering

MECH 211

Computer Aided Design

3 Semester Hours

Introduction to computer aided design (CAD) techniques and applications to design, analysis, and manufacturing problems. Topics include parametric solid modeling of parts and assemblies, design optimization, two-dimensional drawings, geometric dimensioning and tolerancing, and rapid prototyping of assemblies. Students work in teams for their final project and presentation and use SolidWorks as the primary design and analysis software package.

Lecture/Laboratory, 2 hours.

MECH 212

Mechanics of Materials

3 Semester Hours

Development of relationships between loads applied to an elastic body to stresses and deformations produced in the body, the relation between stresses and strains, approaches for finding necessary dimensions of a member with respect to material capabilities and design constraints.

Lecture, 3 hours.

Prerequisite: ENGR 200.

MECH 213

Dynamics

3 Semester Hours

Kinematics and kinetics of particles and rigid bodies, Newton's Laws, application of principles of work and energy, impulse and momentum, introduction to vibrations.

Lecture, 3 hours.

Prerequisites: ENGR 200 and MATH 132.

MECH 223

Thermodynamics

3 Semester Hours

The fundamental concepts of classical thermodynamics including properties, work and heat; first and second laws; entropy; irreversible processes; and thermodynamic analysis of power cycles and refrigeration cycles.

Lecture, 3 hours.

Prerequisite: MATH 132.

MECH 260

Nanotechnology

3 Semester Hours

An introduction to the nanotechnology language, relationship between the macroscopic, microscopic, and nanoscopic worlds, and exploring the social and ethical implications. Applications will be covered in biology, medicine, computers, and electronics.

Lecture, 3 hours.

Prerequisite: MATH 101 or higher, or placement into MATH 106 or higher.

MECH 261

The Revolution of Bio-tools

3 Semester Hours

This course will use the modern tools of biotechnology to address contemporary issues in health, aging, medicine, the environment, and social choices. Students will be introduced to several situations involving bioethics and social values. Articles, text reading, and discussions will be given in such topics as inherited traits, DNA identification, CSI forensics, gene technology, mutations, medical diagnostics, cloning, stem cells, energy, pollution, bacteria, viruses, vaccines, diseases, genetic engineering, and case studies.

Lecture, 3 hours.

For non-majors only.

Prerequisite: MATH 101 or higher, or placement into MATH 106 or higher.

MECH 262

Information Technology

3 Semester Hours

An introduction to communication systems and data processing. Such topics will include the electromagnetic spectrum, analog/digital transmission, Internet, computers, telephones, cell phones, radio, television, micro/nanoelectronics, the history of modern information technology, and the social/ethical consequences.

Lecture, 3 hours.

For non-majors only.

Prerequisite: MATH 101 or higher, or placement into MATH 106 or higher.

MECH 270

Materials

3 Semester Hours

Introduction to the chemistry and physics of different materials. Types of materials (metals, ceramics, polymers, and composites) and the relation between their structure and properties. Selection of materials in different applications.

Lecture, 3 hours.

Prerequisite: MATH 101 or higher, or placement into MATH 106 or higher.

MECH 277

Systems of Energy Conversions

3 Semester Hours

Introduction to the engineering disciplines and the fundamentals of energy conversions for non-engineering majors. Topics will include: introduction to different engineering disciplines, defining important parameters used in engineering, engineering components, engineering systems, energy conversion devices and demonstration of engineering laboratories and equipment.

Lecture, 3 hours.

For non-majors only.

Prerequisite: MATH 101 or higher, or placement into MATH 106 or higher.

MECH 298

Special Studies

1-3 Semester Hours

MECH 299

Independent Studies

1-3 Semester Hours

MECH 301

Measurements and Controls

3 Semester Hours

An introductory course into the design, analysis, and control of experimental measurements. Different measurement techniques are analyzed for: strain, pressure, temperature, and velocity. Statistical techniques such as least-squares regression, statistical confidence and error analysis are covered. The dynamic response of control systems using Laplace transforms and control methods are also covered.

Lecture, 3 hours.

Prerequisite: MATH 245.

MECH 302

Thermo, Fluids, and Materials Laboratory

2 Semester Hours

Students, working in teams, implement experimental projects in the disciplines of material science, mechanics of materials, fluid mechanics, and thermodynamics. Lab safety, instrumentation, test planning, data analysis, and report writing are emphasized.

Lecture/Laboratory, 2 hours.

Prerequisite: MECH 223.

Corequisite: MECH 313.

MECH 303

Energy and Mechanics Laboratory

2 Semester Hours

Students, working in teams, implement experimental projects in the disciplines of energy conversion, solid mechanics, and dynamics. Lab

safety, instrumentation, test planning, data analysis, and report writing are emphasized.

Lecture/Laboratory, 2 hours.

Prerequisites: MECH 212 and 223.

MECH 310

Elements of Design

3 Semester Hours

Design methodologies; static and fatigue failure prevention; the design and selection of various machine elements (gears, bearings, seals, hardware, etc.); design of subsystems and assemblies using the rules of datum features; two-dimensional drawings; geometric dimensioning and tolerancing. Design for manufacturing, assembly, serviceability, and the environment. Design intent documentation and comprehensive design projects.

Lecture, 3 hours.

Prerequisites: MECH 211, 212, and 213.

MECH 313

Materials Science

3 Semester Hours

A study of metallic, polymeric, and ceramic materials, emphasizing dependence of mechanical and electrical properties on solid-state bonding forces and micro-structure. Introductory design considerations.

Lecture, 3 hours.

Prerequisites: CHEM 111 and 114.

Corequisite: MECH 302.

MECH 321

Energy Systems

3 Semester Hours

The fundamentals on conventional and renewable energy resources including the basics of conventional energy conversion. Additional topics will include the environmental impacts of energy consumption and economic considerations such as: levelized cost of energy, payback period, and incentives.

Lecture, 3 hours.

Prerequisite: MECH 223.

MECH 322

Fluid Mechanics

3 Semester Hours

Properties of fluids, fluid statics, kinematics, energy, hydrodynamics, momentum and dynamic forces, steady flow of compressible and incompressible fluids.

Lecture, 3 hours.

Prerequisite: MATH 245.

MECH 323

Heat Transfer

3 Semester Hours

The fundamentals of conduction, convection, and radiation heat transfer. Thermal analysis and design of components and devices. Numerical analysis of heat conduction problem.

Lecture, 3 hours.

Prerequisites: ENGR 160 and MECH 223.

MECH 398

Special Studies

1-3 Semester Hours

MECH 399

Independent Studies

1-3 Semester Hours

MECH 401

Practicum 1

3 Semester Hours

An integrated, team-based senior capstone design project that utilizes knowledge learned from the Mechanical Engineering undergraduate curriculum. Implementation of the design process in order to meet realistic constraints for a given project. Preliminary research, project planning, computer aided design (CAD), and analysis of system components and subsystems. Design project reviews and development of design intent documentation and two-dimensional drawings.

Lecture/Laboratory, 3 hours.

Senior standing required.

MECH 402

Practicum 2

3 Semester Hours

Continuation of the integrated senior capstone design project. Fabrication and experimental testing of the system components and subsystems that were designed during the initial project phases. Development and completion of an experimental testing procedure. Final student project presentations and reports.

Lecture/Laboratory, 3 hours.

Senior standing required.

Prerequisite: MECH 401.

MECH 410

Design and Manufacturing Laboratory

2 Semester Hours

Common design testing procedures and various manufacturing operations. Design for machining, dimensional accuracy and geometric dimensioning and tolerancing. Computer numerically controlled (CNC) machining. Fatigue testing, design of weldments, fastener selection, design of experiments, and robotic programming.

Lecture/Laboratory, 2 hours.

Prerequisite: MECH 310.

MECH 411

Entrepreneurial Product Design

3 Semester Hours

Student-conceived and/or corporate-sponsored team projects leading to a final prototype and business plan of a new product. Concept generation, team dynamics, customer needs analysis, product function, risk, decision theory, prototyping, manufacturing planning, specifications, and cost analysis. Cross-listed with the College of Business Administration to

include entrepreneurship, marketing, and financial considerations when developing the design and business plan. Final oral presentation in front of a panel of industry experts in engineering and business.

Lecture/Laboratory, 3 hours.

Senior standing required.

MECH 423

Thermal Systems Engineering

3 Semester Hours

Selected topics from thermodynamics, fluid mechanics, and heat transfer to include: review of fundamental concepts; boundary layer theory; isentropic flow through nozzles; shock waves; exergy analysis; gas mixtures; heat exchangers and design.

Lecture, 3 hours.

Prerequisites: MECH 223, 322, 323.

MECH 493

Mechanical Engineering Internship

1-3 Semester Hours

Engineering analysis, testing, design, and/or production work conducted by the student in an industrial setting. The work will be supervised jointly by an engineer with the industrial firm and by an LMU Mechanical Engineering faculty member. The project must be approved by the Department.

MECH 498

Special Studies

1-3 Semester Hours

MECH 499

Independent Studies

1-3 Semester Hours

MECH 500

Quality

3 Semester Hours

History and philosophy of quality; concurrent engineering; design and optimization of both product and process, optimization of matrix organizations; continuous improvement; spontaneous suggestions, PDCA cycle, brainstorming, re-engineering; Deming's profound knowledge and 14 points, Quantitative Methods; charts, Andon, Design of Experiments (optimization of processes, robustness, full factorials, fractional factorials, folding, Plackett-Burnam, introduction to nonlinear designs), Statistical Process Control; Quality systems; ISO 9001:2000, ISO 14001, CMMI, Malcolm Baldrige, TQM Self-Assessment Tool.

Lecture, 3 hours.

MECH 510

Computer-Aided Manufacturing

3 Semester Hours

A comprehensive study of manufacturing with a focus on automation, flexible automation, group technology, process planning, and design for manufacturability. Principles and applications of computer numerical control (CNC) and NC programming, rapid prototyping, robotics, and investment casting are introduced through lecture and laboratory work.

Lecture/Laboratory, 3 hours.

Senior or graduate standing required.

MECH 511

Materials Selection in Design

3 Semester Hours

Application of principles of materials engineering to selection of materials for optimized engineering design, case studies in failure analysis.

Lecture, 3 hours.

Senior or graduate standing required.

MECH 512

Advanced Mechanics of Materials

3 Semester Hours

Combined loading, curved bars, energy methods, buckling and elastic stability; inelastic and plastic deformations; and use of computational finite element analysis (FEA) software.

Lecture, 3 hours.

Senior or graduate standing required.

MECH 513

Metallurgical and Materials Engineering

3 Semester Hours

Advanced topics in the relationship of the microstructure and processing of metallic, ceramic, and polymeric materials and their relation to the properties required in engineering design. Phase transformations in ferrous and non-ferrous materials.

Lecture/Laboratory, 3 hours.

Senior or graduate standing required.

Prerequisite: MECH 313.

MECH 514

Modern Methods in Materials Science

3 Semester Hours

Modern methods of understanding and characterizing the structures of current industrial materials. A range of topics will be discussed, such as electron microscopy, atomic force microscopy, quantitative stereology, quantum mechanics, band structure of solids, diffusion processing, semiconductor devices, microelectromechanical systems (MEMS), mechanical defects in solids (point, line, and planar), quantitative methods in metals, ceramics, and composites.

Lecture/Laboratory, 3 hours.

Senior or graduate standing required.

Prerequisite: MECH 313.

MECH 515

Composites

3 Semester Hours

Forms and properties of resins, fibers and composites; material and structural design and analysis; manufacturing, machining and assembly; quality assurance and testing; metal and ceramic based materials; information resources.

Lecture, 3 hours.

Senior or graduate standing required.

MECH 516

Finite Elements Methods

3 Semester Hours

Introduction to the theory and application of finite element methods. Review of the fundamentals of analytical models, elasticity, and structural mechanics. Review of matrix theory and calculation of variations. General process for the development of a finite element solution. Derivations of basic elements, including those for trusses, plane stress and plane strain, beams, plates, and solids. Discussion of the issues of conformity and completeness. Higher order interpolation functions and isoparametric elements. Solutions and applications to problems in structural mechanics, heat transfer, structural dynamics, and elastic stability. Practical examples.

Lecture, 3 hours.

Senior or graduate standing required.

MECH 517

Fracture Mechanics

3 Semester Hours

Introduction to concepts of fracture mechanics of engineering materials. These include stress analysis of cracks, fracture toughness, transition temperature, micro-structural aspects, and fatigue crack propagation behavior.

Lecture, 3 hours.

Senior or graduate standing required.

MECH 518

Shock and Vibration Engineering

3 Semester Hours

Harmonic Motion; phasors; vibration terminology; energy basics; single degree-of-freedom systems (free and forced undamped and damped vibration, free and forced transient vibration); Laplace transform; response spectrum; two-degree-of-freedom systems; frequency response; absorbers; normal modes; coordinate coupling; orthogonality; Lagrange's equation; continuous systems (longitudinal and torsional vibration of a rod), approximate and exact solution; wave propagation.

Lecture, 3 hours.

Senior or graduate standing required.

Prerequisites: CIVL 200 or MECH 212, and MATH 245.

MECH 520

Computational Fluid Dynamics

3 Semester Hours

In-depth study of applied computational methods for solving problems involving fluid and heat transport. Course will include both commercially available codes as well as self-generated solving routines. Topics include: numerical solutions to PDEs, steady flow solutions, unsteady flow solutions, flows involving heat transfer.

Lecture, 3 hours.

Senior or graduate standing required.

Prerequisite: CIVL 310 or MECH 322.

MECH 521

Alternative Energy Systems

3 Semester Hours

A detailed study of alternative energy technologies including: solar thermal, solar photovoltaic, wind, fuel cells, and geothermal systems will be covered. In-depth analysis of the technical aspects of these systems will be covered while considering economic and environmental constraints. Energy storage and grid integration will also be considered.

Lecture, 3 hours.

Senior or graduate standing required.

MECH 531

Design of Tribological Systems

3 Semester Hours

Design of systems involving components that undergo surface contact and relative motion. Analytical, computational methods, and experimental techniques used to understand the friction, wear, and lubrication of such systems. Conventional methods used to investigate surface friction and wear and how to minimize their effects.

Lecture/Laboratory, 3 hours.

Senior or graduate standing required.

MECH 532

Robotics

3 Semester Hours

This is a fundamental interdisciplinary robotics course containing both introductory as well as more advanced concepts. The course presents a broad overview of technology, kinematics and control, vision systems, robot languages and programming, applications, economics and social issues. A FANUC CERT LR Mate 200i robot will be used for lecture and class projects.

Lecture/Laboratory, 3 hours.

Senior or graduate standing required.

MECH 538

Structural Dynamics

3 Semester Hours

Beam vibration; boundary conditions; modes; approximate and exact solutions; general matrix formulations and interrelationships; decoupling by transformation to modal coordinates; free and forced response; experimental approaches; modal truncation; mode acceleration method; component mode synthesis; formulation of large-order system responses (time and frequency domain); load transform matrices; introduction to finite elements.

Lecture, 3 hours.

Senior or graduate standing required.

MECH 542

Turbomachinery

3 Semester Hours

Compressor, pump, fan selection and applied theory.

Lecture, 3 hours.

Senior or graduate standing required.

MECH 543

Propulsion

3 Semester Hours

This course combines fundamental fluid mechanical and thermodynamic concepts to characterize the components, operation, and performance

of internal combustion propulsion devices for aircraft and space vehicles. A practical approach to understanding these devices is also given, supplementing and enhancing the analytical application. The fundamentals of alternative, advanced airbreathing and space propulsion concepts are also introduced.

Lecture, 3 hours.

Senior or graduate standing required.

MECH 551

Sustainable Design

3 Semester Hours

This course focuses on design for the environment (DFE) principles and methods to create sustainable products. The major themes include: design for environmental processing and manufacturing; design for environmental packaging; and design for disposal and reuse. Includes life cycle assessment (LCA) software tools, case studies, and design projects.

Lecture, 3 hours.

Senior or graduate standing required.

MECH 552

Systems Engineering

3 Semester Hours

Fundamentals of modern Systems Engineering throughout the program lifecycle; focus on mission success, system, and system-of-systems; broad integrative adoptable and flexible thinking; initiation of an SE activity, feasibility studies, mission engineering, pre-proposal and proposal activities; risk in performance, cost, schedule, and deployment aspects of a project; requirement definition and development, system design, interface and configuration control, and verification/validation; introduction to critical aspects of the DoD, NASA, and INCOSE guides on SE; class projects in Integrated Product Development Teams.

(See SELP 552.)

MECH 594

Project Management

3 Semester Hours

Aspects of management and leadership of complex technical endeavors: project management principles and interaction of the manager with the team; architecting teams and organizational structures; planning a project and managing financial, schedule, and technical challenges and constraints during its lifecycle; tools for planning, controlling, and monitoring a project; subcontract management, configuration management; federal acquisition process lifecycle; Microsoft project.

(See SELP 594.)

MECH 598

Special Studies

1-3 Semester Hours

MECH 599

Independent Studies

1-3 Semester Hours

Senior or graduate standing required.

MECH 611

Advanced Elements of Design

3 Semester Hours

Fundamentals of designing machine, sheet metal, and plastic parts and deciding which type of part should be used for a given application. Design of subsystems and assemblies using the rules of datum features, design intent, and geometric dimensioning and tolerancing. Design for manufacturing, assembly, serviceability, and the environment. Hands-on design projects.

Lecture/Laboratory, 3 hours.

Graduate standing required.

MECH 612

Rapid Prototyping

3 Semester Hours

The course provides students with an opportunity to conceive, design, and implement a product using rapid prototyping technologies and computer-aided tools. Topics such as principles of rapid prototyping, rapid prototyping materials, reverse engineering, rapid tooling, medical applications, industry perspectives, and current research and developments will be introduced to students through lecture and laboratory works. Two rapid prototyping machines (FDM 1650 and Z Corporation's Z510) will be used for lecture and class projects.

Lecture/Laboratory, 3 hours.

Graduate standing required.

MECH 620

Nanotechnology Engineering Topics

3 Semester Hours

Exploration of technical topics in nanotechnology to prepare the students to better understand engineering research in nanotechnology. Topics such as nano-physics, quantum mechanics, nano-fluidics, nano-heat transfer, nano materials and tools of nanotechnology will be covered. Applications in engineering and bioengineering will be emphasized.

Lecture, 3 hours.

Graduate standing required.

MECH 621

Solar Thermal Energy Systems

3 Semester Hours

In-depth study of solar thermal energy systems. Flat plate collectors, concentrating collectors, hybrid PV/thermal collectors, solar powered heating and cooling.

Lecture, 3 hours.

Graduate standing required.

Prerequisite: MECH 323 or equivalent.

MECH 623

Advanced Thermodynamics

3 Semester Hours

Review of advanced topics in classical thermodynamics; topics from statistical thermodynamics including: kinetic theory of gases, distribution of molecular velocity, transport phenomena, quantum mechanics, Bose-Einstein quantum statistics, Fermi-Dirac quantum statistics, and thermodynamics properties.

Lecture, 3 hours.

Graduate standing required.

MECH 631

Elasticity

3 Semester Hours

Analysis of stress and strain, stress tensor, Mohr's circles for stress and strain, Hooke's law and stress-strain diagrams, equations of equilibrium and compatibility, two-dimensional plane problems in elasticity, Airy stress functions, failure criteria, stresses in thin-walled cylinders and spheres, stress concentration factors, stresses in thick-walled cylinders and disks, energy methods. A brief introduction to the mathematics of vector calculus and indicial notation.

Lecture, 3 hours.

Graduate standing required.

MECH 634

Fatigue

3 Semester Hours

A study of metal fatigue in engineering describing macro/micro aspects, stress life approach, cycling deformation and strain-life approach, as well as the applications of linear elastic fracture mechanics approach to fatigue crack growth.

Lecture, 3 hours.

Graduate standing required.

MECH 638

Random Vibrations

3 Semester Hours

Classification and description of random data (stationarity, ergodicity, cross-correlation, cross spectra); stationary random process theory (one or two variables, Gaussian distribution, correlation, spectral density); linear input-output relations (single and multiple inputs, ordinary, multiple and partial coherence); statistical error in random data analysis; bias; digital signal processing (FFT, spectra, coherence, aliasing, windowing, averaging); nonstationary data; specifications for testing for structural and equipment survival.

Lecture, 3 hours.

Graduate standing required.

MECH 643

Advanced Heat Transfer

3 Semester Hours

Review of the modes of heat transfer and conservation principles. Topics include: two- and three-dimensional conduction; numerical methods; differential equations of laminar boundary layers; momentum transfer and heat transfer for laminar flow inside tubes; momentum transfer and heat transfer for external boundary layers; differential equations of turbulent boundary layers; experimental techniques.

Lecture, 3 hours.

Graduate standing required.

MECH 651

New Product Design and Development

3 Semester Hours

Student-conceived and/or corporate-sponsored team projects leading to a final prototype and business plan of a new product. Concept generation, team dynamics, customer needs analysis, product function, risk, decision theory, prototyping, manufacturing planning, specifications, quality function deployment, and cost analysis. Cross-listed with the business school to include entrepreneurship, marketing, and financial

considerations when developing the design and business plan. Final oral presentation in front of a panel of industry experts in engineering and business.

Lecture/Laboratory, 3 hours.

Graduate standing required.

MECH 660

Lean Methods

3 Semester Hours

History of Lean: JIT, Toyota Production System, Womack, Lean Aerospace Initiative, Lean Enterprise book, Five Principles of Lean; Value Stream Mapping, Lean Manufacturing with detailed coverage of JIT Tools; Lean Enterprise; stakeholders, waste, multiple value streams, LESAT, Transitioning to Lean Enterprise, Lean Enterprise Model, Labor relations and NUMMI Case Study; layoffs; Lean Product Development: definitions, waste, principles, systems engineering, concurrency, matrix organization optimization; design takt time, scheduling and assessing progress, acquisition reform, Skunk Works; Lean Suppliers Network; Keiretsu, Quality, JIT and the right price; Theory of constraints and critical chain; optional field trip, simulations, Project.

MECH 663

Convective Heat Transfer

3 Semester Hours

Review of modes of heat transfer and conservation principles; topics include: differential equations of laminar boundary layer, momentum transfer and heat transfer for laminar flow inside tubes, momentum transfer and heat transfer for external boundary layer; differential equation of turbulent boundary layer; experimental techniques and research.

MECH 686

Master's Thesis

3-6 Semester Hours

The student electing the thesis option must obtain a thesis advisor before Departmental consent will be considered. Formal requirements may be obtained from the Department.

Graduate standing and consent of the Department and project advisor required.

MECH 698

Special Studies

1-3 Semester Hours

MECH 699

Independent Studies

1-3 Semester Hours

Natural Science

NTLS 101

Introduction to Environmental Science

3 Semester Hours

Introduction to the study of environmental science. Examination of issues and problems associated with the environment including examples from air, water, and soil pollution and some remediation strategies.

Lecture, 3 hours.

NTLS 150

Human Anatomy and Physiology

3 Semester Hours

The development, structure, and function of the human body with emphasis on integration and homeostasis.

Lecture, 3 hours.

For Psychology majors.

NTLS 151

Human Anatomy and Physiology I

3 Semester Hours

Comprehensive coverage of anatomy and physiology for the pre-health professions major. Topics include homeostasis and integumentary, skeletal, muscular, nervous, and endocrine systems.

Lecture, 3 hours.

NTLS 152

Human Anatomy and Physiology I Lab

1 Semester Hour

Companion lab course to NTLS 151.

Laboratory, 4 hours.

Prerequisite: NTLS 151 or concurrent enrollment.

NTLS 153

Human Anatomy and Physiology II

3 Semester Hours

Continuation of comprehensive coverage of anatomy and physiology for the pre-health professions major. Topics include blood, cardiovascular, lymphatic, immune, respiratory, digestive, urinary, and reproductive systems.

Lecture, 3 hours.

NTLS 154

Human Anatomy and Physiology II Lab

1 Semester Hour

Companion lab course to NTLS 153.

Laboratory, 4 hours.

Prerequisite: NTLS 153 or concurrent enrollment.

NTLS 160

Principles of Athletic Training

3 Semester Hours

Provides knowledge in prevention, care and treatment practices relating to activities and the physical conditioning of the physically active. Serves as an introduction to pathology, signs and symptoms recognition and management procedures of common injuries.

Lecture, 3 hours.

NTLS 162

First Aid and Emergency Response

2 Semester Hours

An advanced first aid course addressing responses to life-threatening emergencies. Injuries examined include those to the head, spine, and abdominal/thorax, while illnesses discussed include heat illness, shock, asthma, and diabetes. CPR and first aid certificate granted upon successful completion.

Lecture, 2 hours.

NTLS 190

Exploring the Natural Sciences

1 Semester Hour

Introduction to the areas of study and career opportunities within the natural sciences.

Frank R. Seaver College of Science and Engineering majors only.

NTLS 198

Special Studies

0-4 Semester Hours

NTLS 199

Independent Studies

1-4 Semester Hours

NTLS 250

Earth Science

3 Semester Hours

Students will learn about the earth's internal and external structure and the different types of materials that make up the planet. Students will study the various processes that are acting to alter and change the minerals and rocks within the earth and the geomorphic processes such as weathering, erosion, and deposition that are acting at the surface. Students will also learn about natural/environmental hazards, the importance of various natural mineral resources, and the history of the earth and its life forms.

Lecture, 3 hours.

NTLS 255

Nutrition

3 Semester Hours

The study of nutrients and their functions, recommended nutrient intakes, and dietary adequacy while focusing on how to apply this knowledge personally. Emphasis on nutritional roles in health status and chronic disease. Exploration of how behavior change plays a role in nutrition and a healthy lifestyle.

Lecture, 3 hours.

NTLS 263

Surfin' Science

3 Semester Hours

Various basic principles of oceanography, meteorology, and marine biology are explored as applied to the art of surfing. Topics include the genesis, propagation, and dynamics of waves; marine weather systems and surf prediction; marine organisms; and marine pollution issues of concern to surfers.

Lecture, 3 hours.

Prerequisite: MATH 101 or higher, or placement into MATH 106 or higher.

NTLS 265

Women in Science and Mathematics: Breaking the Stereotype

3 Semester Hours

A study of the work of prominent women scientists and mathematicians. The course will also examine their lives and how they succeeded in traditionally male disciplines.

Lecture, 3 hours.

Prerequisite: MATH 101 or higher, or placement into MATH 106 or higher.

NTLS 267

The Science and Life of Galileo

3 Semester Hours

A study of the scientific works of Galileo and how they influenced changes in our world view during the 17th century.

Lecture, 3 hours.

Prerequisite: MATH 101 or higher, or placement into MATH 106 or higher.

NTLS 270

Experimenting in Science I

4 Semester Hours

Combination lecture and laboratory course designed to acquaint student with how science is done. Emphasis on active learning strategies such as performing experiments, demonstrations, group discussions. The study of general science principles, such as those typically introduced in K-8 education, in the areas of physical and earth science.

Lecture, 3 hours; Laboratory, 2 hours.

Liberal Studies majors only.

Prerequisite: MATH 101 or higher, or placement into MATH 106 or higher.

NTLS 271

Experimenting in Science II

4 Semester Hours

Combination lecture and laboratory course designed to acquaint student with how science is done. Emphasis on active learning strategies such as performing experiments, demonstrations, group discussions. The study of general science principles, such as those typically introduced in K-8 education, in the areas of earth science and life science.

Lecture, 3 hours; Laboratory, 2 hours.

Liberal Studies majors only.

Prerequisite: MATH 101 or higher, or placement into MATH 106 or higher.

NTLS 275

The Automobile and the Environment

3 Semester Hours

The study of geologic processes in mineral formation, world-wide distribution, and commercial value to human societies.

Lecture, 3 hours.

Prerequisite: MATH 101 or higher, or placement into MATH 106 or higher.

NTLS 276**Atmospheric Science***3 Semester Hours*

The study of general phenomena of weather; including storms, atmospheric disturbances, and possible effects of pollution. This course involves weather forecasting using real-time meteorological data.

Lecture, 3 hours.

Prerequisite: MATH 101 or higher, or placement into MATH 106 or higher.

NTLS 279**Principles of Environmental Sustainability***3 Semester Hours*

This course explores the reality that the most difficult and enduring challenges are not merely technical but also social and institutional. An introduction to the basic science behind key environmental issues is provided along with tools for analyzing the social and institutional underpinnings of environmental conflict, and strategies to move towards sustainability.

Lecture, 3 hours.

Prerequisite: MATH 101 or higher, or placement into MATH 106 or higher.

NTLS 298**Special Studies***1-4 Semester Hours***NTLS 299****Independent Studies***1-4 Semester Hours***NTLS 301****Environmental Science***3 Semester Hours*

Study of environmental science problems stressing an interdisciplinary approach. Analysis of problem and formulation of remediation strategies considering appropriate principles from biology, chemistry, physics, earth science, and engineering.

Lecture, 3 hours.

Prerequisites: BIOL 101, 102; CHEM 110, 112; or NTLS 101.

NTLS 302**Environmental Science Lab I***1 Semester Hour*

Use of standard tests in environmental science to determine chemical and biological species of interest in air, water, and soil systems.

Laboratory, 4 hours.

Prerequisites: MATH 104; NTLS 301 or concurrent enrollment.

NTLS 310**Oceanography***3 Semester Hours*

The basic concepts of physical and biological oceanography will be presented.

Lecture, 3 hours.

Prerequisites: BIOL 101, 102, 111, 112; CHEM 110, 111, 112, 113.

NTLS 320**Science, Theology, and the Future***3 Semester Hours*

A look at scientific discoveries, advances, and knowledge will be presented. The implications of the findings in science on theological questions and our worldview will be explored.

Lecture, 3 hours.

Prerequisites: BIOL 101, 102, 111, 112; CHEM 110, 111, 112, 113.

NTLS 330**Environmental Chemistry***3 Semester Hours*

A study of environmental chemistry. Topics include stratospheric chemistry, the chemistry of ground-level air and air pollution, toxic organic chemicals, the chemistry of natural waters, soil chemistry and heavy metals, energy production and the environment.

Lecture, 3 hours.

Prerequisites: CHEM 112 and 113.

NTLS 332**Environmental Science Lab II***1 Semester Hour*

Use of standard methods of analysis to determine pollutants found in air, water, and soil systems. Emphasis will be on the use of instrumental methods and techniques.

Laboratory, 4 hours.

Prerequisites: BIOL 101, 102; CHEM 110, 112; MATH 104.

NTLS 355**Exercise Physiology***3 Semester Hours*

In-depth exploration of the acute and chronic changes to physiology that occur with exercise. Focus on the cardiovascular, respiratory, muscular, and endocrinology systems including the study of metabolism and fuel sources.

Lecture, 3 hours.

Prerequisites: NTLS 153 and 154.

NTLS 356**Exercise Physiology Lab***1 Semester Hour*

Measurement of the physiological mechanisms responsible for adaptations to acute and chronic exercise. Develop fitness assessment techniques and their applications to health and exercise performance. Gain hands-on experience with equipment/instrumentation.

Laboratory, 3 hours.

Prerequisite: NTLS 355 or concurrent enrollment.

NTLS 360**Upper Extremity Evaluation***3 Semester Hours*

In-depth instruction on anatomy and functional abilities of the upper extremity. Emphasis on the assessment techniques for recognizing and evaluating athletic-related injuries. Additional concentration on the cervical region and postural issues of the spine will be addressed.

Lecture, 3 hours.

Prerequisites: NTLS 151 and 152 or concurrent enrollment.

NTLS 362**Lower Extremity Evaluation***3 Semester Hours*

In-depth instruction on anatomy and functional abilities of the lower extremity. Emphasis on the assessment techniques for recognizing and evaluating athletic-related injuries. Additional concentration on the thoracic, lumbar, and sacral regions of the spine and gait analysis will be addressed.

Lecture, 3 hours.

Prerequisites: NTLS 153 and 154 or concurrent enrollment; NTLS 360.

NTLS 365**Scientific Principles of Strength and Conditioning***3 Semester Hours*

Introduction to the science and physiology behind strength training and conditioning. Oftentimes the strength and conditioning issues are misunderstood due to common popular myths. Sound scientific principles will be used to dispel such ideas. A variety of strength training and conditioning topics will be covered in order to prepare a student who is interested in becoming a Certified Strength and Conditioning Specialist (CSCS) or a Certified Personal Trainer (CPT) through the National Strength and Conditioning Association (NSCA).

Lecture, 3 hours.

NTLS 367**The Science and Life of Galileo***3 Semester Hours*

A study of the scientific works of Galileo and how they influenced changes in our worldview during the 17th century.

Lecture, 3 hours.

Prerequisite: MATH 101 or higher, or placement into MATH 106 or higher.

NTLS 368**Athletic Training Practicum I***1 Semester Hour*

Supervised experience in an athletic training environment. Additional study required with an emphasis on taping/bracing and athletic injury management. The affiliated clinical rotation occurs in the LMU Athletic Training Room.

Formal acceptance in the ATEP required.

Prerequisite: NTLS 160.

NTLS 369**Athletic Training Practicum II***2 Semester Hours*

Supervised experience in an athletic training environment. Additional study required with an emphasis on upper extremity evaluation. The affiliated clinical rotation occurs at any of the following sites: LMU, local high school, or junior college athletic training facility.

Formal acceptance in the ATEP required.

Prerequisites: NTLS 360 and 368.

NTLS 370**Workshop Biology: Life Works I***3 Semester Hours*

The course discusses science pedagogy and allows students to experience working with science content as teachers, before they enter the classroom. Students will complete at least twenty hours of observation in high school classrooms and will be teaching lessons that they develop.

Lecture, 3 hours.

NTLS 371**Workshop Biology: Life Works I Laboratory***1 Semester Hour*

The laboratory companion course for NTLS 370.

Laboratory, 3 hours.

Corequisite: NTLS 370.

NTLS 372**Workshop Biology: Life Works II***3 Semester Hours*

This is a community-based learning course that is project-based; students will create high school science curricula in collaboration with education staff at a local environmental non-profit and teachers from an area high school. Student background and interests, and the particular needs of the non-profit's education program and high school teachers, will play a significant role in defining each project.

Lecture, 3 hours.

Prerequisites: NTLS 370 and 371.

Corequisite: NTLS 373.

NTLS 373**Workshop Biology: Life Works II Laboratory***1 Semester Hours*

The laboratory companion course for NTLS 372.

Laboratory, 3 hours.

Corequisite: NTLS 372.

NTLS 376**Workshop Chemistry: The Elements of Nature I***3 Semester Hours*

The course discusses science pedagogy and allows students to experience working with science content as teachers, before they enter the classroom. Students will complete at least twenty hours of observation in high school classrooms and will be teaching lessons that they develop.

Lecture, 3 hours.

Corequisite: NTLS 377.

NTLS 377

Workshop Chemistry: The Elements of Nature I Laboratory

1 Semester Hour

The laboratory companion course for NTLS 376.

Laboratory, 3 hours.

Corequisite: NTLS 376.

NTLS 378

Workshop Chemistry: The Elements of Nature II

3 Semester Hours

This is a community-based learning course that is project-based; students will create high school science curricula in collaboration with education staff at a local environmental non-profit and teachers from an area high school. Student background and interests, and the particular needs of the non-profit's education program and high school teachers, will play a significant role in defining each project.

Lecture, 3 hours.

Prerequisites: NTLS 376 and 377.

Corequisite: NTLS 379.

NTLS 379

Workshop Chemistry: The Elements of Nature II Laboratory

1 Semester Hour

The laboratory companion course for NTLS 378.

Laboratory, 3 hours.

Corequisite: NTLS 378.

NTLS 397

Athletic Training Internship I

2 Semester Hours

Supervised experience in an athletic training environment. Additional study required, with an emphasis on therapeutic rehabilitation. The affiliated clinical rotation occurs at any of the following sites: LMU, local high school, college, or junior college athletic training facility.

Formal acceptance into the ATEP required.

Prerequisites: NTLS 462 and 478.

NTLS 398

Special Studies

1-4 Semester Hours

NTLS 399

Independent Studies

1-4 Semester Hours

NTLS 401

Senior Seminar/Project

3 Semester Hours

Research work on a project within the field of environmental science including presentation of a seminar over work.

Consent of instructor required.

NTLS 455

Advanced Nutrition

3 Semester Hours

In-depth study of carbohydrates, proteins, lipids, micronutrients, and weight management with application to normal nutrition and special emphasis on optimal health and performance. Evaluation and interpretation of latest nutrition research findings.

Lecture, 3 hours.

Prerequisite: NTLS 255.

Corequisite: NTLS 456.

NTLS 456

Advanced Nutrition Lab

1 Semester Hour

Learn biochemical tests used by dietitians to evaluate nutritional status. Analyze dietary records and generate meal plans, create research questions, test hypotheses, develop oral presentation skills, provide community education, design educational material, and critically analyze controversial topics.

Corequisite: NTLS 455.

NTLS 458

Psychobiology Research

3 Semester Hours

Students participate in on-going laboratory research on the psychobiology of learning and memory. Emphasis is on theoretical and methodological issues, research design, data collection, analysis, and interpretation.

Consent of instructor required.

Prerequisites: Grade of B (3.0) or higher in each: PSYC 241, 243, 261, 265. Grade of C (2.0) or higher in each: PSYC 401, 410, 415.

NTLS 460

Therapeutic Modalities in Sports Medicine

3 Semester Hours

Provides information regarding the physics and physiological effects of athletic training modalities. Gain understanding of the inflammatory process and pain management in relation to athletic injuries. Includes the physiological reactions, contraindications, and indications to such modalities as heat, cold, electricity, ultrasound, water, and massage. Instruction on proper use and application of specific modalities.

Lecture, 3 hours.

Prerequisites: NTLS 153 and 154.

NTLS 462

Therapeutic Rehabilitation in Sports Medicine

3 Semester Hours

Instruction on how to design, implement, and supervise rehabilitation programs for sports-related injuries and conditions. Theoretical and clinical bases for the use of therapeutic exercises, basic biomechanics, indications, contraindications, and proper application of exercises in therapeutic rehabilitation.

Lecture, 3 hours.

Prerequisites: NTLS 153 and 154.

NTLS 464**Administration in Sports Medicine***3 Semester Hours*

Addresses organization and administration of athletic training programs both in athletic training rooms and clinical sites. Areas such as building a facility, legal issues, staffing, budgeting, insurance, computer use, record keeping, emergency care planning, and public relations will be discussed.

Lecture, 3 hours.

NTLS 468**Athletic Training Practicum III***2 Semester Hours*

Supervised experience in an athletic training environment. Additional study required, with an emphasis on lower extremity evaluation. The affiliated clinical rotation occurs at any of the following sites: LMU, local high school, or junior college athletic training facility.

Formal acceptance into the ATEP required.

Prerequisites: NTLS 362 and 369.

NTLS 469**Senior Seminar in Athletic Training***1 Semester Hour*

Preparation for the National Athletic Trainers' Association Board of Certification Exam. Attention will be focused on a review of the NATA Athletic Training Educational Competencies. Pharmacological issues as they pertain to athletic performance will be addressed.

Prerequisite: NTLS 397.

Corequisite: NTLS 497.

NTLS 478**Athletic Training Practicum IV***2 Semester Hours*

Supervised experience in an athletic training environment. Additional study required, with an emphasis on therapeutic modalities. The affiliated clinical rotation occurs at a local physical therapy clinic.

Formal acceptance into the ATEP required.

Prerequisites: NTLS 460 and 468.

NTLS 480**Kinesiology***3 Semester Hours*

Study of the human body in motion. Topics include the application of principles of mechanics to anatomical systems; neuromuscular basis of movement; analysis of skills used in exercise science and by the physically active.

Lecture, 3 hours.

Prerequisites: NTLS 153 and 154.

NTLS 485**Biomechanics***3 Semester Hours*

An analytical approach to the mechanics of human motion. Kinetics and kinematics of human movement as it pertains to bone, joint cartilage,

and connective tissue will be discussed. Consideration towards the forces at major points of the human body and their relations to musculo-skeletal injuries.

Lecture, 3 hours.

Prerequisite: NTLS 480.

NTLS 488**General Medical Issues***2 Semester Hours*

This course is intended to introduce students to general medical topics and skills that relate to areas of study, including athletic training, physical therapy, occupational therapy, and other healthcare professions. Topics covered in this course will include clinical decision-making, major diseases of the body systems and differential diagnosis. Medical management will also be discussed for the various conditions and illnesses, allowing for athletic trainers/healthcare providers to gain awareness into their role into the treatment/management of the systemic disease and recognize how the treatment may impact participation in physical activity.

Lecture, 2 hours.

NTLS 490**Natural Science Teaching***0-2 Semester Hours*

Guided teaching of undergraduate laboratories.

May be repeated for credit.

Consent of instructor required.

NTLS 491**Science Education Internship***1-4 Semester Hours*

Work on a project in science education either in the elementary school or secondary school setting or at another appropriate location.

NTLS 493**Environmental Science Internship***1-4 Semester Hours*

Work experience in the field of environmental science in a research, industry, or municipal setting.

NTLS 495**Allied Health Internship***1-4 Semester Hours*

Work experience in physical therapy at a private facility, hospital, or athletic training facility.

NTLS 496**Occupational Therapy Internship***1-4 Semester Hours*

Work experience in occupational therapy at a private facility or hospital.

NTLS 497**Athletic Training Internship II***2 Semester Hours*

Supervised experience in an athletic training environment. Additional study required, with an emphasis on pharmacology and general medical conditions. The affiliated clinical rotation occurs at any of the following sites: LMU, local high school, or junior college athletic training facility.

Formal acceptance into the ATEP required.

Prerequisite: NTLS 397.

NTLS 498

Special Studies

1-4 Semester Hours

NTLS 499

Independent Studies

1-4 Semester Hours

NTLS 510

Chemistry for Environmental Engineers and Scientists

2 Semester Hours

Review of inorganic chemistry with particular emphasis on gas laws, chemical equilibrium, oxidation-reduction, thermodynamics, and chemical kinetics. An introduction to organic chemistry is presented.

Lecture, 2 hours.

Prerequisite: CHEM 110.

NTLS 512

Air Pollution Analysis

2 Semester Hours

Detailed analysis of emission sources, emission calculation methods, and air pollution controls. The dispersion of air pollutants in the atmosphere (fates and lifetimes, dispersion modeling methods). In-depth techniques of conducting risk assessments due to exposure to air pollutants.

NTLS 513

Solid Wastes Engineering

2 Semester Hours

An application of current technology in the control, disposal, and recovery of value from solid wastes.

NTLS 525

Inland Waters

2 Semester Hours

The structure and movement of water in lakes, rivers, and estuaries; cyclical and progressive changes of the physical, chemical, and biological composition of aquatic systems are discussed along with an explanation of lake remediation techniques.

Lecture, 2 hours.

NTLS 531

Principles of Water Quality

2 Semester Hours

Review of basic parameters used to describe water quality. Fundamentals of aquatic interaction in natural systems and fate of pollutants in the natural environments. Basic water and wastewater treatment systems.

Consent of Director required.

NTLS 534

Groundwater Management

2 Semester Hours

Management of groundwater basins for optimum yield, quality, and environmental consideration, artificial recharge, methods of exploration, groundwater models, water rights, and conjunctive use of surface and groundwater.

NTLS 548

Hazardous Substances Management

2 Semester Hours

The study of regulation and management strategies for environment programs (hazardous substances) including hazardous waste, asbestos, underground tanks, air pollution, and the California Environmental Quality Act.

NTLS 591

Science Education Internship

1-4 Semester Hours

Work on a project in science education either in the elementary school or secondary school setting or at another appropriate location.

NTLS 593

Environmental Science Internship Workshop

1-4 Semester Hours

Advanced work experience in the field of environmental science in a research, industry, or municipal setting.

NTLS 598

Special Studies

1-4 Semester Hours

NTLS 599

Independent Studies

1-4 Semester Hours

Physics

PHYS 100

Thinking in Science

3 Semester Hours

Enhancement of scientific reasoning. Topics include: identify and control of variables, deductive and inductive reasoning, proportional reasoning, analysis of scientific data, and problem solving.

Lecture, 2 hours; Laboratory, 2 hours.

PHYS 101

Introduction to Mechanics

4 Semester Hours

Vectors, Newton's laws of motion, work and energy, impulse and momentum, rotation, angular momentum, static equilibrium, harmonic motion. May include a brief introduction to quantum mechanics. Laboratory experiments pertaining to mechanics. Measurement, estimation, and uncertainty. Projectile motion, Newton's laws, friction, torque.

Lecture, 3 hours; Laboratory, 2 hours.

Prerequisite: MATH 131 or concurrent enrollment.

PHYS 195**Waves and Light***3 Semester Hours*

An interactive and experimental introduction to geometric optics with emphasis on applications to the modern world. Topics include: ray-tracing, reflection, refraction, thin lenses, polarization, interference, diffraction, thin films, wave-particle duality of light.

Lecture, 2 hours; Laboratory, 2 hours.

Frank R. Seaver College of Science and Engineering students only.

PHYS 198**Special Studies***1-4 Semester Hours***PHYS 199****Independent Studies***1-4 Semester Hours***PHYS 201****Introduction to Electricity and Magnetism***4 Semester Hours*

Electrostatics. Current, resistance, and D.C. circuits. Magnetism. Induced electromotive force. Electric and magnetic properties of matter. Maxwell's equations. Laboratory experiments pertaining to electricity and magnetism. Coulomb's Law, static electricity, electric field plotting, circuits, charge/mass ratio for electron.

Lecture, 3 hours; Laboratory, 2 hours.

Prerequisites: PHYS 101; MATH 132 or concurrent enrollment.

PHYS 206**Foundations of Modern Physics***4 Semester Hours*

An introduction to special relativity (SR), quantum mechanics (QM), and statistical thermodynamics (ST). Selected topics include (SR) frames of reference, Minkowski diagrams and spacetime structure, causality, Lorentz transformations, four-vectors and Lorentz invariants, relativistic conservation laws. (QM) failures of classical theory, wave-particle duality, models of the hydrogen atom, emission spectra, the Heisenberg uncertainty principle, wavefunctions and probability, the Schrodinger equation. (ST) Statistical interpretation of entropy, the Laws of Thermodynamics.

Lecture, 3 hours; Laboratory, 2 hours.

Prerequisites: PHYS 201 or 254; MATH 245 and 250 or concurrent enrollment.

PHYS 212**Intermediate Mechanics***3 Semester Hours*

Kinematics and dynamics of single and multiparticle systems. Rigid bodies. Accelerating coordinate systems. Continuous media. Small vibrations. Central force fields.

Lecture, 3 hours.

Prerequisites: PHYS 101; MATH 245 or concurrent enrollment.

PHYS 253**General Physics I***4 Semester Hours*

Vectors. Kinematics. Newton's laws of motion, energy, momentum, rotational motion, and harmonic motion. Fluid mechanics. Heat and thermodynamics. Laboratory experiments pertaining to mechanics, thermodynamics, and fluid mechanics.

Lecture, 3 hours; Laboratory, 2 hours.

Prerequisite: MATH 112 or 122 or 131 or concurrent enrollment.

NOTE: THE PHYS 253-254 series is suitable for biology and chemistry majors and others desiring a college-level experience in physics. This series is not acceptable for credit in the physics or engineering programs.

PHYS 254**General Physics II***4 Semester Hours*

Electrostatics. Magnetism. Current, D.C. circuits. Electromagnetic waves. Geometrical and wave optics. Relativity. Nuclear physics. Laboratory experiments pertaining to electricity, magnetism, and optics.

Lecture, 3 hours; Laboratory, 2 hours.

Prerequisite: PHYS 253.

PHYS 271**Astronomy***3 Semester Hours*

Understanding the universe. Topics include: history of astronomy, solar system, stars, galaxies, evolution of the universe.

Lecture, 3 hours.

Prerequisite: MATH 101 or higher, or placement into MATH 106 or higher.

PHYS 274**Weapons of Mass Destruction: Facts and Fiction***3 Semester Hours*

Scientific principles underlying weapons of mass destruction. Effects of nuclear and thermonuclear bombs, nerve agents, and biological pathogens.

Lecture, 3 hours.

Prerequisite: MATH 101 or higher, or placement into MATH 106 or higher.

PHYS 278**Great Ideas in Physics***3 Semester Hours*

Principles of physics with an emphasis on conceptual understanding. Physics as a human activity.

Lecture, 3 hours.

Prerequisite: MATH 101 or higher, or placement into MATH 106 or higher.

PHYS 298**Special Studies**

1-4 Semester Hours

PHYS 299

Independent Studies

1-4 Semester Hours

PHYS 301

Electromagnetic Fields

3 Semester Hours

Electric and magnetic fields. Dielectric materials. Poisson's equation. Boundary value problems. Field energy. Vector potential.

Lecture, 3 hours.

Prerequisites: PHYS 201, 206; MATH 355 or concurrent enrollment.

PHYS 302

Electromagnetic Waves

3 Semester Hours

Faraday's law. Maxwell's equations. Plane waves in dielectrics and conductors. Sources of radiation, Lienard-Wiechert potentials. Special Relativity.

Lecture, 3 hours.

Prerequisite: PHYS 301.

PHYS 321

Quantum Physics I

3 Semester Hours

Schrodinger equation and its solutions; potential wells, steps, and tunneling; the quantum harmonic oscillator; theory of angular momentum; spin; the hydrogen atom.

Lecture, 3 hours.

Prerequisites: PHYS 206; MATH 245, 250, or concurrent enrollment.

PHYS 322

Quantum Physics II

3 Semester Hours

Perturbation theory, scattering theory; the variational principle, the WKB approximation; topics in nuclear physics; selected applications of quantum theory to contemporary issues in physics.

Lecture, 3 hours.

Prerequisite: PHYS 321.

PHYS 351

Space Physics

3 Semester Hours

Introduction to Solar-Terrestrial physics. Physics of space plasmas and single fluid magnetohydrodynamics. Solar physics and the solar wind. Collisionless shocks. The magnetosphere. The ionosphere. The aurora. Geomagnetic storms. Pulsations and magnetohydrodynamic waves. Planetary magnetospheres.

Lecture, 3 hours.

Prerequisites: MATH 234 and PHYS 301.

PHYS 361

Astrophysics

3 Semester Hours

Orbital mechanics, the solar system, electromagnetic radiation and matter, stellar properties, Milky Way Galaxy, cosmology.

Lecture, 3 hours.

Prerequisites: PHYS 101, 201, and 206; or PHYS 253 and 254; MATH 123 or 132.

PHYS 371

Biophysics

3 Semester Hours

Application of physical laws to biological structure and function: biomechanics, circulatory system, hearing and vision, radiation.

Lecture, 3 hours.

Prerequisite: PHYS 201 or 254.

PHYS 398

Special Studies

1-4 Semester Hours

PHYS 399

Independent Studies

1-4 Semester Hours

PHYS 411

Modern Physics Lab

3 Semester Hours

Project experiments in physical optics, optical spectroscopy, and experiments using digital imaging arrays. Theoretical interpretation, statistical analysis, and communication of results are emphasized.

Lecture, 1 hour; Laboratory, 4 hours.

Prerequisite: PHYS 206 or 301 or 321 or concurrent enrollment.

PHYS 421

Solid State Physics

3 Semester Hours

Crystal structure, elastic properties of solids. Free electron Fermi gas. Energy band structure. Semiconductors, superconductivity. Topics in soft condensed matter.

Lecture, 3 hours.

Prerequisite: PHYS 301 or 321 or concurrent enrollment.

PHYS 441

Modern Optics

3 Semester Hours

Review of electromagnetic theory. Applied geometrical optics. Fourier analysis, polarization, interference and diffraction, coherence theory, lasers, and holography.

Lecture, 3 hours.

Prerequisite: PHYS 206 or concurrent enrollment.

PHYS 451**Thermodynamics and Statistical Mechanics***3 Semester Hours*

Classical thermodynamics, applications to simple systems. Kinetic theory and the approach to equilibrium. Classical statistical mechanics. Quantum statistics.

Lecture, 3 hours.

Prerequisite: PHYS 322 or concurrent enrollment.

PHYS 461**Elementary Particles***3 Semester Hours*

Historical introduction. Symmetries and conservation laws. Feynman diagrams and rules. Quantum electrodynamics. The parton model. Quantum chromodynamics. Weak interactions and electroweak unification. Gauge theories and the Standard Model.

Lecture, 3 hours.

Prerequisite: PHYS 322 or concurrent enrollment.

PHYS 471**Introduction to Relativity and Cosmology***3 Semester Hours*

Historical introduction. Review of Special Relativity. Differential geometry, tensor analysis and curvature. The Equivalence Principle and Einstein's field equations. The Schwarzschild solution and Black Holes. The standard model of Cosmology and Robertson-Walker metrics. The Friedmann equation and the cosmological constant. Red-shift and cosmological distance. Type Ia Supernovae as distance indicators. Inflation, Dark Matter, Dark Energy, and other problems of current cosmology. Alternative theories of gravity.

Lecture, 3 hours.

Prerequisite: PHYS 301, or 321 or 361 or concurrent enrollment.

PHYS 480**Capstone Experience***1 Semester Hour*

Preparation for life after graduation, including graduate school, work in industry, and teaching. Colloquia, journal reading, and seminars on topics in contemporary physics, scientific/proposal writing, and presentation skills.

Enrollment is limited to Physics/Engineering Physics seniors only.

PHYS 481**Senior Thesis***1 Semester Hour*

Independent research with a faculty member in his/her area of expertise; students must complete a written thesis and oral presentation.

Enrollment is limited to Physics/Engineering Physics seniors only.

Credit/No Credit grading.

PHYS 490**Physics Teaching***1-2 Semester Hours*

Guided teaching of introductory physics.

May be repeated for credit.

Requires consent of instructor.

PHYS 493**Physics/Engineering Physics Internship***1-3 Semester Hours*

Research/development work conducted in a local government or industrial laboratory. The project may be theoretical or experimental and is jointly supervised by on-site staff and LMU faculty.

PHYS 498**Special Studies***1-4 Semester Hours***PHYS 499****Independent Studies***0-4 Semester Hours***Systems Engineering Leadership****SELP 500****Quality***3 Semester Hours*

History and philosophy of quality, concurrent engineering: design and optimization of both product and process, optimization of matrix organizations; continuous improvement: spontaneous suggestions, PDCA cycle, Kaizen, Six Sigma, Theory of Constraint, benchmarking, brainstorming, re-engineering; Deming's profound knowledge and 14 points, Quantitative Methods; charts, Andon, Design of Experiments (optimization of processes, robustness, full factorials, fractional factorials, folding, Plackett-Burman, introduction to nonlinear designs), Statistical Process Control; Quality systems: ISO 9001:2000, ISO 14001, CMMI, Malcolm Baldrige, TQM Self-Assessment Tool.

(See MECH 500.)

SELP 530**Systems Architecting***3 Semester Hours*

Methodologies in systems architecture. Architecting hardware (aerospace examples), software and system-of-systems. Validation and verification on systems architecture to prevent flawed concepts. Design approaches, tools, and processes for net-centric systems.

Prerequisite: SELP 552.

SELP 540**Engineering Ethics***3 Semester Hours*

Ethical implications of engineers' work, both domestic and international. Introduction to ethical reasoning, liability, obligations and rights of engineers and managers, case studies, and current global issues. Course submittals will be used to develop student writing and communication skills. Writing assignments will be graded for 1) content and development, 2) organization and structure, 3) format, and 4) grammar, punctuation, and spelling.

SELP 552**Systems Engineering***3 Semester Hours*

Fundamentals of modern Systems Engineering throughout the program lifecycle; focus on mission success, system, and system-of-systems; broad integrative adoptable and flexible thinking; initiation of an SE activity, feasibility studies, mission engineering, pre-proposal and proposal activities; risk in performance, cost, schedule, and deployment aspects of a project; requirement definition and development, system design, interface and configuration control, and verification/validation; introduction to critical aspects of the DoD, NASA, and INCOSE guides on SE; class projects in Integrated Product Development Teams.

(See MECH 552.)

SELP 594

Project Management

3 Semester Hours

Aspects of management and leadership of complex technical endeavors. Project management principles and interaction of the manager with the team. Architecting teams and organizational structures. Planning a project and managing financial, schedule and technical challenges and constraints during its lifecycle. Tools for planning, controlling and monitoring a project. Subcontract management. Configuration management. Federal acquisition process lifecycle. Microsoft Project.

(See MECH 594.)

SELP 598

Special Studies

1-3 Semester Hours

SELP 599

Independent Studies

1-3 Semester Hours

SELP 650

Advanced Systems Engineering

3 Semester Hours

Application and management and monitoring of the SE process and logistics; leadership of integrated teams; management for uncertainty, decision making, risk and opportunity; design for X (manufacturing, assembly, testing, sustainability, maintainability, etc.); technology management and assessment; identifying options and bounding the trade space; software systems management; verification process; different roles of testing; modeling techniques and SE tools; design.

Prerequisite: SELP 552.

SELP 660

Lean Methods

3 Semester Hours

History of Lean: JIT, Toyota Production System, Womack, Lean Aerospace Initiative, Lean Enterprise book, Five Principles of Lean; Value Stream Mapping; Lean Manufacturing with detailed coverage of JIT Tools; Lean Enterprise: stakeholders, waste, multiple value streams, LESAT, Transitioning to Lean Enterprise, Lean Enterprise Model, Labor relations and NUMMI Case Study; layoffs; Lean Product Development: definitions, waste, principles, systems engineering, concurrency, matrix organization optimization; design takt time, scheduling and assessing progress, acquisition reform, Skunk Works; Lean Suppliers Network; Keiretsu, Quality, JIT and the right price; Theory of constraints and critical chain; optional field trip, simulations.

(See MECH 660).

SELP 671

Spacecraft Design

3 Semester Hours

Fundamental knowledge of spacecraft design: configuration, design and inter-dependencies of subsystems, launch vehicle, and trade-offs between performance, cost, and reliability. Students will be exposed to a wide range of considerations including design, manufacture, test and operation, cost, performance, manufacturability. At the end of this course, the student will have a fundamental understanding of the factors influencing spacecraft design and will be able to evaluate the impact of trade-offs between subsystem requirements on the performance and cost at the system level. The course will be fast-paced and include both individual and team projects.

Prerequisites: SELP 530 and 552.

SELP 673

New Product Design and Development

3 Semester Hours

Student conceived and/or corporate-sponsored team projects leading to a final prototype and business plan of a new product. Concept generation, team dynamics, customer needs analysis, product function, risk, decision theory, prototyping, manufacturing planning, specifications, quality function deployment, and cost analysis. Cross-listed with the business school to include entrepreneurship, marketing, and financial considerations when developing the design and business plan. Final oral presentation in front of a panel of industry experts in engineering and business.

SELP 675

Introduction to Modeling and Analysis

3 Semester Hours

This course emphasizes the development of analytic modeling skills, and the effective application of operations research methods in policy, management, and planning settings. An introduction to Model-based Systems engineering is included. A set of widely used models including linear programming, decision analysis, queuing, and forecasting is introduced. We explore how to effectively use these models, as well as their strengths and limitations in different problem and organizational contexts. The goal of this course is to teach system engineers, policy makers, and managers to gain analytical skills and apply them to complex problems. To this end, students will learn: 1) to structure problems so they can be effectively addressed, 2) to formulate models that are useful in different decision situations, 3) to use spreadsheet software to solve these models, and 4) to effectively present quantitative analysis to clients.

SELP 685

Systems Engineering Case Studies

3 Semester Hours

Case studies to examine notable successes and failures in major technology-driven government, commercial and defense programs where systems engineering played a significant role. Lessons learned and ethics. Students perform intensive reading of the cases and present them using the Harvard Law School model.

Prerequisites: SELP 552, 594, or MBAB 615; SELP 650.

SELP 694

Systems Engineering Seminar

3 Semester Hours

Invited guests present interesting and relevant programs with significant systems engineering component. Students present assigned topics on systems engineering.

Prerequisite: SELP 552.

SELP 695**Systems Engineering Integrative Project/Thesis**

3-6 Semester Hours

Capstone course in which students work to apply the principles of management and systems engineering to a complex technical endeavor. The products will be rationale for the selected project, a project proposal with timeline and plan, a preliminary requirements document, trade studies on the relevant issues, requirements verification plan, description of the ethical issues involved, and a detailed outline of the final report. A final written report and oral presentation are required.

Prerequisites: All SELP Core Courses; MBAI 610 for SELP students.

SELP 698**Special Studies**

1-3 Semester Hours

SELP 699**Independent Studies**

1-3 Semester Hours

Core MBA Courses**MBAA 601-609**

See MBA Core Curriculum.

Advanced MBA Courses

MBAB 615; one elective course selection from: MBAF 648; or MBAG 640, 641, 642, 649.

See MBA Advanced Curriculum.

SCHOOL OF EDUCATION COURSES

Clinical Education

EDCE 410

Elementary Directed Teaching

9-12 Semester Hours

Full-time supervised teaching in two culturally diverse public elementary schools; seminar sessions held throughout the semester, which include instruction in art, music, and physical education.

Offered on a Credit/No Credit basis only.

Admission by special approval.

EDCE 412

Secondary Directed Teaching

9-12 Semester Hours

Full-time supervised teaching in one culturally diverse public middle and/or high school; seminar sessions held throughout the semester support the student in successfully completing his or her teaching.

Offered on a Credit/No Credit basis only.

Special approval required.

EDCE 456

Directed Teaching with Culturally and Linguistically Diverse Students with Mild/Moderate Disabilities

9 Semester Hours

Actual teaching experience with culturally and linguistically diverse students with mild/moderate disabilities. Must have completed prerequisite and professional coursework in Special Education and be approved by the Coordinator of Fieldwork the semester prior to enrolling.

Credit/No Credit.

Special approval required.

EDCE 461

Teaching Performance Assessment 1

0 Semester Hours

Students enrolled in the course will complete Task 1 of the Teaching Performance Assessment.

Fee required.

Special approval required.

EDCE 462

Teaching Performance Assessment 2

0 Semester Hours

Students enrolled in the course will complete Task 2 of the Teaching Performance Assessment.

Fee required.

Special approval required.

EDCE 463

Teaching Performance Assessment 3

0 Semester Hours

Students enrolled in the course will complete Task 3 of the Teaching Performance Assessment.

Fee required.

Prerequisites: EDCE 461 and 462.

Concurrent enrollment with EDCE 410 or 412 required.

EDCE 464

Teaching Performance Assessment 4

0 Semester Hours

Students enrolled in the course will complete Task 4 of the Teaching Performance Assessment.

Fee required.

Prerequisites: EDCE 461 and 462.

Concurrent enrollment with EDCE 410 or 412 required.

Special approval required.

EDCE 5952**Teaching Performance Assessment Task 3, Assessing Learning***0 Semester Hours*

Students enrolled in this course will complete Task 3 of the Teaching Performance Assessment.

Fee required.

Credit/No Credit.

Special approval required.

Prerequisites: EDCE 5950 and 5951.

EDCE 5953**Teaching Performance Assessment Task 4, Culminating Teaching Experience***0 Semester Hours*

Students enrolled in this course will complete Task 4 of the Teaching Performance Assessment.

Fee required.

Credit/No Credit.

Special approval required.

Prerequisites: EDCE 5950, 5951, and 5952.

EDCE 5970**Fieldwork 1***1 Semester Hour*

This course is designed to enhance the field experiences of teacher practitioners/interns through reflective discussions that evolve around events in content classes and field experiences, supervised teaching, and collaboration between the candidates, university personnel, and the mentor teacher. The course is designed around the needs of the candidates.

Credit/No Credit.

Interns and Teacher Practitioners only.

Special approval required.

EDCE 5971**Fieldwork 2***1 Semester Hour*

This course is a continuation of Fieldwork 1.

Credit/No Credit.

Interns and Teacher Practitioners only.

Special approval required.

Prerequisite: EDCE 5970.

EDCE 5972**Fieldwork 3***1 Semester Hour*

This course is a continuation of Fieldwork 2.

Credit/No Credit.

Interns and Teacher Practitioners only.

Special approval required.

Prerequisites: EDCE 5970 and 5971.

EDCE 5973**Fieldwork 4***1 Semester Hour*

This course is a continuation of Fieldwork 3.

Credit/No Credit.

Interns and Teacher Practitioners only.

Special approval required.

Prerequisites: EDCE 5970, 5971, and 5972.

EDCE 5976**Elementary Directed Teaching***6-9 Semester Hours*

Full-time supervised teaching in two culturally diverse public elementary schools. Supervision by master teacher and university supervisor while working with individuals, small groups, and the entire class. Development of classroom management and teaching strategies that foster academic achievement in all content areas for all students. Attendance at weekly seminar is required.

Credit/No Credit.

Special approval required.

EDCE 5977**Secondary Directed Teaching***6-9 Semester Hours*

Full-time supervised teaching in one culturally diverse public middle or high school. Supervision by master teacher and university supervisor while working with individuals, small groups, and the entire class. Development of classroom management and teaching strategies that foster academic achievement in all content areas for all students. Attendance at weekly seminar is required.

Credit/No Credit.

Special approval required.

EDCE 5978**Directed Teaching with Students with Mild/Moderate Disabilities***3-9 Semester Hours*

Teaching experience with culturally and linguistically diverse students with Mild/Moderate disabilities. Seminar required.

Lab fee required.

Credit/No Credit.

Special approval required.

EDCE 5981**Special Education Fieldwork and Seminar 1***2 Semester Hours*

This course, offered in a seminar format, is designed to enhance the field experiences of teacher practitioners/interns through reflective discussions that evolve around events in content classes and field experiences, supervised teaching, and collaboration between the candidates, university personnel, and the mentor teacher. This course is designed around the needs of the candidates and meets on a weekly basis.

Credit/No Credit.

Interns and Teacher Practitioners only.

Special approval required.

EDCE 5982

Special Education Fieldwork and Seminar 2

1 Semester Hour

This course is a continuation of Fieldwork 1.

Credit/No Credit.

Interns and Teacher Practitioners only.

Special approval required.

Prerequisite: EDCE 5981.

EDCE 5983

Special Education Fieldwork and Seminar 3

1 Semester Hour

This course is a continuation of Fieldwork 2.

Credit/No Credit.

Interns and Teacher Practitioners only.

Special approval required.

Prerequisites: EDCE 5981 and 5982.

EDCE 5984

Special Education Fieldwork and Seminar 4

2 Semester Hours

This course is a continuation of Fieldwork 3, offered in a seminar format, is designed to enhance the field experiences of teacher practitioners/interns through reflective discussions that evolve around events in content classes and field experiences, supervised teaching, and collaboration between the candidates, university personnel, and the mentor teacher. The course is designed around the needs of the candidates and meets on a weekly basis.

Credit/No Credit.

Interns and Teacher Practitioners only.

Special approval required.

EDCE 6965

Action Research Fieldwork Support Course I

1 Semester Hour

This is a field experience course that supports a group of Professional 2042 Clear candidates within the following framework: the candidate will meet weekly with a University Support Provider who will guide the candidate through the individual induction plan process. This process includes individual assessment, observations, conversations, portfolio development and support in the areas designated by the individual induction plan. A small group will meet four times during the semester with the University Support Provider. These meetings are in addition to any feedback sessions that are held between the University Support Provider and candidate. The fifth year University Support Providers will be in contact with the professors who teach the integrated advanced course work to support the collaboration model. Candidates are required to demonstrate competency in the area of the California Standards for the Teacher Profession (CSTP) related to the integrated courses they are currently attending. In order for candidates to receive credit in this course, they must demonstrate competency in the CSTPs and Professional 2042 Clear standards through a portfolio presentation.

Credit/No Credit.

EDCE 6966

Action Research Fieldwork Support Course II

1 Semester Hour

This is the continuation of EDCE 6965, a course that supports a group of Professional 2042 Clear candidates within the following framework: the candidate will meet weekly with a University Support Provider who will guide the candidate through the individual induction plan process. This process includes individual assessment, observations, conversations, portfolio development and support in the areas designated by the individual induction plan. A small group will meet four times during the semester with the University Support Provider. These meetings are in addition to any feedback sessions that are held between the University Support Provider and candidate. The fifth year University Support Providers will be in contact with the professors who teach the integrated advanced course work to support the collaboration model. Candidates are required to demonstrate competency in the area of the California Standards for the Teacher Profession (CSTP) related to the integrated courses they are currently attending. In order for candidates to receive credit in this

course, they must demonstrate competency in the CSTPs and Professional 2042 Clear standards through a portfolio presentation.

Credit/No Credit.

Prerequisite: EDCE 6965.

EDCE 6995

Comprehensive Examination

0 Semester Hours

The Comprehensive Examination is usually taken during, or immediately following, the last semester of coursework completion. It may be a written and/or oral examination. Candidates should register for the specific section required for their program.

Fee required.

Credit/No Credit.

Special approval required.

EDCE 6998

Special Studies

1-3 Semester Hours

EDCE 6999

1-3 Semester Hours

Elementary and Secondary Education

EDES 401

Educational Psychology for the Childhood and Adolescent Years

3 Semester Hours

A study of the learning environment, the evaluation of learning, and the teaching/learning process. An analysis of the physical, intellectual, emotional, cultural, and ethnic factors affecting development, learning, and behavior. This course is a prerequisite for acceptance into the Multiple and Single Subject Credential Program. Emphasis is placed on implications for teaching and learning in the primary, elementary, middle, and senior high schools. Fieldwork is required.

Sophomore or higher standing required.

EDES 402

Teaching Reading in Today's Elementary Classrooms

3 Semester Hours

This course is designed to provide opportunities to prospective teachers to develop their understanding and ability to teach reading to all students in the elementary grades. Particular emphasis will be placed on strategies which will accommodate culturally and linguistically diverse learners. Consideration is given to the procedures, skills development, organizations, systems of instruction and instructional materials utilized in the development of an effective, balanced, and integrated approach to reading instruction in the elementary school that supports literacy development.

EDES 403

Reading and Content Learning in Middle and Secondary Schools

3 Semester Hours

This course is designed to provide opportunities for prospective teachers to develop understanding of the nature of the reading process in grades 7-12. Emphasis is placed on the role of subject-matter teachers in the

overall school reading program. Provides training in a variety of instructional methodologies including strategies designed for culturally and linguistically diverse learners.

Special approval required.

EDES 434

Elementary Curriculum and Methods

3 Semester Hours

Designed to provide opportunities for prospective teachers to develop professional knowledge and competence for teaching history/social science, mathematics, and science in kindergarten and grades 1 through 12, this course will deal with purpose, content, procedures and organization, and instruction in those curricular areas as prescribed by the California State adopted frameworks and academic content standards. This course focuses on instructional methods and classroom management for the elementary classroom. A fieldwork component will be required. Students should acquire skills in classroom discipline, creation of lesson plans, utilizing a variety of instructional and evaluation methods, and classroom teaching. Course shall include all state-mandated content areas including culturally and linguistically diverse teaching techniques/methods for history/social science, mathematics, and science.

Special approval required.

EDES 484

Methods in Teaching Secondary Languages Other Than English

3 Semester Hours

This class will address the communicative approach to instruction in languages other than English. Major themes to include: proficiency-based instruction, the competency-based classroom/curriculum, critical issues in the reception and the production stages of second language acquisition, strategies to support and achieve these goals.

Special approval required.

EDES 485

Methods in Teaching Secondary Social Studies

3 Semester Hours

This methodology course provides prospective secondary social studies teachers the opportunity to develop lesson plans and assessments incorporating state and national standards and pedagogically sound teaching methods. Drawing on social studies concepts, case studies, and cross-cultural activities will practice basic analysis skills in history and social studies. Students will develop classroom activities enhancing critical thinking and study skills, as well as interrelating ideas within and across history/social science and other subject areas. Emphasis will be placed on designing instructional activities to engage all learners.

Special approval required.

EDES 486

Methods in Teaching Secondary English

3 Semester Hours

This course addresses the concerns and needs of future English teachers. Major areas covered include developing a multicultural curriculum for all students, creating lesson plans, examining meaning making strategies for reading, instructing the writing process, teaching grammar in context, looking at methods of authentic classroom assessment, and building classroom portfolios.

Special approval required.

EDES 487

Methods in Teaching Secondary Science

3 Semester Hours

This course covers programs, guidelines, and practices in the individualization of instruction with emphasis on culturally and linguistically diverse student needs in relation to science and uses of technology; continuous progress curriculum in science; and uses of individualized science labs.

Special approval required.

EDES 488**Methods in Teaching Secondary Math***3 Semester Hours*

This course covers programs, guidelines, and practices in the individualization of instruction with emphasis on culturally and linguistically diverse student needs in relation to mathematics; uses of technology and continuous progress curriculum.

Special approval required.

EDES 498**Special Studies***1-3 Semester Hours***EDES 499****Independent Studies***1-3 Semester Hours***EDES 5001****Applied Educational Psychology for the Childhood and Adolescent Years***3 Semester Hours*

A study of the learning environment, the evaluation of learning and the teaching/learning process. An analysis of the physical, intellectual, emotional, cultural, and ethnic factors affecting development, learning, and behavior. This course is a prerequisite for acceptance into the Multiple Subject Credential Program. Emphasis is placed on implications for teaching and learning in the primary and elementary grades.

Fieldwork is required.

EDES 5251**Methods in Teaching Secondary Languages Other Than English***3 Semester Hours*

This class will address the communicative approach to language instruction. Major themes include: proficiency-based instruction; the competency-based classroom/curriculum; critical issues in the reception and the production stages of second language acquisition; strategies to support and achieve these goals.

Special approval required.

EDES 5252**Methods in Teaching Secondary Social Studies***3 Semester Hours*

This course is designed to provide opportunities for prospective teachers to observe, develop, and practice a variety of methods to create positive learning environments, effective discipline, and traditional and alternative assessments. Emphasis is placed on strategies to include and challenge students with widely ranging linguistic and academic abilities, diverse learning styles, and varying cultural backgrounds. Methods and content are closely tied to the California State Framework for grades 6-12.

Fieldwork is required.

Special approval required.

EDES 5253**Methods in Teaching Secondary English***3 Semester Hours*

This course addresses the concerns and needs of future English teachers. Major areas covered include developing a multicultural curriculum for all students, creating lesson plans, examining meaning, making strategies for reading, instructing the writing process, teaching grammar in context, looking at methods of authentic classroom assessment, and building classroom portfolios.

Fieldwork is required.

Special approval required.

EDES 5254**Methods in Teaching Secondary Science***3 Semester Hours*

This course covers programs, guidelines, and practices in the individualization of instruction with emphasis on culturally and linguistically diverse student needs in relation to teaching science; explores methods of long- and short-range planning, effective use of textbooks to design instruction and labs in both physical and life science, unit plans and lesson planning; assessment, and differentiated instruction to support student achievement of the California Science curriculum.

Fieldwork is required.

Special approval required.

EDES 5255**Methods in Teaching Secondary Math***3 Semester Hours*

This course covers programs, guidelines, and practices in the individualization of instruction with emphasis on culturally and linguistically diverse student needs in relation to mathematics; uses of technology; and continuous progress curriculum.

Fieldwork is required.

Special approval required.

EDES 5256**Methods in Teaching Secondary Art***3 Semester Hours*

This methodology seminar is designed to provide opportunities for prospective secondary art educators to critically examine the theoretical, historical, psychological, sociological, and practical applications of art education. Projects will involve the development, implementation, and assessment of a successful and socially responsible art education curriculum.

Fieldwork is required.

Special approval required.

EDES 5400**Developmental Theories***3 Semester Hours*

Students will critically analyze core theories regarding the historical and philosophical roots of developmental science. Students will also evaluate contemporary theories of child development. Students will connect research findings and empirical methods with theory and practice.

EDES 5401**Infancy***3 Semester Hours*

Theoretical frameworks and contemporary research that have advanced knowledge of infant and toddler development (prenatal-age 2 years) will be examined and analyzed. Students will be able to demonstrate knowledge of developmental milestones as they are manifested by infants and toddlers. Students will explore the environmental influences on development such as parenting, poverty, second language acquisition, disability, prejudice, and policy.

EDES 5402**Early Childhood***3 Semester Hours*

Theoretical frameworks and contemporary research that have advanced knowledge of the preschool period (ages 2-8 years) will be examined and analyzed. Students will be able to demonstrate knowledge of developmental milestones exhibited by preschoolers. Students will explore the environmental influences on development such as peer relationships, early childhood education experiences, parenting, socialization, poverty, second language acquisition, disability, prejudice, and policy. Research findings and methods will be utilized to study the transition to formal education and literacy development.

Observation is required.

EDES 5403**Cognition and Language***3 Semester Hours*

Students will analyze core cognitive theories in-depth, including an understanding of how these theories developed and related historical and contemporary research findings. Students will also examine core theoretical issues related to language and demonstrate knowledge of how the components of language are learned. Students will also be introduced to specific disorders and delays associated with cognition and language and gain knowledge in the identification and treatment for children with special needs. Additionally, students will examine the development of bilingual children and the needs of second language learners in education.

EDES 5404**Environmental Influences on Development***3 Semester Hours*

Students will analyze and interpret current social, cultural, institutional, and psychological factors that influence parents and children including: support systems, family structures, lifestyles, communication, attachment, personality, divorce, single parenting, socioeconomic status, prejudice and discrimination, public policies, physical and mental illness/disability, maltreatment, educational settings, and the media. Core developmental theories and related research findings will be analyzed and explored as they apply to today's world.

EDES 5405**Early Childhood Education Programs and Curriculum***3 Semester Hours*

Students will examine the history of early childhood education as well as contemporary program design and philosophy. An analysis of the impact of public policy in the United States on the ECE field will demonstrate the links between government and the family. Students will gain an understanding of implementing philosophy through environmental space planning, program policies, and curriculum design. Developmentally appropriate practice will be analyzed across all groups of children including those with special needs and second language learners. Students will be able to identify multicultural and anti-bias curriculum as well as advance their cultural competence.

Observation is required.

EDES 5406**Social and Emotional Development***3 Semester Hours*

Core theories of social and emotional development will be critically analyzed and applied in the contemporary world as well as recent research findings. Students will demonstrate knowledge in core components of social development including self-concept, identity, temperament, personality behavior, peer relationships, parent-child relationships, socialization, social competence, and environmental influences such as child-care, schools, communities, culture, and the media. Students will demonstrate knowledge in core components of emotional development including attachment, identification of feelings, emotional regulation, risk and resiliency.

Observation is required.

EDES 5407**Research Methods and Early Childhood Assessment***3 Semester Hours*

Students will gain knowledge in planning and conducting research as well as further advance their written communication skills. Students will critically evaluate published research. Students will use and apply various observation techniques such as narrative records, running records, time sampling, and event sampling to the understanding of child behavior and developmental processes. Students will demonstrate data analysis skills. Students will gain knowledge in the assessment of both typical and atypical development. Students will explore issues of professional ethics related to working with parents and teachers when special needs in children are identified and require intervention.

Observation is required.

EDES 5408**Early Childhood Education Program Administration***3 Semester Hours*

Students will examine in-depth and reflect on the administration skills and issues that they observe in their fieldwork. Effective communication strategies for the management of staff, teachers, and parents will be discussed. Additionally, students will learn about state licensing, accreditation, health and safety issues, environmental space planning, budgetary concerns such as purchasing, conflict resolution techniques, marketing and enrollment.

Fieldwork is required.

EDES 5964**Leadership and Clinical Practice***2 Semester Hours*

This course is designed to enhance the field experiences of teacher practitioners/interns through reflective discussions that evolve around events in content classes and field experiences, supervised teaching, and collaboration between the candidates and university personnel. The course is designed around the needs of the candidates.

Credit/No Credit.

Special approval required.

EDES 5998**Special Studies***1-3 Semester Hours*

EDES 5999**Independent Studies***1-3 Semester Hours***EDES 6080****Advance Course 1: Special Populations, English Language Learners, Health, and Technology***3 Semester Hours*

This course integrates the advanced study of health education and the teaching of students with exceptional needs. The study of health education, including the study of nutrition, cardiopulmonary resuscitation, and the physiological and sociological effects of abuse of alcohol, narcotics, and drugs and the use of tobacco will be addressed. Training in cardiopulmonary resuscitation also meets the standards established by the American Heart Association or the American Red Cross. This course includes the study of and field experience in methods of delivering appropriate educational services to pupils with exceptional needs in general education programs. Candidates will understand how to effectively put IDEA into practice within the context of an all-inclusive classroom. Effective communication between stakeholders to support students with exceptional needs in the classroom will be addressed.

EDES 6081**Advance Course 2: Special Populations, English Language Learners, Health, and Technology***3 Semester Hours*

This course integrates the advanced study of technology and the teaching of English Language Learners (ELL). This course is designed to build upon beginning teachers' expertise in equitable assessment and instruction for ELL students through and with equitable uses of technology. Utilizing a sociocultural and additive approach, the course addresses standards-informed instruction for ELL students from beginning to advanced levels of English development. Particular focus is given to oral language and literacy development across content areas, analysis of teacher instructional practices, and family literacy. This course includes the study of and field experience in methods and strategies of integrating technology into the curriculum to support all students. Candidates will explore a variety of electronic communication tools for use within the classroom as well as to expand the network of professional educators. Candidates will address the areas of information literacy, the digital divide, and using technology to create life-long learners.

EDES 6200**Elementary School Curriculum and Methods***3 Semester Hours*

This course focuses on instructional methods for mathematics, science, and social studies for the culturally diverse elementary classroom. Students will acquire skills in the creation of lesson plans utilizing a variety of instructional and evaluation methods, and classroom teaching. Course will include all state mandated content areas.

Lab fee required.

Fieldwork is required.

Admission to program required.

EDES 6202**Teaching Reading for Today's Learners***3 Semester Hours*

This course considers linguistic, physiological, psychological and cultural concerns covering appraisal of literacy needs, premises and goals of reading instruction, and approaches, methods, processes, and techniques for teaching reading skills in grades K-12. This course prepares candidates for the RICA.

Fieldwork is required.

EDES 6203**Reading and Content Learning in Middle and Secondary Schools***3 Semester Hours*

This course is designed to develop an understanding of the nature of reading and how it impacts content area learning. The course provides training in a variety of instructional methodologies including strategies designed for culturally and linguistically diverse students.

Fieldwork required.

Admission to program required.

EDES 6254**Reading Development and Instruction***3 Semester Hours*

Scientifically based practices in reading are addressed in this class, which is designed specifically for candidates in the M.A. in Reading Instruction program. This course considers linguistic, physiological, psychological, and cultural concerns covering appraisal of literacy needs, premises and goals of reading instruction, as well as approaches, methods, processes, and techniques for teaching reading skills in grades Pre-K-12.

EDES 6345**Literacy Fieldwork***1-3 Semester Hours*

Supervised fieldwork experiences will focus on the direct application of classroom knowledge and training. Candidates will demonstrate their knowledge and skills in the area of literacy and will include reflective discussions focusing on the lessons observed.

Credit/No Credit.

Special approval required.

EDES 6349**Assessment of Reading Performance***3 Semester Hours*

Principles of assessment, evaluation, and prognostic procedures in reading; use of effective formal and informal assessments and evaluation instruments for all students. Communication of assessment results to stakeholders; alignment of assessment with instructional programs.

Consent of Program Director required.

EDES 6350**Linguistics and Reading***3 Semester Hours*

An in-depth study of the interrelationship between language and schooling. Classroom based analysis of contexts of language variation and usage is emphasized, with a focus on language testing, the teaching of phonology, vocabulary and grammar, and discourse analysis.

EDES 6351**Assessment of Reading Performance***3 Semester Hours*

Principles of assessment, evaluation, and prognostic procedures in reading. Use of effective formal and informal assessments and evaluation instruments for all students. Communication of assessments results to stakeholders; alignment of assessment with instructional programs.

Consent of Program Director required.

EDES 6352

Seminar: The Reading Professional

3 Semester Hours

A comprehensive study of current research on literacy processes and the philosophies of instruction in reading. Various instructional approaches and programs will be evaluated through the lens of a literacy professional.

EDES 6353

Technology and Reading

3 Semester Hours

This course is designed to explore the impact that technology has on reading instruction. Through individual and group projects, using a variety of media, topics cover children and adolescent literature, current research, emerging trends, and practical classroom applications. Inquiry into topics such as: educational technology policies, both notationally and locally, the digital divide, gender and ethnic bias, evaluation and appropriate use of educational technologies, and assistive technologies.

Consent of Program Director required.

EDES 6354

Reading Development and Instruction

3 Semester Hours

Scientifically based practices in reading are addressed in this class, which is designed specifically for candidates in the M.A. in Reading Instruction program. This course considers linguistic, physiological, psychological, and cultural concerns covering appraisal of literacy needs, premises and goals of reading instruction, as well as approaches, methods, processes, and techniques for teaching reading skills in grades P-12.

EDES 6355

Introduction to Reading Difficulties

3 Semester Hours

Theoretical and practical considerations of the causes of difficulties in the reading skills of elementary and secondary students; methods and materials best suited for correcting reading intervention and techniques for promoting better reading habits.

Consent of Program Director required.

Prerequisite: EDES 6202 or 6354.

Corequisite: EDES 6356.

EDES 6356

Diagnosis and Intervention in Reading—Practicum I

3 Semester Hours

Practicum taken in conjunction with EDES 6355. Each student works with two struggling readers; learns diagnostic and prescriptive intervention techniques, administers diagnostic tests, screening tests of vision and hearing, and formulates case studies.

Consent of Program Director required.

Prerequisite: EDES 6202 or 6354.

Corequisite: EDES 6355.

EDES 6357

Diagnosis and Intervention in Reading—Practicum II

3 Semester Hours

In this advanced course for the Reading Specialist Credential, candidates will engage in a critical analysis of literary research that examines current models of the reading process and their influence on the curriculum, as well as instructional and assessment issues in reading.

Consent of Program Director required.

Prerequisite: EDES 6355 or 6356.

EDES 6358

Research and Trends in Reading Education

3 Semester Hours

This course is required for the Reading Specialist Credential and includes methods for diagnosing and providing appropriate and innovative intervention approaches for meeting the needs of students with severe reading difficulties. Candidates will gain knowledge and experience, practice skills acquired in course work, and demonstrate competency in the skills required by a Reading Specialist.

Consent of Program Director required.

Prerequisite: EDES 6355 or 6356.

EDES 6359

Field Experience—The Reading Professional

3 Semester Hours

The purpose of the fieldwork component for the Reading Specialist Credential is two-fold. First, it provides experience in the teaching of reading in grades P-12. Secondly, it provides opportunities for candidates to experience and participate in the variety of duties associated with a leadership position in a school and/or school district.

Consent of Program Director required.

Prerequisites: EDES 6357 and 6358.

EDES 6955

Master's Thesis I

1 Semester Hour

This course is intended for students working on a master's thesis. The committee chair provides ongoing support for the master's thesis.

Credit/No Credit.

Prerequisite: EDLA 6950.

EDES 6956

Master's Thesis II

1 Semester Hour

A continuation of Master's Thesis I for students who have not completed their master's thesis.

Credit/No Credit.

Special approval required.

EDES 6957

Master's Thesis III

1 Semester Hour

A continuation of Master's Thesis II for students who have not completed their master's thesis.

Credit/No Credit.

Special approval required.

EDES 6995**Comprehensive Examination***0 Semester Hours*

The Comprehensive Examination is usually taken during, or immediately following, the last semester of coursework completion. It may be a written and/or oral examination. Candidates should register for the specific section required for their program.

Fee required.

Credit/No Credit.

Special approval required.

EDES 6998**Special Studies***1-3 Semester Hours***EDES 6999****Independent Studies***1-3 Semester Hours***EDES 8000****Health Education***1 Semester Hour*

This course will introduce health concepts, skills, and behaviors important for today's students to make informed choices. Candidates will be able to gather, interpret, evaluate, and use health information and topics in their future activities as teachers. The course consists of four modules: 1) overview of the California health framework and consumer and community health resources; 2) personal health with a focus on nutrition and tobacco, drugs, and alcohol use; 3) health choices that impact communicable and chronic diseases; and 4) the role of environmental health with a focus on injury prevention and safety.

Fee required.

Credit/No Credit.

Educational Leadership**EDLA 489****Leadership Seminar I***1 Semester Hour*

This course is designed to develop student leaders' understanding of the basic concepts of personal and group leadership development. Participants will define an issue facing student leaders and identify a theoretical framework to address the issue. The class integrates readings, written reflection, in-class exercises, and a group project.

Permission of instructor and concurrent leadership position in a student organization required.

EDLA 490**Leadership Seminar II***1 Semester Hour*

This course develops student leaders' understanding of the basic concepts of personal and group leadership development. Participants will apply a theoretical framework to an issue facing student leaders, create an implementation plan, and develop an evaluation process. The class integrates readings, written reflection, in-class exercises, and a group project.

Permission of instructor and concurrent leadership position in a student organization required.

EDLA 491**Leadership Seminar III***1 Semester Hour*

A capstone leadership experience for advanced student leaders, this class combines readings, in-class activities, and experiential involvement as a peer educator with research and creation of a comprehensive leadership portfolio.

Permission of instructor and concurrent leadership position in a student organization required.

Prerequisite: EDLA 489 or 490.

EDLA 498**Special Studies***1-3 Semester Hours***EDLA 499****Independent Studies***1-3 Semester Hours***EDLA 5998****Special Studies***1-3 Semester Hours***EDLA 5999****Independent Studies***1-3 Semester Hours***EDLA 6105****Assessment and Research Methodology***3 Semester Hours*

Essential descriptive statistics; basic concepts of psychological and educational assessment. Overview of individual and group tests and inventories; test construction and evaluation; alternative assessment; and comprehensive testing programs. Preparation in designing and implementing a research study and competence in reviewing and using the professional literature.

EDLA 6400**Institutional Management***3 Semester Hours*

Students study how to plan, organize, implement, manage, facilitate, and evaluate the daily operations of schools. This management approach stresses systems models, needs assessment, management plans, administering contracts, technology use, management information systems, decision making processes, problem solving, decentralization, and accountability in a diverse cultural setting.

EDLA 6401**Organizational Theory and Practice***3 Semester Hours*

Administrators will focus on the context within which schooling takes place. They will explore theory and functions of human organizations in American society; structure and composition of groups in various organizational settings including school boards, parent, community, and staff

groups, and professional, state, and regional organizations; political and social forces that affect school practices; knowledge of state and local culture, ethnic, language, and socioeconomic diversity and diverse needs within the school organization; and parent involvement in planning and reaching educational objectives.

EDLA 6402

Management of Fiscal, Human, and Material Resources

3 Semester Hours

Administrators learn how to assess needs, garner and use appropriate resources to achieve student and school success. This course includes fiscal management, district-level funding and budgeting, personnel and other contractual obligations; problems affecting school finance on state and local levels; district business services organization and function; management of human and material resources, including effective staff utilization, credentialing law and assignment authorization; personnel policies; filling needs for staff and for buildings, equipment and supplies. Candidates explore the resources of cultural diversity and strategies for building effective learning communities.

EDLA 6403

Educational Leadership

3 Semester Hours

The focus of this course is on the educator as leader and change facilitator. Leadership theory, effective communication, effective group facilitation, community relations, and personnel functions are stressed. Candidates explore methods to articulate a vision consistent with well-developed educational philosophy and ways to lead and empower individuals and groups to accomplish common goals and objectives aimed at continuous methods of school improvement.

EDLA 6404

Advanced Educational Leadership

3 Semester Hours

This course in Advanced Educational Leadership builds upon the theories and practices addressed in the Preliminary Administrative Credential course and focuses on new models of leadership in specific contexts, including: leading groups in a variety of settings such as school boards, parent, community and staff groups, and regional and state groups; instructional leadership including human relationships and group dynamics; theories related to learning and instructional research; educational issues and trends; creating positive organizational cultures; dimensions of moral, ethical, and reflective leadership and practices; computer technology applicable to instructional practices; recognizing and responding to the cultural diversities in school communities; and evaluation related to student outcomes, curriculum effectiveness, and staff performance, and individual practice.

EDLA 6415

Professional Administrative Induction and Assessment Seminar

3 Semester Hours

The development and implementation of an individualized professional development plan involving the candidate, the employing school district, and the University. The plan includes the designation of a local mentor and the proposed district support available to the student. Also included are plans for completing academic coursework and professional growth opportunities to meet the candidate's needs and credential competencies in the non-University activities that are delivered by qualified individuals, supported by appropriate resources, and evaluated on an ongoing basis. The process of ongoing assessment, in cooperation with district, system, or agency designees and the University representative(s) determines the completion of the Induction Plan and appropriate documentation. A minimum of two years of successful administrative experience in a full-time administrative position in public school or private school of equivalent status, and evidence of effectiveness in administration is required. Comprehensive Assessment is to also include the determination of attainment of required competencies and the exit interview, in line with University and School standards of practice. This pro-

cess must be completed prior to recommendation for the Professional Administrative Services Credential (Tier II).

This course is taken on a Credit/No Credit basis.

EDLA 6420

An Invitation to Lead

1 Semester Hour

Administration candidates will participate in opportunities to establish rapport and community among LMU faculty and their Administration Leadership cohort: Charter, Public non-Charter and Catholic. This course will detail the Administrative Leadership Programs, with a focus on the candidates' call to leadership, their school vision, their attributes as a leader, and how "residency/fieldwork experience" will bridge the gap between theory and practice. There will be strong emphasis on cultural and linguistic diversity.

EDLA 6421

Vision of Learning for Diverse Students, Families, Staff, and Community and Residency/Fieldwork Component

4 Semester Hours

This course focuses on educators as leaders and change facilitators. Governmental, political, financial, legal, and historical perspectives of education in the United States will be studied. Leadership theory, effective communication, effective group facilitation, community relations, will be analyzed. Methods to articulate a vision consistent with well-developed educational philosophy will be explored. Candidates will participate in residency/fieldwork experiences designed to facilitate the application of theoretical concepts in practical setting. There will be a strong emphasis on cultural and linguistic diversity, special education and the successful development of English Language Learners, and the parent-school relationship.

Grade of B- or higher required.

Concurrent enrollment in EDLA 6422 required.

Prerequisite: EDLA 6420.

EDLA 6422

Responding to Diversity of Students, Families, Staff, and Community and Residency/Fieldwork Component

3 Semester Hours

This course provides candidates with a variety of opportunities to examine their own biases related to student diversity, explore ways in which to uncover the biases of others within the school community, and guide all stakeholders through collaborative dialog about important issues related to their own diverse, school community. Administration candidates will develop a repertoire of strategies used to guide all stakeholders in defining standards that promote a culture of high expectations for all students. The course will challenge candidates to design and facilitate professional development opportunities for both parents and teachers. Candidates will participate in residency/fieldwork experiences designed to facilitate the application of theoretical concepts in a practical setting. There will be a strong emphasis on cultural and linguistic diversity, special education and the successful development of English Language Learners, and the parent-school relationship.

Grade of B- or higher required.

Concurrent enrollment in EDLA 6421 required.

Prerequisite: EDLA 6420.

EDLA 6423

Student Learning and Professional Growth for Diverse Students, Families, Staff, and Community and Residency/Fieldwork Component

4 Semester Hours

This course assists candidates to understand the role that learning, leadership, leading for learning, and learning leaders play in the practice of being a reflective practitioner. Candidates will learn how to lead learning both directly and indirectly in their organization. This class provides candidates with a variety of opportunities to consider teaching the challenge of driving instruction through curriculum and professional teaching standards, observations, evaluations and interventions, accountability systems, professional development and data-driven decision making. Candidates will participate in residency/fieldwork experiences designed to facilitate the application of theoretical concepts in a practical setting. There will be a strong emphasis on cultural and linguistic diversity, special education and the successful development of English Language Learners, and the parent-school relationship.

Grade of B- or higher required.

Concurrent enrollment in EDLA 6423 required.

Prerequisites: EDLA 6421 and 6422.

EDLA 6424

Organizational Management for Student Learning

3 Semester Hours

A survey of strategies for creating a school culture in which children with disabilities are included, based on a variety of frames, including political, economic, and legal, to serve students, families, staff, and community. Candidates will participate in residency/fieldwork experiences designed to facilitate the application of theoretical concepts in a practical setting. There will be a strong emphasis on cultural and linguistic diversity, special education and the successful development of English Language Learners, and the parent-school relationship.

Grade of B- or higher required.

Concurrent enrollment in EDLA 6423 required.

Prerequisites: EDLA 6421 and EDLA 6422.

EDLA 6425

Transforming Organizations for Diverse Students, Families, Staff, and Community and Residency/Fieldwork Component

4 Semester Hours

Administrative candidates study how to plan, organize, implement, manage, facilitate, and evaluate the daily operations of schools. This management approach stresses systems models, needs assessment, management plans, administering contracts, technology use, management information systems, decision making processes, problem solving, decentralization, and accountability in a diverse cultural setting. Candidates will participate in residency/fieldwork experiences designed to facilitate the application of theoretical concepts in a practical setting. There will be a strong emphasis on cultural and linguistic diversity, special education and the successful development of English Language Learners, and the parent-school relationship.

Grade of B- or higher required.

Concurrent enrollment in EDLA 6995 is required.

Prerequisites: EDLA 6423 and EDLA 6424.

EDLA 6427

Advocacy

3 Semester Hours

This hands-on leadership course examines the school leaders, as advocate, as his/her comprehensive duty to ensure school/district compliance with CA Education Code and local, state, and federal mandates so to make certain success for *all* students. Important legal and ethical issues will be explored via a case study approach; enhancing the candidate's analytical and problem-solving skills. The course will represent a microcosm of the opportunities, challenges and issues which school

leaders encounter. Additional focus will be placed on compliance with special education and disability rights law, with an emphasis on cultural competency, English language learners, and non-traditional learning environments, i.e., charter schools.

EDLA 6428

Business of Education

3 Semester Hours

This course focuses on providing education leaders with knowledge of concepts and current practices in the management of business functions in schools. Course will emphasize practical issues related to budgeting and finance, operations, and human resource development. Candidates will learn to filter business management decisions and practices through the lens of learning and achieving equity for students.

EDLA 6429

Specializing in Charter Schools

3 Semester Hours

This course will provide an overview of management for running effective charter schools. Course will emphasize the unique aspects of charters as public schools that possess a substantial amount of autonomy in exchange for high levels of public accountability. Candidates will learn how effective practices in budgeting and finance, operations, human resource development, facilities management, governance, and fundraising contribute to high levels of student achievement in charter schools.

EDLA 6430

Mission-Focused Leadership in Catholic Education

3 Semester Hours

This course will provide new and aspiring administrators with the historical roots of Catholic education as it relates to the mission of the Church in a contemporary context. It will further examine the practices of Religious Education and Catholic Identity that promote mature faith in adults as well as children within and beyond the Catholic school setting. This course will present an analysis of the theological, philosophical, historical, and sociological aspects of American Catholic education, with a focus on policy implications for the contemporary context of the Catholic Church. Topics to be discussed include fostering a Christian climate in the school community, principled-based leadership, catechetical leadership, the role of discipleship, lifelong faith development, and service activities that empower people to become leaders in social justice.

EDLA 6341

Organizational Leadership in Catholic Education

3 Semester Hours

This course is designed to give new and aspiring administrators theory and research in Catholic school leadership, management, organizations, change facilitation, and decision making within the context of the Catholic Church and its educational institutions. Candidates will be able to plan, organize, implement, manage, facilitate and evaluate the daily operation of Catholic schools in ways that achieve organizational goals and lead to the safe, productive operation of schools. This course will specifically focus upon the role and responsibilities associated with governance, strategic planning, human resource administration, school finance, accounting, public relations, marketing, development, admissions, and educational law as it pertains to Catholic schools.

EDLA 6432

Instructional Leadership in Catholic Education

3 Semester Hours

This course will provide the new and aspiring administrator with the necessary knowledge and skills for curriculum development, instruction, and assessment in Catholic elementary and secondary schools. Candidates will articulate a vision for student learning consistent with a well-developed Catholic school philosophy and explore ways to lead individuals and groups toward the accomplishment of common goals and objectives in a collaborative environment. This course will focus on the evaluation and use of technological resources available to the globalized learning community of the present and future.

EDLA 6840

Catechetical Leadership in Catholic Education

3 Semester Hours

This course will assist the student in imagining a new role, that of Catechetical Leader, who will help to create a new culture of renewal in U.S. Catholic schools. The student will critically analyze the history and theory of Christian religious education/catechesis, especially as it applies to faculty members, parents, and other adults in the Catholic school community. Three class sessions will be dedicated to a review of contemporary Christology in the context of the Catholic tradition. Other topics will include: ecclesiological issues that flow from Vatican II, evangelization, social justice, and Lilly Endowment's initiative on Christian practices.

EDLA 6841

Private School Law and Ethics

3 Semester Hours

This course is designed for aspiring and new private school administrators to become knowledgeable of the history and practice of educational law as it pertains to private education. Topics include: constitutional law, administrative law, common law, contract law, canon law, torts, contracts and unions, rights and duties, anti-discrimination law as it applies to individuals with disabilities, property rights, the duties and ethics of principals and teachers, copyright laws, and child abuse reporting procedures.

EDLA 6842

Leadership in Catholic Education

3 Semester Hours

This course is designed to give new and aspiring administrators theory and research in the following areas: leadership, management, organizations, change facilitation, and decision making within the context of the Catholic Church and its educational institutions. This course will also focus upon the role and responsibilities associated with school finance, accounting, development, and management.

EDLA 6995

Comprehensive Examination

0 Semester Hours

The Comprehensive Examination is usually taken during, or immediately following, the last semester of coursework completion. It may be a written and/or oral examination. Candidates should register for the specific section required for their program.

Fee required.

Credit/No Credit.

Special approval required.

EDLA 6998

Special Studies

1-3 Semester Hours

EDLA 6999

Independent Studies

1-3 Semester Hours

EDLA 7000

Sociopolitical Context of Education: Policy and Reform

3 Semester Hours

This course provides a study of educational policy at the local, state, and national levels, including the sociocultural and sociopolitical contexts of education. Additional focus will be on the relationship between educational policy, leadership, and reform movements. The course will feature prominent guest speakers who are leaders in policy formation and a field trip to Sacramento.

EDLA 7001

Social Justice and Education

3 Semester Hours

This course examines various approaches to conceptualizing, interpreting, and making operational social justice. The course will review the historical development of the concept of social justice in an interdisciplinary manner. Particular attention will be given to: critically competing ethical and religious theories of justice; sociological factors of schools as institutions of injustice and cultures that can promote an ethos to further justice; the relationships of the ethical theory of justice of educational institutions; and the examination of pedagogy for social justice. The goal of the course is to bring together ethics, sociology of education, and concrete pedagogy.

EDLA 7002

Moral and Ethical Leadership

3 Semester Hours

This course examines ethics in education, moral development theory, and leadership theory. Emphasis will be placed on the role of the individual in the development of principles and practices of just and caring leadership. Critical inquiry into the responsibility of leaders for the protection and promotion of democratic schooling and global citizenship is highlighted.

EDLA 7003

Leadership for Educational Achievement

3 Semester Hours

This course examines components of instructional reflective leadership and the relationship to educational achievement for diverse populations. The course will critically examine the following topics related to achievement: standards-based education, assessment and accountability systems, processes for equitable access to curriculum and learning, participatory education, inclusive critical pedagogy, and the equitable and appropriate use of technology. The sociocultural perspective and the psychology of learning will guide the exploration of leadership, accountability, instruction, and assessment.

EDLA 7004

Organizational Theory and Change

3 Semester Hours

This course will focus on organizational theory and culture, systemic change, and supervision of programs and personnel. The role of the leader as an agent for transformative change, an informed implementer of technology to reduce the digital divide, and facilitator for community collaboration is examined.

EDLA 7020

Situated Inquiry in Education

3 Semester Hours

This introductory course provides educational leaders with an integrated methodological approach to practitioner research through school and

classroom-based research. A survey of quantitative and qualitative methods will be the basis for situated inquiry in which candidates are introduced to field-based, problem-solving research, survey research methodology, program evaluation research, and technology. Candidates will improve skills in the development of research instruments and tools for data collection.

EDLA 7021

Quantitative Research in Education

3 Semester Hours

This advanced quantitative research course focuses on a variety of quantitative research designs and statistical methods for examining data from diverse educational settings, including survey construction and implementation, correlation and prediction research, and causal-comparative design. This will cover univariate and multivariate methods utilizing desktop statistical software.

Prerequisite: EDLA 6105 or equivalent.

EDLA 7022

Qualitative Research in Education

3 Semester Hours

This advanced qualitative research course focuses on a variety of qualitative research methods and designs for diverse educational settings, including ethnography, observations, interviews, and case studies. The research will be focused through the lens of social justice.

EDLA 7040

Context and Current Topics in Public Education

3 Semester Hours

This seminar explores the historical, philosophical, and structural issues in public education. The seminar will include a discussion and analysis of the current issues defining and challenging public P-12 education.

EDLA 7042

Management of Fiscal/Human Capital

3 Semester Hours

The recruitment, management, and assessment of fiscal and human resources will be explored through the lens of social justice. This course includes the following: national, state, and local funding and fiscal management; human resource recruitment, retention, and evaluation; equity analysis of resources for diversity; strategies for building effective learning communities; and an analysis of the equity and adequacy issues governing school finance.

EDLA 7043

Legal and Policy Issues in Education

3 Semester Hours

Candidates examine legal frameworks of national, state, and local government and educational entities. The focus of the course will be on the political and sociological forces affecting general education programs, services for students with exceptional needs, and other categorical programs. Course topics include laws affecting education and the application of legal principles to current policies and practices.

EDLA 7045

Transformational Leadership for Student Achievement

3 Semester Hours

This course examines components of reflective leadership and the relationship to educational achievement for diverse populations. This course will emphasize a sociocultural perspective which will guide the exploration of leadership related to accountability, instruction and assessment.

The theory and practice of transformational leadership informed by a social justice perspective will be foundational components.

EDLA 7049

Research Seminar: Public Education

2 Semester Hours

This course focuses on the practitioner researcher's formulation of research questions, preparation of the design and methodology to be used in the researcher's study of public education. The outcome of this course will be the design and methodology chapter of the candidate's dissertation.

Credit/No Credit grading.

EDLA 7060

Context and Current Topics in Private Education

3 Semester Hours

This seminar explores the historical, philosophical, structural, and theological issues in Catholic, private, and charter schools, as well as non-public schools serving students with exceptional needs. The seminar will include a discussion and analysis of the current issues defining and challenging Private K-12 education and the influence of Catholic social teaching in these topics.

EDLA 7062

Managing Financial Resources in Private Education

3 Semester Hours

An advanced study of private education, charter schools, and non-profit organizations from the management and financial resource perspective which includes: strategic planning, finance management, fiscal resources, marketing, grant writing, trustee development, and fundraising.

EDLA 7063

Law and Policy in Private Education

3 Semester Hours

This course explores legal, government, and political processes as they apply to private and Catholic education. Strategies for advocating for the rights of all children, including children with exceptional needs, will be emphasized. Faith-based ethics rooted in the scripture, tradition, and Catholic social teaching will centralize issues and topics.

EDLA 7069

Research Seminar: Catholic/Private/Charter Education

2 Semester Hours

This course focuses on the practitioner researcher's formulation of research questions, preparation of the design and methodology to be used in the researcher's study of private education. The outcome of this course will be the design and methodology chapter of the candidate's dissertation.

EDLA 7098

Special Studies

1-3 Semester Hours

Candidates will enroll in 2 semester hours each semester until completion and acceptance of dissertation.

Credit/No Credit.

EDLA 7955**Doctoral Seminar III***2 Semester Hours*

Candidates will enroll in 2 semester hours each semester until completion and acceptance of dissertation.

Credit/No Credit.

EDLA 7990**Advancement to Candidacy***0 Semester Hours***EDLA 7998****Special Studies***1-3 Semester Hours***EDLA 7999****Independent Studies***1-3 Semester Hours***Language and Culture in Education****EDLC 400****Sociocultural Analysis of Education***3 Semester Hours*

A study of the sociological and anthropological analysis of contemporary education with emphases on historical and cultural contexts, culturally sensitive pedagogy, cultural and ethnic diversity, social/cultural issues, equity, access to the core curriculum, and demographic trends in schools and society. Emphasis is placed on the preparation of professionals for the teaching profession and their awareness of social, psychological, and cultural forces shaping society today so that they are prepared to work with all learners. This course is designed for undergraduates in the traditional and/or blended teacher preparation program.

Sophomore or higher standing required.

EDLC 414**Second Language Acquisition: Theory and Policy**

3 Semester Hours

Course content includes theoretical perspectives in first and second language learning, language teaching methodologies, assessment, identification, and program placement for Limited English Proficient students. The course provides an introduction to instructional strategies including English Language Development (ELD), Specially Designed Academic Instruction in English (SDAIE), and cooperative learning. Historical, political, legal, and social factors related to second language acquisition are addressed, including the history of bilingual education; federal, state, and local legislation; bilingual education models; and the role of parents and paraprofessionals in English language development. Fieldwork in a setting with English language learners is a required component of this class.

Sophomore or higher standing required.

EDLC 415**Politics of Education***3 Semester Hours*

An overview of the historical and contemporary organization of schools, including federal, state, and local education and language policies. The philosophical and decision-making structures within schools will be examined from various perspectives. Of particular emphasis will be the impact of these on linguistically and culturally diverse populations.

Prerequisite: EDLC 414.

EDLC 416**Methodology for Primary Language Instruction in a Bilingual Setting***3 Semester Hours*

Consideration is given to current trends and social issues affecting bilingual programs including program characteristics, instructional approaches, and selection and use of primary language materials. Specific emphasis is placed on literacy/biliteracy in the primary language, with an integrated approach to content area instruction. Fluency and literacy in Spanish is required.

Special approval required.

Prerequisite: EDLC 415.

EDLC 420**Chicano/Latino Cultures: An Interdisciplinary Perspective***3 Semester Hours*

The presentation of a cultural analysis of the diversity within Chicano/Latino groups. Historical, political, economic, and social issues will be addressed, including the expression of culture in areas such as language, literature, and religion.

Special approval required.

EDLC 425**Methods in English Language Development and Specially Designed Academic Instruction in English***3 Semester Hours*

The goal of this course is to provide students with the opportunity to acquire knowledge, skills, and ability to deliver comprehensive instruction to English learners. Students will learn how to implement instructional programs that facilitate English language acquisition and development, including receptive and productive language skills, and that logically progress to the grade level reading/language arts program for English speakers. Students will acquire and demonstrate the ability to utilize assessment information to diagnose students' language abilities and to develop lessons that promote students' access and achievement in relation to state-adopted academic content standards. Fieldwork observation is included as part of the class requirement.

Special approval required.

EDLC 430**Methodology for Chinese Language Instruction in Bilingual Settings***3 Semester Hours*

Consideration is given to current trends and social issues affecting bilingual programs including program characteristics, instructional approaches, and selection and use of primary language materials. Specific emphasis is placed on literacy/biliteracy in the primary language, with an integrated approach to content and instruction. Fluency and literacy in Mandarin Chinese is required.

Special approval required.

EDLC 431**American/Chinese/Chinese American Cultures: An Interdisciplinary Perspective***3 Semester Hours*

This course presents a cultural analysis of the diversity within Chinese/American/American Chinese groups, particularly as represented in educational settings. Historical, political, and social issues will be addressed, including communicative styles, dialectical differences, and cross-cultural interactions between cultural and linguistic groups.

Special approval required.

EDLC 498**Special Studies***1-3 Semester Hours***EDLC 499****Independent Studies***1-3 Semester Hours***EDLC 5000****Cultural Paradigms of Education***3 Semester Hours*

A study of the sociological and anthropological analysis of contemporary education with emphases on cultural contexts, culturally sensitive pedagogy, cultural and ethnic diversity, social/cultural issues, and demographic trends in schools and society. Emphasis is placed on the preparation of professionals for the teaching profession and their awareness of social, psychological, and cultural forces shaping society today.

Fieldwork is required.

EDLC 5002**Survey of Second Language Acquisition Theories***2 Semester Hours*

Course content includes theoretical perspectives in first and second language learning, language teaching methodologies, assessment, identification, and program placement for Limited English Proficient students with and without disabilities. Historical, political, legal, and social factors related to second language acquisition are addressed, including the history of bilingual education; federal, state, and local legislation; bilingual education models; and the role of parents and paraprofessionals in English language development.

EDLC 5003**Theories and Policies of Second Language Acquisition***3 Semester Hours*

Historical, political, and social factors related to second language acquisition are addressed. Course content also includes theoretical perspectives in second language learning. Assessment, identification, and program placement for Limited English Proficient students are emphasized. This course provides an overview of education policies and laws related to English language learners.

Fieldwork is required.

EDLC 5200

Methodology in English Language Development (ELD) and Specially Designed Academic Instruction in English (SDAIE) for Elementary Educators

3 Semester Hours

This course explores and develops instructional models, strategies, approaches, and assessment for ESL and content based second language teaching in diverse cultural and linguistic settings in elementary education.

Fieldwork is required.

Prerequisite: EDLC 414 or 5003.

EDLC 5250

Methodology in English Language Development (ELD) and Specially Designed Academic Instruction in English (SDAIE) for Secondary Educators

3 Semester Hours

This course explores and develops instructional models, strategies, approaches, and assessment for ESL and content based second language teaching in diverse cultural and linguistic settings in secondary education.

Fieldwork is required.

Prerequisite: EDLC 414 or 5003.

EDLC 5320

Chicano/Latino Cultures: An Interdisciplinary Perspective

3 Semester Hours

This course presents a cultural analysis of the diversity within Chicano/Latino groups, particularly as represented in educational settings. Historical, political, and social issues will be addressed, including communicative styles, dialectical differences, and cross-cultural interactions between cultural and linguistic groups.

Special approval required.

EDLC 5321

Applied Linguistics

3 Semester Hours

Seminar in the theoretical and practical applications of linguistics, socio- and ethnolinguistics, psycholinguistics, language based content area instruction and language policy and planning as they relate to second language learners.

EDLC 5322

Intercultural Education

3 Semester Hours

This course explores the research, theories, and practices related to communication between and within cultural groups on national and international bases.

EDLC 5323

Bilingualism, Cognition, and Identity

3 Semester Hours

This course provides an in-depth analysis of theories of human development and learning in bilingual and bicultural individuals. It underscores the development of cultural and identity development and the psychosocial influence of learning in bilingual contexts.

EDLC 5324

Bilingualism and Biliteracy

3 Semester Hours

Research on the complexity of factors that impact biliteracy development for preschool through adolescence students. This course focuses on the assessment and implications of the continuum of biliteracy development through analysis of case studies.

EDLC 5325

Curriculum and Instructional Leadership in a Bilingual Setting

3 Semester Hours

Theory and application of curriculum development to bilingual instructional programs. These include design, organizational patterns and resources, materials and media, change strategies, and evaluation.

EDLC 5330

Chinese/American/American Chinese Cultures: An Interdisciplinary Perspective

3 Semester Hours

This course presents a cultural analysis of the diversity within Chinese/American/American Chinese groups, particularly as represented in educational settings. Historical, political, and social issues will be addressed, including communicative styles, dialectical differences, and cross-cultural interactions between cultural and linguistic groups.

Special approval required.

EDLC 5998

Special Studies

1-3 Semester Hours

EDLC 5999

Independent Studies

1-3 Semester Hours

EDLC 6000

Education and Politics

3 Semester Hours

This course examines the intersection of education and language politics for linguistically and culturally diverse populations. It will provide an in-depth examination of the philosophical and organizational structures within schools from both historical and contemporary perspectives. Federal, state, local decision-making processes will be highlighted.

Prerequisite: EDLC 5003.

EDLC 6100

Anthropological Analysis of Cultural Diversity

3 Semester Hours

An in-depth study of cultural diversity using methods from educational sociology and anthropology. The course will examine the major theoretical models advocating responses to cultural diversity and their practical implications for education. Themes/issues covered: contemporary demographics, genetic and cultural deficit theory, cultural mismatch theory, cultural ecological theory, sociocultural theory (neo-Vygotskian) and culturally responsive instruction, multicultural education and intercultural communication, critical pedagogy, and qualitative evaluation.

EDLC 6320**Methodology for Primary Language Instruction in a Bilingual Setting***3 Semester Hours*

Consideration is given to current trends and social issues affecting bilingual programs including program characteristics, instructional approaches, and selection and use of primary language materials. Specific emphasis is placed on literacy/biliteracy in the primary language, with an integrated approach to content and instruction. Fluency and literacy in Spanish is required.

Special approval required.

Prerequisite: EDLC 5003.

EDLC 6321**Seminar in Second Language Literacy***3 Semester Hours*

This course explores the relationships between literacy and language diversity in the United States as well as on the international levels. Current research addressing pre-school through adult populations of second language learners will be analyzed.

Fieldwork is required.

EDLC 6322**Language Ideologies, Planning, and Policies***3 Semester Hours*

This course addresses the assumptions, power relations, and beliefs involved in language policies as they relate to education, work, and societal norms. Analysis of international, national, and local practices, socio-historical, and political development of multilingual school is emphasized.

EDLC 6323**Ethnolinguistics***3 Semester Hours*

Utilizing an anthropological-linguistic approach to the study of the interrelation between a language and culture, this course focuses particularly in the ways that ethnicity, group status, gender, and class impact the relationships between minority and majority groups.

EDLC 6324**Technology in Multilingual Settings***3 Semester Hours*

Offered as an elective, this course emphasizes the use of instructional technologies with multilingual populations. Of particular emphasis is the bridging of the Digital Divide, access and equity in technology with diverse populations, and uses of instructional technology within dual language contexts.

EDLC 6325**International Perspectives in Bilingual/Intercultural Education***3 Semester Hours*

This course surveys bilingual and intercultural education from a global perspective and includes issues of indigenous, heritage, and human rights in the context of bilingualism and multilingualism.

EDLC 6326**Bilingual/Leadership/Intercultural Education***3 Semester Hours*

This restricted and individualized course of study provides an in-depth research partnership experience in biliteracy, leadership, and intercultural education.

Topic and credit hours arranged in advance.

EDLC 6330**Methodology for Chinese Language Instruction in Bilingual Settings***3 Semester Hours*

Consideration is given to current trends and social issues affecting bilingual programs including program characteristics, instructional approaches, and selection and use of primary language materials. Specific emphasis is placed on literacy/biliteracy in the primary language, with an integrated approach to content and instruction. Fluency and literacy in Mandarin Chinese is required.

Special approval required.

Prerequisite: EDLC 5003.

EDLC 6355**Practicum in Teaching English as a Second Language***2 Semester Hours*

This course is designed to enhance the field experience of TESL candidates through reflective discussions that evolve around events and field experiences in the context of second language acquisition, supervised teaching, and collaboration between the candidates, University personnel, and the mentor teacher.

Credit/No Credit.

Acceptance into TESL program required.

Prerequisites: EDLA 6105; EDLC 5003, 5250, 5321, 5323, 5325, 6100, 6321, 6322, 6340.

EDLC 6955**Master's Thesis I***1 Semester Hour*

This course is intended for students working on a master's thesis. The committee chair provides ongoing support for the master's thesis.

Credit/No Credit.

Prerequisite: EDLA 6950.

EDLC 6956**Master's Thesis II***1 Semester Hour*

A continuation of Master's Thesis I for students who have not completed their master's thesis.

Credit/No Credit.

Special approval required.

EDLC 6957**Master's Thesis III***1 Semester Hour*

A continuation of Master's Thesis II for students who have not completed their master's thesis.

Credit/No Credit.

Special approval required.

EDLC 6995**Comprehensive Examination***0 Semester Hours*

The Comprehensive Examination is usually taken during, or immediately following, the last semester of coursework completion. It may be a written and/or oral examination. Candidates should register for the specific section required for their program.

Fee required.

Credit/No Credit.

Special approval required.

EDLC 6998**Special Studies***1-3 Semester Hours***EDLC 6999****Independent Studies***1-3 Semester Hours***Educational Support Services****EDSS 427****Creating Effective Classrooms in Diverse Settings***3 Semester Hours*

This course is designed to prepare candidates to be able to demonstrate knowledge and skills in managing environments for diverse learners that are safe and effective and that facilitate positive self-esteem and self-advocacy. In addition, the candidate will be prepared to demonstrate knowledge of behavioral management strategies, varying communication styles that impact learning and laws, and regulations for promoting behavior that is positive and self-regulatory.

EDSS 435**What is School?***3 Semester Hours*

This course focuses on the governmental, political, financial, legal, and historical perspectives of education in the United States. Students are given opportunities to integrate course topics and relate policy initiatives to the welfare of all students in responsible and ethical ways. School governance and management of human and fiscal resources in culturally diverse settings are stressed.

EDSS 436**Creating Collaborative Partnerships***2 Semester Hours*

This course is designed to prepare candidates to be able to collaborate and communicate effectively with individuals with disabilities and their parents, other family members and primary care givers, school administrators, general and special education teachers, specialists, paraprofessionals, and community agency and related service personnel. The candidate will learn how to work in partnership to be able to design, implement, and evaluate integrated services that reflect transitional stages across life span for all learners.

EDSS 440**Introduction to the Culturally and Linguistically Diverse Student with Exceptional Needs***3 Semester Hours*

General survey of exceptionalities affecting normal child development. Causation, diagnosis, treatment, programs, and resources are included. Implications of recent legislation for the disabled will be emphasized.

EDSS 443**Informal Assessment and Individual Education Program (IEP) Development for Students with Exceptional Needs***3 Semester Hours*

A survey of strategies for assessing and teaching FEP and LEP students in all areas of exceptionality.

EDSS 444**Observation and Participation in General and Special Education Programs***2-3 Semester Hours*

Direct contact experience observing and working with FEP and LEP students in all areas of exceptionality. A minimum of 100 clock hours must be spent with three exceptionalities.

Credit/No Credit.

EDSS 445**Special Education Advocacy and the Law***3 Semester Hours*

This course examines federal and California special education law with particular emphasis on the Individuals with Disabilities Education Improvement Act (IDEA 2004) and the Rehabilitation Act of 1973. The first half of the course will involve reading of material that will give a legal and practical background to the specifics of the law, its purpose, and how it is implemented by school districts. This background will serve as a foundation for the students to effectively advocate (with proper supervision) for their clients during the clinical portion of the class. The overall goal of the course is to give students insight into how to work with families and school personnel and how to ultimately avoid the pitfalls of non-compliance. The second half of the course will be a supervised clinical experience where students will handle a special education case. This will include: interviewing potential clients, analysis of facts, and advocacy at an IEP. Depending on the facts of the case, students may also file a state complaint and prepare a case for mediation and/or for due process hearing.

Prerequisite: EDSS 440.

EDSS 452**Psychological and Educational Assessment***3 Semester Hours*

Basic concepts of psychological testing, measurement, and evaluation applicable to the rationale, construction, evaluation, use, and interpretation of tests, rating scales, etc.; essential statistics. Practice required.

Senior class standing required.

EDSS 475**Teaching and Assessing Students with Mild/Moderate Disabilities***4 Semester Hours*

Principles and techniques for diagnosing learning and behavioral strengths and weaknesses in children and youth with specific learning disability, mental retardation, other health impairments, or serious emotional disturbance. Additional emphasis is placed on effective techniques and methods in working with culturally and linguistically diverse youth. Development of teaching strategies, goals, and objectives suitable for direct intervention, implementation of individual instructional programs, and evaluation of program approaches and effectiveness.

EDSS 476**Policies and Issues in Education for Diverse Learners with Disabilities**

3 Semester Hours

Survey of current issues and trends in the psychology and education of students with learning handicaps, e.g., theoretical instructional systems, use of research findings in program implementation, counseling, career guidance, and program evaluation with emphasis on history and practices of bilingual education, including organizational models and instructional strategies.

EDSS 492**Behavior and Classroom Management Techniques for Teachers***3 Semester Hours*

Explores current, alternative approaches to classroom discipline, management, and organization. Focuses on how teacher behavior, the learning task, and the classroom environment affect student behavior.

EDSS 498**Special Studies***1-3 Semester Hours***EDSS 499****Independent Studies***1-3 Semester Hours***EDSS 5300****Introduction to Teaching and Learning in General and Special Education***2 Semester Hours*

This course will provide initial instruction in the essential themes, concepts, and skills related to the duties of a special educator before the candidate assumes intern/teaching responsibilities.

Admission to program required.

EDSS 5301**Managing Learning Environments***2 Semester Hours*

This course is designed to prepare candidates to be able to demonstrate knowledge and skills in managing environments for diverse learners that are safe and effective for students.

Admission to program required.

EDSS 5998**Special Studies***1-3 Semester Hours***EDSS 5999****Independent Studies***1-3 Semester Hours***EDSS 6001****Teaching Culturally/Linguistically Diverse Students with Exceptional Needs***3 Semester Hours*

An overview of the problems confronting educators of students with exceptional needs with a view to developing an understanding of the psychological and educational implications for instruction and program planning. An overview of major exceptionalities and implications of recent legislation for the disabled ("mainstreaming") will be emphasized.

This course meets the requirements for the 2042 credential.

EDSS 6101**Psychology and Education of Culturally/Linguistically Diverse Students with Exceptional Needs***3 Semester Hours*

An overview of the problems confronting educators of students with exceptional needs, with a view to developing an understanding of the psychological and educational implications for instruction and program planning. An overview of major exceptionalities and implications of recent legislation for the disabled ("mainstreaming") will be emphasized.

EDSS 6103**Curriculum and Instructional Leadership***3 Semester Hours*

What should students learn and experience in the classroom? Who decides the content and how it should be taught? How will we know that all students have mastered it? From antiquity to the present, human beings have clashed over these fundamental yet highly charged questions regarding the nature of curriculum. Drawing on theory and practice, past and present, this course explores answers to the above questions and looks at the direction of today's education policies and practices, especially with regard to curriculum standards, accountability, and student assessment under No Child Left Behind.

EDSS 6104**Leadership for Instruction, Learning, and Achievement***3 Semester Hours*

Designed for school management and institutional trainers to afford understanding of individualization of instruction, evaluation and assessment of instructional practices, skill in design and implementation of instructional sequences, and elements of effective instruction for all students.

EDSS 6106**Human Development and Learning***3 Semester Hours*

The study of major psychological theories and their application to the understanding of human behavior and the processes of learning. Appraisal of human biological, psychological and social development from infancy through adolescence. Emphasis is placed on the impact of culture and diversity on child and adolescent development.

EDSS 6300**Creating Effective Classrooms***3 Semester Hours*

This course is designed to prepare candidates to be able to demonstrate knowledge and skills in managing environments for diverse learners that are safe and effective and that facilitate positive self-esteem and self-advocacy. In addition, the candidate will be prepared to demonstrate knowledge of behavior management strategies, varying communication styles that impact learning and laws and regulations for promoting behavior that is positive and self-regulatory.

Special approval required.

EDSS 6301**Creating Collaborative Partnerships***3 Semester Hours*

This course is designed to prepare candidates to be able to collaborate and communicate effectively with individuals with disabilities and their parents, other family members and primary care givers, school administrators, general and special education teachers, specialists, paraprofes-

sonals and community agency and related service personnel. The candidate will learn how to work in partnership to be able to design, implement and evaluate integrated services that reflect transitional stages across life span for all learners.

Special approval required.

EDSS 6302

Assessment of Students with Exceptional Needs

3 Semester Hours

This course surveys a variety of evidence-based strategies for assessing Fluent English Proficient (FEP) and English Language Learner (ELL) students with mild/moderate disabilities. Course content includes principles and techniques for assessing learning, developing appropriate IEP goals and instructional recommendations based on individual needs. Both formal and informal methods of assessment are reviewed, including Curriculum Based Assessment. Includes lecture and practicum.

Admission to program required.

EDSS 6303

Teaching and Assessing Students with Mild/Moderate Disabilities

3 Semester Hours

Principles and techniques for diagnosing learning and behavioral strengths and weaknesses in children and youth with learning disability, mental retardation, other health impairments or serious disturbance. Additional emphasis is placed on effective techniques and methods in working with culturally and linguistically diverse youth, development of teaching strategies, goals, and objectives suitable for direct intervention, implementation of individual instructional programs, and evaluation of program approaches and effectiveness.

Admission to program required.

EDSS 6304

Policies and Issues in Education for Diverse Learners with Disabilities

3 Semester Hours

Survey of current issues and trends in the psychology and education of students with learning handicaps, e.g., "mainstreaming" theoretical instructional systems, use of research findings in program implementation, counseling, career guidance, and program evaluation, with emphasis on history and practices of bilingual education including organizational models and instructional strategies.

EDSS 6310

Professional Induction Planning Seminar

0 Semester Hours

Candidates for the Professional Level II Education Specialist credential are required to take this course at the beginning of their Level II program. During this individualized seminar, the candidate develops a Professional Induction Plan with an assigned district support provider and a college advisor.

Special approval required.

EDSS 6311

Advanced Issues in Assessment and Instruction of Students with Special Needs

3 Semester Hours

In this advanced course, candidates acquire knowledge and skills to appropriately assess and instruct students with Mild/Moderate disabilities. Course content includes selecting and administering a variety of formal and informal assessment procedures in order to be able to teach, adapt and integrate curriculum appropriate to the educational needs of students.

Special approval required.

EDSS 6312

Consultation and Collaboration for Students with Special Needs

3 Semester Hours

This course will provide opportunities for candidates to develop skills in communication, collaboration and consultation with teachers and other school personnel, community professionals, and parents. A specific area of emphasis will be on the communication of relevant social, academic, and behavioral information in the areas of assessment, curriculum, behavior management, social adjustment, and legal requirements. At the completion of the course, candidates will be prepared to coordinate the process involved in special education placements.

Special approval required.

EDSS 6313

Supportive Environments for Students with Behavioral and Emotional Needs

3 Semester Hours

In this advanced course, candidates develop systems for academic and social skills instruction for students with complex behavioral and emotional needs including attention disorders, conduct disorders, depression and suicidal behavior, psychotic behavior anxiety and related disorders, and delinquency and substance abuse. Course content includes advanced study of behavioral supports, social skills instruction, crisis management, and positive learning environments. Collaborative work with other professionals and community agencies is emphasized in the development of comprehensive support programs for these students.

Special approval required.

EDSS 6314

Professional Educator Evaluation Seminar

1 Semester Hour

This seminar is the culminating experience for the Professional Education Specialist credential program. Students reevaluate their professional competency to assess and teach culturally diverse students with learning and behavior problems. They compile a Professional Educator Portfolio, which includes artifacts documenting their professional competence and a plan for their continuing professional growth. The district support provider and the college advisor continue to support the student in this process.

EDSS 6317

Research and Leadership in Special Education

2 Semester Hours

This seminar-style course will assist candidates to further develop and implement research skills in Special Education. Candidates will review seminal and current research. The course will also review research related to implementing change and effective practices for diverse populations with disabilities in the schools. This course will require active online and in-class assignments, discussions and participation. The course is designed to be directed by candidate's work in the schools with students, colleagues and families.

EDSS 6318

Supporting Behavior and Social Skills for Students with Exceptional Needs

3 Semester Hours

This course is designed to prepare candidates to demonstrate knowledge and skills in managing environments for diverse learners that are safe and effective and that facilitate positive self-esteem and self advocacy. The candidates will be prepared to demonstrate knowledge of behavior analysis and management strategies, varying communication styles that impact learning, and laws and regulations for promoting behavior that is positive and self-regulatory. In addition, this course focuses on characteristic and learning needs of students with emotional disturbance and autism.

EDSS 6319**Literacy Instruction for Special Needs Students in Single Subject Classrooms***3 Semester Hours*

This graduate course is designed to develop an understanding of the nature of literacy and how it impacts the content area literacy needs of all students, including English Language Learners and students with disabilities. Course content includes evidence-based approaches to language arts/literacy instruction, assessment, differentiated instruction, Response to Intervention (RtI), literacy needs of ELLs and students with disabilities, as well as methods, processes, and techniques for teaching content area literacy skills in grades 6-12.

EDSS 6320**IEP Development for Students with Exceptional Needs***1 Semester Hour*

This training course is designed to provide candidates with essential information regarding the development of individualized Education Program for students with disabilities. Candidates will learn the general components of an IEP and how to develop current student functioning levels and goals.

EDSS 6325**Foundation of Special Education***2 Semester Hours*

This course will provide an overview of the characteristics of diverse students with high incidence disabilities with a view towards developing an understanding of the psychological and educational implications of these exceptionalities. This course will also emphasize current laws and procedures regarding the appropriate education of these students and review major relevant issues affecting the field of special education including Universal Design for Learning, inclusion, advocacy, assistive technology, Response to Intervention/early intervention, collaborating with diverse families and educational professionals and transition planning.

Fieldwork required.

EDSS 6362**Counseling Theories and Techniques***3 Semester Hours*

A survey of major theoretical orientations to the practice of counseling. An overview of basic counseling skills with particular emphasis on communication skills applicable to the counseling relationship. Candidates are introduced to experiences that will give them a greater understanding of self and others. Required prior to formal admission to the Counseling program.

EDSS 6365**Research Methodology and Statistics***3 Semester Hours*

An introduction to data gathering methods and models of assessment statistics to guide program direction and evidence-based educational decision making. Overview of different types of tests and inventories, their construction and evaluation. Candidates will also learn how to design and collect different types of data to determine the impact of their counseling interventions. Preparation in explaining educational assessment data and results data to different stakeholders. Basic descriptive statistics, research designs and methods will also be examined to develop skill in a critical approach to examining the research literature in counseling as well as the importance of conducting counseling research.

EDSS 6366**Principles, Organization, and Administration of Pupil Personnel and Human Services***3 Semester Hours*

This course emphasizes contemporary trends in school counseling, including application of the ASCA National Model. The role of the school counselor as a leader and change agent and best practices will be examined. Information pertaining to the practice of school counseling and guidelines for the development, implementation, coordination, and evaluation of pupil personnel services in elementary, middle, and high school will be provided. Facilitating collaborative partnerships with school-based personnel and community resources, including referral processes for students and families, will be addressed. Field assignment required.

EDSS 6368**Career Counseling and Educational Planning***3 Semester Hours*

An overview of career development theories as they relate to the whole person will be examined, including effectively addressing the needs of specific populations (e.g., women, ethnic minorities, students with special needs, and economically disadvantaged students). Assessment and counseling techniques and related tools to be used within career counseling and educational planning will be explored. This course will also emphasize contemporary trends in educational and career guidance applied to educational and career planning within the K-12 and higher education settings. Field assignment and lab fee required.

EDSS 6372**Consultation and Collaboration in Schools***3 Semester Hours*

This course is designed to support learning and application of knowledge and skill in collaborative consultation with school personnel and families on academic, social, and behavioral factors that impact student achievement and related outcomes. Candidates will also learn and apply concepts related to systemic consultation, with an emphasis on prevention and early intervention. The counselor's leadership role in identifying, organizing, and developing prevention and intervention services is emphasized. Field assignment required.

Prerequisites: EDSS 6106, 6362, 6368, 6382.

EDSS 6376**Crisis Counseling, Prevention, and Intervention***3 Semester Hours*

This graduate level course is designed to support learning and application of knowledge and skill in 1) counseling; 2) prevention and early intervention in events such as violence, suicide, pregnancy, and others that may lead to individual crises; 3) quality indicators of school and community-based crisis teams.

Prerequisite: EDSS 6362.

EDSS 6377**Multicultural Counseling***3 Semester Hours*

Students examine the spectrum of beliefs, values, and behaviors that comprise cultural diversity. Special emphasis is placed on increasing the student's sensitivity to diversity and on developing strategies that facilitate the counseling process.

EDSS 6378**Group Counseling***3 Semester Hours*

Theories, techniques, and development of human communication processes, both verbal and non-verbal, in group situations. Experience in group participation is provided. Use of communication skills applicable to counseling.

Credit/No Credit.

Prerequisites: EDLA 6105, EDSS 6101, 6104, 6106, 6362, 6366, 6368, 6382.

EDSS 6379

Social, Emotional, and Behavioral Functioning

3 Semester Hours

Candidates will become familiar with the spectrum of emotional and behavioral disorders and symptomatology. In this course candidates will learn both DSM-IV-TR diagnostic criteria and educational code criteria that apply to emotional and behavioral problems. Other areas covered in this course include promoting health and wellness and evidence-based treatments.

Prerequisite: EDSS 6362.

EDSS 6382

Ethical and Legal Issues

3 Semester Hours

This course examines ethics, laws, regulations, and best practices for pupil personnel counseling professionals. Critical issues relevant to child abuse and partner abuse will be addressed. Procedures for resolving ethical and legal dilemmas will be emphasized.

EDSS 6384

Practicum in School Psychology

3 Semester Hours

On-site supervised field work experiences and on-campus demonstrations, practicum and seminars designed to develop the student's competence in performance of School Psychologist functions and working knowledge and beginning competencies of the School Psychologist. Experiences focus upon the direct application of classroom knowledge and training. Enrollment limited to students accepted and enrolled in the School Psychology Credential Program. (Application for fingerprint clearance must be submitted at least two semesters prior to enrolling in this course).

Credit/No Credit.

Special approval required.

EDSS 6386

Practicum in Culturally Responsive Counseling

3 Semester Hours

Through the use of videotaped sessions with volunteer clients, advanced candidates under the supervision of licensed professionals observe and critique their counseling skills with individuals and groups. This class involves peer evaluation and discussion. Cross-cultural counseling experiences are emphasized.

Credit/No Credit.

Special approval required.

EDSS 6390

Lifespan Development

3 Semester Hours

The study of major psychological theories and their application to the understanding of human behavior. Appraisal of human biological, psychological, and social lifespan development from infancy through death. Emphasis is placed on the impact of culture and diversity on lifespan development.

EDSS 6391

Foundations of Counseling

3 Semester Hours

The objectives of this course are for master's students in counseling to gain core foundational knowledge of the counseling field and facilitate the development of a professional counselor identity. The core foundations include the history of counseling, multicultural issues, career and vocational counseling, counseling, process and outcome, ethics, prevention, health promotion, and social justice. In addition, a review of the practice of counseling and program specializations will be offered.

EDSS 6392

Psychopharmacology

2-3 Semester Hours

The primary objective of this course is to offer a survey of psychopharmacology for the professional counselor. Biological and psychological effects of psychotropic medications will be discussed along with indications and contraindications for psychopharmacological interventions and the relative efficacy of psychopharmacology treatments in comparison to counseling and psychotherapeutic interventions will be addressed.

EDSS 6393

Assessment, Appraisal, and Diagnosis

3 Semester Hours

The objectives of this course include developing a broad understanding of assessment issues and procedures. These issues and procedures include 1) the history of assessment, 2) legal and ethical issues, 3) cultural diversity, 4) the scientist/practitioner approach to clinical judgment, 5) diagnostic interviewing, 6) approaches to test construction, 7) reliability and validity, 8) types of vocational, cognitive, and personality tests and 9) special education.

EDSS 6394

Helping Skills

3 Semester Hours

The objectives of this course are for graduate students in counseling and education to 1) develop proficiency in beginning counseling skills, 2) prepare for counseling fieldwork experiences, and 3) begin to develop an understanding of the counselor's role in facilitating or inhibiting client change. Multicultural experiences are emphasized.

EDSS 6500

Foundations of Ethical, Professional, and Legal Practice in School Psychology

3 Semester Hours

This course provides a comprehensive exploration of the field of School Psychology, including its historical antecedents and contemporary educational, legal, and system issues that impact the profession. Content will include review of the multiple roles of school psychologists, pertinent laws and court decisions and ethics that impact services. State and national standards that govern the training of school psychologists will be highlighted. Field assignments required (i.e., interviews and observations will give students insight into their future vocation).

EDSS 6502

Determinants of Child and Adolescent Learning and Development

3 Semester Hours

This course introduces candidates to knowledge base regarding major contributors to student learning and development. Educational context and social influences on behaviors are reviewed. Advanced analysis and application of major psychological theories and biological basis will help candidates understand typical and atypical child and adolescent development. Evidence-based individual, school, family, and community interventions are explored.

EDSS 6504**Statistics, Assessment, and Research Methods in Education***3 Semester Hours*

This graduate level course will emphasize the development of knowledge and skills with regard to interpreting and applying essential descriptive statistics, research methodologies, and basic concepts of psychological and education assessment. The course content will consist of an overview of individual and group tests and inventories; test construction and evaluation; alternative assessment; progress monitoring; program evaluation; and comprehensive testing programs.

EDSS 6506**Seminar in Counseling and Interpersonal Relations***3 Semester Hours*

This course provides an overview of major counseling theories, and provides candidates with basic counseling skills with general and special education students. Candidates will learn general and specific techniques appropriate for use in school settings. Issues related to interpersonal relationships, culturally competent counseling, law and ethics, and evaluation of counseling effectiveness will be addressed.

EDSS 6508**Serving Diverse Students with Exceptional Needs***3 Semester Hours*

This course will provide an overview of the characteristics of diverse students with exceptional needs, with a view towards developing an understanding of the psychological and educational implications of these exceptionalities. This course will also emphasize current laws and procedures regarding the appropriate education for these students.

EDSS 6510**Seminar in Instruction and Learning***3 Semester Hours*

This course provides students with an overview of teacher instruction and the evaluation of student learning using curriculum based measures for reading, writing, and math; observation of student behavior during instruction; teacher interviews; and observation of effective classroom practices. The course also provides an overview of instructional strategies in the areas of reading, writing, and math for students who are at-risk for academic failure.

EDSS 6512**Group Counseling and Intervention with Children and Adolescents***3 Semester Hours*

This course focuses on the application of group counseling theories to support positive mental health development in children and adolescents. Topics will include different types of group counseling, including psychoeducational and social skills groups in the school setting. Issues related to culturally competent group counseling and law and ethics will be addressed.

EDSS 6513**Advanced Counseling Seminar I***1 Semester Hour*

This course is the first of a two-semester counseling supervision experience for school psychology candidates completing their second year practicum. Candidates will learn more in-depth techniques to counsel children and adolescents individually and in groups. Techniques include cognitive behavioral therapy, solution-focused counseling, interpersonal process therapy, and play therapy. Legal and ethical issues in counseling will be discussed, along with multicultural counseling. Field activities required.

Credit/No Credit.

EDSS 6514**Diversity in Community and School Psychology***3 Semester Hours*

Using an experiential and ethnographic approach, candidates in this course will learn and process information about the impact of culture on education from a historical perspective, the role of family and community, as well as review significant sociopolitical issues that impact students and families. Themes covered will include: critical analysis, social justice, inequality in educational policies and practices, overrepresentation of minorities in special education, assessment/intervention bias, immigration and second language learners, and working with non-majority culture and SES groups.

EDSS 6515**Advanced Counseling Seminar II***1 Semester Hour*

This course is the second of a two-semester counseling supervision experience for school psychology candidates completing their second year practicum. Candidates will learn more in-depth techniques to counsel children and adolescents individually and in groups. Techniques include cognitive behavioral therapy, solution-focused counseling, interpersonal process therapy, and play therapy. Legal and ethical issues in counseling will be discussed, along with multicultural counseling. Field activities required.

Credit/No Credit.

EDSS 6516**Seminar in Motivation and Achievement***3 Semester Hours*

This seminar will provide candidates with psychological theories, concepts, and research related to achievement motivation, learning and cognition. Topics will include school climate, family influences, retention, assessment of learning environments, and socio-cultural factors on learning.

EDSS 6518**Traditional and Alternative Assessment of Cognitive Abilities***3 Semester Hours*

This course covers standard administration of common norm-based and criterion-referenced cognitive assessments. As part of learning about these assessments, candidates learn test interpretation and demonstrate the ability to integrate test results with other information about a student in a psycho-educational report. Additionally, candidates learn about legal and ethical issues related to testing, and about administering assessments in a socially and culturally responsible manner.

EDSS 6520**Prevention, Intervention, and Consultation in Pupil Personnel Services***3 Semester Hours*

This course is designed to support learning and application of knowledge and skill in collaborative consultation with school personnel and family on academic and behavioral issues that negatively impact student achievement. Candidates will also learn and apply concepts related to systemic consultation.

EDSS 6522**Diagnostic Assessment and Intervention of Learning Problems***3 Semester Hours*

This course will provide students with an in-depth study of learning-related processes and practices in assessment techniques used by

school psychologists to assess learning-related problems and plan for their prevention and remediation. Various methods of assessment, including progress monitoring, will be discussed in addition to research-based interventions.

EDSS 6524

Practicum in School Psychology I

2 Semester Hours

Practicum is a year-long field experience and university seminar for second-year candidates in the school psychology program. Candidates will gain knowledge and experience, practice skills acquired in course work, and demonstrate beginning competency in a wide range of skills and services typically performed by a school psychologist.

Credit/No Credit.

EDSS 6525

Practicum in School Psychology II

2 Semester Hours

This course is a continuation of the year-long field experience and university seminar for second-year candidates in the school psychology program. Candidates will gain knowledge and experience, practice skills acquired in course work, and demonstrate beginning competency in a wide range of skills and services typically performed by a school psychologist.

Credit/No Credit.

EDSS 6526

Social Responsibility, Violence Prevention, and Crisis Intervention in Schools

3 Semester Hours

This graduate-level course is designed to support your learning and application of knowledge and skill in: 1) the concept of resiliency and how it protects; 2) prevention and early intervention in events such as violence, suicide, pregnancy, and others that may lead to individual crises; 3) best practice response and interventions of a school-based crisis team.

EDSS 6528

Social, Emotional, and Behavioral Assessment

3 Semester Hours

This course teaches candidates to administer and interpret assessments of students' social and emotional functioning in school. Students will use assessment results, in conjunction with other data sources to write comprehensive psychoeducational reports with concise conceptualization of how a student's social and emotional issues impact his/her school functioning.

EDSS 6530

Treatment of Emotional and Behavioral Disorders in Children and Adolescents

3 Semester Hours

In this course candidates will learn the federal and state educational code diagnostic criteria for classifying students as Emotionally Disturbed. Candidates will become familiar with psychiatric disorders common in childhood and adolescence. Candidates will learn DSM-IV diagnostic criteria, federal and state educational code criteria, basic etiology, common features, evidence-based treatments, and school-based interventions.

EDSS 6532

Seminar in School Systems and Psychological Services

3 Semester Hours

This course is designed to prepare candidates for internship in school psychology. Content will emphasize further role development, profes-

sional ethics and conduct, legal aspects of the practice of school psychology, principles and techniques of supervision, and selected topics in assessment and intervention.

EDSS 6534

Advanced Assessment and Positive Behavioral Intervention

3 Semester Hours

The primary goal of this course is to help candidates become proficient in conducting Functional Analysis Assessments, which includes designing and evaluating positive behavior support plans. Additionally, candidates learn about classroom management, needs of special populations (e.g., foster students, students with emotional disturbances), and school-wide prevention and intervention related to discipline, social skills, conflict resolution, aggression/violence, and school-engagement.

EDSS 6536

Special Issues and Best Practices in School Psychological Services

3 Semester Hours

This course covers advanced issues and recommended practices in the delivery of psychological support services in elementary and secondary school settings. Topics will include assessment for progress monitoring, serving low-incidence disabilities, assistive technology, assessment and intervention with CLD and preschool children. Additional topics will include: promoting reading and literacy development with students and families, psychopharmacology with school-age students, roles for school psychologists, and community building, including asset mapping to support educational goals.

EDSS 6538

Supervised Internship in School Psychology I

3 Semester Hours

This seminar is the final level of supervision for school psychology interns. Under the supervision of both field-based and university-based psychologists, candidates refine their practice and delivery of psychoeducational services in the school setting with the P-12 student population.

Credit/No Credit.

EDSS 6540

Supervised Internship in School Psychology II

3 Semester Hours

This seminar is a continuation from the previous semester designed to support school psychology interns. Support in preparation for graduation and entry into the profession of school psychology is emphasized.

Credit/No Credit.

EDSS 6820

Education of Students with Exceptional Needs in Catholic Schools

3 Semester Hours

An overview of the problems confronting educators in Catholic schools regarding students with exceptional needs, with a view to developing an understanding of the educational implications for instruction and program planning. An overview of major exceptionalities and implications of recent legislation will be emphasized.

EDSS 6821

Informal Assessment and Program Development in Catholic Schools

3 Semester Hours

A survey of strategies for assessing and teaching students with exceptional needs in Catholic schools. Course content includes principles and techniques for assessing learning and behavioral patterns, development

of individual learning programs, development and implementation of instructional strategies based on individual needs, and designing and using pupil performance criteria to evaluate pupil learning and behavior. Includes lecture and practicum.

EDSS 6822

Creating Successful Inclusion Programs

3 Semester Hours

This course will stimulate discussion and decision making about the mission of individual Catholic schools in providing an appropriate educational experience for all its students. This course will focus on essential components to be included in an individual school's inclusion plan.

EDSS 6823

Advanced Practicum in Catholic Inclusive Education

3 Semester Hours

This course is a practicum during which candidates will support staff at practicum sites in the identification, assessment, and intervention of learning differences. Candidates will participate as case managers and engage in trainings for assessment and intervention instruments.

EDSS 6940

Fieldwork in Mental Health Counseling I

3 Semester Hours

Work in this area will be developed around supervised on-site fieldwork experiences and seminar sessions on campus. Supervised fieldwork experiences will focus upon the direct application of classroom knowledge and training. Enrollment limited to advanced candidates. An application for fingerprint clearance must be submitted at least two semesters prior to enrolling in this course; the CBEST must have been passed, and a minimum of nine courses in the counseling sequence completed.

Credit/No Credit.

EDSS 6941

Fieldwork in College and University Counseling I

3 Semester Hours

Work in this area will be developed around supervised on-site fieldwork experiences and seminar sessions on campus. Supervised fieldwork experiences will focus upon the direct application of classroom knowledge and training. Enrollment limited to advanced candidates. An application for fingerprint clearance must be submitted at least two semesters prior to enrolling in this course; the CBEST must have been passed, and a minimum of nine courses in the counseling sequence completed.

Credit/No Credit.

EDSS 6942

Fieldwork in Multicultural and Social Justice Counseling I

3 Semester Hours

Work in this area will be developed around supervised on-site fieldwork experiences and seminar sessions on campus. Supervised fieldwork experiences will focus upon the direct application of classroom knowledge and training. Enrollment limited to advanced candidates. An application for fingerprint clearance must be submitted at least two semesters prior to enrolling in this course; the CBEST must have been passed, and a minimum of nine courses in the counseling sequence completed.

Credit/No Credit.

EDSS 6943

Fieldwork in Doctoral Preparatory Counseling I

3 Semester Hours

Work in this area will be developed around supervised on-site fieldwork experiences and seminar sessions on campus. Supervised fieldwork experiences will focus upon the direct application of classroom knowledge and training. Enrollment limited to advanced candidates. An application for fingerprint clearance must be submitted at least two semesters prior to enrolling in this course; the CBEST must have been passed, and a minimum of nine courses in the counseling sequence completed.

Credit/No Credit.

EDSS 6945

Fieldwork in Mental Health Counseling II

3 Semester Hours

Work in this area will be developed around supervised on-site fieldwork experiences and seminar sessions on campus. Supervised fieldwork experiences will focus upon the direct application of classroom knowledge and training. Enrollment limited to advanced candidates. An application for fingerprint clearance must be submitted at least two semesters prior to enrolling in this course; the CBEST must have been passed, and a minimum of nine courses in the counseling sequence completed.

Credit/No Credit.

EDSS 6946

Fieldwork in College and University Counseling II

3 Semester Hours

Work in this area will be developed around supervised on-site fieldwork experiences and seminar sessions on campus. Supervised fieldwork experiences will focus upon the direct application of classroom knowledge and training. Enrollment limited to advanced candidates. An application for fingerprint clearance must be submitted at least two semesters prior to enrolling in this course; the CBEST must have been passed, and a minimum of nine courses in the counseling sequence completed.

Credit/No Credit.

EDSS 6947

Fieldwork in Multicultural and Social Justice Counseling II

3 Semester Hours

Work in this area will be developed around supervised on-site fieldwork experiences and seminar sessions on campus. Supervised fieldwork experiences will focus upon the direct application of classroom knowledge and training. Enrollment limited to advanced candidates. An application for fingerprint clearance must be submitted at least two semesters prior to enrolling in this course; the CBEST must have been passed, and a minimum of nine courses in the counseling sequence completed.

Credit/No Credit.

EDSS 6948

Fieldwork in Doctoral Preparatory Counseling II

3 Semester Hours

Work in this area will be developed around supervised on-site fieldwork experiences and seminar sessions on campus. Supervised fieldwork experiences will focus upon the direct application of classroom knowledge and training. Enrollment limited to advanced candidates. An application for fingerprint clearance must be submitted at least two semesters prior to enrolling in this course; the CBEST must have been passed, and a minimum of nine courses in the counseling sequence completed.

Credit/No Credit.

EDSS 6955**Master's Thesis I***1 Semester Hour*

This course is intended for students working on a master's thesis. The committee chair provides ongoing support for the master's thesis.

Credit/No Credit.

Prerequisite: EDLA 6950.

EDSS 6956**Master's Thesis II***1 Semester Hour*

A continuation of Master's Thesis I for students who have not completed their master's thesis.

Credit/No Credit.

Special approval required.

EDSS 6957**Master's Thesis III***1 Semester Hour*

A continuation of Master's Thesis II for students who have not completed their master's thesis.

Credit/No Credit.

Special approval required.

EDSS 6970**Fieldwork in School Counseling I***3 Semester Hours*

Work in this area will be developed around supervised on-site fieldwork experiences and seminar sessions on campus. Supervised fieldwork experiences will focus upon the direct application of classroom knowledge and training. Enrollment limited to advanced candidates. An application for fingerprint clearance must be submitted at least two semesters prior to enrolling in this course; the CBEST must have been passed, and a minimum of nine courses in the counseling sequence completed.

Credit/No Credit.

EDSS 6972**Individualized Site-Based Experience***1 Semester Hour*

One hundred hours of community-based experience working with targeted populations are required for all candidates in the GCNS program. The experience will be designed to facilitate the application of classroom knowledge in various community settings. The chosen experience should be tailored to each candidate's background and future plans and should also be clearly related to the field of guidance and counseling. A proposal for this experience should be submitted to the Director of Field Work for approval. Site-based mentors need to be identified and approved.

Credit/No Credit.

Consent of Coordinator required.

EDSS 6980**Fieldwork in School Counseling II***3 Semester Hours*

Work in this area will be developed around supervised on-site fieldwork experiences and seminar sessions on campus. Supervised fieldwork experiences will focus upon the direct application of classroom knowledge and training. Enrollment limited to advanced candidates. An application for fingerprint clearance must be submitted at least two semesters prior to enrolling in this course; the CBEST must have been passed, and a minimum of nine courses in the counseling sequence completed.

Credit/No Credit.

EDSS 6984**Internship Fieldwork Supervision***1 Semester Hour*

A continuation of EDSS 6980, Fieldwork Specialization.

EDSS 6990**Fieldwork in School Counseling III***3 Semester Hours*

A continuation of EDSS 6970, Fieldwork in School Counseling I. Prior to enrollment, candidate must have completed EDSS 6980, Fieldwork Specialization. Concurrent enrollment in EDSS 6970, 6980, and 6990 is not permitted.

Credit/No Credit.

Special approval required.

EDSS 6995**Comprehensive Examination***0 Semester Hours*

The Comprehensive Examination is usually taken during, or immediately following, the last semester of coursework completion. It may be a written and/or oral examination. Candidates should register for the specific section required for their program.

Fee required.

Credit/No Credit.

Special approval required.

EDSS 6998**Special Studies***1-3 Semester Hours***EDSS 6999****Independent Studies***1-3 Semester Hours***Specialized Programs in Urban Education****EDUR 498****Special Studies***1-3 Semester Hours***EDUR 499****Independent Studies***1-3 Semester Hours*

EDUR 5004**Elementary School Literacy and Language Development***3 Semester Hours*

The theoretical basis of literacy and approaches, methods, and techniques for teaching literacy skills in diverse urban school settings, will be explored.

EDUR 5010**Theories of Teaching, Learning, and Assessment***3 Semester Hours*

Candidates will be exposed to current theories of teaching, learning, and assessment. Special attention will be given to the practical application of the theories in urban PK-12 school settings.

EDUR 5012**Culture and Language Learning in Urban Education***3 Semester Hours*

Sociological and anthropological analysis of the role that language and culture play in urban education. Second language acquisition will be explored in depth.

EDUR 5014**Multiple Subjects Curriculum and Instruction***3 Semester Hours*

This course covers curriculum and instruction in a multiple subjects classroom. Culturally and linguistically diverse student needs will be emphasized.

EDUR 5016**Teaching Students with Special Needs in Urban Education***3 Semester Hours*

This class will focus on the education of special needs students in urban K-12 classrooms.

EDUR 5018**Research in Urban Education***3 Semester Hours*

This is the capstone course in the Urban Education program. Students will be expected to complete a research project focusing in urban education.

EDUR 5501**Practicum: Educational Practices in Action in Secondary Math and Science Classrooms***3 Semester Hours*

Candidates learn how to model professional behavior that addresses job responsibilities and the expectations of mathematics or science secondary teachers working in a multilingual, multicultural, and economically diverse community.

EDUR 5503**Practicum: Differentiated Education in Action in Secondary Math and Science Urban Education***3 Semester Hours*

Candidates learn how to consistently strategically apply math or science teaching practices that involve students as active participants in the assessment process where both become advocates for student learning and achievement needs.

Consent of Coordinator required.

EDUR 5505**Research-Supported Math/Science Practices in Urban Education***3 Semester Hours*

This course helps candidates design and implement a mathematical or scientific learning environment that builds on the strengths that students bring to the teaching/learning process and reverses the achievement gap between subgroups within a school.

Consent of Coordinator required.

EDUR 5580**Teaching Mathematics and Science in Urban Schools***3 Semester Hours*

Candidates learn how to implement instruction that reverses the achievement gap and improve student engagement and achievement in mathematics or science by engaging students in a learning culture that values mathematical and scientific thinking.

EDUR 5581**Mentorship in Math and Science Education***3 Semester Hours*

This course is designed to build authentic and trusting relationships that value a teacher's paradigm within the context of expected exceptional practice aligned with effective student learning. The use of data to create and move through disequilibrium to strengthen student learning of math or science will be discussed.

EDUR 5582**Collaboration in Math and Science Education***3 Semester Hours*

Candidates learn how to design, plan, and implement a learning environment based on cooperative planning, constant collaboration, close unity, unrestrained communication, and sincere sharing. Candidates learn how to collaborate on learning, risk-taking, innovation, and change within the context of interdependence.

Consent of Coordinator required.

EDUR 5998**Special Studies***1-3 Semester Hours***EDUR 5999****Independent Studies***1-3 Semester Hours***EDUR 6102****The Context of Schooling***3 Semester Hours*

This course focuses on the governmental, political, financial, legal, and historical perspectives of education in the United States. Students are given opportunities to integrate course topics and relate policy initiatives to the welfare of all students in responsible and ethical ways. School governance and management of human and fiscal resources in culturally diverse settings are stressed.

EDUR 6251**Secondary School Curriculum and Methods for Math and Science**

3 Semester Hours

Objectives, methods, materials, and problems involved in teaching math and science in the secondary schools. Explores methods of long and short range planning, course overviews, unit plans and lesson planning. Presents alternative strategies of instruction and methods of diagnosing needs and evaluating learning. Current approaches to classroom discipline, management, and organization are studied.

EDUR 6252**Secondary School Curriculum and Methods for Language Arts and Social Studies***3 Semester Hours*

Objectives, methods, materials, and problems involved in teaching language arts and social studies in the secondary schools. Explores methods of long and short range planning, course overviews, unit plans and lesson planning. Presents alternative strategies of instruction and methods of diagnosing needs and evaluating learning. Current approaches to classroom discipline, management, and organization are studied.

EDUR 6324**Technology in Multilingual Settings***3 Semester Hours*

Offered as an elective, this course emphasizes the use of instructional technologies with multilingual population. Of particular emphasis is the bridging of the Digital Divide, access and equity in technology with diverse populations, and uses of instructional technology within dual language contexts.

EDUR 6327**Learning and Teaching with Technology***3 Semester Hours*

In this course, constructivism will be explored as a foundation for teaching and learning with technology. The course will explore how technology can be used to promote the notion that students construct knowledge rather than just receive knowledge passively.

EDUR 6328**Survey of Digital Technologies for Urban Education***3 Semester Hours*

This course explores how different technologies can be used to promote equity in teaching and learning in urban schools. As technology evolves, candidates study how new forms of technology, beyond the personal computer, can be used for teaching and learning. Candidates will create projects using these new technologies.

EDUR 6329**Assistive Technology***3 Semester Hours*

Students with special needs benefit the most from the use of technology for teaching and learning. In this course, candidates learn the principles of universal design for learning, review federal and state laws regarding the education of students with special needs, and the use of appropriate technology to promote high standards for all students.

EDUR 6955**Master's Thesis I***1 Semester Hour*

This course is intended for students working on a master's thesis. The committee chair provides ongoing support for the master's thesis.

Credit/No Credit.

Prerequisite: EDLA 6950.

EDUR 6956**Master's Thesis II***1 Semester Hour*

A continuation of Master's Thesis I for students who have not completed their master's thesis.

Credit/No Credit.

Special approval required.

EDUR 6957**Master's Thesis III***1 Semester Hour*

A continuation of Master's Thesis II for students who have not completed their master's thesis.

Credit/No Credit.

Special approval required.

EDUR 6960**Introduction to Teaching and Learning***3 Semester Hours*

This course is for candidates who are employed as full-time teachers either in a private/parochial school or with an emergency permit or intern credential in a public school. This prerequisite should be one of the first courses in the combined master's/teaching credential program sequence. Seminars focus on analysis of effective classroom practices and problem solving. Initial on-site assessment will be made by a university supervisor as to professional competency in all phases of the multiple or single subject credential program. Areas for professional growth and development are identified and addressed individually through portfolio assessment. Candidates must submit a school-site supervisor/mentor contract agreement. Additionally, for private/parochial school teachers, this course requires 30 hours of public school observation/participation and a comprehensive journal. Application for fingerprint clearance must be submitted by private/parochial teachers immediately upon enrollment in this course.

Credit/No Credit.

Special approval required.

EDUR 6961**Fieldwork Supervision: Portfolio and Assessment of Teaching***3 Semester Hours*

This course is for candidates who are employed as full-time teachers either in a private/parochial school or with an emergency permit or intern credential in a public school. This should be the last course in the combined Masters/teaching credential program sequence. Supervised field experience, portfolio assessment of personal growth, development, problem solving and documentation of teaching competencies will be completed during this course. Candidates must submit a school site supervisor/mentor contract agreement. Additionally, for private/parochial school teachers, this course requires 30 hours of public school observation/participation and a comprehensive journal. The EDUR 6960/6961 course sequence meets the California State requirement of student teaching for multiple and single subject credential candidates. Only one other course may be taken during the semester of fieldwork supervision.

Special approval required.

Prerequisites: EDUR 6960, all professional education courses in program sequence, including Health Education (EDES 8000), formal documentation of completed subject matter competency, and passage of all appropriate examinations.

EDUR 6963

Seminar in Advanced Teaching Methodologies

3 Semester Hours

Candidates build on the material that was learned in the methodology course for the teaching credential program. In this course, candidates are presented with more strategies that promote high standards for all students. The theories behind these strategies are also discussed.

EDUR 6968

Action Research in Urban Education

3 Semester Hours

In this course, candidates will learn how to use self-reflection to improve their practice as urban classroom teachers. Using real classroom experiences, candidates will learn how to systematically and collaboratively identify a problem, collect data, and evaluate solutions. Emphasis is placed on journal writing, observation skills, and methods for sharing the action research project. Case studies will be examined, and candidates will create an action research project in an urban education setting.

EDUR 6995

Comprehensive Examination

0 Semester Hours

The Comprehensive Examination is usually taken during, or immediately following, the last semester of coursework completion. It may be a written and/or oral examination. Candidates should register for the specific section required for their program.

Fee required.

Credit/No Credit.

Special approval required.

EDUR 6998

Special Studies

1-3 Semester Hours

EDUR 6999

Independent Studies

1-3 Semester Hours

SCHOOL OF FILM AND TELEVISION COURSES

Animation

ANIM 100

History of Animation

3 Semester Hours

A survey of the historical developments, styles, techniques, theory and criticism of animation as an art form. History and use of creative arts used in animation to form effective communication in film and video.

ANIM 110

Visual Development for Animation

3 Semester Hours

Introduction to visual techniques: color theory, design composition, and storyboarding.

ANIM 120

Beginning Animation Workshop

3 Semester Hours

An introduction to animation process: organization and integration of various creative arts used in animation; possibilities in style, media, technique, and equipment.

ANIM 198

Special Studies

1-3 Semester Hours

ANIM 199

Independent Studies

1-3 Semester Hours

ANIM 220

Intermediate Animation Workshop

3 Semester Hours

Intermediate workshop in the art of traditional animated film production. Topics of study include digital sound production, motion and articulation strategies, camera and post-production techniques.

Prerequisite: ANIM 120.

ANIM 230

Introduction to Three-Dimensional Computer Animation

3 Semester Hours

Introduction to 3D digital film production. Topics of study include: modeling techniques, image processing and manipulation strategies, motion and articulation solutions, digital production techniques, texture, lighting and rendering methods, compression technology, and systems for computer-created animation.

Prerequisite: ANIM 220.

ANIM 231

Introduction to Two-Dimensional Computer Animation

3 Semester Hours

Introduction to 2D digital film production. Topics of study include: image processing and manipulation, motion and articulation strategies, digital production techniques, rendering, and compression techniques.

Prerequisite: ANIM 220.

ANIM 250

Introduction to Interactive Animation

3 Semester Hours

This course will cover nonlinear storytelling for animators and filmmakers. An emphasis will be placed on interactive scripting to create user involvement in the unfolding narrative.

ANIM 260

Digital Toolbox

3 Semester Hours

Introduction to principles and practices of digital imaging as applicable to film and video.

ANIM 298

Special Studies

1-3 Semester Hours

ANIM 299

Independent Studies

1-3 Semester Hours

ANIM 310

Intermediate Storyboard

3 Semester Hours

An introduction to professional storyboarding for animation. Students will create storyboards from scripts and from non-scripted ideas; apply storyboarding logic to pre-written scripts and to their own creative ideas; and identify and correct such technical problems as crossing the line, hook-up issues, jump cuts, shot redundancy, and poor composition.

ANIM 320

Mechanics of Animation

3 Semester Hours

Workshop in the art of animated film production.

Prerequisite: ANIM 220.

ANIM 330

Intermediate Three-Dimensional Computer Animation

3 Semester Hours

Further practical study in computer animation including: modeling; advanced articulation methods, techniques, and solutions; lighting; texture mapping; compositing; and rendering solutions.

Prerequisite: ANIM 230.

ANIM 331

Intermediate Two-Dimensional Computer Animation

3 Semester Hours

2D digital film production. Topics of study include: image processing and manipulation, motion and articulation strategies, digital production techniques, rendering, and compression techniques.

Prerequisite: ANIM 231.

ANIM 350

Interactive Animation I

3 Semester Hours

Introduction to creative and technical aspects of interactive animation technology.

Prerequisites: ANIM 230 or 231.

ANIM 352

Game Design

3 Semester Hours

The iterative process of game design will allow students to develop prototypes of their original games and storylines. Important topics include design issues, balanced play, theming, game theory, intellectual property, and playtesting.

ANIM 360

Character Design

3 Semester Hours

An introduction to the principles of classical character design.

ANIM 370

Character Animation

3 Semester Hours

An introduction to the principles of classical character animation, creating the illusion of life and believability.

ANIM 380

Visual Effects

3 Semester Hours

Concepts and approaches to production work in cinematic visual effects. A combination of digital and traditional methods will be discussed, with a concentration on exercises using computer graphics to illustrate these techniques.

ANIM 398

Special Studies

1-3 Semester Hours

ANIM 399

Independent Studies

1-3 Semester Hours

ANIM 410

Advanced Storyboard

3 Semester Hours

Advanced research and practice in creating and planning animated film and video. Professional experience in storyboard production.

Prerequisite: ANIM 310.

ANIM 420

Experimental Animation

3 Semester Hours

Workshop in the art of animated film production.

ANIM 443

History and Analysis of Video Games

3 Semester Hours

This course will cover genre studies and relevant topics in the development of the past, present, and future of the videogame industry.

ANIM 450

Interactive Animation II

3 Semester Hours

Production and design using interactive animation technology.

Prerequisite: ANIM 350.

ANIM 490

Animation Internship

3 Semester Hours

Professional experience in animation. Animation internship. Portfolio and demo reel development. Vocational strategies.

Senior standing required.

ANIM 495

Senior Thesis/Project—Pre-Production

3 Semester Hours

Practical experience in animation pre-production. This course centers on the animation thesis project. Development, direction, production of a sophisticated, well-produced film or project. Students are free to determine style, format, and genre of project.

The student must provide a professional copy of all senior thesis-level projects to the School of Film and Television in partial fulfillment of degree requirements.

ANIM 496

Senior Thesis/Project II

3 Semester Hours

Continuation of practical experience in animation production. Completion of animation thesis project.

The student must provide a professional copy of all senior thesis-level projects to the School of Film and Television in partial fulfillment of degree requirements.

Prerequisite: ANIM 495.

FTVS 200

Survey of Mass Media

3 Semester Hours

Examination of the structure, function, and effects of the mass media.

FTVS 210

Art of the Cinema

3 Semester Hours

An introduction to the elements of film language and aesthetics as well as an examination of film as a powerful cultural artifact. Screenings, readings, and lecture/discussion.

Lab fee.

FTVS 212

Art of Television

3 Semester Hours

An introduction to the aesthetic and cultural elements of television. Screenings, readings, and lecture/discussion.

Lab fee.

FTVS 313

History of American Film

3 Semester Hours

A critical and historical survey of American film. Screenings, lectures, and discussions.

Lab fee.

FTVS 314

History of International Film

3 Semester Hours

A critical and historical survey of international film. Screenings, lectures, and discussions.

Lab fee.

FTVS 315

History of the Documentary

Motion Picture Analysis

3 Semester Hours

Critical analysis of representative current movies joined, whenever possible, by class encounters with the filmmakers themselves.

Prerequisite: FTVS 210 or 212.

FTVS 412**Film Authors***3 Semester Hours*

An in-depth study of films of a specific film author (director, writer, etc.). Screenings, lectures, and discussions.

Lab fee.

May be repeated only when a different author is studied.

FTVS 417**History of Broadcasting***3 Semester Hours*

An introduction to the history and structures of the broadcasting industry. Screenings, readings, lecture/discussion.

FTVS 418**Close Textual Analysis***3 Semester Hours*

An in-depth analysis of a few film and TV texts.

FTVS 419**Special Topics: Theory***3 Semester Hours*

The examination and application of specific theoretical topics (e.g., feminism, post-modernism, modernism, race and ethnic studies, post-colonial studies, etc.) to film and TV texts. Screenings, readings, lectures/discussion.

FTVS 420**European Cinema***3 Semester Hours*

A critical and historical survey of European cinema. Screenings, readings, lecture/discussion.

FTVS 421**Asian Cinema***3 Semester Hours*

A critical and historical survey of Asian cinema. Screenings, readings, lecture/discussion.

FTVS 422**African Cinema***3 Semester Hours*

A critical and historical survey of African cinema. Screenings, readings, lecture/discussion.

FTVS 423**Latin American Cinema***3 Semester Hours*

A critical and historical survey of Latin American cinema. Screenings, readings, lecture/discussion.

FTVS 425**International TV***3 Semester Hours*

A critical and historical survey of international TV. Screenings, readings, lecture/discussion.

FTVS 429**Special Topics: National Cinema***3 Semester Hours*

An in-depth study of the films of one nation. Screenings, readings, lecture/discussion.

FTVS 430**The Western Film***3 Semester Hours*

A critical and historical survey of the Western film. Screenings, readings, lecture/discussion.

FTVS 431**Film Melodrama***3 Semester Hours*

A critical and historical survey of film melodrama as a specific genre or approach to genre. Screenings, readings, lecture/discussion.

FTVS 432**The Musical Film***3 Semester Hours*

A critical and historical survey of musical film. Screenings, readings, lecture/discussion.

FTVS 433**The Horror Film***3 Semester Hours*

A critical and historical survey of the horror film. Screenings, readings, lecture/discussion.

FTVS 434**Film Comedy***3 Semester Hours*

A critical and historical survey of the film comedy. Screenings, readings, lecture/discussion.

FTVS 435**Film Noir***3 Semester Hours*

A critical and historical survey of film noir. Screenings, readings, lecture/discussion.

FTVS 436**Science Fiction Film***3 Semester Hours*

A critical and historical survey of science fiction film. Screenings, readings, lecture/discussion.

FTVS 439**Special Topics: Film Genre**

3 Semester Hours

An in-depth study of a specific film genre, other than those regularly offered (e.g., suspense thriller). Screenings, readings, lecture/discussion.

FTVS 440

TV Sitcoms

3 Semester Hours

A critical and historical survey of TV sitcoms. Screenings, readings, lecture/discussion.

FTVS 441

TV Crime Shows

3 Semester Hours

A critical and historical survey of TV crime shows. Screenings, readings, lecture/discussion.

FTVS 442

TV Westerns

3 Semester Hours

A critical and historical survey of TV Westerns. Screenings, readings, lecture/discussion.

FTVS 443

Soap Operas

3 Semester Hours

A critical and historical survey of TV soap operas. Screenings, readings, lecture/discussion.

FTVS 444

Reality TV

3 Semester Hours

A critical and historical survey of reality TV. Screenings, readings, lecture/discussion.

FTVS 445

Science Fiction TV

3 Semester Hours

A critical and historical survey of science fiction TV. Screenings, readings, lecture/discussion.

FTVS 446

Japanese Anime

3 Semester Hours

A critical and historical survey of Japanese anime. Screenings, readings, lecture/discussion.

FTVS 447

African American Images on TV

3 Semester Hours

A critical and historical survey of African American images on TV. Screenings, readings, lecture/discussion.

FTVS 449

Special Topics: TV Genre

3 Semester Hours

An in-depth study of a specific TV genre not regularly offered (e.g., news, docudrama, etc.). Screenings, readings, lecture/discussion.

FTVS 473

Women in Film

3 Semester Hours

A critical and historical survey of representations of women in film as well as an examination of works of woman directors in an international context. Screenings, readings, lecture/discussion.

FTVS 498

Special Studies

1-3 Semester Hours

FTVS 499

Independent Studies

1-3 Semester Hours

FTVS 512

Seminar in Television Genres

3 Semester Hours

The role of television as a popular art is explored through theoretical understandings of television genres including drama, situation comedy, news talk shows, sports, children's shows, daytime serials, one-hour dramas, etc.

FTVS 513

Seminar in American Film

3 Semester Hours

An examination of the history and development of American film from the silent era to the present. Screenings, lectures, and discussions.

Lab fee.

FTVS 514

Seminar in International Film

3 Semester Hours

An examination of the history and development of international film from the silent era to the present. Screenings, lectures, and discussions.

Lab fee.

FTVS 515

Seminar on the Documentary

3 Semester Hours

Advanced critical and analytical study of the evolution of documentary film/television. Screenings, lectures, and discussions.

Lab fee.

FTVS 517

Seminar in TV Programming

3 Semester Hours

Advanced critical and analytical study of broadcast programming in the United States and abroad. Screenings, lectures, and discussions.

Lab fee.

FTVS 518**Analysis of Video Games***3 Semester Hours*

An examination of the history, development, aesthetics, and power of video games, including their relationship to other media texts, including movies and television. Screenings, lectures, and discussions.

Lab fee.

FTVS 598**Special Studies***1-3 Semester Hours***FTVS 599****Independent Studies***1-3 Semester Hours***FTVS 610****Film/TV Topical Seminar***3 Semester Hours*

Seminar in current issues in cinema and television; focus changes per offering.

FTVS 611**Seminar in Film Genre***3 Semester Hours*

Advanced study in a film genre. Screenings, films, and lectures.

Lab fee.

FTVS 612**Seminar in Film Authors***3 Semester Hours*

Advanced study of films of specific filmmakers. Screenings, lectures, and discussions.

FTVS 613**Seminar in National Film***3 Semester Hours*

Advanced study of the films of a specific nationality. Screenings, lectures, and discussion.

Lab fee.

FTVS 614**Seminar in Television and Video***3 Semester Hours*

Topical seminar focusing on critical analysis of topical media genres. Screenings, lectures, and discussions.

Lab fee.

FTVS 698**Special Studies***1-3 Semester Hours***FTVS 699****Independent Studies***1-3 Semester Hours***Film and Television Production****PROD 180****Pre-Production***3 Semester Hours*

This course is intended to expose students to the complete process of pre-production through a basic understanding of all departments and their roles. The students will learn procedures of Production regarding equipment, safety, and production rules and regulations. The course provides an overview of location scouting, production design, and pre-visualization.

Lab fee.

Majors only.

PROD 198**Special Studies***0-3 Semester Hours***PROD 199****Independent Studies***1-3 Semester Hours***PROD 200****Introduction to Film Production***3 Semester Hours*

An introduction to the aesthetic and practical problems of communicating visually through motion pictures. Each student is required to produce several movies.

Lab fee.

Insurance fee.

Majors only.

Prerequisites: FTVS 210 or 212; PROD 180.

PROD 201**Introduction to Film Production Lab***0 Semester Hours*

Training in the technical aspects of beginning film production: camera, sound, and lighting.

PROD 230**Media Innovation: Small Format Video and the Web***3 Semester Hours*

Media Innovation is a creative, technical, and critical exploration of the practice of using small-form capture devices (cell phone, digital still camera, etc.) to create media for display on the web and other evolutionary viewing platforms. Each student is required to produce and edit a series of videos for posting on their own videoblog.

PROD 240**Images of Faith and Justice**

3 Semester Hours

This course offers students the opportunity to explore faith and justice issues. The course includes a component of Community-Based Learning (CBL).

PROD 250**Introduction to Television Production***3 Semester Hours*

An introduction to the aesthetic and practical problems of communications in the multi-camera television studio.

Lecture and Laboratory, 6 hours.

Lab fee.

Insurance fee.

Majors only.

Prerequisites: FTVS 210 or 212; PROD 180.

PROD 298**Special Studies***1-3 Semester Hours***PROD 299****Independent Studies***1-3 Semester Hours***PROD 300****Intermediate Narrative Film Production***3 Semester Hours*

Practicum in the production of films from initial concept through post-production. Lectures on professional production procedures are linked to personal experience on an actual film project. Project maximum length, 10 minutes.

Lab fee.

Insurance fee.

Majors only.

Prerequisites: PROD 200 and 250 completed with a grade of B (3.0) or better, 365, and 366; SCWR 327.

PROD 326**Documentary Pre-Production***3 Semester Hours*

This course surveys the theory and practice of writing for the documentary and other forms of non-fiction media in television and film.

Majors only.

Prerequisites: PROD 200 and 250; SCWR 220.

PROD 350**Intermediate Documentary Production***3 Semester Hours*

Planning, producing, and editing a documentary or experimental video production on actual locations.

Lecture and Laboratory, 4 hours.

Lab fee.

Insurance fee.

Majors only.

Prerequisites: PROD 200 and 250 completed with a grade of B (3.0) or better, 326, 365, and 366.

PROD 365**Cinematography***3 Semester Hours*

An introduction to 16mm motion picture cameras, film stocks, lighting, and grip equipment. Location and studio procedures for both sync and non-sync situations.

Lecture and Lab, 5 hours.

Lab fee.

Insurance fee.

Majors only.

Prerequisites: PROD 200 or 250 completed with a grade of B (3.0) or better.

PROD 366**Post-Production***3 Semester Hours*

Post-production theory and practice as applied to film.

Note: A one-time substantial fee for editing supplies to be used in this and subsequent film production courses is required. An additional lab fee for this class is also required.

Insurance fee.

Majors only.

Prerequisite: PROD 200 or 250 completed with a grade of B (3.0) or better.

PROD 368**Production Planning***3 Semester Hours*

Pre-production theory and practice as applied to film/television. Special emphasis on the latest production facilities and their use.

Majors only.

Prerequisites: PROD 200 or 250 completed with a grade of B (3.0) or better.

PROD 379**Fundamentals of Directing***3 Semester Hours*

Survey of pre-production preparation for directors, including script analysis, casting, visualization, and working with actors.

Lab fee.

Insurance fee.

Majors only.

Prerequisites: PROD 200 or 250 completed with a grade of B (3.0) or better.

PROD 398

Special Studies

1-3 Semester Hours

PROD 399

Independent Studies

1-3 Semester Hours

PROD 400

Advanced Narrative Film Production

3 Semester Hours

Preparation of the shooting script, casting, scheduling, budgeting, art design, pre-visualization, and other preparation prior to principal photography.

Practical experience in motion picture production on a para-professional level including writing, directing, and editing a film. Sync sound project, maximum length 15 minutes.

Note: Insurance required for off-campus use of equipment. The student must provide a professional copy of all senior thesis-level projects to the School of Film and Television in partial fulfillment of degree requirements.

Lab fee.

Majors only.

Seniors only.

Prerequisites: PROD 300 or 350; RECA 367.

PROD 410

Film/TV Topical Seminar

3 Semester Hours

PROD 450

Advanced Documentary Production

3 Semester Hours

Writing the thesis (documentary) project and preparing the script for production.

Practical experience in motion picture production on a para-professional level including writing, directing, and editing a documentary or experimental piece. Project maximum length 15 minutes.

Note: Insurance required for off-campus use of equipment. The student must provide a professional copy of all senior thesis-level projects to the School of Film and Television in partial fulfillment of degree requirements.

Lab fee.

Majors only.

Seniors only.

Prerequisites: PROD 300 or 350, 379; RECA 367.

PROD 460

Directed Study in Production

3 Semester Hours

This class will fulfill your thesis requirement in lieu of PROD 400 or 450. The course is an intensive investigation in one or more areas of production based upon a mentorship, interviews, practical experience, and a final research paper and presentation. It is an alternative form for the student to gain in-depth knowledge of the professional practices within the entertainment industry.

The student must provide a professional copy of all senior thesis-level projects to the School of Film and Television in partial fulfillment of degree requirements.

Seniors only.

Majors only.

Prerequisites: PROD 300 or 350 and RECA 367.

PROD 466

Advanced Editing

3 Semester Hours

Further studies in aesthetics and the techniques of editing for film and/or TV.

Lab fee.

Insurance fee.

Majors only.

Seniors only.

Prerequisites: PROD 300 or 350; RECA 367.

PROD 467

Post-Production Sound

3 Semester Hours

Advanced sound theory with actual experience in sound re-recording for both film and television.

Prerequisite: RECA 367.

PROD 469

Advanced Cinematography

3 Semester Hours

Further studies in the techniques of camera and lighting for film and video.

Lab fee.

Insurance fee.

Majors only.

Seniors only.

Prerequisites: PROD 300 or 350; RECA 367.

PROD 476

Post-Production Effects

3 Semester Hours

This course addresses the process of communication through typographic animation and visual effects. Emphasis is placed on creating emotional expression and identity through composites of video, text, and special effects.

Lab fee.

Insurance fee.

Majors only.

Seniors only.

Prerequisites: PROD 300 or 350; RECA 367.

PROD 479

Advanced Directing

3 Semester Hours

This course provides a supportive and open workshop environment in which advanced level Film and TV students explore two of the film's director's most essential tasks—script analysis and directing actors.

Majors only.

Seniors only.

Prerequisites: PROD 300 or 350; RECA 367.

PROD 480

Advanced Production Technique Seminar

1-3 Semester Hours

One- to three-semester hour seminar/workshop course in special advanced technique seminar in production and post-production topics.

School of Film and Television students only.

Juniors and seniors only.

PROD 490

Entertainment Internship

0 Semester Hours

This course offers a supervised internship within the entertainment industry administered by the Office of Industry Relations.

May be repeated three times for degree credit.

Credit/No Credit grading.

PROD 491

Entertainment Career Internship

1-3 Semester Hours

This course offers a supervised internship within the entertainment industry administered by the Office of Industry Relations. It provides the necessary resources and tools for students to maximize their career seeking skills within the entertainment industry through internship advisement, resume and cover letter support, and reflection on the internship experience.

May be repeated three times for degree credit.

Credit/No Credit grading.

PROD 495

Post-Finishing the Film

3 Semester Hours

The course covers the major concepts and techniques used in creating visual and audio compositing effects in post-production for a completed work that is ready for distribution, festivals, and duplication.

Prerequisite: PROD 400 or 450.

PROD 498

Special Studies

1-3 Semester Hours

PROD 499

Independent Studies

1-3 Semester Hours

PROD 500

Production

6 Semester Hours

Introduction to the aesthetic and practical problems of communicating visually through motion pictures. Production and post-production theory and practice as applied to film and television. Involves group projects.

PROD 530

Documentary Pre-Production

3 Semester Hours

Research and development for written proposals.

Prerequisite: PROD 500.

PROD 550

Production II

3 Semester Hours

Practicum in production of student projects (fiction and non-fiction) from initial concept through post-production. Advanced production and post-production theory and practice as applied to film and television. Involves individual and/or group projects.

Prerequisite: PROD 500.

PROD 565

Cinematography

3 Semester Hours

An introduction to 16mm motion picture cameras, digital cameras, film stocks, lighting, and grip equipment. Location and studio procedures for both sync and non-sync situations.

Lecture and Laboratory, 5 hours.

Lab fee.

Insurance fee.

Majors only.

Prerequisite: PROD 500.

PROD 598

Special Studies

1-3 Semester Hours

PROD 599

Independent Studies

1-3 Semester Hours

PROD 600

Production III

6 Semester Hours

Further practical experience in fiction and non-fiction production and post-production, including the producing, directing, and editing of a film or documentary project.

Note: Insurance is required for equipment.

Prerequisite: PROD 530 or SCWR 530.

PROD 626

Documentary Pre-Production II

3 Semester Hours

This course surveys the theory and practice of writing for the documentary and other forms of non-fiction media in television and film.

Graduate majors only.

Prerequisite: PROD 600.

PROD 650

Thesis: Production

3 Semester Hours

Pre-production and production of a major project for fiction or non-fiction (30 minute limit).

Consent of Graduate Committee required.

Prerequisite: PROD 626 or SCWR 620.

PROD 666

Advanced Editing

3 Semester Hours

Further studies in the techniques of editing for film and/or television.

Lab fee.

Insurance fee.

Prerequisite: PROD 550.

PROD 668

Pre-Production Planning

3 Semester Hours

Further studies in production planning for film/television.

PROD 669

Advanced Cinematography

3 Semester Hours

Further studies in the techniques of camera and lighting for film and video.

Graduate majors only.

Prerequisite: PROD 550.

PROD 670

Thesis: Post-Production

3 Semester Hours

Editing and completing the thesis. Additional registration required until project is completed.

Consent of Graduate Committee required.

Prerequisite: PROD 650.

PROD 671

Thesis: Post-Production II

3 Semester Hours

Registration is required until Thesis Project is completed.

Prerequisite: PROD 670.

PROD 680

Seminar in Directing

3 Semester Hours

Directorial analysis of and practical experience in the special problems of directing actors for the camera. Can emphasize film, TV, or the different problems involved in each medium.

Lab fee.

Insurance fee.

Prerequisite: PROD 550.

PROD 685

Advanced Production Technique Seminar

1-3 Semester Hours

Further studies in the techniques of camera and lighting for film and video.

Lab fee.

Insurance fee.

Majors only.

Prerequisite: PROD 550.

PROD 688

Intern Practicum

3 Semester Hours

Internship in some phase of film, television, or communications industry.

Prerequisite: Completion of 18 semester hours of graduate courses.

PROD 690

Post-Production Effects

3 Semester Hours

This course addresses the process of communication through typographic animation and visual effects. Emphasis is placed on creating emotional expression and identity through composites of video, text, and special effects.

Lab fee.

Insurance fee.

Graduate majors only.

Prerequisite: PROD 500.

PROD 698**Special Studies***1-3 Semester Hours***PROD 699****Independent Studies***0-3 Semester Hours***Recording Arts****RECA 250****Sound Design***3 Semester Hours*

An introduction to the aesthetic, pragmatic, and technical issues of motion picture sound recording, editing, and mixing.

School of Film and Television majors only.

Prerequisites: FTVS 200, 210, or 212.

RECA 258**Digital Sound Editing***3 Semester Hours*

Introduction to sound effects and dialog editing using random access digital sound and picture.

RECA students only.

Prerequisite: RECA 250.

RECA 298**Special Studies***1-3 Semester Hours***RECA 299****Independent Studies***1-3 Semester Hours***RECA 320****The Nature of Sound***3 Semester Hours*

The behavior of sound in various environments and techniques of modifying sound.

RECA students only.

Prerequisite: RECA 258.

Corequisites: RECA 322 and 353.

RECA 322**Recording Technology***3 Semester Hours*

The electronic theories of sound recording and reproduction.

RECA students only.

Prerequisite: RECA 258.

Corequisites: RECA 320 and 353.

RECA 353**Production Sound Techniques***3 Semester Hours*

Production sound theory and practice, with actual experience in recording, producing sound, and introduction to initial post-production procedures for film and TV.

Prerequisite: RECA 258.

Corequisites: RECA 320 and 322.

RECA 358**Post-Production Sound***3 Semester Hours*

Advanced applications in film and television sound post-production: ADR, Foley, dialog and sound effects editing, and mixing.

RECA students only.

Prerequisites: RECA 320, 322, and 353.

Corequisite: RECA 361.

RECA 361**Live and Studio Recording***3 Semester Hours*

The theory and practice of live and studio recording with no overdubs.

Live sound reinforcement practice of an outdoor concert session.

Lecture and Laboratory, 6 hours.

RECA students only.

Prerequisites: RECA 320, 322, and 353.

Corequisite: RECA 358.

RECA 367**Production Sound***3 Semester Hours*

Production sound theory and practice, with actual experience in recording, producing sound, and introduction to initial post-production procedures for film and TV.

PROD students only.

Prerequisites: PROD 200 completed with a grade of B (3.0) or better; RECA 250.

RECA 393**Movie Music***3 Semester Hours*

Study of understanding the main principles of music as a functional element in films. This class involves looking at and analyzing films and film clips; over the course of the semester, around 200 clips will be presented in class.

RECA 397**Recording Arts Internship**

RECA 398

Special Studies

1-3 Semester Hours

RECA 399

Independent Studies

1-3 Semester Hours

RECA 461

Multi-Track Studio Recording

3 Semester Hours

Music production and sound engineering using multi-track studio recording techniques.

Lecture and Laboratory, 6 hours.

RECA students only.

Prerequisites: RECA 358 and 361.

RECA 464

Advanced Audio

3 Semester Hours

Supervised and advanced projects in audio applications.

RECA students only.

Prerequisite: RECA 461.

Corequisite: RECA 470.

RECA 468

Advanced Post-Production Sound

3 Semester Hours

Further studies in sound and practical experience in post-production sound.

Prerequisite: RECA 358 or 367.

RECA 470

Senior Recording Arts Project

3 Semester Hours

Supervised project in multi-track recording and production or film production and post-production sound. The student will author a DVD containing all the work completed as a partial fulfillment of RECA degree requirements.

RECA students only.

Prerequisite: RECA 461.

Corequisite: RECA 464.

RECA 493

Contemporary Issues: Recording Arts

3 Semester Hours

Further studies in sound recording theory and practice.

Prerequisite: RECA 461.

RECA 497

Recording Arts Internship

RECA 498

Special Studies

1-3 Semester Hours

RECA 499

Independent Studies

1-3 Semester Hours

RECA 500

Sound I

3 Semester Hours

An introduction to the aesthetic, pragmatic, and technical issues of motion picture sound recording, editing, and mixing.

PROD Graduate students only.

Prerequisite: PROD 500.

RECA 567

Seminar in Sound

3 Semester Hours

Production sound theory and practice, with actual experience in recording, producing sound, and advanced post-production procedures for TV and film; ADR, Foley, dialog and sound effects editing, and mixing.

PROD Graduate students only.

Prerequisite: RECA 500.

RECA 568

Advanced Post-Production Sound

3 Semester Hours

Further studies in sound and practical experience in post-production sound.

PROD and RECA students only.

Prerequisites: RECA 500 and 567.

RECA 593

Movie Music

3 Semester Hours

Study of understanding the main principles of music as a functional element in films. This class involves looking at and analyzing films and film clips; over the course of the semester, around 200 clips will be presented in class.

RECA 597

Recording Arts Internship

1-3 Semester Hours

RECA 598

Special Studies

1-3 Semester Hours

RECA 599**Independent Studies***1-3 Semester Hours***Screenwriting****SCWR 220****Beginning Screenwriting***3 Semester Hours*

Practicum in the basics of screenwriting; idea, outline, plot, characterization, etc. Analysis of scripts.

Lab fee.

SCWR 298**Special Studies***1-3 Semester Hours***SCWR 299****Independent Studies***1-3 Semester Hours***SCWR 320****Intermediate Screenwriting***3 Semester Hours*

Practical experience in writing feature film scripts with analysis of plot, character development, and structure.

Lab fee.

Majors/minors only.

Prerequisite: SCWR 220.

SCWR 321**Completing or Rewriting the Feature***3 Semester Hours*

Practical experience in completing or rewriting a feature-length screenplay.

May be repeated once.

Majors/minors only.

Prerequisite: SCWR 320.

SCWR 322**Genre Screenwriting***3 Semester Hours*

Elements of writing popular film genres.

Prerequisite: SCWR 320.

SCWR 325**Writing the TV Situation Comedy***3 Semester Hours*

Practical experience in writing in various comic forms with emphasis on television situation comedy.

Majors/minors only.

Prerequisite: SCWR 220.

SCWR 327**Writing for Production I***3 Semester Hours*

Elements of screenwriting as applied to short films intended for production.

Prerequisite: SCWR 220.

SCWR 329**Directing for Screenwriters***3 Semester Hours*

An in-depth workshop/lecture demonstration on production and post-production processes and aesthetics of film and video.

May require a lab fee.

Majors/minors only.

Prerequisites: PROD 200 and SCWR 220.

SCWR 398**Special Studies***1-3 Semester Hours***SCWR 399****Independent Studies***1-3 Semester Hours***SCWR 420****Senior Writing Project***3 Semester Hours*

Specially directed projects in writing for film, television, or other media from initial concept through finished form.

The student must provide a professional copy of all senior thesis-level projects to the School of Film and Television in partial fulfillment of degree requirements.

Lab fee.

Prerequisites: SCWR 320 and 321.

SCWR 421**Rewriting the Senior Writing Project***3 Semester Hours*

Practical experience revising the senior project draft.

Majors/minors only.

Prerequisite: SCWR 420.

SCWR 426**Writing One-Hour Episodic TV***3 Semester Hours*

Practical experience in writing one-hour episodic television drama.

School of Film and Television majors only.

Prerequisites: SCWR 220 and 320.

SCWR 428

Adaptation: One Medium to Another

3 Semester Hours

Practical experience in translating books (novels and/or non-fiction) into film scripts.

Prerequisite: SCWR 320.

SCWR 498

Special Studies

1-3 Semester Hours

SCWR 499

Independent Studies

1-3 Semester Hours

SCWR 501

Writing for Production

3 Semester Hours

Elements of screenwriting as applied to short films intended for production.

SCWR 502

Adaptation

3 Semester Hours

Broad survey of the wide range of adaptation concepts, practices, and processes.

SCWR 510

Producing and Directing for Feature Film Screenwriters

3 Semester Hours

Practical experience in the television development process; includes taking an idea to script and the directing, producing, and post-producing of a short, in-studio multi-camera video project.

SCWR 511

Introduction to Television Producing

3 Semester Hours

Course centers on understanding the craft of storytelling and character development as probably the most important task at hand when mounting a production and properly servicing the script for the writer, executive producer, and studio. Making wise choices in the areas of camera, lighting, and special effects to non-linear post-production, etc.

SCWR 520

Intermediate Screenwriting

3 Semester Hours

Practical experience writing a first draft feature-length screenplay.

SCWR 521

Rewriting the Feature

3 Semester Hours

Practical experience rewriting the feature screenplay.

Prerequisite: SCWR 520.

SCWR 530

Writing for Production I

3 Semester Hours

Intermediate screenwriting techniques as applied to short films intended for production.

Prerequisite: SCWR 501.

SCWR 540

Elements of Feature Film Screenwriting

3 Semester Hours

Elements of feature film screenwriting related to idea, character, story and structure development, scene and sequence construction, and elements of genres.

SCWR 541

Intermediate Feature Project I

3 Semester Hours

Practical experience writing a first draft feature film screenplay; includes analysis of character development, plot, and story structure.

SCWR 550

Elements of Television Writing

3 Semester Hours

Elements of dramatic writing include emphasis on the television art form and the practical aspects of writing television genres.

SCWR 560

Writing the Feature for Directors

3 Semester Hours

Practical experience writing a first draft feature-length screenplay.

Film and Television Production graduate majors only.

Prerequisite: SCWR 501.

SCWR 598

Special Studies

1-3 Semester Hours

SCWR 599

Independent Studies

1-3 Semester Hours.

SCWR 602

Seminar in Critical Writing in the Arts

3 Semester Hours

An intensive investigation of the aims of the contemporary cinema through screenings and encounters with working filmmakers, joined with practical experience in the composition of professional level film criticism.

Prerequisite: FTVS 512.

SCWR 611

Television Planning, Budgeting, and Scheduling

3 Semester Hours

Practical experience as a producer managing the planning, budgeting, and scheduling of the episodic television art form.

SCWR 620

Writing for Production II (fiction thesis)

3 Semester Hours

Writing the thesis (narrative) project and preparing the script for production.

Prerequisite: SCWR 530.

SCWR 625

Writing the Situation Comedy

3 Semester Hours

Practical experience writing an episode of a current half-hour situation comedy.

SCWR 627

Advanced Writing: The Situation Comedy

3 Semester Hours

Practical experience writing a "spec" teleplay of a current half-hour situation comedy or writing a half-hour pilot for a new situation comedy series.

Prerequisite: SCWR 625.

SCWR 629

Writing the One-Hour Drama

3 Semester Hours

Practical experience writing an episode of a current one-hour drama.

SCWR 630

Advanced Writing: The One Hour Drama

3 Semester Hours

Practical experience writing a "spec" teleplay of a current one-hour drama or writing a one-hour pilot for a new drama series.

Prerequisite: SCWR 629

SCWR 640

Rewriting Intermediate Feature Project I

3 Semester Hours

SCWR 641

Feature Film Adaptation

3 Semester Hours

Broad survey of the wide range of adaptation concepts, practices, and processes.

Prerequisites: SCWR 541 and 640.

SCWR 650

Intermediate Screenwriting Project II

3 Semester Hours

SCWR 651

Rewriting Intermediate Feature Project II

3 Semester Hours

Practical experience rewriting the feature film screenplay.

Prerequisite: SCWR 650.

SCWR 660

Writing Episodic Drama

3 Semester Hours

Practical experience writing a "spec" episode of a current one-hour drama.

Prerequisite: SCWR 550.

SCWR 661

Writing the Drama Pilot

3 Semester Hours

Practical experience creating an original one-hour drama series and writing the pilot teleplay.

Prerequisite: SCWR 660.

SCWR 670

Writing Episodic Comedy

3 Semester Hours

Practical experience writing a "spec" episode of a current half-hour situation comedy.

Prerequisite: SCWR 550.

SCWR 671

Writing the Comedy Pilot

3 Semester Hours

Practical experience creating an original half-hour situation comedy series and writing the pilot teleplay.

Prerequisite: SCWR 670.

SCWR 680

Television Producing II

3 Semester Hours

A "real life" experience writing and producing a television series; includes adapting the original pilot and pre-producing a short presentation.

Prerequisites: SCWR 611; SCWR 670 or 671.

SCWR 681

Television Producing III

6 Semester Hours

A "real life" experience writing and producing a television series; includes producing and post-producing pilot presentation and a final professional presentation to an audience and faculty committee.

Prerequisite: SCWR 680.

SCWR 682

Television Screenwriting Workshop

3 Semester Hours

Develop new or continue to work on previously written material to raise the quality of portfolio to industry standards; includes preparing marketing materials for projects.

1-3 Semester Hours

SCWR 685

Entertainment Business Affairs

3 Semester Hours

Classroom lectures, guest speakers, panel discussions from entertainment industry business affairs professionals in the field of artist management, development, financing, and distribution.

Prerequisites: SCWR 650 and 651 (Feature Film Screenwriting) or SCWR 670 and 671 (Writing and Producing for Television).

SCWR 689

Acting for Television

3 Semester Hours

This course focuses on understanding the acting process. Writers learn how actors work in order to collaborate and create dialogue for them. The class also covers elements such as casting and production.

SCWR 690

Advanced Screenplay Project

3 Semester Hours

Practical experience writing a feature-length screenplay.

SCWR 691

Rewriting Advanced Screenplay Project

3 Semester Hours

Practical experience rewriting a feature film screenplay.

Prerequisite: SCWR 690.

SCWR 692

Feature Film Screenwriting Workshop

3 Semester Hours

Develop new or continue to work on previously written material to raise the quality of portfolio to industry standards; includes preparing marketing materials for projects.

Prerequisites: SCWR 685 and 690.

SCWR 696

Television Internship

3 Semester Hours

Internship working in some phase of the television industry.

SCWR 697

Feature Film Internship

3 Semester Hours

Internship working in some phase of the feature film industry.

SCWR 698

Special Studies

1-3 Semester Hours

SCWR 699

Independent Studies

DEPARTMENT OF AEROSPACE STUDIES COURSES

AERO 100

Foundation of the USAF I

1 Semester Hour

A survey course designed to introduce students to the United States Air Force and Air Force Reserve Officers Training Corps. Featured topics include: mission and organization of the Air Force, officership and professionalism, military customs and courtesies, officer career field opportunities, group leadership experiences, and an introduction to communication skills.

AERO 101

Foundation of the USAF II

1 Semester Hour

A survey course designed to introduce students to the United States Air Force and Air Force Reserve Officers Training Corps. Featured topics include: mission and organization of the Air Force, officership and professionalism, military customs and courtesies, officer career field opportunities, group leadership experiences, and an introduction to communication skills.

AERO 102

Laboratory I

0 Semester Hours

Students are exposed to leadership experiences by learning basic military drill and ceremonies, participating in physical fitness activities, and participating in challenging group activities.

AERO 103

Laboratory II

0 Semester Hours

Students are exposed to leadership experiences by learning basic military drill and ceremonies, participating in physical fitness activities, and participating in challenging group activities.

AERO 200

The Evolution of USAF Air and Space Power I

1 Semester Hour

A course designed to examine general aspects of air and space power through a historical perspective. Featured topics include: a study of Air Force history and heritage, significant Air Force leaders and their contributions, and key service issues, ethics, and values. Students give oral and written presentations and participate in group leadership exercises.

AERO 201

The Evolution of USAF Air and Space Power II

1 Semester Hour

A course designed to examine general aspects of air and space power through a historical perspective. Featured topics include: a study of Air Force history and heritage, significant Air Force leaders and their contributions, and key service issues, ethics, and values. Students give oral and written presentations and participate in group leadership exercises.

AERO 202

Laboratory III

0 Semester Hours

Students are exposed to leadership experience by directing others in basic military drill and ceremonies, participating in physical fitness activities, and participating in challenging group activities.

AERO 203

Laboratory IV

0 Semester Hours

Students are exposed to leadership experience by directing others in basic military drill and ceremonies, participating in physical fitness activities, and participating in challenging group activities.

AERO 300

Air Force Leadership Studies I

3 Semester Hours

UNIVERSITY FACULTY

JENNIFER S. ABE (1994)

Associate Professor of Psychology

B.A., Wheaton College, 1985;
M.A., University of California, Los Angeles, 1987;
Ph.D., University of California, Los Angeles, 1992.

LEV ABOLNIKOV (1981)

Professor of Mathematics

M.S., Leningrad University, 1961;
Ph.D., Leningrad University, 1970.

REBECA ACEVEDO (1996)

Associate Professor of Modern Languages and Literatures

B.A., University of Guadalajara, 1984;
M.A., University of California, Los Angeles, 1991;
Ph.D., University of Michigan, 1996.

TERESE C. ACEVES (2004)

Assistant Professor of Educational Support Services

B.A., University of California, Berkeley, 1992;
M.A., Loyola Marymount University, 1997;
M.Ed., University of California, Santa Barbara, 2003;
Ph.D., University of California, Santa Barbara, 2004.

RACHEL G. ADAMS (2004)

Associate Professor of Civil Engineering

B.S., University of Michigan, 1994;
M.S., Massachusetts Institute of Technology, 2000;
Ph.D., Massachusetts Institute of Technology, 2002.

HAWLEY C. ALMSTEDT (2005)

Assistant Professor of Natural Science

B.S., San José State University, 1999;
M.A., San José State University, 2001;
Ph.D., Oregon State University, 2005.

NAJWA AL-QATTAN (1998)

Associate Professor of History

B.A., American University in Beirut, Lebanon, 1977;
M.A., Georgetown University, 1979;
M.A., Harvard University, 1984;
Ph.D., Harvard University, 1996.

AMY K. ALWARD (2008)

Assistant Professor of Accounting

M.B.A., Seattle University, 1995;
B.A., Washington State University, 2001;
Ph.D., Washington State University, 2007.

CARA ANZILOTTI (1996)

Associate Professor of History and Chairperson of the Department

B.A., University of California, Davis, 1978;
M.A., California State University, Long Beach, 1987;
Ph.D., University of California, Santa Barbara, 1994.

WILKIE AU (2003)

Professor of Theological Studies

B.A., Gonzaga University, 1968;
M.S.Ed., University of Southern California, 1971;
M.Div., Jesuit School of Theology, Berkeley, 1973;
S.T.M., Jesuit School of Theology, Berkeley, 1973;
Ph.D., University of California, Santa Barbara, 1976.

STEPHANIE E. AUGUST (1999)

*Associate Professor of Computer Science,
Director of the Graduate Programs in Electrical Engineering and Com-
puter Science, and Graduate Director of the Frank R. Seaver College of
Science and Engineering*

B.A., University of California, Los Angeles, 1972;
M.S., University of California, Los Angeles, 1985;
Ph.D., University of California, Los Angeles, 1991.

JOSÉ IGNACIO BADENES, S.J. (1997)

Associate Professor of Modern Languages and Literatures

B.S., Georgetown University, 1980;
M.A., University of North Carolina, Chapel Hill, 1986;
M.Div., Jesuit School of Theology, Berkeley, 1992;
Th.M., Jesuit School of Theology, Berkeley, 1993;
Ph.D., University of California, Santa Barbara, 1996.

JASON S. BAEHR (2003)

Associate Professor of Philosophy

B.A., Arizona State University, 1994;
M.A., Biola University, 1996;
Ph.D., University of Washington, 2002.

MARTA BALTODANO (2000)

Associate Professor of Educational Leadership

J.D., Universidad Centro Americana, 1980;
B.S., Universidad Centro Americana, 1985;
M.A., University of California, Los Angeles, 1993;
Ph.D., Claremont Graduate University, 1998.

MARK BANDSUCH, S.J. (2003)

Associate Professor of Business Law

B.S.A., Miami University, 1984;
J.D., Cleveland State University, 1987;
M.Div., Jesuit School of Theology, Berkeley, 2000.

LINDA BANNISTER (1983)

Professor of English

B.A., University of Michigan, 1974;
M.A., University of Southern California, 1976;
Ph.D., University of Southern California, 1982.

SUSAN TORREY BARBER (1991)

Associate Professor of Film, Television, and Media Studies

B.A., University of Michigan, 1969;
M.E., University of Montana, 1973;
M.A., University of Southern California, 1983;
Ph.D., University of Southern California, 1988.

ANNA BARGAGLIOTTI (2011)

Assistant Professor of Mathematics

B.A., University of California, Santa Barbara, 2000;
M.S., University of California, Los Angeles, 2007;
Ph.D., University of California, Irvine, 2007.

RONALD K. BARRETT (1978)

Professor of Psychology and Chairperson of the Department

B.S., Morgan State University, 1970;
M.S., University of Pittsburgh, 1974;
Ph.D., University of Pittsburgh, 1977.

THOMAS M. BATSIS, O.CARM. (1982)

*Professor of Educational Leadership and Director of Center for Catholic
Education*

B.A., Bellarmine College, 1963;
M.Ed., University of Louisville, 1972;
Ph.D., California Graduate Institute, 1983.

MARILYN BEKER (1986)

Professor of Screenwriting

B.A., University of Toronto, 1967;
M.A., Concordia University, 1974.

CATHERINE BELCHER (2008)

Assistant Professor of Language and Culture in Education

B.A., Stanford University, 1990;
M.A., Stanford University, 1991;
Ph.D., University of Pennsylvania, 2006.

DIANE BENEDICT (1997)

Professor of Theatre Arts

B.A., University of Southern California, 1977;
M.F.A., University of California, Los Angeles, 1989.

J. ROSS BENGEL (1986)

Professor of Accounting

B.A., Dickinson College, 1969;
 J.D., University of South Carolina, 1975;
 M.A., University of South Carolina, 1976;
 C.P.A., 1978.

CURTIS D. BENNETT (2002)

Professor of Mathematics and Chairperson of the Department
 B.S., Colorado State University, 1985;
 M.S., University of Chicago, 1986;
 Ph.D., University of Chicago, 1990.

DIONNE BENNETT (2004)

Assistant Professor of African American Studies
 B.A., Yale University, 1990;
 M.A., Yale University, 1998;
 Ph.D., University of California, Los Angeles, 2003.

MICHAEL C. BERG (1989)

Professor of Mathematics
 B.A., University of California, Los Angeles, 1978;
 Ph.D., University of California, San Diego, 1985.

LARRY C. BERNARD (1987)

Professor of Psychology
 B.A., University of Southern California, 1970;
 M.A., California State University, Los Angeles, 1975;
 Ph.D., University of Southern California, 1980.

WENDY J. BINDER (2004)

Assistant Professor of Biology
 B.S., University of California, Los Angeles, 1990;
 M.S., Purdue University, 1993;
 Ph.D., University of California, Los Angeles, 1998.

CARLA J. BITTEL (2003)

Associate Professor of History
 B.A., University of California, Davis, 1995;
 M.A., Cornell University, 1999;
 Ph.D., Cornell University, 2003.

DEXTER L. BLACKMAN (2009)

Assistant Professor of History
 B.A., North Carolina Central University, 1995;
 M.A., North Carolina Central University, 1998;
 Ph.D., Georgia State University, 2009.

LANCE H. BLAKESLEY (1974)

Associate Professor of Political Science
 B.A., University of Illinois, 1965;
 M.A., Northwestern University, 1967;
 Ph.D., Northwestern University, 1970.

BENJAMIN F. BOBO (1992)

Professor of Finance
 B.S., California State University, Long Beach, 1969;
 M.B.A., University of California, Los Angeles, 1971;
 Ph.D., University of California, Los Angeles, 1974.

NICOLE C. BOUVIER-BROWN (2009)

Assistant Professor of Chemistry
 B.S., Saint Mary's College of California, 2003;
 Ph.D., University of California, Berkeley, 2008.

MARY C. BREDEN (1992)

Professor of Music, Director of Choral Activities, and Chairperson of the Department
 B.A., Mount St. Mary's College, 1972;
 B.M., Mount St. Mary's College, 1973;
 M.M., Arizona State University, 1981;
 D.M.A., Arizona State University, 1983.

MICHAEL BRODSKY (1988)

Professor of Art and Art History
 B.A., University of California, Santa Cruz, 1975;
 B.A., University of California, Santa Cruz, 1975;
 M.F.A., California Institute of the Arts, 1978.

RAE LINDA BROWN (2008)

Professor of Music and Vice President of Undergraduate Education
 B.S., University of Connecticut, 1976;
 M.A., Yale University, 1980;
 Ph.D., Yale University, 1987.

JANE MARIE BRUCKER (1993)

Professor of Art and Art History
 B.A., San Diego State University, 1982;
 M.F.A., Claremont Graduate University, 1985;
 M.A., Claremont School of Theology, 1992.

JOHN BULMAN (1982)

Professor of Physics and Chairperson of the Department
 B.S., Brown University, 1973;
 M.S., University of Pennsylvania, 1975;
 Ph.D., Tufts University, 1981.

ROB BURCHFIELD (1998)

Associate Professor of Animation
 B.A., University of California, Los Angeles, 1982;
 M.F.A., University of California, Los Angeles, 1998.

STACY LEE BURNS (2000)

Associate Professor of Sociology and Chairperson of the Department
 B.A., University of California, Los Angeles, 1976;
 M.A., University of California, Los Angeles, 1978;
 J.D., Yale University, 1982;
 Ph.D., University of California, Los Angeles, 1999.

BARBARA J. BUSSE (1969-72; 1980)

Associate Professor of Communication Studies and Dean of the College of Communication and Fine Arts
 B.A., California State University, Fullerton, 1968;
 M.A., California State University, Northridge, 1969.

JAY B. BUSSE (1970)

Associate Professor of Communication Studies
 B.A., California State University, Fullerton, 1968;
 M.A., California State University, Northridge, 1969.

MÓNICA CABRERA (2005)

Assistant Professor of Modern Languages and Literatures
 B.A., Pontificia Universidad Católica del Perú, 1991;
 M.A., University of Southern California, 2001;
 Ph.D., University of Southern California, 2005.

WILLIAM SCOTT K. CAMERON (1995)

Professor of Philosophy and Director of Ethics
 B.A., Queen's University, 1984;
 M.A., Queen's University, 1988;
 Ph.D., Fordham University, 1995.

VICTOR CARMONA (2008)

Assistant Professor of Biology
 B.S., Rensselaer Polytechnic Institute, 1995;
 Ph.D., University of Arkansas, 2005.

MICHAEL P. CARUSO, S.J. (2001)

Associate Professor of Educational Leadership and Chairperson of the Department
 B.A., Conception Seminary College, 1978;
 S.T.B., Mundelein Seminary, 1981;
 Ed.D., University of San Francisco, 2000.

CHRISTOPHER KEY CHAPPLE (1985)

Professor of Theological Studies and Navin and Pratima Doshi Professor of Indic and Comparative Theology
 B.A., State University New York, Stony Brook, 1976;
 M.A., Fordham University, 1978;
 Ph.D., Fordham University, 1980.

CONSTANCE J.S. CHEN (2003)

Associate Professor of History
 B.A., University of California, Irvine, 1992;
 M.A., University of California, Los Angeles, 1995;
 Ph.D., University of California, Los Angeles, 2000.

DONG CHEN (2004)

Associate Professor of Management
 B.A., Renmin University of China, 1994;
 M.A., Renmin University of China, 1996;
 Ph.D., Renmin University of China, 1999;
 Ph.D., Rutgers University, 2004.

FARIEL CHERIF (2011)

Assistant Professor of Political Science
 B.A., University of California, San Diego, 1999;

M.A., New York University, 2002;
Ph.D., New York University, 2005.

ALAN A. CHERRY (1983)

Professor of Accounting
B.B.A., Baruch (CUNY), 1970;
M.S., University of California, Los Angeles, 1972;
Ph.D., University of California, Los Angeles, 1978.

STUART CHING (2001)

Associate Professor of English
B.Ed., University of Hawaii, Manoa, 1987;
M.F.A., Colorado State University, 1990;
Ph.D., University of Nebraska, 2000.

PHILIP J. CHMIELEWSKI, S.J. (2002)

Sir Thomas More Chair in Engineering Ethics
A.B., Loyola University of Chicago, 1971;
M.A., Boston College, 1976;
D.T., S.T.B., Die Hochschule Sankt Georgen,
Frankfurt, 1981;
Ph.D., Yale University, 1987.

S.W. TINA CHOE (1996)

Professor of Chemistry and Chairperson of the Department
B.S., University of California, Los Angeles, 1988;
Ph.D., University of California, Los Angeles, 1994.

DAVID CHOI (2003)

Associate Professor of Management
B.S.E., University of California, Berkeley, 1989;
M.E., University of California, Berkeley, 1990;
Ph.D., University of California, Los Angeles, 1997.

DOUGLAS CHRISTIE (1994)

Professor of Theological Studies
B.A., University of California, Santa Cruz, 1977;
M.A., Oxford University, 1980;
Ph.D., Graduate Theological Union, 1988.

VINCENT P. COLETTA (1969)

Professor of Physics
B.S., Christian Brothers College, 1964;
Ph.D., University of Notre Dame, 1970.

ERNESTO COLIN (2011)

Assistant Professor of Specialized Programs in Urban Education
B.A., Loyola Marymount University, 1999;
M.A., Loyola Marymount University, 2001;
Ph.D., Stanford University, 2011.

MARTIN T. CONNELL, S.J. (2005)

Assistant Professor of Language and Culture in Education
B.A., Loyola University Chicago, 1987;
M.A., University of Toronto, 1988;
M.Div., Jesuit School of Theology, Berkeley, 1993;
Ph.D., University of California, Santa Barbara, 2005.

PATRICK CONNOLLY, S.J. (1975)

Associate Professor of Film, Television, and Media Studies
B.A., St. Louis University, 1959;
M.A., St. Louis University, 1960;
S.T.L., Gregorian, 1967;
Ph.D., University of Southern California, 1973.

ALISSA S. CRANS (2004)

Associate Professor of Mathematics
B.S., University of Redlands, 1999;
M.S., University of California, Riverside, 2000;
Ph.D., University of California, Riverside, 2004.

REBECCA D. CRAWFORD (1987)

Professor of Chemistry
B.A., University of California, Los Angeles, 1973;
Ph.D., University of Southern California, 1982.

DEEPA DABIR (2011)

Assistant Professor of Biology
B.S., St. Xavier's College (Mumbai, India), 1998;
M.S., University of Pune, India, 2000;
Ph.D., University of Pennsylvania, 2006.

KAM D. DAHLQUIST (2005)

Assistant Professor of Biology
B.A., Pomona College, 1993;
Ph.D., University of California, Santa Cruz, 2000.

LI DAI (2011)

Assistant Professor of Management
B.A., University of Toronto, 2006.

HAN DAI-YU (2006)

Assistant Professor of Art and Art History
B.A., China National Academy of Art, 1991;
M.F.A., China National Academy of Art, 1999.

ANTONIA DARDER (2001)

Leavey Presidential Professor of Educational Leadership
B.A., California State University, Los Angeles, 1980;
M.A., Pacific Oaks College, 1981;
Ph.D., Claremont Graduate University, 1989.

FRANK P. DAROCA (1986)

Professor of Accounting
B.S., Louisiana State University, 1964;
M.S., Louisiana State University, 1974;
Ph.D., University of Illinois, 1981;
C.P.A., 1966.

GEORGE DASARO (1977)

Professor of Accounting
B.B.A., Loyola University, Los Angeles, 1963;
M.S., California State University, Los Angeles, 1966;
C.P.A., 1968.

KURT DAUGHERTY (2006)

Assistant Professor of Recording Arts
B.A., San Diego State University, 1981;
M.F.A., University of California, Los Angeles, 2000.

KARENMARY DAVALOS (1997)

Associate Professor of Chicana/o Studies and Chairperson of the Department
B.A., Stanford University, 1987;
M.A., Stanford University, 1987;
Ph.D., Yale University, 1993.

JEFFREY DAVIS (2001)

Associate Professor of Screenwriting and Chairperson of the Department
B.A., Emerson College, 1970;
M.F.A., University of Iowa, 1972.

ALLAN DECK, S.J. (2011)

Professor of Theological Studies and Casassa Chair of Social Values
B.A., Saint Louis University, 1969;
M.Div., Jesuit School of Theology in Berkeley, 1976;
S.T.D., Pontifical Gregorian University, 1988;
Ph.D., Saint Louis University, 1973.

FRANCA DELL'OLIO (2006)

Assistant Professor of Educational Leadership
B.A., Loyola Marymount University, 1990;
M.A., Loyola Marymount University, 1996;
Ed.D., Pepperdine University, 2006.

ROBERTO DELL'ORO (2003)

Professor of Theological Studies
S.T.B., University of Milan, 1983;
S.T.L., Gregorian University, 1985;
Ph.D., Gregorian University, 1992.

NICOLAS DENYSENKO (2009)

Assistant Professor of Theological Studies and Director of the Huffington Ecumenical Institute
B.S., University of Minnesota, Minneapolis, 1994;
M.Div., St. Vladimir's Orthodox Theological Seminary, 2000;
Ph.D., Catholic University of America, 2008.

PAUL A. DeSENA (1966)

Professor of Educational Support Services
M.S., Central Connecticut State University, 1958;
M.Ed., Hartford University, 1960;
Ed.D., Pennsylvania State University, 1963.

SEAN D'EVELYN (2011)

Assistant Professor of Economics
B.A., St. Olaf College, 2003;
Ph.D., University of Hawaii, 2011.

JAMES DEVINE (1985)

Professor of Economics
B.A., Yale University, 1974;
Ph.D., University of California, Berkeley, 1981.

THERESIA DE VROOM (1990)

Professor of English and Director of the Marymount Institute for Faith, Culture, and the Arts
B.M., University of Southern California, 1980;
B.A., University of Southern California, 1980;
M.A., Emory University, 1982;
Ph.D., University of Southern California, 1988.

JACQUELINE M. DEWAR (1973)

Professor of Mathematics
B.S., St. Louis University, 1968;
M.S., University of Southern California, 1971;
Ph.D., University of Southern California, 1973.

MATTHEW DILLON (1987)

Professor of Classics and Archaeology and Chairperson of the Department
B.A., Wesleyan University, 1974;
M.A., Yale University, 1979;
M.Phil., Yale University, 1981;
Ph.D., Yale University, 1984.

ANDREW DILTS (2011)

Assistant Professor of Political Science
B.A., Indiana University, Bloomington, 2002;
M.A., The University of Chicago, 2004;
Ph.D., The University of Chicago, 2008.

JOHN DAVID N. DIONISIO (2004)

Assistant Professor of Computer Science and Associate Director of the University Honors Program
B.S., Loyola Marymount University, 1991;
M.S., University of California, Los Angeles, 1993;
Ph.D., University of California, Los Angeles, 1996.

SAERI CHO DOBSON (2007)

Assistant Professor of Art and Art History
B.F.A., Parsons The New School for Design, 1996;
M.F.A., Art Center College of Design, 2000.

LAMBERT A. DOEZEMA (2004)

Assistant Professor of Chemistry
B.S., Trinity University, 1998;
M.S., University of California, Irvine, 2000;
Ph.D., University of California, Irvine, 2004.

PHILIP M. DORIN (1971)

Professor of Electrical Engineering and Computer Science
B.S., Massachusetts Institute of Technology, 1970;
M.S., Northeastern University, 1971;
Ph.D., University of California, Los Angeles, 1982.

JOHN H. DORSEY (2002)

Associate Professor of Natural Science and Chairperson of the Department
B.A., California State University, Long Beach, 1972;
M.A., California State University, Long Beach, 1975;
Ph.D., University of Melbourne, 1982.

W. WESLEY DOWD (2011)

Assistant Professor of Biology
B.S., Duke University, 1999;
M.S., College of William and Mary, 2003;
Ph.D., University of California, Davis, 2009.

DENNIS W. DRAPER (2007)

Professor of Finance and Dean, College of Business Administration
B.S., Northwestern University, 1970;
M.S., Stanford University, 1972;
Ph.D., Stanford University, 1979.

PHILIPPA M. DRENNAN (1995)

Professor of Biology and Chairperson of the Department
B.Sc., University of Natal, Durban, 1979;
B.Sc. (Hons), University of Natal, Durban, 1980;
Ph.D., University of Natal, Durban, 1987.

ELIZABETH DRUMMOND (2006)

Assistant Professor of History
B.S., Georgetown University, 1993;
M.A., Georgetown University, 1997;
Ph.D., Georgetown University, 2004.

STEPHEN V. DUNCAN (1999)

Professor of Screenwriting
B.S., North Carolina A&T State University, 1971;
M.A., Loyola Marymount University, 1979.

JOSEPH E. EARLEY (1975)

Associate Professor of Economics and Acting Chairperson of the Department
B.A., Gannon College, 1967;
M.S., Rensselaer Polytechnical Institute, 1968;
Ph.D., Fordham University, 1973.

PAIGE PETTYJOHN EDLEY (2003)

Associate Professor of Communication Studies
B.A., Wake Forest University, 1984;
M.A., Wake Forest University, 1989;
Ph.D., Rutgers University, 1997.

JENNIFER L. EICH (1994)

Professor of Modern Languages and Literatures
B.A., Knox College, 1981;
M.A., University of California, Los Angeles, 1987;
Ph.D., University of California, Los Angeles, 1992.

SUSAN ELKINAWY (2003)

Associate Professor of Finance
B.A., University of California, Los Angeles, 1992;
M.B.A., Loyola Marymount University, 1998;
M.S., University of Oregon, 2001;
Ph.D., University of Oregon, 2003.

ELLEN A. ENSHER (1997)

Professor of Management
B.A., Loyola Marymount University, 1987;
M.P.A., University of California, Los Angeles, 1990;
M.A., Claremont Graduate University, 1994;
Ph.D., Claremont Graduate University, 1997.

CHARLES E. ERVEN (2002)

Associate Professor of Theatre Arts
B.A., University of Wisconsin, 1971;
M.F.A., University of Wisconsin, 1976.

RICHARD ESPINOZA (2002)

Assistant Professor of Chicana/o Studies
B.A., University of California, Los Angeles, 1992;
M.F.A., University of California, Los Angeles, 1995;
Ph.D., University of California, Los Angeles, 2001.

OMAR S. ES-SAID (1985)

Professor of Mechanical Engineering
B.S., American University, Cairo, 1976;
M.S., American University, Cairo, 1978;
Ph.D., University of Kentucky, 1985.

ZAKI EUSUFZAI (1989)

Associate Professor of Economics
B.S.S., University of Dhaka, 1980;
M.A., Illinois State University, 1982;
Ph.D., University of California, Los Angeles, 1993.

KWEKU EWUSI-MENSAH (1986)

Professor of Computer Information Systems
B.S., University of Ghana, 1970;
M.S., University of Alberta, 1972;
Ph.D., University of California, Los Angeles, 1978.

ALAN H. FALCON (1979)

Professor of Accounting
B.A., Temple University, 1970;

M.A., University of Arizona, 1973;
C.M.A., 1980;
C.P.A., 1982;
C.I.A., 1984.

JAMES D. FAUGHT (1974)

Professor of Sociology
B.A., San José State University, 1967;
M.A., San José State University, 1969;
Ph.D., University of Notre Dame, 1973.

ADAM FINGERHUT (2007)

Assistant Professor of Psychology
B.A., Stanford University, 1996;
M.A., University of California, Los Angeles, 2003.

JODI SUSAN FINKEL (2001)

Associate Professor of Political Science
B.A., University of California, Los Angeles, 1989;
M.A., University of California, San Diego, 1992;
M.A., University of California, Los Angeles, 1996;
Ph.D., University of California, Los Angeles, 2001.

EMILY S. FISHER (2005)

Assistant Professor of Educational Support Services
B.A., Connecticut College, 1996;
M.A., University of California, Santa Barbara, 2002;
Ph.D., University of California, Santa Barbara, 2005.

BEN F. FITZPATRICK (2001)

Professor of Mathematics and Clarence J. Wallen, S.J., Chair
B.S., Auburn University, 1981;
M.S., Auburn University, 1983;
Ph.D., Brown University, 1988.

VÉRONIQUE FLAMBARD-WEISBART (1992)

Professor of Modern Languages and Literatures
D.E.U.G., Université de Paris X, 1982;
Licence, Université de Paris X, 1983;
M.A., University of California, Los Angeles, 1985;
Ph.D., University of California, Los Angeles, 1990.

RUDOLF FLECK (1977)

Professor of Art and Art History
B.A., Loyola University, Los Angeles, 1973;
M.F.A., University of Oregon, 1977.

MÁIRE FORD (2006)

Assistant Professor of Psychology
B.A., Santa Clara University, 1996;
M.A., University of California, Santa Barbara, 2003;
Ph.D., University of California, Santa Barbara, 2006.

RICHARD FOX (2007)

Associate Professor of Political Science and Chairperson of the Department
B.A., Claremont McKenna College, 1989;
M.A., University of California, Santa Barbara, 1990;
Ph.D., University of California, Santa Barbara, 1995.

JUDITH G. FOY (1991)

Professor of Psychology
B.A., Eastern Washington University, 1980;
M.S., Eastern Washington University, 1981;
M.A., Kent State University, 1986;
Ph.D., Kent State University, 1987.

MICHAEL R. FOY (1987)

Professor of Psychology
B.S., University of California, Irvine, 1977;
M.S., Kent State University, 1981;
Ph.D., Kent State University, 1983.

LAUREL FRANZEN (2010)

Assistant Professor of Accounting
B.A., University of California, San Diego, 1992;
M.B.A., Chapman University, 1995;
Ph.D., University of Washington, 2000.

JAMES L. FREDERICKS (1992)

Professor of Theological Studies
B.A., St. Joseph's College, 1973;

M.A., St. Patrick's Seminary, 1976;
S.T.L., Jesuit School of Theology, 1983;
Ph.D., University of Chicago, 1988.

KATHARINE B. FREE (1970)

Professor of Theatre Arts
B.A., Marymount College, 1966;
M.A., University of California, Los Angeles, 1968;
Ph.D., University of California, Los Angeles, 1974.

WILLIAM J. FULCO, S.J. (1998)

Professor of Classics and Archaeology and NEH Professor of Ancient Mediterranean Studies
B.A., Gonzaga University, 1959;
M.A., Gonzaga University, 1960;
S.T.M., Santa Clara University, 1967;
Ph.D., Yale University, 1971.

JEFFREY GALE (1985)

Professor of Management and Chairperson of the Department
S.B., Massachusetts Institute of Technology, 1970;
S.M., Massachusetts Institute of Technology, 1971;
J.D., University of California, Los Angeles, 1975;
Ph.D., University of California, Los Angeles, 1976.

ANGELA GALLEGOS (2011)

Associate Professor of Mathematics
B.A., New York University, 1999;
Ph.D., University of California, Davis, 2005.

JOSE GARCIA-MORENO (2003)

Associate Professor of Animation and Chairperson of the Department
B.A., Universidad Iberoamericana, Mexico, 1984;
M.A., Charles University, Czech Republic, 1989;
M.F.A., University of California, Los Angeles, 2001.

GLENN GEBHARD (1995)

Professor of Film and Television Production
B.A., University of Dayton, 1973;
M.F.A., University of Southern California, 1980.

MICHAEL GENOVESE (1983)

Professor of Political Science and Loyola Chair of Leadership Studies
B.A., St. Mary's College, 1972;
M.A., University of Southern California, 1975;
Ph.D., University of Southern California, 1978.

LYNELL GEORGE (2010)

Assistant Professor of English

EVAN GERSTMANN (1996)

Professor of Political Science
B.A., Oberlin College, 1983;
J.D., University of Michigan Law School, 1986;
M.A. University of Wisconsin, 1992;
Ph.D., University of Wisconsin, 1996.

RICHARD GILBERT (1986)

Professor of Psychology
B.A., Princeton University, 1977;
M.A., University of California, Los Angeles, 1979;
Ph.D., University of California, Los Angeles, 1982.

CECILIA GONZALEZ-ANDRIEU (2007)

Assistant Professor of Theological Studies
B.A., Loyola Marymount University, 1980;
M.A., Loyola Marymount University, 2001;
Ph.D., Graduate Theological Union, 2007.

DEENA J. GONZÁLEZ (2001)

Professor of Chicana/o Studies and Director of Faculty Development
B.A., New Mexico State University, 1974;
M.A., University of California, Berkeley, 1976;
Ph.D., University of California, Berkeley, 1985.

MICHAEL A. GOTTFRIED (2011)

Assistant Professor of Specialized Programs in Urban Education
B.A., Stanford University, 2002;
M.A., University of Pennsylvania, 2008;
Ph.D., University of Pennsylvania, 2010.

MICHAEL D. GRADY (1975)

Professor of Mathematics and Graduate Director of Mathematics (M.A.T.)

B.A., University of Missouri, 1968;
M.S., Southern Illinois University, 1970;
Ph.D., Utah, 1975.

VICTORIA L. GRAF (1979)

Professor of Educational Support Services

B.A., De Paul University, 1972;
M.A., University of California, Riverside, 1975;
Ph.D., University of California, Riverside, 1980.

ALLEN P. GRAY (1980)

Associate Professor of Computer Information Systems

B.A., Loyola University, Los Angeles, 1970;
vM.A., California State University, Los Angeles, 1971;
Ph.D., University of California, Riverside, 1979.

EDMUND R. GRAY (1986)

Professor of Management

B.A., Hofstra University, 1956;
M.B.A., University of California, Los Angeles, 1961;
Ph.D., University of California, Los Angeles, 1966.

CHERYL GRILLS (1987)

Professor of Psychology and Associate Dean, Bellarmine College of Liberal Arts

B.A., Yale University, 1980;
M.A., University of California, Los Angeles, 1982;
Ph.D., University of California, Los Angeles, 1985.

ELISSA B. GROSSMAN (2008)

Assistant Professor of Management

M.Sc., London School of Economics, 1991;
M.B.A., University of California, Los Angeles, 1996;
Ph.D., University of California, Los Angeles, 2005.

ARTHUR GROSS-SCHAEFER (1980)

Professor of Business Law and Co-Chairperson of the Department

B.S., University of Southern California, 1973;
J.D., Boston College, 1976;
M.H.L., Hebrew Union, 1982;
C.P.A.

FERNANDO J. GUERRA (1984)

Professor of Chicana/o Studies and Political Science and Director, Thomas and Dorothy Leavey Center for the Study of Los Angeles

B.A., University of Southern California, 1980;
M.A., University of Michigan, 1982;
Ph.D., University of Michigan, 1990.

GRETCHEN GUSICH (2008)

Assistant Professor of Philosophy

B.A., University of Notre Dame, 1997;
M.A., The Catholic University of America, 2001;
Ph.D., The Catholic University of America, 2005.

RICHARD P. HADLEY, JR. (1991)

Associate Professor of Film, Television, and Media Studies

B.A., University of California, Berkeley, 1970;
M.A., University of Wisconsin, Madison, 1972;
M.F.A., University of Southern California, 1980;
Ph.D., University of Southern California, 1989.

MICHELE HAMMERS (2004)

Associate Professor of Communication Studies

B.S., Boston University, 1992;
J.D., University of Texas at Austin, 1995;
M.A., Arizona State University, 2000;
Ph.D., Arizona State University, 2004.

JAMES G. HANINK (1976)

Professor of Philosophy

B.A., St. Mary's College, 1968;
M.A., Michigan State University, 1971;
Ph.D., Michigan State University, 1975.

DAVID J. HARDY (2004)

Associate Professor of Psychology

B.A., California State University, Long Beach, 1990;

M.A., California State University, Long Beach, 1994;
Ph.D., The Catholic University of America, 1998.

KATHERINE ANNE HARPER (1977)

Associate Professor of Art and Art History

B.A., University of California, Los Angeles, 1967;
M.A., University of California, Los Angeles, 1969;
Ph.D., University of California, Los Angeles, 1977.

PAUL A. HARRIS (1995)

Professor of English and Chairperson of the Department

B.A., McGill University, 1984;
M.A., University of California, Irvine, 1986;
Ph.D., University of California, Irvine, 1991.

ANNA HARRISON (2006)

Assistant Professor of Theological Studies

B.A., Barnard College, 1986;
M.A., Fordham University, 1994;
M. Phil., Columbia University, 2000;
Ph.D., Columbia University, 2006.

KAREN KOMOSA HAWKINS (2006)

Assistant Professor of Educational Support Services

B.S., University of Illinois at Urbana-Champaign, 1994;
M.A., Loyola University Chicago, 1997;
Ph.D., Loyola University Chicago, 2005.

ANDREW J. HEALY (2005)

Assistant Professor of Economics

B.S., Yale University, 1998;
B.A., Yale University, 1998;
Ph.D., Massachusetts Institute of Technology, 2005.

TERESA L. HEILAND (2004)

Assistant Professor of Dance

B.F.A., Kutztown University, 1985;
M.A., New York University, 1991;
Ph.D., New York University, 2001.

SCOTT T. HEINZERLING (1991)

Professor of Dance

B.A., University of Akron, 1975;
M.F.A., Ohio State University, 1991.

JOSEPH HELLIGE (2007)

Professor of Psychology and Senior Vice President and Chief Academic Officer

B.A., Saint Mary's University of Minnesota, 1970;
M.A., University of Wisconsin—Madison, 1972;
Ph.D., University of Wisconsin—Madison, 1974.

ELIZABETH BECKER HENLEY (2005)

Presidential Professor of Theatre Arts

B.F.A., Southern Methodist University, 1974.

DOROTHEA K HERREINER (2005)

Assistant Professor of Economics and Director of the Center for Teaching Excellence

B.A., University of Karlsruhe, 1990;
M.Sc., London School of Economics and Political Science, 1991;
Ph.D., European University, 2000.

GEORGE L. HESS (1975)

Professor of Management and Director of Small Business Institute

B.S., Xavier University, 1956;
M.B.A., Xavier University, 1957;
Ph.D., Arizona State, 1974.

IGNACIO HIGAREDA (2005)

Assistant Professor of Elementary and Secondary Education

B.A., University of California, Santa Cruz, 1996;
Ph.D., University of Southern California, 2005.

CHARLES J. HIGGINS (1982)

Associate Professor of Finance

B.A., University of Southern California, 1968;
M.B.A., University of Southern California, 1972;
Ph.D., Claremont Graduate University, 1984.

PETER R. HOFFMAN (1977)

Associate Professor of Sociology and Director of Geography and Urban Studies

B.A., University of California, Los Angeles, 1969;
M.A., Arizona, 1974;
Ph.D., University of California, Los Angeles, 1983.

ALAN K. HOGENAUER (2000)

Associate Professor of Marketing

A.B., City University of New York, 1962;
M.A., Columbia University, 1968;
M.Phil., Columbia University, 1975;
Ph.D., Columbia University, 1975.

MICHAEL P. HORAN (1994)

Professor of Theological Studies, Chairperson of the Department, and Faculty Special Assistant to the CAO for Core Implementation

B.A., Iona College, 1977;
M.R.E., The Catholic University of America, 1982;
Ph.D., The Catholic University of America, 1989.

LEI HUANG (2003)

Associate Professor of Electrical Engineering

B.E., Beijing University of Posts and Telecommunications, 1993;
M.E., Nanyang Technological University, Singapore, 1998;
M.S. in E.E., University of Southern California, 1999;
Ph.D., University of Southern California, 2003.

KAREN K. HUCHTING (2011)

Assistant Professor of Educational Leadership

B.A., Loyola Marymount University, 2000;
M.A., Loyola Marymount University, 2004;
M.A., Claremont Graduate University, 2007;
Ph.D., Claremont Graduate University, 2009.

PAUL W. HUMPHREYS (1997)

Professor of Music

B.M., University of Cincinnati, 1976;
M.A., University of California, Los Angeles, 1983;
Ph.D., University of California, Los Angeles, 1988.

AMIR HUSSAIN (2005)

Professor of Theological Studies

B.S., University of Toronto, 1987;
M.A., University of Toronto, 1990;
Ph.D., University of Toronto, 2005.

NANCY W. JABBRA (1990)

Professor of Women's Studies and Chairperson of the Department

B.A., University of California, Santa Barbara, 1964;
M.A., Indiana University, 1970;
Ph.D., Catholic University of America, 1975.

ANGELA JAMES (2009)

Associate Professor of African American Studies

B.A., University of California, Los Angeles, 1987;
M.A., University of California, Los Angeles, 1989;
Ph.D., University of California, Los Angeles, 1995.

ADRIANA JAROSZEWICZ (2009)

Assistant Professor of Animation

B.F.A., University of the Pacific, 1999;
M.F.A., University of Southern California, 2004.

EMILY A. JARVIS (2010)

Assistant Professor of Chemistry

B.S., Pepperdine University, 1997;
M.S., University of California, Los Angeles, 1998;
Ph.D., University of California, Los Angeles, 2002.

JOSEPH JEWELL (2008)

Associate Professor of African American Studies

B.A., University of California, Berkeley, 1991;
M.A., University of California, Los Angeles, 1994;
Ph.D., University of California, Los Angeles, 1998.

JOK MADUT JOK (1997)

Professor of History

B.A., University of Alexandria, Egypt, 1988;
M.A., American University in Cairo, 1991;
Ph.D., University of California, Los Angeles, 1996.

CHRISTOPHER KACZOR (1998)

Professor of Philosophy

B.A., Boston College, 1992;
M.A., University of Notre Dame, 1994;
Ph.D., University of Notre Dame, 1996.

LAWRENCE P. KALBERS (2005)

Professor of Accounting, R. Chad Dreier Chair in Accounting, and Director of the Center for Accounting Ethics, Governance, and the Public Interest

B.A., Wittenberg University, 1974;
M.S., Kent State University, 1975;
Ph.D., The Pennsylvania State University, 1989;
C.P.A.

VELITCHKA D. KALTCHEVA (2006)

Assistant Professor of Marketing

B.A., Trinity College, Washington, D.C., 1993;
M.B.A., Higher Institute of Economics, Sofia, Bulgaria, 1994;
Ph.D., University of Florida, Gainesville, 2001.

MARGARET KASIMATIS (2006)

Assistant Professor of Psychology and Vice President for Academic Planning and Effectiveness

B.A., Loyola Marymount University, 1985;
M.S., Purdue University, 1989;
Ph.D., Purdue University, 1992.

RACHELLE KATZ (1976)

Professor of Finance, Associate Dean, and Director of the MBA Program

B.S., Purdue University, 1969;
M.B.A., University of Michigan, 1972;
Ph.D., Stanford University, 1980.

LILY KHADJAVI (1999)

Associate Professor of Mathematics

A.B., Harvard University, 1990.
Ph.D., University of California, Berkeley, 1999.

W. FREDERICK KIESNER, JR. (1977)

Professor of Management, Conrad N. Hilton Chair in Entrepreneurship, and Director of the Fred Kiesner Center for Entrepreneurship

B.S.B., University of Minnesota, 1961;
M.B.A., Northwestern University, 1962;
Ph.D., Claremont Graduate University, 1985.

DAVID D. KILLORAN (1969)

Professor of English

B.A., Michigan State University, 1965;
Ph.D., Tulane University of Louisiana, 1974.

NADIA KIM (2007)

Assistant Professor of Sociology

B.A., University of California, Santa Barbara, 1996;
M.A., University of Michigan, 2000;
Ph.D., University of Michigan, 2003.

GARLAND P. KIRKPATRICK (2003)

Associate Professor of Art and Art History

B.A., Amherst College, 1983;
M.F.A., Yale University, 1990.

GIL KLEIN (2011)

Assistant Professor of Theological Studies

B.Arch., Bezalel Academy, 1998;
M.Phil., Cambridge University, 2003;
Ph.D., Cambridge University, 2007.

THOMAS F. KLEIN (2006)

Assistant Professor of Animation

B.A., Rutgers University, 1991;
M.F.A., University of California, Los Angeles, 2002.

DMITRY KMELNITSKY (2004)

Assistant Professor of Art and Art History

B.A., University of California, Los Angeles, 1997;
M.F.A., University of California, Los Angeles, 2001.

JAMES D. KONOW (1989)

Professor of Economics

B.A., Arizona State University, 1977;
M.A., University of California, San Diego, 1983;

Ph.D., University of California, Los Angeles, 1989.

MIKAEL R. KREUZRIEGLER (2009)

Assistant Professor of Film and Television Production
Mag. phil., University of Vienna, 1994;
M.F.A., University of Southern California, 1999.

GARY KULECK (1994)

Associate Professor of Biology and William McLaughlin Professor of Biology and Associate Dean for Research, Graduate Studies, and External Initiatives, Frank R. Seaver College of Science and Engineering
B.A., University of Maryland, 1975;
Ph.D., University of Pennsylvania, 1991.

JOSEPH LaBRIE, S.J. (2003)

Associate Professor of Psychology and Special Assistant to the President
B.S., Marquette University, 1983;
Ph.L., Gonzaga University, 1988;
M.S., University of North Carolina at Chapel Hill, 1989;
M.Div., Jesuit School of Theology, Berkeley, 1995;
Ph.D., University of Southern California, 2002.

NICHOLAS LADANY (2011)

Professor of Educational Support Services and Director of Counseling
B.S., University of Maryland, 1985;
Ph.D., University at Albany, State University of New York, 1992.

JAMES M. LANDRY (1984)

Professor of Chemistry and Natural Science and Associate Dean for Undergraduate Studies, Frank R. Seaver College of Science and Engineering
B.S., Xavier University, 1978;
M.S., Xavier University, 1983;
Ph.D., Miami University, 1984.

YVETTE LAPAYESE (2003)

Associate Professor of Specialized Programs in Urban Education
B.A., California State University, Fullerton, 1995;
M.A., University of Southern California, 1998;
Ph.D., University of California, Los Angeles, 2002.

SUZANNE LARSON (1986)

Professor of Mathematics and Chairperson of the Department
B.A., St. Olaf College, 1979;
Ph.D., Claremont Graduate University, 1984.

MAGALY LAVADENZ (1994)

Professor of Language and Culture in Education
B.S., Oakland University, 1979;
M.A., California State University, Northridge, 1991;
Ph.D., University of Southern California, 1993.

HOWARD S. LAVICK (1986)

Associate Professor of Film and Television Production and Co-Director of SFTV-Bonn Program
M.A., University of Minnesota, 1969;
M.F.A., University of Southern California, 1976.

MARK LEACH (2001)

Professor of Marketing
B.S., University of Arizona, 1991;
Ph.D., Georgia State University, 1998.

WAYNE Le CHEMINANT (2006)

Assistant Professor of Political Science
B.A., Brigham Young University, 1993;
M.A., California State University, Los Angeles, 1999;
M.A., University of Southern California, 2001;
Ph.D., University of Southern California, 2004.

CHUN I. LEE (2001)

Professor of Finance, Computer Information Systems and Operations Management
B.S., Chiao Tung University, Taiwan, 1980;
M.S., University of California, Los Angeles, 1985;
M.S., Carnegie-Mellon University, 1987;
M.S., Washington University in St. Louis, 1990;
D.B.A., Southern Illinois University at Carbondale, 1993.

MICHAEL LEE, S.J. (2006)

Assistant Professor of Theological Studies
B.A., University of Nebraska—Lincoln, 1983;

M.A., St. Louis University, 1989;
M.Div., Weston Jesuit School of Theology, 1995;
Th.M., Weston Jesuit School of Theology, 1996;
Ed.D., Columbia University, 2005.

WENSHU LEE (2007)

Professor of Communication Studies
B.A., National Taiwan University, 1983;
M.A., University of Southern California, 1985;
Ph.D., University of Southern California, 1989.

TERESA I. LENIHAN (2004)

Associate Professor of Art and Art History
B.F.A., San José State University, 1982;
M.F.A., Claremont Graduate University, 1984.

LINDA LEON (1988)

Associate Professor of Finance
B.A., University of California, Los Angeles, 1982;
Ph.D., University of California, Los Angeles, 1988.

BRIAN P. LEUNG (1990)

Professor of Educational Support Services, Chairperson of the Department, and Director of School Psychology
A.A., Pasadena City, 1974;
B.A., University of Southern California, 1976;
M.A., California State University, Long Beach, 1979;
Ph.D., University of Southern California, 1990.

HOLLI G. LEVITSKY (1991)

Associate Professor of English and Director of Jewish Studies
B.A., University of Michigan, 1979;
M.A., University of Michigan, 1982;
Ph.D., University of California, Irvine, 1991.

PETRA LIEDKE KONOW (1995)

Associate Professor of Modern Languages and Literatures and Director of European Studies
B.A., Universität zu Köln, Germany, 1977;
M.A., Universität zu Köln, Germany, 1983;
Ph.D., University of California, Los Angeles, 1992.

STEPHANIE LIMONCELLI (2010)

Assistant Professor of Sociology
B.A., University of Nevada, Las Vegas, 1988;
M.A., University of California, Los Angeles, 2000;
Ph.D., University of California, Los Angeles, 2006.

DEBRA B. LINESCH (1991)

Professor of Marital and Family Therapy and Chairperson of the Department
B.A., University of Toronto, 1975;
B.Ed., Queens University, 1976;
M.A., Loyola Marymount University, 1981;
Ph.D., Union Institute, 1992.

EDMUNDO LITTON (1999)

Associate Professor of Specialized Programs in Urban Education Education and Chairperson of the Department
B.A., De La Salle University, Philippines, 1985;
M.A., Georgetown University, 1989;
Ed.D., University of San Francisco, 1994.

DORIAN LLYWELYN, S.J. (2005)

Assistant Professor of Theological Studies and Director of the Catholic Studies Program
B.A., University of Cambridge, 1977;
M.A., University of Cambridge, 1981;
S.T.B., Universidad Pontificia de Salamanca, 1990;
S.T.L., Jesuit School of Theology, Berkeley, 1995;
Ph.D., University of Wales, Lampeter, 2005.

MARC G. LONY (1998)

Associate Professor of Modern Languages and Literatures
DEUG, Université de Paris III, 1978;
M.A., Université de Paris VIII, 1980;
M.A., Université de Paris VIII, 1988;
Ph.D., University of California, Santa Barbara, 1994.

CHAN LÜ (2009)

Assistant Professor of Modern Languages and Literatures

B.A., Xiangtan University, 2002;
 M.A., Beijing Language and Culture University, 2005;
 Ph.D., Carnegie Mellon University, 2009.

MICHELLE R. LUM (2007)

Assistant Professor of Biology

B.A., University of California, San Diego, 1995;
 B.S., University of California, San Diego, 1995;
 Ph.D., University of California, Los Angeles, 2003.

YANGPING MA (2011)

Assistant Professor of Mathematics

B.S., University of Science and Technology of China, 2006;
 Ph.D., The Pennsylvania State University, 2011.

RICARDO A. MACHÓN (1986)

Professor of Psychology

B.A., University of Southern California, 1979;
 M.A., University of Southern California, 1982;
 Ph.D., University of Southern California, 1986.

ERIC MAGNUSON (2003)

Associate Professor of Sociology

B.A., Brown University, 1991;
 M.A., University of California, Los Angeles, 1994;
 Ph.D., University of California, Los Angeles, 2000.

JUAN MAH Y BUSCH (2002)

Associate Professor of English and Acting Director of The Bioethics Institute

B.A., University of California, Los Angeles, 1993;
 M.A., Cornell University, 1998;
 Ph.D., Cornell University, 2003.

STEVEN MAILLOUX (2009)

President's Professor of Rhetoric, Department of English

B.A., Loyola University of Los Angeles, 1972
 M.A. University of Southern California, 1974
 Ph.D., University of Southern California, 1977.

CHRISTOPHER A. MANNING (1986)

Professor of Finance

B.S., San Diego State University, 1967;
 M.B.A., Northwestern University, 1971;
 Ph.D., University of California, Los Angeles, 1983.

MICHAEL E. MANOOGIAN (1993)

Professor of Civil Engineering and Chairperson of the Department

B.S., Loyola Marymount University, 1975;
 M.S., California State University, Northridge, 1983;
 M.S., California State University, Northridge, 1983;
 E.C.E., University of Southern California, 1987;
 Ph.D., University of Southern California, 1992;
 Registered Professional Engineer.

RON MARASCO (1993)

Professor of Theatre Arts

B.A., Fordham University, 1983;
 M.A., University of California, Los Angeles, 1988;
 Ph.D., University of California, Los Angeles, 1994.

BARBARA E. MARINO (1997)

Associate Professor of Electrical Engineering

B.S.E.E., Marquette University, 1989;
 M.S.E.E., University of Notre Dame, 1993;
 Ph.D., University of Notre Dame, 1996.

DAVID MARPLE (1978)

Assistant Professor of Sociology

B.A., Western Kentucky University, 1968;
 M.A., State University New York, Albany, 1970;
 Ph.D., Cincinnati University, 1981.

SHANE P. MARTIN (1995)

Professor of Language and Culture in Education, and Dean of the School of Education

B.A., Loyola Marymount University, 1980;
 M.Div., Jesuit School of Theology, Berkeley, 1991;
 Th.M., Jesuit School of Theology, Berkeley, 1992;
 Ph.D., University of Southern California, 1995.

PATRICIA GARCIA MARTINEZ (2006)

Assistant Professor of Management

B.S., California State Polytechnic University, Pomona, 1991;
 Ph.D., University of California, Irvine, 2002.

RUBÉN MARTÍNEZ (2006)

Professor of English and Fletcher Jones Chair in Literature and Writing

DAVID L. MATHISON (1983)

Professor of Management

B.A., Whittier College, 1969;
 M.Div., Bethel Theological Seminary, 1975;
 Ph.D., Bowling Green State University, 1978.

JEREMY E.B. McCALLUM (2005)

Assistant Professor of Chemistry

B.A., Princeton University, 1996;
 Ph.D., University of California, Los Angeles, 2005.

MARTHA M. McCARTHY (2011)

Professor of Educational Leadership

B.S., University of Kentucky, 1966;
 M.A., University of Kentucky, 1969;
 Ed.S., University of Florida, 1974;
 Ph.D., University of Florida, 1975.

MARY McCULLOUGH (1995)

Professor of Education and Associate Dean for Faculty

B.A., Mount St. Mary's College, 1968;
 M.A., University of San Francisco, 1985;
 Ph.D., University of Southern California, 1992.

EVELYN McDONNELL (2010)

Assistant Professor of English

B.A., Brown University, 1986;
 M.A., University of Southern California, 2010.

MARY CATHARINE McELWAIN (1987)

Associate Professor of Biology

A.B., Bryn Mawr College, 1973;
 Ph.D., University of Utah, 1985.

CATHLEEN McGRATH (1998)

Associate Professor of Management

B.A., University of Notre Dame, 1989;
 Ph.D., Carnegie Mellon University, 1998.

HERBERT A. MEDINA (1992)

Professor of Mathematics

B.S., University of California, Los Angeles, 1985;
 M.S., University of California, Berkeley, 1987;
 Ph.D., University of California, Berkeley, 1992.

BLAKE MELLOR (2002)

Associate Professor of Mathematics

B.A., Harvard University, 1993;
 Ph.D., University of California, Berkeley, 1999.

JOHN M. MENAGHAN (1989)

Professor of English and Director of Irish Studies

A.B., Boston College 1976;
 M.A., Syracuse University, 1979;
 Ph.D., University of California, Berkeley, 1988.

MEL I. MENDELSON (1994)

Professor of Mechanical Engineering

B.S., University of California, Berkeley, 1964;
 M.S., Northwestern University, 1966;
 Ph.D., Northwestern University, 1973.

DIANE M. MEYER (2005)

Associate Professor of Art and Art History

B.F.A., New York University, 1999;
 M.F.A., University of California, San Diego, 2002.

MLADEN MILICEVIC (1999)

Professor of Recording Arts and Chairperson of the Department

B.A., Academy of Music, Sarajevo, 1982;
 M.A., Academy of Music, Sarajevo, 1986;
 M.A., Wesleyan University, 1988;
 D.M.A., University of Miami, 1991.

MICHAEL E. MILLS (1985)

Associate Professor of Psychology
 B.A., University of California, Los Angeles, 1975;
 M.S., California State University, Long Beach, 1977;
 Ph.D., University of California, Santa Barbara, 1983.

MICHAEL MIRANDA (2001)

Assistant Professor of Music
 B.A., California State University, Northridge, 1984;
 M.A., California State University, Los Angeles, 1988;
 Ph.D., Claremont Graduate University, 2001.

ROBIN MISKOLCZE (2002)

Associate Professor of English
 B.A., Indiana University of Pennsylvania, 1991;
 M.A., University of Nebraska—Lincoln, 1992;
 Ph.D., University of Nebraska—Lincoln, 2000.

DAVID A. MOFFET (2005)

Assistant Professor of Chemistry
 B.S., Shippensburg University, 1997;
 Ph.D., Princeton University, 2002.

PHILIP E. MOLEBASH (2011)

Assistant Professor of Specialized Programs in Urban Education
 B.S., Pepperdine University, 1993;
 Ph.D., University of Virginia, 2001.

IVAN MONTIEL (2011)

Assistant Professor of Management
 B.S., Autonomous University of Barcelona, Spain, 1999;
 M.A., University Pompeu Fabra, Barcelona, Spain, 2001;
 Ph.D., University of California, Santa Barbara, 2006.

SYLVIA MORALES (2003)

Associate Professor of Film and Television Production
 B.A., University of California, Los Angeles, 1972;
 M.F.A., University of California, Los Angeles, 1979.

MARK D. MORELLI (1981)

Professor of Philosophy, Director of the Graduate Program in Philosophy, and Director of the Los Angeles Lonergan Center at LMU
 B.A., Santa Clara University, 1970;
 M.A., University of Toronto, 1973;
 Ph.D., University of Toronto, 1979.

EDWARD C. MOSTEIG (2002)

Associate Professor of Mathematics and Graduate Director of the Department
 B.S., University of Michigan, Ann Arbor, 1993;
 M.S., University of Illinois, Champaign-Urbana, 1996;
 M.S., Cornell University, 1999;
 Ph.D., Cornell University, 2000.

TERESA MUÑOZ (1974)

Professor of Art and Art History
 B.A., Marymount College, 1971;
 M.A., California State University, Northridge, 1974;
 M.F.A., California State University, Long Beach, 1982.

ANNA MURACO (2006)

Assistant Professor of Sociology
 B.A., Santa Clara University, 1991;
 M.A., San José State University, 1997;
 Ph.D., University of California, Davis, 2004.

JONAS R. MUREIKA (2004)

Associate Professor of Physics
 B.Sc., University of Toronto, 1993;
 M.Sc., University of Waterloo, 1995;
 Ph.D., University of Toronto, 2002.

NORA MURPHY (2007)

Assistant Professor of Psychology
 B.S., Trinity College, 1996;
 M.A., Northeastern University, 2000;
 Ph.D., Northeastern University, 2003.

ELIZABETH MURRAY (1987)

Professor of Philosophy and Robert S. Taylor, S.J., Chair in Philosophy
 B.A., Santa Clara University, 1971;
 M.A., University of Toronto, 1973;

Ph.D., University of Toronto, 1981.

ROBBIE NAKATSU (2000)

Associate Professor of Finance and Computer Information Systems
 B.A., Yale University, 1986;
 Ph.D., University of British Columbia, 2001;
 M.F.A., University of Southern California, 2004.

ADILIFU NAMA (2011)

Associate Professor of African American Studies and Chairperson of the Department
 B.A., California State University, Long Beach, 1992;
 M.A., Howard University, 1996;
 Ph.D., University of Southern California, 2002.

ALEXANDRA NEEL (2009)

Assistant Professor of Humanities
 B.A., Smith College, 1993;
 B.A. Cambridge University, 1995;
 M.A., Princeton University, 2005;
 Ph.D., Princeton University, 2007.

VIRGIL MARTIN NEMOIANU (2005)

Assistant Professor of Philosophy
 B.A., The Catholic University of America, 1996;
 Ph.D., University of Toronto, 2002.

VANESSA NEWELL (2008)

Assistant Professor of Film and Television Production
 B.F.A., San José State University, 1993;
 M.F.A., University of Southern California, 1998.

ART NOMURA (1990)

Professor of Film and Television Production
 B.A., California State University, Los Angeles, 1970;
 M.F.A., University of California, Los Angeles, 1989.

KATHARINE M. NOON (2004)

Associate Professor of Theatre Arts
 B.A., University of Puget Sound, 1985;
 M.F.A., California Institute of the Arts, 1990.

RAFIQUL I. NOORANI (1989)

Professor of Mechanical Engineering
 B.S., Bangladesh University of Engineering and Technology, 1969;
 M.E., Texas A&M University, 1977;
 Ph.D., Texas A&M University, 1982.

KIRSTIN J. NOREEN (2006)

Professor of Art and Art History
 B.A., Reed College, 1992;
 M.A., The Johns Hopkins University, 1995;
 Ph.D., The Johns Hopkins University, 1999.

MAHMOUD MEHRDAD NOURAYI (1990)

Professor of Accounting, Chairperson of the Department, and Dean of the College of Business Administration
 B.S., Institute of Advanced Accounting, 1975;
 M.S., West Coast University, 1977;
 M.B.A., West Coast University, 1978;
 M.S.B.A., California State University, Los Angeles, 1983;
 Ph.D., University of Southern California, 1989;
 C.P.A., C.M.A., C.F.M.

MARGARITA OCHOA (2011)

Assistant Professor of History
 B.A., University of California, Los Angeles, 1998;
 M.A., University of New Mexico, 2002;
 Ph.D., University of New Mexico, 2011.

DAVID OFFENBERG (2006)

Assistant Professor of Finance and Computer Information Systems
 B.S., Purdue University, 1996;
 Ph.D., Purdue University, 2005.

MICAH OFFICER (2009)

Associate Professor of Finance and Computer Information Systems
 B.Comm., University of Auckland, 1996;
 M.S., University of Rochester, 1999;
 Ph.D., University of Rochester, 2002.

STELLA OH (2005)

Assistant Professor of Women's Studies
 B.A., University of California, Los Angeles, 1997;
 M.A., University of California, Irvine, 2000;
 Ph.D., University of California, Irvine, 2004.

ÁINE O'HEALY (1989)

Professor of Modern Languages and Literatures and Director of Humanities
 B.A., University College, Galway, 1969;
 M.A., University College, Galway, 1971;
 Ph.D., University of Wisconsin, Madison, 1976.

IRENE OLIVER (1982)

Professor of Elementary and Secondary Education and Chairperson of the Department
 B.A., Marymount College, 1973;
 M.Ed., Loyola Marymount University, 1976;
 Ed.D., Pepperdine University, 1997.

PATRICIA OLIVER (1982)

Associate Professor of Communication Studies
 B.A., Holy Names College, 1965;
 M.A., California State University, Los Angeles, 1977.

BOHDAN W. OPPENHEIM (1983)

Professor of Systems Engineering
 B.S.C., Warsaw Polytechnic, 1970;
 M.S.C., Stevens Institute of Technology, 1972;
 Naval Architect, Massachusetts Institute of Technology, 1974;
 Ph.D., Southampton University, 1980.

MICHAEL O'SULLIVAN (1985)

Professor of Psychology
 B.A., St. Louis University, 1972;
 M.S., St. Louis University, 1973;
 M.Div., Jesuit School of Theology, Berkeley, 1978;
 S.T.M., Jesuit School of Theology, Berkeley, 1979;
 Ph.D., St. Louis University, 1982.

TODD OTANICAR (2009)

Assistant Professor of Mechanical Engineering
 B.S., University of Kansas, 2002;
 M.S., University of Cincinnati, 2005;
 Ph.D., Arizona State University, 2009.

JOHN A. PAGE (1962)

Professor of Electrical Engineering
 B.S. in E.E., Loyola University, Los Angeles, 1961;
 M.S. in E., University of California, Los Angeles, 1964;
 Ph.D., University of California, Los Angeles, 1970;
 Registered Professional Engineer.

YONGSUN PAIK (1991)

Professor of Management and Director of the Center for Asian Business
 B.A., Yonsei University, 1978;
 M.B.A., Chung-Ang University;
 M.A., University of Texas, Austin, 1986;
 Ph.D., University of Washington, 1991.

JEREMY S. PAL (2006)

Associate Professor of Civil Engineering
 B.S.E., Loyola Marymount University, 1994;
 M.S., Massachusetts Institute of Technology, 1997;
 Ph.D., Massachusetts Institute of Technology, 2001.

RODGER PARDEE (2000)

Associate Professor of Recording Arts
 B.A., University of Nebraska—Lincoln, 1977;
 M.A., University of Southern California, 1980.

EDWARD PARK (1999)

Professor of Asian Pacific American Studies, Director of Asian Pacific American Studies, and Director of American Cultures Studies
 A.B., University of California, Berkeley, 1986;
 M.C.P., University of California, Berkeley, 1988;
 Ph.D., University of California, Berkeley, 1993.

GENE PARK (2011)

Assistant Professor of Political Science
 B.A., Swarthmore College, 1993;

M.C.P., University of California, Berkeley, 1997;
 Ph.D., University of California, Berkeley, 2007.

JUDY PARK (2010)

Assistant Professor of English
 B.A., University of California, San Diego, 2002;
 M.A., Cornell University, 2007;
 Ph.D., Cornell University, 2010.

JOHN PARRISH (2006)

Associate Professor of Political Science
 A.B., William Jewell College, 1994;
 M.Phil., University of Cambridge, 1996;
 M.A., Harvard University, 2000;
 Ph.D., Harvard University, 2002.

ALICIA M. PARTNOY (1998)

Associate Professor of Modern Languages and Literatures and Chairperson of the Department
 B.A., Universidad Nacional del Sur, 1989;
 M.A., The Catholic University of America, 1991;
 Ph.D., The Catholic University of America, 1997.

JENNIFER PATE (2005)

Assistant Professor of Economics
 B.A., University of California, Davis, 2001;
 M.S., Purdue University, 2002;
 Ph.D., Purdue University, 2005.

KYRA L. PEARSON (2002)

Associate Professor of Communication Studies
 B.A., University of California, Davis, 1995;
 M.A., University of Iowa, 1999;
 Ph.D., University of Iowa, 2003.

ERIC D. PERL (2004)

Professor of Philosophy
 B.A., Yale University, 1984;
 M.A., University of Toronto, 1985;
 Ph.D., Yale University, 1991.

RICHARD J. PERLE (1975)

Professor of Finance and Chairperson of the Department
 B.S., Michigan Technological University, 1967;
 M.B.A., California State University, Long Beach, 1972;
 M.S., University of Southern California, 1974;
 Ph.D., University of Southern California, 1981.

ANTHONY M. PERRON (2004)

Associate Professor of History
 B.A., University of Chicago, 1994;
 M.A., University of Chicago, 1996;
 Ph.D., University of Chicago, 2002.

K.J. PETERS (2000)

Associate Professor of English
 B.A., Tabor College, 1985;
 M.A., Wichita State University, 1988;
 Ph.D., University of Nebraska—Lincoln, 1998.

ANTONIA PETRO (2000)

Associate Professor of Modern Languages and Literatures
 B.A., University of Salamanca, 1994;
 M.A., Michigan State University, 1996;
 Ph.D., Michigan State University, 2000.

JEFFREY A. PHILLIPS (2001)

Associate Professor of Physics
 B.S., University of Virginia, 1993;
 M.S., University of California, Irvine, 1996;
 Ph.D., University of California, Irvine, 1999.

RICHARD G. PLUMB (2005)

Professor of Electrical Engineering and Dean of the Frank R. Seaver College of Science and Engineering
 B.S.E.E., Syracuse University, 1982;
 M.S.E.E., Syracuse University, 1985;
 Ph.D., Syracuse University, 1988.

CANDACE A. POINDEXTER (1987)

Professor of Elementary and Secondary Education
 B.A., University of California, Los Angeles, 1967;

M.Ed., Loyola Marymount University, 1977;
Ed.D., University of California, Los Angeles, 1985.

LESLIE PONCIANO (2009)

Assistant Professor of Elementary and Secondary Education
B.A., University of California, Irvine, 1990;
M.A., Columbia University, 1992;
Ph.D., University of California, Los Angeles, 2001.

REV. LUÍS PROENÇA (2002)

Associate Professor of Film and Television Production
B.A., Coimbra University, 1980;
S.T.L., Universidade Católica Portuguesa, Braga, 1986;
M.Div., Jesuit School of Theology, Berkeley, 1991;
M.A., Jesuit School of Theology, Berkeley, 1992;
M.F.A., Loyola Marymount University, 1995.

ZBIGNIEW H. PRZASNYSKI (1985)

Professor of Operations Management
B.S., University of Sussex, 1972;
M.S., University of Sussex, 1973;
Ph.D., University of Sussex, 1977.

MARIA QUIJADA (2009)

Assistant Professor of Management
B.S., Universidad Metropolitana, 1995;
M.S. Stanford University, 1998;
Ph.D., Massachusetts Institute of Technology, 2007.

RALPH L. QUIÑONES (1986)

Associate Professor of Business Law
B.A., Vassar College, 1974;
J.D., New York University, 1980;
M.B.A., New York University, 1981.

NIGEL A. RAAB (2005)

Assistant Professor of History
B.Sc., Queen's University, Kingston, 1990;
B.A., Queen's University, Kingston, 1995;
M.A., University of Zurich, 1997;
M.Phil., Columbia University, 1997;
Ph.D., Columbia University, 2002.

CHARLOTTE C. RADLER (2003)

Assistant Professor of Theological Studies
B.A., University of Lund, 1997;
M.A., University of Lund, 1997;
Ph.D., University of Chicago, 2003.

PATRICK DAMON RAGO (2001)

Associate Professor of Dance
B.A., California State University, Fullerton, 1994;
M.F.A., University of Utah, 1996.

DAVID A. RAMIREZ (2002)

Assistant Professor of Natural Science
B.A., California State Polytechnic University, Pomona, 1991;
A.T.C., 1991;
M.A., California State University, Fresno, 1993;
C.S.C.S., 1998.

MARTIN RAMIREZ (1999)

Associate Professor of Biology
B.S., Loyola Marymount University, 1981;
Ph.D., University of California, Santa Cruz, 1990.

FRANCISCO RAMOS (2003)

Associate Professor of Elementary and Secondary Education
B.A., Escuela Universitaria de Formación del Profesorado de Soria, 1982;
M.A., Universidad de Zaragoza, 1985;
M.A., California State University, Los Angeles, 1995;
Ph.D., University of Southern California, 2000.

JENNIFER RAMOS (2008)

Assistant Professor of Political Science
B.A., University of California, Davis, 1995;
M.A., San Francisco State University, 2001.

THOMAS P. RAUSCH, S.J. (1967-69; 1976)

Professor of Theological Studies and T. Marie Chilton Chair of Catholic Theology
B.A., Gonzaga University, 1966;

M.A., Gonzaga University, 1967;
S.T.M., Jesuit School of Theology, Berkeley, 1972;
Ph.D., Duke University, 1976.

NINA MARIA REICH (2003)

Associate Professor of Communication Studies
B.A., California State University, Long Beach, 1998;
M.A., California State University, Long Beach, 2000;
Ph.D., University of North Carolina at Chapel Hill, 2003.

JOSEPH C. REICHENBERGER (1993)

Professor of Civil Engineering
B.C.E., Marquette University, 1964;
M.S., University of Southern California, 1967;
Registered Professional Engineer.

JOHN T. REILLY (1984)

Associate Professor of English
B.A., Harpur College, 1968;
M.F.A., Cornell University, 1972;
Ph.D., Cornell University, 1977.

THOMAS J. REILLY (1976)

Associate Professor of Chemistry
B.A., Brooklyn College, 1963;
Ph.D., University of Southern California, 1971.

CRAIG O. RICH (2009)

Assistant Professor of Communication Studies
B.A., Radford University, 1999;
M.S., University of Utah, 2003.

BARBARA ROCHE RICO (1989)

Professor of English
B.A., Yale University, 1977;
M.Phil., Yale University, 1981;
Ph.D., Yale University, 1987.

PETER SMITH RING (1990)

Professor of Management
B.A., St. Anselm College, 1963;
L.L.B., Georgetown, 1966;
M.P.A., Harvard University, 1970;
Ph.D., University of California, Irvine, 1986.

ELIZA RODRIGUEZ Y GIBSON (2010)

Assistant Professor of Chicana/o Studies
B.A., University of California, Los Angeles, 1994;
M.A., Cornell University, 1998;
Ph.D., Cornell University, 2002.

JAMES A. ROE (1991)

Professor of Chemistry and Chairperson of the Department
A.B., Williams College, 1977;
Ph.D., University of California, Berkeley, 1984.

ANDREW ROHM (2011)

Associate Professor of Marketing
B.S., University of Michigan, 1984;
Ph.D., University of Massachusetts Amherst, 2001.

CURTISS TAKADA ROOKS (2008)

Assistant Professor of Asian Pacific American Studies and Associate Dean of the Bellarmine College of Liberal Arts
A.B., Dartmouth College, 1976;
M.A., Trinity College, 1982;
Ph.D., University of California, Irvine, 1997.

ERNEST ROSE (2005)

Professor of Educational Support Services
B.A., University of California, Santa Barbara, 1970;
M.S., University of Utah, 1978;
Ph.D., University of Utah, 1984.

CHUCK ROSENTHAL (1986)

Professor of English
B.A., Allegheny University, 1973;
M.A., Bowling Green State University, 1975;
M.A., University of California, Davis, 1981;
Ph.D., University of Utah, 1986.

NICOLAS ROSENTHAL (2006)

Assistant Professor of History
B.A., University of Oregon, 1997;
M.A., University of Oregon, 2000;
Ph.D., University of California, Los Angeles, 2005.

JONATHAN ROTHCHILD (2007)

Associate Professor of Theological Studies and Director of the Graduate Program in Theology and Pastoral Theology
B.A., Georgetown University, 1996;
M.A., University of Chicago, 1999;
Ph.D., University of Chicago, 2003.

ROBERT JAMES ROVETTI (2008)

Assistant Professor of Mathematics
B.S., Pacific Union College, 1999;
M.S., University of California, Los Angeles, 2003.

ABHIK ROY (2006)

Professor of Communication Studies
B.S., St. Xavier's College, Calcutta, India, 1975;
LL.B., University of Calcutta, 1979;
M.S., University of Kansas, 1985;
Ph.D., University of Kansas, 1996.

JUDITH ROYER, C.S.J. (1973)

Professor of Theatre Arts
B.A., St. Joseph Teachers College, 1967;
M.A., California State University, Fullerton, 1973;
Ph.D., University of California, Santa Barbara, 1983.

GREGORY RUZZIN (2005)

Associate Professor of Film and Television Production
B.G.S., University of Michigan, 1986;
M.F.A., University of Southern California, 1989.

DERMOT ALBERT RYAN (2007)

Assistant Professor of English
B.A., Trinity College, Dublin, 1992;
M.A., Queens University, Belfast, 1997;
M.A., Columbia University, 2000;
M.Phil., Columbia University, 2003;
Ph.D., Columbia University, 2007.

ANTHONY J. SABATINO (2011)

Assistant Professor of Educational Leadership
B.S., Northern Illinois University, 1972;
M.S., Northern Illinois University, 1976;
Ed.D., California Lutheran University, 2010.

JOSE A. SAEZ (2002)

Associate Professor of Civil Engineering
B.S.E., Loyola Marymount University, 1986;
M.S.E., Loyola Marymount University, 1991;
Ph.D., University of California, Los Angeles, 2004;
Registered Professional Engineer.

REBECCA SAGER (2007)

Assistant Professor of Sociology
B.A., University of California, San Diego, 2000;
M.A., University of Arizona, 2002.

YING SAI (2004)

Assistant Professor of Computer Information Systems
B.S., Beijing Institute of Light Industry, 1983;
M.S., Carnegie Mellon University, 1986;
Ph.D., University of Texas at Austin, 2002.

DAVID SANCHEZ (2006)

Assistant Professor of Theological Studies
B.A., California State University, Los Angeles, 1988;
M.A., Claremont School of Theology, 1997;
M.A., Union Theological Seminary, 2004;
Ph.D., Union Theological Seminary, 2005.

NADER SANIEI (2004)

Professor of Mechanical Engineering and Chairperson of the Department
B.S., Purdue University, 1981;
M.S., University of California, Davis, 1984;
Ph.D., University of California, Davis, 1988.

JEFF SANNY (1980)

Professor of Physics and Associate Dean for Research, Graduate Studies, and External Initiatives, Frank R. Seaver College of Science and Engineering
B.S., Harvey Mudd College, 1974;
M.S., University of California, Los Angeles, 1976;
Ph.D., University of California, Los Angeles, 1980.

MARK SAYA (1993)

Professor of Music
B.M., Indiana University, 1978;
M.M., University of Cincinnati, 1980;
D.M.A., University of Cincinnati, 1986.

VIRGINIA SAYA (1989)

Professor of Music
B.Mus., Simpson College, 1975;
M.Mus., University of Cincinnati, 1983;
Ph.D., University of Cincinnati, 1989.

JUDITH M. SCALIN (1976)

Professor of Dance and Co-Chairperson of the Department
B.A., University of California, Los Angeles, 1968;
M.A., Mills College, 1974.

DEAN SCHEIBEL (1991)

Professor of Communication Studies and Director of Interdisciplinary Applied Programs
B.S., California State University, Northridge, 1975;
B.A., California State University, Northridge, 1984;
M.A., California State University, Northridge, 1986;
Ph.D., Arizona State University, 1991.

SUSAN SCHEIBLER (2001)

Associate Professor of Film, Television, and Media Studies
B.A., Biola University, 1976;
M.A., Claremont Graduate University, 1986;
M.A., University of Southern California, 1986;
Ph.D., University of Southern California, 1994.

MARK EVAN SCHWARTZ (2001)

Associate Professor of Screenwriting and Associate Dean of the School of Film and Television
B.F.A., East Carolina University, 1975;
M.F.A., Boston University, 1980.

KALA CHAND SEAL (1990)

Professor of Computer Information Systems
B.Tech., India Institute of Technology, 1985;
M.S., University of Texas, Dallas, 1989;
Ph.D., University of Texas, Dallas, 1990.

BETH SERLIN (2005)

Assistant Professor of Screenwriting
B.A., University of Michigan, Ann Arbor, 1989;
M.F.A., University of Southern California, 1992.

ANA SERRANO (2006)

Associate Professor of Elementary and Secondary Education
B.S., University of Southern California, 1979;
M.S., University of Southern California, 1990;
Ph.D., University of Southern California, 1996.

MONA SEYMOUR (2009)

Assistant Professor of Urban Studies
B.A., University of California, 2003;
Ph.D., University of Southern California, 2010.

ANI SHABAZIAN (2009)

Assistant Professor of Elementary and Secondary Education and Director, LMU Children's Center
B.A., University of California, Los Angeles, 1998;
Ed.M., Harvard University, 1999;
Ph.D., University of California, Los Angeles, 2005.

PATRICK D. SHANAHAN (1996)

Professor of Mathematics
B.A., California State University, Long Beach, 1990;
M.S., University of California, Santa Barbara, 1992;
Ph.D., University of California, Santa Barbara, 1996.

TIMOTHY D. SHANAHAN (1988)

Professor of Philosophy and Daum Professor of Liberal Arts
 B.S./B.A., State University New York, Cortland, 1983;
 M.A., University of Notre Dame, 1986;
 Ph.D., University of Notre Dame, 1988.

STEPHEN H. A. SHEPHERD (2006)

Professor of English and Director of the Graduate Program in English
 B.A., Queen's University, Kingston, Canada, 1983;
 M.A., Queen's University, Kingston, Canada, 1984;
 D.Phil., University of Oxford, 1988.

GARY P. SIBECK (1965)

Professor of Business Law
 B.A., University of Oklahoma, 1951;
 M.A., University of Oklahoma, 1960;
 J.D., University of Oklahoma, 1962;
 Ph.D., University of Southern California, 1971.

JEFFREY S. SIKER (1987)

Professor of Theological Studies
 B.A., Indiana University, 1976;
 M.A., Indiana University, 1978;
 M.Div., Yale University, 1981;
 Ph.D., Princeton Theological Seminary, 1989.

MEGHNA SINGHVI (2011)

Assistant Professor of Accounting
 B.Com., Symbiosis University, Pune, India, 2000;
 M.B.A., Ohio University, Athens, Ohio, 2002;
 M.Acc., Northern Kentucky University, 2007;
 Ph.D., Florida International University, 2011;
 C.P.A.

ROBERT SINGLETON (1982)

Associate Professor of Economics
 B.A., University of California, Los Angeles, 1960;
 M.A., University of California, Los Angeles, 1962;
 Ph.D., University of California, Los Angeles, 1983.

MATTHEW T. SINIAWSKI (2004)

Assistant Professor of Mechanical Engineering and Director of the Graduate Program in Mechanical Engineering
 B.S., Illinois Institute of Technology, 2000;
 Ph.D., Northwestern University, 2004.

DAVID SMITH (1978)

Professor of Mathematics
 B.S., Oklahoma State University, 1971;
 M.S., Oklahoma State University, 1973;
 Ph.D., Oklahoma State University, 1978.

DANIEL L. SMITH-CHRISTOPHER (1989)

Professor of Theological Studies and Director of Peace Studies
 B.A., George Fox College, 1977;
 M.Div., Associated Mennonite Biblical Seminaries, 1981;
 Ph.D., Oxford University, 1986.

DANIEL SPEAK (2007)

Assistant Professor of Philosophy and Chairperson of the Department
 B.A., Biola University, 1990;
 M.A., Claremont Graduate University, 1996;
 Ph.D., University of California, Riverside, 2002.

JOSHUA D. SPIZMAN (2011)

Assistant Professor of Finance
 B.S., Binghamton University, 2005;
 Ph.D., Binghamton University, 2010.

ERIN C. STACKLE (2010)

Assistant Professor of Philosophy
 B.A., Gonzaga University, 1998;
 M.A., Boston College, 2004.

JANIE S. STECKENRIDER (1991)

Associate Professor of Political Science
 B.A., University of Illinois, 1976;
 M.A., University of Notre Dame, 1978;
 Ph.D., University of Southern California, 1988.

JOHN A. STEWART (1989)

Professor of Film and Television Production

B.A., University of California, Los Angeles, 1968;
 M.F.A., University of California, Los Angeles, 1970.

ELIZABETH A. STODDARD (2005)

Associate Professor of Educational Leadership and Associate Dean of the School of Education
 B.A., Western Michigan University, 1977;
 M.A., Western Michigan University, 1979;
 Ph.D., Oregon State University, 1996.

BRAD ELLIOTT STONE (2003)

Associate Professor of Philosophy and Director of the University Honors Program
 B.A., Georgetown College, 1998;
 M.A., The University of Memphis, 2001;
 Ph.D., The University of Memphis, 2003.

SARAH L. STRAND (2007)

Assistant Professor of Natural Science
 B.A., Bethel University, 2001;
 M.A., Concordia University, 2003;
 A.T.C.

CHARLES SWANSON (2003)

Assistant Professor of Film and Television Production and Chairperson of the Department
 B.A., Morehouse College, 1990;
 M.F.A., University of Southern California, 1998.

REV. MICHAEL R. TANG (1990)

Professor of Art and Art History
 B.A., Loyola Marymount University, 1981;
 M.F.A., The School of the Art Institute, Chicago, 1983;
 M.Div., Jesuit School of Theology, Berkeley, 1989;
 Th.M., Jesuit School of Theology, Berkeley, 1990.

VANDANA THADANI (2004)

Associate Professor of Psychology
 B.A., University of Chicago, 1992;
 M.A., University of California, Los Angeles, 1995;
 Ph.D., University of California, Los Angeles, 2000.

RENATE THIMESTER (1971)

Associate Professor of Economics
 Diplome D'Etudes de Civilisation Francaise, Degree Superior, Sorbonne, Paris, 1961;
 B.S., University of Alabama, 1963;
 M.S., University of Alabama, 1965;
 Ph.D., University of Alabama, 1967.

SETH B. THOMPSON (1970)

Professor of Political Science
 B.A., Santa Clara University, 1966;
 M.A., University of Oregon, 1968;
 Ph.D., University of Oregon, 1972.

TRACY SAYUKI TIEMEIER (2006)

Assistant Professor of Theological Studies and Director of Undergraduate Studies for the Department
 B.A., University of Notre Dame, 1997;
 M.A., University of Notre Dame, 1999;
 Ph.D., Boston College, 2006.

RAYMOND J. TOAL (1986)

Professor of Electrical Engineering/Computer Science and Director of Computer Science
 B.S., Loyola Marymount University, 1985;
 M.S., Loyola Marymount University, 1986;
 Ph.D., University of California, Los Angeles, 1993.

BRIAN TREANOR (2003)

Associate Professor of Philosophy, Director of Environmental Studies, and Acting Director of Undergraduate Studies for the Department
 B.A., University of California, Los Angeles, 1991;
 M.A., California State University, Long Beach, 1997;
 Ph.D., Boston College, 2001.

LAWRENCE A. TRITLE (1978)

Professor of History
 B.A., University of California, Los Angeles, 1968;
 M.A., University of South Florida, 1972;

Ph.D., University of Chicago, 1978.

WILLIAM J. TROTT (1975)

Professor of Civil Engineering

B.S., University of California, Los Angeles, 1971;
M.S., University of California, Los Angeles, 1972;
Ph.D., University of California, Los Angeles, 1979;
Registered Professional Engineer.

NAZMUL ULA (1991)

Professor of Electrical Engineering and Chairperson of the Department

B.S., Bangladesh University of Engineering and Technology, 1979;
M.S., University of Wyoming, 1985;
Ph.D., University of California, Davis, 1991.

CARL R. URBINATI (2004)

Assistant Professor of Biology

B.S., University of Illinois at Urbana-Champaign, 1992;
Ph.D., Loyola University Chicago, 1998.

CHARLES VANCE (1986)

Professor of Management

B.S., Brigham Young University, 1975;
M.A., Brigham Young University, 1977;
Ph.D., Syracuse University, 1981.

GABRIELE VARIESCHI (2000)

Associate Professor of Physics

B.S., University of Milano, Italy, 1989;
M.S., University of California, Los Angeles, 1996;
Ph.D., University of California, Los Angeles, 2000.

GUSTAVO VEJARANO (2011)

Assistant Professor of Electrical Engineering

B.S., Universidad del Valle (Cali, Columbia), 2005;
M.S., University of Florida, 2009;
Ph.D., University of Florida, 2011.

CASSANDRA VENey (2009)

Associate Professor of Political Science

B.A., Syracuse University, 1982;
M.A., Howard University, 1988;
Ph.D., University of Missouri, Columbia, 1995.

CAROLYN M. VIVIANO (2002)

Associate Professor of Natural Science

B.A., Amherst College, 1982;
M.S., Columbia University, 1985;
M.Phil., Columbia University, 1985;
Ph.D., Columbia University, 1990.

JOHN P. WAGGONER, III (1976)

Professor of Biology

B.A., Duke University, 1965;
M.S., University of Nebraska, 1967;
Ph.D., University of California, Los Angeles, 1972.

JAMES J. WALTER (1999)

Austin and Ann O'Malley Chair of Bioethics

B.A., St. Meinrad College, 1969;
B.A., Katholieke Universiteit Leuven, 1970;
S.T.B., Katholieke Universiteit Leuven, 1971;
M.A., Katholieke Universiteit Leuven, 1971;
Ph.B., Katholieke Universiteit Leuven, 1972;
Ph.D., Katholieke Universiteit Leuven, 1974.

PHILIP C. WANDER (2007)

President's Professor of Communication Studies

B.S., Southern Illinois University, 1963;
M.A., University of Pittsburgh, 1965;
Ph.D., University of Pittsburgh, 1968.

ROBIN WANG (1999)

Professor of Philosophy and Director of Asian and Pacific Studies

B.A., Peking University, 1980;
M.A., Peking University, 1983;
M.A., University of Notre Dame, 1988;
Ph.D., University of Wales, 1998.

YANJIE WANG (2011)

Assistant Professor of Asian and Pacific Studies

B.A., Peking University, Beijing, 2001;

M.Phil., Chinese University of Hong Kong, 2004;

Ph.D., University of Illinois at Urbana-Champaign, 2011.

RACHEL WASHBURN (2009)

Assistant Professor of Sociology

B.A., University of California, Santa Cruz, 1999;
Ph.D., University of California, San Francisco, 2009.

LAWRENCE A. WENNER (2000)

Von der Ahe Chair of Communication and Ethics

B.A., California State University, Northridge, 1974;
M.A., University of Iowa, 1976;
Ph.D., University of Iowa, 1977.

KEVIN J. WETMORE, JR. (2005)

Associate Professor of Theatre Arts

B.A., Bates College, 1991;
M.A., University of Leeds, 1992;
Ph.D., University of Pittsburgh, 1999.

KENNEDY WHEATLEY (2000)

Assistant Professor of Film and Television Production and Graduate Director

B.A., Michigan State University, 1980;
M.F.A., University of Southern California, 1998.

THOMAS I. WHITE (1994)

Hilton Professor in Business Ethics and Adjunct Professor of Philosophy

A.B., College of the Holy Cross, 1969;
M.A., Columbia University, 1970;
Ph.D., Columbia University, 1974.

DAMON WILLICK (2005)

Associate Professor of Art History

B.A., University of California, Los Angeles, 1994;
M.A., University of California, Riverside, 1996;
Ph.D., University of California, Los Angeles, 2004.

JEFFREY L. WILSON (1995)

Associate Professor of Philosophy and Associate Dean, Bellarmine College of Liberal Arts

B.A., St. John's College, 1985;
M.A., Emory University, 1991;
Ph.D., Emory University, 1995.

LUCY WILSON (1982)

Professor of English

B.A., Kutztown University, Pennsylvania, 1974;
M.A., Kutztown University, Pennsylvania, 1975;
Ph.D., Temple University, 1982.

ROBERT D. WINSOR (1991)

Professor of Marketing

B.A., University of La Verne, 1982;
B.A., Claremont McKenna College, 1983;
Ph.D., University of Southern California, 1989.

AMY WOODSON-BOULTON (2004)

Associate Professor of History

B.A., University of California, Berkeley, 1994;
M.A., University of California, Los Angeles, 1999;
Ph.D., University of California, Los Angeles, 2003.

GAIL WRONSKY (1987)

Professor of English

B.A., University of Virginia, 1978;
M.F.A., University of Virginia, 1981;
Ph.D., University of Utah, 1986.

JIE XU (2009)

Assistant Professor of Electrical Engineering

B.S., Tianjin University, 2000;
M.S., Tianjin University, 2003;
Ph.D., University of Massachusetts, Amherst, 2008.

SUN-HEE YOON (2009)

Assistant Professor of History

B.A., Ewha Women's University, Seoul, Korea, 1992;
M.A., City University of New York, 1998;
M.A., New School for Social Research, 2001;
Ph.D., University of Washington, Seattle, 2009.

KELLY YOUNGER (2001)

Associate Professor of English
 B.A., Loyola Marymount University, 1994;
 M.A., Loyola University Chicago, 1996;
 Ph.D., University College, Dublin, 1999.

MOLLY YOUNGKIN (2007)

Assistant Professor of English
 B.G.S., University of Dayton, 1995;
 M.A., Wright State University, 1998;
 Ph.D., Ohio State University, 2002.

KATERINA ZACHARIA (1999)

Associate Professor of Classics and Archaeology
 B.A., Capodistrian University, 1988;
 M.A., University College, London, 1990;
 Ph.D., University College, London, 1996.

THOMAS M. ZACHARIAH (1988)

Associate Professor of Mathematics
 B.S., Kerala University, 1971;
 M.S., Kerala University, 1973;
 M.A., Claremont Graduate University, 1980;
 Ph.D., Claremont Graduate University, 1984.

SEID M. ZEKAVAT (1964)

Professor of Economics
 B.A., Tehran University, 1955;
 B.A., Pepperdine University, 1960;
 M.A., University of Southern California, 1961;
 Ph.D., University of Southern California, 1964.

PAUL TIYAMBE ZELEZA (2009)

Presidential Professor of African American Studies and History and Dean of the Bellarmine College of Liberal Arts
 B.A. University of Malawi, 1976;
 M.A. University of London, 1978;
 Ph.D., Dalhousie University, 1982.

ANATOLY ZHUPLEV (1992)

Professor of Management
 B.S., Ordzhonikidze Engineering-Economics Institute,
 Moscow, 1974;
 Ph.D., Moscow Management Institute, 1981.

DONALD ZIRPOLA (1978)

Professor of Film and Television Production
 B.A., Chapman College, 1970;
 M.F.A., University of Southern California, 1973.

University Librarians**ANTHONY J. AMODEO (1984)**

Reference Librarian
 B.A., De Paul University, 1967;
 M.A.L.S., Rosary College, 1981;
 M.A., Loyola Marymount University, 1989.

CYNTHIA BECHT (1995)

Head of Archives and Special Collections
 B.A., University of California, Los Angeles, 1987;
 M.L.S., University of California, Los Angeles, 1993.

TOBEYLYNN BIRCH (2008)

Associate Dean
 B.A., University of California, Santa Cruz, 1972;
 M.A., University of Denver, 1976.

KRISTINE BRANCOLINI (2006)

Dean of the Library
 B.A., Scripps College, 1973;
 M.L.S., Indiana University, 1974;
 Ph.D., Indiana University, 1983.

LAUREL BURKS (2009)

Business Librarian
 B.S., Georgetown University, 1977;
 M.L.S., University of California, Los Angeles, 2008.

PAMELA CLARKE (2005)

Cataloging Librarian
 B.A., California State University, Fullerton, 1989;

M.S.L.I.S., University of Illinois, 2000.

SUSAN GARDNER (2009)

Head of Reference and Instruction Services
 B.A., Emory University, 1996;
 M.L.S., University of North Carolina, Chapel Hill, 2000.

MAHNAZ GHAZNAVI (2010)

Curator of University Archives
 B.A., University of California, Los Angeles, 1991;
 M.A., Columbia University, 1992;
 M.L.I.S., University of California, Los Angeles, 2002.

JAMIE HAZLITT (2006)

Reference Librarian
 B.A., University of Washington, 1998;
 M.L.I.S., University of California, Los Angeles, 2005.

CHRISTINA HENNESSEY (2002)

Cataloging Librarian
 B.S., Virginia Polytechnic Institute & State University, 1992;
 M.L.I.S., University of California, Los Angeles, 2002.

CHARLES HILLEN (2010)

Head of Acquisitions and Serials
 B.Music, University of Cincinnati, 1988;
 M.Music, University of Cincinnati, 1990;
 M.S.I.S., University of Tennessee, Knoxville, 2005.

GLENN JOHNSON-GRAU (1996)

Head of Collection Department
 B.A., University of California, Los Angeles, 1987;
 M.L.S., University of California, Los Angeles, 1994.

ALEXANDER JUSTICE (2002)

Reference Librarian
 B.A., Loyola Marymount University, 1991;
 M.L.I.S., University of California, Los Angeles, 2002.

MARIE KENNEDY (2008)

Serials and Electronic Resources Librarian
 B.F.A., Saint Mary's College (Indiana), 1993;
 M.F.A., University of Texas, Austin, 1996;
 M.S.I.S., University of North Carolina, Chapel Hill, 2005.

JENNIFER MASUNAGA (2010)

Reference Librarian
 B.A., Occidental College, 2006;
 M.L.I.S., University of California, Los Angeles, 2008.

CHRISTINE MEGOWAN (2008)

Special Collections Librarian
 B.A., University of California, San Diego, 2004;
 M.L.I.S., University of California, Los Angeles, 2006.

CARMEN MITCHELL (2008)

Digital Projects Librarian
 B.A., University of Massachusetts, Boston, 1999;
 M.S.L.I.S., Simmons College, 2008.

RHONDA ROSEN (1987)

Head of Media and Access Services
 B.A., University of California, Los Angeles, 1977;
 M.L.S., University of California, Los Angeles, 1987.

KENNETH SIMON (2006)

Reference Librarian
 B.A., University of California, Santa Cruz, 1991;
 M.L.I.S., University of California, Los Angeles, 2006.

ELISA SLATER (1999)

Reference Librarian
 B.A., University of California, Riverside, 1991;
 M.L.I.S., University of California, Los Angeles, 1999.

CLAY STALLS (2000)

Manuscript Curator/Librarian
 B.A., Texas Tech University, 1979;
 Ph.D., University of California, Los Angeles, 1991;
 M.L.I.S., University of California, Los Angeles, 1999.

WALTER WALKER (1996)

Head Cataloging Librarian

B.A., University of California, Santa Barbara, 1979;
M.L.S., University of California, Los Angeles, 1990.

MEGHAN WEEKS (2009)

Systems Librarian
B.A., Rutgers University, 1993;
M.L.S., Rutgers University, 1996;
M.B.A., Rider University, 2008.
